**16.** Since 1866 new administrative wants have sprung up, with the result that, in order to keep pace with those wants, it has from time to time been necessary to open new heads of Account. The passing of the Registration Acts led to the opening of a new head, entitled *Registration*, on both sides of the Account. The policy of financial decentralisation and the incorporation into the General Accounts of Local Revenue and Expenditure necessitated a new head of Account under the title of *Provincial Rates.* In 1870 the heading *Minor Departments* first made its appearance. The expenditure under this head had formerly appeared under *Administration.* With the adoption of the policy of

lending Officers to Native States, the necessity arose of opening a new head of Account, entitled *Civil Furlough Allowances*. The major head of *Famine Relief and Insurance*, which is now divided into three sub-heads, *viz., Relief, Protective Works,* and *Reduction of Debt*, was opened as a necessary result of the famine policy of 1877 and 1881. It was also, from time to time, found necessary to add new heads of Revenue under the titles of *Medical, Stationery*, and *Superannuation Contributions*. But it is under Public Works that the greatest development has occurred. The single head *Public Works* on either side of the Account was all that was required in 1861. Exclusive of Capital Expenditure on *Productive Public Works*, which stands outside the Ordinary Account, and exclusive of the grants for *Protective Works* under *Famine Relief and Insurance*, we have now in *Statement II* no less than 9 figures on the Revenue, and 11 figures on the Expenditure side of the Account, representing Public Works transactions.

**17.** In all, Mr. Massey's 20 figures on the Revenue side of the Account had increased in March 1882 to 36, and his 32 figures on the Expenditure side of the Account had increased to 49.

*Requirements of the public.*

**18.** There is not one detail which is at present given in our Statements of Account, which, for departmental purposes, could be spared. On the other hand, it is impossible not to recognise that the Statements give more detail than is generally required by the public. What I conceive is mainly required by Parliament and by the public is to present the Accounts and Estimates in a form sufficiently concise and simple to be easily understood by those who do not make a special study of Indian Finance, but whose general knowledge of financial subjects enables them readily to understand an Account presented in a clear form. Full details should indeed, as at present, be published, but in a separate form.

*How they may be met.*

**19.** The only way in which we can attain the conciseness and simplicity required by the public, and at the same time meet the necessities of administrative and departmental convenience, will be to push the grouping of the heads one stage further than the "major heads" which have heretofore been shown in the documents appended to the Financial Statement. To make any material alteration in our major heads would either render an accurate comparison with the figures of past years impossible, which would be very objectionable, or it would involve the re-compilation of the Accounts of past years, which would be a very laborious process. With one exception, of slight importance, no such alteration is either desirable or necessary.

*Division of one major head only.*

**20.** The exception to which I allude, is in respect to the heading on the Expenditure side of the Account, which has up to the present time been entitled *27. Allowances and Assignments under Treaties and Engagements.* In the classification adopted from 1861 to 1866, the charges under this head were treated along with refunds, and charges for the collection of Revenue, as direct charges against Revenue. This is also where they are placed in the existing General Account (No. 2 of the Finance and Revenue Accounts); and their close connection with this group is shown in two recent instances, namely, the Excise compensations paid in Bombay, and the payments under the Salt Treaties. Both of these are payments on account of Revenue, and are productive of a corresponding increase of Revenue. They are, therefore, not properly accounted for unless they are grouped as direct charges against Revenue. But such a payment as the yearly allowance of the Ex-King of Oudh, which also goes under this head, cannot properly be considered as a charge against Revenue. It may be more properly regarded as a purely political charge. We propose, therefore, in the future to break up the existing major head into two portions. One of these portions, entitled *Assignments and Compensations*, will be grouped under *Direct Demands on the Revenue.* The other, entitled *Territorial*

*and Political Pensions,* will be grouped under *Miscellaneous Civil Charges.* With this exception no change will be made in the existing units of Account.

*New classification.*

**21.** I now invite attention to Appendix I attached to this Minute. This Appendix contains the six following documents:—

(1) General Statement of Accounts and Estimates.
(2) Abstract A, Details of Revenue.
(3) Abstract B, Details of Expenditure.
(4) Abstract C, Details of Receipts and Disbursements other than Revenue and Expenditure.
(5) Abstract D, Provincial and Local Balances.
(6) Abstract E, Net Revenue and Expenditure.

For the future these six Statements will take the place of the ten Statements heretofore published.

*The General Statement.*

**22.** Any one who wishes to see at a glance the nature of the whole of the financial transactions of the Government of India for the years under review need only look at the General Statement. He will there see the total Revenue and Expenditure,—whether Imperial, Provincial, or Local, and whether in India or in England,—grouped under a few main heads. He will also see the whole of the cash transactions, which stand outside the Revenue and Expenditure Account. He will also see the opening and closing balances of the Government, whether in England or in India. Thus, for instance, looking to the Accounts for the year 1881-82, it will be seen that the Revenue amounted to £73,695,806, and the total Expenditure charged against Revenue to £71,113,079, thus leaving a surplus of £2,582,727; that the total Receipts, including not only Revenue, but the net receipts on account of *Debt, Deposits, and Advances*, and the gross receipts of the Secretary of State on account of Bills drawn on India, amounted to £93,516,749; that the total Disbursements, including not only Expenditure charged against Revenue, but also Capital Expenditure on *Productive Public Works* and Disbursements on account of *Debt, Deposits, and Advances* and of Council Bills, amounted to £93,871,777; that the opening cash balance in England on April 1st, 1881, amounted to £4,127,749; that the opening cash balance in India on April 1st, 1881, amounted to £13,371,101; that the Secretary of State drew Bills on the Indian Treasury amounting to £18,412,429 between April 1st, 1881, and March 31st, 1882, and that Bills amounting to £18,336,997 were paid during the same period; that the closing cash balance in England on March 31st, 1882, amounted to £2,620,909; and that the closing cash balance in India on March 31st, 1882, amounted to £14,522,913. These are the leading financial features of the year.

*Details in General Statement.*

**23.** We have carefully considered the extent to which it will be desirable to give details in the General Statement. I may observe that in the main Statement attached to the Finance Accounts of the United Kingdom, the Revenue is shown under ten heads, and the Expenditure, excluding *Interest on Debt*, which for special reasons has eight heads to itself, is shown under fourteen heads. We have roughly taken the Statement issued by the English Treasury, which is an admirable composition of its kind, as a model for our guidance.

*Principal Heads of Revenue.*

**24.** The first entry in the General Statement on the Receipt side of the Account is *Principal Heads of Revenue.* This group contains eleven items (*vide* Abstract A), of which five only are shown separately in the General Statement. These are—

*Land Revenue.*
*Opium.*
*Salt.*
*Stamps.*
*Excise.*

25. These are the main heads of Indian Revenue. They have, following the English system, been arranged in what may approximately be considered the order of their relative importance. The remaining items grouped under *Principal Heads of Revenue* are classed in the General Statement under *Other Heads*. This entry includes the following heads :—

*Provincial Rates.*
*Customs.*
*Assessed Taxes.*
*Forest.*
*Registration.*
*Tributes from Native States.*

Any one who wishes to see the detail under these heads has only to turn over the page and look at Abstract A, to which he is referred in the first column of the General Statement.

*Post Office, &c.*

26. The next item is *Post Office, Telegraph, and Mint.* These are given in one figure in the General Statement, but are separated in Abstract A.

*Receipts by Civil Departments.*

27. The next entry in the General Statement is *Receipts by Civil Departments*, a term borrowed from the English Finance and Revenue Accounts. On turning to Abstract A it will be seen that this group includes the following heads of Account :—

*Law and Justice.*
*Police.*
*Marine.*
*Education.*
*Medical.*
*Scientific and other Minor Departments.*

*Miscellaneous.*

28. The entry *Miscellaneous* in the General Statement includes—

*Interest.*
*Receipts in aid of Superannuations, &c.*
*Stationery and Printing.*
*Miscellaneous.*

The details of each item are given in Abstract A.

*Productive Public Works.*

29. It will be borne in mind that in *Statement II*, under the old classification which is now to be superseded, the Revenue from Productive Public Works was shown separately from other Public Works Revenue, and that an analogous separation was made on the Expenditure side of the Account. It is very desirable to maintain this distinction. It has, therefore, been maintained in the General Statement. It is, of course, to be borne in mind that the word "Productive" has, for the purposes of the present argument, a technical signification. It is not to be inferred that a work not classed as Productive is entirely unremunerative. What is meant is that only Capital Expenditure on works classed as Productive is allowed to stand outside the Ordinary Account. Borrowing in respect to the construction of these works is permissible. Expenditure on all works not classed as Productive is charged to Revenue.

*Revenue from Productive Public Works.*

30. It will be seen on referring to Abstract A that the entry in the General Statement entitled *Revenue from Productive Public Works,* includes the following items :—

*State Railways* (*Gross Earnings*).
*Guaranteed and Subsidized Railways* (*net Traffic Receipts*).
*East Indian Railway* (*net Traffic Receipts*).
*Irrigation and Navigation* (*Direct Receipts*).
*Madras Irrigation and Canal Company* (*net Traffic Receipts*).
*Portion of Land Revenue due to Irrigation.*

*Receipts on account of Public Works not classed as Productive.*

31. The entry in the General Statement entitled *Receipts on account of Public Works not classed as Productive*, includes the following items :—

*State Railways.*
*Subsidized Railways.*
*Irrigation and Navigation.*
*Military Works.*
*Civil Buildings, Roads, and Services.*

*Other Public Works.*

32. Up to the present time the receipts and expenditure connected with *Military Works* and *Civil Buildings, Roads, and Services*, have appeared under the head *34. Other Public Works*. This heading was first adopted in February 1880. The entry does not carry its own meaning with it, and on that account appears to be objectionable. As a matter of fact the money is spent partly on *Military Works*, which receive a fixed annual grant of £1,000,000, and partly on *Civil Buildings, Roads, and Services*. Under these circumstances the most simple plan appears to be to adopt a nomenclature in the Accounts which carries its own signification with it.

*Receipts by Military Departments.*

33. The next item in the General Statement, namely, *Receipts by Military Departments*, is divided, in Abstract A, into three heads, *viz.* :—

*Army.*
*Military Operations in Afghanistan.*
*Military Operations in Egypt.*

The two last items are, of course, exceptional, and only appear in the Accounts and Estimates of the years when Military Operations were conducted in Afghanistan and Egypt respectively.

*Expenditure.*

34. I now turn to the Disbursement side of the Account. Here again the Expenditure has been grouped under a few main heads, the detail being given in Abstract B, to which a reference is made in the first column of the General Statement.

*Interest.*

35. The first entry is *Interest*. It is to be borne in mind that this entry only gives the Interest charged to Ordinary Debt, that is to say, it is exclusive of the amount of Interest charged to Productive Public Works. This latter charge appears lower down in the General Statement, being included in the group entitled *Expenditure on Productive Public Works (Revenue Account)*. The single head of *Interest* in the General Statement is, in Abstract A, divided into two heads, *viz.* :—

*Direct Demands on the Revenue.*

*Interest on Ordinary Debt (excluding that charged to Productive Public Works),*
*Interest on Deposits.*

36. The next entry is *Direct demands on the Revenues*. This entry, as will be seen by reference to Abstract B, includes the following items :—

*Refunds and Drawbacks.*
*Assignments and Compensations.*
*Charges in respect of Collection, viz.* :—
*Land Revenue.*
*Opium (including cost of production).*
*Salt (including cost of production).*
*Stamps.*
*Excise.*
*Provincial Rates.*
*Customs.*
*Assessed Taxes.*
*Forest.*
*Registration.*

The whole of these items are payments on account of Revenue, that is to say, they are, to a greater or less degree, productive of a corresponding increase of Revenue. They are, therefore, properly grouped under *Direct demands on the Revenues.*

*Post Office, &c.*

**37.** The next entry is *Post Office, Telegraph, and Mint.* Following the course adopted on the Revenue side of the Account, the Expenditure under these three heads is shown in one figure in the General Statement. The detail is given in Abstract B.

*Salaries and Expenses of Civil Departments.*

**38.** The next entry in the General Statement is *Salaries and Expenses of Civil Departments.* A reference to Abstract B will show that this entry includes the following items:—

*General Administration.*
*Law and Justice.*
*Police.*
*Marine (including River Navigation).*
*Education.*
*Ecclesiastical.*
*Medical.*
*Political.*
*Scientific and other Minor Departments.*

*Miscellaneous Civil Charges.*

**39.** The next entry is *Miscellaneous Civil Charges.* A reference to Abstract B will show that this entry includes the following items:—

*Territorial and Political Compensations.*
*Civil Furlough and Absentee Allowances.*
*Superannuation Allowances and Pensions.*
*Stationery and Printing.*
*Miscellaneous.*

*Famine Relief and Insurance.*

**40.** The next entry is *Famine Relief and Insurance.* Up to the present time the expenditure on *Protective Works*, whether on Railways or Canals, has been shown in one figure. In future it is proposed to show the expenditure on Railways and that on Irrigation separately. The entry *Famine Relief and Insurance* in the General Statement, is, therefore, in Abstract B divided into the following sub-heads:—

*Famine Relief.*
*Protective Works, Railways.*
*Protective Works, Irrigation.*
*Reduction of Debt.*

*Productive Public Works (Revenue Account).*

**41.** The next entry is *Expenditure on Productive Public Works (Revenue Account).* This answers to the entry *Revenue from Productive Public Works* on the Revenue side of the Account. A reference to Abstract B will show that the details are given under the following heads:—

*State Railways (Working and Maintenance).*
*Guaranteed and Subsidized Railways (Interest and Profits).*
*East Indian Railway (Interest and Profits).*
*Irrigation and Navigation (Working and Maintenance).*
*Madras Irrigation and Canal Company (Interest, &c.).*
*Interest on Debt incurred for Productive Public Works:—*
*Railways.*
*Irrigation.*
*Miscellaneous Public Improvements.*

**42.** The next entry is *Expenditure on Public Works not classed as Productive.* This answers to the entry *Receipts on account of Public Works not*

*classed as Productive* on the Revenue side of the Account. A reference to Abstract B will show that the details are given under the following heads:—

*State Railways (Capital Account).*
*State Railways (Working and Maintenance).*
*Subsidized Railways.*
*Southern Mahratta Railway.*
*Frontier Railways.*
*Irrigation and Navigation.*
*Military Works.*
*Civil Buildings, Roads, and Services.*

*Army Services.*

**43.** The next entry, *Army Services*, is divided into three heads in Abstract B, *viz.*:—

*Army.*
*Military Operations in Afghanistan.*
*Military Operations in Egypt.*

The last two items are, of course, exceptional.

*Gain by Exchange.*

**44.** The next entry is *Exchange on Transactions with London.* Up to the present time one item, entitled *Gain by Exchange*, has been entered on the Revenue, and another item, entitled *Loss by Exchange*, has been entered on the Expenditure side of the Account. As regards the item *Gain by Exchange*, I beg to refer those who wish to gain a thorough knowledge of what this entry means to the Report of the Comptroller-General on the Accounts of 1880-81, which was published in the *Gazette of India* of March 4th, 1882. For my present purposes it will perhaps be sufficient to say that every rupee entered under *Gain by Exchange* represents merely the recovery of an amount which has been already charged under *Loss by Exchange*, and which has, therefore, to be written back. There is, I need hardly say, no real gain, using the term in its ordinary signification.

*Loss by Exchange.*

**45.** The true meaning of the entry *Loss by Exchange* has been very frequently explained (see especially para. 80 of the Financial Statement for 1881-82). But so long as we continue to employ the words heretofore used, so long will a large body of the public continue to think that the whole amount of this adjustment is really money lost to the tax-payers. To describe fully what this entry means would involve an amount of writing which would be quite inconsistent with the brevity necessarily required in an item of Account. But if we cannot describe what is meant in the body of the Accounts, we can, at all events, avoid the use of words which are misleading. To speak of the total amount entered under *Loss by Exchange* as money lost, is, of course, wholly erroneous, for under any reasonable hypothesis in respect to the relative value of gold and silver, only a portion of the amount can be considered as a real loss. We propose, therefore, for the future, in so far as the published Accounts are concerned, to get rid of the item *Gain by Exchange* on the Revenue side of the Account altogether, to discontinue the use of the word "Loss," and to insert a net figure on the Expenditure side of the Account, under the head of *Exchange on Transactions with London.*

*Provincial Surpluses and Deficits.*

**46.** Following the order of entries on the Disbursement side of the General Statement, the next items are the two adjusting entries, namely, *Provincial Surpluses, that is, Allotments to Provincial Governments unspent by them,* and *Provincial Deficits, that is, Portion of Provincial Expenditure defrayed from Provincial Balances.* For the moment I postpone my observations in respect to these two entries.

*Total Expenditure charged against Revenue.*

**47.** After these entries the *Total Expenditure charged against Revenue* is given.

*Productive Public Works, Capital Account.*

**48.** Immediately under this item comes the *Expenditure on Productive Public Works (Capital Account).* This is the same entry which has formerly

figured in *Statement II*, under the head of *37. Productive Public Works.* The detail of this entry is given at the end of Abstract B under the following heads:—

*State Railways.*
*East Indian Railway.*
*Irrigation and Navigation.*
*Madras Irrigation and Canal Company's Undertakings.*
*Miscellaneous Public Improvements.*

*Debt Heads.*

**49.** I have, so far, dealt only with the Revenue and Expenditure portions of the General Statement. I now proceed to deal with the Debt heads.

*Receipts.*

**50.** The Receipts under *Debt, Deposits, and Advances* are given under the following heads:—

*Permanent Debt (net Incurred).*
*Unfunded Debt (net Incurred).*
*Deposits and Advances (net).*
*Loans to Municipalities, Native States, &c. (net Recoveries).*
*Capital of Guaranteed and Subsidized Companies (net Receipts).*
*Remittances (net).*
*Secretary of State's Bills drawn.*

*Disbursements.*

**51.** Analogous entries are given in respect to the Disbursements on the other side of the Account. Full details in respect to the *Debt, Deposit, and Advance* Accounts will be found in Abstract C, which contains, indeed, more detailed information than has heretofore been given in *Statements IV, VII,* and *VIII* of the old classification.

*Opening and Closing Balances.*

**52.** The General Statement closes, on the Receipt side of the Account, with the balance at the commencement of the year in England and in India, and on the Disbursement side of the Account, with the balance at the close of the year in England and in India.

*Provincial and Local Balances.*

**53.** Abstract D gives the *Provincial and Local Balances.* This Account contains, in a somewhat condensed form, the same information as was given in *Statement IX, Closing Balances of the Provincial Governments* under the old classification.

*Net Revenue and Expenditure.*

**54.** Abstract E gives the *Net Revenue and Expenditure.* It contains the same information as was given in *Statement X* of the old classification, but arranged in a somewhat more precise form.

*Adjusting entries.*

**55.** I have so far stated what it is proposed to do with a view to making the Accounts and Estimates more simple and concise. I now propose to deal with the question of the adjusting entries entitled *Provincial and Local Surpluses and Deficits*, which, as I have already mentioned (para. 14) do not appear to be readily understood.

*Explanation of entries.*

**56.** The nature of these entries has frequently been explained before, but it will perhaps be as well that I should endeavour to explain them again. Under the Provincial system of Finance, the Government of India either makes allotments to Provincial Governments, or else hands over to them, in whole or in part, certain branches of the Revenue. If in any one year a Provincial Government spends less than its income, the amount by which it under-spends its income constitutes virtually a debt due by the Government of India to that Provincial Government. If, on the other hand, a Provincial Government, having a balance at its credit, spends in any one year, in addition to the income of that year, a portion of the accumulated balances of former years, then the debt due by the Government of India to that Provincial Government is by so much reduced. It would, of course, be very easy to present an Account which should show nothing but Imperial Revenue and Expenditure, and such an Account would, no doubt, be much more readily understood by the public than one which

embodies Imperial, Provincial, and Local Revenue and Expenditure. But it has been held, and I venture to think rightly held, that the adoption of this course is open to very great objection. It would not present an accurate picture of the sums received and spent by the Government in India. Thus, to take a single instance, under this system the Stamp Revenue for the year 1881-82 would appear as amounting only to £576,252 (see Appendix I. Abstract A), but, as a matter of fact, the Revenue derived from Stamps amounted to £3,381,372, of which £576,252 was Imperial and £2,805,120 was Provincial and Local. If, therefore, we want to show the total amount received and spent by the Government in India, and if at the same time we want to show in the same Account the net result of the year's finance to the Imperial Government only, it is absolutely necessary to make use of two adjusting entries. The *Provincial Surpluses*, that is to say the amounts by which the Provincial Governments have underspent their income and which, as I have already said, constitute a debt due from the Government of India to the Provincial Governments, must be added to the total expenditure. On the other hand, the *Provincial Deficits*, that is to say the portion of Provincial expenditure which has been defrayed from the accumulated Provincial balances of past years, and which, by so much, diminishes the debt due from the Government of India to the Provincial Governments, must be deducted from the total expenditure. This is done in the two adjusting entries which appear on the Disbursement side of the Account in the General Statement.

57. It is very possible, however, even with this explanation, and in spite of the explanatory language now employed for the first time in the General Statement,—to which I invite a reference,—that the matter will not be very readily understood. I have, therefore, appended to this Minute a memorandum (Appendix IV) which deals with the question at greater length, and which may possibly serve to render it more clear to the few people who are interested in the subject. Further, it will be seen on reference to Abstracts A and B of Appendix I that a separation is made between the Imperial Revenue and Expenditure on the one hand, and the Provincial and Local Revenue and Expenditure on the other hand. It will be seen that the Imperial Revenue and Expenditure in England and in India are shown separately, as was the case in *Statements V* and *VI* heretofore published. The whole of the Provincial and Local Revenue and Expenditure is in India, at least the few English items are brought on the Indian part of the Accounts. No such separation is, therefore, necessary. In *Statement III*, formerly published, the Provincial Revenue and Expenditure was shown separately from the Local Revenue and Expenditure. It has been thought, however, unnecessary to continue this separation so far as the Accounts and Estimates attached to the Financial Statement are concerned. It will be seen that in Abstracts A and B no such separation is made. A reference to the columns showing Imperial Revenue and Expenditure alone in Abstracts A and B will show, that although, of course, the several items are different to those shown in the General Statement—Provincial and Local Revenue and Expenditure being included in the latter,—*the net result is the same as that given in the General Statement after the adjusting entries have been made.* Thus, looking at the Accounts for the year 1881-82, the *Total Revenue* is given in the General Statement as £73,695,806, and the *Total Expenditure charged against Revenue* is given as £71,113,079, leaving a surplus of £2,582,727. In Abstract A the Imperial Revenue only is given as £54,618,853, and in Abstract B the Imperial Expenditure charged against Revenue is given at £52,036,126, thus leaving, as in the General Statement, a surplus of £2,582,727.

58. A further change has been made which will, I trust, help towards the ready comprehension of this subject. If reference be made to *Statement III*, *Adjustments in former Statement III.*

published on the occasion of former Financial Statements, in which a distinction is made between Imperial, Provincial, and Local Revenue and Expenditure, it will be seen that the following entries appear on the Expenditure side of the Account :—

*Add—*

*Contributions to Imperial.*
*,, ,, Provincial.*
*,, ,, Local.*

*Deduct—*

*Imperial Allotment.*
*Contributions from Imperial.*
*,, ,, Provincial.*
*,, ,, Local.*

*To be discontinued.*

59. These adjustments are, without doubt, somewhat complicated and difficult to understand. For the future we propose to get rid of them altogether by passing all adjustments between Imperial and Provincial through the Land Revenue head, that is to say, they will be treated as additions to or subtractions from the Provincial share of the Land Revenue. It will be seen, on referring to the end of Abstract B, that no such entries appear as those which I have quoted from *Statement III* of the old classification.

*Fallacy of leaving Adjusting Entries out of account.*

60. I am aware that it may,—and by those who are resolved to take an ultra-pessimist view of the financial position of India, very probably will,—be said that the surplus of £59,800 shown, for instance, in the Revised Estimates for 1882-83, is fictitious, and that the correct view of the situation is to take no account of the adjusting Entries and thus show a deficit of £1,465,600. I can only say that any such statement would be wholly incorrect. As I have already said (para. 8), I am very far from wishing to under-rate the difficulties connected with the administration of the Indian Finances. It is not the duty of the Government, nor is it my duty, to take either an optimist or a pessimist view of the situation, but to lay before the public the facts of the situation as they stand, without exaggeration either in one direction or the other. But I may say that, whatever be the real difficulties connected with the financial administration of India, nothing could be more incorrect than to say, that because the Imperial and Provincial Revenue, taken together, falls short of the Imperial and Provincial Expenditure, taken together, in 1882-83 by £1,465,600, that, therefore, there is anything unsound in the financial situation, or that the surplus on Imperial Account does not in reality exist. On the contrary, so far as this particular argument is concerned, the fact that the Provincial Governments have been able to accumulate considerable sums in past years, and are now able to spend those sums, to a certain extent, on works of public utility, is in itself exceedingly satisfactory. The fallacy of this argument will perhaps become apparent if we look at the converse case presented in the Accounts of 1881-82. The true Imperial Surplus in that year, as appears from the General Statement and from Abstract B, is £2,582,727. But, under the assumption that the adjusting entries should be left out of account, the Surplus would be £4,102,519, that is to say £2,582,727 on Imperial and £1,519,792 on Provincial and Local Accounts. So, again, if we look at the Accounts for the last eleven years, that is to say, from 1871-72 to 1881-82, both inclusive (see Appendix III), it will be seen that there

| | £ |
|---|---|
| Revenue | 67,913,900 |
| Expenditure | 69,379,500 |
| Deficit | 1,465,600 |

| | £ |
|---|---|
| Revenue (Abstract A) | 73,695,806 |
| Expenditure (Abstract B) | 69,593,287 |
| Surplus | 4,102,519 |

have been six years in which the Revenue exceeded the Expenditure, the combined surpluses amounting to £ 11,494,784. Further, that there have been five years in which the Expenditure exceeded the Revenue, the combined deficits amounting to £12,760,621. The net result of the eleven years is, therefore, a deficit of £1,265,837, a result which, I may observe, cannot be considered as otherwise than satisfactory when it is remembered that during these years two severe famines and one costly war took place, and that the Expenditure includes nearly £1,500,000 as an insurance against future famines. But if we exclude the adjusting entries, we should arrive at a wholly different result. The eleven years would then show a net surplus of £2,041,494, that is to say, this incorrect mode of treatment would show a result of £3,307,331 better than the reality (see the end of Abstract B in Appendix III).

*Conclusion.*

**61.** Such, therefore, are the steps we propose to take with a view to facilitate the comprehension of the Indian Accounts and Estimates. It will be seen that the bulk of the published Statements is very considerably diminished, and yet I venture to think that all the details that are really necessary have been given. I need hardly say that for those who require to go into further detail, the Finance and Revenue Accounts (generally known as the Yellow Book), which have always been published, will be available, as well as the Appropriation Audit Report of the Comptroller General, which is published for the first time this year (see *Gazette of India* of March 17th, 1883).

**62.** The discussions which will, without doubt, ensue in connection with the Financial Statement now published, will probably show whether the object we have had in view has been attained. It is very possible that neither the officers of the Financial Department nor myself are good judges of what will and what will not be readily understood by the public. It is not impossible that our own familiarity with the subject, and the fact that it is our special business to be constantly dealing with these figures, leads us to suppose that the whole subject is more easy of comprehension than is really the case.

*Old classification published.*

**63.** With a view to enabling the nature of the changes now made to be more readily understood, I have annexed to this Minute (Appendix II) the Accounts for the year 1881-82 as well as the Estimates for the years 1882-83 and 1883-84 in the forms heretofore published.

*Accounts of former years.*

**64.** With a view, also, to enabling comparisons to be more easily made with former years, I annex to this Minute the Accounts from the year 1871-72 arranged according to the new classification (Appendix III).

*Appendices.*

**65.** It has heretofore been the custom to publish as Appendices to the Financial Statement, a series of commercial and statistical tables. These will, as heretofore, be published, (see *Gazette of India* of March 17th, 1883) but they will not be appended to the Financial Statement. They will be published separately. In future years the only Statements which will ordinarily be annexed to the Financial Statement will be—

(1) The General Statement.
(2) Abstract A, Details of Revenue.
(3) Abstract B, Details of Expenditure.
(4) Abstract C, Details of Receipts and Disbursements other than Revenue and Expenditure.
(5) Abstract D, Provincial and Local Balances.
(6) Abstract E, Net Revenue and Expenditure.

*Services rendered by various officers.*

**66.** I cannot close these remarks without expressing my cordial thanks, on behalf of the Government of India, for the assistance rendered by Mr. Cave

Browne and Mr. Waterfield at the India Office, and by Mr. Westland and Mr. Barbour in India, in dealing with this complicated subject. Should the object we have in view be attained, and the Accounts and Estimates of the future be more readily comprehensible to the public than heretofore, the credit will be mainly due to the labours of these gentlemen.

## III.—Accounts for 1881-82.

**Accounts, 1881-82.**

67. The Accounts of the year 1881-82 show the following result:—

| | £ |
|---|---|
| Revenue . . . . . | 73,695,806 |
| Expenditure . . . . . | 71,113,079 |
| Surplus . | 2,582,727 |

*Remarks on the Accounts.*

68. The year 1881-82 was in every respect one of remarkable prosperity. Almost every branch of Revenue yielded a sum largely in excess of the Estimates. The net *Opium* Estimate (£6,500,000) was exceeded by £1,305,000, of which £1,099,400 was due to excess Revenue and £205,600 to relatively low Expenditure consequent on a rather short Opium crop in Behar. *Salt* gave (net) £164,400 in excess of the Budget, and £220,400 in excess of the Revised Estimate. *Excise* gave £398,400 (net) in excess of the Budget Estimate. The import duties were abolished on March 10th, and allowance was made in the Revised Estimates for a falling off in *Customs* Revenue during the last three weeks of the year on that account. This falling off was, however, more than counterbalanced by the excess receipts from the export duty on rice, which yielded £104,100 more than the Budget Estimate. Owing to a large demand for timber, *Forests* gave (net) £117,800 in excess of the Budget Estimate. A large premium (£155,300) was realised on the Government loan of £3,000,000, which was taken up at an exceptionally high figure ($105\frac{3}{16}$). *State Railways* yielded (net) £119,100 in excess of the Budget, and £101,100 in excess of the Revised Estimates. *Guaranteed and Subsidised Railways* (*net Traffic Receipts*, after deduction of *Interest and Profits*) yielded no less than £722,700 in excess of the Budget, and £136,700 in excess of the Revised Estimates. The *East Indian Railway* (*net Traffic Receipts*) gave £461,900 in excess of the Budget, and £151,900 in excess of the Revised Estimates.

*Extraordinary Receipts and Expenditure.*

69. It is true that the surplus of the year was swelled by some extraordinary receipts. The portion, which remained to be brought to account during the year, of the *English Contribution for the Afghan War*, exceeded the net War expenditure of the year by £380,600 (see para. 70 of the Financial Statement for 1882-83 and para. 196 of the Appropriation Audit Report for 1881-82). Also the *Salt* Revenue during the last three weeks of the year was exceptionally high. I shall presently allude more specifically to this subject (see paras. 112—115). On the other hand, some very heavy extraordinary payments were made and the Expenditure under *Exchange* was largely in excess of the Estimates. The amount (£670,000) contributed by the Provincial Governments to the Afghan War Expenditure was repaid to those Governments by the Government of India. Special payments, amounting in all to £360,000, were made in connection with the renewal of the Provincial contracts (see paras. 64 and 70 of the Financial Statement for 1882-83). The Expenditure under *Exchange*

exceeded the Estimate by no less than £493,700. This excess was mainly due (1) to the fact that a large demand for bills sprung up at the end of the year, which enabled the Secretary of State to draw £1,212,400 (true sterling) in excess of his requirements for 1881-82, and (2) to the fact that the average rate obtained on the whole of the remittances (£18,412,429, true sterling), was 1*s.* 7·895*d.* against an Estimate of 1*s.* 8*d.*

**70.** On the whole, it may be said that, if the exceptional expenditure as well as the extraordinary items of Revenue be excluded from the account, the surplus would appear largely in excess even of the high figure (£2,582,727) which it actually attained.

**71.** For further details in connection with the Accounts of 1881-82, I beg to refer to the Comptroller General's Appropriation Audit Report published in the *Gazette of India* of March 17th, 1883.

## IV.—Effect of abolishing the Import Duties.

**Effect of abolishing the Import Duties.**

**72.** It is of course too early yet to gauge the full measure of the advantage which India will ultimately derive from the abolition of the import duties, but the figures annexed to this Minute (Appendix V) are of some interest.

**73.** Exclusive of Government stores the imports of merchandise in the ten months from April 1st, 1882, to January 31st, 1883, amounted to £41,945,202, being £2,775,718 in excess of the imports for the corresponding period of 1881-82 (£39,169,484). The exports amounted to £65,770,066, being £1,324,783 in excess of the corresponding period of the year 1881-82 (£64,445,283).

*Import of articles exempted from duty.*

**74.** I append also (Appendix V) a Statement showing the quantities and values of those articles imported into British India, which were exempted from Customs duty last March, during the ten months ending January 31st, 1883, compared with the corresponding period of the year 1881-82.

*Increase of Imports.*

**75.** The articles in which an increase is shown in both quantity and value are 40 in number, the most important being Twist and Yarn, which have increased 11·59 per cent. in quantity and 7·5 per cent. in value; Grey Piece-goods, which have increased 1·92 per cent. in quantity and 2·0 per cent. in value; Coloured Piece-goods, which have increased 29·43 per cent. in quantity and 29·47 in value; Hardware and Cutlery, which have increased 22·88 in value; Copper, which has increased 32·07 in quantity and 31·01 in value; Iron, which has increased 34·12 in quantity and 37·59 in value; and Raw Silk, which has increased 43·80 per cent. in quantity and 52·28 per cent. in value. The increase in some minor articles of trade, such as Corals, Jewellery, Brass, Paints and Colours, Shells and Cowries, and Umbrellas are satisfactory indications of general prosperity.

*Decrease of Imports.*

**76.** The articles of trade in which a decrease is shown are 14 in number, the most important being White Piece-goods, which have decreased 18·35 per cent. in quantity and 10·88 in value; Silk Piece-goods, which have decreased 25 26 in quantity and 24·89 per cent. in value; and Tea, which has decreased 15·30 per cent. in quantity and 12·72 per cent. in value.

**77.** The total value of the articles of trade in which there has been an increase is £28,517,941, and of those in which there has been a decrease, £5,499,360; so that, of all articles affected by the remission of the duties, those in which the trade has increased represent a value of more than five times as great as that of the articles in which there has been a decrease. If we balance one set against the other, the total increase in the value of merchandise im-

ported during the ten months is 7·26 per cent. It is, of course, impossible to say with accuracy how far this increase is due to the abolition of the duties and how far it would have taken place had the duties been maintained. All that can be said with certainty on this subject is that the abolition of the duties must have contributed to increase the volume of trade.

*General result.*

**78.** Considering the low rate of exchange, which has, of course, operated unfavourably to imports, and considering the Egyptian complications, which not only for some time interrupted trade but, by creating a demand for Government transport, kept freights during part of the year at a higher level than they otherwise would have been, the result may be considered as satisfactory. In a slow-moving country such as India, it was not to be expected that the full advantage to be derived from the abolition of the import duties would be immediately obtained, or that consumption would increase at once in the ratio known to European countries.

**79.** The relief afforded to trade in general owing to the cessation of all the embarrassment and delay consequent on the levy of duties at the custom-house, cannot be represented in any arithmetical form. It is, however, a very important factor in the consideration of the question. The complaints on various petty matters, which were so frequently addressed to the Government whilst the duties were levied, have now almost entirely ceased.

*Effect on Indian goods.*

**80.** Independently of the question of the effect of the abolition of the import duties on the volume of the trade, it is desirable to examine whether the abolition has exercised any appreciable effect upon the import trade in those articles which compete with Indian-made goods of similar kinds.

*Cotton goods.*

**81.** Of such articles the most important are Cotton Twist and Cotton Piece-goods. In respect to these articles there has been a general increase, both in the quantity and the value of the imports, except under the head of White Piece-goods.

*Twist.*

**82.** The Twist which is imported from Europe does not compete with Indian Twist. For years past the great bulk of the Twist imported has been of counts much higher than any that can as yet be made in the Indian mills, which limit themselves to the production of Twist of counts not exceeding 32 (Mule) and 20 (Water). All such kinds of English Twist were freed from duty in March 1878.

*Piece-goods.*

**83.** Of the Grey Piece-goods imported, those classes which compete with Indian-made goods were also exempted from duty in March 1879.

**84.** White Piece-goods are hardly produced at all as yet in India, except experimentally in one or two of the Bombay mills. As I have already mentioned, there has been a large decline in the imports of this class of goods.

**85.** The Piece-goods classed as "Other sorts" are not made in India.

**86.** The remission of the customs duties last year did not, therefore, in any way affect Indian mills, which have had to work without the protection of 3½ per cent. on Twist since March 1878 and of 5 per cent. on Grey Piece-goods of counts below 30s, since March 1879 As was pointed out in the Financial Statement of last year (paras. 210 and 211), the duty which was abolished last March really protected one class of Manchester goods against another, and even to some slight extent protected English goods against those manufactured in India. The duty forced trade into an artificial channel by stimulating the consumption of the coarser kinds of goods and discouraging the use of medium and finer classes to the extent of a differential rate of 5 per cent. I believe I am correct in stating that since the remission of the duty consumers have everywhere shown a tendency to go back to the old styles of cloth.

*Export of Cotton goods.*

**87.** The export of Indian-made Cotton Twist and Piece-goods has increased very largely as compared with the corresponding period of 1881-82. The export of Twist has increased by 44·9 per cent., namely, from 26,346,556 lbs. to 38,179,998 lbs., the increase in the China trade being especially remarkable. Piece-goods have increased to the extent of 31·3 per cent., namely, from 25,484,391 yds. to 33,454,359 yds. I am informed that eight new mills are in course of erection in Bombay, and will commence work during the current year. The prosperity of the mill-owners depends of course to a large extent upon the course of prices. Prices have fallen during the year, with the result that if we look not at the quantities, but at the values, we find that the value of Twist exported has only increased by 29 per cent. and that of Piece-goods by 20 per cent. It is, however, abundantly clear that the Indian cotton trade has in no way been detrimentally affected by the measures taken last March.

*Raw Silk.*

**88.** The import of Raw Silk has very largely increased as compared with the corresponding period of last year, although prices have been fully maintained. It is to a great extent of Chinese origin imported into Bombay for the silk mills and for hand-loom weaving, and into Burma for hand-loom weaving only. Bengal is the only Province of India where the silk-producing industry is conducted on any extensive scale. For many years past it has been in a declining condition. China silk competes with it not only in the European market but in India itself. Bengal has never been able to send any considerable quantity of silk to Bombay, which is supplied almost wholly from sources external to India. But with Madras, Bengal has formerly done a considerable trade, and this trade appears to be declining. On the other hand, the export of raw silk from Bengal to foreign countries has again given some signs of returning vigour, having increased from 281,966 lbs. to 372,072 lbs., which is, however, still below the figure of the corresponding ten months of 1880-81 (398,323 lbs.).

*Sugar.*

**89.** Last year, when the import duties were abolished, some apprehension was expressed lest their abolition should injuriously affect the sugar industry of India, and it was urged that that industry stood in need of protection. Without going into the question of the principle involved in this argument, it will be sufficient for me to say that the experience of ten months has shown that no injury to the sugar industry of India has resulted from the abolition of the duties. For all practical purposes it may be said that all the sugar imported into India is refined or crystallized sugar, which is brought from Mauritius and China to Bombay. Refined sugar is only produced to a very small extent in Bengal, the North-Western Provinces, and Madras. It is almost all used for local consumption by Europeans. In the places where such sugar is consumed no sugar has as yet been imported from abroad. The Indian export trade in sugar is carried on mostly from Madras. By far the greater portion is unrefined sugar, that is to say, molasses, jaggery, etc. The removal of the duty, therefore, did not affect Indian sugar at all, and in fact could not have done so. It appears also from the Trade Returns that, whilst the import of refined sugar has decreased from 666,587 cwt. to 519,367 cwt., that is to say by 22 per cent., the export from India of unrefined sugar has increased from 758,054 cwt. to 1,069,509 cwt., that is to say by 41 per cent Further, the export of refined sugar, which was only 15,580 cwt. in 1880-81 and 29,008 cwt. in 1881-82, increased in 1882-83 to 98,273 cwt. Again, if we look at the internal trade of India, the exports of refined sugar from Bengal to Bombay have increased from 20,465 cwt. in the whole of the year 1881-82 to 61,682 cwt. in the ten months ending January 31st, 1883.

*Tea.*

90. Tea is one of the articles which was relieved from duty last March. The imports, however, have not increased, but have, on the contrary, fallen off from 2,393,413 lbs. to 2,027,119 lbs., a reduction of $15\frac{1}{4}$ per cent. Much of the tea imported into India is intended for trans-frontier consumption in Central Asia. The import trade has, without doubt, been a good deal checked by the heavy duties which are imposed by the Russian Government.

*Tobacco.*

91. The import of Tobacco has increased from 1,146,803 lbs. to 1,316,350 lbs., an increase of $14\frac{3}{4}$ per cent., which is very possibly due to the reduction of the duty. This increase of imports has not, however, resulted in any reduction in the consumption of Indian tobacco, the demand for Indian cigars being not only undiminished but increasing.

*Importations of silver.*

92. A very noticeable feature in the transactions of the year is the large amount of treasure imported (*vide* Appendix V). During the ten months ending January 31st, 1883, the value of the exports of merchandise exceeded that of the imports by £22,153,355. The debt thus due from Europe to India was paid (1) by the net importation of treasure to the extent of £11,193,922, of which £4,394,651 was gold and £6,799,271 silver, and (2) by drafts of the Secretary of State on the Indian Treasury to the extent of £12,804,500, thus leaving a balance of £1,845,067 remitted to India in apparent excess of the trade requirements of the ten months.

93. During the corresponding period of 1881-82 the excess of exports over imports was £23,524,590, the net imports of treasure amounted to only £7,061,635, of which £4,214,855 was gold and £2,846,780 silver, and the amount of Secretary of State's Bills paid was £17,381,100, leaving a balance of £918,145 remitted to India in apparent excess of the trade requirements of the ten months.

94. Attached to Appendix V will be found a few observations upon the progress made in the policy of purchasing Government Stores in India instead of in England. As I have before pointed out it will not be possible to make any very serious impression on the amount of stores imported from England until iron work and machinery, equal in quality and not superior in price to that manufactured in England, can be made in India.

## V.—Effect of reducing the Duty on Salt.

**Effect of reducing the Duty on Salt.**

95. It will be remembered that prior to March 10th, 1882, the duty levied on Salt in Bengal was R2-14 a maund. Elsewhere, except in Burma and the trans-Indus districts of the Punjab, duty was levied at the rate of R2-8 a maund. On March 10th, 1882, the duty was reduced to an uniform rate of R2 a maund all over India, except in Burma and the trans-Indus districts of the Punjab, where no change was made.

96. The main points to be considered in connection with the reduction of the duty are (1) whether the retail price of Salt has fallen, and (2) whether consumption has increased.

*Fall of retailed price.*

97. As regards the first point, there can be no doubt whatever that, generally speaking, the reduction has, to a greater or less extent according to the circumstances of each locality, reached the consumer. The following table shows the retail price per maund of Salt (1) in the second half of February 1882, that is to say, immediately before the reduction of the duty; (2) in the first half of June 1882, that is to say, about three months after the reduction; and (3) in the first half of January 1883, that is to say, about 10 months after the reduction.

The figures give the average price struck on the totals for all the districts in each province.

| Provinces. | Second half of February 1882. | First half of June 1882. | Fall in prices per maund in June 1882, as compared with February 1882. | First half of January 1883. | Fall in prices per maund in January 1883, as compared with February 1882. |
|---|---|---|---|---|---|
| | R a. p. | R a. p. | R a. p. | R a. p. | R a. p. |
| Madras . . . . | 3 2 5 | 2 10 4 | 0 8 1 | 2 9 8 | 0 8 9 |
| Bombay . . . . | 2 15 5 | 2 10 6 | 0 4 11 | 2 9 1 | 0 6 4 |
| Bengal . . . . | 4 7 1 | 3 6 6 | 1 0 7 | 3 6 2 | 1 0 11 |
| Assam . . . . | 5 9 1 | 4 12 5 | 0 12 8 | 4 10 2 | 0 14 11 |
| North-Western Provinces . | 4 3 4 | 3 12 11 | 0 6 5 | 3 9 6 | 0 9 10 |
| Oudh . . . . | 4 7 1 | 4 0 5 | 0 6 8 | 3 14 1 | 0 9 0 |
| Punjab . . . . | 3 9 10 | 3 0 9 | 0 9 1 | 2 15 8 | 0 10 2 |
| Central Provinces . . | 4 9 2 | 4 2 11 | 0 6 3 | 3 14 5 | 0 10 9 |
| Hyderabad Assigned Districts | 4 7 1 | 4 0 5 | 0 6 8 | 3 13 8 | 0 9 5 |
| Mysore . . . . | 4 2 1 | 3 14 10 | 0 3 3 | 3 12 11 | 0 5 2 |
| Coorg . . . . | 4 6 7 | 4 3 4 | 0 3 3 | 4 3 10 | 0 2 9 |
| Rajputana . . . . | 3 9 2 | 3 3 5 | 0 5 9 | 3 0 6 | 0 8 8 |
| Central India Agency . . | 4 1 3 | 3 9 6 | 0 7 9 | 3 6 6 | 0 10 9 |

*Comparative price lists.*

**98.** It will be seen that, with the single exception of the small province of Coorg, prices fell materially within the first three months after the reduction of duty, and that ten months after the reduction, prices had reached a still lower level. In Coorg only have prices slightly increased since the first fall after the reduction, but they are still about 4 per cent. lower than they were just before the reduction. Mysore also shows, comparatively speaking, only a small fall in price, *viz.*, from R4-2-1 to R3-12-11, or 7·74 per cent. In the other provinces the fall ranges from 12·66 per cent. in Oudh to 23·8 per cent. in Bengal. As the reduction of duty was about 30 per cent. in Bengal as compared to 20 per cent. elsewhere, it was, of course, to be expected that the fall of price would be proportionately great in that Province.

*Average fall of price.*

**99.** The testimony of official reports confirms the conclusion to be drawn from the price lists. Thus, to quote one of many such reports, the Deputy Commissioner of the Sonthal Pergunnahs, writing very shortly after the reduction of duty says—

*Official reports.*

"The most important change is that in the retail price of common eating Salt. The "reduction of duty reached the masses to a certain extent before the close of the year "under report (1881-82). It has since reached them even more perceptibly. This reduc- "tion in cost may have an important effect upon this district, for it may lead to a very "considerable expansion of the fishing industries, and thus provide occupation for the "surplus population and for the agricultural population when work on the land is slack. "One consignment of coarse salt has, I hear, been already sent to Sahibgunge for fish- "curing purposes. * * * * Salt-fish, properly prepared, "would be an important and valuable addition to the food-supply of this district."

"A large future," the Lieutenant Governor of Bengal observes in reviewing this report, "lies before this (the fish-curing) industry."

**100.** It will be remembered that some special measures were adopted with a view to ensuring publicity being given to the reduction of the duty. These

*Publicity.*

measures appear to have been generally attended with success. In Behar, especially, a recent report says "the news that the Salt Tax had been reduced " * * * is said to have spread with unexampled quickness."

*Increased consumption.*

**101.** I now turn to the question of increased consumption. The following table shows the consumption during the eleven months from March 1st, 1882, to January 31st, 1883, compared with the corresponding period of the year 1881-82. The figures for Burma are excluded, as no change was made last March in the rate of duty levied in that province. I may remark, however, that the consumption in Burma has up to the present time been less in 1882-83 than it was in 1881-82.

*Comparison of 1881-82 and 1882-83.*

*In thousands of maunds* (000s *omitted*).

| Province. | Consumption, March 1st, 1881, to January 31st, 1882. | Consumption, March 1st, 1882, to January 31st, 1883 | Percentage of increase + or of decrease —. |
|---|---|---|---|
| | Maunds. | Maunds. | |
| Bengal . . . . . | 8,207 | 8,723 | + 6·29 |
| Inland Customs . . . . . | 6,178 | 6,112 | — 1·07 |
| Bombay . . . . . | 4,361 | 4,695 | + 7·66 |
| Sindh . . . . . | 148 | 166 | + 12·16 |
| Madras . . . . . | 5,604 | 6,405 | + 14·29 |
| TOTAL . | 24,498 | 26,101 | + 6 54 |

*Increases and Decreases since 1877.*

**102.** The following figures show the increase or decrease for the eleven corresponding months of each year, from 1874-75, as compared with the previous year:—

| | | | | Maunds. |
|---|---|---|---|---|
| March 1st, 1874, to January 31st, | | 1875 | . . . . | +288,000 |
| ,, | 1875 | ,, | 1876 . . . . | + 77,000 |
| ,, | 1876 | ,, | 1877 . . . . | +498,000 |
| ,, | 1877 | ,, | 1878 . . . . | +491,000 |
| ,, | 1878 | ,, | 1879 . . . . | +367,000 |
| ,, | 1879 | ,, | 1880 . . . . | +1,724,000 |
| ,, | 1880 | ,, | 1881 . . . . | —690,000 |
| ,, | 1881 | ,, | 1882 . . . . | +1,016,000 |
| ,, | 1882 | ,, | 1883 . . . . | +1,603,000 |

*Difficulty of making accurate comparisons.*

**103.** So many changes have been made since 1873 that it is difficult, by any comparison with past years, to arrive at a thoroughly accurate conclusion as to the extent to which consumption has been stimulated by the reduction of the duty. Of course, under normal circumstances, as the population grows the consumption of Salt will also increase, if no disturbing elements, such as a change in the rate of duty or a famine, intervene. This normal growth of consumption has generally been taken at rather less than 1 per cent. It is, however, to be observed that the large increase in 1879-80 (1,724,000 maunds) followed on a year of relatively low consumption and was again followed by a year of relatively low consumption. On the other hand, 1881-82 was a year of high consumption, the increase being 1,016,000 maunds over 1880-81. It is, therefore, especially satisfactory to note that, in spite of the high consumption in 1881-82, the year 1882-83 shows an increase of no less than 1,603,000 maunds. There can be no doubt that a very considerable portion of this increase is due to the reduction in the duty.

**104.** If we turn to the details of each province, some remarkable differences in the rate of increase are observable.

*Madras.*

**105.** The largest increase (14·29 per cent.) is shown in Madras. This was to be expected. As I mentioned in the last Financial Statement (para. 199) the people of Southern India require more Salt than the more Northern populations, whose principal food consists of wheat and pulses. Moreover, the people in Madras have, in quite recent times, been accustomed to a lower rate of duty. In view to the abolition of the Customs Line the duty in Southern India was raised in December 1877 from Re. 1-13 to R2-8 a maund. In consequence, consumption was, without doubt, curtailed. It was to be expected that, so soon as the duty was reduced, the people would readily go back to their old rate of consumption.

**106.** The reduction of duty is not, however, the sole reason why the increase is so large in Madras. In the first place a great deal has been done within the last year or so to improve the organisation of the Salt Department in the Madras Presidency, with the result that illicit consumption has probably been to some extent checked. And, in the second place, Madras Salt has been for some years displacing the Salt supplied from Pooree. The figures given in the margin show that the quantity of Salt supplied from the Pooree warehouses has been steadily falling off for the last four years, and that the falling off in 1882 has been especially remarkable.

| 1882-83 (ten months) . | 90,722 |

*Sind.*

**107.** The increase in consumption in Sind has been nearly as great as in Madras, *viz.*, 12·16 per cent. The total consumption in this province is, however, small. A portion of the increase is probably due to Sind Salt having to some extent taken the place of Rock Salt in the Lower Punjab.

*Bombay.*

**108.** The increase in Bombay, though considerable (7·66 per cent.) falls far short of that in Madras and Sind. A portion of this increase is, without doubt, due to Bombay Salt having to some extent displaced Sambhur Lake Salt in Northern and Central India.

*Bengal.*

**109.** Bengal shows an increase of 6·29 per cent. I have already mentioned (para. 106) that the territorial area supplied from Bengal has, in one quarter, been restricted, owing to Madras having, to some extent, taken the place of Pooree Salt. On the other hand, the abolition of the differential rate of duty on sea-borne Salt has, of course, placed that Salt in a better position to compete with Sambhur Lake Salt in the North-West Provinces and Oudh. An indication of the extent to which this displacement has taken place is given in the following figures, which show the quantity of Cheshire Salt imported by rail into the North-West Provinces and Oudh during the last four years :—

| | Maunds. |
|---|---|
| 1879-80 . . . . . | 32,306 |
| 1880-81 . . . . . | 27,405 |
| 1881 82 . . . . . | 31,957 |
| 1882-83 (six months only) . . . . . | 107,589 |

There was also during the year, for the first time, an importation of Cheshire Salt,—to the extent of about 10,000 maunds,—into the Central Provinces.

*Inland Customs.*

**110.** The only quarter where a decrease is shown is under the head of "Inland Customs." This is mainly Sambhur Lake Salt, which supplies Northern India. The territorial area heretofore supplied from this source has been much restricted. As I have already mentioned (paras. 108-109) Bombay Salt from the west, and Cheshire Salt from the east, have both pushed their way into the territory heretofore supplied mainly from the Sambhur Lake. Under these circumstances, the fact that there has only been a decrease of 1·07 per cent. on the Salt sold by the Inland Customs Department shows that the people, within the more limited area now supplied by that Department, have increased their consumption. This was to be expected, for it is certain that the abolition

of the Customs Line in 1878 resulted in a great rise of price in the Native States of Rajputana, and that the people of those States, in consequence of the enhanced price, curtailed both their own personal consumption and that of their cattle. It was, therefore, to be expected that, with a reduction of duty, a tendency would be shown to revert to the old rate of consumption. The Governor-General's Agent reports that "there is no doubt whatever that the "late reduction has reached the consumer and, generally speaking, I may say "that he has benefited exactly to the extent of the reduction made in the duty."

*Financial effect of reduction.*

**111.** Turning to the financial effect of the measure, it is to be observed that an increase of consumption to the extent of 1,603,000 maunds represents, at Rs. 2 a maund, an additional revenue of £320,600. To the extent of this sum, therefore, it may be said that the loss of revenue consequent on the reduction of duty (£1,400,000) has been recouped by the increased consumption of eleven months.

*Comparison with Estimate.*

**112.** Regarding the matter from the point of view of the anticipations framed last March, it is to be observed that, in order to arrive at a proper appreciation of the facts of the case, it is necessary to consider the figures for the years 1881-82 and 1882-83 together. The duty, it will be remembered, was lowered on March 10th, 1882. The immediate effect of the reduction was to give a great stimulus to clearances of Salt in Bengal, and, although to a less degree, to wholesale purchases elsewhere. The market became over-stocked, and consequently during the early months of the current financial year, the revenue suffered. It follows, therefore, that the revenue of 1881-82 was disproportionately increased, and that of 1882-83 disproportionately diminished, by the course of trade during the last three weeks of March 1882.

**113.** The gross revenue for 1881-82, after making what was at the time considered a reasonable allowance for a reduction of the revenue during the last three weeks of the year, was, in framing the Revised Estimates, taken at £7,213,000. The actual receipts were £7,375,620, being £162,620 in excess of the estimate.

**114.** The gross Revenue for 1882-83 was estimated last March at £6,049,000. It is now estimated at £6,128,700, being £79,700 in excess of the Budget Estimate. This figure does not, however, accurately represent the full amount by which the Revised exceeds the Budget Estimate of Revenue. The Expenditure under *Salt* is now taken at £139,600 less than the Budget Estimate. To the extent of £59,000 this large decrease of Expenditure is due to the following cause. At the commencement of the financial year a system prevailed in Northern India under which Salt was conveyed by the Government from the Salt sources to certain depôts. The charges likely to be incurred on account of transport from the sources to the depôts appeared on the Expenditure side of the Estimates of 1882-83, and, inasmuch as the cost of transport was added to the selling price of Salt at the depôts, an analogous amount appeared on the Revenue side of the Estimates. During the year the depôt system was abandoned, with the result that both the Revenue and Expenditure under *Salt* were reduced to the extent of £59,000. The real excess of Revenue over the Budget Estimate is, therefore, not £79,700, but (£79,700+£59,000) £138,700.

**115.** Taking the two years together, therefore, the result is that the Estimate of gross Revenue framed last March stood at £13,262,000, and that the Estimate now stands at £13,504,320, being £242,320 in excess of the Original Estimate. To this figure, however, it is, as I have already explained, necessary to add a sum of £59,000, thus bringing up to £301,320, the true figure by which the Salt Revenue has exceeded the Estimate framed last March.

*Results satisfactory.*

**116.** Very rapid advance in this, or in any other matter, is not to be expected in India. But on the whole it may be said that the results obtained so far in

connection with the reduction in the duty on Salt are satisfactory. The progress in the direction of increased consumption has been greater than was anticipated at the time the Budget Estimate was framed last March. Should the same rate of increase continue the Revenue, at the reduced rate of duty, will in less than three years from the present time stand at the same figure as it did prior to the reduction of the duty.

## VI.—Revised Estimates for 1882-83.

**Revised Estimates for 1882-83.**

**117.** Up to the present time the Estimates for the year about to expire, which are presented at the time the Financial Statement is made, have been termed the Regular Estimates. I have been unable to discover how or why the word "Regular" came to be adopted. It was used by Mr. Laing in 1861. It was not used on the occasion of the Financial Statement of 1862, but it re-appeared in 1863, and its meaning was explained by Sir Charles Trevelyan in a foot-note. Since 1863 the word has always been used.

**118.** There does not appear to be any reason for continuing the use of a word, which can only be understood by those who know the technical meaning attached to it, when another word, which any one can understand, is available. For the future, therefore, the word "Revised" will be used instead of "Regular."

**119.** I proceed to deal with the Revised Estimates for the year 1882-83.

*General Situation in March 1882.*

**120.** The financial year which is about to close has presented many remarkable features. At the commencement of the year the salient points of the financial situation were as follows. The country had at length recovered from the disastrous effects of the famine of 1877-78. The return of peace enabled the Government to turn its attention to those fiscal and domestic reforms, the consideration of which had necessarily been postponed during the continuance of the Afghan war. A large surplus was available. A favourable opportunity presented itself, therefore, for the execution of certain fiscal reforms, the desirability of which had long been recognised. With the exception of the duty on wine, spirits, malt liquor, arms, ammunition, opium, and salt, the whole of the import duties were abolished. A large reduction was effected in the duty on salt. Some substantial relief was afforded to the agricultural classes in the North-Western Provinces and Oudh.

*Dangers peculiar to Indian finance.*

**121.** Hardly had effect been given to these important and beneficial reforms, when it became apparent that three out of the four peculiar dangers to which the finances of India are exposed would, to a greater or less degree, have to be encountered in the immediate future. These dangers are war, a diminution of the Opium revenue, an increase of expenditure on account of charges payable in sterling, and famine. In respect to every one of these dangers,—including, in the particular instance in point, war,—it may be said that their occurrence is governed by causes over which the Government of India can exercise little or no control. On the other hand, the entire brunt of bearing three out of four of these risks falls on the Imperial Government of India.

*The Provincial system.*

**122.** In connection with this last remark I wish for one moment to digress, in order to show the bearing of the Provincial system of finance upon the points immediately under discussion.

*Its many advantages.*

**123.** The policy of financial decentralisation, which was not the least of the numerous benefits conferred by Lord Mayo and Sir John Strachey on India, has been productive of the most beneficial results. In the remarks I am about to make I wish it to be clearly understood that I am very far from wishing to say anything in the slightest degree condemnatory of that policy. On the contrary it is, as is well known, a policy which commands the entire approval of the present Government, and with which, I may perhaps be permitted to say, I heartily sympathise. The advantages of the system far outweigh any

of its disadvantages. On the other hand it cannot be denied that this very desirable reform has been unavoidably accompanied with one disadvantage, and it is to this disadvantage that, for reasons which I will presently specify, I now wish to allude.

*And one disadvantage.*

*Developments of the policy.*

**124.** It will be remembered that the original policy of decentralisation has received further development on the two occasions,—first in 1877, and again in 1882,—when the quinquennial contracts between the Imperial and Provincial Governments terminated.

*Arrangements under contracts of 1882.*

**125.** On the occasion of the last Financial Statement (paras. 38—64) I explained fully the precise terms of the new Provincial contracts. It may, however, be convenient that I should again explain the general nature of the arrangements resulting from those contracts.

**126.** The Provincial Governments now receive the whole of the Revenue under heads which produce about £4,000,000 a year, half of the Revenue under heads which produce about £8,000,000, a larger or smaller percentage on heads (chiefly Land Revenue) which produce about £23,000,000, and an almost nominal share in Revenues which produce about £7,600,000. On the other hand, the Provincial Governments administer the Expenditure wholly under heads for which the grants amount to about £15,000,000, and to a very small extent under heads for which the grants amount to about £4,000,000 a year. In other words, about three-fifths of the Revenue of British India, amounting roughly to £42,000,000, and about one-fourth of the Expenditure, amounting roughly to about £19,000,000 a year, have, under the contract of 1882, been provincialised; that is to say, the Provincial Governments have to a greater or less extent, according to the circumstances of each head, an interest in and responsibility for their administration.

*Stability is essential to the system.*

**127.** It is essential to the proper working of the Provincial system of finance that an element of stability should, to as great an extent as possible, be imported into the arrangements between the Imperial and Provincial Governments. Unless the latter are assured that any increase of revenue consequent on improved management, or any savings which may accrue from economical administration, will remain at their own disposal, but slight inducement will be offered to them to improve the management of their resources or to exercise economy in their administration. Accordingly, in concluding the contracts of 1882, the assurances previously given to the effect that the Imperial Government would not call on the Provincial Governments for any pecuniary assistance, save on occasions of very great and extraordinary emergency, were ratified and to some extent emphasised. The money (£670,000) contributed by the Provincial Government towards the expenses of the Afghan war was at the same time repaid.

*Famine the only danger to which Provincial finance is exposed.*

**128.** It thus happens that, of the four dangers to which I have alluded above, one only,—famine,—can, save under very extraordinary circumstances, affect Provincial finances. I am far from condemning this arrangement. On the contrary, I think it is, on the whole, the best of which the circumstances of the case admit. It is the Provincial Governments, and not the Government of India, who are brought in immediate contact with the people. They supervise the whole of the ordinary administrative work of the country. Through their instrumentality, or through agency working in close connection with their officers, most of the smaller, and some of the larger, public works are executed. It is a distinct advantage that, should any sudden emergency arise, such as war, a diminution of the Opium Revenue, or a further depreciation in the value of silver, the Provincial Governments should be able to feel that the progress of any administrative reforms they may have undertaken, or the execution of any public works for which Provincial funds are available, will not be checked. On the other hand, it cannot be denied that, whilst the probability of any such

emergency arising has in no degree diminished since the adoption of the Provincial system of finance, the power of the Government of India to cope with an emergency is to some extent impaired by reason of the pledges taken towards the Provincial Governments.

*No further imperial grants can be made.*

**129.** I make these remarks for the following reasons. All the new contracts have now been finally concluded. I mentioned in the last Financial Statement (para. 45) that some questions still remained outstanding with the Madras Government. These have now been settled. Under these circumstances it is very desirable that it should be fully understood that no further changes can be made in the terms of the several contracts. The Government of India, on its side, will adhere strictly to the principles laid down in the Resolution of September 30th, 1881. On the other hand, it must call upon the Provincial Governments to abide with equal strictness to their portion of the contracts. The contracts have not been made in any illiberal spirit. Each Provincial Government starts with a balance at its credit and with a normal revenue in excess of its normal expenditure. Under these circumstances the Provincial Governments must look solely to the gradual development of their own resources, and to economy in their own administration, to provide whatever further funds may be required for services classed as Provincial. The Government of India cannot entertain any further proposals for increased Imperial grants on account of those services. It may be, and probably is, the case that in almost every Province of India the funds available are not commensurate with the work which sooner or later will require to be done. That is the normal condition of a country whose necessities are great, whilst the tax-paying power of its population is small. Under these circumstances, progress in many directions will possibly be comparatively slow, and it is inevitable, under all the conditions of Indian Government, that it should be slow. But what I particularly wish to point out is that the Government of India cannot at present make any further grants from Imperial funds in order to ensure more rapid progress. Indeed, in some respects it may be said that the Provincial Governments are in a better position to provide whatever funds may be required than is the case with the Imperial Government. For the reasons which I have already given an element of stability is imported into Provincial finance which Imperial finance cannot at present possess. Not only do the three points to which I have alluded constitute dangers which are wholly borne by the Imperial Government of India,—not only does the fourth danger (famine) materially affect Imperial as well as Provincial finance,—but if any further fiscal reforms are to be made,—and there are several which it would be very desirable to make,—any loss of money which may accrue from their execution must be borne by the Imperial Treasury.

*Altered situation during the year.*

**130.** To return from this digression. I have said (para. 121) that hardly had the large fiscal reforms of last year been carried out when it became apparent that three out of the four dangers to which the finances of India are specially exposed would have to be encountered in the immediate future.

*Egyptian Expedition.*

**131.** In the first place, we have had a war. The cost of the Indian Contingent which was sent to Egypt is now estimated at £1,297,000. Her Majesty's Government has intimated its intention of repaying £500,000 (true sterling) of this amount to the Government of India. This sum of £500,000 will be brought to credit at once. A corresponding reduction will take place in the Secretary of State's drawings for 1883-84. The net cost of the Egyptian Expedition to the Indian Treasury will, therefore, be £797,000.*

* This is the net figure which appears in the Revised Estimates for 1882-83, but in 1883-84 there will be a diminished charge under *Exchange* by reason of the reduction of £500,000 (true sterling) in the amount of the Secretary of State's drawings. The diminution of expenditure under this head may at present rates be calculated at about £115,000. It may be said, therefore, that the ultimate net charge which will fall on the Indian Revenues by reason of the Egyptian Expedition is £682,000 (R68,20,000).

*Opium.*

**132.** Turning to Opium, I give below the net Revenue for the last four years:—

| | | £ |
|---|---|---|
| 1878-79 | | 7,701,000 |
| 1879-80 | | 8,252,000 |
| 1880-81 | | 8,451,000 |
| 1881-82 | Revised Estimate | 7,838,000 |
| | Actuals | 7,805,000 |

**133.** The fluctuations in the Opium Revenue from month to month, and indeed, from week to week, are so considerable that it is very difficult to make any very close estimate even for the short period of the present financial year which remains to expire. According to the best estimate that can be framed, however, the net Revenue will probably amount to £7,217,000, being £33,000 less than the Budget Estimate. The deficiency is due to the Expenditure being greater by £95,000 than was anticipated last March. This excess expenditure is partly due to the fact that the Opium crop in Bengal was a good one, and that, therefore, more money than was expected had to be paid for crude Opium, and partly to the fact that 2,000 maunds of Malwa Opium were purchased for the manufacture of Excise Opium. The excess expenditure is partly balanced by an increase of Revenue to the extent of £62,000 over the Budget Estimate.

*Competition of the Chinese drug.*

**134.** It will be seen, therefore, that the estimated net Revenue from Opium for the current financial year is less by £1,234,000 than the actual receipts of 1880-81, less by £621,000 than the Revised Estimate for 1881-82, and less by £588,000 than the Actuals of 1881-82. There can be little doubt that the main cause of this progressive diminution is to be found in the increased competition of the indigenous Chinese drug, to which I alluded in the last Financial Statement (paras. 143—145). The falling-off in the Opium Revenue has not seriously disturbed the finances of the year. The net Budget Estimate will probably be nearly realised. What, however, I wish to point out is, that in former years Opium has very often yielded a large sum in excess of the Estimate, and has thus enabled the Government to meet any unforeseen demands which might be thrown upon it during the course of the year. Nothing of this kind has occurred during the current year. On the contrary, the Opium Revenue is, as I have already mentioned, likely to fall below the Budget Estimate of £7,250,000 by £33,000. I shall presently revert to this question in dealing with the Budget Estimate for the year 1883-84 (paras. 195—207).

*Exchange.*

**135.** Turning to the question of Exchange, it is to be observed that the Budget Estimate provided for the sum of £15,342,000 (true sterling) being remitted to England, and that the rupee was taken at 1*s.* 8*d.* During the last three weeks of March 1882 bills to the extent of £908,000 (true sterling) in excess of the requirements of the year 1881-82 were placed on the market. This amount was taken in deduction of the drawings for the current year, which were thus, so far as this transaction only is concerned, reduced to £14,434,000 (true sterling).

*Serious inconvenience due to instability in the value of the rupee.*

**136.** At no period has the inconvenience to India of having to make a large annual payment in sterling been more apparent than during the current year. I will not now attempt to discuss whether it is to the advantage of India that the value of the rupee expressed in sterling should be low, that is to say lower than it used to be when the relative values of gold to silver were as 1 to 15½. That is a subject on which a great deal might be said. But it is not the fact that the value of the rupee is, comparatively speaking, low that causes inconvenience. It would be possible, although it might be exceedingly troublesome, to adjust the Indian fiscal system to a rupee of any value. What causes inconvenience alike to Government and to trade is that the value of the rupee is unstable. It is impossible to state accurately in Indian currency what the annual liabilities of the Government of India are. Those liabilities have

to be calculated afresh every year according to the variations which take place in the relative value of gold and silver, and a calculation which will hold good for even one year is exceedingly difficult to make. In March 1882 the value of the rupee was taken at 1*s.* 8*d.*, and at the time this estimate was made it was a reasonable one, based on the facts of the past and present. The value of silver was then about 52*d.* an ounce, which corresponds with a value of 1*s.* $8\frac{3}{16}$*d.* to the rupee. But since then the value of the rupee has been as high as 1*s.* $8\frac{5}{16}$*d.*, and as low as 1*s.* $7\frac{1}{16}$*d.* The average price obtained for the bills, amounting to £14,184,000 (true sterling), placed on the market up to March 9th, 1883, has been 1-$7\frac{1}{32}$*d.* When the Budget was framed it was thought that a debt of £14,184,000 (true sterling) would be liquidated by a payment of R17,02,03,000. It has actually cost R17,43,81,000 to liquidate that debt. It is sufficient to state these facts in order to show the grave inconvenience to the Government which results from the unstable value of the rupee.

*Southern Mahratta Railway and Famine Insurance*

**137.** It will be desirable that I should explain in this place two financial transactions of the year which are intimately connected with each other and with the Expenditure under *Exchange*. The first relates to the transactions of the Southern Mahratta Railway Company. The second to the application of the annual grant of £1,500,000 under *Famine Relief and Insurance*.

**138.** The Southern Mahratta Railway was commenced by the Government as a famine work in April 1879, and work was afterwards recommenced by Government in November 1881. Up to the end of 1881-82 £394,000 had been spent on it, of which £291,000 had been charged to the Protective grant. A further sum of £369,800 was provided in the Budget Estimates for 1882-83 from the Protective grant for expenditure on this line.

**139.** In the summer of 1882 the line was handed over to a private Company. Capital to the extent of £1,724,600 (true sterling) has already been raised in London and paid to the Home Treasury of the Government of India. Of this amount about £550,000 is due to the Government for work already done, the remainder being intended to provide funds for the continuation of the works. The amount to be re-credited to the Protective grant during the present year is estimated to be £270,000, besides the expenditure incurred this year, and whatever is repaid will be credited to the head of *Famine Relief and Insurance* and become available for the construction of Protective Works, in addition to the annual grant of £750,000. Further, the original allotment of £369,800 made in the Budget from the Protective grant for expenditure on the Southern Mahratta Railway became available for expenditure on other Protective Works. The Public Works Department was, however, unable to spend the large sum of money which thus became available on Protective Works during the year. Their total net expenditure on these works in 1882-83 is now estimated at only £144,200. It was thought undesirable not to utilise at once the large sum of money belonging to the Famine Insurance grant which was thus available. A transfer of £605,800 will, therefore, be made to the Account of the Commissioners for the Reduction of Debt, thus increasing the amount available during the year for reducing debt to £1,330,200. A demand for money having recently sprung up, and the Secretary of State having already drawn the total sum required for the annual expenditure in England, it is contemplated to remit home an additional sum of about £1,000,000 (true sterling) during 1882-83, to invest this sum, and to apply it, as opportunity may offer, to the reduction of sterling debt in England. The Commissioners have been consulted on the subject, and approve of this arrangement. A separate account of the transaction will be rendered to them. The cost of the bills drawn in order to carry out this transaction will be debited to the Account of the Commissioners for the Reduction of Debt. In 1883-84 a reduction will be made in the amount available for *Reduction of Debt*, and a corresponding increase in the amount available for *Protective Works*, that is to say, the former having, in 1882-83, been increased

*Reduction of D*

to £1,330,200 will, in 1884-85, be reduced to £131,700 and the latter having, in 1882-83, been reduced to £144,200, will, in 1884-85, be increased to £1,355,800. It is estimated that the direct expenditure on *Famine Relief* in 1882-83 and 1883-84 will be £25,600 and £12,500, and consequently the aggregate expenditure on *Famine Relief*, *Protective Works*, and *Reduction of Debt* will be £1,500,000 in each of the years 1882-83 and 1883-84.

**140.** So far I have only dealt with the transactions of the Southern Mahratta Railway Company mainly in so far as they affect the Revenue and Expenditure of the year. I now turn to the consideration of the transactions in so far as they have affected the Ways and Means of 1882-83.

**141.** As the capital of the Company was paid to the Home Treasury of the Government of India, it was necessary, in order to enable the Company to proceed with its works, to provide funds for the Company from the Treasuries of the Government of India. A sum estimated at £480,000 (£400,000, true sterling) had to be so provided. For this, of course, no provision had been made in the Estimate of Ways and Means for the year. The Secretary of State, therefore, undertook to reduce his drawings during 1882-83 by an amount of £400,000 (true sterling), but he did not reduce his drawings by the total amount of the paid up capital of the Company. The balance of the money paid by the Company to the Secretary of State in excess of £400,000 (true sterling) was used to strengthen the Home cash balance, and thus enable the Secretary of State to purchase the Madras Irrigation and Canal Company's undertaking. It results, therefore, that, inasmuch as the Government of India has to supply funds for the Company in India at a rate of exchange of 1*s.* 8*d.*, every £1 paid to the Company in India involves a payment of R12, of which R2 appears as expenditure under *Exchange*. As a matter of fact the total expenditure under *Exchange* is, on this account, increased by £126,500 in 1883-84.

*Result of these Operations.*

**142.** I trust that I have made these operations clear. They are somewhat complicated. The general result, so far as the drawings and the expenditure under *Exchange* of the year 1882-83 are concerned, is as follows: (1) The Secretary of State's drawings for the year 1882-83 are now estimated at £15,042,000 (true sterling), of which £14,184,000 (true sterling) had been drawn up to March 9th; (2) the expenditure under *Exchange on Transactions with London* is now estimated at £3,116,000, being £341,000 in excess of the Budget Estimate; (3) a further sum, estimated at £227,000, representing *Exchange* on the remittance home of the sum of £1,000,000 (true sterling) will be charged against *Appropriation for the Reduction of Debt* (*vide* Abstract C).

| | £ | £ (True Sterling) |
|---|---|---|
| Original Estimate . . . | | 15,342,000 |
| Deduct:— | | |
| (1) Excess drawings in 1881-82 in round figures . . . | 900,000 | |
| (2) Reduction by Secretary of State on account of Southern Mahratta Railway transactions . . | 400,000 | |
| Total deductions . | 1,300,000 | |
| Add:— | | |
| (1) Remittance on account of Debt Commissioners . . | 1,000,000 | |
| Net deduction . | | 300,000 |
| Revised Estimate of drawings . | | 15,042,000 |

*Budget Estimates, 1882-83.*

**143.** The Budget Estimates for 1882-83 was as follows:—

| | £ |
|---|---|
| Revenue . . . . . | 66,078,000 |
| Expenditure . . . . . | 65,793,000 |
| Surplus . | 285,000 |

*Revised Estimates, 1882-83.*

**144.** I have already mentioned (para. 131) that net Expenditure to the extent of £797,000, for which no provision was made in the Budget, was incurred during the year on account of the Egyptian Expedition. Also that the Expenditure under *Exchange* is now estimated at £341,000 in excess of the Budget Estimate

(para. 142). In spite, however, of the Egyptian expenditure, of the heavy charge for *Exchange*, and in spite of the fact that the net *Opium* Revenue is expected barely to come up to the Estimate (para. 133), the Revised Estimate shows a small surplus of Revenue over Expenditure. It is as follows:—

| | £ |
|---|---|
| Revenue . . . . . | 67,914,000 |
| Expenditure . . . . . | 67,854,000 |
| Surplus . | 60,000 |

*Reasons of surplus.*

**145.** This satisfactory result is mainly due to two causes. In the first place the harvests were everywhere good, and the country has generally been in a prosperous condition. In the second place, in view of the large fiscal reforms which were carried out last year, it was thought advisable to frame all the Estimates of Revenue and Expenditure with even more than the usual caution. Otherwise it would not have been prudent to have undertaken those reforms.

*Increases of Revenue.*

**146.** Almost every branch of Revenue shows an increase over the Budget Estimate, whilst many branches of Expenditure show a diminution as compared with the Budget.* Thus the net *Land Revenue* (including *Portion of Land Revenue due to Irrigation*) shows an improvement of £172,000, of which £60,000 is on account of increased Revenue, and £112,000 on account of a diminution in Expenditure. *Forests* (net) show an improvement of £107,000; *Excise* (net) of £288,000; *Customs* (net) of £91,000; *Salt* (net) of £219,000, of which £80,000 is for excess Revenue, and £139,000 for diminished Expenditure; *Stamps* (net) of £68,000; *Railways* including those classed as Productive Lines (*State*, *Guaranteed* and *East Indian*) of £225,000, net; and *Irrigation and Navigation* (net) of £53,000 on the Ordinary and £17,000 on the Productive Account. The *Marine* Expenditure (net) is £104,000, the *Army* Expenditure (net) £74,000, and the Expenditure (net) under *Law and Justice* £121,000, less than the Budget Estimate.

*Diminutions of Expenditure.*

*Exceptional receipts.*

**147.** The Revenue of the year has been swelled by two exceptional receipts. In the first place, certain remissions of *Land Revenue* were contemplated in the Bombay Presidency last year, and in order to meet the loss on Imperial account involved in those remissions, a sum of £251,000 was credited to the Bombay Government in the Accounts of 1881-82. The amount remitted has, however, turned out to be less by £101,000 than was anticipated. This amount has, therefore, been again brought to the credit of the Imperial Government.

*Patwari Fund.*

**148.** In the second place, the balance of the Patwari Fund in the North-West Provinces, amounting to £199,000, has been brought to the credit of the Imperial Government. Under the arrangements made last year in connection with the abolition of the Patwari cess (see Financial Statement for 1882-83, paras. 59—

* In considering these figures it is to be borne in mind that the total amount by which the Revised Estimate, whether of an item of Revenue or of Expenditure, differs from the Budget Estimate, does not necessarily go to swell or diminish the Imperial surplus. Thus, to take a single example, an excess in gross Revenue of £284,900 under *Excise* means that the Imperial Government expects to receive £142,450 and the Provincial Governments £142,450, more than was originally estimated. So also, to take an example on the Expenditure side of the Account, almost the whole of the amount by which the Expenditure under *Land Revenue* falls short of the Estimate, benefits the Provincial Governments only. The figures given above, therefore, must only be taken as a general indication of the reasons why the Imperial Revenue has more than balanced the Imperial Expenditure. I have not thought it necessary to state in detail to what extent the excess of Revenue or diminution of Expenditure benefits the Imperial and Provincial Governments respectively.

I may mention in connection with this point that the Increase and Decrease columns, which formerly appeared in *Statements I* and *II* under the old classification of the Accounts and Estimates (see Appendix II, pages 68 to 71) are not given in Abstracts A and B of the new classification (see Appendix I, pages 54 to 59). It will be readily seen that they could not conveniently be given. This is, without doubt, a disadvantage, but the new classification is so superior to the old classification in all other respects as to make its adoption desirable. As both the old and new classifications are published this year (see para. 63 of Financial Statement), the inconvenience will not be felt immediately.

63), the Imperial Government has to bear the charges formerly paid from the Patwari Fund. The balance of the Fund was devoted to meeting charges connected with Surveys and the preparation of a Record of Rights in permanently-settled districts, and the charges on these accounts are being met at the cost of Imperial Revenues, which are recouped by receiving a credit of the balance of the Fund.

**149.** Both of these are extraordinary items of Revenue which will not recur in future years.

*Increases of Expenditure.*

**150.** On the other hand, the Expenditure under a few heads has exceeded the Budget Estimate, and some extraordinary expenditure has been borne which will not recur in future years.

**151.** The Expenditure under *Interest on Debt* is now calculated at an increase in all of £119,000, the increase being partly due to an arrear payment to the Maharaja of Patiala and partly to the charge for temporary loans in England in excess of the Budget Estimate; of this increase £71,000 appear in the Ordinary and £48,000 in the Productive Account. *Stationery and Printing*, owing mainly to unusually heavy purchases of stock, has cost £56,000 (net) more than was anticipated. The cost of *Administration* has exceeded the Estimate by £74,000, and that of *Superannuations* (net) by £79,000.

**152.** It was thought desirable to complete the *Frontier Railways* as soon as possible. An additional grant of £60,000 in excess of the Budget allowance was, therefore, made under this head during the year. The *Southern Mahratta Railway* has cost £33,000 (interest charge), and *Subsidized Railways* have cost £21,000, in excess of the Estimate. *Civil Buildings, Roads, and Services* are now estimated at £51,000 in excess of the Estimates. The excess is mainly due to additional grants having been made during the year for the extension of the Salt works at Uru in the Bombay Presidency, and for the erection of Government offices and clerks quarters at Simla. The construction of these buildings will lead to a diminution in the present annual charge on account of rent for the houses now hired.

## VII.—The Wheat Trade.

**The Wheat Trade.**

**153.** The principal feature of the financial situation of the moment is that during the past year there has been a still further fall in the value of the rupee. The highest price obtained by the Secretary of State during the year 1882-83 for his Bills was 1*s.* $8\frac{3}{16}$*d.* on April 5th. The lowest price was 1*s.* $7\frac{1}{16}$*d.* on December 20th and 27th. The balance of trade between Europe and India was to an unusual extent settled by importations of silver, especially during the early months of the financial year. (See Appendix V.)

*Value of Silver.*

**154.** Some temporary and adventitious causes may possibly have tended to depreciate exchange during the year. But, in the main, the value of the rupee expressed in sterling must, of course, depend on the relative value of gold and silver. The highest price realised for silver in the London market during the year 1882 was $52\frac{7}{16}$*d.* per oz. corresponding to a rupee of 20·289*d.*; the lowest 50*d.* corresponding to a rupee of 19·3467*d.*; the average was $51\frac{5}{8}$*d.* per oz. corresponding to a rupee of 19·9755*d.** On the whole the general tendency has been downwards.

* *The Statist.* Financial and Commercial History of 1882.

*Importance of removing obstacles from trade.*

**155.** The only way in which it is within the power of the Government of India to meet the difficulties attendant on a depreciation in the value of the rupee is to free trade so far as is possible from all obstacles, and especially to do all in its power to develop the export trade.

*The Wheat Trade.*

**156.** A great deal has already been done in this direction. The import duties have been almost entirely abolished. The export duty on rice remains. It

would be most desirable that this duty should be removed. The financial situation does not, however, for the present permit of its abolition. Something, however, may be done in the way of encouraging the export trade in food grains, and especially in wheat. *Its recent development.*

**157.** This trade may, for all practical purposes, be said to date from the year 1873, when the export duty was removed. In 1881-82 nearly a million tons (19,863,520 cwt.) were exported. The export during the current year (1882-83) will probably be about 14,000,000 cwt.,—a figure which, although below the exceptionally large export of 1881-82, is still 100 per cent. in excess of that of 1880-81. The great strides made in this trade during the last few years are to a great extent due to railway extensions in India and, so far as the great exports of 1881-82 are concerned, to deficient crops in the United States.

**158.** For all practical purposes it may be said that the whole of the Indian wheat trade is with Europe In 1881-82 only 310,000 cwt. out of 19,863,000 cwt. were shipped to other than European markets. The largest market for Indian wheat—as for most of the other staple products of India—is England. Out of the total quantity exported in 1881-82, England took nearly one-half, and has taken about the same proportion during the current year. France took 5,308,000 cwt. last year (1881-82) and has this year (1882-83) taken over 3,000,000 cwt. out of the 11,828,000 cwt. already exported. Indian wheat also goes to Belgium, Holland, Italy, and Egypt. But shipments to Egypt are only nominally for that country. Ships go to Port Said "for orders," and the exports recorded in our trade returns as going to Egypt are mostly intended for some Continental market. *Markets for Indian Wheat.*

**159.** The total production of wheat in the United Kingdom is estimated by Sir James Caird at 12,000,000 quarters, or rather over 53,000,000 cwt. (2,650,000 tons). The yield is said by Sir James Caird to be decreasing. He estimates that from 1873 to 1877 the average yield was $2\frac{1}{2}$ quarters to the acre, and in 1879 not more than 2 quarters. In former years the yield has reached $3\frac{1}{4}$ quarters and more to the acre. He thinks that there is a decrease in fertility. The area under wheat is also diminishing and land is being used for more profitable crops, for dairy-farming, for grazing, and for market-gardening. Looking to the increase of population and to the general tendency to devote land to other uses than the growth of wheat, it may be anticipated that the demand for wheat in England from other countries will increase in the future. *Production of wheat in England.*

**160.** During the calendar year 1882, the English market was supplied with wheat from abroad to the extent shown in the following table :— *Imports into England from Foreign countries.*

| | Cwt. |
|---|---|
| Russia | 9,571,021 |
| Germany | 3,083,921 |
| Turkey and Roumania | 721,030 |
| Chili | 1,656,361 |
| Australia | 2,475,127 |
| B. N. America | 2,684,828 |
| United States | 35,059,623 |
| Egypt* | 174,862 |
| India | 8,477,479 |
| Other Countries | 267,370 |
| TOTAL | 64,171,622 |

**161.** In addition to this amount of wheat, wheat-flour to the extent of 13,028,705 cwt. was supplied to the English market from foreign countries during the year 1882, of which the United States furnished 7,777,262 cwt.

**162.** The total imports of wheat and wheat-flour were, therefore, 77,200,327 *The United States.*

* The low imports from Egypt were due to the war. The average imports from that country to England are considerably higher than the figure given above.

cwt., of which the United States supplied nearly 43,000,000 cwt., or about 56 per cent. of the whole. It is clear, therefore, that the United States is the most formidable rival with which India has to compete in the supply of wheat to the English market. Wheat flour has not as yet been exported from India.

*Its advantages.*

**163.** In this competition the United States possesses many natural advantages over India, which are, however, to some extent counterbalanced by one important disadvantage.

*Relative production of the two countries.*

**164.** Looking first to the advantages, it is certain that the United States can supply a much larger total quantity of wheat for export than can be supplied by India. Sir James Caird, addressing the Statistical Society on November 15th, 1881, said :—

"In a single year the United States increased their acreage by an extent equal to our (the English) total growth. In the 20 years from 1840 to 1860 their wheat production rose from 10 to 20 million quarters. In the 20 years from 1860 to 1880 it grew from 20 to 60 million quarters, and their extent of good wheat land is practically unlimited. The two great corn products of that country are wheat and Indian corn, in regard to the first of which this country, and Western Europe generally, will become increasingly dependent on America, and the price of wheat here will be chiefly ruled by the production there."

*Acreage under cultivation in India.*

**165.** In the Statistical Abstract of the United States for 1881, it is stated that in 1880 the area under wheat was 37,986,717 acres, the total production amounting to 271,531,624 cwt. or over 62 million quarters (over 13½ million tons).

**166.** It is difficult to state accurately either the acreage under wheat in India or the total outturn of the crop. Our agricultural statistics are still very defective for most provinces, and there are none at all for Bengal. According to the figures given in the Administration Reports of the different Provinces, there were, in 1880-81, 19,474,594 acres under wheat. These figures are, however, inclusive of 1,000,000 acres in Bengal, which is simply a guess, and is probably very wide of the mark. We shall probably not be far wrong if we take 21 millions as the total present acreage. The great wheat fields are in the Punjab, where also the quality is the best, the North-West Provinces, Oudh, and the Central Provinces. Bombay, Berar, and Bengal also grow wheat extensively, though in smaller quantity.

*Outturn per acre.*

**167.** The outturn per acre varies enormously according to the province and soil, and according to whether the field is irrigated or not. It is difficult to attain accuracy on this point, but it would seem that for all India the average yield cannot be taken, on a liberal estimate, at more than 700 lbs. to the acre, which is less than half the produce of English (from 1,500 to 1,600 lbs.) and considerably less than that of the American wheat fields (850 lbs.).* At this rate of yield the total outturn would be about 6½ million tons, of which it may roughly be said that about one million tons are available for export.

*Capability of increased production.*

**168.** The question of the extent to which the amount of wheat available for export could be increased without trenching on the food supply of the people or materially enhancing prices is one of great difficulty. Some remarks bearing on the subject will be found in the Report of the Famine Commissioners, Part I, para. 158. Some high authorities are of opinion that, under favourable conditions as regards the prospect of a market, it would be possible within a few years to double the amount of wheat available for export, that is to say, to increase it to about 40,000,000 cwt. There can be no doubt that very large quantities of land are awaiting cultivation, especially in the Punjab, Burma, Assam, and the Central Provinces, but of course a good deal of this land is not suitable for

* In some places in America 25 bushels to the acre and more have been taken off an acre, but this quantity is greatly in excess of the average yield. The average outturn in 1880 for all the United States was 799 lbs. to the acre, but this was a small yield. In 1877 it was 848 lbs. A yield of 850 lbs. to the acre is probably a fair general average

As regards the figure given above for India (700 lbs.), it is to be borne in mind that it purports to give the *average* yield per acre. In some districts the yield is certainly in excess of this figure, and on all *irrigated* land the yield is largely in excess of 700 lbs.

the cultivation of wheat. In the eastern districts of the Central Provinces the new lines of railway will now open out a very large tract of wheat-producing country, which up to the present time has been unable to find a market for its surplus produce owing to defective means of communication.

**169.** Any opinion on this subject can be little more than conjecture. All that can be said with certainty is that, on the one hand, the Indian outturn is capable of very considerable increase, and that the growth of the population in India is proceeding at a relatively slower rate than that of the United States, with the result that the proportionate amount of any increased production required for home consumption is less in the former than in the latter country. On the other hand, the processes of American are superior to those of Indian agriculture. The land in the North-Western and Western States is unexhausted and is of very great natural fertility. The acreage available for further cultivation is described on high authority as being "practically unlimited." The yield per acre in the United States is larger than in India. Under these circumstances it may be regarded as certain that, although the Indian supply of wheat available for export may be very considerably increased, the American supply may be increased to a still greater extent.

*Ocean freights.*

**170.** A further advantage possessed by the United States over India is in the matter of ocean freight. This advantage is not so great as might be the case under different conditions as regards the fiscal laws of the United States. The heavy duties levied by the United States Government on imported foreign goods naturally check the imports into America from Europe, with the result that, in the comparative absence of a demand for freight from Europe to America, shipowners are obliged to recoup themselves by charging relatively high freights from America to Europe. The disadvantage under which America labours by reason of this condition of things is artificial and not natural. It is imposed by the fiscal law and would be removed were that law changed. In spite, however, of the present condition of the United States Customs Tariff, proximity to the English market, together with the fact that Indian shipping has to pay Canal dues, is sufficient to turn the scale in favour of the United States. The distance from New York to Liverpool is 3,073 miles. The distance from Calcutta to London by sea is 8,083 miles; from Bombay to London 6,274 miles; from Kurrachee to London 6,080 miles. Dues are levied on passing through the Suez Canal at the rate of 10*frs.* 50*c.* per registered ton.

*Comparative freights.*

**171.** The charge for steamer freight from New York to Liverpool is very variable. The rates in 1881 and 1882 were, on an average for the year:

| | 1881. | 1882. |
|---|---|---|
| To Liverpool . . . . . | 15*s.* 2*d.* | 12*s.* 2*d.* |
| „ London . . . . . | 16*s.* 11*d.* | 16*s.* 0*d.* |

**172.** In January of the present year the rates were, to Liverpool 21*s.* 9*d.*, and to London 22*s.* 9*d.* per ton. Freights seem generally to rule high in January. Comparing the rates from New York to Liverpool for 1882 with Indian rates, we find that during the year 1882 the average charge from Kurrachee to London was £1-18-9 a ton; from Bombay to London £1-15-2¼; from Calcutta to London £2-2-11.* Taking the average American rates of 1882 as the basis of comparison, New York may be said to possess an advantage over Kurrachee to the extent of about 26*s.* 7*d.* or 22*s.* 9*d.* a ton, over Bombay of 23*s.* 0¼*d.* or 19*s.* 2¼*d.*, and over Calcutta of 30*s.* 9*d.* or 26*s.* 11*d.*, accordingly as the Indian rates are compared with the New York rates to Liverpool or to London. On the other hand, Indian rates compare favourably with freight from San Francisco to the United Kingdom, which in 1881 averaged £3-3-11½ a ton. Last year, of the whole import of wheat into the United Kingdom from the United States, 42 per

* The rates stated here for Bombay and Kurrachee are for the ton of 20 cwt., the rates quoted in commercial circulars being for the ton of 10 and 18 cwt. respectively.

cent. was shipped from the Pacific seaboard; in 1881 it was 31 per cent.; in 1880 only 18 per cent.

*Railway communication.*

**173.** The United States possess a further advantage in facility of inland communication. The American railway system has been very rapidly extended during the last few years. No less than 105,000 miles of railway are now open. This rapid progress is due to the vigorous commercial enterprise of the people of America, and to the large amount of capital seeking investment in American undertakings. It is in this respect more than in any other that India presents a remarkable contrast. Local capital is either not available or seeks, generally speaking, for more profitable investments than Indian Railways afford. English capital has only recently begun to turn its attention to Indian Railways, and can as yet scarcely be persuaded to dispense with Government assistance. The development of the country has up to the present time mainly devolved on Government, and, as a necessary result of this state of things, progress has been relatively slow.

*Railway rates in the United States;*

**174.** In the matter of railway rates also American is at a great advantage as compared to Indian wheat. So far back as 1876 the rate from Chicago to New York, a distance of 960 miles, was on an average 17 cents a bushel, or £1-5-6 per ton for the whole distance. In 1878 and 1879, the published tariff rate was 20 cents per 100 lbs. (18*s.* 4*d.* per ton) for the whole distance, but under stress of competition wheat was carried from time to time in 1879 to New York at 18, 15, and even as low as 10 cents per 100 lbs., or 9*s.* 2*d.* per ton for the whole distance. Sir James Caird in his evidence before the Royal Agricultural Commission in December 1881, said that the rate had been reduced as low as ¼*d.* per ton per mile. This rate is equal to £1 per ton for the whole distance. The writer of an interesting pamphlet recently published in India* gives 14·5 cents a bushel as the latest rate he has seen quoted. This is equal to £1-1-9 per ton for the whole distance. In the official Report on the Foreign Commerce of the United States for the fiscal year ending June 30, 1882, by the Chief of the Bureau of Statistics, the following figures are given as the average through rates in 1881 from Chicago to New York:—

* *Indian Wheat versus American Protection; or, The influence on English Trade and American Protection of the Development of India.*

| | Cents per bushel. | In sterling per ton. |
|---|---|---|
| By lake and canal . . . . | 8·6 | 12*s.* 11*d.* |
| By lake and rail . . . . | 10·4 | 15*s.* 7*d.* |
| By rail entirely: | | |
| (1) During the season of navigation only . . . . . | 11·7 | 17*s.* 6*d.* |
| (2) During the year . . . | 14·4 | 21*s.* 7*d.* |

**175.** The competition of water carriage has evidently a marked effect on rail rates in America. In India, although about 20 per cent. of the wheat brought to Calcutta is still brought down the river in boats, this traffic does not in the least regulate the railway rates.

**176.** I have been informed on good authority that wheat is now carried from St. Louis, down the Mississippi, all the way through to Liverpool, for 14 cents a bushel, which is equal to 4*s.* 7¼*d.* per quarter or £1-1-1½ per ton. Mr. Leyland, owner of the Leyland line of steamers trading between Boston and Liverpool, told the Royal Commission on Agriculture that the custom is to take the wheat at Chicago (about 1,500 miles from Boston) and deliver it at Liverpool at a through rate, including everything. This rate in 1881 averaged 10*d.* a bushel of 60 lbs. or £1-11-1⅓ per ton, of which two-fifths went to the ship and three-fifths to the railway, the division being made by arrangement.

177. Turning to India, we find that the rate charged in March 1883 by the East Indian Railway from Delhi to Howrah, a distance of 954 miles, is Rs. 71 per 100 maunds, which, at an exchange of 1*s.* 7½*d.*, is equal to £1-11-5 per ton. *and in India.*

178. From Lahore to Kurrachee, a distance of 821 miles, the rate is 12 annas 3 pie per maund, equal to £1-13-11¾ per ton for the whole distance.

179. From Delhi to Bombay, over the Rajputana Railway, a distance of 889 miles, the rate until very recently was 13 annas 6 pie per maund, equal to £1-17-5¼ per ton for the whole distance.

180. From Jubbulpore to Bombay, a distance of 616 miles, the rate is 10 annas 5 pie per maund, equal to £1-9-8½ per ton for the whole distance; that is to say, it costs considerably more to carry a ton of wheat 616 miles over the Great Indian Peninsula Railway, than it does to carry the same quantity 960 miles over the American line.

181. A comparison of rates from other stations would produce similar results. But it is unnecessary to go further. It is abundantly clear that the Indian are much higher than the American rates.

182. In the detailed management of the trade also America has the advantage over India. There is far less handling of the wheat between the field and the hold of the ship in the former than in the latter country. The wheat is brought from the field into store-houses, and thence shot in bulk into the wagons, which are either brought alongside the ship or to warehouses which lie close to the ship. In India, on the other hand, wheat is brought from the field to a central station, say Cawnpore, is there bought by one trader (perhaps the agent of the shipping firm, perhaps another intermediary) from another trader, who has bought it from the cultivator. It is stored and bagged, then carted to the railway station, unloaded, stacked at the station, and again unstacked to be loaded into the wagons. On arrival at the port of shipment it is unloaded, stored, perhaps bought and sold once more, then carted to the shore and put on board either from a jetty or from a boat. *Management of the trade.*

183. Indian wheat is quoted in the London market at a lower price than American or Australian wheat. The average comparative prices during the year 1882 were as follows:— *Price of Indian wheat.*

| | Per Quarter. | |
|---|---|---|
| | *s.* | *d.* |
| American, best . . . . . | 48 | 9 |
| Calcutta, Club No. 1 . . . . . | 43 | 1 |
| Australian, best . . . . . | 50 | 5 |

184. I am informed that the relatively low price of Indian wheat is not so much due to its quality, which is generally very good, but to its admixture with dirt and other inferior grains. At present shippers pay for the conveyance of about 5 per cent. of dirt to England. *Mixture with dirt and other grains.*

185. The admixture of inferior grains with the wheat is, I believe, due to the fact that cultivators often grow other grains in the same field as wheat as a resource in the event of the failure of the wheat crop. This practice tends to keep down the price of Indian wheat.

186. Against this long list of disadvantages under which the Indian agriculturist labours as compared with his American competitor, must be balanced one advantage, which is very considerable. India enjoys free trade, whilst America labours under all the disadvantages of a Tariff designed to protect indigenous manufactures. *Advantages of India over America.*

*American protection.*

**187.** The disadvantage under which America labours by reason of its protective Tariff is very great. The fiscal laws of the United States oblige the American agriculturist to sell in the cheapest and to buy in the dearest market. For all woollen,* cotton, linen and silk manufactures, for iron and steel, for leather, for earthenware and crockery, for tin plates and ware, for hemp and jute fabrics, and for window glass, the American agriculturist has to pay from 20 to 77 per cent. extra—the average being 43 per cent.,—as the cost of protecting indigenous manufactures. An able writer on economic subjects* has estimated that the agriculturists of the United States paid $400,000,000 (£82,192,000) a year as the cost of protection, and ten years ago it was stated on high authority (Mr. D. Wells) that the average purchasing power of labour in the United States had been depreciated to the extent of 19½ per cent. between 1860 and 1873.

* *The Western Farmer of America.* Mr. A. Mongredien.

*Free trade in India.*

**188.** India on the other hand labours, for the purposes of the present argument, under no artificial disadvantages imposed by fiscal legislation. The Indian producer of wheat is absolutely free to exchange his exportable produce to the best possible advantage with the products of foreign countries.

*Importance of the subject.*

**189.** I have dwelt at some length on this subject not only on account of its intrinsic importance, but because I shall be glad if I succeed in drawing the attention of those who have a more intimate practical acquaintance both with the trade and the conditions of Indian agriculture than any to which I can pretend, to the necessity of exertion with a view to strengthening by all possible means the position of Indian wheat in the English market. I have not discussed the question of the relative cost of production in India and in the United States, because, independently of the somewhat difficult economic issues involved in this question, it is very difficult to obtain facts of a sufficiently reliable nature to permit of any very accurate general conclusion being drawn from them. I may say, however, that there is reason to suppose that the prime cost of production in India is less than in the United States.

*Reduction of Railway Rates.*

**190.** It remains for me to state the measures which have been adopted by the Government with a view to facilitating the export of wheat to Europe. In the first place the through rate for wheat conveyed from Delhi or Agra to Bombay has, in communication with the Agent of the Bombay, Baroda and Central India Railway, been reduced from 13 annas 6 pie to 11 annas a maund, and for other grains and seeds of the same class to 11½ annas a maund. The reduction in the case of wheat will, therefore, be 18·5 per cent. on the present rates. It will, no doubt, be followed by a corresponding reduction on the East Indian line. For the future it will be possible to lay down wheat coming from about Delhi or Agra to Calcutta or Bombay at a price of Rs. 4-4-3, or, at an exchange of *1s.* 7½*d.*, £0-6-11¼ per ton less than has heretofore been the case. To state the case in another way, the lowering of the rates is equivalent to a reduction in price of slightly over *1s. 6d.* per quarter of wheat in the London market.

*Minimum loads.*

**191.** In the second place, the restriction as regards minimum loads has been abolished on the Rajputana and Bombay, Baroda and Central India Lines.

*Facilities at Stations and Ports.*

**192.** In a letter recently issued from the Public Works Department, giving effect to this decision, the following passage occurs:—

"In conclusion, I am to draw general attention to the fact that every expansion of the "export trade will bring to bear a heavier strain upon the facilities for handling, warehousing, "removing, and shipping produce at the Railway Stations and Ports. These facilities are "believed to be even now in many cases inadequate, and their improvement will, His

* The duty on Wool has within the last few weeks been reduced, and that on Cotton Goods and Metals has been increased.

"Excellency the Governor General in Council trusts, engage the serious attention of the "several local authorities at an early date."

I trust that this very important branch of the subject will receive the serious attention which it deserves.

*Improved communications.*

**193.** Turning to the question of improved communications, it is to be observed that during the last two years the Railway policy of the Government of India has been unsettled. I do not think that is any matter for surprise or for regret. In inaugurating a policy under which Railways were, to some extent at all events, to be constructed through the agency of private enterprise, it was almost inevitable that there should be a period of transition during which it would be exceedingly difficult to adhere to any fixed policy. It was easy to declare beforehand the broad aim which the Government sought to attain, namely, the construction of Railways through the agency of unaided private enterprise, but experience alone could show how far that aim was attainable. We have now had two years' experience of the private enterprise policy. During that time a certain number of facts have been accumulated, which, we think, are sufficient to enable us to lay down a definite policy, at all events for the immediate future, say, for five years. We have, therefore, very recently addressed the Secretary of State on the subject, but I am not as yet in a position to state what the final decision of the Government will be.

*Progress in the construction of Railways.*

**194.** In the meanwhile I may as well state very briefly what have been the main facts as regards Railway construction during the last two years. At the commencement of the year 1881-82 there were 9,619 miles of Railway open to traffic, and 646 miles under construction, making a grand total of work either completed or in hand of 10,265 miles. At the commencement of the year 1882-83 there were 9,961 miles of line open for traffic and 1,302 under construction, making a grand total of 11,263 miles either completed or in hand. During the year 1882 83, 290 miles were opened to traffic, and the commencement of 1,194 miles of new line was authorised. The present position, therefore, is that we have 10,251 miles of line open to traffic, and 2,332 miles either under construction or sanctioned for commencement in 1883-84. It is expected that 719 miles will be opened for public use during the year 1883-84, leaving 1,613 miles for completion in 1884-85 and subsequent years. Comparing, therefore, the commencement of the year 1881-82 with the commencement of 1883-84, it will be found that the amount of line either open or under construction has in two years been increased by 2,318 miles. An immense deal, of course, remains to be done, and I trust it may be possible in the future to push forward the construction of Railways at a more rapid pace than in the past. At the same time it may be held that the progress during the last two years has, on the whole, been fairly satisfactory.

## VIII.—Budget Estimates, 1883-84.

**Budget Estimates, 1883-8**

*Opium.*

**195.** I have already mentioned (para. 133) that the net Opium Revenue for 1882-83 is now estimated at £7,217,000. I pointed out on the occasion of the last Financial Statement (paras. 139 and 140) that during the four years 1878-79, 1879-80, 1880-81, and 1881-82, the annual sales of Bengal Opium had been in excess of the annual production, and, further, that these large sales had only been possible by reason of the exceptionally good crops of 1875-76 and 1876-77, which had enabled a very strong reserve to be constituted. I alluded to the fact that since 1878 the reserve had been steadily diminishing in quantity. I added—

"This process of depletion cannot continue indefinitely. An exceptionally good crop "may, indeed, again replenish the reserve. But we cannot rely on a fortuitous circum-

"stance of this sort. An average crop, or, at all events, a succession of average crops, "will oblige us to resort to one of two alternatives. We shall be forced either to in- "crease the production, or to diminish the amount offered for sale."

*Notification of June 28th, 1882.*

**196.** The final result of the Opium crop is known about the month of June or July. The outturn of "provision" Opium—that is to say, Opium for export to China—in 1881-82 was 54,039 chests. The number of chests offered for sale in 1881-82 was 56,400. It was, therefore, thought desirable to reduce the number of chests to be offered for sale in 1883-84. Accordingly, on June 28th, 1882, the year's notice required by custom was given to the effect that from August 1883 (inclusive), the number of chests offered for sale would be reduced from 4,700 to 4,450 a month—a reduction at the rate of 3,000 chests in the year. It follows that during the year 1883-84 there will be four monthly sales of 4,700 chests each, and eight monthly sales of 4,450 chests each. In all 54,400 chests will be offered for sale in 1883-84, being 2,000 chests less than in 1882-83.

*Reduction of duty on Malwa Opium.*

**197.** Turning to Malwa Opium, it will be remembered that on June 28th, 1882, the duty was reduced by Rs. 50 a chest.

**198.** It is under these circumstances that we have to consider the Opium Estimate for the coming year.

*Opium Estimate for 1883-84.*

**199.** It is to be remembered that a reduction in the number of chests of Bengal Opium offered for sale should, all other things being equal, enhance the price which is realised on the diminished number of chests which are sold. But the reduction in quantity during 1883-84 (2,000 chests) may not be sufficient to exercise any appreciable effect on prices. It would not, therefore, be prudent to rely on a rise of price.

**200.** Also it is to be remembered that a diminution in the export of Bengal Opium to China will probably lead to a corresponding increase in the export of Malwa Opium. But here again it would not be prudent to rely on any compensating action of this sort in framing the Estimate for the coming year.

*Revenue.*

**201.** After a full consideration of the details of the question it has, therefore, been decided to take the gross Opium Revenue for 1883-84 at £9,200,000, being £362,000 less than the figure shown in the Revised Estimates for 1882-83.

*Expenditure.*

**202.** I turn now to the question of Expenditure. The expenditure under this head depends almost entirely on the yield of the poppy crop in Bengal and the North-West Provinces. As I have already mentioned (para. 133), the expenditure during the current year has been, relatively speaking, somewhat high (£2,345,000), owing partly to the fact that the outturn of both the Patna and Benares Agencies was somewhat above the average of past years, and partly to the fact that 2,000 maunds of Malwa Opium were purchased during the year to be manufactured into Opium for sale in India, thus allowing the reserve of Bengal Opium, which has heretofore been exclusively supplied for sale in India, to be strengthened to a corresponding extent.

*Crop of 1882-83.*

**203.** The accounts received up to the present time as regards the crop in the Benares and Patna Agencies, especially in the latter, are unsatisfactory. The total outturn of the two Agencies is at present estimated at not more than 47,000 chests. Much reliance cannot, however, be placed on any estimate formed at this period of the season. All that can be said with certainty is that the total crop will be considerably below the average, and that the final results are more likely to prove worse than they are to prove better than present Estimate.

*Estimate of Expenditure.*

**204.** The bad consequences of a short poppy crop do not make themselves felt immediately. The immediate effect of a partial failure of the crop is to strengthen the financial position by diminishing Expenditure. The ultimate effect is, probably, to weaken the financial position by diminishing the Revenue. It is

probable that the Expenditure in 1883-84 will fall short of that in 1882-83 by £270,000, but, in framing the Estimates, it has not been thought prudent to rely on so large a reduction of Expenditure. The Expenditure has, therefore, been taken at £2,165,000, being £180,000 less than that shown in the Revised Estimate for 1882-83.

*Net Revenue.*

**205.** The net Opium Revenue has, therefore, been taken at £7,035,000, being £182,000 less than the Revised and £215,000 less than the Budget Estimate of 1882-83.

| | £ |
|---|---|
| Revenue | 9,200,000 |
| Expenditure | 2,165,000 |
| Net Revenue | 7,035,000 |

*Number of chests for sale.*

**206.** In recent years it has been the custom to give a full year's notice of any change which is contemplated in the number of chests of Bengal Opium offered for sale. The necessity of giving so long a notice is inconvenient from the point of view of the Government. It will also be possible to abridge the period without causing any inconvenience to the trade. But we are pledged not to make any change in the existing system without giving a full year's notice. The present system will, therefore, remain in force until the end of March 1884. For the future the following plan will be adopted: The yield of the Opium crop is always known accurately about the month of June or July. When it is known, the number of chests to be offered for sale during the next calendar year will be publicly notified. A formal notification giving effect to this change of system will issue immediately.

*Summary of position.*

**207.** It may be convenient to those who are interested in the Bengal Opium trade that I should summarise the main facts of the present situation. They are as follows:—

(1) 4,700 chests of Opium will be offered for sale each month from April to July 1883 (both months inclusive).

(2) 4,450 chests will be offered for sale each month from August 1883, to March 1884 (both months inclusive).

(3) For the future the system of giving a full year's notice of any change in the number of chests to be offered for sale will be abandoned. The quantity to be sold in one calendar year will be publicly notified about the month of June or July of the preceding year.

(4) It is the intention of Government to reduce the number of chests, which will be offered for sale in 1884-85, below the quantity fixed by the notification of June 28th, 1882 (4,450 chests a month), but I am unable at present to state the precise amount of the reduction. A notification giving this information will issue so soon as the final results of the present Opium season are known, that is to say, about the beginning of July 1883.

(5) It is at present estimated that the total outturn of the Patna and Benares Agencies for the current year will be not more than 47,000 chests of "provision" Opium, that is to say, Opium for export to China. But any estimate which can at present be framed must necessarily be very unreliable.

(6) The Opium reserve will, on December 31st, 1883, stand at 13,859 chests.

*Exchange.*

**208.** I now turn to the question of *Exchange*. There is at present every reason to suppose that there will be a considerable demand for money during the early months of 1883-84. The export of wheat will, not improbably, be stimulated by the reduction in the Railway rates to which I have already alluded (Part VII). Under these circumstances it is quite possible that a higher average rate for Bills may be realised in 1883-84 than has been realised in 1882-83 (1*s.* 7·52*d.*). On the other hand, the Secretary of State's drawings for 1883-84 are now estimated at £16,300,000 (true sterling), being £958,000 (true sterling) in excess of the Budget Estimate for 1882-83 £15,342,000 (true sterling). The future of silver is also uncertain. Under

these circumstances it would not be prudent to take a higher figure than 1*s.* 7⅛*d.* as the value of the Rupee. Taking the Rupee, therefore, at 1*s.* 7⅛*d.*, the Expenditure under *Exchange on Transactions with London* for 1883-84 is estimated at £ 3,548,000, being £ 773,000 in excess of the Budget, and £ 432,000 in excess of the Revised Estimates for 1882-83.

*Other Estimates of Revenue.*

**209.** The other Estimates have been cautiously framed. *Land Revenue* (net) is taken at £50,000, and *Forests* (net) at £76,000 less than in the Revised Estimates of 1882-83. *Excise* (net) is taken at a figure (£9,000) very slightly in excess of the Revised Estimate for the current year. *Customs* (net) are also taken very slightly (£3,000) in excess of the Revised Estimates, although owing to a reduction of establishment consequent on the abolition of the import duties, the expenditure will be £13,000 less than in 1882-83. *Salt* (net) is taken at £9,000 less than during the current year, an increase of expenditure to the extent of £47,000 being anticipated. This is a very low estimate and will probably be exceeded. *Stamps* (net) are taken at £34,000 more than the Revised Estimate, which allows for less than the normal growth of Revenue. The *Mint* receipts (net) are taken at £37,000 less than the Revised Estimate in order to allow for a probable diminution in the imports of silver, on which the receipts under this head mainly depend. *Railways* (*State, Guaranteed* and *East Indian*, net) have been taken at £209,000 over the Revised Estimates. The Estimate is a moderate one. *Railways* (*Ordinary*) have been taken at £40,000 less than the Revised Estimate.

*Expenditure.*

**210.** On the Expenditure side of the Account, full provision has been made for all wants that can now be foreseen. The extension of the Railway system necessitates heavy Expenditure under *Telegraphs*. An increase of £85,000 over the Revised Estimates for the current year is allowed under this head. Allowance is also made for increased Expenditure under *Scientific and other Minor Departments* (£44,000 net), *Law and Justice* (£91,000 net), Police (£78,000 net), *Education* (£61,000 net), *Medical* (£24,000 net), *Territorial and Political Pensions* (£55,000), *Miscellaneous* (£84,000 net), *Subsidized Railways* (£30,000), and *Southern Mahratta Railway* (£52,000).*

**211.** On the other hand, in respect to three large items, the Expenditure of 1883-84 will fall below that of 1882-83. There is a diminution of £188,000 under *Refunds and Drawbacks*. This is due to the cessation of the large remissions of Land Revenue in Bombay and to the fact that the refunds under *Customs* will be much less in 1883-84 than they were in 1882-83. The Expenditure on *Frontier Railways* has now nearly ceased, thus reducing the Expenditure by £214,000 as compared with the Revised Estimates of 1882-83. The Expenditure under *Irrigation and Navigation* (*Ordinary*) is taken at £116,000 less, and that on the *Productive* account at £23,000 more than the Revised Estimate. The reduction under *Irrigation and Navigation* (*Ordinary*) is principally in Provincial Expenditure and but slightly affects the Imperial Surplus or Deficit. Under this head also the charge of £50,000 for payment of interest to the Madras Irrigation and Canal Company, which is shown in the Budget Estimate of 1882-83, disappears now that the works of the Company have become the property of the Government. Under *Civil Buildings, Roads, and Services* there is a reduction of £119,000 below the Revised Estimate for 1882-83. *Marine* also shows a reduction of £30,000; *Stationery and Printing* of £32,000; *Political* of £69,000.

**212.** I append to this Statement (Appendix VI) a minute by my hon'ble colleague, General Wilson, which gives full explanations as regards the Military Expenditure of the year.

* See note to para. 146 of this Statement. It is to be borne in mind that in some cases the increase of Expenditure does not affect Imperial Finance, as the charges are Provincial.

*Opium.*

**213.** It will be remembered that when, in 1880-81, the net Revenue derived from Opium amounted to £8,451,000—the largest sum ever realised—and when, in spite of this fact, the net Revenue for 1881-82 was taken in the Budget Estimates at only £6,500,000, this latter Estimate was severely criticised, both in and out of Parliament, as being too low. At the time when the Estimate was framed, I freely admit that it was almost certain that the net Revenue for 1881-82 would amount to more than £6,500,000. As a matter of fact, it amounted to £7,805,000. Further, as a matter of technical finance, it may very fairly be said that it is not right to deliberately under-estimate any item of Revenue. But that was not the really important point of issue. It makes little practical difference whether the Estimates are framed on the basis of a surplus of £500,000 and on an estimated net Revenue from Opium of £6,500,000, or whether they are framed on the basis of a surplus of, say, £1,500,000, and a net Revenue from Opium of £7,500,000. The really important question to decide, in March 1882, was this,—to what extent was it safe to take off taxes in reliance on a higher net Revenue than £6,500,000 from Opium?

*Connection between Opium and Salt.*

**214.** In the Financial Statement of last year (para. 192) I gave the following answer to this question :—

"If we abandon a source of Revenue which involves a permanent and absolute loss "of money, and which, moreover, from whatsoever reason, it would be difficult, in the "event of the Opium Revenue failing, to restore to its former position, then the course "would be open to great objection. If, on the other hand, we reduce a duty with a fair "hope that the reduction will increase consumption, and thus, after a while, recoup us for "any loss, and if, moreover, the duty can, without any great fiscal disturbance, be re-im- "posed in the event of the Opium Revenue falling off, then the reduction of taxation "would be unobjectionable. The Salt Duty falls within the latter of these two categories.

"It has been decided, therefore, to estimate the net Opium Revenue in 1882-83 at "£ 7,250,000, and simultaneously to afford some substantial relief to the tax-payers in the "shape of a reduction of the Salt Duty. * * * * * If any unfore- "seen circumstance, such as a heavy fall in the value of silver, takes place, and if at the "same time the reduction of the Salt Duty does not result in any considerable increase "in the consumption of salt, it would be open to us to return temporarily to a higher rate "of duty."

*Salt a fiscal reserve.*

**215.** It will be seen, therefore, that the intention, under certain contingencies, of using the Salt Duty as a fiscal reserve was distinctly indicated.

**216.** The loss of Revenue involved in reducing the Salt Duty (£1,400,000 a year) has, as I have already mentioned (para. 111), been already recouped by increased consumption to the extent of £320,600, a result more satisfactory by £302,000 than that which was anticipated last March. But in view of the facts (1) that the net Opium Revenue of 1883-84 is taken at £215,000 less than that of 1882-83 (Budget Estimate); (2) that the Expenditure under *Exchange* is estimated at £773,000 more than in 1882-83 (Budget Estimate); and (3) that, as is pointed out by General Wilson (see his Minute in Appendix VI), the savings in Military Expenditure in India have been to a great extent swallowed up by an increase of £100,000 (true sterling) on account of non-effective charges in England,—it would have been no matter for surprise if the Government had been obliged to resort to an enhancement of the rate of duty on Salt in order to balance the Revenue and Expenditure of the year 1883-84.

*No increase of taxation necessary.*

**217.** We are, however, fortunately under no such necessity. Not only are we able to balance our Revenue and Expenditure, but we are able, without any increase of taxation and without in any way starving the public services or checking the progress of Public Works of utility, to provide an adequate surplus in order to meet any of the numerous unforeseen contingencies which so frequently arise in India.

*Budget Estimates, 1883-84.*

**218.** The Budget Estimates for the year 1883-84 are as follows—

| | £ |
|---|---|
| Revenue . . . . . | 67,274,000 |
| Expenditure . . . . . | 66,817,000 |
| Surplus . | 457,000 |

*Reasons of Surplus.*

**219.** This satisfactory result is due (1) to the fact that the Indian Revenue is more elastic than is very generally supposed; (2) to the fact, to which I have already alluded (para. 145), *viz.*, that, in view of the large fiscal reforms undertaken last year, it was thought desirable to frame the Estimate of every item of Revenue and Expenditure with even more than usual caution; and (3) to the fact that, in carrying out those reforms, we were aware that the heavy charge for *Frontier Railways*, for which provision was made in 1882-83, would be greatly diminished in 1883-84 (see para. 249 of the Financial Statement for 1882-83). Allowing for an additional grant of £60,000 made during the year, the estimated Expenditure on these Railways is £282,000 in 1882-83. In 1883-84 it will only be £68,000.

*Postponement of further fiscal reforms.*

**220.** On the other hand, the high Expenditure under *Exchange* and the diminution of the Opium Revenue have rendered it necessary to postpone the execution of those further fiscal reforms which, under more favourable conditions in respect to these two important points, might otherwise have been feasible. We have not thought it desirable to adhere, on grounds of financial necessity, to the high rates hitherto charged on the Rajputana-Malwa Railway for the conveyance of food-grains. We are fortunately in a position to give effect to a very salutary measure of reform in reducing those rates. But the consideration of any further measures of fiscal reform must be postponed. Last year a favourable opportunity presented itself for the execution of some very large and beneficial improvements in the fiscal system. This year the state of the case is different. The financial position is perfectly sound, but the situation is one in which great caution is required. We have to look, not only to the circumstances of the immediate moment, but also to the contingencies which may arise in future years.

*Famine.*

**221.** Against one, and perhaps the most serious, of these contingencies—I mean famine—we are insured to the extent of £1,500,000 a year.

*Exchange.*

**222.** As regards the possibility of any further fall in the value of silver, all that can be said is that financial equilibrium has been more than secured on the basis of an estimated value to the rupee (1*s.* 7½*d*), which cannot be considered as erring on the side of optimism.

*Opium.*

**223.** Opium constitutes the chief danger of the immediate future. I have for a long time past been inclined to take a somewhat desponding view of the future of the Opium Revenue, and recent events have confirmed the views which I had heretofore held. Considering (1) that the crop is singularly precarious, (2) that the indigenous drug of China is daily becoming a more serious competitor to Indian Opium, and (3) that the Indian Revenue depends in no slight degree on the domestic legislation of a foreign country (China),—it can scarcely, in my opinion, be doubted that the yearly Revenue which India derives from Opium will, in all probability, show a tendency to fall off in the future. For reasons which I have already stated (paras. 203-204), it is almost certain that, although the Opium Estimate of 1883-84 has been taken at £215,000 below the Budget and at £182,000 below the Revised Estimate for 1882-83, the Estimate for 1884-85 will have to be taken at a still lower figure.

*Financial situation, 1884-85.*

**224.** I will not venture to predict what may be the financial situation at the commencement of the year 1884-85. All that can now be said on this subject is that we commence the year 1883-84 with a surplus of £457,000 in hand; that the Estimates for 1883-84 have been very cautiously framed; that the material prosperity of the country is increasing, and, unless famine should intervene, will continue to increase, with the result that the Revenue from *Excise*, *Salt*, *Stamps*, *Railways*, *&c.*, is steadily growing; and, lastly, that by the reduction of the Salt Duty, the financial position has been much strengthened, and a fiscal reserve constituted which, should the occasion unfortunately arise, can be used in case of necessity. So long as the value of the rupee and the Opium Revenue continue liable to such fluctuations as those which we have recently witnessed, the financial situation of India must always contain some special elements of instability; but I see no reasons for taking any desponding view of that situation at present. On the contrary, there is every reason to believe that the country will be well able to cope with whatever financial difficulties the future may have in store.

## IX.—The License Tax.

**The License Tax.**

**225.** In making the Financial Statement last March, I summed up the attitude of the Government in respect to the License Tax in the following words (para. 251):—

"We recognise the evils of the present tax. We recognise that in its present form "it cannot be incorporated into the permanent fiscal system of the country. Beyond this "we do not at present go. We reserve to ourselves complete liberty of action in the "future, either to propose the abolition of the License Tax, to recast it, or even, should "such a course appear desirable when the financial arrangements for the year 1883-84 "come under consideration, to allow it to continue in existence in its present form for a "while longer"

*Situation of the Government.*

**226.** I quote these words now in order to show that the hands of the Government are perfectly free in dealing with this question. We have recognised that the tax is objectionable, and that it cannot in its present form be incorporated into the permanent fiscal system of the country. But beyond this we have given no pledges whatever, whether in respect to the nature of the changes which will eventually be made in the existing laws regulating this subject, or in respect to the time when they shall be made.

*No present change.*

**227.** In the Financial Statement last year (para. 245) I alluded to the defects in the existing system under which the License Tax is levied. I need not, therefore, repeat what I then said. I will only say that, after full consideration, the Government has decided not to propose any change in the existing system for the present.

**228.** Nothing can be more undesirable in India than to introduce frequent changes in the fiscal system. The evils arising from the present system under which the License Tax is levied are emphatically such as it would be preferable to endure, rather than to remedy, unless some remedy can be applied with a reasonable confidence that no further change will in the immediate future be necessary. There are, moreover, some special considerations which point to the desirability of making no changes in the fiscal system at present. The financial year which is about to close has presented features which are altogether abnormal, and, even if this had not been the case, the experience of a year is not sufficient to enable any very correct judgment to be formed as to the ultimate effect of the large fiscal reforms which were carried out in March

1882. The future of Silver and of Opium is also very uncertain. On every ground, therefore, the present moment is a time when great caution should be exercised. Under these circumstances the Government, after full consideration, is of opinion that the wisest course to adopt will be to make no changes in the existing fiscal system, but to allow more time to elapse with a view to watching the effect of those reforms which have been already effected.

*Government reserves its freedom of action.*

**229.** It will, of course, be clearly understood that, in dealing with the License Tax, the Government reserves to itself complete liberty of action in the future, and that I can give no definite pledge as to the course which will be eventually pursued.

## X.—Stock Notes and Post Office Savings Banks.

**Stock Notes and Post Office Savings Banks.**

**230.** It will be remembered that about a year ago two schemes were introduced with a view to affording safe investments to the poorer classes. The first was the issue of Stock Notes. The second the establishment of Post Office Savings Banks.

*Stock Notes.*

**231.** Projects analogous to that of the Stock Note scheme had frequently been discussed in previous years, and various opinions, both official and unofficial, had been expressed on the subject. It was thought that the experiment was worth trying. In one District of the Central Provinces, in a portion of the North-West Provinces and Oudh, and in the whole of the Punjab, the right of selling Stock Notes was in the first instance temporarily reserved to monopolists. In the remaining provinces sales were effected only through the Civil Treasuries. More recently, in addition to the Civil Treasuries, the agency of the Post Office has been employed in the sale of the Notes. The result has been that Stock Notes to the value of £162,900 have been sold during the year. It is no matter for surprise that sales to a larger amount should not have been effected. The idea was a novel one, and it was not to be expected that, in a country like India, it would readily take root. Although more than 20 years have elapsed since Currency Notes were introduced into India, a very large part of the population still fails to appreciate their utility. Moreover, although the original plan was very carefully elaborated, experience alone could show whether all the details of the scheme were suitable to the circumstances of the country. Shortly after the issue of the Notes, many useful criticisms were made in connection with the scheme. It was, however, not thought desirable to effect any immediate changes in the plan which was originally adopted. A year has now nearly elapsed since the first issue of the Notes. The various suggestions and criticisms which have been made will, therefore, shortly be considered with a view to deciding whether any modifications in the details of the existing scheme are necessary or desirable.

**232.** Prolonged experience can alone show whether the scheme will ultimately take root in the country. In the meanwhile all that can be said is that it is worth while to continue the experiment.

*Post Office Savings Banks.*

**233.** Post Office Savings Banks were opened over a portion of India on April 1st, 1882. Owing to the vested rights of the Bank of Bombay, it was not possible to introduce the scheme in the Bombay Presidency, and in the Madras Presidency it was only introduced in the rural districts, to the exclusion of the large towns. Nor was the scheme introduced in the Presidency town of Calcutta. Arrangements have now been made with the Bank of Bengal and with the Bank of Bombay, which will allow of the introduction of the scheme into Calcutta and into the Bombay Presidency.

**234.** The results attained over the limited area in which Post Office Savings Banks have been opened are as follows. In the nine months ending December

31st, 1882, 31,698 accounts were opened, of which 2,928 were by Europeans and Eurasians and 28,770 by Natives of India. The balance in deposit on December 31st was £207,876.* It is worthy of observation that 91 per cent. of the depositors were Natives and only 9 per cent. Europeans and Eurasians. In the case of District and Presidency Savings Banks the proportion, taking the figures of the year 1881-82, was 62 per cent. of Native, and 38 per cent. of European and Eurasian depositors.

**235.** It is satisfactory to note that the establishment of Post Office Savings Banks has not led to any diminution in the deposits heretofore made in the District and Presidency Banks. The net operations of those Banks during the nine months ending with December 31st, 1882, show an increase of the balance in deposit of £60,500 over the balance on April 1st, 1882.

**236.** If we add together the amount of Stock Notes issued during the first nine months of the current financial year and the amount deposited in the Savings Banks, we arrive at a total of £431,300. From the point of view of comparison with some European countries, this amount is no doubt small in proportion to the population. But I do not think that any one acquainted with the condition of society in India would have expected more rapid progress.

| | £ |
|---|---|
| Stock Notes | 162,900 |
| Post Office Saving Banks | 207,900 |
| District and Presidency Saving Banks | 60,500 |
| TOTAL | 431,300 |

## XI.—Ways and Means.

**Ways and Means.**

**237.** In the Financial Statement of last year (para. 267) I stated that if no loan for Productive Public Works were raised during the year, the balance on March 31st, 1883, would probably be £10,848,000.

*Drawings of 1882-83.*

**238.** This estimate was based on the assumption that the Secretary of State would draw Bills to the extent of £15,342,000 (true sterling) on the Indian Treasury in the course of the year 1882-83.

**239.** I have already explained (para. 142) that, on the one hand, the Secretary of State's drawings were diminished by £1,300,000 (true sterling), owing to the large drawings in March 1882, and owing to the transactions connected with the Southern Mahratta Railway Company, and that, on the other hand, it is proposed to draw an additional £1,000,000 (true sterling), in order to reduce sterling debt in England. Thus the total amount of Secretary of State's drawings during the year 1882-83 will, it is estimated, be £15,042,000 (true sterling).

**240.** The balances have been increased during the year by the excess of revenue over expenditure beyond the amount for which credit was taken in the Budget, and also by a loan of £2,500,000 (nominal) which, as it was taken up at an average price of Rs. 98-14·7, yielded £2,472,979.

**241.** On the other hand, the balances have been diminished by the abnormal expenditure on account of the Egyptian expedition amounting, in India, to £1,179,200 and by the high expenditure under *Exchange* due to the fall in the value of the rupee.

*Balance on March, 31st, 1883.*

**242.** The net result of all these operations is that the balance on March 31st, 1883, is now estimated at £13,840,000.

*Ways and Means, 1883-84.*

**243.** I now turn to the question of the Ways and Means for the year 1883-84.

* On March 3rd, 1883, the balance in deposit in the Post Office Savings Banks amounted to £248,000. Information as regards the classification of depositors is not at present available for any date later than December 31st, 1882.

*ublicity as gards Loan erations.*

**244.** Complaints are occasionally made in India on the ground that the Government does not keep the public sufficiently informed in respect to its intentions in the matter of loan operations. I beg to assure those who are interested in this subject that the Government is fully alive to the desirability on every ground of announcing its intentions on this subject at as early a date as possible. We have no wish whatever to keep the public in suspense in this matter a day longer than is necessary. On the other hand, I must again draw attention to the remarks I made on the occasion of the last Financial Statement (para. 271). The operations of the Government of India are so large and varied, and so many unforeseen circumstances are liable to arise during the year, that to estimate in advance the cash requirements of the Government for twelve months must always be a matter of very great difficulty. Indeed, I may go further and say that, even under normal circumstances, it is quite impossible for the best-informed person to say how far the Estimates of the Revenue and Expenditure of the year are likely to be realised until about the end of the month of September, by which time it may be said that the general result of the harvest, which depends mainly on the south-west monsoon, can be stated with some sort of accuracy. I conceive that nothing would be more calculated to exercise a disturbing influence on the market than that any premature announcement should be made of the intentions of the Government, and that subsequently there should be a change in those intentions. I may add that the uncertainty in connection with the probable cost of the Egyptian Expedition, which, of course, depended largely on the course of events in Egypt, rendered any early announcement of the final intentions of the Government last year especially difficult.

*tatements ublished in the azette.*

**245.** In connection with this subject I should wish to draw attention to the Statements published in the *Gazette of India* about the 10th of each month, and which give, under a few main heads, the latest information in the possession of the Government as to the Revenue and Expenditure up to the last day of the month immediately preceding. An examination of those Statements will give an approximate idea of the extent to which, as the year goes on, the Estimates of Revenue and Expenditure are being realised. It is possible that the form in which these Statements are published might be improved. So far as I am aware they have not up to the present time attracted much attention, but if the result of these remarks should be to attract greater attention to them in the future, and if it be found that, in its present form, the monthly Statement is not readily comprehensible, the possibility of improving the form will be considered.

*an in 1883-84.*

**246.** It will be necessary to raise the usual loan for Productive Public Works in the course of the year. The present intention of the Government is to borrow £2,500,000 in India. The rate of interest will, as usual, be 4 per cent. Full particulars as regards the date on which tenders will be accepted, &c., &c., will be issued on or about July 16th.

**247.** In dealing with the amount of the Secretary of State's drawings (para. 208) and with the loan operations, which are contemplated during 1883-84 (para. 246) I speak subject to the usual reserve, that is to say, that the announcements I now make—

"are subject to modification as the year goes on; the Government must not be understood to pledge itself that the Secretary of State will raise by Bills the exact amount "stated; or that the amount stated will be borrowed during the year; or that it will be "borrowed in India or England, as the case may be."

**248.** Whilst making this reserve, I may add that it is absolutely certain that the loan of £2,500,000, to which I have already alluded, will be contracted.

The only possible modification is, that in the event of any unforeseen contingency arising, such as war or famine, it might be necessary to borrow more. I have at present no reason whatever to believe that it will be necessary to borrow more than £2,500,000. But it must be clearly understood that the Government reserves complete liberty of action to itself in the event of any contingency arising which cannot now be foreseen

*Balance on March 31st, 1884.*

249. The balance on March 31st, 1884, is estimated at £11,697,000, but this is a very low Estimate and, unless anything unforeseen occurs, it will probably be exceeded.

## XII.—Conclusion.

*Summary of Financial Statement*

250. It may be convenient that I should summarize the main features of the present Financial Statement. They are as follows —

*Forms of Accounts.*

(1) The forms in which the Accounts and Estimates are now presented to the public have been revised and simplified (paras 7—66)

*Accounts of 1881-82*

(2) The Accounts of 1881-82 show a surplus of £2,582,727 (paras 67—71)

*Trade of 1882-83.*

(3) The volume of the import trade in those articles relieved from duty in March 1882 has in the ten months, from April 1st, 1882, to January 31st, 1883, increased by about 7¼ per cent. (paras. 72—94)

*Price of Salt.*

(4) There has been a general fall in the retail price of Salt since the duty was reduced The amount of the fall in the different provinces ranges generally from about 13 to 23 per cent (paras. 95—100)

*Consumption of Salt*

(5) The consumption of Salt since the reduction of the duty has increased by about 6⅔ per cent, representing a revenue of about £320,000 (paras. 95—116)

*Egyptian Expedition.*

(6) The net cost of the Egyptian Expedition during the year 1882-83, after deducting the £500,000 (true sterling) contributed by the English Government, is estimated at £797,000 (para. 131)

*Opium 1882-83.*

(7) The net Opium Revenue of 1882-83 is now estimated at £7,217,000, being £33,000 less than the Budget Estimate (para 133)

*Exchange, 1882-83.*

(8) The Expenditure under *Exchange* during 1882-83 is now estimated at £341,000 in excess of the Budget Estimate (para 142).

*Reduction of Debt.*

(9) A sum of £1,000,000 (true sterling) will be remitted home during the year 1882-83 and will be applied to the reduction of Sterling debt in England (para. 139).

*Surplus, 1882-83.*

(10) The Revised Estimates for 1882-83 show a surplus of £60,000 (para 144)

*Railway rates*

(11) With a view to stimulating the export trade, the through railway rates on wheat and other grains and seeds from Delhi and Agra and Bombay have been reduced by 18½ per cent, equivalent, so far as wheat is concerned, to a reduction of 1s 6*d* per quarter in the London market This step will no doubt be followed by corresponding reduction of rates on the East Indian Line (paras 153—194).

*License Tax*

(12) No further fiscal changes are proposed in connection with the financial arrangements of the year 1883-84. The License Tax remains unchanged (paras 225—229)

*Opium, 1883-84.*

(13) The net Opium Revenue for 1883-84 has been taken at £7,035,000, being £215,000 less than the Budget Estimate of 1882-83 (para. 205).

*Bengal Opium.*

(14) The amount of Bengal Opium which will be offered for sale up to the end of March 1884 will be regulated by the terms of the Notification of June 28th, 1882 The amount which will be offered for sale from April to December 1884, both months inclusive, will be notified about the beginning of July 1883 (paras. 206—207).

*Exchange, 1883-84.* (15) In the Estimates for 1883-84 the value of the rupee has been taken at 1*s.* 7$\frac{1}{32}$*d.*, and the Expenditure under *Exchange* at £773,000 in excess of the Budget Estimate for 1882-83 (para. 208).

*Surplus, 1883-84.* (16) The Budget Estimates for 1883-84, which have been very cautiously framed, show a surplus of £457,000 (para. 218).

*Drawings, 1882-83.* (17) The Secretary of State's drawings during 1882-83 are now estimated at £15,042,000 (true sterling) (paras. 142 and 239), of which £14,184,000 (true sterling) had been drawn up to March 9th, 1883.

*Drawings, 1883-84.* (18) The Secretary of State's drawings during 1883-84 are estimated at £16,300,000 (true sterling) (see para. 208).

*Loan of 1883-84.* (19) The usual loan for Productive Public Works will be contracted in India during the year 1883-84. The amount, unless any unforeseen contingency should arise, will be £2,500,000. The rate of interest will be 4 per cent. Further particulars in connection with the loan will be issued on or about July 16th, 1883 (paras. 246—248).

*Cash Balance, March 31st, 1883.* (20) The cash balance on March 31st, 1883, is estimated at £13,840,000 (para. 242).

*Cash Balance, March 31st, 1884.* (21) The cash balance on March 31st, 1884, is estimated at £11,697,000 (para. 249), but this is a very moderate Estimate, and it will probably be exceeded.

*Opium prospects, 1884-85.* (22) The accounts of the Opium crop in Bengal and North-West Provinces are unsatisfactory, and it is probable that in 1884-85 the Opium Estimate will have to be taken at a lower figure than that shown in the Budget Estimates for 1883-84 (para. 223).

E. BARING.

*Calcutta, March 15, 1883.*

# APPENDIX II.

# ACCOUNTS AND ESTIMATES.

## (OLD CLASSIFICATION).

| | |
|---|---|
| Accounts . . . | 1881-82. |
| Revised Estimates . . | 1882-83. |
| Budget Estimates . . | 1883-84. |

## CONTENTS.

| | | Page |
|---|---|---|
| Statement | I.—Revenue and Expenditure of the Government of India in India and in England . . . . . | 68 & 69 |
| ,, | II.—Revenue and Expenditure of the Government of India in India and in England (distinguishing Revenue and Charges of Productive Public Works) . . . . . | 70 & 71 |
| ,, | III.—Revenue and Expenditure of the Government of India in India and in England in the three Divisions, Imperial, Provincial, and Local . . . . . | 72 & 73 |
| ,, | IV.—Receipts and Disbursements at the Treasuries of the Government of India in India and in England . . . . | 74 & 75 |
| ,, | V.—Revenue and Expenditure of the Government of India in India | 76 & 77 |
| ,, | VI.—Revenue and Expenditure of the Home Treasury of the Government of India . . . . . | 78 & 79 |
| ,, | VII.—Receipts and Disbursements at the Treasuries of the Government of India in India . . . . . | 80 & 81 |
| ,, | VIII.—Receipts and Disbursements at the Home Treasury of the Government of India . . . . . | 82 & 83 |
| ,, | IX.—Closing Balances of the Provincial Governments . . . | 84 |
| ,, | X.—Statement showing the net Revenue and Expenditure of India | 85 |

The following refunds are in the above Revised Estimates for 1882-83 and Budget Estimates for 1883-84 charged, according to the old practice, against the General head "Refunds and Drawbacks." In the new classification, not being Revenue Refunds, they are charged against the specific heads concerned :—

REVISED.—Law and Justice, £41,400; Minor Departments, £100; Police, £3,800; Marine, £200; Education, £300; Medical, £1,300; Superannuation, £100; Stationery and Printing, £300; Miscellaneous, £78,000 Total, £127,800

BUDGET.—Law and Justice, £43,100; Minor Departments, £300, Police, £2,400, Marine, £300, Education, £800, Medical, £1,400, Superannuation £100, Stationery and Printing £100, Miscellaneous, £77,700. Total, £126,300.

In other respects the totals of the Major Heads in the old and new classifications agree.

# APPENDIX III.

## ACCOUNTS AND ESTIMATES.

(NEW CLASSIFICATION.)

| | | |
|---|---|---|
| Accounts | . . | 1871-72 to 1881-82. |
| Estimates | . . | 1882-83 & 1883-84. |

CONTENTS.

| | Pages |
|---|---|
| General Statement . . . . . | 88 & 89 |
| Details of Revenue . . . . . | 90 & 91 |
| Details of Expenditure . . . . . | 92—95 |

*N B.*—The Provincial and Local Revenue and Expenditure are incorporated in these figures. In the actual accounts they were not incorporated till 1877-78, being represented only by a net entry against "Provincial Services."

# APPENDIX IV.

## MEMORANDUM ON PROVINCIAL AND LOCAL SURPLUSES AND DEFICITS.

# APPENDIX IV.

## Memorandum on Provincial and Local Surpluses and Deficits.

I observe, both from the debate in the House of Commons on the Indian Financial Statement, and from the comments in the English and Indian Press, that some difficulty is experienced in fully understanding the adjusting entries which appear in the Indian Accounts and Estimates of Revenue and Expenditure under the head of "Provincial and Local Surpluses and Deficits." This is no matter for surprise, for the entries represent, in fact, transactions which are somewhat complicated, and which it is, not unnaturally, difficult for any one not thoroughly conversant with all the details of the Indian financial system to understand fully.

The following illustration may perhaps serve to place the matter in a clear and intelligible light:—

A has three sons, B, C, and D. A, B, C, and D keep their balances at one banker, and the whole are merged in one account standing in A's name. On January 1st, 1882, the total balance standing to A's credit was £200,000, which was divided thus:—

| | £ |
|---|---|
| Belonging to A | 100,000 |
| ,, B | 50,000 |
| ,, C | 30,000 |
| ,, D | 20,000 |
| TOTAL | 200,000 |

A estimates his total income for 1882 at £120,000. His expenditure he estimates as follows:—

| | £ |
|---|---|
| A's personal expenditure | 50,000 |
| Allowance granted by A to B | 25,000 |
| Ditto A to C | 15,000 |
| Ditto A to D | 10,000 |
| Leaving a surplus belonging to A of | 20,000 |
| TOTAL | 120,000 |

On January 1st, 1882, B gives A notice that, besides spending his allowance for the year (£25,000), he wishes to draw on his balance of £50,000 to the extent of £10,000.

C at the same times gives notice that during the year he will spend exactly the amount of his allowance, and will neither draw on his balance of £30,000, nor increase it during the year

D at the same time gives notice that during the year he will only spend £9,000, out of his allowance of £10,000, thus increasing his balance, which stood on January 1st, 1882, at £20,000, by £1,000.

The joint Revenue and Expenditure Account of A, B, C, and D for the year will, therefore, stand thus:—

| REVENUE. | £ | EXPENDITURE. | £ | £ |
|---|---|---|---|---|
| A's income | 120,000 | A's personal expenditure | | 50,000 |
| | | B's expenditure— | | |
| | | Allowance for the year | 25,000 | |
| | | Add drawn from balance | 10,000 | |
| | | | | 35,000 |
| | | C's expenditure | | 15,000 |
| | | D's expenditure— | | |
| | | Allowance for the year | 10,000 | |
| | | Deduct saving during the year | 1,000 | |
| | | | | 9,000 |
| | | Surplus | | 11,000 |
| | | | | 120,000 |

# APPENDIX V.

# TRADE.

*Memorandum on the Import of Government Stores from Europe.**

1. As regards Government stores, the returns for the ten months ending January 31st, 1883, compared with the corresponding period of the year 1881-82, show reductions, to a greater or less extent, in the following articles :—

Apparel.
Carriages and carts.
Drugs and medicines.
Hardware and cutlery.
Instruments and apparatus.
Leather and leather-goods (boots, shoes, &c.)
Malt liquor.
Machinery and mill-work.
Railway plant and rolling-stock.
Parts of ships.
Woollen piece-goods.

In malt liquor and leather and woollen-goods the reductions are particularly noticeable. In these cases and of all the others above mentioned, except machinery and railway material, the reductions are certainly due to the substitution of Indian goods of similar kinds for articles heretofore imported from Europe.

2. On the other hand, there have been increases, more or less large, in the following articles :—

Arms and Ammunition and Military Stores.
Chemical products.
Coal.
Cotton piece-goods.
Flax goods (canvas, &c.)
Spirits and wines.
Metals of all kinds.
Paper and stationery.
Telegraph materials.

With the exception of paper and stationery these are either goods of a class not now made in the country, or they are required at places where Indian goods cannot be laid down as cheaply as imported goods. For instance, English coal is cheaper at Kurrachee than Indian coal. The cotton piece-goods imported are generally of a kind not yet made in India.

3. The increase in paper and stationery is more apparent than real. The Superintendent of Stationery for two or three years bought his paper and stationery in the market under orders from the Government of India, and his purchases appeared during that time under the head of General Trade, not under Government Stores. This practice having been stopped and, paper and stationery now coming from the Store Department of the India Office, the European supplies of the Stationery Office now appear under Government Stores. Some progress is being made in the manufacture of paper in India, but it has as yet unfortunately been only found possible to make the coarser kinds of paper used by the Government.

4. The total of the whole imports of Government Stores for the ten months compared with the corresponding period of 1881-82 show a reduction of from £1,806,552 to £1,744,747, or £61,805. Some gradual progress is thus being made in the direction of substituting Indian-made articles for those of English manufacture; but it will not be possible to make any very sensible impression upon the total amount of stores imported from England until iron work and machinery, equal in quality and not superior in price to the English articles, can be manufactured in India.

*March 1st, 1883.* E. BARING.

* On this subject see also General Wilson's Minute (Appendix VI., p. 115).

# APPENDIX VI.

# THE MILITARY BUDGET ESTIMATES, 1883-84.

## MINUTE

BY

LIEUTENANT-GENERAL THE HON'BLE F. T. WILSON, C.B.

# APPENDIX VI.

## The Military Budget Estimates, 1883-84.

*Minute by Lieutenant-General the Hon'ble T. F. Wilson, C.B.*

The estimated net cost of the army in India for the financial year 1883-84 is £11,194,000, being £95,700 less than what it was for the current year.

In the face of the reductions carried out in the native army last year, this result may at first appear disappointing, but examination of the different items will remove this idea, and show that there is no cause for other feeling than that of satisfaction with the accounts generally.

In considering the subject, it must be kept prominently in view that, although a large reduction in the number of regiments was made during the past year, still no reduction in the total number of fighting men was effected. On the contrary, the reverse is the case; for, while the number of corps was reduced, the strength of those to be maintained was increased:—infantry from 712 to 832 of all ranks in each of the corps, other than the five Goorkha regiments, which, with the sanction of the Secretary of State, are maintained at an extra strength of 912 of all ranks:—and cavalry from 457 to 550, with the exception of the Madras Cavalry, which remains unchanged.

Thus the total establishment of the three native armies in India is 111,411, or 436 men *in excess* of what it was before the reduction of the regiments took place.

The previously existing total number of British officers has been maintained much as before by the addition of one to each regiment of cavalry and infantry, whereby only ten regimental officers, excluding medical officers, have been reduced.

Thus the changes have resulted in a very small reduction in the strength of officers, and a material increase in the aggregate numbers of the rank and file of the regiments retained, while a large saving, estimated altogether at £103,183, has been effected. As foretold last year, however, a considerable portion of these savings has been absorbed by the payment of gratuities, compensation, and pensions to officers and men of the corps reduced. The compensation and gratuities have been paid, and there will be no further claims to meet on this account; but the pensionary charges have been largely increased. This abnormal charge will gradually be reduced as the pensioners decrease; still for some years to come there will undoubtedly be a large sum needed to meet the item No. 18, "Military Pensions."

The economical effects of the reforms carried out would have been more apparent but for two accidental and not to be foreseen circumstances.

The first refers to the settlement between the India Office and the War Office for non-effective charges which have gradually fallen into large arrears, with the result that the Secretary of State has now decided to pay off the amount due by spreading the payment of it over a number of years, commencing with an instalment of £100,000 as a first annual payment.

Secondly, a large increase has been required to Grant No. 10, consequent upon the unpleasant discovery that for some time past the ammunition factory at Kirkee has been turning out imperfect ammunition, large quantities of which have been condemned, and to meet the loss we have had to materially increase the outturn of the ammunition factories in order to complete the reserves.

Thus, had it not been for the arrears due to the War Office, and the defects discovered in the ammunition manufactured at Kirkee, a much larger saving would have been exhibited,—a saving which has been effected in conjunction with changes resulting in increased efficiency and strength.

There has been no change in the number of regiments and batteries on the establishment of the British troops in India, but there is a trifling increase in the total strength of men.

Going further into detail, I would observe that in Grant No. 5, "Remount and cattle supplies and service," there is an increase of £59,196. This is due to the unusually large number of horses required to meet annual waste and complete the reserve, an exceptionally small number of remounts having been purchased during the current financial year. We were too sanguine last year, and should have bought more horses, but it was a fault on the right side, and the keep of these extra horses for the better part of a year has been saved.

There is also an increase in Grant No. 6, "Clothing." This is caused by the provision of a large sum (£16,300) which will become due to Messrs. Cooper and Allen, local contractors, for their first supply of country-made boots for the army. This payment will, however, cause a corresponding decrease in the home charges.

Grants 3 and 9, "Regimental pay, allowances and charges" and "Medical establishment, service and supplies," must be considered together, because, while the former shows a decrease of very nearly £255,000 lakhs, the latter records an increase of £70,467, the saving on both Grants combined being £184,519,— a result mainly due to the reduction of regiments and establishments and the Army Medical Department. The complete introduction of the station hospitals in place of the regimental hospitals has also contributed to this very large decrease in military expenditure.

Under the head of Grant 10, "Ordnance establishment, stores and camp equipage," there is an increase which is accounted for by the necessity for replacing the faulty ammunition manufactured at Kirkee, and to which reference has already been made. There is also an increase of £11,000 for camp equipage in Bengal and Madras. In Madras, however, the increased charges for camp equipage are counterbalanced by the abolition of the depot at Nagpore, and reductions in the Gunpowder Factory at Madras and the depot at the Mount. The increase includes £5,800 provided for the purchase, in the local market, of canvas for the Ordnance Department, Bombay. There will be a corresponding decrease in the home indent.

The excess over last year's budget estimate in Grant 13, "Sea transport charges," is chiefly due to an increase of £5,800 in the charges for the Indian trooping service, the estimate for 1882-83 having proved too low.

The saving in Grant 4, "Miscellaneous Services," would have been larger but for the necessity which has arisen for providing for a camp of exercise at Bangalore,—a measure which has been strongly urged upon the Government of India by the local Commander-in-Chief and the Commander-in-Chief in India, it being considered very desirable to give the Madras army the advantage of instruction in field duties and some of the more important operations which would devolve upon officers, soldiers, and departments under the conditions of war.

In Grant No. 15, "Volunteers," provision is made for the additional sum of £3,362. This increase is a welcome one, being rendered necessary by the considerable increase to the number of volunteers in India which has taken place during the past year.

Under the head of Grant 17, "Retired Officers," there is a small increase made in order to provide for the possible payment to officers in India of com-

muted pensions. But it must be remembered that, whilst this increases expenditure in India, it proportionably decreases home charges.

Grant No. 18, "Military Pensions," exhibits increased expenditure. This is on account of pensions due to the Afghan war, and the recent large reductions in the native army.

Such briefly are the principal variations in the items of military expenditure in India, the net decrease on the whole being, as compared with the estimates of last year, £95,700.

Efforts to reduce military expenditure in India have not been confined to the native army. The number of siege guns to be maintained has been reduced by 45 pieces, with a corresponding reduction of 179 bullocks required for their transport. The ordnance depots at Peshawar, Belgaum and Nagpore have been abolished, while large reductions have been effected in the depot at St. Thomas' Mount, Madras.

In the explanation relative to military expenditure in India, which I gave last year, I referred to the intention to immediately extend to the other presidencies the station hospital system, by means of which one British hospital takes the place of several in a cantonment. This measure, which has been found to work admirably, has, during the past year, been further developed, with the result that the Army Medical Department has been further reduced, the strength in officers being now 300 as compared with the old establishment of 373 officers exclusive, in both cases, of the administrative grades.

The Subordinate Medical Department has also been reduced by ten assistant apothecaries, and there are other contemplated changes which are calculated to further reduce expenditure; but their financial effects cannot, at present, be estimated. Reductions in the same direction will follow in the Bombay and Madras establishments.

The married establishment of British soldiers has been fixed at—

| | |
|---|---|
| Warrant officers | All. |
| Non-commissioned officers | All. |
| Royal Artillery | 8 per cent. for 5 years, then 6 per cent |
| Infantry | 4 per cent. |

A considerable portion of the reduction on this account has already taken place.

The estimate provides for the following sanctioned changes:—

(*a.*)—Increase in the establishment of non-commissioned officers in heavy and field batteries.

(*b.*)—Grant to quartermasters and riding-masters of British. troops of the increased allowance due to the changes in their relative rank.

(*c.*)—Improvement in the position of the native non-commissioned officers by the grant to them of good-conduct pay.

(*d.*)—Formation of two army hospital corps for Madras and Bombay, similar to the one adopted in Bengal; and the appointment of an apothecary to supervise the detailed administration of the Bengal army hospital corps.

(*e.*)—A considerable increase in the amount of practice ammunition for all the troops, European and native.

In addition to the above, the new transport scheme, which has been fairly started in all three presidencies, has been provided for.

The late war in Afghanistan forcibly brought to light many imperfections in our old system of transport, with its attendant enormous expenditure consequent on the want of a proper organisation during a period of peace, and

incapability of rapid expansion when war took place. For some time past this subject has been under the consideration of the Government, and during the past summer the Secretary of State has sanctioned proposals which provide for the equipment of the troops protecting the various frontiers with half transport on service scale, also for certain forces which will be held ready for local service or despatch to a distinct point, the approximate numbers of which are in all 46,000 men.

Under this scheme the country is divided into circles, each with a depot centre, where a certain amount of transport is to be kept on a peace footing, capable of expansion in time of war. Training depots are provided for at the largest stations in India, where detachments will be sent, so that officers and men may go through a course of transport training.

Power is given to mobilise forces as follows within the provincial areas :—

| | Men. |
|---|---|
| Punjab | 10,000 |
| Bengal | 10,000 |
| Bombay | 8,000 |
| Madras | 5,000 |

Arrangements are being made by which the resources of the country in transport will be known, so that it will be easy, at short notice, to supplement the transport in time of need to meet the requirements of war.

The total approximate amount of transport to be maintained in India will be as follows :—

| | |
|---|---|
| Elephants | 600 |
| Camels, Government | 396 |
| „ hired | 2,500 |
| Mules, Government | 8,100 |
| Pack bullocks | 1,000 |
| Army transport carts | 1,300 |

Equivalent to a maundage of 51,000 maunds.

A permanent staff for the supervision of the above is provided as follows :—

*Bengal.*

1 Deputy Commissary-General, Transport.
1 Assistant Commissary-General, Transport.
2 Deputy Assistant Commissaries-General, Transport.
2 Deputy Assistant Commissaries-General, Transport, 2nd class.
5 Sub-Assistant Commissaries-General.

11 Commissioned officers.

*Madras.*

1 Assistant Commissary-General.
2 Deputy Assistant Commissaries-General.
2 Sub-Assistant Commissaries-General.

5 Commissioned officers.

*Bombay.*

1 Assistant Commissary-General.
1 Deputy Assistant Commissary-General
2 Sub-Assistant Commissaries-General.

4 Commissioned officers.

The following subordinate establishment has also been provided :—

*Bengal.*

1 Deputy Assistant Commissary.
5 Conductors.
7 Sub-Conductors.
10 Sergeants.

23 Total.

*Madras.*

2 Conductors.
3 Sub-Conductors.
5 Sergeants.

10 Total.

*Bombay.*

1 Conductor.
1 Sub-Conductor.
3 Sergeants.

5 Total

Provision has been made for the cost of this establishment, for equipment, repairs to buildings, allowances to regimental transport staff, pension to inferior servants, &c. The total cost will be about £280,000 per annum.

The old movable column system has been abolished, as it was found an expensive and comparatively useless arrangement. The carriage kept up under that system could not be readily mobilised, and the new transport service will be much more efficient and less expensive.

Consequent on there having been a surplus of mules over requirements, the transport service has been started (since the conclusion of the Egypt war) with selected animals throughout, and both they and their equipment are in first rate order.

An efficient ambulance service in connection with the transport service is being organised in each of the presidencies, which will, it is hoped, provide the army with a percentage of sick transport and equipment on a sounder footing than hitherto and at no additional cost to the State.

The introduction of the new transport service into the Madras and Bombay presidencies has been rendered an easy matter owing to the cordial co-operation of the local authorities in meeting the wishes of the Government of India.

The new scheme, though not at the time nearly completed, has had full trial during the late war in Egypt, for while only in course of formation, it was called upon suddenly to supply carriage for 13,201 fighting men and followers and 5,915 animals, with officers and drivers complete. These proceeded to Suez at the worst period of the monsoon weather, in August and September of last year; and whilst in Egypt the entire success of the new pattern saddle, the completeness of the supervision provided, the advantage of trained attendants, and of regiments being instructed in loading and packing were fully exemplified.

For some time past the Government of India has recognised the need of applying a remedy to the stagnation in promotion which existed in the cavalry cadres of the three presidencies, and the consequent supersession in substantive rank of the local cavalry officers by the staff corps and general lists. To this end the Secretary of State has recently sanctioned measures for ameliorating the position of the cadre officers of the local cavalry lists suffering from

retarded promotion, especially in the junior grades, by allowing all the option of receiving staff corps rates of promotion with staff corps rates of pay on their waiving their claims to the higher cavalry pay when unemployed; those who accepted the above condition being also allowed to attain to colonel's allowances after 38 years' service. These measures have been recently introduced, and have removed all legitimate grounds of complaint, but the additional cost will hardly fall short of £7,000 yearly.

For this change, and all other changes enumerated above, full provision has been made in the estimate.

The fact that next year is leap year calls for a passing remark. The increase on this account for the extra day's pay and rations for British troops, and for the extra forage for horses, &c., is estimated roughly at about £6,000.

Turning to the home charges—

The estimate provides for £195,800 on account of changes which have been made under the orders of the home authorities. This sum is in excess of the budget estimate for 1882-83; the increase, however, being largely met by reductions aggregating £175,600, leaves a net increase of £20,200 as compared with the budget estimate of 1882-83.

The large decrease in the home charges which it was anticipated would result from the policy of substituting, as far as possible, local stores and supplies for articles hitherto imported, has been fully realised. The saving on this account is £124,100. In this direction of late years much has been done. The expenditure for home stores, including freight, which was in 1877-78 £1,154,460, is now estimated for the coming financial year at £504,800. Within the past five years reduction has been effected in this one account to the extent of £649,660.

The economy effected in the above item is, however, nearly all absorbed by the arrangement made at home to commence to liquidate the large arrears due to the War Office for non-effective charges, and £100,000 has this year been set aside as a first annual instalment of the debt.

Last year I pointed out that the charges for retired pay for officers of the Indian army would annually increase until the year 1897 is reached, and this year's estimate makes increased provision on this account. Indeed, these non-effective home charges and their annually increasing cost forcibly remind us of what was said by the Secretary of State for War in the House of Commons on the 24th June 1881, that it would not be before 1893 that the heavy dead weight which was due to that service would begin to diminish, and that meanwhile it would increase, and the automatic increase of pensions would continue whatever economies might be effected.

Such briefly are the remarks I desire to make on the Military Budget Estimate for the year 1883-84. Fully recognizing my responsibility for military expenditure, I have not accepted them without much criticism and examination, and they have caused me anxiety. But on the whole I am satisfied with them, because they maintain the British army at its normal strength in batteries and regiments, and they provide for an addition to the aggregate strength of the army, have provided each regiment with an additional British officer, and have effected a change in organisation which has brought about the elimination from the ranks of the Bengal army of the non-fighting classes, while adding to the establishment of the regiments retained men of the warlike classes. This has been done, and improvement in establishments has been gained at a considerable reduction of expenditure, while, consequent on the liberal concessions sanctioned by the Secretary of State to the men discharged, and the care exhibited by the military authorities, the changes have been carried into effect

without difficulty, and have been accepted by the army without a murmur, and without any of the disquieting effects which were by some anticipated.

Finally, I would say that, if Government are asked what proof they have that the efficiency of the army has been improved, and that the reduction of cadres has not gone too far, and too much reduced our military establishment, I reply, that, while we have reduced the number of our regiments, selecting in Bengal some of those which were almost wholly recruited from the least warlike of the classes in India, we have materially added to the strength of those maintained, have increased the European element in each, and made them capable of proceeding on service without extraneous aid from transfers to them; and that although the demand for Native troops for Egypt came to us at quite the most inconvenient moment it could have done, in July last, just as the reductions sanctioned by the Secretary of State had been carried out and the Government were some 7,000 men short of establishment, no difficulty was found in furnishing the required number of troops, and within eleven days of the receipt of the order directing sea transport to be engaged, the first detachment had sailed from Bombay, and was quickly followed by forty-six transports with troops, horses, followers, and land transport fully complete; and if another 5,000 men had been needed, the Government of India could without difficulty have provided them. This, I think, furnishes a satisfactory reply to those who have asserted that the reductions carried out last year went too far, and dangerously weakened our military strength in India.

(Sd.) T. F. WILSON.

### HOME DEPARTMENT.

NOTIFICATIONS.—ESTABLISHMENTS.

*Fort William, the 10th March 1883.*

**No. 75.**—APPOINTMENT.—Mr. R. J. Crosthwaite, C.S., B.A., to officiate as Judicial Commissioner of the Central Provinces, with effect from the 10th instant, *vice* Mr. C. H. T. Crosthwaite, C.S., who has been appointed to officiate as Chief Commissioner of British Burma, or until further orders.

*The 14th March 1883.*

**No. 80.**—Mr. C. H. T. Crosthwaite, C.S., received charge of the office of Chief Commissioner of British Burma from Mr. C. E. Bernard, C.S.I., on the afternoon of the 1st instant.

JUDICIAL.

*The 15th March 1883.*

**No. 393.**—The Hon'ble C. J. Wilkinson, B.A., Barrister-at-Law, took his seat as Officiating Judge of the High Court of Judicature at Fort William in Bengal on the forenoon of the 13th instant.

PORT BLAIR.

*The 15th March 1883.*

**No. 144.**—Mr. F. E. Tuson, Extra Assistant Superintendent, 2nd Class, Port Blair and the Nicobars, to be Extra Assistant Superintendent, 1st Class, *vice* Mr. J. N. Homfray, deceased.

Mr. H. Godwin Austen, Officiating Extra Assistant Superintendent, 2nd Class, is confirmed in that appointment, *vice* Mr. Tuson, promoted.

ECCLESIASTICAL.

*The 13th March 1883.*

**No. 67.**—APPOINTMENT.—The Reverend H. C. Spring, B.A., to be Chaplain of Gauhati and Shillong in Assam, with effect from the date on which he takes charge of his duties.

A. MACKENZIE,
*Secretary to the Government of India.*

## REVENUE AND AGRICULTURAL DEPARTMENT.

### NOTIFICATIONS.—SURVEYS.

*Fort William, the 7th March 1883.*

**No. 103** *S.*—Mr. T. W. H. Hughes, Assistant, 2nd Grade, Geological Survey of India, is appointed to officiate in the 1st grade and as Deputy Superintendent, with effect from the date of his return from leave, *vice* Mr. W King, on furlough.

### EXHIBITIONS.

*The 16th March 1883.*

**No. 242** *Fr.*—With reference to Government of India Notification No. 151Ex., dated the 24th August 1882, the designation of Babu Trailokya Nath Mukharji, Officer in charge of Indian Exhibits for Amsterdam Exhibition, will henceforth be "Officer in charge of Exhibition Branch, Revenue and Agricultural Department, Government of India."

E. C. BUCK,
*Secretary to the Government of India.*

## FOREIGN DEPARTMENT.

### NOTIFICATIONS.—JUDICIAL.

*Fort William, the 14th March, 1883.*

**No. 644** *I.*—Under Section 8 of Act XV of 1872 (The Indian Christian Marriage Act, 1872), the Governor-General in Council is pleased to appoint the Reverend Enoch Jeffries, of the Methodist Episcopal Church at Secunderabad, to be a Marriage Registrar, in respect of all places within the territories of His Highness the Nizam of Hyderabad

The Governor-General in Council is also pleased to grant to the Reverend Enoch Jeffries a license under Section 9 of the aforesaid Act, authorizing him to grant certificates of marriage between Native Christians within the said territories.

**No 646** *I.*—Under Section 8 of Act XV of 1872 (The Indian Christian Marriage Act, 1872), the Governor-General in Council is pleased to appoint the Reverend D. O. Ensberger, of the Methodist Episcopal Church, to be a Marriage Registrar, in respect of all places within the territories of His Highness the Nizam of Hyderabad.

The Governor-General in Council is also pleased to grant to the Reverend D. O. Ensberger a license under Section 9 of the aforesaid Act, authorizing him to grant certificates of marriage between Native Christians within the said territories.

### MILITARY.

*The 14th March, 1883.*

**No. 794** *G.*—The following extract from Brigade Orders, dated the 26th February, 1883, by the Commandant of the Central India Horse, is confirmed.—

*1st Regiment.*

Lieutenant W. E. Evans-Gordon, Officiating Squadron Officer, to officiate as 3rd Squadron Commander, with effect from the 15th February, 1883.

**No. 810** *G.*—Major J. Burne, 2nd Assistant to the Governor-General's Agent in Central India, is appointed to officiate as Commandant of the Malwa Bheel Corps during the absence on furlough of Lieutenant-Colonel J. Miller.

**No. 814** *G.*—The services of Lieutenant W A. B. Dennys, Bengal Staff Corps, Officiating Wing Officer, Bhopal Battalion, are replaced at the disposal of the Military Department.

### POLITICAL.

*The 10th March, 1883.*

C. GRANT,

*Secretary to the Government of India.*

## DEPARTMENT OF FINANCE AND COMMERCE.

### NOTIFICATIONS.

*Fort William, the 14th March 1883.*

**No. 1414.**—Furlough out of India, for eight months, is granted to Mr. C. W. Hutchinson, Officiating Post Master General, Madras, with effect from the 5th April 1883.

Mr. Charles Falkiner MacCartie, M.C.S., is appointed to officiate as Post Master General, Madras, during Mr. Hutchinson's absence on furlough or until further orders.

*The 16th March 1883.*

**No. 1418.**—By Notification No. 1212, dated 8th March 1879, by the Government of India Financial Department, the number of chests of Bengal Opium, to be sold in the month of January 1880 and thereafter, month by month, till further notice, was fixed at 4,700.

By Notification by the Government of Bengal, dated 21st June 1882, the number of chests of Bengal Opium to be sold in the month of August 1883 and thereafter, month by month, till further notice, was fixed at 4,450.

It was further stated, that the monthly provision of opium, fixed by these Notifications, would neither be increased nor diminished, until at least 12 calendar months after notice, published in the *Gazette of India* or in the *Calcutta Gazette*.

In accordance with the intimation already given to the public, 4,700 chests of Bengal Opium will be sold, month by month, up to and including the month of July 1883; and thereafter, month by month, from the month of August 1883 up to the month of March 1884, inclusive, 4,450 chests will be sold.

In supersession of so much of the orders above referred to as declared that the total number of chests to be sold at each monthly sale would not be altered till after 12 months' notice, the Governor General in Council is now pleased to declare that the total number of chests that will be offered for sale from April to December 1884, both months inclusive, will be announced hereafter when the outturn of the present season is known, and that the system of announcing a fixed number of chests for sale each month, subject to a year's notice, will no longer be followed. In future, as soon as the outturn of the year's crop is known, the Government of India will publicly announce the total number of chests to be sold during the succeeding calendar year.

**No. 1444.**—In exercise of the powers conferred by section 9 of the Indian Stamp Act, 1879, the Governor General in Council is pleased to make the following addition to the rules published under Notification No. 1288, dated 3rd March 1882, *viz.*—

"Rule 5 (f). When any instrument of transfer of shares in a Company or Association is written on an impressed sheet and the value impressed thereon is subsequently, in consequence of a rise in the market value of such shares, found to fall short of the amount of duty chargeable under article 60 (a), Schedule I of the Act, two or more adhesive 'Share Transfer Stamps' hereinafter mentioned may be used to make up the required amount."

**No. 1455.**—*Abstract of the Accounts of the Department of Issue of Paper Currency on the 28th February 1883, published as required by Section 27 of the Indian Paper Currency Act XX of 1882.*

HENRY F. BLANFORD,
*Meteorological Reporter to the Government of India.*

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

**Terms of subscription, payable annually in advance.**

| | Without Postage. | With Postage. |
|---|---|---|
| For the CALCUTTA SERIES . | R35 | R37-8 |
| „ MADRAS SERIES . | „ 8 | „ 9 |
| „ BOMBAY SERIES . | „ 8 | „ 9 |
| „ ALLAHABAD SERIES . | „ 8 | „ 9 |
| Complete set . . . | „45 | „47-8 |

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

| | |
|---|---|
| For a Part of the CALCUTTA SERIES . | R3 -8 |
| „ MADRAS SERIES . | „ 1 0 |
| „ „ BOMBAY SERIES . | „ 1 0 |
| „ „ ALLAHABAD SERIES | „ 1 0 |
| Complete set . . . . . | „ 4 0 |

Persons desiring to subscribe for or purchase the Reports, should apply to—
MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY.
MESSRS. HIGGINBOTHAM AND CO., MADRAS,
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

*Orders and Subscriptions for 1883 should be at once remitted*

## THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 70 a set.

☞ The following books may be purchased from the Office of Superintendent of Government Printing, India, No. 166 Dhurrumtollah Street, for private use only, which should be stated in the requisition.

No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded one anna additional should be sent for every rupee's worth of stamps, for discount in exchanging them for cash. Service labels or Court Fee stamps are not received.

Books required for the public service cannot be supplied on payment, they are only issued on the authority of the Department to which the indenting officer is subordinate. Applications for them should be made through the Local Government under which the applicant serves.

*Just published*

## PART III.

### Advertisements and Notices by Private Individuals and Corporations.

### BURDWAN MUNICIPALITY.

DEBENTURE LOAN OF ₹1,00,000,

*Bearing Interest at 5 per cent. per annum.*

The Commissioners have obtained the sanction of the Government of India under Section 7 of Act XI of 1879, "The Local Authorities Loan Act," to raise a loan of the above sum in the open market on the security of the rates and taxes levied by them under Act V of 1876 (B.C.) in order to enable them to carry out a scheme of water-supply for the town.

Tenders are hereby invited and will be received up to 15th April 1883, for the whole or any part of the abovenamed sum.

Negotiable Debentures will be issued of ₹500 each, or any multiple thereof, and the Loan will be repayable in twenty-five years. Interest on the Debentures will be payable on the 1st February and 1st August, either at the Bank of Bengal, Calcutta, or at the Municipal Office, Burdwan.

Tenders in the form annexed to be sent to the "Chairman, Burdwan Municipality," enclosed in a sealed cover marked "Tender for Municipal Loan of 1883." A minimum having been fixed upon, tenders will be opened at the Municipal Office by the Chairman of the Municipality at noon on the 17th April 1883.

A deposit of 2 per cent. of the amount tendered for, must be paid either to the Bank of Bengal, Calcutta, or to the Burdwan Treasury for credit of the Municipal Fund, and the Bank or Treasury Receipt should accompany the tender.

Payment of allotments will be required as follows:—

25 per cent., on 1st May 1883;
25 „ on 1st August 1883;
25 „ on 1st November 1883;
25 „ on 1st February 1884;

and all payments must be made to the Treasury at Burdwan or to the Bank of Bengal, Calcutta, for credit of the Municipal Fund.

The deposits on accepted tenders will be taken in part payment of the last instalment, but will be forfeited, if, after acceptance of the tender, the allotment be not fully paid up as above.

The deposits on unaccepted tenders will be returned on application.

W. R. LARMINIE,
*Chairman.*

FORM OF TENDER.

I hereby tender for ₹ _____ of the Loan advertised in the Notification published in the *Calcutta Gazette*, dated 14th March 1883, and agree to pay the same subject to the conditions notified, at the rate of ₹ _____ as. _____ for every ₹100 allotted to me.

I enclose a deposit receipt of the Bank of Bengal / Treasury at Burdwan for ₹ _____ being 2 per cent. on the amount of my tender, and engage, if my offer is accepted, to pay to the account of the Municipal Fund in the Bank of Bengal / Treasury at Burdwan the sum allotted to me on or before the due dates of the instalments.

9. Publication of register.
10. Appeals.
11. Submission of register to Board of Revenue and Local Government.
12. Approval of register.
13. Consequence of notification of approval.

CHAPTER III.

OF TENURE-HOLDERS GENERALLY.

*A.—Of the Right to hold at fixed rents.*

14. Land held at rent unchanged since Permanent Settlement not liable to enhancement.

SECTIONS.

15. Presumption from twenty years' holding at unchanged rent.
16. Application of sections 14 and 15 when rent is paid in kind.
17. Effect of separation or amalgamation of holding.
18. Tenure held since Permanent Settlement liable to enhancement only in certain cases.
19. Saving as to land held under terminable agreement.
20. Saving as to land held in a district not permanently settled.

*B.— Of the enhancement of rent.*

21. Limits of enhancement of rent of tenures.
22. Enhanced rent not to be more than double the previous rent.
23. Power to order gradual enhancement.
24. Rent once enhanced may not be altered for ten years.

*C.—Incidents of permanent tenures.*

25. Incidents of permanent tenures generally.
26. Permanent tenure-holder not liable to ejectment.

*D.—Of the registration of transfers of, and succession to, permanent tenures.*

27. Landlord bound to register voluntary transfer or succession on application.
28. Application may be served through Revenue-officer.
29. Registration in case of transfer by sale in execution of decree other than decree for rent.
30. Registration in case of transfer by sale in execution of decree for rent or by summary sale.
31. Effect of omission to register voluntary transfer.
32. Application to Court to compel landlord to register.
33. Application by landlord to compel registration.
34. Landlord to give copies of entries in the register.
35. Power to make rules regarding registration.

SECTIONS.

CHAPTER IV.

OF PATNÍ TENURES.

86. Definition of patní tenure.
87. Incidents of patní tenures.
88. Right of landlord of patní tenure to demand security from transferee.
89. Landlord may refuse registration of voluntary transfer when security is not given.
40. Landlord may attach tenure sold in execution or by summary sale when security is not given.
41. Application to Civil Court, if security tendered is refused
42. Recovery of arrears by summary sale.

CHAPTER V.

OF OCCUPANCY-RAIYATS.

43. Interpretation.
44 Present occupancy-raiyats to become occupancy-raiyats under Act.
45. Acquisition of status of settled raiyat of village or estate.
46. Loss of status of settled raiyat.
47. Settled raiyat to have occupancy-right in raiyatí land held by him in village or estate.
48. Acquisition of occupancy-right by grant.
49. Acquisition of occupancy-right in khámár land.
50. Incidents of occupancy-right generally.
51. Landlord's right of pre-emption on voluntary sale of occupancy-right.
52. Landlord's right of pre-emption on sale in execution.
53. Landlord's right to take the place of mortgagee on foreclosure.
54. Landlord's right to purchase in case of gift of occupancy-right.
55. Landlord's right to purchase where occupancy-right is bequeathed.
56. Raiyat of land of which landlord has acquired occupancy-right to be an occupancy-raiyat.
57. Acquisition of status of settled raiyat by succeeding to occupancy-right.

CHAPTER VI.

OF THE RENT PAYABLE BY OCCUPANCY-RAIYATS.

*A.—Of money-rents generally.*

58. Existing money-rents payable until altered as herein provided.
59. Enhancement of money-rents by contract.
60. Money-rents not enhanceable except as provided.
61. Limit of money-rent payable by settled raiyat taking new holding.

*B.—Of the preparation of a table of rates and produce, and of suits to enhance money-rents where such a table is in force*

62. Power to direct preparation of table.
63. Contents of table.
64. Principle on which rent-rates are to be fixed.
65. Local publication of the table.
66. Revenue-officer to deal with objections.
67. Table to be submitted to superior Revenue-authorities.
68. Proceedings of Board of Revenue thereupon.
69. Publication of table after final sanction.
70. Period for which Table remains in force.

SECTIONS.

71. Table to be conclusive evidence.
72. Expenses incurred in preparing table how defrayed.
73. Suit to enhance where table is in force.

*C.—Of suits to enhance money-rents where a table of rates and produce is not in force.*

74. Grounds on which landlord may sue to enhance where table is not in force.
75. Rules for enhancement under section 74.

*D.—Rules applicable to suits to enhance money-rents generally.*

76. No enhancement beyond double the rent previously payable.
77. Power to order progressive enhancement.
78. Rent enhanced or commuted not enhanceable for 10 years.

*E.—Of suits for the reduction of money-rents.*

79. Occupancy-raiyat when entitled to reduction of rent.

*F.—Special rules regarding money-rents payable for pasture-lands.*

80. Special rules for pasture-lands.

*G.—Of rents payable in kind or varying with the crop.*

81. Limit to amount of rent payable in kind or varying with crop.
82. Commutation of rents.

*H.—Supplementary provisions.*

83. Collectors to prepare annual price lists of staple crops.
84. Power to make rules.

CHAPTER VII.

OF THE RIGHT OF A SETTLED RAIYAT IN BASTU LAND.

85. Settled raiyat to have permanent right in *bastu* land.
86. Provisions regarding ejectment.
87. Rule for enhancing the rent of land.

CHAPTER VIII.

OF ORDINARY RAIYATS.

88. Ordinary raiyat defined.
89. Rents regulated by agreement.
90. Grounds on which an ordinary raiyat may be ejected from raiyatí land.
91. Notice of enhancement to be served through Civil Court.
92. Raiyat may agree to enhancement. If he does not, landlord may sue to eject.
93. Procedure in suit.
94. Decree when absolute: when to become void.
95. Fresh proceedings not to be taken for ten years.

CHAPTER IX.

PROVISIONS REGARDING RENT APPLICABLE TO SEVERAL CLASSES OF TENANTS.

*A.—Of alterations of rent consequent on alterations of the area of the holding of a tenure-holder or occupancy-raiyat.*

96. Additions to, and deductions from, rent in respect of alteration of area.

SECTIONS.

*B.—Instalments in which money-rents are payable by tenure-holders, raiyats and under-raiyats.*

97. Rent of tenure-holder in what instalments and on what dates payable.
98. Rent of raiyat or under-raiyat in what instalments and on what dates payable.
99. Making and publication of orders under sections 97 and 98.

*C.—Of the receipts and accounts to be given to tenants.*

100. Tenant making payment to his landlord entitled to a receipt.
101. Tenant entitled to statement of account at close of the year.
102. Penalties and fine for withholding receipts and statements of accounts and failing to keep counterparts.

*D.—Of the deposit of rent by a tenant in a public office.*

103. Application to deposit rent in public office.
104. Receipt granted by public officer for rent deposited to be a valid acquittance.
105. Notification of receipt of deposit.
106. Deposit to whom payable.
107. Refund to depositor.

*E.—Of arrears of rent.*

108. Interest on arrears.
109. Power to award damages on rent withheld without reasonable cause.
110. Power to award damages to defendant improperly sued for rent.
111. Ejectment from non-transferable holding for arrears.

*F.—Of rent taken by division or estimation of the crop.*

112. Commission for dividing or estimating crops.
113. Appointment of assessors, &c.
114. Remedy for error in division.
115. Procedure when crop has been estimated or appraised.
116. Costs of proceedings under foregoing sections.
117. Interference with produce of land otherwise than under section 112, criminal trespass.
118. *Danabandí* or appraisement papers in Bihár to be deposited in Collector's office.

*G.—Further provisions regarding rent.*

119. Limit to rents of raiyats and under-raiyats.
120. Presumption that rent continues unchanged.
121. Power to alter rent in case of new assessment of revenue.
122. Tenant not liable to transferee of landlord's interest for rent paid to former landlord without notice of the transfer.
123. Abwáb, &c., illegal.
124. Penalty for exaction by landlord from tenant of sum in excess of the rent payable.
125. Rent first charge on tenures, occupancy-holdings and *basts* holdings.

CHAPTER X.

OTHER PROVISIONS APPLICABLE TO SEVERAL CLASSES OF TENANTS.

*A.—Of improvements on raiyats' holdings and compensation therefor.*

126. "Improvement".
127. Right to make improvements in case of occupancy-holding.
128. Right to make improvements in case of ordinary raiyats' holding.
129. Compensation for improvements payable to raiyat on ejectment.

SECTIONS.

130. Power to make rules for appointment of assessors.
131. Principle on which compensation is to be estimated.
132. Certain stipulations in contracts to be void.

*B.—Of the landlord's right to measure land.*

133. Landlord entitled to measure land unless restrained by contract.
134. Tenant bound to point out boundaries.
135. Remedy when landlord is obstructed or tenant does not point out boundaries.
136. Presumption against tenant not attending to point out boundaries.
137. Measurement in suits between landlord and tenant to be made according to Government measure.
138. Determination of the length of the standard in case of dispute.

*C.—Of surrender and abandonment.*

139. Surrender by raiyat.
140. Non-transferable holding in certain cases to be deemed surrendered.

*D.—Of Merger.*

141. Merger of tenant's interest in landlord's interest.

*E.—Of the appointment of a manager on behalf of co-owners of an estate or tenure.*

142. Power to call upon co-owners to show cause why they should not appoint a common manager.
143. Power to order them to appoint a manager if cause is not shown.
144. Power to appoint manager if order is not obeyed.
145. Power to nominate person to act in all cases under section 144 (*b*).
146. The Court of Wards Act, 1879, applicable to management by Court of Wards under section 144 (*a*).
147. Provisions applicable to manager appointed under section 144 (*b*).
148. Power to restore management to co-owners.

*F.—Miscellaneous.*

149. No ejectment except in execution of decree.
150. Portion of holding not transferable.

CHAPTER XI.

OF THE SETTLEMENT OF RENTS BY A REVENUE-OFFICER.

151. Power to order Revenue-officers to settle rents.
152. Bar to jurisdiction of Civil Courts while order is in force.
153. Rents of certain tenants to be fixed.
154. Rents of other tenants to be ascertained and recorded.
155. Power to refer question to Civil Court or leave case to be dealt with by Civil Court.
156. Preparation of jamabandí.
157. Publication of jamabandí and objections thereto.
158. Submission of jamabandí and petitions of objection to the Commissioner and Board.
159. Sanction to and final publication of jamabandí, and date from which it comes into force.
160. Rent fixed under foregoing provisions to be deemed the rent payable.
161. Rent ascertained under foregoing provisions to be presumed to be the rent payable.
162. Certain other entries in jamabandí to be presumed to be correct.
163. Expenses incurred in proceedings under this chapter how defrayed.

SECTIONS.

CHAPTER XII.

OF THE PREPARATION OF A RECORD-OF-RIGHTS BY A REVENUE-OFFICER.

164. Power to order preparation of record-of-rights.
165. Presumption as to entries in record.

CHAPTER XIII.

OF THE RECOVERY OF RENTS FROM RAIYATS AND UNDER-RAIYATS BY DISTRAINING THE PRODUCE OF THE HOLDING

166. Cases in which an application for distraint may be made.
167. Form of application and fee payable.
168. Procedure on receipt of application.
169. Procedure if application is admitted.
170. Service of demand and account
171. Right to reap, &c., produce.
172. Sale-proclamation to be issued unless demand is satisfied.
173. Place of sale
174. Power to sell produce before it is reaped or gathered.
175 Manner of sale.
176. Postponement of sale.
177 Payment of purchase-money.
178. Certificate to be given to purchaser.
179. Proceeds of sale how to be applied.
180. Certain officers may not purchase.
181. Procedure where demand is paid before the sale.
182. Amount paid by under-tenant for his lessor may be deducted from rent.
183. Conflict between rights of superior and inferior landlords
184. Distraint of property which is under attachment.
185. Penalty for illegal distraint.
186. Persons benefitting, &c, by offences under section 185 liable to punishment.
187. Power to suspend provisions of sections 166 to 184.

CHAPTER XIV.

SPECIAL RULES OF PROCEDURE APPLICABLE TO SUITS BETWEEN LANDLORD AND TENANT.

*A.—Rules applicable to suits between landlord and tenant generally.*

188. Place of suing.
189. Náibs or Gumáshtas to be authorised agents.
190. Special register of suits.

*B.—Rules applicable to particular classes of suits between landlord and tenant.*

191. Sections 121 to 127, 129, 191 to 197, 305 and 320 to 325C of Code not to apply in suits for possession, rent or damages.
192. Particulars to be specified in plaint in such suits.
193. Summons in such suits to be for final disposal.
194. Service of summons in such suits by registered letter.
195. Written statements not to be filed in such suits without leave.
196. Mode of recording evidence in such suits.
197. Execution in such suits on oral application.
198. No appeal in certain suits for arrears and penalties.
199. Defendant in suit for arrear admitting arrear is due, but disputing plaintiff's title to pay into Court.
200. When assignee of decree for arrears may apply for execution.
201. Date from which decree for enhancement takes effect.

SECTIONS.

202. Relief against forfeitures.
203. Rights of ejected raiyats in respect of crops and land prepared for sowing.
204. Payment by raiyat for occupation of land under section 203.
205. All claims between landlord and tenant to be determined in ejectment proceedings.
206. Procedure when, on ejectment, money is due by the landlord to the tenant.

*C.—Suit to determine status, &c, of tenant.*

207. Suit to determine status, &c., of tenant.

CHAPTER XV.

OF THE SALE OF TRANSFERABLE HOLDINGS IN EXECUTION OF DECREES FOR ARREARS DUE ON THEM.

208. Definitions.
209 Application for sale of holding.
210. Proclamation announcing sale.
211. Sale of tenure subject to registered incumbrances and effect thereof.
212. Sale of tenure with power to avoid all incumbrances and effect thereof.
213. Sale of occupancy-holding with power to avoid incumbrances and effect thereof.
214. Procedure for annulling incumbrances under the foregoing sections.
215. Power to direct that occupancy-holdings be dealt with under foregoing sections as tenures.
216. Rules for disposal of the sale-proceeds
217. Holding to be released from attachment only on payment into Court of amount of decree with costs, or on confession of satisfaction by decree-holder
218. Amount paid into Court to prevent sale to be in certain cases a mortgage-debt on the holding.
219. Inferior tenant paying into Court may deduct from rent
220. Decree-holder may bid at sale; judgment-debtor may not.
221. Operation of sections 313 and 326 of Code of Civil Procedure excluded.
222. Registration of certain instruments creating incumbrances.
223. Registration-officers to serve copies of instruments creating incumbrances.

CHAPTER XVI.

ON LIMITATION.

224. Limitation in suits, appeals and applications in Schedule IV.
225. Portions of the Indian Limitation Act not applicable to such suits, &c.

CHAPTER XVII.

SUPPLEMENTARY.

226. Saving as to service-tenures.
227. Power to make rules regarding procedure and powers of officers.
228. Procedure for making, publication and confirmation of rules.
229. Náibs and gumáshtas of landlords.
230. Rights of pasturage, forest-rights, &c.

SCHEDULE I.—Repeal of enactments.

SCHEDULE II.—Extract from preamble to Regulation VIII of 1819.

SCHEDULE III.—Summary sale of patní tenures.

SCHEDULE IV.—Limitation.

## *Bengal Tenancy Bill.*

### (*Chapter I.—Preliminary. Secs. 1—3.*)

*Explanation of abbreviations in margin.*

D. means Mr. Field's Digest.

C. B., the Bill prepared by the Commission.

A

# BILL

TO

*Amend and consolidate certain enactments relating to the Law of Landlord and Tenant within the Territories under the Administration of the Lieutenant-Governor of Bengal.*

WHEREAS it is expedient to amend and consolidate certain enactments relating to the Law of Landlord and Tenant within the territories under the administration of the Lieutenant-Governor of Bengal, It is hereby enacted as follows :—

## CHAPTER I.

### PRELIMINARY.

1. (*1*) This Act may be called the Bengal Tenancy Act, 1884. Short title

(*2*) It shall come into force on such date (hereinafter called the commencement of this Act) as the Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local Gazette, appoint in this behalf. Commencement

[C.B., s 1 B. B., s. 1] (*3*) It shall extend by its own operation to all the territories for the time being under the administration of the Lieutenant-Governor of Bengal, except the Town of Calcutta, the Division of Orissa, and the Scheduled Districts specified in the third part of the First Schedule of the Scheduled Districts Act, 1874, and the Local Government may, with the previous sanction of the Governor General in Council, by notification in the local Gazette, extend the whole or any part of this Act to the Division of Orissa. Local extent.

[C. B., s. 2 B. B., s 2.] 2. (*1*) The enactments specified in Schedule I hereto annexed are repealed in the territories to which this Act extends by its own operation. Repeal

(*2*) When this Act is extended to the Division of Orissa, such of those enactments as are in force in that Division, or, where a part only of this Act is so extended, so much of them as is inconsistent with that part, shall be repealed in that Division.

(*3*) Any enactment or document referring to any enactment hereby repealed shall be construed to refer to this Act or to the corresponding portion thereof.

(*4*) The repeal of any enactment by this Act shall not revive any right, privilege, matter or thing not in force or existing at the commencement of this Act.

3 The following definitions and rules shall apply in the construction of this Act unless there is something repugnant in the subject or context .— Construction of Act.

(*1*) "Estate" means land included under one entry in any of the general registers of revenue-paying lands and revenue-free lands, prepared and maintained under the law for the time being in force by the Collector of a district: [D. § 1. C. B., s. 3. B. B., s. 3.]

(*2*) "Proprietor" means a person or a number of persons owning an estate [D. § 1. C. B., s. 3. B. B., s. 3.]

(*3*) "Tenure" includes an under-tenure and the interest of every tenant of the class referred to in section 14

*Illustrations.*

(*a*)—A *durpatni* or *sipatni* interest or a mokurrerree holding is a tenure.

(*b*)—A *dar-ijarah* or a farm for a term of years is a tenure

(*4*) "Tenure-holder" means a person or a number of persons owning a tenure.

(*5*) A person shall not be deemed to be a raiyat, in respect of any land, or to hold that land as a raiyat, unless he holds it for the purpose of agriculture, horticulture or pasture, or he or his predecessor in interest came into possession of it for such purpose [D. § 1. C. B., s. 3. B. B., s. 3. ("raiyat" and "land")]

Provided that a person shall be deemed to hold as a raiyat any *bastu* or homestead land included in the same holding with other land held by him as a raiyat.

*Explanation.*—A person may hold land for a purpose mentioned in this clause though he has sublet it.

(*6*) "Under-raiyat" means a tenant holding land whether immediately or mediately below a raiyat.

(*7*) "Bastu holding" means bastu or other homestead land held by a tenant having the right provided for by Chapter VII. New.

(*8*) "Tenant" does not include any person who is not a tenure-holder, raiyat or under-raiyat, or the tenant of a bastu holding. New.

(*9*) "Landlord" means a person or a number of persons immediately under whom a tenant holds.

## *Bengal Tenancy Bill.*

### (*Chapter I.—Preliminary. Sec. 4.*) *and* (*Chapter II.—Khamar and Raiyatí Land. Secs. 5—8.*)

[D., § 1, ... s. 3. ... s. 3. 30.]

(*10*) "Rent" means whatever is payable or deliverable in money or kind by a tenant to his landlord on account of the use or occupation of the land held by the tenant.

(*11*) "Pay," "payable" and "payment," used with reference to rent, include "deliver," "deliverable" and "delivery."

[D., § 101. ... B., s. 56. ... B., s. 48.]

(*12*) "Arrear" means an instalment, or part of an instalment, of rent which is not paid before sunset of the day on which it is payable.

(*13*) "Holding" means a parcel of land held by a tenant of a landlord under one lease or one set of conditions.

(*14*) "Agricultural year" means, where the Bengalí year prevails, the year commencing on the first day of Bysáck, and where the Faslí or Amlí year prevails, the year commencing on the first day of Asin.

[D., § 20 & 37. ... B., ss. 6 & ... B., ss. 6 & ...]

(*15*) "Permanent Settlement" means the Permanent Settlement of Bengal, Bihár and Orissa made in the year 1793.

(*16*) "Transfer" includes sale, whether voluntary or in execution of a decree, and mortgage and gift.

(*17*) "Succession" includes both intestate and testamentary succession.

[B. B., s. 3.]

(*18*) "Bihár" means all the districts of the Patna Division, and such district or parts of districts of the Bhágalpur Division as the Lieutenant-Governor of Bengal may from time to time, by notification in the official Gazette, declare to be included in Bihár for the purposes of this Act.

[C. B., s. 3. ... B., s. 3.]

(*19*) "Signed" includes "marked" when the person making the mark is unable to write his name; it also includes "stamped" with the name of the person referred to.

(*20*) "Prescribed" means prescribed by the Local Government by notification in the official Gazette.

(*21*) "Collector" means the Collector of a District or any other officer appointed by the Local Government to discharge the functions of a Collector under this Act.

(*22*) "Revenue-officer" in any provision of this Act means such officer as the Local Government may appoint to discharge the functions of a Revenue-officer under that provision.

[D., § 2. ... s. 4. ... of ... Commissioner, § 3. ... s. 4.]

4. Nothing in this Act shall affect—

Saving of custom, special law, &c.

(*a*) any custom or customary right not inconsistent with, or not expressly or by necessary implication modified or abolished by, its provisions;

(*b*) the powers and duties of Settlement-officers as defined by any law not expressly repealed by this Act;

(*c*) any enactment regulating the procedure for the realization of rents in estates belonging to the Government, or under the management of the Court of Wards or of the revenue-authorities;

(*d*) any enactment relating to the avoidance of tenancies by a sale for arrears of the Government revenue;

(*e*) any enactment relating to the partition of out revenue-paying estates;

(*f*) any other special or local law not repealed either expressly or by necessary implication by this Act or;

(*g*) any incident of a ghátwálí or other service tenure

*Illustration.*

The custom that an under raiyat should, under certain circumstances, acquire a right of occupancy is not inconsistent with, and is not expressly or by necessary implication modified or abolished by, the provisions of this Act. That custom accordingly, wherever it exists, will not be affected by this Act.

[C. B., s. 1 Expl 4 (*f*) B. B., s. 1 Expl. 4 (*e*) proviso.]

## CHAPTER II.

### OF THE DISTINCTION BETWEEN KHAMAR AND RAIYATÍ LAND.

Khamar land defined.

5. "*Khamar land*" means—

*1st*, land situated elsewhere than in Bihár which a proprietor has held, whether under the name of khamar, nij-jote, ser or otherwise, as his private land for twelve continuous years before the commencement of this Act, and

[C. B., s. 8 B. B., ss. 3 75.]

*2nd*, land situate in Bihár which—

(*a*) is recognized as zeraat by a village custom established before the commencement of this Act: or

(*b*) is proved to have been held by a proprietor as zeraat for twelve continuous years immediately before the commencement of this Act.

All other land to be raiyatí.

6. All land which is not khamar land of some estate shall be deemed to be raiyatí land, and all land shall be presumed to be raiyatí land until the contrary is proved.

[B. B., ss. 3 19 & 75.]

Power to order survey and register of khamar lands.

7. The Local Government may direct that a survey and register shall be made of all khamar land situate in any district or part of a district.

[B. B., s. 71

Mode of making survey.

8. The survey shall be made by the Collector or by an officer authorized by the Collector in that behalf, under such rules as may from time to time be prescribed by the Local Government for the conduct of such surveys; and the Collector or such officer may exercise any of the powers conferred upon a Collector by the Bengal Survey Act of 1875, except the powers in Part IV of the said Act relating to the apportionment and recovery of expenses.

[B. B., s. 71 V (B. C. of 1875.

## *Bengal Tenancy Bill.*

### (*Chapter III.—Tenure-holders generally. Secs. 9—20.*)

[B. B., s. 78.] **9.** The Collector shall make a register, in such form as the Local Government may from time to time prescribe, of such lands in each village as he may ascertain to be khamar lands within the meaning of the definition contained in section five; and copies of that register shall be published in such manner as the Local Government may direct.

Publication of register.

[B. B., s. 79.] **10.** (*1*) Any person dissatisfied with any entry in the register may appeal to the Commissioner within one month after the publication; and the Commissioner shall make such enquiry as he considers necessary, and may direct the register to be amended in such manner as he thinks fit.

Appeals.

(*2*) An appeal shall lie to the Board of Revenue from any order passed by the Commissioner under this section, if preferred within one month from the date of the order.

[B. B., s. 80.] **11.** If no appeal is preferred to the Commissioner, or after such appeals as have been so preferred have been disposed of, the Commissioner shall submit to the Board of Revenue a copy of the register, with a report showing how the survey and register have been made; and, if the Board are satisfied that the register is correct, they shall transmit the same to the Local Government for its approval.

Submission of register to Board of Revenue and Local Government.

[B. B., s. 81.] **12.** If the Local Government approves the register, it may direct that its approval of the same be notified in the official Gazette: Provided that its approval shall not in any case be given until after three months from the date of the publication under section nine.

Approval of register.

[B. B., s. 82.] **13.** When the approval of a register by the Local Government has been notified under section twelve, all land entered in the register shall, notwithstanding anything in the foregoing sections, be deemed to be khamar land, and all other land situate in the local area for which the register has been prepared shall, notwithstanding anything as aforesaid, be deemed to be raiyati land.

Consequence of notification of approval.

---

### CHAPTER III.—OF TENURE-HOLDERS GENERALLY.

#### *A.—Of the Right to hold at fixed rents.*

[D. §§ 20 & 37. C. B., ss. 6 & 16. B. B., ss. 6 & 15.] **14.** Where land has been held by a tenant and his predecessors in interest at a rent which has not been changed from the time of the Permanent Settlement, then, subject to the provisions of this Act, the rent shall not be liable to enhancement, and the tenant shall be deemed to be a tenure-holder for the purposes of this Act.

Land held at rent unchanged since Permanent Settlement not liable to enhancement.

[D. §§ 21 & 38. C. B., ss. 6 & 17. B. B., ss. 6 & 16.] **15.** Where land has been held by a tenant and his predecessors in interest at a rent which has not been changed for twenty years, then, subject to the provisions of this Act, it shall be presumed, until the contrary is shown, that it has been held by them at that rent from the time of the Permanent Settlement.

Presumption from twenty years' holding at unchanged rent.

[D. §. 22. C. B., s. 18, Expl. I. B. B., s. 18, Expl. I.] **16.** When a tenant has paid as rent a fixed share or the value of a fixed share of the produce of the land, the rent shall not be deemed to have been changed within the meaning of sections fourteen and fifteen merely by reason of the amount paid having varied from year to year, or by reason of the rent having been commuted to a fixed money-rent.

Application of sections 14 and 15 when rent is paid in kind

[D. §. 37. C. B., s. 18, Expl. II. B. B., s. 18, Expl. II.] **17.** The operation of the foregoing sections of this chapter shall not be affected by the fact of land having been separated from other land which formed with it a single holding, or amalgamated with other land into one holding.

Effect of separation or amalgamation of holding.

[D. s. 19. C. B., s. 7. B. B., s. 7.] **18.** (*1*) Where a tenure has been held from the time of the Permanent Settlement, its rent shall not be liable to enhancement except on proof—

Tenure held since Permanent Settlement liable to enhancement only in certain cases.

(*a*) that the landlord under whom it is held is entitled to enhance the rent thereof either by the special custom of the district, or by the conditions under which the tenure is held, or

(*b*) that the tenure-holder, by receiving reductions of his rent, has subjected himself to the payment of the increase demanded, and that the lands are capable of affording it.

(*2*) A reduction of rent granted to a tenure-holder, on account of diluvion or for land taken under the provisions of any enactment for the time being in force for the acquisition of land for public purposes or companies, shall not be deemed a reduction within the meaning of this section.

[D. §. 20. C. B., s. 8. B. B., s. 6.] **19.** Nothing in the foregoing sections of this chapter shall apply to land held under a terminable agreement.

Saving as to land held under terminable agreement.

[C. B., ss. 6, Excep. & 17, Exception B. B., ss. 6, Excep., & 16, Exception.] **20.** Where the area comprised in a tenure is situate in an estate which has never been permanently settled, nothing in the foregoing sections of this chapter shall prevent the enhancement of the rent upon the expiration of a temporary settlement of the revenue, unless the right to hold beyond the term of the settlement at a fixed rate of rent has been expressly recognized in settlement-proceedings by a Revenue-authority empowered by the Government to make definitively or confirm settlements.

Saving as to land held in a district not permanently settled.

## *Bengal Tenancy Bill.*

### (*Chapter III.—Tenure-holders generally. Secs. 21—28.*)

*B.—Of the enhancement of rent.*

[D. § 23. C. B., ss. 9 & 10. B. B., ss. 9 & 10.]

Limits of enhancement of rent of tenures

**21.** (*1*) Where the rent of a tenure-holder is liable to enhancement, it may, subject to any contract between the parties, be enhanced up to the limit of the customary rate payable by persons holding similar tenures in the vicinity.

(*2*) Where no such customary rate exists, it may, subject as aforesaid, be enhanced up to such limit as the Court thinks fair and equitable

(*3*) In determining what is fair and equitable under sub-section two, the Court shall not, except as provided in sub-sections four and five, leave the tenure-holder as profit more than thirty per centum or less than ten per centum of the balance which remains after deducting from the gross rents payable to him the expenses of collecting those rents.

(*4*) If more than half the land included in the area of the tenure was unreclaimed at the time when the tenure was created, and if the reclamation of the unreclaimed land was one of the objects of the creation of the tenure, and that land was reclaimed accordingly, the Court, in determining what is fair and equitable under sub-section two, shall not leave the tenure holder as profit less than twenty per centum of the balance mentioned in sub section three, and may leave him as profit any share of that balance whether it exceeds thirty per centum thereof or not.

(*5*) If, in any case to which sub-section four does not apply, the tenure-holder has made improvements on the land, the Court, in determining what is fair and equitable under sub-section two, may leave him as profit any share of the balance mentioned in sub-section three it thinks fit, provided it be not less than ten per centum of the balance.

(*6*) If the tenure-holder himself occupies any portion of the land included in the area of his tenure, or has made a grant of any portion of the land either rent-free or at a beneficial rent, a fair and equitable rent shall be calculated for that portion and included in the gross rents aforesaid.

[C. B., s. 10(*a*) B. B., s. 11(*a*).]

Enhanced rent not to be more than double the previous rent

**22.** Where the rent of a tenure-holder is liable to enhancement, the enhanced rent fixed under section 21 shall not be more than double the rent previously payable.

[C. B., s. 10(*a*). B. B., s. 11(*b*).]

Power to order gradual enhancement.

**23.** The Court may, if it thinks that an immediate increase of rent would produce hardship, direct that the enhancement shall be gradual; that is to say, that the rent shall increase yearly by degrees, for any number of years not exceeding five, until the limit of the enhancement allowed has been reached.

[B. B., s. 10(*b*) C. B., s. 11(*c*).]

Rent once enhanced may not be altered for ten years

**24.** When the rent of a tenure-holder has been enhanced under section 21 or by contract, it shall not be again enhanced under that section during the ten years next following the date on which it has been so enhanced.

*C.—Of the Incidents of permanent tenures.*

[C. B., s. 12. B. B., ss. 13, 17.]

Incidents of permanent tenures generally.

**25** Every permanent tenure shall, subject to the provisions of this Act in respect of registration, be capable of being transferred and bequeathed in the same manner and to the same extent as other immoveable property.

Permanent tenure-holder not liable to ejectment

**26.** A holder of a permanent tenure shall not be ejected by his landlord except under a decree of a Civil Court passed in accordance with this Act on the ground that he has broken a condition on breach of which he is, under the terms of a written contract between him and his landlord, liable to be ejected.

*D.—Of the registration of transfers of, and succession to, permanent tenures.*

[D § 25. C. B., s. 46. B. B., s. 37.]

Landlord bound to register voluntary transfer or succession on application

**27.** (*1*) When a transfer of a permanent tenure (other than a transfer by sale in execution of a decree or by a summary sale under Chapter IV) or a succession to such a tenure takes place, the landlord shall, subject, in the case of a patni tenure, to the provisions of section 39, register the same on application made to him by the transferor and transferee, or by the person succeeding, as the case may be, and on payment by the applicant of the fee next hereinafter prescribed.

[D. § 27. C. B., ss. 47, 49. B. B., ss. 39, 41.]

(*2*) The fee payable on an application under this section shall be as follows, namely :—

(*a*) When the application is made not more than six months from the date of the transfer or succession, a fee of two per centum upon the annual rent of the tenure: provided that no such fee shall be less than one rupee or more than one hundred rupees.

(*b*) When the application is made more than six months from the date of the transfer or succession, a fee of twenty per centum upon the annual rent of the tenure: provided that no such fee shall be less than ten rupees or more than one thousand rupees.

(*3*) When a landlord refuses to comply with an application for registration, made as required by sub-section one, he shall deliver to the applicant a statement in writing of the reasons for his refusal.

Application may be served through Revenue-officer

**28.** (*1*) An application for the registration of a transfer of or a succession to a tenure may, instead of being made to the landlord under section 27, be made to such Revenue-officer as the Local Government may from time to time appoint in this behalf; and, on its being so made, and on the fee payable under section 27 being paid to the officer, he shall cause a notice to be served

## *Bengal Tenancy Bill.*

### (*Chapter III.—Tenure-holders generally. Secs. 29—35.*)

on the landlord, requiring him to register the transfer or succession, and informing him that the fee has been received and will be paid to him on demand when the registration has been effected.

(*2*) A landlord on whom a notice is served under this section shall, subject in the case of a patní tenure to the provisions of section 39, be bound to comply forthwith with the requisition therein contained.

[C. B., ss. 47, 48 (*c*). B. B., ss 39, 40 (*c*).]

Registration in case of transfer by sale in execution of decree other than decree for rent.

**29.** (*1*) When a permanent tenure is sold in execution of a decree other than a decree for arrears of rent due in respect thereof, the Court shall, before confirming the sale under section 314 of the Code of Civil Procedure, require the purchaser to pay into Court the registration fee prescribed by section 27, clause (*a*), and such further fee for service of notice of the sale on the landlord as may be prescribed by the rules under section 35.

XIV of 1882.

(*2*) When the sale has been confirmed, the Court shall forthwith cause to be served on the landlord a notice of the sale, requiring him to register the same, and informing him that the registration-fee has been received and will be paid to him on demand when the registration has been effected; and the landlord shall be bound to comply with the requisition forthwith.

Registration in case of transfer by sale in execution of decree for rent or by summary sale.

**30.** When a permanent tenure is transferred by sale in execution of a decree for arrears of rent due in respect thereof, or by summary sale under Chapter IV, the landlord shall be bound to register the transfer without any application or requisition being made to him in this behalf, and without the payment of any fee.

[D. § 10. C. B., ss. 46, 48 (*a*), 49. B. B., ss. 37, 40 (*a*) and 41.]

Effect of omission to register voluntary transfer.

**31.** When a transfer of a permanent tenure (not being a transfer by sale in execution of a decree or by summary sale under Chapter IV) has taken place, the landlord may, until the transfer has been registered under section 27, or a Revenue-officer has ordered a notice to be served under section 28, hold the transferor and transferee jointly and severally liable for arrears of rent accruing subsequent to the transfer.

[C. B., s. 52. B. B., s. 44.]

Application to Court to compel landlord to register.

**32.** (*1*) When a landlord refuses or neglects for a period of one month to register a transfer or succession which he is bound to register under the foregoing sections, the transferor or transferee, or, as the case may be, the person succeeding, may apply to any Civil Court having jurisdiction in the local area within which the land is situate to compel such registration.

(*2*) The Court to which an application is made under sub-section one may issue a notice to the landlord, and, when the application is made by one party to a transfer, also to the other party or parties to the transfer, requiring him or them, as the case may be, to show cause, at a time and place therein specified, why the transfer or succession should not be registered.

(*3*) If no cause as aforesaid is so shown, the Court may make an order directing the landlord to register the transfer or succession, and the order so made shall have the force of a decree in a suit.

[C. B., ss. 50 and 51. B. B., ss. 42 and 43.]

Application by landlord to compel registration.

**33.** (*1*) When a transfer (other than a transfer by sale in execution of a decree or by summary sale under Chapter IV) or a succession, registrable under the foregoing sections, has taken place, and no application is made for its registration within the six months following the date on which it has taken place, the landlord may apply to any Civil Court as aforesaid to compel the parties to the transfer, or the person succeeding, as the case may be, to consent to its registration and pay the fee mentioned in section 27, clause (*b*).

(*2*) The Court to which an application is made under sub-section one may issue a notice calling upon the parties to the transfer, or the person succeeding, as the case may be, to show cause, at a time and place specified in the notice, why they or he should not consent to the registration and pay the fee.

(*3*) If no cause as aforesaid is so shown, the Court may make an order authorising the landlord to register the transfer or succession, and directing the transferee, or the person succeeding, as the case may be, to pay the fee; and the order so made shall have the force of a decree in a suit.

[C. B., s. 54. B. B., s 46.]

Landlord to give copies of entries in the register.

**34** When a transfer of, or a succession to, a tenure has been registered under the foregoing sections, every person to or from whom the tenure or any share thereof is transferred, or (as the case may be) every person succeeding to the tenure, shall be entitled to receive free of charge from the landlord on demand a copy of the entry in the register relating to the tenure, certified under his hand as a true copy, and to receive from time to time in like manner as many additional copies as he may demand: provided that for every such additional copy he shall pay to the landlord such fee, not less than *eight annas* or more than *five rupees*, as the Board of Revenue may from time to time fix in this behalf.

[C. B., s 54. B. B., s. 46.]

Power to make rules regarding registration.

**35.** (*1*) The Board of Revenue may from time to time, by rules consistent with this Act and published in the official Gazette, prescribe forms for the registers to be maintained under the foregoing sections, and determine the mode in which, and the place at which, applications are to be made under section 27, and generally the procedure to be followed in regard to registration.

## *Bengal Tenancy Bill.*

*(Chapter IV.—Patní Tenures. Secs. 36—42.) and (Chapter V.—Of Occupancy Raiyats generally.—Secs. 43—45.)*

(2) In making any rule under sub-section one the Board may provide that any breach thereof shall be punishable with fine which may extend to fifty rupees.

---

## CHAPTER IV.

### OF PATNÍ TENURES

[D § 26. C B, ss. 14 & 15 B. B., ss. 13 & 14.]

**36.** "Patní tenure" means a tenure of the kind described in Schedule II annexed to this Act, and includes the darpatní and other similar under-tenures referred to in that schedule.

Definition of patni tenure.

[D. § 26. C B, s 14 B.B., s. 16]

**37** (1) Every patní tenure shall be deemed to be a permanent tenure.

Incidents of patní tenures.

(2) The holder of a patní tenure may, subject to the provisions of this Act, let the land comprised in his tenure or any part thereof.

[D § 27 C B, s. 53 (a) B B, s. 45 (c)]

**38** When a patní tenure is transferred, whether voluntarily or by sale in execution of a decree, or by summary sale under section 42, the landlord may require the transferee to furnish substantial security, to the amount of one half year's rent of the tenure, for the payment of the rent and the fulfilment of the other conditions of the tenure.

Right of landlord of patni tenure to demand security from transferee

[D. § 28 C B., s 53 (a) B B., s. 45 (c)]

**39.** When a patní tenure is transferred otherwise than by sale in execution of a decree, or by summary sale under section 42, the landlord may refuse to register the transfer under Chapter III of this Act until the security required under section 38 is furnished.

Landlord may refuse registration of voluntary transfer when security is not given

[D § 29 C B, s 53 (b). B B s. 45 (b).]

**40.** (1) In the case of a transfer by sale in execution of a decree, or by summary sale under section 42, if security is demanded by the landlord from the purchaser under section 38, and is not furnished within one month from the date on which it is so demanded, the landlord may attach and hold possession of the tenure to the exclusion of the transferee until the security is furnished.

Landlord may attach tenure sold in execution or by summary sale when security is not given

(2) While an attachment under this section continues, the landlord may collect the rents from the under-tenure-holders or raiyats, and, after deducting therefrom the cost of the attachment, the expenses of collection and the rent due to himself, he shall hold the balance in trust for the purchaser.

(3) If the rents so collected are not sufficient to discharge the cost of the attachment, the expenses of collection, and the rent due to the landlord, the purchaser shall be liable for the deficiency, and the landlord may proceed against him for the recovery of the same

[D § 28. C. B., s 53 (b) B. B., s 45 (c)]

**41.** (1) If the security tendered under section 38 by any transferee is rejected by the landlord, the transferee may, within three months from the date of the rejection, apply to the Civil Court for an order directing the landlord to receive the security, and the Court, if satisfied of the sufficiency of the security tendered, may make such order, or, if not so satisfied, may make an order rejecting the application.

Application to Civil Court, if security tendered is refused.

(2) No appeal shall lie from any order under this section.

[D § 135 C B, s 188. B. B, s. 147]

**42** If default is made in payment of the rent due in respect of a patní tenure, held immediately from a proprietor, the landlord may, in addition to any other remedy given him by law, apply for the summary sale of the tenure in accordance with the rules for the sale of patní taluqs at the instance of zamíndárs, contained in Schedule III annexed to this Act:

Recovery of arrears by summary sale

Provided that nothing in those rules shall entitle a purchaser at any such sale to eject an occupancy-raiyat or cancel any contract entitling him to hold at a rent which was fair and equitable at the time the contract was made.

---

### CHAPTER V.—OF OCCUPANCY-RAIYATS GENERALLY.

[B B, s 19, Expl. II]

**43.** For the purposes of this chapter—

Interpretation.

(a) "village" means an area included in a village-map of the revenue-survey within the same exterior boundary, and, where no such maps have been prepared, such area as the Local Government or any officer appointed by the Local Government in this behalf may determine; and

(b) where two or more estates have been created by one or more partitions taking place since the first day of January, 1853, the area comprised in the parent estate of which they would have formed part if no such partition had taken place, shall be deemed to be a single estate.

[B B, s. 19 (1), & Expl. IV (c), proviso.]

**44.** Every raiyat who, immediately before the commencement of this Act, has, by the operation of any enactment, by custom having the force of law, or otherwise, a right of occupancy in any land shall, when this Act comes into force, become, for the purposes of this Act, an occupancy-raiyat of that land.

Present occupancy-raiyats to become occupancy raiyats under Act.

**45.** (1) Every person who, for a period of twelve years, whether before or after the commencement of this Act, has continuously held, as a raiyat, raiyatí land situate in any village or estate, shall, notwithstanding any contract to the contrary, and though the land so held by him at different times during that period may have been different, be deemed to have become, on the expiration of that period, a settled raiyat of that village or estate.

Acquisition of status of settled raiyat of village or estate.

## *Bengal Tenancy Bill.*

### (*Chapter V.—Of Occupancy Raiyats generally. Secs. 46—52*)

(2) A person shall be deemed for the purposes of this section to have held as a raiyat any raiyatí land held as a raiyat by a person whose heir he is.

(3) Raiyatí land held by two or more co-sharers as a raiyatí holding shall be deemed for the purposes of this section to have been held as a raiyatí holding also by each such co-sharer.

Loss of status of settled raiyat.

**46.** If a settled raiyat of a village or estate has ceased for a period of one year, whether before or after the commencement of this Act, to hold raiyatí land as a raiyat in that village or estate, either alone or as a co-sharer with others, he shall be deemed to have ceased, on the expiration of that period, to be a settled raiyat of that village or estate.

Settled raiyat to have occupancy-right in raiyatí land held by him in village or estate.

**47.** Every settled raiyat of a village or estate holding after the second day of March, 1883, as a raiyat any raiyatí land comprised in that village or estate shall, notwithstanding any contract to the contrary, be deemed to acquire or have acquired in that land a right of occupancy under the law for the time being in force:

[D. § 40, Expls. I & V. C. B., s. 19, Expl. IV. B. B., s 19, Expl. IV (*d*).]

Provided that a person shall not acquire a right of occupancy under this section in respect of any land held by him alone as owner, tenure-holder or ijáradár.

Acquisition of occupancy-right by grant.

**48.** (*1*) A proprietor or permanent tenure-holder, from whom a person takes land as a raiyat, or immediately under whom a person holds land as a raiyat, may grant to that person an occupancy-right in respect of that land.

(*2*) An occupancy-right granted under this section shall be deemed to be an occupancy-right within the meaning of this Act.

[D. § 40, Expl. V C. B., s. 19, Expl. 3 (*d*), Expl. (1) (*g*) B. B., s. 19, Expl III (*e*), Expl. IV (*f*).]

Acquisition of occupancy-right in khamar land.

**49.** (*1*) Every person who, for a period of twelve years ending after the commencement of this Act, has held khamar land as a raiyat shall, unless he has held it for any portion of that period under a lease for a fixed period, acquire a right of occupancy in that land.

(*2*) The holding of the father or other person from whom a raiyat inherits shall be deemed to be the holding of the raiyat for the purposes of this section.

Incidents of occupancy-right generally.

**50.** When a raiyat has an occupancy-right in respect of any land, the following provisions shall, notwithstanding any contract between him and his landlord to the contrary, apply, namely:—

[B. B., s. 69.] (*a*) he may use the land in any manner which does not render it unfit for the purposes of the tenancy:

[C. B., s. 77. B. B., s. 69.] (*b*) he may make improvements on the land as by this Act provided:

[D. § 43. B. B., s 21. (*d*).] (*c*) he shall pay rent at fair and equitable rates determined as by this Act provided:

[C. B., s. 20 (*e*). B. B., ss. 21 (*e*), 31, 69 (*a*).] (*d*) he shall not be ejected by his landlord from the land, except in execution of a decree for ejectment passed in accordance with this Act on the ground that he has used the land in a manner which renders it unfit for the purposes of the tenancy, or that he has broken a condition consistent with the provisions of this Act and on breach of which he is, under the terms of a written contract between him and his landlord, liable to be ejected:

[D. § 40, note 7. B. B., s. 71.] (*e*) he may sub-let the land or any part thereof:

[C. B., s. 20 (*a*), (*b*) and (*d*). B. B., s. 21 (*a*) and (*b*).] (*f*) his interest in the land shall, subject to the rights reserved to the landlord by this Act, be capable of being transferred, and bequeathed by will in the same manner and to the same extent as other immoveable property:

[D. § 41, note 9. C. B., s. 20 (*c*). B. B., s. 21 (*c*).] (*g*) his interest in the land shall, if he dies intestate in respect of it, descend in the same manner as any other immoveable property: provided that, in any case in which, under the law of inheritance to which he is subject, his other property goes to the Crown, his interest in the land shall go to his landlord.

Landlord's right of pre-emption on voluntary sale of occupancy-right.

**51.** (*1*) When an occupancy-raiyat intends to sell his occupancy-right to any person other than the landlord, he shall file in the office of the Collector, or of the officer in charge of the sub-division, for service on the landlord, a written notice of his intention, stating the person to whom he intends to sell the right, and shall defer proceeding with the sale for one month from the date on which he files the notice.

(*2*) The officer in whose office the notice is filed shall forthwith cause it to be served on the landlord.

(*3*) The landlord may, within the period of one month from the date of the notice being filed, claim to purchase the occupancy-right from the raiyat at such price as may be agreed on between them, or, if they cannot agree on a price, at such price as may be fixed by the Civil Court on an application made to it in this behalf by the landlord within the said period of one month; and, if the landlord so claims, the raiyat shall sell the right to him accordingly.

(*4*) If a raiyat sells his right of occupancy in contravention of this section, the landlord may, within six months from the date of the sale, claim to purchase the right from the purchaser or any other person into whose hands it may have passed at a price ten per centum below its estimated value, and, if the landlord so claims, the purchaser or that person, as the case may be, shall sell the right to him accordingly.

Landlord's right of pre-emption on sale in execution.

**52.** Where an occupancy-right is sold in execution of a decree and two or more persons, one of whom is the landlord, respectively ad- [Act XIV of 1882, s. 310.]

## *Bengal Tenancy Bill.*

### (*Chapter V.—Occupancy Raiyats generally. Secs. 53—57,*) *and* (*Chapter VI.—Rent payable by Occupancy Raiyats. Secs. 58 & 59.*)

vance the same sum at any bidding, the bidding shall be deemed to be the bidding of the landlord.

Landlord's right to take the place of mortgagee on foreclosure.

**53.** (*1*) Where a right of occupancy has been mortgaged by the raiyat and an order absolute for foreclosure is applied for in respect of it under section 87 of the Transfer of Property Act, 1882, the Court shall, if it proposes to make the order, cause a notice of the application to be served on the landlord, and shall defer making the order for a period of one month from the service of the notice.

IV of 1882.

(*2*) If the landlord within the said period of one month pays into Court the amount requisite to redeem the mortgage, the Court shall pay that amount to the plaintiff in the suit, declare the landlord entitled to stand in the place of the plaintiff, and pass an order absolute for foreclosure in favour of the landlord.

(*3*) An order absolute passed under sub-section two shall have the same effect as if the landlord had been the mortgagee and the plaintiff in the suit.

Landlord's right to purchase in case of gift of occupancy-right.

**54.** (*1*) When an occupancy-raiyat makes a gift of his occupancy-right to any person other than his landlord, he shall forthwith file in the office of the Collector, or of the officer in charge of the sub-division, for service on the landlord, a written notice of the gift, stating the person to whom he has made it.

(*2*) The officer in whose office the notice is filed shall forthwith cause it to be served on the landlord.

(*3*) The landlord may, within the period of one month from the date on which the notice is filed, claim to purchase the right from the donee, or any other person into whose hands it may have passed, at such price as may be agreed on between them, or, if they cannot agree on a price, at such price as may be fixed by the Civil Court on an application made to it in this behalf by the landlord within the said period of one month, and, if the landlord so claims, the donee or other person as aforesaid shall sell the right to him accordingly.

(*4*) If a raiyat makes a gift of his occupancy-right, and does not comply with the provisions of this section, the landlord may, within six months from the date on which the gift is made, claim to purchase the right from the donee, or any other person into whose hands it may have passed, at a price ten per centum below its estimated value; and, if the landlord so claims, the donee or that person, as the case may be, shall sell the right to him accordingly.

Landlord's right to purchase where occupancy-right is bequeathed

**55.** When an occupancy-raiyat dies, and any person, other than a person to whom, if the raiyat had died intestate, the occupancy-right would have descended, acquires that right under a bequest made by the raiyat, the landlord may, within the period of six months from the date on which the right is so acquired, claim to purchase the right from the legatee, or any other person into whose hands it may have passed, at such price as may be agreed upon between them, or, if they cannot agree upon a price, at such price as the Civil Court may, on the application of the landlord, made within the said period of six months, fix in this behalf, and if the landlord so claims the legatee or other person as aforesaid shall sell the right to him accordingly.

Raiyat of land of which landlord has acquired occupancy right to be an occupancy-raiyat.

**56.** Notwithstanding any contract to the contrary, when the landlord of an occupancy-raiyat acquires, under the foregoing sections or otherwise, the occupancy-right in any of the land comprised in the holding, any person thereafter holding the land as a raiyat shall have a right of occupancy in respect of it, and, if immediately before the acquisition of the right by the landlord the rent of the land was a money-rent, shall be entitled to hold at a money-rent fixed in accordance with the provisions of this Act.

Acquisition of status of settled raiyat by succeeding to occupancy-right.

**57.** Every person succeeding by way of intestate succession to the occupancy-rights, or any share of the occupancy-rights, of a settled raiyat of a village or estate, in respect of any land situate in that village or estate, shall become a settled raiyat of the village or estate:

Provided that, when a person so succeeding holds as a raiyat at the time when he so succeeds other land in the same village or estate, he shall not, merely by reason of becoming a settled raiyat of the village or estate under this section, acquire, under section 47, an occupancy-right in that other land.

---

## CHAPTER VI.

### OF THE RENT PAYABLE BY OCCUPANCY-RAIYATS.

#### (*A*).—*Of money-rents generally.*

Existing money-rents payable until altered as herein provided.

**58.** A money-rent payable by an occupancy-raiyat shall be presumed to be fair and equitable, and (*d*) shall continue to be paid by him until it is enhanced under this Act or reduced.

[D. § 42. B. B., s. 21

Enhancement of money-rents by contract.

**59.** (*1*) A money-rent payable by an occupancy-raiyat may be enhanced by a contract in writing approved of, and registered by, a Revenue officer appointed by the Local Government in this behalf.

(*2*) A Revenue-officer shall not, under this section, approve or register any contract by which a raiyat engages to pay a rent more than *six* annas per rupee greater than that previously payable, or more than one-fifth of the estimated average annual

*Bengal Tenancy Bill.*

*(Chapter VI.—Rent payable by Occupancy-raiyats. Secs. 60—67.)*

value of the gross produce of the land in staple crops, calculated at the price at which raiyats sell at harvest-time, or any contract, until he has satisfied himself that it is fair and equitable, and that the raiyat in entering into it acts as a free agent.

[B. B., s. 21 (a).]

Money-rents not enhanceable except as provided.

**60.** Except as provided by section 59, or on account of an addition to the area of the holding by alluvion or otherwise, a money-rent payable by an occupancy-raiyat shall not be enhanced otherwise than by a decree passed under this chapter.

Limit of money-rents payable by settled raiyat taking new holding.

**61.** (*1*) When raiyati land which has previously been held by a tenant at a money-rent is let to a settled raiyat of the village or estate in which it is situate, that raiyat shall not be bound to pay therefor any rent higher than that which was paid by the previous tenant, unless the higher rent has been fixed by a contract in writing, approved of and registered by a Revenue officer appointed by the Local Government in this behalf.

(*2*) A Revenue-officer shall not under this section approve of or register any contract by which a raiyat engages to pay a rent more than one *fifth* of the estimated average annual value of the gross produce of the land in staple crops, calculated at the price at which raiyats sell at harvest-time, or any contract, until he has satisfied himself that it is fair and equitable, and that the raiyat in entering into it acts as a free agent.

*B.—Of the preparation of a table of rates and produce, and of suits to enhance money rents where such a table is in force.*

[B. B., ss. 131 & 132]

Power to direct preparation of table

**62.** The Local Government may, by an order in the official Gazette, direct a Revenue-officer to prepare for any local area with the aid of such assessors as the Local Government may appoint in this behalf, a table showing for each class of land comprised in that area the rate of rent fairly and equitably payable by occupancy raiyats the average gross produce of the land and the average value of that produce.

Contents of table.

**63.** The table shall specify—

[B. B., s. 133.]

(*a*) the several classes of land for which, having regard to the nature of the soil, situation, means of irrigation and other like considerations, it is necessary to fix different rates of rent;

(*b*) the rate or the maximum and minimum rates, of rent fairly and equitably payable by occupancy-raiyats holding land of each such class, and

(*c*) the estimated average amount, or the maximum and minimum estimated average amounts, of the gross produce in staple crops of land of each such class, and the estimated average value or values of that produce.

Principle on which rent rates are to be fixed.

**64.** In fixing the rate of rent for any class of land under section 63 regard shall be had— [B. B., s. 133

(*a*) to the rates of rent ordinarily payable by occupancy-raiyats for land of that class at the time the table is prepared;

(*b*) to the value of the average annual gross produce of land of that class and the cost of raising such produce about the time at which those rates were fixed, or, if that time or the value and cost about that time cannot readily be ascertained, to the value of the average annual gross produce and the cost of raising such produce about any other time which it may appear equitable to take for the purpose of comparison,

(*c*) to the value of the average annual gross produce of land of that class and the cost of raising such produce at the time at which the table is prepared; and

(*d*) to the following rule, namely, that when the rate of rent for any class of land is raised on account of an increase in the value of the average gross produce of land of that class, the new rate shall not bear to the old rate a higher proportion than the increased value of the produce bears to the former value [C. B., s. 28 (*b*). B. B., s. 24, (*b*)]

Provided that the rate fixed for any class of land shall not in any case exceed one-fifth of the estimated average annual value of the gross produce in staple crops of land of that class, calculated at the price at which raiyats sell at harvest-time. [C. B., s. 24 (*c*) B. B., s. 24, (*c*).]

Local publication of the table

**65.** When the Revenue-officer has prepared the table, he shall publish it in the local area to which it relates in the vernacular language prevailing in that local area, in such manner as the Board of Revenue may from time to time prescribe. [B. B., s. 136

Revenue officer to deal with objections.

**66.** Any person objecting to any entry in the table may present a petition to the Revenue-officer within a period of one month after the publication; and the Revenue-officer, with the aid of the assessors, shall consider any such objection, and may alter or amend the table. [B. B., s. 13

Table to be submitted to superior Revenue-authorities.

**67.** If no objection is made within the said period of one month, or, where objections are made, after those objections have been disposed of, the Revenue-officer shall submit the table, together with his proceedings, a report setting forth the grounds of his decision on each point, and any petitions of objection which may have been [B. B., s. 13

## *Bengal Tenancy Bill.*

### (*Chapter VI.—Rent payable by Occupancy-raiyats. Secs. 68—73.*)

received, through the Commissioner of the Division, to the Board of Revenue for approval.

[B. B., s. 140.] **68.** The Board of Revenue may amend the table submitted under section 67 in any manner which appears to it proper, and may allow in whole or in part any objection forwarded therewith or subsequently made, or may return the case for further enquiry.

Proceedings of Board of Revenue thereupon.

[B. B., s. 141.] **69.** When a table of rates has been sanctioned by the Board, it shall be submitted to the Local Government, which may amend the same in any manner it thinks fit, and may direct, if it thinks fit, that the table or amended table shall be published in the official Gazette with a specification of the local area to which it applies.

Publication of table after final sanction.

[B. B., s. 143.] **70.** A table for any local area published under section 69 shall come into force on the date on which it is so published, and shall continue in force for such period, not less than ten or more than thirty years, as the Local Government at the time of publication may direct.

Period for which table remains in force.

[B. B., s. 142.] **71.** The publication of a table under section 69 shall be conclusive evidence in any proceeding under this Act—

Table to be conclusive evidence.

(1) that the proceedings for the preparation of the table have been duly conducted in accordance with this Act:

(2) that, except as in this Act provided, the rates shown in the table for each class of land are the fair and equitable rates payable for land of that class by occupancy-raiyats within the local area to which the table applies:

(3) that the average gross produce of land of any class, and the average value thereof, are in accordance with the gross produce and the value specified in regard to that class in the table.

**72.** All expenses incurred by the Government in preparing a table of rates and produce for any local area, including the salaries of all officers employed exclusively in its preparation, and such portions as the Local Government may from time to time fix of the salaries of officers employed in its preparation in addition to their other public duties, shall be defrayed by occupancy-raiyats and their landlords in that local area in such proportions as the Local Government may from time to time determine; and the proportion of those expenses so to be defrayed by any person shall be recoverable from him as if it were an arrear of land-revenue due by him.

Expenses incurred in preparing table how defrayed.

[B. B., s. 144.] **73.** When a table is in force under the foregoing sections for any local area, the landlord of any holding within that area, held by an occupancy-raiyat at a money rent, may, subject to the provisions of section 78, institute a suit to enhance the rent then payable on the ground that it is below that which would be payable at the rates shown in the table; and the Court shall enhance the rent in accordance with the rates shown in the table, or, where for any class of land a maximum and a minimum rate are entered in the table, to such rate, not higher than the maximum and not lower than the minimum, as it thinks fit: Provided that—

Suit to enhance where table in force.

*1st.*—Where the rent of any land comprised in the holding would, by reason of a change having taken place in or in regard to the land since the raiyat or his predecessor in interest began to hold it, be fixed under this section at a higher rate, and would, but for that change, have been fixed under this section at a lower rate, the following rules shall apply, namely:—

(*a*) if the change has been effected solely by the agency or at the expense of the raiyat or his predecessor in interest, the Court shall fix the rent of that land at the lower rate; [D. § 43. C. B., s. 22, cls. (3) and (4.) B. B., s. 23, cls. (3) & (4.)]

(*b*) if the change has been effected partly by the agency or at the expense of the landlord or his predecessor in interest, and partly by the agency or at the expense of the raiyat or his predecessor in interest, the Court shall fix the rent of the land at such rate intermediate between the higher rate and the lower rate as, having regard to all the circumstances of the case, it thinks fair and equitable; and

(*c*) if it is not proved that the change has been effected by the agency or at the expense of the landlord or the raiyat, or the predecessor in interest of either of them, the Court shall fix the rent of the land at a rate equal to the lower rate, together with half the difference between the higher rate and the lower rate. [C. B., s. 23, cl. (*a*). B. B., s. 24 (*a*).]

*2ndly.*—When the raiyat proves that by contract or by custom, or on some equitable ground, he is entitled to hold at a rate lower than the rate applicable under this section, the Court shall fix the rent at the lower rate. [B. B., ss. 24 (*c*), 142, proviso.]

*Illustrations.*

(*a*) The rates shown in the table for land of a certain description are—

when the land is irrigated from a well ... Rs. 4 per acre.
when the land is not so irrigated ... Rs. 2 „

The holdings of *A*, *B*, *C* and *D*, occupancy-raiyats, are composed of land of that description irrigated from wells constructed on these holdings respectively.

## *Bengal Tenancy Bill.*

### (*Chapter VI.—Rent payable by Occupancy-raiyats. Secs. 74—76.*)

**The well on A's holding is an ancient one existing from a time anterior to the tenancy: that on B's holding has been constructed by the landlord since the commencement of the tenancy: that on C's holding has been constructed by the raiyat: that on D's holding has been constructed by the landlord and raiyat, each contributing some portion of the labour and materials. The rents of the holdings of A and B must be fixed at Rs. 4 per acre, that of C's holding at Rs. 2 per acre, and that of D's holding at such rate intermediate between Rs. 2 and Rs. 4 as the Court thinks fair and equitable.**

(*b*) The rates shown in the table for land of a certain description are as follows :—

| | |
|---|---|
| when such land is irrigated from a branch of a river ... | ... Rs. 4 per acre. |
| when such land is not so irrigated | ... Rs. 2 per acre. |

The holdings of E and F, occupancy-raiyats, are composed of land of that description, and were not irrigable until 40 years ago, when, owing to a change in the course of a neighbouring river, a new branch established itself contiguous to them. E has been in occupation of his holding 50 years, F only 30; the rent of E's holding must be fixed at Rs. 3, that of F's holding at Rs. 4.

*C.—Of suits to enhance money rents where a table of rates and produce is not in force.*

[D. § 43 (1) and (2). C. B., s. 22 (1), (3) and (4). B. B., s. 23 (1), (3) and (4).]

**74.** (*1*) The landlord of a holding held at a money rent by an occupancy-raiyat and situate in a local area for which a table of rates and produce, prepared under the foregoing sections, is not in force, may, subject to the provisions of section 78, institute a suit to enhance the rent on one or more of the following grounds, namely :—

Grounds on which landlord may sue to enhance where table is not in force.

(1) that the rate of rent paid by the raiyat is below the prevailing rate payable by the same class of raiyats for land of a similar description and with similar advantages in the vicinity;

(2) that the productive powers of the land held by the raiyat, as compared with those powers at the time when the rent was fixed, or, when that time or the productive powers at that time cannot readily be ascertained, with the productive powers at any other time which it may appear equitable to take for purposes of comparison, have increased otherwise than by the sole agency or at the sole expense of the raiyat or his predecessor in interest and from causes not merely temporary or casual; and

(3) that the average prices of produce in the locality, or at the usual markets, as compared with similar prices about the time when the rent was fixed, or, when that time or the prices prevailing about that time cannot readily be ascertained, with the similar prices about any other time which it may appear equitable to take for purposes of comparison, have increased otherwise than by the sole agency or at the sole expense of the raiyat or his predecessor in interest, and from causes not merely temporary or casual.

(*2*) Nothing in this section shall affect any contract binding a landlord not to enhance the rent of a tenant. [B. B., s. (*a*).]

*Illustrations of Ground* (1).

(*a.*) A's paternal grandfather seventy years ago reclaimed the land which A, an occupancy-raiyat, now holds, and which came to him by inheritance from such paternal grandfather. B is an occupancy-raiyat who holds land which was in a culturable state when B was first let into possession thereof. There is evidence that the hereditary descendant of a raiyat who, being the first settler, reclaimed the land has a special privilege. A and B are not raiyats of the same class.

(*b.*) A is in possession of a holding which has descended to him from his great-grandfather, who held it at the time of the Permanent Settlement. B was let into possession of his holding twenty years ago. There is evidence that the descendants of raiyats who were in possession at the time of the Permanent Settlement customarily hold at rates less than raiyats who have come into possession at a later period. A and B are not raiyats of the same class.

**75.** All enhancements of rent on the second or third of the grounds specified in section seventy-four shall be subject to the following rules, namely :— [C. B., s. 2 (*a*), (*b*) and (*c*). B. B., s. 24 (*b*) and (*c*)

Rules for enhancement under section 74.

(*a*) If the increase of the productive powers of the land, or of the prices of produce, has been effected wholly by the agency or at the expense of the landlord or his predecessor in interest, the landlord shall be entitled to the whole benefit of the increase :

(*b*) If the increase has been effected partly by the agency or at the expense of the landlord or his predecessor in interest, and partly by the agency or at the expense of the raiyat or his predecessor in interest, the benefit shall be divided between the landlord and the raiyat in such shares as the Court, having regard to all the circumstances of the case, thinks fair and equitable :

(*c*) If it is not proved that the increase has taken place by the agency or at the expense of the landlord or the raiyat, or the predecessor in interest of either of them, each shall be entitled to one-half of the benefit : Provided that in any such case the enhanced rent shall not bear to the rent previously payable a higher proportion than the increased productive powers or increased prices bear (as the case may be) to the former productive powers or former prices :

(*d*) The enhanced rent shall not in any case exceed one-*fifth* of the estimated average annual value of the gross produce of the land in staple crops, calculated at the price at which raiyats sell at harvest-time.

*D.—Rules applicable to suits to enhance money rents generally.*

**76.** The rent of a holding shall not be enhanced in a suit under any of the foregoing sections of this chapter so that the enhanced rent shall be more than double the rent previously payable. [C. B., s. 2 (*b*). B. B., s. 2 (*b*).]

No enhancement beyond double the rent previously payable.

## *Bengal Tenancy Bill.*

### (*Chapter VI.—Rent payable by Occupancy-raiyats. Secs. 77—82.*)

B., s. 22(d). B., s. 24

**Power to order progressive enhancement.**

**77.** When a Court passing a decree for enhancement under any of those sections considers that the immediate enforcement of the decree in its full extent would be attended with hardship to the raiyat, it may direct that the enhancement shall be gradual; that is to say, that the rent shall increase yearly by degrees, for any number of years not exceeding five, until the limit of the enhancement decreed has been reached.

B., s. 143.]

**Rent enhanced or commuted not enhanceable for 10 years.**

**78.** When the rent of an occupancy-holding has been enhanced by a decree under any of those sections or under any enactment repealed by this Act, or by contract, or has been commuted under section 82, a suit for its enhancement shall not be instituted under this chapter within the ten years next following the date on which it has been so enhanced or commuted, except on the ground that since the rent has been so enhanced or commuted an improvement has been made by the landlord which, but for this section, would entitle him to an enhancement.

*E.—Of suits for the reduction of money rents.*

, § 47. B., s. 25 (c) d (3). B., s. 25 ) & (3).]

**Occupancy-raiyat when entitled to reduction of rent.**

**79.** (*1*) An occupancy-raiyat holding at a money rent may, notwithstanding any contract to the contrary, institute a suit for the reduction of his rent on either or both of the following grounds, and, except as provided by section 96, not otherwise, namely:—

(*a*) on the ground that the productive powers of the land, as compared with those powers at the time when the rent was fixed, or, when that time or the productive powers at that time cannot readily be ascertained, with the productive powers at any other time which it may appear equitable to take for purposes of comparison, have decreased from some cause beyond the raiyat's control, and not merely temporary or casual;

(*b*) on the ground that the average prices of produce in the locality or at the usual markets, as compared with similar prices about the time when the rent was fixed, or, when that time or the prices prevailing about that time cannot readily be ascertained, with the average prices prevailing about any other time which it may appear equitable to take for purposes of comparison, have decreased from some cause beyond the raiyat's control, and not merely temporary or casual.

(*2*) In any suit instituted under this section the Court may direct such reduction of the rent as it thinks fair and equitable.

*F.—Special rules regarding money rents payable for pasture lands.*

B., s. 23, ipl. II. B., s. 23, ipl. II. s. 24 (e).]

**Special rules for pasture lands.**

**80.** (*1*) Sections 62 to 79, both inclusive, shall not apply to land fit to be used, or which in accordance with local usage is used, only as pasture; but when such land is held at a money rent by an occupancy-raiyat, the landlord may, subject to any contract between the parties, institute a suit to enhance the rent on the ground—

(*a*) that the rate of rent payable by the raiyat is below the prevailing rate payable by the same class of raiyats for land of a similar description and with similar advantages in the vicinity, or

(*b*) that, having regard to the increase of rent on arable land in the vicinity since the rent payable by the raiyat was fixed, it is reasonable to enhance that rent.

(*2*) Where an enhancement is applied for on the ground mentioned in clause (*b*), the Court shall fix the rent at such rate as it thinks fair and equitable.

*G.—Of rents payable in kind or varying with the crop.*

[C. B., s. 2. B. B., s. 22.]

**Limit to amount of rent payable in kind or varying with crop.**

**81.** (*1*) Where an occupancy-raiyat pays rent in kind, or pays as rent the value of a certain share of the actual gross produce, the following rules shall apply, namely:—

(*a*) notwithstanding any contract or custom to the contrary, the landlord shall not be entitled to recover, in respect of any portion of the holding on which staple crops are grown, more than half the gross produce or its value, as the case may be;

(*b*) the landlord shall not, except under a contract in writing, be entitled to recover, in respect of any portion of the holding on which other crops are grown, any other description or any greater amount of rent than a sum equal to one-half of the estimated average value of the produce of that portion of the holding if staple crops were grown on it.

(*2*) Nothing in this section shall prevent a landlord recovering the value of any seed, labour or other assistance he may have contributed towards the production of the crop.

[C. B., s. 66. B. B., ss. 90 and 92.]

**Commutation of rents.**

**82.** (*1*) An occupancy-raiyat whose holding consists of raiyatí land, and who pays rent in kind, or pays as rent the value of a certain share of the actual gross produce of the holding, may, notwithstanding any contract to the contrary, sue to have his rent commuted into a money-rent.

(*2*) The money-rent shall be fixed at the discretion of the Court—

(*a*) according to the prevailing money-rent payable by the same class of raiyats for land of a similar description and with similar advantages in the vicinity, or

## *Bengal Tenancy Bill.*

### (*Chapter VII.—Right of Settled Raiyat in Bastu Land. Secs. 83—85.*) and (*Chapter VIII.—Ordinary Raiyats. Secs. 86—90.*)

(*b*) according to the average value of the rent actually received by the landlord during the preceding five years.

(*3*) When a money-rent is fixed under clause (*b*), a reasonable deduction shall be made by the Court from the average value aforesaid in consideration of the whole risk of cultivation being taken by the raiyat.

*II.—Supplementary provisions*

[B. B., s. 122, B., s. 145.]

Collectors to prepare annual price lists of staple crops.

**83.** (*1*) The Collector of every district shall prepare annually lists of the market-prices at harvest-time of staple crops grown in such local areas as the Board of Revenue may from time to time direct, and shall submit them to the Board of Revenue for approval or revision.

(*2*) The price lists shall, when approved or revised by the Board of Revenue, be published in the official Gazette under the signature of one of the Secretaries to the Board.

(*3*) Any such price-list so published shall, in any proceedings under this chapter, be conclusive evidence of the prices prevailing in the local area at harvest-time in the year to which it relates

[B. B., ss 120, 12 and 23(c). B., ss 134, 15 and 24 )]

Power to make rules

**84.** The Board of Revenue may from time to time, subject to the approval of the Local Government and to the control of the Governor General in Council, make rules—

(*a*) for the guidance of officers engaged in the preparation of tables of rates and produce under this chapter;

(*b*) for the guidance of officers engaged in the preparation of price-lists under section 83;

(*c*) determining what crops shall be deemed to be staple crops for the purposes of this chapter in any local area,

(*d*) for the guidance of Revenue-officers registering contracts under section 59 and section 61.

(*e*) for the guidance of Revenue-officers and Courts in estimating the average annual value of the gross produce of land for the purposes of sections 59 and 61 and section 75, clause (*d*).

## CHAPTER VII.

### OF THE RIGHT OF A SETTLED RAIYAT IN BASTU LAND.

Settled raiyat to have permanent right in *basta* land.

**85.** (*1*) A person who is under Chapter V a settled raiyat of a village or estate as defined in that chapter shall, notwithstanding any contract to the contrary, have a right permanent, heritable and capable of being transferred and bequeathed, in any *basta* or other homestead land in that village or estate which is not comprised in an occupancy-holding and which is held by him as the site of, or for the purpose of erecting, a dwelling-house suitable for himself and his family, together with all necessary out-offices.

(*2*) A person having a right under sub-section one in any land in a village or estate shall not lose that right merely by reason of his ceasing to be a settled raiyat of that village or estate.

[B. B., s. 2

Provisions regarding ejectment.

**86.** (*1*) Notwithstanding any contract to the contrary, a person having in respect of any land a right under section 85 shall not be ejected from that land except in execution of a decree for ejectment passed in accordance with this Act on the ground that he has broken a condition consistent with the provisions of this Act and on breach of which he is, under the terms of a written contract between him and his landlord, liable to be ejected, and, if he is so ejected, shall be entitled to compensation for any house or offices of the description referred to in section 85 which may have been erected on the land by him or his predecessor in interest whether before or after the commencement of this Act.

(*2*) A Court passing a decree for the ejectment of such a person shall determine the amount of compensation (if any) due to him under sub-section one and shall make the decree conditional on the payment of that amount by the decree-holder.

[C. B., s 4 B. B., s 38

Rule for enhancement

**87.** When a person has in respect of any land a right under section 85, and the rent of the land has not been enhanced during the previous ten years, the landlord may, unless barred by any contract between the parties, enhance the rent, so that it may be equal to the rent paid by other tenants for land in the neighbourhood having similar advantages and used for similar purposes, or at his option so that it may be equal to five per centum of the market-value of the land

## CHAPTER VIII.

### OF ORDINARY RAIYATS.

Ordinary raiyat defined

**88.** Every person holding raiyatí land as a raiyat and not having a right of occupancy in respect of it shall be deemed to hold it as an ordinary raiyat.

Rents regulated by agreement

**89.** An ordinary raiyat shall, subject to the provisions of section 119, pay such rent as may, from time to time, be fixed by agreement between him and his landlord

[C B, s. 7 (5) B. B, ss. 26, 72 (5).

Grounds on which an ordinary raiyat may be ejected from raiyatí land.

**90.** Notwithstanding any contract to the contrary, an ordinary raiyat shall not be ejected from raiyatí land by his landlord as such except—

(*a*) as hereinafter provided for arrears of rent,

(*b*) in execution of a decree for ejectment passed in accordance with this Act on the ground

## *Bengal Tenancy Bill.*

### (*Chapter VIII.—Ordinary Raiyats. Secs. 91—95*) *and* (*Chapter IX.—Provisions regarding Rent applicable to several classes of Tenants. Sec. 96.*)

that he has used the land in a manner which renders it unfit for the purposes of the tenancy, or that he has broken a condition consistent with this Act and on breach of which he is, under the terms of a written contract between him and his landlord, liable to be ejected, or

(*c*) in execution of a decree for ejectment passed on the ground that he has refused to agree to an enhancement of rent demanded by his landlord in accordance with the provisions next hereinafter contained.

Notice of enhancement to be served through Civil Court.

**91.** When a landlord wishes to enhance, within the limit fixed by section 119, the rent of an ordinary raiyat holding raiyatí land at a money-rent not fixed for a term by agreement, and the raiyat does not agree to the enhancement, the landlord may cause to be served on the raiyat through the Civil Court a notice of the enhancement not less than six months before the commencement of the agricultural year in which the landlord desires the enhancement to take effect.

Raiyat may agree to enhancement. If he does not, landlord may sue to eject.

**92.** (*1*) If, within the period of one month from the service of a notice under section 91, the raiyat on whom the notice has been served presents to the Court issuing the notice a statement in writing declaring his willingness to pay the enhanced rent, he shall be deemed to have agreed to pay that rent from the commencement of the agricultural year next following.

(*2*) If the raiyat does not, within the said period of one month, present to the Court a statement as aforesaid, the landlord may, not less than ten weeks before the commencement of the agricultural year next following, institute a suit to eject the raiyat.

Procedure in suit.

**93.** (*1*) If, in any suit instituted under section 92, the defendant appears and agrees to pay the enhanced rent demanded, his agreement shall thereupon be recorded, and he shall not be ejected, but shall be liable to pay that rent from the commencement of the agricultural year next following the date of the agreement.

(*2*) If the defendant does not appear, or if, on appearing, he does not agree to pay the enhanced rent demanded, the Court may pass a decree for his ejectment on condition that, within fifteen days from the date of the decree, the landlord deposits in Court—

(*a*) such sum (if any) as may be declared by the decree to be payable to the raiyat as compensation for improvements; and

(*b*) a further sum as compensation for disturbance equal to *ten* times the yearly increase of rent demanded.

Decree when absolute:

**94.** (*1*) If these sums are so deposited, the decree shall be made absolute, and the sums deposited shall be paid to the raiyat.

when to become void.

(*2*) If these sums are not so deposited, the decree shall become void, and the raiyat shall remain in occupation of his holding at the rent previously paid by him.

Fresh proceedings not to be taken for ten years.

**95.** When a raiyat has agreed, under section 92 or section 93, to pay an enhanced rent for his holding, or a decree to eject him from the holding has become void under section 94, no notice shall be served on him under section 91 in respect of that holding during the ten years next following the date on which he has so agreed, or the decree has become void, as the case may be.

---

## CHAPTER IX.

### PROVISIONS REGARDING RENT APPLICABLE TO SEVERAL CLASSES OF TENANTS.

*A.—Of alterations of rent consequent on alterations of the area of the holding of a tenure-holder or occupancy raiyat.*

Additions to, and deductions from, rent in respect of alteration of area.

**96.** (*1*) Notwithstanding anything in Chapter III or Chapter VI, every tenure-holder shall, in the absence of a contract to the contrary, and every occupancy-tenant shall, notwithstanding any contract to the contrary,— [D. §§ 19, 43 (3) & C. B., ss. 18, 22 (2), 25 (1). B.B., ss. 18, 23 (2), 25 (1).]

(*a*) be liable to pay additional rent for all land added to the area of his holding by alluvion or otherwise, unless he can show that the land has reformed on the site of land which was formerly included in that area, and for the loss of which he has had no abatement of rent; and

(*b*) be entitled to a reduction of rent in respect of any diminution of the area of his holding caused by diluvion or otherwise, unless it is proved that the land lost was added to the area of the holding by alluvion or otherwise, and that an addition has not been made to the rent in respect of the addition to the area.

(*2*) The amount added to the rent shall be calculated at the rates payable by occupancy-raiyats for lands of a similar description and with similar advantages in the vicinity, less a deduction, in the case of a tenure-holder, of thirty per cent. for profits, risk and cost of collection.

(*3*) The amount abated from the rent shall bear the same proportion to the rent previously payable

as the diminution of the total yearly value of the holding bears to the previous total yearly value thereof, or, in default of satisfactory proof of the yearly value of the land lost, shall bear to the rent previously payable the same proportion as the diminution of area bears to the previous area of the holding.

*B.—Instalments in which money-rents are payable by tenure-holders, raiyats and under-raiyats.*

[C. B., s. 55 (a). B. B., s. 47 (a).]

**97.** A money-rent payable by a tenure-holder shall be paid in such instalments and on such dates as may have been agreed upon between the tenure-holder and his landlord; in the absence of agreement, in such instalments and on such dates as may be customary; and, in the absence of any agreement or custom, in such instalments and on such dates as the Board of Revenue may fix in this behalf for any local area.

Rent of tenure holder in what instalments and on what dates payable.

[C. B., s. 58 (b). B. B., s. 47 (b).]

**98.** A money-rent payable by a raiyat or under-raiyat shall, notwithstanding any contract or custom to the contrary, be paid in such instalments, and on such dates, not being more than four in each year, as the Board of Revenue may fix in this behalf for any local area:

Rent of raiyat or under raiyat in what instalments and on what dates payable.

Provided that, when the instalments in which, and the dates on which, rent is payable are fixed by an agreement made before the commencement of this Act, or by a custom which has prevailed from before the commencement of this Act, the amount payable on each date fixed by the Board under this section for the payment of an instalment shall be equal to the aggregate of the instalments which would, under the agreement or custom, have fallen due since the date so fixed by the Board for the payment of the last previous instalment.

[B. B., s. 47 (b).]

**99.** (*1*) Every order made by the Board of Revenue under section 97 or section 98 shall be made after a consideration of the prevailing customs and the time of harvest in the local area to which it is to apply.

Making and publication of orders under sections 97 and 98

(*2*) Every such order shall be published in manner prescribed not less than three months before the commencement of the agricultural year in which it is to take effect.

*C.—Of the Receipts and Accounts to be given to tenants.*

[D. § 61. C. B., s. 57. B. B., s. 49 (a) and (b).]

**100.** (*1*) Every tenant who makes a payment on account of rent to his landlord shall be entitled to obtain forthwith from the landlord a written receipt for the amount paid by him.

Tenant making payment to his landlord entitled to a receipt.

(*2*) The receipt shall specify—

(*a*) the date of payment;

(*b*) the amount paid on account of principal and interest respectively, or, where the payments are made in kind, the quantity and description of produce delivered;

(*c*) where other money recoverable under any enactment for the time being in force is paid with the rent, the amount so paid.

(*d*) the holding in respect of which the rent is paid,

(*e*) the name of the person (if any) registered in the landlord's sershta as the tenant;

(*f*) the annual rent payable for the holding and the amount of rent then in arrear, and

(*g*) the instalment and year on account of which the payment is declared by the tenant to be made, or, in the absence of any such declaration, the instalment and year on account of which it has been credited by the landlord.

(*3*) The landlord shall prepare and retain a counterpart of the receipt containing similar particulars.

(*4*) Every receipt which does not contain substantially the above particulars shall be deemed to be an acquittance in full of all demands for rent up to the date on which the receipt was given.

[C. B., s. 6 (b). B. B., s. 4 (c).]

**101.** (*1*) Every tenant shall be entitled to receive from his landlord, within three months after the expiry of each agricultural year, a statement of account for that year showing—

Tenant entitled to statement of account at close of the year

(*a*) the holding for which the tenant pays rent to the landlord;

(*b*) the name of the person (if any) registered in the landlord's sershta as the tenant;

(*c*) the annual rent payable for the holding;

(*d*) the amount of rent in arrear at the beginning of the year;

(*e*) the payments made during the year on account of principal and interest respectively, or, when the payments are made in kind, the quantity and description of produce delivered;

(*f*) the portion of each payment credited to the rent of the year, and the portion credited to the arrears of previous years; and

(*g*) the amount, if any, remaining unpaid at the close of the year.

(*2*) The landlord shall prepare and retain a counterpart of the statement containing similar particulars.

[D. § 65. C. B., s. 6 B. B., s. (d) and

**102.** (*1*) If a landlord refuses or neglects to deliver to a tenant demanding the same a receipt containing the particulars prescribed by section 100 for any rent paid by the ten-

Penalties and fine for withholding receipts and statements of accounts and failing to keep counterparts.

## *Bengal Tenancy Bill.*

### (*Chapter IX.—Provisions regarding Rent applicable to several classes of Tenants. Secs. 103—109.*)

ant, the tenant may, within six months from the date of the demand, institute a suit to recover from him such penalty, not exceeding double the amount or value of that rent, as the Court thinks fit.

(2) If a landlord refuses or neglects to deliver to a tenant demanding the same the statement of account for any year prescribed in section 101, the tenant may, within six months from the date of the demand, institute a suit to recover from him such penalty as the Court thinks fit, not exceeding double the aggregate amount or value of all rent paid by the tenant to the landlord during that year.

(3) If a landlord fails to prepare and retain a counterpart of a receipt or statement as required by section 100 or section 101, he shall be punished with fine which may extend to fifty rupees.

*D.—Of the deposit of rent by a tenant in a public office.*

[D. § 99. C. B., ss. 58 & 59. B., ss. 50 & 51.]

Application to deposit rent in public office.

**103.** (1) In any of the following cases, namely :—

(*a*) when a tenant bound to pay money on account of rent has reason to believe that the person to whom his rent is payable will not be willing to receive the same and to grant him a receipt therefor :

(*b*) when the money is payable to co-sharers jointly, and the tenant is unable to obtain the joint receipt of the co-sharers therefor, and no person has been empowered to receive the rent in their behalf : or

(*c*) when the tenant entertains a *bonâ fide* doubt as to who is entitled to receive the rent :

the tenant may present, to such officer as the Local Government from time to time appoints in this behalf for the local area in which the holding is situate, an application in writing for permission to deposit in his office the full amount of the money then due.

(2) The application shall contain a statement of the grounds on which it is made, shall be signed by the tenant or, where he is not personally cognizant of the facts of the case, by some person so cognizant, and shall be accompanied by a fee of eight annas.

[D. §§ 99 & 100. C. B., s. 60. B., s. 52.]

Receipt granted by public officer for rent deposited to be a valid acquittance.

**104.** (1) If it appears to the officer to whom an application is made under section 103 that the applicant is entitled under that section to deposit the rent, he shall receive the rent and give a receipt for the same under his official seal.

(2) A receipt given under this section shall operate as an acquittance for the rent payable by the tenant and deposited as aforesaid, in the same manner and to the same extent as if the rent had been received—

(*a*) in case (*a*) of section 103 by the person specified in the application as the person to whom the rent was payable ;

(*b*) in case (*b*) of section 103 by the co-sharers jointly ; and

(*c*) in case (*c*) of section 103 by the person entitled to it.

[D. § 100. C. B., s. 61 (a). B. B., s. 53 (a).]

Notification of receipt of deposit.

**105.** (1) The officer receiving a deposit under section 104 shall forthwith cause to be affixed in a conspicuous place in his office a notification of the receipt thereof, containing a statement of all material particulars contained in the application under section 103, and, when the deposit is made under section 103, clause (*a*), shall send a copy of the notification by post in a registered cover to the person to whom the rent is alleged by the depositor to be payable.

(2) If the amount of the deposit is not paid away under section 106 within the period of fifteen days next following the date on which the notification is affixed as aforesaid the officer shall cause a notice of the receipt of the deposit to be served (free of charge) upon every person who he has reason to believe claims or is entitled to the deposit.

[D. § 100. C. B., s. 61 (b). B. B., s. 53 (b).]

Deposit to whom payable.

**106.** (1) The officer may pay the amount of the deposit to any person appearing to him to be entitled to the same, or may, if he thinks fit, retain the amount pending the decision of a Civil Court as to the person so entitled.

(2) No suit or other proceeding shall be instituted against the Secretary of State for India in Council, or against any officer of the Government, in respect of anything done by a Revenue-officer under this section ; but nothing in this section shall prevent any person entitled to receive the amount of any such deposit from recovering the same from a person to whom it has been paid under this section.

[C. B., s. 61 (c). B. B., s. 53 (c).]

Refund to depositor.

**107.** If no payment is made under section 106 before the expiration of three years from the date on which a deposit is made, the amount deposited may, in the absence of any order of a Civil Court to the contrary, be repaid to the depositor upon his application and on his returning the receipt given under section 104.

*E.—Of arrears of rent.*

[D. § 101. C. B., s. 56. B. B., s. 48.]

Interest on arrears.

**108.** Every arrear of rent shall, unless otherwise provided by a written contract between the parties, be liable to interest at the rate of twelve per centum per annum.

[D. § 68. C. B., s. 90. B. B., s. 96.]

Power to award damages on rent withheld without reasonable cause.

**109.** If, in any suit brought for the recovery of arrears of rent, it appears to the Court that the defendant has, without reasonable or probable cause, neglected or refused to pay the amount

of rent due by him, the Court may award to the plaintiff, in addition to the amount decreed for rent and costs, such damages, not exceeding twenty-five per centum on the amount of rent decreed, as it thinks fit:—

Provided that, when damages are awarded under this section, interest shall not be decreed under section 108.

[D. § 69. C. B., s. 91. B. B., s. 97.]

**110.** If, in any suit brought for the recovery of arrears of rent, it appears to the Court that the plaintiff has instituted the suit without reasonable or probable cause, the Court may award to the defendant, by way of damages, such sum not exceeding twenty-five per centum on the whole amount claimed by the plaintiff as it thinks fit.

Power to award damages to defendant improperly sued for rent.

[D. §§ 12 (5) & 98. C. B., ss. 79(5 & 152. B. B., ss 72 (5) & 169.]

**111.** (*1*) When an arrear of rent remains due in respect of a non-transferable holding at the end of the Bengali year where that year prevails, or at the end of the month of Jeyt where the Fush or Amli year prevails, the landlord may, whether he has obtained a decree for the recovery of the arrear or not, and whether he is entitled by the terms of any contract to eject the tenant for arrears or not, institute a suit to eject the tenant.

Ejectment from non-transferable holding for arrears.

(*2*) A decree passed in favour of the plaintiff in any such suit shall specify the amount of the arrear together with the interest (if any) due thereon, and the decree shall not be executed if that amount and the costs of the suit are paid into Court within fifteen days from the date of the decree, or, when the Court is closed on the fifteenth day, on the day upon which the Court re-opens.

*F.—Of rent taken by division or estimation of the crop.*

[C. B., s. 84. B. B., s. 88.]

**112.** Whenever rent is taken by division of the produce, or by estimate or appraisement of the crop, if either the landlord or the tenant neglects to attend, either personally or by agent, at the proper time for making the division, estimate or appraisement, or if there is a dispute about the division of the produce, or the quantity or value of the crop, the Collector may, on the application of either party, and on his depositing such sum on account of expenses as the Collector may require, issue a commission to such person as he thinks fit, to divide, estimate or appraise the crop.

Commission for dividing or estimating crops.

**113.** (*1*) When a Collector appoints a commissioner for any of the purposes mentioned in section 112, the Collector may, in his discretion, direct the commissioner to associate with himself any other persons as assessors, and may give him instructions regarding the number, qualifications and mode of selecting those assessors (if any), and the procedure to be followed in making the division, estimate or appraisement.

Appointment of assessors, &c.

(*2*) The commissioner so appointed shall make the division, estimate or appraisement in accordance with those instructions, and submit a report of his proceedings to the Collector.

**114.** (*1*) If in any division under section 113 either party receives less than the share to which he is entitled, he may, within three months from the date on which the division is completed, institute a suit against the other party to recover the value of the additional portion of the crop due to him at the price which prevailed on that date.

Remedy for error in division.

(*2*) If no such suit is instituted within the said period of three months, the division shall for all purposes be deemed as between the parties thereto to have been rightly made.

**115.** (*1*) When a crop has been estimated or appraised under section 113 the estimate or appraisement shall be reduced to writing and signed by the commissioner making the same, and shall be submitted to the Collector by whom the commission was issued.

Procedure where crop has been estimated or appraised.

(*2*) The Collector shall consider the commissioner's estimate or appraisement, and, after such hearing and inquiry (if any) as he may think necessary, shall pass an order thereon either confirming or varying the estimate or appraisement; and that order shall be final.

**116.** All expenses incurred in carrying out the provisions of sections 112 to 115 (both inclusive) shall be payable by the landlord or tenant, or partly by one and partly by the other, as the Collector may in each case direct; and the amount payable by any person under such a direction shall be recoverable from him as if it was an arrear of land-revenue due by him.

Costs of proceedings under foregoing sections.

[B. B., s.

**117.** If the landlord of any land of which the rent is payable in the manner mentioned in section 112, or any other person, interferes in any way, without the consent of the tenant, with the cutting or harvesting of any produce of the land except by an application to the Collector under section 112, he shall be deemed to have committed criminal trespass within the meaning of the Indian Penal Code.

Interference with produce of land otherwise than under section 112, criminal trespass.

XLV of

[C. B., s. B. B., s. 1

**118.** When the rent payable for land in Bihár is the equivalent money-value of a fixed proportion of the actual gross produce thereof, and such equivalent

*Danabandi* or appraisement papers in Bihár to be deposited in Collector's office.

## *Bengal Tenancy Bill.*

### (*Chapter IX.—Provisions regarding Rent applicable to several classes of Tenants. Secs. 119—125*), *and* (*Chapter X.—Other Provisions applicable to several classes of Tenants. Sec. 126.*)

money-value is determined by an estimate or appraisement (*dánabandi*) of the standing-crop, or by some similar proceeding, the *dánabandi* or appraisement papers shall, within fifteen days after the making of the appraisement, be lodged in the office of the Collector of the district.

*C.—Further provisions regarding rent.*

[N.R., s. 23 (c). B.41., s 80.]

**119.** Notwithstanding anything in the foregoing sections of this Act, or in any contract made after the second day of March, 1883, a raiyat or under-raiyat shall not be bound to pay for his holding a money-rent exceeding *five*-sixteenths of the estimated average annual value of the gross produce of the holding in staple crops, calculated, in such manner as the Board of Revenue may from time to time, by rules, direct, at the prices at which raiyats sell at harvest time.

Limit to rents of raiyats and under raiyats.

**120.** The rent payable by a tenant in any agricultural year shall be presumed to be the rent payable by him in the following agricultural year until the contrary is shown.

Presumption that rent continues unchanged

[§ 48.]

**121.** When a landlord grants a lease, or makes any other contract, purporting to entitle the tenant of land not included in an area permanently settled to hold that land free of rent or at a fixed rent, and while the lease or contract is in force—

Power to alter rent in case of new assessment of revenue.

(*a*) land-revenue is for the first time made payable in respect of the land, or

(*b*) land-revenue having been previously payable in respect of it, a fresh settlement of land revenue is made,

a Revenue-officer may, notwithstanding anything in the contract between the parties, by order, on the application of the landlord or of the tenant, fix a fair and equitable rent for the land in accordance with the provisions of this Act.

[s. 9. s. 78. s. 70.]

**122.** (*1*) A tenant shall not, when his landlord's interest is transferred, be liable to the transferee for rent which became due after the transfer and was paid to the landlord whose interest was so transferred, unless the transferee has given notice of the transfer to the tenant.

Tenant not liable to transferee of landlord's interest for rent paid to former landlord without notice of the transfer

(*2*) When there is more than one tenant paying rent to the landlord whose interest is transferred, a general notice from the transferee to the tenants published in the prescribed manner shall be a sufficient notice for the purposes of this section.

[D §§ 13 & 87 C. B., s 71. B. B., s. 68 (2).]

**123.** All impositions upon tenants under the denomination of *abwab*, *mahtut*, or other like appellations, in addition to the actual rent, shall be illegal, and all stipulations and reservations for the payment of such shall be void.

Abwab, &c., illegal

[D § 64. C. B., ss. 63 (2), 64 (c), 93.]

**124** Every tenant from whom, except under any special enactment for the time being in force, any sum of money or any portion of the produce of his land is exacted by his landlord in excess of the rent lawfully payable, may, within six months from the date of the exaction, institute a suit to recover from the landlord, in addition to the amount or value of what is so exacted such sum by way of penalty as the Court thinks fit, not exceeding five hundred rupees, or, when double the amount or value of what is so exacted exceeds five hundred rupees, not exceeding double that amount or value.

Penalty for exaction by landlord from tenant of sum in excess of the rent payable

[C B., s 64. B B., s. 66]

**125** (*1*) The rent of a tenure, occupancy-holding or basta holding shall be a first charge on the same

Rent first charge on tenures, occupancy-holdings and basta holdings

(*2*) If the right, title and interest of the tenant is brought to sale in execution of a decree for money obtained by a person other than the landlord, the landlord shall be entitled to be first paid out of the sale proceeds any rent which may be due to him by the tenant.

---

## CHAPTER X.

### OTHER PROVISIONS APPLICABLE TO SEVERAL CLASSES OF TENANTS.

*A.—Of improvements on raiyats' holdings and compensation therefor.*

[C B., s 29. B. B., s 69.]

**126** (*1*) For the purposes of this chapter the term "improvement," used with reference to a raiyat's holding, shall mean any work which adds to the letting-value of the holding, which is suitable to the holding and consistent with the purpose for which it was let, and which, if not executed on the holding, is either executed directly for its benefit, or is, after execution, made directly beneficial to it.

"Improvement"

(*2*) It shall include for those purposes—

(*a*) the construction of wells, tanks and other works for the storage, supply or distribution of water for the purposes of agriculture, or for the use of men and cattle employed in agriculture;

(*b*) the preparation of land for irrigation;

(*c*) the drainage, reclamation from rivers or other waters, or protection from floods, or from erosion or other damage by water, of land used for agricultural

purposes, or waste-land which is culturable;

(*d*) the reclamation, clearance, enclosure or permanent improvement of land for agricultural purposes;

(*e*) the renewal or re-construction of any of the foregoing works, or alterations therein, or additions thereto; and

(*f*) the erection of a dwelling-house suitable for the raiyat and his family, together with all necessary out-offices.

But no work executed by the raiyat of a holding shall be deemed to be an improvement for the purposes of this chapter if it substantially diminishes the value of any other part of the estate or tenure of his landlord.

(*3*) A work which benefits several holdings shall for the purposes of this chapter be deemed to be, with respect to each of them, an improvement.

[C. B., s. 77 I. B., s. 69.]

**127.** (*1*) The landlord of an occupancy-raiyat shall not be entitled as such to prevent the raiyat making an improvement in respect of his holding, and shall not, except as next hereinafter provided, be entitled to make an improvement in respect of the holding without the permission of the raiyat.

Right to make improvments in case of occupancy-holding.

(*2*) A landlord of an occupancy-holding who would, but for the want of his raiyat's permission, be entitled to make an improvement in respect of the holding, may, if he desires that any improvement, other than an improvement of the description mentioned in section 126, clause (*f*), be made, deliver or cause to be delivered to the raiyat a request in writing calling upon him to make the improvement within a reasonable time; and, if the raiyat is unable or neglects to comply with that request, may make the improvement himself.

[C. B., s. 77. I. B., s. 69.]

**128.** (*1*) An ordinary raiyat shall not, except as next hereinafter provided, be entitled to make in respect of his holding without his landlord's permission any improvement other than an improvement of the description mentioned in section 126, clause (*f*).

Right to make improvements in case of ordinary raiyat's holding.

(*2*) An ordinary raiyat, who would, but for the want of his landlord's permission, be entitled to make an improvement in respect of his holding, may, if he desires that the improvement be made, deliver, or cause to be delivered, to his landlord a request in writing calling upon him to make the improvement within a reasonable time; and, if the landlord is unable or neglects to comply with that request, may make the improvement himself.

[C. B., ss. 29 (*c*) & 29].

**129.** (*1*) Every raiyat who is ejected from his holding shall be entitled to compensation for improvements which have been made in accordance with this Act by him, or by his predecessor in interest, and for which compensation has not already been made.

Compensation for improvements payable to raiyat on ejectment.

(*2*) Whenever a Court makes a decree or order for the ejectment of a raiyat, it shall determine the amount of compensation (if any) due under this section to the raiyat for improvements, and shall make the decree or order of ejectment conditional on the payment of that amount to the raiyat.

(*3*) No compensation under this section for an improvement shall be claimable where the raiyat has made the improvement in pursuance of a contract or under a lease binding him, in consideration of some substantial advantage to be obtained by him, to make the improvement without compensation, and he has obtained that advantage.

(*4*) Improvements made by a raiyat before the commencement of this Act shall be deemed to have been made in accordance with this Act, unless it is shown that the landlord forbade the raiyat to make the improvement and was ready to make it himself.

**130.** The Local Government may, from time to time, by notification in the official Gazette, make rules requiring the Court to associate with itself, for the purpose of estimating the compensation to be awarded under section 129, for an improvement, such number of assessors as the Local Government thinks fit, and determining the qualifications of those assessors and the mode of selecting them.

Power to make rules for appointment of assessors.

**131.** (*1*) In estimating the compensation to be awarded under section 129 for an improvement, regard shall be had—

Principle on which compensation is to be estimated.

(*a*) to the amount by which the letting-value, or the produce, of the holding, or the value of that produce, is increased by the improvement;

(*b*) to the labour and capital required for the making of such an improvement; and

(*c*) to any reduction or remission of rent or any other advantage given by the landlord to the raiyat in consideration of the improvement.

(*2*) When the amount of the compensation has been assessed, the landlord and raiyat may, if they think fit, agree that, instead of being paid wholly in money, it shall be made wholly or partly in some other way.

**132.** A stipulation in a contract providing—

Certain stipulations in contracts to be void.

(*a*) that a landlord shall be entitled to prevent a raiyat from making, or to eject him for making, such improvements on his holding as he is entitled to make under this Act, or

(*b*) that a raiyat ejected from his holding shall not be entitled to compensation for improvements

## *Bengal Tenancy Bill.*

### *(Chapter X.—Other Provisions applicable to several classes of Tenants. Secs. 133—140.)*

in any case in which he would, under this Act, be entitled to such compensation,

shall be void.

*B.—Of the landlord's right to measure land.*

D. § 58. . B., s. 75. . B., s. 67.]

**133.** Subject to the provisions of any contract, a landlord may, by himself or by any person authorized by him in this behalf, enter upon and measure all land comprised in any estate or tenure, of the rents of which he is in receipt, except land entered in the general register of revenue-free lands prepared under the Land Registration Act, 1876:

Landlord entitled to measure land unless restrained by contract.

71 (B. C.) of 876.

Provided that, when any land has been measured by a landlord, whether before or after the passing of this Act, it shall not, without the written permission of the Collector, be again measured by the landlord within the ten years next following the date on which it was so measured.

*Illustration.*

A., a proprietor, grants a portion of his estate in patní to B, to whom the raiyats pay rent. Both A and B are entitled to make a general survey and measurement of the lands comprised in the patní lease.

D. § 94. . B., s. 176.]

**134.** When a landlord desires to measure, under section 133, any land held by his tenant, the tenant shall, if the landlord requires him to do so, attend and point out the boundaries of the land.

Tenant bound to point out boundaries.

D. § 94 . B., s. 176.]

**135.** (*1*) When a landlord desires to measure any land under section 133, and any person occupying the land obstructs him in so doing, or any tenant, bound under section 134 to attend and point out the boundaries of his land, refuses or neglects so to do, the landlord may apply to the Court which would have jurisdiction to hear a suit for the recovery of the land, to make an order directing such person to permit the measurement, or such tenant to attend and point out the boundaries, as the case may be.

Remedy when landlord is obstructed or tenant does not point out boundaries.

(*2*) The Court may, on receiving an application under this section, cause a notice to be served on the occupant or tenant, as the case may be, requiring him to show cause, at a time and place specified therein, why the order applied for should not be made.

(*3*) If the person on whom a notice is served under sub section (2) does not show cause as aforesaid, the Court may make the order applied for.

), s. 94. . B., s. 177.]

**136.** If a tenant ordered under section 135 to attend and point out the boundaries of the land held by him refuses or neglects to do so, a map or other record of the boundaries and measurements of the land prepared under the direction of the landlord, at the time the tenant was ordered to attend, shall be presumed to be correct until the contrary is shown.

Presumption against tenant not attending to point out boundaries.

**137.** (*1*) Every measurement of land made by order of a Civil Court, or of a Revenue-officer, in any suit or proceeding between a landlord and tenant, shall be made according to the Government measure of 14,400 square feet to one standard bighá.

[D. § 94. C. B., s. 76 B. B., s. 68

Measurement in suits between landlord and tenant to be made according to Government measure.

(*2*) If the rights of the parties are regulated by any different local measure, the Government measure shall be converted into the local measure for the purposes of the suit.

**138.** (*1*) If any dispute as to the length of a standard used in a local measure arises in any suit under this Act, the Collector shall, on a reference made to him for this purpose by the Court, determine the proper length thereof.

[D. § 98. C. B., s. 76 (3) B. B., s. 68 (3).

Determination of the length of the standard in case of dispute.

(*2*) An appeal shall lie from the Collector's decision to the District Judge.

(*3*) If no such appeal be preferred, the decision of the Collector or, if an appeal be preferred, the decision of the District Judge thereon, shall be conclusive.

*C.—Of surrender and abandonment.*

**139** (*1*) A raiyat not bound by a lease or other agreement for a fixed period may, at the end of any agricultural year, surrender his holding; but notwithstanding the surrender he shall continue to be liable for the rent of the holding for the agricultural year next following the date of the surrender, unless—

[D. § 12 (3). C. B., s. 79 (3). B. B., s. 72 (3).]

Surrender by raiyat.

(*a*) he gives to his landlord, at least three months before he surrenders, notice in writing of his intention to surrender; or

(*b*) the holding is let to another person for a agricultural year following the surrender.

(*2*) If the landlord refuses to receive a notice, tendered to him under clause (*a*), or to sign a receipt for the same, the raiyat may apply to the Court within the jurisdiction of which the holding or any portion of it is situate, and the Court shall thereupon cause the notice to be served on the landlord.

**140.** Any tenant of a holding which is not transferable, who leaves his holding uncultivated and the rent of it unpaid for a period of one year, shall, at the expiration of that period, be deemed to have surrendered the holding:

[D. s. 13 (4). C. B., s. 79 (4). B. B., s. 73 (4).]

Non-transferable holding in certain cases to be deemed surrendered.

Provided that, in reckoning that period, any time during which, owing to an inundation or any other accident to the land beyond the tenant's control, it may have been impossible to cultivate the land, shall be excluded.

[C. B., ss. 43 & 44. B. B., ss. 34 & 35.]

*D.—Of Merger.*

**141.** (*1*) When in the case of any tenancy the interest of the landlord and that of the tenant become, by transfer, succession or otherwise, united in the same person, so as to be owned by him in the same right, the interest of the tenant shall—

Merger of tenant's interest in landlord's interest.

(*a*) during the period of three months mentioned in sub-section (*2*) be presumed to be merged in the interest of the landlord and extinguished, unless the person proves that he has not intended it to be merged, and

(*b*) after the expiration of that period be deemed to be so merged and extinguished, unless within that period the person executes an instrument declaring his intention that a merger shall not take place, and the instrument is registered under the Indian Registration Act, 1877, and is published in the prescribed manner.

II of 1877.

(*2*) The period of three months referred to in sub-section (*1*) shall, when the interests become united after the commencement of this Act, begin to run from the date on which they become united, and, when they have become united before the commencement of this Act, begin to run from the commencement of this Act:

Provided that, when, at the time the interests become united, the person in whom they become united has not attained his age of majority or is of unsound mind, the period shall not begin to run before he has attained that age or become of sound mind, as the case may be.

(*3*) A merger under this section shall not operate to the prejudice of any person having a lien upon the interest merged.

(*4*) When, at the time of a merger taking place in respect of a tenancy under this section, a sub-tenancy exists immediately under that tenancy, the person who becomes the owner of the consolidated interests shall, subject to the provisions of the law for the time being in force relating to sales of land for arrears of Government revenue and to the provisions of this Act as to sales for arrears of rent, have the same rights against, and be subject to the same obligations towards, the sub-tenants, as the owner of the tenant's interest had, and was subject to, before the merger.

*E.—Of the appointment of a Manager on behalf of co-owners of an estate or tenure.*

[D. § 16 C. B., s. 6 B. B., s. (1).]

Power to call upon co-owners to show cause why they should not appoint a common manager.

**142.** When co-owners of an estate or tenure disagree as to the management thereof, and in consequence there has ensued, or is likely to ensue,

(*a*) inconvenience to the public, or

(*b*) injury to private rights,

the District Judge may, upon the application in case (*a*) of the Collector, and in case (*b*) of any one having an interest in the estate or tenure, direct a notice to be served upon all the co-owners, calling upon them to show cause why they should not appoint a common manager:

Provided that a co-owner of an estate or tenure shall not be entitled to apply under this section unless he is actually in possession of the interest he claims and, if he is a co-owner of an estate, unless his name and the extent of his interest are registered under Act VII of 1876 passed by the Lieutenant-Governor of Bengal in Council.

[C.B., s. B.B., s. 6

Power to order them to appoint a manager if cause is not shown.

**143** If the co-owners fail to show cause as aforesaid within one month after service of a notice under section 142, the District Judge may make an order directing them to appoint a common manager, and a copy of the order shall be served upon any co-owner who did not appear before it was made.

[C. B., s. (1). B. B., s. (1).]

Power to appoint manager if order is not obeyed.

**144.** If the co-owners do not, within one month after the making of an order under section 143, or, where the order has been served as directed by that section, within one month after such service, appoint a common manager and report the appointment for the information of the District Judge, the District Judge may—

(*a*) direct that the estate or tenure be managed by the Court of Wards in any case in which the Court of Wards assents to undertake the management thereof; or

(*b*) in any case appoint a manager.

[C.B., s. B.B., s.58(

Power to nominate person to act in all cases under section 144(*b*)

**145.** The Lieutenant-Governor of Bengal may nominate a person for any local area to manage all estates and tenures within that local area for which it may be necessary to appoint a manager under section 144, clause (*b*); and, when any person has been so nominated, no other person shall be appointed manager under that clause by the District Judge, unless in the case of any estate the Judge thinks fit to appoint one of the co-owners themselves as manager.

## *Bengal Tenancy Bill.*

*(Chapter X.—Other Provisions applicable to several classes of tenants. Secs. 146—150) and (Chapter XI.—Settlement of Rents by Revenue-officer. Secs. 151—155.)*

[N. B., s. 66(3). B., s. 58(3).]

**146.** In any case in which the Court of Wards undertakes the management of an estate or tenure under section 144, so much of the provisions of the Court of Wards Act, 1879, as relates to the management of immoveable property shall apply to the management.

The Court of Wards Act, 1879, applicable to management by Court of Wards under section 144 (*a*).

[B. C.) of 1879.

[C. B., s. 67. I. B., s. 59.]

**147.** (*1*) A manager appointed under section 144, clause (*b*), shall receive by way of remuneration such fixed salary or percentage of the money collected by him as manager as the District Judge from time to time directs.

Provisions applicable to manager appointed under section 144(*b*).

(*2*) He shall give such security for the proper discharge of his duties as the District Judge directs.

(*3*) He shall, subject to the control of the District Judge, have, for the purposes of management, the same powers as the co-owners jointly might but for his appointment have exercised.

(*4*) He shall keep regular accounts, and allow the co-owners or any of them to inspect and take copies of those accounts; and

(*5*) He shall be removeable by the order of the District Judge, and not otherwise.

[C. B., s. 68. I. B., s. 60.]

**148.** When an estate or tenure has been placed under the management of the Court of Wards, or a manager has been appointed for the same under section 144, the District Judge may at any time direct that the management of it be restored to the co-owners if he is satisfied that such management will be conducted by them jointly without inconvenience to the public or injury to private rights.

Power to restore management to co-owners.

### *F.—Miscellaneous.*

[C. B., s. 79 (5), (6) & (7). I. B., s. 72 (5), (6) and (7).]

**149.** No tenant shall be ejected from his holding except in execution of a decree.

No ejectment except in execution of decree.

[B. B., ss. 21 and 87.]

**150.** Nothing in this Act shall entitle a tenant whose holding is transferable to transfer or bequeath, without the consent of his landlord, a portion only of the land comprised in the holding so that it may be held from the landlord by the transferee as a separate holding.

Portion of holding not transferable.

## CHAPTER XI.

### OF THE SETTLEMENT OF RENTS BY A REVENUE-OFFICER.

**151.** (*1*) The Local Government may, if it thinks fit, in any of the cases next hereinafter mentioned, make an order directing that the rents of all tenants or of any class of tenants in any local area shall be settled by Revenue-officers to be from time to time appointed by the Local Government in this behalf.

Power to order Revenue-officers to settle rents.

(*2*) The cases in which an order may be made under this section are the following, namely:—

(*a*) where a large proportion of the tenants or of the landlords applies for such an order, and deposits for the payment of expenses such amount as the Local Government directs;

(*b*) where the making of such an order is calculated to settle or avert a serious dispute existing, or likely to arise, between the tenants and their landlords generally;

(*c*) where a settlement of revenue is being made in respect of the local area, or the local area is comprised in an estate or tenure owned or managed by the Government or the Court of Wards.

(*3*) A notification in the official Gazette of an order under this section shall be conclusive evidence that the order has been duly made, and an order so notified shall continue in force until it is rescinded by an order notified in like manner.

**152.** While an order under section 151 continues in force in respect of any tenants, a Civil Court shall not, except as provided by section 155, clause (*b*), entertain a suit for the enhancement or reduction of the rents of those tenants under this Act.

Bar to jurisdiction of Civil Courts while order is in force.

**153.** (*1*) When the rents of any tenants to whom an order under section 151 applies are subject to alteration by order of a Court, the officer appointed to settle the rents of those tenants under this chapter shall, without any application being made to him in this behalf, fix those rents in accordance with the principles embodied in this Act, and so that no rent fixed under this section shall exceed the maximum prescribed by this Act in cases of enhancement.

Rents of certain tenants to be fixed.

(*2*) Where the Local Government has, under this chapter, directed a settlement of the rents of the occupancy-raiyats of any local area, and a table of rates and produce has not been prepared under Chapter VI for that local area, it may further direct the officer appointed to settle the rents to prepare such a table before proceeding to fix the rents of those raiyats.

**154.** When the rents of any tenants to whom an order under section 151 applies are not subject to alteration as aforesaid, the officer appointed to settle the rents of those tenants shall, without any application being made to him in this behalf, ascertain and record the rents payable by them.

Rents of other tenants to be ascertained and recorded.

**155.** (*1*) If in the course of the proceedings taken for fixing the rent of a tenant under section 153 any question arises which, in the opinion of the officer conducting

Power to refer question to Civil Court or leave case to be dealt with by Civil Court.

## *Bengal Tenancy Bill.*

### (*Chapter XI.—Settlement of Rents by Revenue-officer. Secs. 156—161.*)

those proceedings, would be more properly decided by a Civil Court, the officer may in his discretion, but subject to any rules made by the Local Government in this behalf,

(*a*) refer the question for decision to the Civil Court which would, but for section 152, have had jurisdiction to try a suit for the enhancement or reduction of the rent, or

(*b*) by order in writing direct that the tenant's case be excluded from the operation of this chapter and be left to be disposed of by suit in a Civil Court, as if the order under section 151 did not apply to it.

(*2*) When a Revenue-officer makes a reference under clause (*a*) of this section in respect of a tenant, he may either stay his proceedings in respect of that tenant, or, if the nature of the case admits of his doing so, pass an order in alternative form or otherwise fixing the rent contingent upon the decision of the Civil Court.

Preparation of jamabandí.

**156.** (*1*) A Revenue-officer settling rents under this chapter shall prepare, in the prescribed form, one or more jamabandís, comprising all or such numbers of the tenants whose rents he is appointed to settle as the Board of Revenue may direct.

(*2*) Every jamabandí prepared under this section shall show in respect of each tenant comprised therein—

(*a*) the class to which he belongs, that is to say, whether he is a tenure-holder, occupancy-raiyat, tenant of a bastu holding, ordinary raiyat or under-raiyat;

(*b*) the land held by him;

(*c*) the name of his landlord;

(*d*) whether the rent has been fixed under section 153 or ascertained under section 154;

(*e*) the amount of the rent fixed or ascertained, and, when the rent is a gradually increasing one, the time at which, and the steps by which, it increases.

Publication of jamabandí and objections thereto.

**157.** Every jamabandí prepared under section 156 shall be published in the prescribed manner, and any person objecting to any entry therein may, within one month from the date of the publication, present to the Revenue-officer, for transmission to the Commissioner of the Division, a petition stating his objection to the entry.

Submission of jamabandí and petitions of objection to the Commissioner and Board.

**158.** (*1*) On the expiration of the said period of one month, the Revenue-officer shall submit to the Commissioner of the Division a copy of the jamabandí, with a report setting forth the grounds on which it has been prepared, and the petitions of objection (if any) which he may have received under section 157.

(*2*) The Commissioner shall consider the jamabandí and report, and the objections (if any), and, after allowing the objectors (if any) an opportunity of being heard, shall forward the papers to the Board of Revenue with his opinion regarding the same.

Sanction to and final publication of jamabandí, and date from which it comes into force.

**159.** (*1*) The Board of Revenue may return the papers for further inquiry, or may submit the jamabandí with or without modifications to the Local Government for sanction.

(*2*) The Local Government may return for further inquiry the papers received under sub-section (*1*) or may sanction the jamabandí with or without modification.

(*3*) When a jamabandí has been sanctioned by the Local Government under this section, it shall be published in the prescribed manner.

(*4*) A jamabandí published under this section shall come into force from the commencement of the agricultural year next following the publication.

Rent fixed under foregoing provisions to be deemed the rent payable.

**160.** When a jamabandí has come into force under section 159, a tenant's rent shown therein as fixed under section 153 shall be deemed to be the rent payable by him, and shall not, during the period of ten years next following the date on which the jamabandí comes into force, be enhanced in a suit instituted under this Act, except on the ground that since the jamabandí came into force an improvement has been made by the landlord which, but for this section, would entitle him to an enhancement:

Provided that—

(*1*) such rent may from time to time be altered in any other manner permitted by law; and

(*2*) nothing in this section shall prevent the rent shown in a jamabandí in respect of a tenancy from being called in question on any of the following grounds, namely:—

(*a*) that the tenancy does not exist or that the tenant is not liable to pay rent;

(*b*) that the tenant belongs to a class different from that to which he is shown in the jamabandí to belong;

(*c*) that the land comprised in the tenancy is different from, or more or less than, that shown in the jamabandí;

(*d*) that a rent different from that shown in the jamabandí has been fixed by a contract legally binding on the parties, and which has been brought to the notice of the officer preparing the jamabandí.

Rent ascertained under foregoing provisions to be presumed to be the rent payable.

**161.** When a jamabandí has been published under section 159 a tenant's rent shown therein as, ascertained under section 154, shall be presumed to be the

rent payable by that tenant until the contrary is shown.

Certain other entries in jamabandí to be presumed to be correct.

**162.** An entry made in a jamabandí under clause (*a*), clause (*b*) or clause (*c*) of section 156 shall, after the jamabandí has been published under section 159, be presumed for all purposes to be correct until the contrary is shown.

Expenses incurred in proceedings under this chapter how defrayed.

**163.** All expenses incurred by the Government in carrying out the provisions of this chapter in any local area, in any case mentioned in section 151, clause (*a*) or clause (*b*), including the salaries of all officers employed exclusively in carrying out those provisions therein, and such portions as the Local Government may from time to time fix of the salaries of officers employed in carrying out those provisions therein in addition to their other public duties, shall be defrayed by the landlords and tenants in that local area whose rents are fixed or ascertained under this chapter, in such proportions as the Local Government, having regard to all the circumstances of each case, may determine; and the proportion of those expenses so to be defrayed by any person shall be recoverable from him as if it were an arrear of revenue due by him.

## CHAPTER XII.

### OF THE PREPARATION OF A RECORD-OF-RIGHTS BY A REVENUE-OFFICER.

Power to order preparation of record-of-rights.

**164.** (*1*) The Local Government may, in any case with the previous sanction of the Governor General in Council, and may, if it thinks fit, without such sanction in any of the cases next hereinafter mentioned, make an order directing that a record-of-rights shall be prepared for all tenancies or any class of tenancies in a local area by Revenue-officers to be from time to time appointed by the Local Government.

(*2*) The cases in which an order may be made under this section without the previous sanction of the Governor General in Council are the following, namely:—

(*a*) where a large proportion of the landlords or of the tenants applies for such an order and deposits for the payment of expenses such amount as the Local Government directs;

(*b*) where the preparation of such a record is calculated to settle or avert a serious dispute existing or likely to arise between the tenants and their landlords generally; and

(*c*) where the local area is comprised in an estate or tenure which belongs to or is managed by the Government or the Court of Wards.

(*3*) The Local Government shall, in any order made by it under this section, specify the particulars to be included in the record-of-rights to be prepared under that order.

(*4*) The particulars so specified may be all or some of the following, namely:—

(*a*) the name of each tenant;

(*b*) the class to which he belongs, that is to say, whether he is a tenure-holder, occupancy-raiyat, tenant of a basta holding, ordinary raiyat or under-raiyat;

(*c*) the land held by him;

(*d*) the name of his landlord;

(*e*) the rent payable;

(*f*) the mode in which that rent has been fixed, whether by contract, by order of a Court or otherwise.

(*5*) A notification in the official Gazette of an order under this section shall be conclusive evidence that the order has been duly made.

Presumption as to entries in record.

**165.** Every entry in a record-of-rights prepared under section 164 shall be presumed to be correct until the contrary is proved.

## CHAPTER XIII.

### OF THE RECOVERY OF RENTS FROM RAIYATS AND UNDER-RAIYATS BY DISTRAINING THE PRODUCE OF THE HOLDING

Cases in which an application for distraint may be made.

[B. B., ss. 101 104, 123.]

**166.** Where an arrear of rent is due to the landlord of a raiyat or under-raiyat, and has not been due for more than a year, and no security has been accepted therefor by the landlord, the landlord may, in addition to any other remedy to which he is entitled by law, present an application to the Court, having jurisdiction to entertain a suit for the recovery of the arrear, requesting the Court to recover the arrear by distraining, while in the possession of the cultivator,

(*a*) any crops or other products of the earth standing or ungathered on the holding;

(*b*) any crops or other products of the earth which have been grown on the holding and have been reaped or gathered and are deposited on the holding, on a threshing-floor, or place for treading out grain or the like (whether in the fields or within a homestead) or in a storehouse.

Provided that an application shall not be made under this section—

(*1*) by a proprietor or manager as defined under the Bengal Land Registration Act, 1876, or a

VII (B. C.) of 1876.

## *Bengal Tenancy Bill.*

### (*Chapter XIII.—Distraint. Secs. 167—172.*)

mortgagee of such a proprietor or manager, unless his name and the extent of his interest in the land in respect of which the arrear is due have been registered under the provisions of that Act; or

(2) for the recovery of any sum in excess of the rent payable for the holding in the preceding agricultural year, unless that sum is payable under a written contract or in consequence of a proceeding under this Act or an enactment hereby repealed; or

[B. B., ss. 71, 75.] (3) in respect of the produce of any part of the holding which the tenant has sublet with the written consent of the landlord.

[B. B., ss. 74-5.] **167.** (1) Every application under section 166 shall specify—

Form of application and fee payable.

(a) the holding in respect of which the arrear is claimed, and the boundaries thereof, or such other particulars as may suffice for its identification;

(b) the name of the tenant;

(c) the period in respect of which the arrear is claimed;

(d) the amount of the arrear, with the interest, if any, claimed thereon, and, when an amount in excess of the rent payable by the tenant in the last preceding agricultural year is claimed, the contract, or proceeding as the case may be, under which that amount is payable;

(e) the nature and approximate value of the produce to be distrained; and

(f) the place where it is to be found, or such other particulars as may suffice for its identification.

(2) Every such application shall be liable to the court-fee which would be payable in a suit instituted for the recovery of the arrear therein claimed.

(3) Every such application shall be signed and verified in the manner prescribed by the Code of Civil Procedure for the signing and verification of plaints; and, if the application so verified contains any averment which the person making the verification knows or believes to be false, or does not know or believe to be true, that person shall be subject to punishment according to the provisions of the law for the time being in force for the punishment of giving or fabricating false evidence.

[B. B., ss. 105 108.] **168.** (1) The applicant shall, at the time of filing an application under section 166, or as soon after as the Court permits, file in Court such documentary evidence (if any) as he may consider necessary for the purposes of the application.

Procedure on receipt of application.

(2) The Court may examine the applicant, and may admit the application or reject it, or permit the applicant to furnish additional evidence in support of it.

[B.B., s. 10

**169.** If the application is admitted, the Court shall depute an officer to distrain the produce specified therein, or such portion of that produce as it thinks fit; and the officer shall proceed to the place where the produce is, and distrain the produce by taking charge of it himself or placing some other person in charge of it in his behalf, and publishing a notification of the distraint in accordance with rules to that effect to be made by the High Court:

Procedure if application is admitted.

[D. § 111.] Provided that produce, which from its nature does not admit of being stored, shall not be distrained under this section at any time less than twenty days before the time when it would be fit for reaping or gathering.

[B.B., s. 10

**170.** (1) The distraining officer shall, at the time of making the distraint, serve on the defaulter a written demand for the arrear due, and the costs incurred in making the distraint, together with an account exhibiting the grounds on which the distraint is made.

Service of demand and account.

(2) Where the distraining officer has reason to believe that a person other than the defaulter is the owner of the property distrained, he shall serve copies of the demand and account on that person likewise.

(3) The demand and account shall, if practicable, be served personally; but if a person on whom they are to be served absconds or conceals himself, or cannot otherwise be found, the officer shall affix copies of the demand and account on the outer door of the house in which he usually resides.

[B. B., ss. 1 and 110.] **171.** (1) A distraint under this chapter shall not prevent any person from reaping, gathering or storing any produce, or doing any other act necessary for its due preservation.

Right to reap, &c., produce.

(2) In default of the person entitled to do so, the distraining officer shall cause any standing crops or ungathered products distrained to be reaped or gathered when ripe, and shall store the same in such granaries or other places as are commonly used for the purpose, or in some other convenient place in the neighbourhood.

(3) In either case the distrained property shall be placed in the charge of the distraining officer, or of some other person appointed by him in this behalf.

[B.B., s. 11

**172.** (1) Unless the demand, with all costs of the application for distraint, be immediately satisfied, an officer distraining property

Sale proclamation to be issued unless demand is satisfied.

## *Bengal Tenancy Bill.*

### (*Chapter XIII.—Distraint. Secs. 173—182.*)

under section 169 shall issue a proclamation specifying the particulars of the property distrained and demand for which it is distrained, and notifying that he will, at a place and on a specified day, not being less than three or more than seven days after the time of making the distraint, sell the distrained property by public auction.

(2) The proclamation shall be stuck up on a conspicuous place in the village in which the land is situate for which the arrears of rent are claimed.

[B. B., s. 114.] **173.** The sale shall be held at the place where the distrained property is, or at the nearest place of public resort, if the distraining officer is of opinion that it is likely to sell there to better advantage.

Place of sale.

[D. s. III.] **174.** Crops or products which from their nature do not admit of being stored may be sold before they are reaped or gathered, and the purchaser shall be entitled to enter upon the land by himself, or by any person appointed by him in this behalf, and do all that is necessary for the purpose of tending and reaping or gathering them.

Power to sell produce before it is reaped or gathered.

[B. B., s. 115.] **175.** The property shall be sold by public auction in one or more lots, as the officer holding the sale may think advisable; and if the demand, with the costs of distraint and sale, is satisfied by the sale of a portion of the property, the distraint shall be immediately withdrawn with respect to the remainder.

Manner of sale.

[B.B., s. 116.] **176.** If, on the property being put up for sale, a fair price (in the estimation of the officer holding the sale) is not offered for it, and if the owner of the property, or a person authorised to act in his behalf, applies to have the sale postponed till the next day or (if a market be held at the place of sale) the next market-day, the sale shall be postponed until such day, and shall be then completed, whatever price may be offered for the property.

Postponement of sale.

[B.B., s. 117.] **177.** The price of every lot shall be paid in ready money at the time of sale, or as soon thereafter as the officer holding the sale thinks necessary, and in default of such payment the property shall be put up again and sold.

Payment of purchase-money.

[B.B., s. 118.] **178.** When the purchase-money has been paid in full, the officer holding the sale shall give the purchaser a certificate describing the property purchased by him and the price paid.

Certificate to be given to purchaser.

[B. B., s. 119.] **179.** (1) From the proceeds of every sale of distrained property under this chapter, the officer holding the sale shall pay to the applicant for distraint the expenses incurred by him on account of the distraint, calculated on a scale of charges prescribed by rules to be made by the Board of Revenue in this behalf.

Proceeds of sale how to be applied.

(2) The remainder shall be applied to the discharge of the arrear for which the distress was made, with interest thereon up to the day of sale, and the surplus (if any) shall be paid to the person whose property has been sold.

[B. B., s. 120.] **180.** Officers holding sales of property under this Act, and all persons employed by, or subordinate to, such officers, are prohibited from purchasing, either directly or indirectly, any property sold by such officers.

Certain officers may not purchase.

[B. B., ss. 121, 122 & 123.] **181.** (1) If at any time after a distraint has been made under this chapter, and before the sale of the distrained property, the defaulter, or the owner of the distrained property where he is not the defaulter, deposits in the Court issuing the order of distraint, or in the hands of the distraining officer, the amount specified in the demand served under section 170, together with all costs which may have been incurred after the service of the demand, the Court or officer, as the case may be, shall grant a receipt for the same and the distraint shall forthwith be withdrawn.

Procedure where demand is paid before the sale.

(2) When the distraining officer receives the deposit, he shall forthwith pay the same into the Court.

(3) A receipt granted under this section to an owner of distrained property not being the defaulter shall afford a full protection to him against any subsequent claim for the arrears of rent on account of which the distraint was made.

(4) After the expiration of one month from the date of a deposit being made under this section, the Court shall pay over the same to the applicant for distraint, unless in the meanwhile the owner of the property distrained has instituted a suit against the applicant contesting the legality of the distraint and claiming compensation in respect of the same.

[B.B., s. 124.] **182.** (1) When an inferior tenant, on his property being lawfully distrained under this chapter for the default of a superior tenant, makes any payment under section 181, he shall be entitled to deduct the amount of that payment from any rent payable by him to his immediate landlord, and, if that landlord is not the defaulter, he shall in like manner be entitled to deduct the amount so deducted from any rent payable by him to his immediate landlord and so on until the defaulter is reached.

Amount paid by under-tenant for his lessor may be deducted from rent.

(2) Nothing in this section shall affect the right of an inferior tenant making a payment under section 181 to institute a suit for the recovery from

## *Bengal Tenancy Bill.*

## (*Chapter XIII.—Distraint. Secs. 183—187*) *and* (*Chapter XIV.—Procedure in Suits between Landlord and Tenant. Secs. 188—192.*)

the defaulter of any portion of the amount paid which he has not deducted under this section.

[B.B., s. 126.] **183.** When land is sublet, and any conflict arises under this chapter between the rights of a superior and of an inferior landlord who distrain the same property, the right of the superior landlord shall prevail.

Conflict between rights of superior and inferior landlords.

**184.** When any conflict arises between an order for distraint issued under this chapter and an order issued by a Civil Court for the attachment or sale of the property which is the subject of the distraint, the order for distraint shall prevail, but, if the property is sold under that order, the surplus proceeds of the sale shall not be paid to the owner of the property under section 179 without the sanction of the Court by which the order of attachment or sale was issued.

Distraint of property which is under attachment.

[B. B., ss. 91, 122.] **185.** Any person who, otherwise than in accordance with this Act or some other enactment for the time being in force, distrains or attempts to distrain the produce of a tenant's holding, or prevents or attempts to prevent any person from reaping, gathering, storing, removing or otherwise dealing with any produce of the holding, shall be deemed to have committed criminal trespass within the meaning of the Indian Penal Code.

Penalty for illegal distraint.

XLV of 1860.

**186.** When any offence punishable under section 185 is committed for the benefit of, or in behalf of, any person owning or claiming any interest in the land in respect of which the offence is committed, or having or claiming any interest in a dispute which has led to the commission of the offence, or when any person has accepted or derived any benefit from the commission of any such offence, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to two hundred rupees, or with both, if, having reason to believe that the offence was likely to be committed, he has not used all lawful means in his power to prevent its commission.

Persons benefiting, &c., by offences under section 185 liable to punishment.

[B. B., s. 127.] **187.** (*1*) The Local Government may, by an order published in the official Gazette, suspend the provisions of sections 166 to 184 (both inclusive) in any local area for such time as it thinks proper.

Power to suspend provisions of sections 166 to 184.

(*2*) So long as an order under this section continues in force, in respect of any local area, no Court shall receive an application for distraint for arrears of rent due on lands situate within that local area.

## CHAPTER XIV.

### SPECIAL RULES OF PROCEDURE APPLICABLE TO SUITS BETWEEN LANDLORD AND TENANT.

*A.—Rules applicable to suits between landlord and tenant generally.*

[D. § 16 C. B., s. B. B., s. XIV of

**188.** The cause of action in all suits between landlord and tenant as such shall, for the purposes of the Code of Civil Procedure, be deemed to have arisen within the local limits of the jurisdiction of the Civil Court which would have jurisdiction to entertain a suit for the recovery of the land in respect of which the relation of landlord and tenant exists between the parties.

Place of suing.

[D. § 16 C. B., s. B. B., s. 167(*a*).]

**189.** Every náib or gumáshta of a landlord empowered in this behalf by a written authority under the hand of the landlord shall, for the purposes of every such suit, be deemed to be the recognized agent of the landlord within the meaning of the Code of Civil Procedure, notwithstanding that the landlord may reside within the local limits of the jurisdiction of the Court in which the suit is to be instituted or is pending.

Náibs or gumáshtas to be authorised agents.

[D. § 17 C. B., s. B. B., s. XIV o

**190.** The particulars referred to in section 58 of the Code of Civil Procedure shall, in the case of such suits, instead of being entered in the register of civil suits prescribed by that section, be entered in a special register to be kept by each Civil Court, in such form as the Local Government may from time to time prescribe in this behalf.

Special register of suits.

*B.—Rules applicable to particular classes of suits between landlord and tenant.*

[C. B., s. B. B., s. XIV of

**191.** Sections 121 to 127 (both inclusive), 129, 194 to 197 (both inclusive), 305, and 320 to 325C (both inclusive) of the Code of Civil Procedure shall not apply in any suits of the following classes between landlord and tenant as such, namely :—

Sections 121 to 127, 129, 194 to 197, 305, and 320 to 325C of Code not to apply in suits for possession, rent or damages.

(*a*) suits for the recovery of rent :

(*b*) suits for penalties claimable under any provision of this Act :

(*c*) suits to recover possession of the land.

[D. §§ 1 & 18 C. B., s. B. B., s. XIV of

**192.** The plaint in every suit of a description mentioned in section 191 shall contain, in addition to the particulars specified in section 50 of the Code of Civil Procedure, a statement of the extent, situation, designation and boundaries of the land held by the tenant; or, where the plaintiff is unable to give the boundaries, in lieu thereof a description sufficient for identification.

Particulars to be specified in plaint in such suits.

## *Bengal Tenancy Bill.*

### (*Chapter XIV.—Procedure in Suits between Landlord and Tenant. Secs. 193—202.*)

[§ 192. s. 173. s. 195.]

**193.** The summons shall in every such suit be for the final disposal of the suit, unless the Court is of opinion that the summons should be for the settlement of issues only.

Summons in such suits to be for final disposal.

**194.** The service of a summons on a defendant in any such suit may, if the Court so directs, be effected by forwarding the summons by post in a letter addressed to the defendant and registered under Part III of the Indian Post Office Act, 1866.

Service of summons in such suits by registered letter.

[XIV of 1866. § 108. B., s. 184. B., s. 206.]

**195.** A written statement shall not be filed in any such suit without the leave of the Court.

Written statements not to be filed in such suits without leave.

[B. B., s. 214.]

**196.** The rules for recording the evidence of witnesses prescribed by section 189 of the Code of Civil Procedure shall apply in all such suits whether an appeal is allowed in them or not.

Mode of recording evidence in such suits.

[XIV of 1882.

[§§ 177 & 179. B., ss. 155 & 157. B., ss. 171 & 173.]

**197.** When a decree, not being a decree of the description referred to in section 111, sub-section (*2*), is passed in any such suit, the Court may, when passing the decree, order on the oral application of the decree-holder the execution thereof.

Execution in such suits on oral application.

**198.** An appeal shall not lie from any decree or order passed, whether in the first instance or on appeal in any suit instituted by a landlord, for arrears or by a tenant for a penalty claimable under any provision of this Act where—

No appeal in certain suits for arrears and penalties.

(*a*) the decree or order is passed by a District Judge, Additional Judge or Subordinate Judge, and the amount claimed in the suit does not exceed one hundred rupees, or

(*b*) the decree or order is passed by any other judicial officer specially empowered by the Local Government to exercise final jurisdiction under this section, and the amount claimed in the suit does not exceed fifty rupees;

unless in either case the decree or order has decided a question relating to title to land or to some interest in land as between parties having conflicting claims thereto, or a question of a right to enhance or vary the rent of a tenant:

Provided that the District Judge may call for the record of any case in which a judicial officer as aforesaid has passed a decree or order to which this section applies, and, if he is satisfied that a failure of justice has been caused by a substantial error, defect or irregularity in the proceedings or in the decision, may pass such order as he thinks fit.

**199.** (*1*) When, in a suit for an arrear of rent instituted against a tenant, the defendant admits that the arrear is due by him, but pleads that it is due to a person other than the plaintiff, the Court may, if it thinks fit, refuse to take cognizance of the plea until the defendant has paid the amount of the arrear into Court.

Defendant in suit for arrear admitting arrear is due, but disputing plaintiff's title, to pay into Court.

(*2*) When the amount of an arrear has been paid into Court under this section, the Court shall give the defendant a receipt for the same, and the receipt so given shall operate as an acquittance for the arrear, in the same manner and to the same extent as if it had been paid to the person entitled to it.

(*3*) The Court shall forward the amount paid in to the officer to whom an application to deposit the rent would be made under section 103 and it shall thereupon be deemed to be a deposit received under clause (*c*) of that section.

**200.** Notwithstanding anything contained in section 232 of the Code of Civil Procedure, an application for the execution of a decree for arrears obtained by a landlord shall not be made by an assignee of the decree unless the landlord's interest in the land has become, and is vested in him.

When assignee of decree for arrears may apply for execution.

[C. B., s. 188. B. B., s. 220.]

**201.** (*1*) A decree for enhancement of rent under this Act, if passed in a suit instituted in the first eight months of an agricultural year, shall not take effect before the commencement of the agricultural year next following, and, if passed in a suit instituted in the last four months of the agricultural year, shall not take effect before the commencement of the agricultural year next but one following.

Date from which decree for enhancement takes effect.

[C. B., ss. 96 & 98 (*b*). B. B., ss. 128 & 130, cl. (*b*).]

(*2*) Subject to the provisions of sub-section (*1*), it shall be in the discretion of the Court to fix the date from which any such decree shall take effect.

**202.** (*1*) A suit for the ejectment of a tenant, on the ground that he has used the land in a manner which renders it unfit for the purposes of the tenancy, or that he has broken a condition on breach of which he is, under the terms of a contract between him and the landlord, liable to ejectment, shall not be entertained unless the landlord has requested the tenant, where the damage or breach is capable of remedy, to remedy the same, and, in any case, to pay reasonable compensation for the damage or breach, and the tenant has failed to comply within a reasonable time with that request.

Relief against forfeitures.

[B. B., ss. 21 (*e*), 31, 44 & 45 Vic., C. 41, s. 14.]

(*2*) A decree passed in favour of a landlord in any such suit shall declare the amount of compensation which would reasonably be payable to the plaintiff for the damage or breach, and whether, in

## *Bengal Tenancy Bill.*

### *(Chapter XIV.—Procedure in Suits between Landlord and Tenant. Secs. 203—207) and (Chapter XV.—Sale of Transferable Holdings in Execution, &c. Sec. 208.)*

the opinion of the Court, the damage or breach is capable of remedy, and shall fix a period during which it shall be open to the defendant to pay that amount to the plaintiff, and, where the damage or breach is declared to be capable of remedy, to remedy the same.

(3) The Court may from time to time extend a period fixed by it under sub-section (2) for remedying a damage or breach.

(4) If the defendant, within the period or extended period (as the case may be) fixed by the Court under this section, pays the compensation mentioned in the decree, and, where the damage or breach is declared by the Court to be capable of remedy, remedies the damage or breach to the satisfaction of the Court, the decree shall not be executed.

[C. B. s. 80, B. B., s. 73.]

Rights of ejected raiyats in respect of crops and land prepared for sowing.

**203.** The following rules shall be applicable in the case of every raiyat ejected from a holding:—

(*a*) When the raiyat has, before the date of his ejectment, sown or planted crops in any land comprised in the holding, he shall be entitled, at the option of the landlord, either to retain possession of that land and to use it for the purpose of tending and gathering in the crops, or to receive from the landlord the value of the crops as estimated by the Court executing the decree for ejectment.

(*b*) When the raiyat has, before the date of his ejectment, prepared for sowing any land comprised in his holding, but has not sown or planted crops in that land, he shall be entitled to receive from the landlord the value of the labour and capital expended by him in so preparing the land, as estimated by the Court executing the decree for ejectment, together with reasonable interest on that value:

Provided that a raiyat shall not be entitled to retain possession of any land or receive any sum in respect thereof under this section when, after the commencement of proceedings by the landlord for his ejectment, he has cultivated or prepared the land contrary to local usage.

[C. B., s. 80, B. B., s. 73.]

Payment by raiyat for occupation of land under section 203.

**204.** When a landlord elects, under section 203, clause (*a*), to allow a raiyat to retain possession of any land for the purpose specified in that clause, the raiyat shall pay to the landlord, for the use and occupation of the land during the period for which he is allowed to retain possession of the same, such rent as the Court executing the decree for ejectment may deem reasonable.

All claims between landlord and tenant to be determined in ejectment-proceedings.

**205.** In all suits and proceedings for ejectment, the Court shall inquire into and determine all claims under this Act by the landlord against the tenant as such, or by the tenant against the landlord as such.

Procedure when, on ejectment, money is due by the landlord to the tenant.

**206.** (*1*) When it appears to a Court making an inquiry under section 205 that the amount payable by the landlord to the tenant as such exceeds the amount payable by the tenant to the landlord as such, the decree or order for ejectment (if any) shall, unless the landlord and tenant come to an arrangement regarding the payment of the excess sum, specify a time within which it must be paid into Court.

(*2*) If it is so paid within the time specified, the Court shall eject the tenant; and

if it is not so paid, the Court shall refuse to eject the tenant.

*C.—Suit to determine status, &c., of tenant.*

[C. B., s. B. B., s.

Suit to determine status, &c., of tenant.

**207.** Every landlord may institute a suit against his tenant, and every tenant against his landlord, for the determination of all or any of the following matters namely:—

(*a*) the land held by the tenant;

(*b*) the class to which he belongs, that is to say, whether he is a tenure-holder, occupancy-raiyat, tenant of a basti holding, ordinary raiyat, or under-raiyat, and, if he is a tenure-holder, whether his rent is liable to enhancement; and

(*c*) the rent payable by him at the time the suit is instituted.

## CHAPTER XV.

### OF THE SALE OF TRANSFERABLE HOLDINGS IN EXECUTION OF DECREES FOR ARREARS DUE ON THEM.

[D. §§ 11 and 15 C. B., ss. Expl., B. B., ss. Expl., &

Definitions.

**208.** (*1*) "Incumbrance" in this chapter, used with reference to a tenancy, means any lien, sub-tenancy, easement or other right or interest created upon the holding by the tenant in limitation of his own interest therein, except—

(*a*) a tenure existing from the time of the permanent settlement;

(*b*) a tenure recognized by the settlement-proceedings of any current temporary settlement as a tenure at a rent fixed for the period of that settlement;

(*c*) a tenure of land whereon dwelling-houses, manufactories or other permanent buildings have been erected, or permanent gardens, plantations, tanks, canals,

## *Bengal Tenancy Bill.*

### (*Chapter XV.—Sale of Transferable Holdings in Execution, &c. Secs. 209—214.*)

places of worship or burning or burying grounds have been made;

(*d*) a right of occupancy;

(*e*) a right conferred on an occupancy-raiyat to hold at a rent which was a fair and reasonable rent at the time the right was conferred; and

(*f*) any right or interest which the landlord has expressly and in writing given the tenant permission to create.

s. 206, s. 228. (2) "Registered incumbrance" in this chapter, used with reference to a tenancy on which an arrear of rent is due, means any incumbrance which the defaulter or his predecessor in interest has created by an instrument registered under the Registration Act for the time being in force, and of which, after it has been registered, a copy has been served on the landlord under section 223, not less than six months before the arrear became due.

s. 201, s. 223.] Application for sale of holding.

**209.** (1) When a decree has been passed for an arrear of rent due for a transferable holding, and the decree-holder applies under section 235 of the Code of Civil Procedure for the attachment and sale of the holding in execution of the decree, his application shall contain, in addition to the particulars specified in that section and section 237 of the said Code, a statement of the annual rent of the holding. of 1882.

(2) When the holding is a permanent tenure, there shall be filed with the application a copy of so much of the register kept under Chapter III as relates to the tenure.

152, s. 203, s. 225.] Proclamation announcing sale.

**210.** (1) When an order has been passed for the sale of a holding upon an application made under section 209, the proclamation made under section 287 of the Code of Civil Procedure shall, in addition to stating and specifying the particulars mentioned in that section, announce— of 1882.

(*a*) in the case of a tenure, that the tenure will first be put up to auction subject to the registered incumbrances and will be sold subject to those incumbrances if the sum bid is sufficient to liquidate the amount of the decree and costs, and that otherwise it will, if the decree-holder so desires, be sold on a subsequent day of which due notice will be given with power to annul all incumbrances; and

(*b*) in the case of an occupancy-holding, or bastu holding, that the holding will be sold with power to annul all incumbrances.

(2) The proclamation shall, besides being made in the manner prescribed by section 289 of the said Code, be published in such manner as the Local Government may, from time to time, direct in this behalf.

Sale of tenure subject to registered incumbrances and effect thereof.

**211.** (1) When a tenure has been advertised for sale under section 210, it shall be put up to auction, subject to registered incumbrances; and, if the bidding reaches a sum sufficient to liquidate the amount of the decree and costs, including the costs of sale, the tenure shall be sold subject to such incumbrances. [C. B., s. B. B., s. and Expl.]

(2) The purchaser at a sale under this section may, in manner provided by section 214, and not otherwise, annul any incumbrance upon the tenure not being a registered incumbrance.

Sale of tenure with power to avoid all incumbrances and effect thereof.

**212.** (1) If the bidding for a tenure put up to auction under section 211 does not reach a sum sufficient to liquidate the amount of the decree and costs as aforesaid, and if the decree-holder thereupon desires that the tenure be sold with power to avoid all incumbrances, the officer holding the sale shall adjourn the sale and make a fresh proclamation under section 289 of the Code of Civil Procedure, announcing that the tenure will be put up to auction and sold with power to avoid all incumbrances upon a future day specified therein, not less than fifteen or more than thirty days from the date of the postponement; and upon that day the tenure shall be put up to auction and sold with power to avoid all incumbrances. [C. B., s. 207(c) C. B., s. 229(c), XIV of 1882

(2) The purchaser at a sale under this section may, in manner provided by section 214, and not otherwise, annul any incumbrance on the tenure. [ § 155, C. B., s. 210 B. B., s. 232.

Sale of occupancy-holding with power to avoid all incumbrances and effect thereof.

**213.** (1) When an occupancy-holding or bastu holding has been advertized for sale under section 210 it shall be put up to auction and sold with power to avoid all incumbrances. [B. B., s. 22 (b)]

(2) The purchaser at a sale under this section may, in manner provided by section 214, and not otherwise, annul any incumbrance on the holding

Procedure for annulling incumbrances under the foregoing sections.

**214.** (1) A purchaser having power to annul an incumbrance under section 211, section 212, or section 213, and desiring to avoid the same, may within one year from the date on which he first has notice of the incumbrance, present to the Collector an application in writing, requesting him to serve on the incumbrancer a notice declaring that the incumbrance is annulled.

(2) Every such application must be accompanied by such fee for the service of the notice as the Board of Revenue may fix in this behalf.

(3) When an application for a service of a notice is made to the Collector in manner prescribed by this section, he shall cause the notice to be served in compliance therewith, and the incumbrance shall be deemed to be annulled from the date on which it is so served.

## *Bengal Tenancy Bill.*

### *(Chapter XV.—Sale of Transferable Holdings in Execution, &c. Secs. 215—223.)*

[D., s. 235

**215.** (*1*) The Local Government may, from time to time, by notification in the official Gazette, direct that occupancy-holdings in any local area put up for sale in execution of decrees for rent due on them shall, before being put up with power to avoid all incumbrances, be put up subject to registered incumbrances, and may by like notification rescind any such direction.

Power to direct that occupancy-holdings be dealt with under foregoing sections as tenures

(*2*) While any such direction remains in force in respect of any local area, all occupancy-holdings in that local area shall, for the purposes of sale under the foregoing sections of this chapter, be treated in all respects as if they were tenures.

[D. § 216 C. B., s. 211. B. B., s. 233.]

**216** (*1*) In disposing of the proceeds of a sale under this chapter, the following rules, instead of those prescribed by section 295 of the Code of Civil Procedure, shall be observed, that is to say :—

Rules for disposal of the sale-proceeds.

XIV of 1882

(*a*) There shall first be paid to the decree-holder the costs incurred by him in bringing the holding to sale

(*b*) There shall, in the next place, be paid to the decree-holder the amount due to him under the decree in execution of which the sale was made

(*c*) If there remains a balance after these sums have been paid, there shall be paid to the decree-holder therefrom any rent which may have fallen due to him in respect of the holding between the institution of the suit and the date of the sale, but not more than six months after the date of the final decree

(*d*) The balance (if any remaining after the payment of the rent mentioned in clause (*c*) shall, upon the expiration of two months from the confirmation of the sale, be paid to the judgment-debtor upon his application.

(*2*) If the judgment-debtor disputes the decree-holder's right to receive any sum on account of rent under clause (*c*), the Court shall determine the dispute, and the determination shall have the force of a decree.

[D. § 153 C. B., s. 204 B. B., s. 226.] XIV of 1882.

**217** (*1*) Sections 278 to 283 (both inclusive) of the Code of Civil Procedure shall not apply to a holding attached in execution of a decree for arrears due thereon.

Holding to be released from attachment only on payment into Court of amount of decree with costs, or on confession of satisfaction by decree-holder.

(*2*) When an order for the sale of a holding in execution of such a decree has been made, the holding shall not be released from attachment unless, before it is knocked down to the auction-purchaser, the amount of the decree, including the costs decreed, together with the costs incurred in order to the sale, is paid into Court, or the decree-holder makes an application for the release of the holding on the ground that the decree has been satisfied out of Court.

(*3*) Nothing in this section shall affect the right of any person to institute a suit to set aside the sale of a holding under this chapter.

[D. §§ 35, 154. C. B., s. 205. B. B., s. 232.

**218** (*1*) When any person having, in a holding advertized for sale under this chapter, an interest which would be voidable upon such sale, pays into Court the amount requisite to prevent the sale,

Amount paid into Court to prevent sale to be in certain cases a mortgage-debt on the holding.

(*a*) the amount so paid by him shall be deemed to be a debt bearing interest at twelve per cent per annum and secured by a mortgage of the holding to him ;

(*b*) his mortgage shall, subject to the provisions of section 25, be deemed to be the first charge on the holding ; and

(*c*) he shall be entitled to take possession of the holding as mortgagee, and retain possession of it as such until the debt, with the interest due thereon, has been discharged.

(*2*) Nothing in this section shall affect any other remedy to which any such person would be entitled.

[D. §§ 35, 154. C. B., s. 205. B. B., s. 232.

**219.** When a holding is advertised for sale under this chapter in execution of a decree against a superior tenant defaulting, and an inferior tenant, whose interest would be voidable upon the sale, pays money into Court in order to prevent the sale, he may, in addition to any other remedy provided for him by law, deduct the whole or any portion of the amount so paid from any rent payable by him to his immediate landlord ; and, if that landlord is not the defaulter, he may in like manner deduct the amount so deducted from any rent payable by him to his immediate landlord, and so on until the defaulter is reached.

Inferior tenant paying into Court may deduct from rent

XIV of 1882 [C. B., s. 206 (1) B. B., s. 230 (1).]

**220.** (*1*) Notwithstanding anything contained in section 294 of the Code of Civil Procedure, the holder of a decree in execution of which a holding is sold under this chapter may without the permission of the Court bid for or purchase the holding.

Decree-holder may bid at sale, judgment-debtor may not.

(*2*) The judgment-debtor shall not bid for or purchase a holding so sold.

XIV of 1882

**221.** Sections 313 and 326 of the Code of Civil Procedure shall not apply to any sale under this chapter.

Operation of sections 313 and 326 of Code of Civil Procedure excluded.

III of 1877

**222.** Notwithstanding anything contained in Part IV of the Indian Registration Act, 1877, an instrument creating an incumbrance upon any transferable holding which has been executed before the commencement of this Act, and is not required by section 17 of the said Registration Act to be registered, shall be accepted for registration under that Act if it is presented for that purpose to the proper officer within one year from the commencement of this Act.

Registration of certain instruments creating incumbrances.

[C. B., s. 208, Expl. B. B., s. 238, Expl.]

**223.** Every officer who has, whether before or after the passing of this Act, registered an instrument executed by a tenant of a transferable holding and creating an incumbrance on the holding, shall, at the request

Registration-officers to serve copies of instruments creating incumbrances

of the tenant or of the person in whose favour the incumbrance is created, and on payment by him of such fee as the Local Government may fix in this behalf, cause a copy of the instrument to be served on the landlord in the manner prescribed in Part VII of the Indian Registration Act, 1877, for the service of summons.

III of 1877.

## CHAPTER XVI.

### OF LIMITATION.

[D. §§ 77, 78 & 79. C. R., s. 92 B. B., s. 98]

**224.** The suits, appeals and applications specified in Schedule IV annexed to this Act shall be instituted and made within the time prescribed in that schedule for them respectively; and every such suit or appeal instituted, and application made, after the period of limitation so prescribed, shall be dismissed, although limitation has not been pleaded.

Limitation in suits, appeals and applications in Schedule IV.

XV of 1877, [C. R., s 93. B. B., s. 99.]

**225.** Sections 7, 8 and 9 of the Indian Limitation Act, 1877, shall not apply to the suits and applications mentioned in section 224.

Portions of the Indian Limitation Act not applicable to such suits, &c.

## CHAPTER XVII.

### SUPPLEMENTARY.

**226.** Nothing in this Act shall confer a right to transfer or bequeath a service-tenure which, before the passing of this Act, was not capable of being transferred or bequeathed.

Saving as to service-tenures.

**227** The Local Government may, from time to time, by notification in the official Gazette, make rules consistent with this Act to regulate the procedure to be followed by Revenue-officers in the discharge of any duty imposed upon them by or under this Act, and may by such rules confer upon any such officer—

Power to make rules regarding procedure and powers of officers.

(*a*) any power exercised by a Civil Court in the trial of suits;

(*b*) power to enter upon any land, and to survey, demarcate and make a map of the same; and

(*c*) power to cut and thresh the crops on any land and weigh the produce, with a view to estimating the capabilities of the soil.

**228.** (*1*) Every authority having power to make rules under any section of this Act shall, before making the rules, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

Procedure for making, publication and confirmation of rules.

(*2*) The publication shall be made, in the case of rules made by the Local Government or High Court, in such manner as may in its opinion be sufficient for giving information to persons interested, and in the case of rules made by any other authority, in the prescribed manner.

(*3*) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(*4*) The authority shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(*5*) The publication in the official Gazette of a rule purporting to be made under this Act shall be conclusive evidence that it has been duly made.

**229.** Any appearance, application or act in, before, or to, any Court or other authority required or authorized by this Act to be made or done by a landlord may, unless the Court or authority otherwise directs, be made or done also by a naib or gumáshta of the landlord empowered in this behalf by a written authority under the hand of the landlord; and every notice required by this Act to be served on, or given to, a landlord shall, if served on, or given to, a náib or gumáshta of the landlord empowered as aforesaid to accept service of or receive the same, be as effectual for the purposes of this Act as if it had been served on, or given to, the landlord in person.

Náibs and gumáshtas of landlords.

**230.** The provisions of this Act applicable to suits for the recovery of arrears of rent shall, as far as may be, apply to suits for the recovery of anything payable or deliverable in respect of any rights of pasturage, forest-rights, rights over fisheries and the like.

[D. § 88. C. R., s. 3, B. B., s 3] "Rent" and "land."

Right s of pasturage, forest-rights, &c

## SCHEDULE I.

*(See Section 2.)*

### REPEAL OF ENACTMENTS.

*Regulations of the Bengal Code.*

| Number and year. | Subject of Regulation. | Extent of repeal. |
|---|---|---|
| VIII of 1793 | A Regulation for re enacting with modifications and amendments the rules for the Decennial Settlement of the Public Revenue payable from the lands of the zamindars, independent talukdars, and other actual proprietors of land in Bengal, Bihár, and Orissa, passed for those Provinces respectively on the 18th September, 1789, the 25th November, 1789, and the 10th February, 1790, and subsequent dates. | Sections 51, 52, 53, 54, 55, 64, and 65 |
| XII of 1805 | A Regulation for the settlement and collection of the Public Revenue in the zila of Cuttack, including the pargunas of Pattáspur, Kunnudichour, and Bagrae, at present included in the zila of Midnapur. | Section 7. |
| V of 1812 | A Regulation for amending some of the rules at present in force for the collection of the Land-revenue. | Sections 2, 3, 4, 26 and 27. |

## *Bengal Tenancy Bill.*

## (*Schedule I.—Repeal of Enactments*) *and* (*Schedule II.—Extract from Preamble to Regulation VIII of 1819.*)

### SCHEDULE I—*contd.*

| Number and year. | Subject of Regulation | Extent of repeal. |
|---|---|---|
| XVIII of 1812 . | A Regulation for explaining Section 2, Regulation V, 1812, and rescinding Sections 3 and 4, Regulation XLIV, 1793, and Sections 3 and 4, Regulation L, 1795, and enacting other rules in lieu thereof. | Preamble and Sections 2 and 3. |
| VIII of 1819 . | A Regulation to declare the validity of certain tenures, and to define the relative rights of zamíndárs and patní taluqdárs; also to establish a process for the sale of such taluqs in satisfaction of the zamíndár's demand of rent, and to expound and modify other parts of the system established for the collection of rents generally throughout Bengal. | The whole Regulation. |
| I of 1820 . | A Regulation for providing that all sales of certain taluqs, made answerable by sale for arrears of the zamíndár's rent, shall be conducted in the mode prescribed by Regulation VIII, 1819, for the sales therein described | The whole Regulation. |
| XI of 1825 . | A Regulation for declaring the rules to be observed in determining claims to lands gained by alluvion or by dereliction of a river or the sea | In Clause 1 of Section 4, from and including the words "nor if annexed to a subordinate tenure" to the end of the Clause. |

*Acts of the Bengal Council.*

### SCHEDULE II.

(*See Section 36.*)

*Extract from Preamble to Regulation VIII of 1819.*

"In the exercise of the privilege * * * conceded to zamíndárs under direct engagements with Government, there has been created a tenure which had its origin on the estates of the Rájá of Bardwán, but has since been extended to other zamíndárís; the character of which tenure is, that it is a taluq created by the zamíndár, to be held at a rent fixed in perpetuity, by the lessee and his heirs for ever; the tenant is called upon to furnish collateral security for the rent, and for his conduct generally, or he is excused from this obligation at the zamíndár's discretion; but even if the original tenant be excused, still, in case of sale for arrears, or other operation leading to the introduction of another tenant, such new incumbent has always in practice been liable to be so called upon at the option of the zamíndár.

## *Bengal Tenancy Bill.*
## *(Schedule III.—Summary Sale of Patní Tenures.)*

"By the terms also of the engagements interchanged, it is, amongst other stipulations, provided that, in case of an arrear occurring, the tenure may be brought to sale by the zamíndár, and if the sale do not yield a sufficient amount to make good the balance of rent at the time due, the remaining property of the defaulter shall be further answerable for the demand.

"These tenures have usually been denominated patní taluqs, and it has been a common practice of the holders of them to underlet on precisely similar terms to other persons who, on taking such leases, went by the name of darpatní taluqdárs: these, again, sometimes similarly underlet to be patnídárs; and the conditions of all the title-deeds vary in nothing material from the original engagements executed by the first holder."

---

### SCHEDULE III.

#### SUMMARY SALE OF PATNÍ TENURES.

*(See section 42.)*

*Extract from Regulation VIII of 1819, amended in accordance with subsequent enactments.*

8. *First*—Zamíndárs, that is, proprietors under direct engagements with the Government, shall be entitled to apply in the manner following for periodical sales of any tenures upon which the right of selling or bringing to sale for an arrear of rent may have been specially reserved by stipulation in the engagements interchanged on the creation of the tenure.

Zamíndárs allowed sales of tenures in which right to sell for arrears is reserved.

The exercise of this power shall not be confined to cases in which the stipulation for sale may have been unrestricted in regard to time, but shall apply equally to tenures held under engagements stipulating merely for a sale at the end of the year, in conformity with the practice heretofore allowed by the Regulations in force.

*Second.*—On the first day of Baisákh, that is, at the commencement of the following year from that of which the rent is due, the zamíndár shall present a petition to the Collector, containing a specification of any balances that may be due to him on account of the expired year, from all or any taluqdárs or other holders of an interest of the nature described in the preceding clause of this section.

First sale to be applied for on first Baisákh.

The same shall then be stuck up in some conspicuous part of the kachahrí, with a notice that if the amount claimed be not paid before the first of Jeth following, the tenures of the defaulters will on that day be sold by public sale in liquidation.

Should, however, the first of Jeth fall on a Sunday or holiday, the next subsequent day, not a holiday, shall be selected instead; a similar notice shall be stuck up at the sadr kachahrí of the zamíndár himself, and a copy or extract of such part of the notice as may apply to the individual case shall be by him sent to be similarly published at the kachahrí or at the principal town or village upon the land of the defaulter.

The zamíndár shall be exclusively answerable for the observance of the forms above prescribed, and the notice required to be sent into the mufassal shall be served by a single peon, who shall bring back the receipt of the defaulter, or of his manager, for the same; or in the event of inability to procure this, the signatures of three substantial persons residing in the neighbourhood, in attestation of the notice having been brought and published on the spot.

If it shall appear from the tenor of the receipt or attestation in question that the notice has been published at any time previous to the fifteenth of the month of Baisákh, it shall be a sufficient warrant for the sale to proceed upon the day appointed.

In case the people of the village should object or refuse to sign their names in attestation, the peon shall go to the kachahrí of the nearest munsif, or if there should be no munsif, to the nearest thaná, and there make voluntary oath of the same having been duly published; certificate to which effect shall be signed and sealed by the said officers and delivered to the peon.

*Third*—On the first day of Kártik in the middle of the year, the zamíndár shall be at liberty to present a similar petition, with a statement of any balances that may be due on account of the rent of the current year, up to the end of the month of Asin, and to cause similar publication to be made of a sale of the tenures of defaulters, to take place on the first of Aghan, unless the whole of the advertised balance shall be paid before the date in question, or so much of it as shall reduce the arrear, including any intermediate demand for the month of Kartik, to less than one-fourth or a four-anna proportion of the total demand of the zamíndár, according to the kistbandí, calculated from the commencement of the year to the last day of Kartik.

Mid year sale to be applied for on first of Kártik.

9. All sales of saleable tenures applied for under the rules of this Regulation shall be made in public kachahrí; the land shall be sold to the highest bidder, and every one not the actual defaulter shall be free to bid, not excepting the person in satisfaction of whose demand the sale may be made, nor the under-tenants of the defaulter; fifteen per cent. of the purchase-money shall be paid immediately the lot is knocked down, and the officer conducting the sale shall be competent to refuse to accept a bid, or to knock down a lot to any bidder, unless he has assurance to his satisfaction that the amount

Sales how conducted.

## *Bengal Tenancy Bill.*

### (*Schedule III.—Summary sale of Patní Tenures.*)

required to be deposited is in hand for the purpose, or will be produced within two hours.

If the fifteen per cent. be not paid in cash, * * * * * * * * * * * within two hours of the sale, or an equivalent amount in Government securities be not lodged, the lot shall be resold on the same day, and if the remainder of the purchase-money be not paid by noon of the eighth day, notice shall be given of resale on the following day, that is, on the ninth from the first sale, by proclaiming the same by beat of drum through the bázár of the sadr station of the zila, after which the lot shall be resold at the appointed time at the risk of the first purchaser, who shall forfeit the advance of fifteen per cent. already made, and be further answerable for any sum in which the proceeds of the second sale may fall short of the antecedent one; such deficiency to be levied by the process for the execution of decrees of the Civil Courts.

The forfeited deposit shall be applied to defray the expenses of the sale, and the surplus shall be credited to Government.

Forms to be observed in selling.

10. At the time of the sale, the notice previously stuck up in the kachahrí shall be taken down, and the lots be called up successively in the order in which they may be found in that notice.

A person shall attend on the part of the zamíndár, with a particular statement of the payments made up to the day of sale, on account of the balance of each advertised lot, together with the receipt for, or certificate of, the notice directed to be published in the mufassal, nor shall any lot be put up to sale until the statement produced shall have been inspected, and the existence of a balance for the year ascertained therefrom, nor until the receipt for the notice shall have been read; the observance of which forms shall be recorded in a separate rubakárí to be held upon each lot sold.

If the sale be of the description provided for in the third clause of section 8 of this Regulation, the kistbandí of the defaulter shall likewise be produced, in order that it may be seen that the balance remaining unpaid exceeds a four-anna proportion of the demand up to the date of sale; nor shall the sale take place unless this be ascertained.

The zamíndár shall be exclusively responsible for the correctness and authenticity of the papers to be thus exhibited, nor shall the public officer making the sale be answerable in any respect, except for its fairness and publicity, and for the observance of the rules prescribed for his guidance in this Regulation.

Tenure to be sold free of incumbrance by act of defaulter.

11. *First.*—It is hereby declared, that any taluq or saleable tenure that may be disposed of at a public sale, under the rules of this Regulation, for arrears of rent due on account of it, is sold free of all incumbrances that may have accrued upon it by act of the defaulting proprietor, his representatives or assignees, unless the right of making such incumbrances shall have been expressly vested in the holder by a stipulation to that effect in the written engagements under which the said taluq may have been held.

No transfer by sale, gift or otherwise, no mortgage or other limited assignment, shall be permitted to bar the indefeasible right of the zamíndár to hold the tenure of his creation answerable, in the state in which he created it, for the rent which is in fact his reserved property in the tenure, except the transfer or assignment should have been made with a condition to that effect, under express authority obtained from such zamíndár.

No under-lease to stand after sale.

*Second.*—In like manner, on sale of a taluq for arrears, all leases originating with the holder of the former tenure, if creative of a middle interest between the resident cultivators and the late proprietor, must be considered to be cancelled, except the authority to grant them should have been specially transferred; the possessors of such interests must consequently lose the right to hold possession of the land and to collect the rents of the raiyats; this having been enjoyed merely in consequence of the defaulter's assignment of a certain portion of his own interest, the whole of which was liable for the rent.

* * * * *

Reason for allowing under-tenants means of staying sale.

13. *First.*—With reference to the injury that may be brought upon the holder of a taluq of the second degree by the operation of the preceding rules, in case the proprietor of the superior tenure purposely withholds the rent due from himself to the zamíndár, after having realised his own dues from the inferior tenantry, it is deemed necessary to allow such taluqdárs the means of saving their tenures from the ruin that must attend such a sale; and the following rules have accordingly been enacted for this purpose.

How under-tenants may stay sale.

*Second.*—Whenever the tenure of a taluqdár of the first degree may be advertised for sale in the manner required by the second and third clauses of section 8 of this Regulation, for arrears of rent due to the zamíndár, the taluqdárs of the second degree, or any number of them, shall be entitled to stay the final sale, by paying into the Collectorate the amount of balance that may be declared due by the person attending on the part of the zamíndár on the day appointed for sale; in like manner they shall be entitled to lodge money antecedently, for the purpose of eventually answering any demand that may remain due on the day fixed for the sale, and should the amount lodged be sufficient, the sale shall not proceed, but after

## *Bengal Tenancy Bill.*

### (*Schedule III.—Summary sale of Patní Tenures.*)

making good to the zamíndár the amount of his demand, any excess shall be paid back to the person or persons who may have lodged it.

Procedure in case of amount lodged being rent due from under tenant,

*Third.*—If the amount so lodged shall be rent due by the inferior taluqdár to the holder of the advertised tenure, the same shall be stated at the time of making the deposit, and the amount shall be carried to the account of the tenant or tenants lodging it, and be deducted from any claim of rent that may at the time be pending, or be thereafter brought forward against him or them by the proprietor of the advertised tenure, on account of the year or months for which the notice of sale may have been published.

and in case of amount lodged being advanced from private funds

*Fourth.*—If the person or persons making such a deposit, in order to stay the sale of the superior tenure, shall have already paid the whole of the rent due from himself or themselves, so that the amount lodged is an advance from private funds, and not a disbursement on account of the said rent, such deposit shall not be carried to credit in or set against, future demands for rent, but shall be considered as a loan made to the proprietor of the tenure preserved from sale by such means, and the taluq so preserved shall be the security to the person or persons making the advance, who shall be considered to have a lien thereupon, in the same manner as if the loan had been made upon mortgage, and he or they shall be entitled, on applying for the same, to obtain immediate possession of the tenure of the defaulter, in order to recover the amount so advanced from any profits belonging thereto.

If the defaulter shall desire to recover his tenure from the hands of the person or persons who, by making the advance, may have acquired such an interest therein, and entered on possession in consequence, he shall not be entitled to do so, except upon repayment of the entire sum advanced, with interest at the rate of twelve per cent per annum up to the date of possession having been given as above, or upon exhibiting proof, in a regular suit to be instituted for the purpose, that the full amount so advanced, with interest, has been realised from the usufruct of the tenure.

Sale not to be stayed unless arrear claim be lodged.

14 *First.*—Should the balance claimed by a zamíndár on account of the rent of any under-tenure remain unpaid upon the day fixed for the sale of the tenure, the sale shall be made without reserve, in the manner provided for in sections 9 and 10 of this Regulation, nor shall it be stayed or postponed on any account, unless the amount of the demand be lodged.

But suit to lie for its reversal

It shall, however, be competent to any party desirous of contesting the right of the zamíndár to make the sale, whether on the ground of there having been no balance due, or on any other ground, to sue the zamíndár for the reversal of the same, and upon establishing a sufficient plea, to obtain a decree with full costs and damages.

The purchaser shall be made a party in such suits, and upon decree passing for reversal of the sale, the Court shall be careful to indemnify him against all loss, at the charge of the zamíndár or person at whose suit the sale may have been made.

Defaulter may apply for summary investigation

*Second.*—In cases also in which a taluqdár may contest the zamíndár's demand of any arrear, as specified in the notice advertised, such taluqdár shall be competent to apply for a summary investigation at any time within the period of notice, the zamíndár shall then be called upon to furnish his kabuliyat and other proofs at the shortest convenient notice, in order that the award may, if possible, be made before the day appointed for sale.

Such award, if so made will of course regulate the ulterior process; but if the case be still pending, the lot shall be called up in its turn, notwithstanding the suit, and if the zamíndar or his agent in attendance insist on the demand, the sale shall be made on his responsibility, nor shall it be stayed, or the summary suit be allowed to proceed, unless the amount claimed be lodged in cash, * * * * * * * * * or in Government securities, by the taluqdár contesting the demand, and if such deposit be not made, the alleged defaulter will have no remedy, but by a regular action for damages and for a reversal of the sale.

Sale not to be stayed unless amount claimed be deposited

Delivery of possession to purchaser.

15. *First.*—So soon as the entire amount of the purchase-money shall have been paid in by the purchaser at any sale made under this Regulation, such purchaser shall receive from the officers conducting the sale a certificate of such payment.

The purchaser shall then proceed with the certificate in question to procure a transfer to his name in the kachahrí of the zamíndar, and upon furnishing security, if required, to the extent of half the jama or annual rent, he shall receive the usual 'amaldastak' or order for possession, together with the notice to the raiyats and others to attend and pay their rents henceforward to him.

The zamíndár shall also be bound to furnish access to any papers connected with the tenure purchased, that may be forthcoming in his kachahrí, and should he in any manner delay the transfer in his office, or refuse to give the orders for possession, notwithstanding that good and substantial security shall have been furnished or tendered on requisition, the new purchaser shall be entitled to apply direct to the Collector, and he shall receive the orders for possession, and shall be

## *Bengal Tenancy Bill.*

### (*Schedule III.—Summary sale of Patni Tenures.*)

put in possession, of, the lands by means of the názir, in the same manner as possession is obtained under a decree of Court; * * *

* * * * * * *

*Second.*—When the new purchaser shall proceed to take possession of the lands of his purchase, if the late incumbent himself, or the holders of tenures or assignments derived from the late incumbent, and intermediate between him and the actual cultivators, shall attempt to offer opposition, or to interfere with the collections of the new purchaser, from the lands composing his purchase, the latter shall be at liberty to apply immediately to the Collector for the aid of the public officers in obtaining possession of his just rights.

Procedure in case of opposition to purchaser.

A proclamation shall then issue under the seal and signature of the Collector declaring that the new incumbent having, by purchase at a sale for arrears of rent due to the zamíndár, acquired the entire rights and privileges attaching to the tenure of the late taluqdár, in the state in which it was originally derived by him from the zamíndár, he alone will be recognized as entitled to make the zamíndárí collections in the mufassal, and no payments made to any other individual will on any account be credited to the raiyats or others in any suit for rent or on any other occasion whatever when the same may be pleaded.

*Third.*—Should the late incumbent or his late under-tenants continue to oppose the entry of the new purchaser, notwithstanding the issuing of such a proclamation, or should there be reason to apprehend a breach of the peace on the part of any one, the aid of the Police-officers and of all other public officers who may be at hand and capable of affording assistance shall be given to the new purchaser, on his presenting a written application for the same; and in the event of any affray or breach of the peace occurring, the entire responsibility shall rest with the party opposing the lawful attempt of the purchaser to assume his rights.

Procedure in case of continued opposition.

* * * * *

17. *First.*—The following rules have been enacted for the disposal of the proceeds of any sale made under the rules of this Regulation.

Disposal of proceeds of sales.

*Second.*—One per cent. shall first be deducted from the nett proceeds realised, and shall be carried to the account of Government, for the purpose of meeting the expense of any extra establishments which it may be necessary to maintain for carrying into effect the provisions of this Regulation.

Deduction on account of Government.

*Third.*—The balance on account of which the sale may have been made shall next be made good in full (with interest and all charges incurred in bringing the taluq to sale) to the zamíndár or other person to whom the same may be due; provided, however, that no former balances, beyond those of the current year (or of that immediately expired, if the sale be at the commencement of the following year), shall be included in the demand to be thus satisfied.

Payment to zamíndárs.

Such antecedent balances, if the zamíndár shall have omitted to avail himself of the process within his reach for having them satisfied at the time, will have become in fact mere personal debts of the individual taluqdár, and must be recovered in the same way as other debts by a regular suit in the Court.

*Fourth.*—Any excess that may remain after satisfying the demand of the zamíndár, in the manner above described, shall be forthwith sent by the officer conducting the sale to the treasury of the Collector or Assistant Collector of the district, to be there held in deposit to answer the claims of the taluqdárs of the second degree, or of others who, by assignment of the defaulter, may be at the time in possession of a valuable interest on the land composing the taluq sold, or on any part of it.

Disposal of remainder.

*Fifth.*—It shall be competent to any one conceiving himself to possess such an interest to bring forward his claim to the price he may have paid for the same, or for a just compensation for the loss sustained by him in consequence of the sale, by instituting a regular suit at any time within two months from the date of sale.

Under-tenants free to prosecute for price of their interest or compensation.

If the Court shall, on investigation, consider the plaintiff's claim to be an equitable one, the Court will award to the claimant either the price he may have originally paid, or the value of the interest at the time of sale, or any other amount that may be deemed just and equitable under all the circumstances.

If there be more claimants than one, payment shall not be made from the deposit, until the whole of the claims be settled; and in case the value assessed upon the whole should exceed the amount in deposit, such amount shall be divided proportionately, and the remainder stand as a personal debt against the defaulter, to be realised from him by the usual process for the execution of decrees.

*Sixth.*—Provided, however, that no taluqdár of the second degree or other possessor of an assigned interest upon the land of the tenure sold, who may

Suit not to lie if under tenant be himself in arrear at time of sale.

be holding under a stipulation for the payment of an annual amount in the way of rent, shall be entitled to recover compensation for the loss of such tenure or assignment upon its becoming cancelled by sale of the superior taluq, except after exhibiting proof that the whole amount of the rent demandable from himself has been paid or lodged for the purpose prior to the date of sale.

When defaulter to receive excess unclaimed.

*Seventh.*—Should no claims upon the purchase-money of a taluq sold as above be brought forward by any under tenants or assignees, within the period of two months from the date of sale, or should the amount claimed by those who may have sued not equal the entire deposit, the defaulter whose tenure may have been sold shall be at liberty to petition the Court for the amount so held in deposit, or for the excess thereof, as the case may be, and he shall receive a certificate under the seal of the Court, of there being no claims to afford ground of detention for the whole or any part of the deposit; and upon exhibiting such certificate to the Collector, the amount set free thereby shall be paid to his receipt.

In the same manner, upon executing a decree passed in favour of any under-tenants or assignees, they shall receive certificates under the seal of the Court, declaring the amount adjudged to them out of the deposit; and upon exhibiting these certificates, the amount shall be paid severally to their receipts by the Collector.

Substitution of Government securities for cash in deposit.

*Eighth.*—It shall be competent to any party interested in a deposit, to withdraw the whole or any part thereof, on substituting Government securities, bearing interest, in lieu of the money so held in deposit; such securities to be taken at the rate of discount or premium, of the day, as shown by the Government Gazette last received.

---

## SCHEDULE IV.

*(See Section 224.)*

PART I.—*Suits.*

| Description of suit. | Period of Limitation. | Time from which period begins to run. |
|---|---|---|
| 1. To eject any tenure-holder or ryot on account of any breach of a condition in respect of which there is a contract expressly providing that ejectment shall be the penalty of such breach. | One year . | The date of the breach. |

## SCHEDULE IV—continued.

PART I.—*Suits*—concluded.

| Description of Suit. | Period of Limitation. | Time from which period begins to run. |
|---|---|---|
| 2 For the recovery of an arrear of rent— | | |
| (*a*) when the arrear fell due before a deposit was made on account of the rent of the same holding under section 103. | Six months . | The date of the deposit. |
| (*b*) in other cases . | Three years . | The last day of the Bengali year in which the arrear fell due, where that year prevails, and the last day of the month of Jeyt of the Amli or Fasli year in which the arrear fell due, where either of those years prevails. |

PART II.—*Appeals.*

| Description of Appeal. | Period of Limitation. | Time from which period begins to run. |
|---|---|---|
| 3. From any decree or order under this Act to the Court of a District Judge. | Thirty days . | The date of the decree or order appealed against. |
| 4. From any order of a Collector under this Act to the Commissioner. | Thirty days . | The date of the order appealed against. |

PART III.—*Applications.*

| Description of Application. | Period of Limitation. | Time from which period begins to run. |
|---|---|---|
| 5. For the execution of a decree or order made under this Act, or any Act repealed by this Act, and not being a decree for a sum of money exceeding Rs. 500, exclusive of any interest which may have accrued after decree upon the sum decreed, but inclusive of the costs of executing such decree, except where the judgment-debtor has by fraud or force prevented the execution of the decree. | Three years . | (1) The date of the decree or order; or<br>(2) where there has been an appeal, the date of the final decree or order of the Appellate Court; or<br>(3) where there has been a review of judgment, the date of the decision passed on the review. |

## STATEMENT OF OBJECTS AND REASONS.

THE history of landlord and tenant legislation in Bengal, and of the circumstances which have led to the preparation of the present Bill, is given in full detail in the papers which have been published. A very brief summary of it must suffice here.

Immediately before the Permanent Settlement was made, the Court of Directors, in conveying instructions to the Government here regarding it, wrote as follows*:—

"In order to leave no room for our intentions being at any time misunderstood, we direct you to be accurate in the terms in which our determination is announced. * * * * You will, in a particular manner, be cautious so to express yourselves as to leave no ambiguity as to our right to interfere, from time to time, as it may be necessary, for the protection of the raiyats and subordinate landlords, it being our intention, in the whole of this measure, effectually to limit our own demands, but not to depart from our inherent right as sovereigns of being the guardians and protectors of every class of persons living under our Government."

2. In conformity with these instructions, an article was inserted in section 8 of Regulation I of 1793, by which the Permanent Settlement was effected, expressly saving the right of the Government to legislate for the protection of persons having interests in the soil below those of the zamíndárs. It need hardly be said that any such saving was, strictly speaking, superfluous, inasmuch as the Government of an agricultural country like India would, apart altogether from it, be entitled, or rather bound, to legislate from time to time, as occasion might require, for the protection of the inferior occupants of the soil. But the article is important as showing that the view taken of the relations between the Government, the zamíndárs and the inferior landholders under the Permanent Settlement was the same in 1793 as it is to-day.

The article runs as follows:—

"To prevent any mi-construction of the foregoing articles" (fixing the Government revenue for ever) "the Governor General in Council thinks it necessary to make the following declarations to the zamíndárs, independent taluqdárs and other actual proprietors of land:—*First*, it being the duty of the ruling power to protect all classes of people and more particularly those who, from their situation, are most helpless, the Governor General in Council will, whenever he may deem it proper, enact such regulations as he may think necessary for the protection and welfare of the dependent taluqdárs, raiyats and other cultivators of the soil; and no zamíndár, independent taluqdár or other actual proprietor of land shall be entitled on this account to make any objection to the discharge of the fixed assessment which they have respectively agreed to pay."

3. Again, it was enacted by section 67 of Regulation VIII of 1793 (a Regulation re-enacting, with modifications, the rules for the Decennial Settlement) that proprietors should be bound by the restrictions in their kabuliyats, and the 9th of these, as stated by Harington (Vol. II, page 205), was "that implicit obedience be shown to all regulations which have been or may be prescribed by Government concerning the rents of the raiyats and the collections from undertenants and agents of every description, as well as from all other persons whatever."

4. The most important enactment passed in pursuance of these provisions is Act X of 1859, the substantive provisions of which, either in their original form or as re-enacted in Act VIII of 1869† (of the Bengal Council), still govern the relations of landlord and tenant in Bengal.

The effect of Act X of 1859 is admitted to have been on the whole beneficial; but on certain important points it cannot be considered a success. In particular, as will presently be explained at greater length, it placed the right of occupancy, which it recognized in the tenant, and the right to enhance rent, which it recognized in the landlord, on a most precarious footing. The result of this has been that, as usually happens with a law which is uncertain in its operation, it has added strength to the strong and further weakened those who were already weak. In Bihár, where the social and economical conditions of the country tend to give the landlords the upper hand, we hear of tenants rack-rented, subjected to *quasi*-feudal oppressions and arbitrarily ousted from their holdings; in Eastern Bengal, on the contrary, where circumstances favour the tenants, we hear of landlords who not only cannot obtain the enhancements of rent to which they are entitled, but, at times, when tenants combine against them, cannot even recover what is admitted to be due at existing rates.

5. The difficulties connected with Act X of 1859 began to be felt at an early period. It received the assent of the Governor General on the 29th of April, 1859, and before the end of 1863 its amendment had been suggested by Sir Barnes Peacock, the Chief Justice of Bengal, and by the Revenue-authorities of the North-Western Provinces. Of late years, successive Lieutenant-Governors of Bengal have borne witness to the existence of chronic evils, which nothing short of comprehensive legislation could cure. In 1873, Sir George Campbell had no

* Harington II, pp. 191-92.

† Throughout this Statement Act X of 1859 only will be referred to. It will be understood that what is said regarding it applies equally to Act VIII of 1869.

doubt that the Government would be eventually compelled to deal with the whole question of the relations of landlords and raiyats in Bengal. In 1876, in the course of the debates on the Agrarian Disputes Act, a measure devised to meet the difficulties between landlords and tenants in Eastern Bengal, the Hon'ble Kristodás Pál, a representative of the zamíndárs, urged that the indefiniteness of the principles of Act X of 1859 had brought suits for the adjustment of rents to a dead-lock. Sir R. Temple concurred in the opinion that some principle for determining rates of rent should be fixed by legislation, and in August, 1876, proposed to introduce a Bill to define the principles on which the rights of occupancy-raiyats and tenure-holders should be fixed, to simplify the procedure for realizing arrears of rent in undisputed cases, to extend the definition of "occupancy-raiyat," and to render the interest of a raiyat of that class liable to sale for default in paying rent and transferable by private agreement.

These proposals had not, however, been fully considered when Sir R. Temple, early in 1877, made over charge of the Lieutenant-Governorship to Sir Ashley Eden; and it was then arranged that the larger amendment of the law should be deferred, and a Bill providing only for the realization of undisputed arrears introduced at once.

6. It was, however, found, when the Bill was introduced, that it was impracticable to limit its scope in this way. The discussion as to the transferability of the right of occupancy had materially advanced, and it had been recognized that the legislature would have to alter the law with reference to ejectment, distraint, instalments and deposits of rent, and possibly sub-letting. It began to be apparent that many of the proposed provisions would eventually prove to be intimately connected with other portions of the existing law not ostensibly affected by them; and in February, 1879, a majority of the Select Committee on the Bill recommended that the whole subject of a revision of the Rent Law should be once for all fairly faced. This proposal was supported by Sir Ashley Eden; and in April, 1879, the Government of India sanctioned the formation of a Commission to prepare a digest of the existing statute and case law, and to frame the draft of a consolidating Bill.

7. Meanwhile, a separate discussion had been proceeding with reference to the abuses already mentioned as prevailing in the relations between landlords and tenants in Bihár. As far back as the year 1868, Lord Lawrence, then Governor General, had recorded a minute relating to the depressed state of the peasantry in Bihár, in which he had said that he believed "that it would be necessary for the Government sooner or later to interfere and pass a law which should thoroughly protect the raiyat and make him—what he is now only in name—a free man, a cultivator with the right to cultivate the land he holds, provided he pays a fair rent for it." Again, in the years 1875 and 1876, when the condition of Bihár came under consideration, it was acknowledged that some remedies must be applied. Two years later, the Lieutenant-Governor appointed a committee of experienced Bihár officials to advise upon the matter; and on the 8th March, 1879, they submitted their report, proposing so many changes of the existing law that they did not consider that the requirements of the case would be properly met by a mere amending Bill. They were of opinion that the whole rent law should be recast.

8. Thus, two independent committees arrived simultaneously at the same conclusion, namely, that the time for a complete revision of the existing law had arrived.

The report of the Bihár committee was referred to the Rent Law Commission, which was appointed under the sanction referred to above (paragraph 6), and that Commission, on the 19th June, 1880, submitted its report with a draft Landlord and Tenant Bill, which, having been revised by the Government of Bengal, has furnished the basis of the present Bill.

9. Before proceeding to give the explanations usual in a statement of this description, it should be mentioned, first, that these explanations will, as far as possible, be confined to points on which it is proposed to alter the existing law, and secondly, that the Bill is no more than it purports to be, namely, a Bill to amend and consolidate existing enactments.

10. With reference to this latter remark, it will be observed that the Bill prepared by the Rent Commission was intended to be in some sense a code of the law relating to agricultural tenancies. It, in many instances, incorporated portions of the common law or case law which have not hitherto been embodied in any legislative enactment in this country. In this respect the present Bill does not follow that of the Rent Commission; but it must not be inferred from this that the views of the Government of India on the important subject of codification have undergone any change. It may be desirable, at some future time, to carry out the design of the Rent Commission in its integrity, and make the Bengal Tenancy Act a complete and self-contained statement of the whole law; but it has been considered that the work of codification is one to be undertaken at a season of leisure, and not at a time like the present, when those, who are responsible for the framing of our legislative measures, are absorbed in the consideration of important substantive amendments of particular portions of the existing law, and are consequently unable to devote to the law as a whole that amount of attention, which would be required in order to carry out the work of codification with any prospect of success.

In the following portions of this Statement the order of the Bill will, as far as possible, be adhered to.

CHAPTER I.—*Preliminary.*

11. The Bill, it will be observed (section 1), extends by its own vigour to the whole of the territories under the administration of the Lieutenant-Governor of Bengal, except the town of Calcutta, the Division of Orissa and the Scheduled Districts.

The Lieutenant-Governor is specially empowered by section 1 to extend the whole Bill, or any portion of it, to the Orissa Division, with the sanction of the Governor General in Council, and he can, with like sanction, extend the whole, or any portion of it, to any Scheduled District under the power conferred on him by the Scheduled Districts Act.

12. The classes of tenants, to which the provisions of the Bill apply, are (section 3 (8)) tenure-holders, raiyats, under-raiyats and persons having a certain interest in *bastu* land, which will be found explained further on under the head of Chapter VII.

13. The term "tenure-holder" as used in the Bill is defined (section 3 (3) and (4)) to include what are commonly known as undertenure-holders, that is to say, darpatnídárs, sepatnídárs, darijaradárs and such like; and also tenants of the class hitherto known as raiyats at fixed rates. The inclusion of tenants of this latter class in the definition is convenient from the draftsman's point of view, but is, it is believed, otherwise of little importance, inasmuch as the incidents which are attached to their holdings place them to all practical intents and purposes on the same footing as tenure-holders.

14. The term "raiyat" has, following the Bill prepared by the Rent Law Commission, been limited to tenants holding land for purposes of agriculture, horticulture or pasture, or who have come into possession for such purposes, except where *bastu* or homestead land is included in a raiyat's agricultural holding, in which case it will be treated in the same way as the rest of the holding, and he will be deemed to hold it as a raiyat.

15. Except as just stated, no attempt has been made to define the terms "tenure-holder" and "raiyat," or to settle the distinction between these two classes of tenants.

The importance of this distinction for the purposes of the Bill has not been overlooked, nor has the possibility that cases may occur near the line of separation between the two classes, in which a doubt will arise as to whether the tenant is a tenure-holder or a raiyat; but it is believed that the distinction is generally well understood, and that, save in exceptional cases, no difficulty will arise. However this may be, no complete definition has as yet been suggested which would not be certain to give rise to difficulties greater than those which it is intended to remove.

16. Under-raiyat, as defined in the Bill, includes all tenants holding whether immediately or mediately below a raiyat.

17. Section 4, besides saving certain special laws which would, as a matter of course, be saved in a general enactment of this description, provides that nothing in the Bill "shall affect any custom or customary right not inconsistent with, or not expressly or by necessary implication modified or abolished by, its provisions."

A saving of this description is unavoidable in a measure which, as already observed, does not purport to be an exhaustive code, and its importance will be seen from the illustration appended, which shows that it will protect such rights as rights of occupancy enjoyed under a custom by under-raiyats, a class of tenants protected only to a limited extent by the Bill.

CHAPTER II.—*Of the distinction between khámár and raiyatí land.*

18. The second chapter of the Bill deals with the distinction between "khámár land," or the private land of the proprietor, and raiyatí land, or the land destined for occupation by raiyats. The importance of this distinction arises chiefly from the circumstance that raiyats occupying land of the latter class will, under the Bill, enjoy a much larger measure of protection than those occupying land of the former class. Bearing this in mind, and having regard to the efforts made by landlords in some parts of the country, under the existing law, to get into their own hands as large an amount of the raiyatí land as possible and convert it into khámár land, it has been thought necessary to make it clear by the definition that the existing stock of khamar land cannot hereafter be increased, and further to enact (section 6) that all land which is not khamar land shall be deemed to be raiyatí land, and that all land shall be presumed to be raiyatí land until the contrary is proved.

19. In Bihár, owing to the large extent of the khámár, or, as it is there termed, "zeraat", land, and the persistent efforts made by the landlords and their lessees to increase its extent, the question is one of cardinal importance; and there may be other exceptional tracts where the necessity of distinguishing clearly and finally between khámár and raiyatí land may prove to be pressing. To meet such cases, it is further thought necessary to provide (sections 7 to 13)

for making a complete survey and record of the existing khámár or zeraat, and thus preclude all possibility of future disputes on the point.

CHAPTER III.—*Of Tenure-holders generally.*

20. The alterations which it is proposed to make in the existing law regarding tenures, are not of great importance.

Section 14 converts the present raiyats at fixed rates into tenure-holders, but, as already explained (*supra*, paragraph 13), the change is unimportant.

21. Section 20, which saves to a landlord in a temporarily-settled tract a right to raise the rent of any tenure when a new settlement of the revenue is made, is new; but it may be defended as being in accordance with the views that prevail as to the relative position of the landlord, the tenant and the Government in such tracts. The Government has an undoubted right to raise its revenue on the occasion of a fresh settlement. Of this right no act of the landlord can deprive it; and accordingly, if the landlord were to be bound by a grant at fixed rates, made by him so as to extend beyond the term of the settlement, the result would be that, on the occasion of a new settlement, he might be exposed to the risk of having to pay an enhanced revenue without the possibility of recovering it from his tenant.

22. The Rent Commissioners observe that there are in the existing law no express provisions for the enhancement of the rents of tenures, and that the want of a definite enactment on the point has given rise to much expensive litigation. The sections of the Bill relating to this matter are based on those drafted by the Commissioners, and the grounds on which they rest will be best seen from the following extract from the Commissioners' report:—

"We have," they say, "provided for the enhancement of the rent of tenures and under-tenures, by enacting that, in any case in which such rent is liable to enhancement,—there are cases in which it is not so liable,—it may be enhanced up to the limit of the customary rate payable by persons holding similar tenures or undertenures in the vicinity, or, where no such customary rate exists, up to such limit as to the Court shall appear fair and equitable, but so that the profit of the tenure-holder or undertenure-holder shall not (in the absence of certain special circumstances, to be noticed hereafter) exceed thirty per centum of the balance which remains after deducting, from the gross rents payable to him, the expenses of collecting such rents. It may be observed that, according to the rule contained in section 8 of Regulation V of 1812, ten per cent. of the balance just mentioned was allowed to the tenure-holder. This section was repealed by Act X of 1859, but, by some oversight, no provision was substituted by this Act, though the principle, as being fair and equitable in itself, and usual by reason of the provisions of the Regulation, was, on several occasions, acted upon by the Courts after that Act was passed. It appears to a majority of us, after careful consideration, that the limit of *ten* per cent. is too low, and we have accordingly allowed a higher limit, namely, that of a maximum not exceeding *thirty* per cent in ordinary cases.* We have provided for the special and well-known case of *jangalbari* holdings by enacting that, when more than one hundred bíghás of land have been demised for reclamation purposes, more than half being at the time unreclaimed, and the whole having been subsequently reclaimed, the rent of the tenant may not be enhanced so as to leave him a profit of less than twenty per cent. of the net balance above-mentioned, and the Court may allow him such profit in excess of twenty per cent. as to it appears fair and equitable. In order to prevent these new provisions from working hardship by any sudden and great change, we have annexed the following checks:—(*a*) the enhanced rent shall not in any case be more than double the previous rent: (*b*) the Court may direct that the enhancement shall take effect gradually, or, in other words, that the rent shall increase yearly during any number of years not exceeding five, until the limit of the enhancement allowed has been reached: and (*c*) that rent once enhanced shall not be altered for ten years unless on account of alluvion or diluvion."

23. The only further points calling for notice in connection with these sections are, that it has been provided that the tenure-holder's profits shall never be less than 10 per cent. of the net balance, that the provision regarding jangalburi tenures has been made applicable to all such tenures irrespective of the area comprised in them, and that a clause has been added providing that, when a tenure-holder has made improvements other than those referred to by the Commissioners, the Court may allow him such amount, by way of profit, as it thinks fit, provided it be not less than 10 per cent.

* Mr. Justice Levinge mentions, in his Minute on Act X, a case in which *two-thirds* (he does not say, whether of the gross or net collections) were given to the landlord and the residue to the middleman. If the calculation was here made on the net collections, the collection expenses being at ten per cent., the middleman got 30 per cent., being $100-\frac{2(100-10)}{3}-10$.

24. In section 26, it is enacted that a permanent tenure-holder shall not be ejected by his landlord except under a decree of Court passed on the ground that he has broken a condition, on breach of which he is, under a written contract between him and his landlord, liable to be ejected.

25 The alterations which are made in the existing law by sections 27 to 35, relating to the registration in the landlord's scrishts of transfers of, and successions to, permanent tenures, are (so far as they seem to call for notice) as follows —

(*a*) A fee is made payable in respect of the registration of every succession and every transfer other than a transfer on a sale for arrears of rent

(*b*) An application for the registration of a voluntary transfer or a succession may, instead of being made to the landlord, be made to a Revenue-officer, who will serve a notice on the landlord requiring him to register

(*c*) Where a tenure is sold in execution of a decree other than a decree for arrears of rent, the Court will cause a notice to be served on the landlord requiring him to register the transfer

(*d*) If a landlord refuses or neglects to register for one month after he is bound to do so, the persons interested may apply to the Civil Court to compel him to register.

(*e*) Similarly, if the party or parties concerned do not apply for registration within six months from the date of a voluntary transfer or a succession, the landlord may apply to have him or them compelled to allow the registration and pay the requisite fee

(*f*) The landlord is required to give to the parties concerned copies of entries in his register, the first copy to be given free of charge, subsequent copies on payment.

(*g*) The Board of Revenue is empowered to make rules regulating registration

26. The proposal of the Rent Commission to extend the registration system to occupancy-holdings has not been adopted, as it is feared that there would be great difficulty in bringing home to persons of the raiyat class the details of such a system.

### CHAPTER IV —*Of Patní Tenures.*

27 The law relating to patní tenures is left substantially unchanged. The various proposals which have been made for the amendment of the summary sale procedure have not been overlooked, but it is thought that, as they touch only matters of detail relating to an institution of a very special nature, they would be best considered at the Select Committee stage of the Bill when it is hoped it may be found possible to simplify the form of the law very much without materially changing its substance Meantime, the existing enactments have been thrown into Schedule III of the Act and are made operative by section 42.

### CHAPTER V.—*Of Raiyats with a Right of Occupancy.*

28. Chapter V, which treats of the acquisition of the occupancy-right and of the incidents generally of that right, is one of the most important chapters in the Bill.

It will be seen, from the papers that have been published in connection with this measure, that a controversy has arisen, and has been conducted on both sides with much ability and research, as to whether some such right as that which we usually term a right of occupancy did not originally belong, and ought not now to be recognized as belonging, to all raiyats in Bengal except those whose occupation of the land is of a merely transitory nature It is unnecessary now to enter upon the merits of that question, inasmuch as, after a full consideration of the position, it has been determined that the legislation to be undertaken by the Government shall proceed on the assumption that the occupancy right is to be recognized as appertaining only to such tenants as may be shown to be in some special sense settled or permanent. But the problem of defining the class of tenants in whom such a right should be recognized is, when limited by this assumption, one of considerable difficulty

29 The conditions requisite to confer the status of the "khudkásht raiyat," so frequently referred to in our revenue enactments and records may in early times, and especially when thoroughly organized village communities prevailed, have been to a certain extent definite and ascertainable, but, in spite of all the learning and research which have been brought to bear, they are not now to be discovered The probability is that they were always very vague, that, notwithstanding their vagueness, no difficulty arose so long as land was abundant, the pressure of the Government revenue heavy and the status of a privileged cultivator of little value, and that it was only with the progress of agriculture, the increase in the value of landed property and the consequent disputes regarding interests in land, that the need of some more precise definition came to be felt.

30. A definition framed under such circumstances would necessarily be to a great extent artificial, and in moulding its details there would necessarily be a good deal of room left for considerations of equity and expediency We find accordingly, on referring to the proceedings connected with Act X of 1859, that those who framed that Act assumed a considerable latitude in settling the conditions on which the occupancy-status should be acquired. In the Bill

as read a first time, they proposed to confer on every "resident" raiyat a right of occupancy in the "land held by him," and they justified this on the ground that the word "khudkásht," as used in the Regulations, seemed to be synonymous with "resident"; but subsequently, it having been pointed out to them by the Revenue-authorities of the North-Western Provinces that "residence was not always a condition of occupancy," they adopted the rule embodied by them in the Act, namely, that twelve years' holding of the same land shall give a right of occupancy in that land. This rule, which was obviously to a large extent artificial, was copied by them from a similar rule which was issued by the North-Western Provinces Government, apparently as a mere executive suggestion to its officers, in the year 1836, as that "most consistent with the existing practice and recognized rights" in those provinces. The only feature common to the two rules is that of a raiyat in some sense permanent in, or settled in, the locality, and it would seem that the persons who framed those rules considered that as long as they maintained this feature, they were at liberty to define, in such manner as they might think equitable and expedient, the circumstances which should be taken to constitute the requisite degree of permanency or settlement. This is quite intelligible in the view above suggested, that, though the status of the khudkásht raiyat was still a recognized institution, the conditions requisite to establish it were so vague that they could not be described otherwise than as resting on a certain ill-defined degree of permanency in a particular locality.

31. Act X of 1859 is admitted to have done much towards improving the relations between landlord and tenant, but, in this particular matter of defining the conditions requisite to the establishment of a right of occupancy, it cannot be pronounced a success. It would be unjust to charge this want of success altogether against the Act itself. It has been held by the highest judicial authority that the provisions of the Act with respect to the establishment of the right of occupancy should be construed as cumulative and not as exhaustive or exclusive of all other modes of establishing that right; but, as a matter of fact, the Act has come to be regarded as a Code complete in itself, and as superseding all other modes of establishing the right. Its effect has consequently been to injure seriously the rights of the old established raiyats, by throwing upon them the burden of proving, not merely that they have held for twelve years in the village or estate, but further that they have so held in every one of the particular fields or plots, in respect of which they claim to have rights of occupancy, a burden which, it need hardly be said, it is impossible for them, in the absence of any trustworthy agricultural records, to discharge. And, as regards the acquisition of rights of occupancy by new comers,—a matter which is always regarded as absolutely necessary for the prosperity of the agriculturist class in this country,—it becomes almost impossible under a law which enables the landlord to prevent it by the simple device of shifting the tenant from one holding to another before the period of twelve years has run out.

32. It is unnecessary to state here the various remedies which have been proposed for these evils. They will be found described and discussed in paragraph 61 of the letter of the Government of India to the Secretary of State, No. 6, dated 4th March, 1882. It is enough to state the amendment of the law which the Government, after a very full discussion of the question, has resolved to propose. That amendment follows with certain modifications a suggestion of the Famine Commissioners, and consists in making the acquisition of the status of the khudkásht raiyat, or, as he is termed in the Bill, the "settled raiyat," depend not on the holding of one and the same plot of land for twelve years, but (section 45) on the holding of any raiyatí land (whether the same or not it does not matter) in the same village or estate for a period of twelve years whether before or after the passing of the Act. The raiyat may, by ceasing for one year to hold land as a raiyat in the village or estate (section 46), lose the status so acquired, but while it continues to adhere to him, he will, notwithstanding any contract to the contrary, be deemed to have acquired a right of occupancy in any raiyatí land held by him as a raiyat in the village or estate after the 2nd March, 1883, the date on which it is proposed to introduce the Bill. It should be added that, in order to obviate the effect which the minute partitions of estates, so common of late in certain parts of the country, would have in reducing the area in respect of which a settled raiyat of an estate would enjoy his status as such, it is in effect provided by section 43 that the estate shall, for the purposes of this portion of the Act, be taken to be the estate as it would have existed if no partition had taken place since the 1st of January, 1853.

33. It will be observed from the above that a right of occupancy is acquired by a settled raiyat holding raiyatí land "*notwithstanding any contract to the contrary.*" It is considered essential to carry the enactment to this extent. As observed by the Government of India in paragraph 85 of their letter No. 6 of the 21st March, 1882, "such is the power of the zamíndárs, so numerous and effective are the means possessed by most of them for inducing the raiyats to accept agreements which, if history, custom and expediency be regarded, are wrongful and contrary to good policy, that to uphold contracts in contravention of the main purpose of the Bill would be, in our belief, to condemn it to defeat and failure. It is absolutely necessary that such contracts should be disallowed, and in this conclusion we have the support not only of the Bengal Government but also of the almost unanimous opinions of the Bengal officers."

34. These provisions apply only to raiyatí land. The acquisition of a right of occupancy in the landlord's khamar land is, by section 49, kept on the same footing as under the existing law

35. It is only necessary to add, as regards the acquisition of the right, that it is provided by section 44 of the Bill that every raiyat, who immediately before the commencement of the Act has, by the operation of any enactment, by custom or otherwise, a right of occupancy in any land, shall, when the Act comes into force, become an occupancy-raiyat of that land for the purposes of the Act, and that (section 48) a right of occupancy may be acquired by a grant from the landlord.

36. As regards the probable effect of the new provisions regarding the acquisition of the right of occupancy, it should be stated that no great increase of the area at present subject to that right is looked for from them; indeed, if the statement which has been made by a high authority, that 90 per cent. of the raiyats in Bengal already have that right, is correct, any such increase would scarcely be possible; but what is hoped for is, first, that a stop may be put to the vigorous efforts, which are at present being made by landlords in some parts of the country, to withdraw land from the operation of the right by preventing the natural growth of a fresh occupancy-right in the place of an old right which has determined; and secondly, that, where occupancy-rights do as a matter of fact exist, the proof of their existence may be a matter of less difficulty than it is at present to the ignorant and helpless raiyat.

37. Section 50 states in general terms the more important incidents of the occupancy-right. They attach to the tenancy notwithstanding any contract between the landlord and raiyat, and are briefly as follows:—

(1) the raiyat may use the land in any manner which does not render it unfit for the purposes of the tenancy;

(2) he may make improvements on it as provided by the Bill;

(3) he must pay rent at fair and equitable rates as determined by the Bill;

(4) he cannot be ejected except under a decree passed for breach of certain conditions, or for using the land in such a way as to render it unfit for the purposes of the tenancy;

(5) he may sublet the land;

(6) his interest is to be transferable subject to certain rights reserved to the landlord; and

(7) his interest is to descend as if it were land.

38. Several of these incidents will be referred to at greater length in connection with the portions of the Bill specially relating to them. The sixth falls to be considered here, inasmuch as most of the remaining sections of the chapter are occupied with the rules regulating the rights reserved to the landlord when an occupancy-holding is transferred by sale, mortgage, gift or bequest.

The question whether the right of occupancy should be made by express enactment freely transferable everywhere, as it is at present held to be by custom throughout a very large portion of the area to which the Bill applies, has been most fully and carefully considered. It has to be looked at from two points of view, namely, first, from the point of view of the landlord, and secondly, in the interests of the tenant.

39. From the former point of view the question presents comparatively little difficulty. The landlord is concerned only to see that we do not allow an objectionable tenant to be forced on him against his will, and this we can readily guard against by giving him a right of pre-emption, or something equivalent thereto, in every case of transfer. It has accordingly been provided that, in cases of voluntary sale, gift or bequest, the landlord shall have a right to purchase at a price to be fixed by the Civil Court; that in the case of a sale in execution of a decree, when the landlord and any other person bid the same amount, the landlord shall have the right of pre-emption; and that, when an order is passed for foreclosing a mortgage of an occupancy-right, the landlord shall be allowed an opportunity of paying in the amount of the mortgage-debt and taking the place of the mortgagee. The only doubt that has been felt about these provisions is whether, in the case of a voluntary sale, the landlord should not be required, if he exercised his right of pre-emption, to pay the price at which the raiyat has actually agreed to sell the occupancy, right instead of a price to be fixed by the Court; but, on considering the difficulties, by which the right of pre-emption would be clogged in cases of collusion between the vendor and purchaser, and in cases in which a spiteful neighbour might be willing to pay an exorbitant sum for an occupancy-right with a view to harassing the landlord, it has been thought best to put the case of voluntary sale on the same footing as those of gift and bequest.

40. Looking at the question of transferability next from the point of view of the occupancy-raiyat's interest, the Local Government and the Government of India have come to the conclusion that, in the absence of evidence of any evil consequences which have already followed from such transfers, or which may be anticipated as likely to occur in the near future, it would be unwise to oppose the growth of the very strong tendency towards transferability, which the prevailing customs show to existin rights of this class in almost all parts of the country.

The existence of such a tendency indicates—what, indeed, is clear from other evidence—that those most concerned regard the quality of transferability as an important incident of the right; and it cannot be doubted that the enactment of a law absolutely forbidding transfer would, even if it saved existing customs, be regarded as a hardship. It may be added that, if the custom of transferability is so widely established as is stated by some very competent authorities, the operation of a law of this sort would be so limited as to be of but little importance.

41. That the powers of transferring and sub-letting which the Bill recognizes may in time lead to a state of things, in which the great bulk of the actual cultivators would be not occupancy-raiyats but under-raiyats with but little protection from the law, is indeed within the range of possibility; but, if such a state of things should ever arise, we may rest assured that the Government of the day will know how to deal with it. There is nothing in the present Bill which ought in any way to hamper them in doing so—nothing to affect the principle that, in an agricultural country like India, the great mass of the actual cultivators of the soil whoever they may be, and however they may have come into the possession of the land, must be protected by the law.

42. The only other provision of Chapter V which appears to call for notice here is that contained in section 56, and is to the effect that, where a landlord, by way of pre-emption under the foregoing sections or otherwise, acquires an occupancy-right in his own land, any tenant, who subsequently takes the land from him, shall have a right of occupancy in it, and if the rent of the land was previously payable in money, shall be entitled to hold it at a money-rent to be fixed under the Act. There is nothing in the Bill to prevent a landlord, so acquiring an occupancy-right in land, from keeping the land in his own hands and cultivating it by his servants or by hired labourers. All the section would enact is that, if he chooses to let it to a tenant, that tenant shall at once acquire an occupancy-right. This seems necessary in order to guard against the possibility of a landlord buying up on a great scale the occupancy-rights existing on his estate or tenure with a view to locating ordinary raiyats on the land. To a landlord, who buys an occupancy-right, as contemplated by the pre-emption sections of the Bill, merely with a view to excluding an intending purchaser whom he objects to have as his tenant, there would be no appreciable hardship in the restriction.

### CHAPTER VI.—*Of the Rent payable by Occupancy-raiyats.*

43. Chapter VI is devoted to the important subject of the rents payable by occupancy-raiyats. In regard to this particular matter, as in regard to that of the acquisition of the right of occupancy, Act X of 1859, whether owing to its inherent defects or to the peculiar construction put upon it by the Courts it is unnecessary now to enquire, has not proved a success. Leaving out of consideration the matter of additions to the rent of a holding on account of an increase of its area, a matter which is relegated to a completely separate division of the present Bill, Act X of 1859 provided by its 17th section that the rent payable by an occupancy-raiyat should be liable to enhancement only where—

*1st*—its rate was below the prevailing rate payable by the same class of raiyats for land of a similar description and with similar advantages in places adjacent, or

*2nd*—the value of the produce or the productive powers of the land had been increased otherwise than by the agency or at the expense of the raiyat.

44. Having thus stated the cases in which the rent was to be liable to enhancement, the Act stopped, giving no indication, except such as might be gathered from the statement of those cases, as to the extent to which the Courts were to enhance the rent. In the first of the two cases, no difficulty would arise from this, as the intention of the Act in respect of that case was clear enough; but in the second of the two cases, the question as to the limit of enhancement gave rise to an important discussion, which was at length brought to a close in what is known as "the great rent case." The rule laid down in that case is commonly spoken of as "the rule of proportion," and is to the effect that the enhanced rent should bear to the previous rent the same ratio as the increased value of the produce or increased productive power bears to the value or productive power at the time the previous rent was fixed.

45. This rule, whatever may be said for it on theoretical grounds, has proved to be absolutely unworkable by the Courts in practice, inasmuch as it throws on them the necessity of undertaking elaborate and laborious inquiries into economical questions, with which they are altogether incompetent to deal, and which have reference not merely to the present time but also to past and possibly very remote times, for which no such evidence as could be acted on by a Court of justice is likely to be forthcoming. Moreover, it necessitates enquiries, which are of such a nature that they could with advantage be undertaken only generally, on a great scale, and once for all, being, instead of this, undertaken over and over again in a most imperfect and unsatisfactory manner in individual cases.

46. The result of this is that, though the right of the landlord to enhance is distinctly recognized by the law, and though definite rules are laid down for its enforcement, the law has become to a great extent a dead letter.

The most important object of the chapter we are now considering is, while guarding and limiting the right to enhance in certain respects, which will be presently noticed, to put it on such a footing that it will be readily enforceable in practice; and the chief means adopted for attaining this object is that of separating off the statistical and economical inquiries of a general nature, which have just been referred to, and providing for their being undertaken once for all on a large scale by Revenue-officers.

47. Passing from these preliminary observations to the details of Chapter VI of the Bill, it will be seen that section 60 provides that, except on account of an addition to the area of the holding by alluvion or otherwise, a money-rent payable by an occupancy-tenant shall not be enhanced except by a decree of a Civil Court under the Bill, or by a contract of the nature described in the foregoing section.

48. It is considered, for reasons similar to those stated above in paragraph 33, that it would be destructive of the objects of the Bill if occupancy-raiyats were left perfectly free to deprive themselves by their contracts of the right to hold at fair and equitable rates secured to them by the law. But, on the other hand, absolutely to prevent such contracts would, it is thought, involve too great an interference with the freedom of the parties. A middle course has accordingly been adopted in section 59, which provides that a money-rent payable by an occupancy-raiyat may be enhanced by a contract in writing, approved of and registered by a Revenue-officer appointed by the Local Government in this behalf, and which goes on in its second sub-section to enact that a Revenue-officer shall not approve or register such a contract until he has satisfied himself that it is fair and equitable, and that he shall be absolutely debarred from registering any contract, by which a raiyat engages to pay a rent more than six annas in the rupee higher than the existing rent, or more than one-fifth* of the estimated annual value of the gross produce of the land.

49. This 59th section, which, it will be remembered, relates only to the enhancement of the rents of existing tenancies, is supplemented in section 61 by a somewhat similar provision applicable to cases in which a settled raiyat comes in as a new tenant on land previously held by another tenant at a money-rent. Here, too, it is considered that the objects of the law might be defeated if the parties were left absolutely free to contract; and it is accordingly provided that a settled raiyat, taking land under the circumstances referred to, shall not be bound to pay for it a higher rent than that paid by the previous tenant, unless that higher rent has been fixed by a contract registered and approved as already described.

50. Turning now to the matter of enhancement by a decree of the Civil Court, the sub-divisions of Chapter VI which are marked B and C proceed on the assumption that there are, at least in some parts of the country, certain rates of rent generally recognized as the rates payable by occupancy-tenants for the various classes of land held by them. Where this is so, it would, it is presumed, be not very difficult for a Revenue-officer to ascertain those rates, and then, starting from them as a basis, and taking into account such changes in the productive powers of the soil and in the prices of produce as may have occurred since they were fixed, to prepare tables of the enhanced rates, which, subject to allowance in exceptional cases, might fairly and equitably be demanded by the landlord for each class of land under the existing conditions. The Revenue officer, it is thought, might further show in his tables the average gross produce of each class of land and its estimated value. Supposing this to be done, the Civil Courts would be relieved almost entirely of those economical and statistical enquiries, which at present are involved in enhancement-suits. They would accept the rates and produce-statistics shown in the tables as *primâ facie* correct for lands of the classes to which the tables referred, and might restrict themselves to considering the comparatively simple and limited questions as to whether the particular lands in question in the suit belonged to the class alleged, and whether there were any exceptional circumstances connected with them which would require the rent to be fixed at a different rate from that set down in the table.

51. It is, of course, well understood that there would be many parts of the country for which, owing to the non-existence of recognized rates of rent or to the great varieties of the soil, no such tables could be prepared, and further that, even where it is possible to prepare such tables, their preparation must be a work of time. With a view to these considerations, the Bill has been so drawn as to provide, first, in sub-division B of Chapter VI, for suits to enhance money-rents where a table of rates has been prepared, and secondly, in sub-division C, for such suits where a table of rates has not been prepared.

52. It will be convenient, in explaining the details of these portions of the Bill, to begin with the latter set of provisions. The cases, in which a suit may be brought to enhance the money-

* See as to this limitation, para. 54 *infra*.

rent of an occupancy-holding situated in a tract, for which a table of rates has not been prepared, are stated in section 74. They will be found to be in the main the same as those provided for in the section of Act X of 1859 referred to in paragraph 43, the only difference of sufficient importance to call for notice here being, that, for the purpose of estimating the increase in the productive powers of the land or in prices, on which a right to enhance depends, the Court is not compelled, as under the present law, to look to the time at which the rent was fixed, but, when that time cannot be ascertained (as it frequently cannot), or when the productive power and the prices prevailing at that time are undiscoverable, may take, for the purposes of comparison, any other time which may appear to it fair and equitable.

53. Section 75, supplying the defect in Act X of 1859 referred to above (paragraph 44), fixes the limits up to which the Court is to enhance in cases, in which the enhancement is claimed on the ground of an increase in the productive powers of the land or of prices. It provides that, if the increase has been effected wholly by the agency or at the expense of the landlord, he shall be entitled to the whole benefit of it; that, if it has been effected partly by the agency or at the expense of the landlord and partly by the agency or at the expense of the tenant, the benefit shall be divided between them in such shares as, having regard to all the circumstances of the case, the Court thinks fair and equitable; and that, if it is not proved that the increase has been effected by the agency or at the expense either of the landlord or of the tenant, each of them shall be entitled to one-half the benefit: provided in this last case that the enhanced rent shall not bear to the previous rent a higher proportion than the increased productive powers or increased prices bear to the former productive powers or former prices, as the case may be. Thus the rule of proportion, instead of being, as it is at present, under the decision in the "great rent case," the measure of enhancement in all cases, will merely supply a maximum limit in one of the three cases dealt with by section 75; and, as it is not apprehended that landlords will often seek to press their rights of enhancement to the full extent, it seems unlikely that it will give rise to any considerable difficulty.

54. The only other rule relating to the limit of enhancement contained in section 75 is the concluding provision, that the enhanced rent shall not in any case exceed one-fifth of the estimated average annual value of the gross produce of the land in staple crops calculated at the price at which raiyats sell at harvest-time. This limit has been substituted for that of one-fourth originally proposed, as the present Lieutenant-Governor of Bengal considers that one-fourth of the value of the average crop would be too high a limit. It is to be understood, however, that the point is still under the consideration of the Government.

55. Coming next to the scheme for enhancement by means of a table of rates, it will be seen that section 62 empowers the Local Government to direct a Revenue-officer to prepare for any local area, with the aid of assessors, a table showing, for each class of land comprised in that area, the rate of rent fairly and equitably payable by occupancy-raiyats, the average gross produce of the land, and the average value of that produce. The land is to be classified (section 63 (*a*)) according to the nature of the soil, situation, means of irrigation and other like considerations, and section 64 enacts that, in fixing the rates for each class, regard is to be had—

(*a*) to the rates of rent ordinarily payable by occupancy-raiyats for land of that class at the time the table is prepared;

(*b*) to the value of the average gross produce of land of that class, and the cost of raising that produce, about the time those rates were fixed, or, where these matters cannot be ascertained for that time, about such other time as it may be fair and equitable to take for the purpose of comparison;

(*c*) to the value of the average gross produce and the cost of raising that produce at the time the table is prepared; and

(*d*) to the following rule, namely, that, where the rate of rent for any class of land is raised on account of an increase in the value of the produce, the new rate shall not bear to the old rate a higher proportion than the increased value of the produce bears to the former value.

The section concludes with a proviso, corresponding to that mentioned above in connection with section 75, limiting the enhanced rate of rent fixed for land of any class to one-fifth of the average gross produce of land of that class.

56. Sections 65 to 69 provide for a preliminary publication in the vernacular language of the table prepared by the Revenue-officer; for the consideration of objections urged against it by those interested; for the submission to the higher Revenue authorities, and by them to the Government, of the table, with a report setting forth the grounds of the Revenue-officer's decision on each point, and of all objections preferred; and for the further publication of the table when finally settled and approved of.

A table prepared under these provisions will remain in force for such period, not less

than ten years or more than thirty years, as the Local Government may direct, and while it remains in force it will (section 71) be conclusive evidence—

(*a*) that, except as provided by certain clauses to be presently referred to, the rates shown in it for each class of land are the fair and equitable rates payable for land of that class by occupancy-raiyats within the local area to which the table applies; and

(*b*) that the statistics of gross produce and value given in the table are correct.

58. Section 72 empowers the Local Government to charge the expenses connected with the preparation of a table for any local area to the raiyats and their landlords in that local area in such proportions as it thinks fit.

59. Section 73 contains the rules for the guidance of a Court in suits instituted to enhance the rent of an occupancy-raiyat in a local area, for which a table of rates has been prepared, and a glance at it will show what an important simplification of the work of the Court will be effected by the table. The general rule is that the Court shall enhance up to the rate shown in the table for the class of land in question, or, where maximum and minimum rates are shown for land of that class (as will occasionally be the case) to such rate, not higher than the maximum or lower than the minimum, as it thinks fit. It is only in certain exceptional cases that the Court will be required to go behind the rates. Those exceptional cases are of two classes.

60. The first class comprises cases, which may be described with sufficient accuracy for our present purpose as cases in which, owing to some improvement having been effected or having taken place in reference to the land since the commencement of the tenancy, the land has been raised from a lower to a higher class of the table. The rules laid down for cases of this class by the first clause of the proviso to section 73 closely follow the corresponding rules laid down in section 75 and referred to above, paragraph 53. They are to the effect that, if the improvement has been effected solely by the agency or at the expense of the raiyat, the rent shall be fixed as if the land belonged to the lower class; that if the improvement has been effected partly by the agency or at the expense of the landlord, and partly by the agency or at the expense of the raiyat, the rent shall be fixed at such rate intermediate between that of the higher class and that of the lower class as the Court, having regard to all the circumstances of the case, thinks fair and equitable; and that, if it is not proved that the improvement has been effected by the agency or at the expense either of the landlord or of the raiyat, the rent shall be fixed at a rate half-way between the rate of the higher and that of the lower class.

The effect of these rules will be best seen from the illustrations appended to section 73 of the Bill, which are as follows:—

*Illustrations.*

(*a*) The rates shown in the table for land of a certain description are—

When the land is irrigated from a well . . . . . Rs. 4 per acre.
When the land is not so irrigated . . . . . „ 2 „

The holdings of A, B, C and D, occupancy-raiyats, are composed of land of that description irrigated from wells constructed on these holdings respectively.

The well on A's holding is an ancient one, existing from a time anterior to the tenancy: that on B's holding has been constructed by the landlord since the commencement of the tenancy: that on C's holding has been constructed by the raiyat: that on D's holding has been constructed by the landlord and raiyat, each contributing some portion of the labour and materials. The rents of the holdings of A and B must be fixed at Rs. 4 per acre, that of C's holding at Rs. 2 per acre, that of D's holding at such rate intermediate between Rs. 2 and Rs. 4 as the Court thinks fair and equitable.

(*b*) The rates shown in the table for land of a certain description are as follows:—

When such land is irrigated from a branch of a river . . . Rs. 4 per acre.
When such land is not so irrigated . . . . . „ 2 „

The holdings of E and F, occupancy-raiyats, are composed of land of that description, and were not irrigable until 40 years ago, when, owing to a change in the course of a neighbouring river, a new branch established itself contiguous to them. E has been in occupation of his holding 50 years, F only 30; the rent of E's holding must be fixed at Rs. 3, that of F's holding at Rs. 4.

61. The other class of exceptional cases in which the Court will have to go behind the rates is that referred to in the second clause of the proviso to section 73, where the raiyat proves that by contract, or by custom, or on some equitable ground, he is entitled to hold at a rate lower than that fixed by the table for land of the class to which his land belongs; and in cases of this class, the Court is required to fix the rent at the lower rate at which the raiyat proves that he is entitled to hold.

62. To complete this portion of the subject it is only necessary to add that all suits for enhancement, whether under a table of rates or otherwise, are by sections 76 to 78 of the Bill made subject to the three rules already referred to under the head of tenures, namely, that a rent shall not be enhanced so as to be more than double the previous rent; that the Court may

order the enhancement to take effect by degrees for any number of years not exceeding five; and that, when rent has been enhanced, it shall not be again enhanced for 10 years.

63. How far it will be possible to give effect to the provisions of this chapter regarding the preparation of a table of rates it would be difficult to predict. The members of the Rent Law Commission entertained hopes of those provisions being largely used, and they appear to have thought that, in some cases, if the rates were once settled by authority, landlords and tenants would soon be able to adjust their differences. On the other hand, the result of recent inquiries would seem to show that, in some parts of the country, the rates vary so much from holding to holding as to render the preparation of a table impossible or practically useless. It must, however, be pointed out that it will not follow that, because a table of rates has not been, or cannot be, prepared for a local area, the landlords of that area will necessarily be reduced to the ordinary procedure by civil suit. They will, in many cases, be able to invoke the aid of a revenue-officer for the settlement of their rents under the provisions of Chapter XI, which will be noticed in their proper place.

64. Section 79 contains the provisions relating to the reduction of money-rents payable by occupancy-tenants. The cases, in which a claim for reduction is allowed are, with certain modifications in detail, which it is unnecessary to notice here, the same as under the existing law, that is to say, a reduction can be claimed only where there has been a decrease of productive power or of prices; and such cases are so rare that it has been thought unnecessary to lay down any elaborate rules for their treatment. Section 79 therefore simply provides that, when a case for reduction is made out, the Court may direct such reduction as it thinks fair and equitable.

65. The case of rents payable for pasture lands, which is provided for in section 80, is likewise one of no great practical importance, inasmuch as such lands are but rarely let to a tenant in this country. Accordingly, no provision for the reduction of rent has here been considered necessary, and it has been thought sufficient, as regards enhancement, to provide that a suit to enhance may be instituted on the ground that the rent is below the prevailing rate paid by raiyats of the same class for similar lands in the vicinity, or that, having regard to the increase of rent on arable land in the vicinity, an enhancement would be reasonable. In either of these cases, the Court is empowered to fix the rent at such rate as it thinks fair and equitable.

66. The next sub-division of the chapter relates to rents payable in kind or varying with the crop, and is of greater importance. Section 81 provides that, when the rent is of this nature, the following rules shall apply, namely :—

(*a*) notwithstanding any contract or custom to the contrary, the landlord shall not be entitled to recover, in respect of any portion of the holding on which staple crops (such as rice, wheat, and so forth) are grown, more than half the gross produce or its value; and

(*b*) the landlord shall not, except under a contract in writing, be entitled to recover, in respect of any portion of the holding, on which other crops are grown, any other description or any greater amount of rent than a sum equal to one-half of the estimated average value of the produce of that portion of the holding, supposing staple crops to be grown on it.

67. The only objection which it is apprehended might be taken to these provisions is that in some cases a landlord, whose rent is payable in kind, contributes in the shape of seed, labour or otherwise, towards the production of the crop, recovering the price of his assistance in the form of an additional rent, and that, in such cases, the limits which it is proposed to fix might be too low. To meet this, a sub-section has been added, providing that nothing in the section shall prevent a landlord recovering from the tenant the value of assistance so rendered. The result accordingly will be that, though the landlord can no longer include the value of such assistance in the rent, where, by so doing, he would bring the rent above the prescribed limit, he can recover the same amount under another name.

68. Section 82 provides for the commutation into fixed money-rents of rents payable in kind or consisting of the value of a certain share of the actual gross produce.

It provides that an occupancy-raiyat, paying such a rent may, notwithstanding any contract to the contrary, sue to have his rent commuted, and that the Court shall fix the money-rent at its discretion either—

(*a*) according to the prevailing money-rent payable by raiyats of the same class for similar land in the vicinity, or

(*b*) according to the average value of the rent actually received by the landlord during the preceding five years, subject, however, in this latter case, to a deduction of such

amount as the Court thinks reasonable, in consideration of the whole risk of cultivation being taken by the raiyat.

69. The remaining provisions of Chapter VI are merely of a supplementary or subsidiary nature. Section 83 provides for the preparation of price-lists, which, when published with the sanction of the Board of Revenue, will be deemed to be conclusive evidence in proceedings under Chapter VI, and will thus save the Courts a certain amount of work, for the performance of which they are but ill-suited.

Section 84 empowers the Board to make rules for the guidance of officers and (as regards certain matters) of Courts acting under Chapter VI, in particular for determining what crops are to be deemed staple crops for the purposes of the chapter.

### CHAPTER VII.—*Of the Right of a settled Raiyat in Bastu Land.*

70. The Bill prepared by the Rent Commission contained elaborate provisions regarding the use of land for building purposes, which were justified at length in paragraphs 108—113 of their Report. It is unnecessary here to discuss those provisions on their merits. It is enough to say that the present measure is strictly confined to the amendment of the law regarding agricultural tenancies, and can properly deal with the holding of land for building purposes only where the holding of such land is in some sense ancillary to an agricultural tenancy, as *e.g.*, where an occupancy-raiyat has built himself a house in a village with a view to living near his agricultural holding. In such a case there is so close a connection between his house and his agricultural holding that it would in many cases be vain to protect him in the possession of the holding without, at the same time, protecting him in the possession of the house. Besides the inconvenience he might be put to in being ejected from his house and compelled to reside at a distance from his work, it is clear that, if he were left at the landlord's mercy as regards the house, he would be liable at any time to have pressure brought upon him in regard to the holding also, which he might be unable to resist.

71. When the site of the house is included in an occupancy-holding, the raiyat is sufficiently protected under Chapters V and VI, but, when it is a separate holding, some special provision seems necessary; and it is thought that the requirements of the case will be best met by enacting that every settled raiyat of a village or estate shall, notwithstanding any contract to the contrary, have a permanent heritable and transferable right in any *bastu* or other homestead land in that village or estate which is held by him as the site of a dwelling-house for himself and his family; that a person having such a right shall not be ejected except under a decree of the Civil Court for breach of a condition; that, if so ejected, he shall be entitled to compensation; and that his rent may be enhanced at intervals of ten years, so that it may be equal to the rent paid for similar lands in the neighbourhood, or, at the option of the landlord, so that it may be equal to five per centum of the market-value of the land.

### CHAPTER VIII.—*Of Ordinary Raiyats.*

72. Chapter VIII deals with ordinary raiyats, that is to say (section 88) raiyats holding raiyatí land but not having a right of occupancy in respect of it. The principle on which this chapter is based is that, while it is desirable to interfere as little as possible between tenants of this class and their landlords, they should not be exposed to arbitrary rack-renting and eviction at the hands of their landlords, and, further, that the acquisition by them of the status of settled raiyat should in every reasonable way be promoted.

73. Section 89 accordingly provides that, subject to a certain maximum fixed for the rents of all raiyats and under-raiyats, which will be presently referred to, an ordinary raiyat shall pay such rent as may from time to time be fixed by agreement between him and his landlord; but, in order to check extravagant enhancements by the landlord, it is provided in the following sections that, if the landlord proposes an enhancement of the rent, to which the raiyat does not agree, the landlord shall not eject him without paying him, besides any amount that may be due to him as compensation for improvements under the provisions of the Bill, a further sum, by way of compensation for disturbance, equal to a certain multiple of the yearly increase of rent demanded. *Ten* times the increase is the amount provided for in the Bill as it stands; but it need hardly be said that a figure of this sort is, at this stage of a Bill, entered only tentatively and subject to future consideration. The object in view, it will be understood, is to fix a multiple of the increase high enough to deter the landlord from making an extravagant demand, but not so high that the raiyat would be induced by the prospect of obtaining it to refuse to accede to a reasonable enhancement.

74. The details of the procedure requisite to give effect to this important provision occupy the greater part of the chapter, but they are not such as to call for notice here. The only other provision of the chapter to which it seems necessary to refer is the rule in section 90

limiting the landlord's right to eject, and which is to the effect that a landlord shall not eject an ordinary raiyat except—

(*a*) for arrears of rent;

(*b*) on the ground that the raiyat has used the land in a manner, which renders it unfit for the purposes of the tenancy, or that he has broken some condition, on breach of which he is, under the terms of a written contract, liable to be ejected; or

(*c*) that he has refused to agree to an enhancement of rent on which the landlord insists.

It is in this last case that the provision as to compensation for disturbance will apply.

CHAPTER IX.—*Provisions regarding Rent applicable to several classes of Tenants.*

75. We now pass from the chapters dealing with particular classes of tenants to those dealing with matters common to several classes. Chapter IX, which is the first of these, contains most of the general provisions of the Bill regarding rent. It begins with a section (96) providing for such additions to, and deductions from, the rents of tenure-holders and occupancy-tenants as are made on account of an alteration in the area of the holding by alluvion or diluvion, by encroachment, eviction by title paramount to that of the landlord, and so forth. This section applies, in the case of a tenure-holder, only in the absence of a contract to the contrary, but, in the case of an occupancy-raiyat, it overrides any such contract.

76. In the case of land being added to the area of a holding, it provides that the amount added to the rent shall be calculated on the rates payable by occupancy-raiyats for land of a similar description, less a deduction, in the case of a tenure-holder, of thirty per cent. for profits, risk and cost of collection. This seems to be the fairest rule to apply in such a case, and it is, moreover, as observed by the Government of Bengal, in harmony with the law regulating additions to the Government revenue in alluvion cases.

77. On the other hand, in the case of a loss of a portion of an area, for the whole of which a single rent has been payable, the only equitable principle to adopt seems to be that the abatement from the rent should bear to the rent previously payable the same proportion as the yearly value of the land lost bears to the yearly value of the holding prior to the loss, and this is what sub-section (3) of section 96 enacts, adding, however, that, when the yearly value of the land lost cannot be satisfactorily proved, the abatement shall bear to the previous rent the same

It has been found that this declaration has become a mere form, and it is thought better to allow the tenant to deposit his rent whenever he has reason to believe that the landlord will not receive it and grant a receipt. It is also thought advisable that a tenant should be allowed to deposit his rent in two other cases, namely :—

(1) when it is payable to co-sharers jointly, and he is unable to obtain their joint receipt, and no person has been empowered to receive the rent on their behalf; and

(2) when the tenant entertains a *bonâ fide* doubt as to who is entitled to receive the rent.

81. This extension of the right to deposit rent necessitates our conferring on the officer empowered to receive deposits a certain discretion not allowed by the present law. He is accordingly given by section 104 a discretion to refuse the deposit, if he does not think the circumstances of the case warrant its being made, and he is further given by section 106 a discretion to pay away the deposit, if he thinks fit, to such one of several rival claimants as may seem to be entitled to it, but subject, of course, to the right of any person actually entitled to it to recover the amount from the person, to whom it is so paid. As regards this last point, however, it will be seen that the officer will have power to retain the deposit if he thinks fit, pending the decision of the Civil Court as to the person entitled to it; and this latter course is doubtless that which he would adopt in all cases in which there might be any reasonable doubt as to the person entitled.

82. The provisions, contained in sections 112 to 116, for the division or appraisement of a crop by a public officer in cases, where the rent is paid in kind or is the value of a certain share of the gross produce, and a dispute arises between the parties, are based on the proposals made for Bihár by the Bihár Committee and the Rent Law Commission; but they are made generally applicable, and their details are taken, for the most part, from enactments in force in Upper India, where rent is very commonly paid in kind or in appraisement of the crops. They enact that, if either party neglects to attend at the proper time for making the division or appraisement, or if there is a dispute regarding the division or appraisement, the Collector may, on application made to him, issue a commission to such person as he thinks fit, directing him to divide or appraise the crop, and may further direct him to associate with himself any other persons as assessors for this purpose. If, in a division made in this way, either party receives less than his proper share, he may, within three months from the date of the division, sue the other party to recover the value of the additional portion of the crop due to him, and, if he does not so sue, the division will be deemed to have been rightly made. When the case is one of appraisement, the commissioner is required to submit his appraisement in writing to the Collector, who shall, after such hearing and enquiry as he thinks necessary, pass an order either confirming or varying it, and that order will be final.

It will be seen that these provisions proceed upon the principle, already referred to in connection with the subject of enhancement, of entrusting to the Revenue authorities the duty of inquiring into, and adjusting, matters, which they are presumably more competent to deal with than the Civil Courts. It is, it will be observed, only the mechanical act of division and the mere framing of the estimate of the crops that, in the cases now in question, are to be entrusted to the Collector and the persons appointed by him, all questions of right being reserved for the Civil Court.

83. Section 117 provides that, if the landlord of any land, of which the rent is payable by division or appraisement of the crop, or any other person, interferes in any way, without the tenant's consent, with the cutting or harvesting of a crop, except by an application to the Collector, under the provisions just referred to, he shall be deemed to have committed criminal trespass within the meaning of the Penal Code. This is considered necessary in order to put a stop to the oppressive action of landlords in certain parts of the country, who are found to assume a power to prevent the cutting or harvesting of the crops, and to use it as an engine of extortion against their tenants.

84. Section 118, which applies only to Bihár, provides that all danabandi papers shall, within 15 days after the making of an appraisement, be filed in the Collector's office.

85. Section 119 provides that, notwithstanding any contract made after the 2nd March, 1883, the date on which it is proposed to introduce the Bill, a raiyat or under-raiyat shall not, in any case, be bound to pay a money-rent exceeding five-sixteenths of the estimated gross produce of his holding. The limit originally proposed was thirty-five per cent. It has now been lowered at the suggestion of the Lieutenant-Governor; but the figures must be regarded as merely provisional and subject to reconsideration.

86. Section 120 in effect enacts that contracts fixing rents shall, in temporarily-settled tracts hold good only until a fresh settlement is made. The reasons for this provision are similar to those stated above (paragraph 21) in connection with section 20.

87. Section 124 makes the rent of a transferable holding the first charge on that holding.

### CHAPTER X.—*Other provisions applicable to several classes of Tenants.*

88. The question as to the right of a raiyat to make improvements, and to claim compensation therefor on ejectment will, if the proposal to make occupancy-rights freely saleable in execution

of a decree is adopted, be of less importance in Bengal than in some other parts of British India. The great mass of the raiyats having a right of occupancy, and not being liable to be ejected except under peculiar circumstances of rare occurrence, and the question of compensation adjusting itself when an occupancy-right is sold in execution of a decree, claims for compensation for improvements will be comparatively few. But the importance, from an economical point of view, of encouraging improvements is so great in this country, that special provision has been made for the matter to meet the case of ordinary raiyats, and such cases as may, from time to time, occur of occupancy-raiyats being ejected from their holdings.

The principle on which the sections of the Bill relating to this subject proceed is that that party to a tenancy whose interest in the land preponderates should have the preferential right to improve and take the full benefit of his improvements; but that, if the party having this preferential right is unable or unwilling to avail himself of it, it should be open to the other party to make an improvement and reap the benefit of it.

Section 127 accordingly confers upon an occupancy-raiyat the preferential right to improve, and provides (subject to one exception to be presently noticed) that, if he does not avail himself of this right and the landlord desires to have any improvement made, he may call upon the raiyat to make it, and that, if the raiyat does not within a reasonable time comply with the request, the landlord may make the improvement himself. Section 128 enacts what may be termed the inverse of these provisions for the case of the ordinary raiyat, that is to say, it gives the preferential right to the landlord, and allows the raiyat to improve only if the landlord, upon being requested by the raiyat to make an improvement, neglects to do so within a reasonable time.

89. There is however, as has been intimated, an exception made to these rules in the case of one sort of improvement, namely, a dwelling-house for the raiyat and his family. This, it is considered, is an improvement which every raiyat, an ordinary as well as an occupancy-raiyat, should be entitled to make; and it is further considered that it is not an improvement, which a landlord should be empowered to force on a raiyat against his will. As regards this improvement, accordingly, it is provided simply that any raiyat may make it; no right to make it, whether preferential or otherwise, being conferred on the landlord.

90. When a landlord makes an improvement under these sections, he will be entitled to reap the full benefit of it in the shape of an enhancement of the rent under the provisions of the Bill relating to that subject. When a raiyat makes an improvement under these sections, he will, if ejected, be entitled, under section 129 of the Bill, subject to certain exceptions which it is unnecessary to notice here, to receive compensation for it. An occupancy-raiyat will further, while he continues to hold, reap the full benefit of his improvements, inasmuch as his rent cannot, under Chapter VI, be enhanced on account of an improvement made by him. An ordinary raiyat under similar circumstances may possibly not be able, in all cases, to retain the full benefit of his improvements, but the check placed on the landlord by the provisions of Chapter VIII will, as a rule, amply protect him in the enjoyment of that benefit.

91. The only other provisions of the Bill, relating to improvements, which seem to call for notice here, are the last clause of section 129, which enacts that improvements made by a raiyat before the commencement of the Act shall be deemed to have been made in accordance with the Act (and therefore to give a claim to compensation), unless it is shown that the landlord forbade the raiyat to make them and was ready to make them himself, and section 132, which makes void all stipulations in contracts providing (*a*) that a landlord may prevent a raiyat from improving or eject him for improving, or (*b*) that a raiyat when ejected shall not be entitled to compensation for improvements.

92. In section 133, providing for the landlord's right to measure lands comprised within an estate or tenure the rents of which are payable to him, the existing law has been modified so as to give a landlord the right to measure all lands lying within the estate or tenure, whether rent-paying or not. As observed by the Government of Bengal, "a landlord has at present no right to measure lákhiráj, and a rent-free holder may, in virtue of a valid grant of ten bíghás, be holding double as much or more. The mere measuring by the landlord cannot harm him, as he could not be ousted from possession save through the Civil Court. But the landlord seems entitled to make a complete survey of his estate." (*Letter from Government of Bengal, No. 849T, dated 27th July, 1881, page 25.*)

93. The proviso to section 133 enacts that, when land has been measured under that section, it shall not again be measured for ten years without the written permission of the Collector. This seems but reasonable, a right to measure once in ten years being sufficient in all ordinary cases.

94. The only other provisions of this sub-division of the chapter, which deviate in any material respect from the existing law, are those of sections 137 and 138, relating to the standards of measurement. They adhere so closely to the corresponding provisions of the Bill prepared by the Rent Law Commission that the following extract from the Commission's Report (para. 140) will best explain them :—

"The length of the local standard pole, with which a measurement of land should be made, is a fertile subject of dispute and litigation. It is not uncommon for a land-

lord to make a measurement of his lands with a pole of his own selection, the actual length of which must be a subject of doubt upon the evidence, while the raiyats concerned aver not only that the standard pole of the pargana is different, but that during the measurement a third pole has occasionally been substituted for that which the landlord claims to be the standard. In order to remedy these difficulties as far as possible, we have enacted that all measurements made by order of the Civil Court or Collector shall be made according to the Government measure of 14,400 square feet to one standard bíghá. It it be shown that the rights of the parties to the suit are regulated by any different local measure depending upon a pargana standard pole, the Government measure shall be converted into local measure for the purposes of the suit. In case of dispute as to the standard pole, the Collector shall, in any suit before himself, or in any suit before a Civil Court, on a reference made for this purpose by such Court, determine the proper length of such pole. We have followed the present law, as settled by the decisions, in enacting that an appeal shall lie from the Collector's decision to the District Judge, but that, if no such appeal be preferred, the decision of the Collector shall be final."

95. It is stated in Mr. Field's digest, section 12 (4), as the result of decided cases, that a raiyat's interest in the land determines when he ceases to cultivate the land and leaves the neighbourhood without arranging for the payment of the rent. Mr. Field observes that the cases leave the matter thus indefinite, and that, if the proposition is adopted by the legislature, it should be made more precise. Section 140 of the Bill, following this suggestion, provides that, when a tenant of a non-transferable holding leaves the holding uncultivated and the rent of it unpaid for a period of one year, he shall be deemed to have surrendered, except in cases in which, owing to an inundation or any other accident to the land beyond his control, it may have been impossible for him to cultivate.

96. Section 141, relating to the doctrine of merger, follows the corresponding provisions (sections 43 and 44) of the Bill prepared by the Rent Commissioners, who state in their Report that some such enactment is needed to settle the law in Bengal. It provides, subject to certain exceptions and qualifications which it is unnecessary to specify here, that, when, in the case of any tenancy, the interest of the landlord and that of the tenant become by transfer, succession or otherwise united in the same person, so as to be owned by him in the same right, the interest of the tenant shall, during the three months following, be presumed to be merged in that of the landlord, unless the person shows that he has not intended it to be so, and shall, after the expiration of the three months, be conclusively deemed to be so merged, unless, within the three months, the person has executed an instrument declaring his intention that a merger should not take place, and the instrument has been registered and published in a certain prescribed manner.

97. Sections 142 to 148, relating to the appointment of a manager on behalf of co-owners of an estate or tenure, are taken, with slight alterations in the drafting, from the Bill framed by the Rent Law Commission. Their history and the nature of the provisions they contain will be best seen by an extract from the Commission's report. After describing at some length (paragraph 134) the complications, litigation and even riots which arise when co-owners of an estate or tenure (or, as they are sometimes termed, coparceners) quarrel among themselves, and the grievous harassment, to which the tenants are exposed, in such cases, the report proceeds as follows:—

"135. The necessity of a remedy for this state of things was felt at an early period of British administration, and in 1812 it was enacted that, inasmuch as inconvenience to the public and injury to private rights had been experienced in certain cases from disputes subsisting among the proprietors of joint undivided estates, whenever sufficient cause shall be shown by the Revenue-authorities, or by any of the individuals holding an interest in such estates, for the interposition of the Courts of Judicature, it shall be competent to the Zila Judges to appoint a person duly qualified and under proper security to manage the estate; that is, to collect the rents and discharge the public revenue, and provide for the cultivation and future improvement of the estate (Regulation V of 1812, section 26). The Judge was also competent, upon the representation of the Revenue-authorities, or of any such person as aforesaid, to remove any manager so appointed (*ib.*, section 27). A subsequent Regulation (V of 1827) enacted that, when the Zilla Court thought it just and proper under the provision of that Regulation to provide for the administration or management of landed property, it should issue a precept to the Collector, directing him to hold the estate in attachment and appoint a person for the due care and management thereof, under good and adequate security for the faithful discharge of the trust in a sum proportionate to the extent thereof. The reference in Regulation V of 1827 to Regulation V of 1812 was repealed by Act XVI of 1874, so that it is not now competent to a District Judge to send a precept to the Collector directing him to provide for the management of an estate belonging to a joint undivided family. The fragment of Regulation V of 1812 which is still in force is incomplete, and in consequence almost inoperative.

"136. Such being the present state of the law, a majority of us have thought that this fragment might well be repealed and a complete set of effective provisions substituted

therefor. We have accordingly enacted that, when coparceners, who jointly own an estate, tenure or under-tenure, disagree as to the joint management thereof, and in consequence there has ensued, or is likely to ensue, (*a*) inconvenience to the public, (*b*) injury to private rights, the District Judge may, upon the application in case (*a*) of the Collector, and in case (*b*) of any one having an interest in such estate, tenure or under-tenure, direct a notice to be served upon the coparceners, calling upon them to show cause why they should not appoint a common manager. If the coparceners do not, within a month, show cause why they should not appoint a common manager, the District Judge may direct them to do so. If they fail to obey that direction, the District Judge may either appoint a manager, or direct that the estate, tenure or under-tenure be managed by the Court of Wards, if it is willing to undertake the charge. We have thought it advisable to give the coparceners an opportunity of appointing a manager of their own selecting, before the District Judge proceeds virtually to depose them. When the Court of Wards undertakes the charge, it will govern itself by the provisions of *the Court of Wards Act*, IX (B.C.) of 1879. It is discretionary with the Court of Wards to undertake the charge or not. A majority of us have thought it advisable to render this system of management possible, as there may be cases in which no other management will be available. Mr. O'Kinealy doubts if it is advisable to extend the exceptional jurisdiction of the Court of Wards and empower it to manage the estates of persons who happen to disagree amongst themselves. When the District Judge appoints a manager, he is empowered to settle his remuneration, and the manner of it, whether, that is to say, by a fixed salary or a percentage of the collections. He is also empowered to require reasonable security for the proper discharge of the duties of the office. The manager is authorized to exercise the same powers as the coparceners jointly might, but for his appointment, have exercised. He is required to keep regular accounts and to allow the coparceners to inspect and take copies of them. He may be removed upon the application of the Collector, or of any person interested in the estate, tenure or under-tenure. The District Judge may at any time direct that the management be restored to the coparceners, if he is satisfied that they will conduct it without inconvenience to the public or injury to private rights."

98. The only other section in this chapter which calls for notice is section 149, which enacts that no tenant shall be ejected from his holding except in execution of a decree.

### CHAPTER XI.—*Of the Settlement of Rents by a Revenue-officer.*

99. It has been stated, in the remarks above made on Chapter VI, that it is apprehended that, in many parts of the country, the framing of a table of rates will be impossible. It should be added that, in many instances, the mere framing of a table of rates will not suffice to settle the disputes between landlords and tenants. In either case the only satisfactory remedy may be a settlement of individual rents by a Revenue-officer, conducted somewhat in the same manner as in a Government estate at present, and it is with a view to providing such a remedy that Chapter XI has been framed.

100. There is, however, one cardinal difference between the provisions of this chapter and those of the existing settlement law which should be noted at the outset. Under the existing settlement law, when a Settlement-officer has, after the most careful and protracted inquiry, settled the rents of an estate, and his proceedings have been scrutinized and checked by the superior Revenue-authorities, every individual rent fixed by him is liable to be called in question in the Civil Courts, and that not merely on the ground of error in respect of some matter, such as the status of a tenant or the validity of an alleged lease, falling most appropriately within the cognizance of a Civil Court, but also on the ground of an error in regard to the quality of the soil, the estimated amount of the produce, or some other such matter with which the Revenue-authorities, conducting their inquiries on a great scale, are far more competent to deal than any Civil Court trying a suit relating to a single holding can possibly be; in other words, an important portion of the work, after being done by those authorities, who are most competent to perform it, is liable to be pulled to pieces by another set of authorities, who are far less competent to perform it. The enormous amount of unnecessary expense, trouble and vexation, which this system entails on all concerned can be estimated from the fact, stated by the Board of Revenue in referring to a recent settlement, that out of 2,391 decisions in suits brought to contest the Settlement-officer's rates, 2,202 were absolutely adverse to the plaintiffs. An attempt has been made to avoid this in Chapter XI of the Bill by distinguishing, among the various questions which may arise in a settlement of rents, those which the Revenue-authorities are most competent to determine, and those which a Civil Court is most competent to determine, making the decision of the Revenue authorities final on the former, and providing that the latter may ultimately be brought for decision before the Civil Court.

101. The procedure of this chapter, besides being available for the purpose of Government settlements, may be made applicable by the Local Government—

(*a*) when a large proportion of the tenants or of the landlords desires that it should be applied, and

(*b*) when a resort to it is likely to settle or avert a serious dispute, existing or likely to arise, between landlords and tenants generally.

It is applicable to tenants of any class, but would probably be made use of chiefly for settling the rents of occupancy-tenants.

102. When the rents to be settled are rents, which are subject to alteration by order of a Court, they will be *fixed* according to the principles embodied in the Bill, and so that they shall not exceed the maximum prescribed by the Bill in cases of enhancement. When, on the contrary, the rents are not of this description, they will be merely ascertained and recorded as rents are under Regulation VII of 1822.

103. The Revenue-officer, having settled the rents, will prepare a jamabandi, showing the status of each tenant, the land held by him, the name of his landlord, whether the rent has been fixed or ascertained, and the amount of the rent fixed or ascertained. This jamabandí will be published, and, after an opportunity for urging objections against it has been allowed, will be submitted to the higher Revenue-authorities with the objections and a report setting forth the grounds, on which the Revenue-officer has proceeded. If ultimately sanctioned by the Local Government, it will be again published, and will then continue in force for 10 years.

104. While it remains in force it will be conclusive (except as will be presently explained) as to the rents payable by those tenants, whose rents are shown in it as fixed. As regards rents shown in it merely as ascertained, and as regards all other matters contained in it, it will be merely presumed to be correct until the contrary is proved.

105. It will be observed that, in thus empowering a Revenue-officer to fix rents so as to bind the parties, we necessarily empower him to decide certain questions (as, *e. g.*, that of the status of a tenant) which more properly appertain to the jurisdiction of the Civil Courts and ought not to be finally decided by any other authority. It is not, however, intended that the Revenue-officer should finally decide such questions. He may, if he thinks fit, when such a question arises, abstain altogether from deciding it, and, under section 155, refer it to a Civil Court, or leave it to be raised before a Civil Court in a suit instituted by any party interested.

In most cases, he would probably decide the question on such evidence as might be readily available ; but, whenever he takes this course, his decision will be liable to be challenged in a Civil Court under section 160, which provides that nothing contained in it shall prevent the rent fixed being called in question on the ground—

(*a*) that the tenancy does not exist, or that the tenant is not liable to pay rent, or

(*b*) that the tenant belongs to a class different from that to which he is shown in the jamabandi to belong, or

(*c*) that the land comprised in the tenancy is different from, or more or less than, that shown in the jamabandí, or

(*d*) that a rent different from that shown in the jamabandi has been fixed by contract.

It is believed that the above list exhausts all the matters, in regard to which a Civil Court may be regarded as a better tribunal than the Revenue-authorities, and, if this is so, the determinations of the Revenue-authorities in regard to all other matters may safely be made final and conclusive.

106. It only remains to add that, by section 163, the Local Government is empowered to charge the expenses of all proceedings, other than Government settlements, under this chapter to the landlords and tenants concerned, in such shares as it thinks fit

### Chapter XII.—*Of the Preparation of a Record-of-rights by a Revenue-officer.*

107. The provisions of Chapter XII are somewhat similar to those of Chapter XI, and have been introduced into the Bill with a similar object, but are more limited in their scope, inasmuch as the operations to be undertaken under them do not, like those under Chapter XI, embrace the *fixing* of rents, but are confined to the ascertaining and recording of existing rights and existing rates of rent. Moreover, as existing rights and existing rates of rent are matters the determination of which properly belongs to the Civil Courts, an entry in the record-of-rights prepared by a Revenue-officer under this chapter, is in every case merely to be presumed to be true until the contrary is proved.

108. The only other points calling for notice under this chapter are, first, that the Local Government may apply its provisions not only in the cases, in which it is empowered to apply those of Chapter XI, but also in any other case, in which the Governor General in Council may sanction their being applied, and secondly, that the provisions of this chapter being considered a sufficient substitute for those contained in Act VIII (B. C.) of 1869, sections 38-40, these latter are not reproduced in the present Bill.

CHAPTER XIII.—*Of the Recovery of Rents from Raiyats and Under-raiyats by distraining the produce of the Holding.*

109. This chapter may be said to be the result of a compromise. The Rent Commission, concurring with the Bihár Rent Committee, proposed to abolish the existing law of distraint as an offset of English law, of which the efficacy was impaired by the legislation of 1859, and which had been abused in Bihár and not always applied in a regular manner in other parts of the country. To this strong objections were urged, and the procedure provided by this chapter was then devised by the Government of Bengal, as being likely to secure to the landlords most of the advantages afforded by the existing law, without exposing their tenants to the evils now complained of.

110. The modified power of distraint, which it is now proposed to allow, can be used by any landlord of a raiyat or under-raiyat for the recovery of an arrear of rent, which has not been due for more than a year. It extends, as a rule, to all the produce of the holding, including what may have been grown by, and be the property of, a sub-lessee of the tenant, and it may be exercised though the produce has been stored, provided it has not passed out of the possession of the cultivator. The landlord cannot himself interfere with the produce to be distrained, but must apply to a Civil Court to distrain it. The Court, after a brief examination of the case, will depute an officer to distrain and sell the produce, and nothing will stay the sale except the payment into court of the amount of the demand. Any sum paid into court will be retained for one month, with a view to the possibility of the owner of the distrained property claiming compensation as for a wrongful distraint, and on the expiration of that period it will be paid to the landlord.

111. Sections 185 and 186 are directed against illegal distraint and interference with crops. Section 185 provides, in effect, that any person who, otherwise than in accordance with the provisions of the Bill, or some other enactment for the time being in force, distrains any produce of a tenant's holding, or interferes with the harvesting of a crop, shall be deemed to have committed criminal trespass within the meaning of the Penal Code; and section 186 imposes a penalty which may extend to three months' imprisonment, or two hundred rupees fine, upon any person who benefits by, or is interested in, the commission of an offence under section 185 if, having reason to believe that the offence was likely to be committed, he has not used all lawful means in his power to prevent its commission.

112. Section 187 empowers the Local Government to suspend in any local area, for such time as it thinks proper, the sections which entitle a landlord to distrain.

CHAPTER XIV.—*Special rules of procedure applicable to Suits between Landlord and Tenant.*

113. Sections 191 to 198 are intended to embody all those modifications of the ordinary procedure proposed by the Rent Commission and the Government of Bengal, which seem likely to expedite, in any material way, the disposal of suits between landlords and tenants.

Sections 191 to 197 apply to—

(*a*) suits for recovery of rent;
(*b*) suits for penalties claimable under any provision of the Bill; and
(*c*) suits to recover possession of land.

They provide that, in such suits, the summons shall, as a rule, be issued for the final disposal of the case; that the summons may be served by a registered letter; that no written statement shall be filed without the leave of the Court; that the provisions of the Code of Civil Procedure relating to interrogatories, discovery and affidavits shall not apply; that, whether an appeal lies or not, a simple memorandum of the substance of the evidence, such as is prescribed by the Code for unappealable cases, shall suffice; that, as a rule, execution may issue on the oral application of the decreeholder at the time the decree is passed; and that section 305 of the Code, which enables a judgment-debtor to obtain a suspension of an order made for the sale of his immoveable property, and sections 320 to 325C, which provide for the transfer of decrees to the Collector for execution, shall not apply.

114. A further simplification of the procedure is effected in suits for arrears of rent and for penalties (involving no question of title or of a right to enhance or vary rent) by taking away (section 198) the appeal in such cases from—

(*a*) a decree or order passed by a District Judge, Additional Judge or Subordinate Judge, where the amount claimed does not exceed Rs. 100; and

(*b*) a decree or order passed by any other judicial officer specially empowered by the Local Government, where the amount claimed does not exceed Rs. 50.

In so far as regards the class of cases marked (*a*), the Bill merely reproduces the existing law, with this difference, that it extends the rule to decrees and orders of Subordinate Judges, who, it is thought, may now safely be entrusted with final jurisdiction in cases of this class.

The extension of the provision to the class of cases marked (*b*) is based on a proposal of the Rent Law Commissioners supported by the Local Government. The Rent Commissioners would have fixed the limit of value in such cases at Rs. 10, but the Lieutenant-Governor, who must be regarded as the best judge of the qualifications of his officers, has recommended that it should be raised to Rs. 50, the limit fixed by the present Bill.

115. It will be observed that the final jurisdiction in this class of cases will be exercised only by specially selected officers, and that a power of revision is reserved to the District Judge by the proviso to the section.

116. Section 199 is completely new. It is intended for the benefit of a landlord in a suit for an arrear of rent, when, as sometimes happens, the defendant admits that the arrear is due, but pleads that it is due not to the plaintiff but to some rival claimant. In such a case, it seems only reasonable that the tenant should pay the amount of the rent into court; and the Bill accordingly provides that the Court shall refuse to take cognizance of his plea unless he does so.

117. It is hoped that, when the measure comes to be fully discussed, other expedients for simplifying the procedure in rent-suits may be discovered, but, with the exception of those above referred to, none have hitherto been suggested which the Government of India would be prepared to accept. As regards the possibility of devising any effectual procedure analogous to that on negotiable instruments under Chapter XXXIX of the Code of Civil Procedure, or any other form of summary or provisional remedy, the whole history of such remedies both in this country and elsewhere is against it.

A summary form of procedure can scarcely help a plaintiff unless his case is of the simplest description, admitting of being answered only in the simplest way, and he comes into court armed with documentary evidence of so reliable a character that the presumption against any defence being possible is extremely strong. In such cases the Court may very properly, and with great advantage to the plaintiff, be empowered to decline to hear the defendant, and to decide against him summarily and provisionally, unless he pays the amount of the claim into court or gives security for it. But what advantage could be hoped for from a procedure of this description in rent-suits in Bengal, which admit of the most varied and complicated defences, in which the evidence on both sides is usually of the most worthless character, and charges of forgery and perjury almost common forms in the pleadings? If the legislature consented to provide such a procedure for rent-suits, it would probably feel bound to surround it with so many safeguards that the plaintiff would gain nothing by adopting it; and, even if such safeguards were dispensed with in the Act, the Courts would naturally be so cautious about refusing leave to defend or requiring security from a penniless raiyat, that the so-called summary remedy would cease to be summary, and, like the summary suits of former days in some parts of India, become as lengthy and complicated as an ordinary suit, with the further disadvantage of not being final.

118. The truth would seem to be that facilities for recovering rents in Bengal should be sought for, not so much in novel forms of procedure as in a reliable record of tenancies and their incidents, and a simple mode of adjusting rents; in other words, by going to the root of the disputes which, though they may not always come to the surface, are believed to underlie a very large proportion of the contested rent-suits. If this view is correct, the provisions of the Bill regarding the preparation of tables of rates, settlement of rents and framing of records-of-rights, and those regarding receipts and accounts, may reasonably be expected to remove most of the difficulties of which the landlords now complain.

119. Section 200, following the Bill proposed by the Rent Law Commission, enacts that an application for the execution of a decree for arrears obtained by a landlord shall not be made by an assignee of the decree, unless the landlord's interest in the land has become vested in that assignee.

120. Section 202, relating to relief against forfeitures, is based on section 14 of the Conveyancing and Law of Property Act, 1881. It enacts that a suit for ejectment of a tenant, on the ground of his having forfeited his interest by breach of a condition, or the like, shall not be entertained unless the landlord has given the tenant an opportunity of paying compensation and remedying the breach when it admits of remedy, and that, when a decree is passed in such a suit, it shall not be executed until the defendant is allowed a similar opportunity of repairing or atoning for his wrongful act.

121. The Rent Law Commissioners observe that "there are in the existing law no provisions regarding the away-going crop, and, as a natural consequence, when a tenant is ejected while the crop is on the ground, the right to this crop is a constant source of dispute and litigation." Sections 203 and 204 of the Bill have been framed to meet such cases. They provide, in effect, that it shall be in the option of the landlord to purchase the crop from the raiyat at a valuation, or to allow him to retain possession of the land at a reasonable rent till he gathers the crop. Similarly, when the raiyat has prepared the land for sowing before the date on which he is ejected, section 203 provides that he shall be entitled to receive from the landlord the esti-

mated value of the labour and capital expended by him in preparing the land, together with reasonable interest on the same. These sections are, however, guarded by a proviso that a raiyat shall have no claim under them when, after the commencement of the ejectment-proceedings, he has cultivated or prepared the land contrary to local usage.

122. Sections 205 and 206 require the Court in all suits and proceedings for ejectment to inquire into and adjust all claims between the landlord and the tenant. This provision will, it is believed, be found useful as tending to prevent a multiplicity of suits.

123. The origin and object of section 207, which provides for the institution of suits to determine the status of a tenant or the incidents of a tenancy, will be best explained by an extract from the report of the Rent Commissioners. After referring to the provisions of the existing law regarding suits for pattás and kabuliyats, they thus continue :—

"We have just observed that very little use has been made of these provisions by those for whose benefit they were intended. This observation was more particularly concerned with their use as a means of reducing to writing the conditions regulating the relation of landlord and tenant. There is, however, another purpose for which they might have been used, that is, as a means to obtain an authoritative settlement of some essential question connected with the tenancy and in dispute between the parties thereto; the rate of rent, for example, or the quantity of land held by the tenant. The landlord may contend that the raiyat holds twenty bíghás of land, while the raiyat declares that he has but fifteen. Year after year the contention is renewed The landlord threatens a measurement, which the raiyat, afraid of a venal *amín* and a varying pole, desires to avoid. A bribe to the *gomáshta*, or compliance with some petty cess defers the final settlement of the question for a year: and the following year it arises again, perhaps deterring the raiyat from going to his landlord's *kachahrí* to pay his rent, lest he should be subjected to a demand, the justice of which he will not admit. Or, some fields in the raiyat's holding are by him maintained to be second class rice-land and assessable with the prevailing or usual rate for land of this class, whilst the landlord avers that they are first class rice-land and should pay a higher rent. At every rent-day the point is discussed; and in a country where any discussion is prone to beget a wrangle, seldom conducted with a seemly choice of expressions, an amount of irritation is kept up, which is not in harmony with the friendly relations which should exist between a landlord and his tenantry. It is very desirable that facility be afforded for the ready settlement of questions like these, which are constantly arising in this country, more specially in consequence of the absence of boundaries and fences, and the want of an exact survey upon an uniform standard. It might have been thought that the landlord in the first case could easily have the questions settled by tendering a pattá and demanding a kabuliyat for twenty bíghás; and the landlord, in the second case, by tendering a pattá and demanding a kabuliyat for the field, as first class rice-land: but if the land turned out to be nineteen and a half bíghás instead of twenty, or one of the fields was found to be of some middle class kind of land, the suit, according to the decision of the highest tribunal in India, must fail, and the parties be sent away, the real question in dispute unsettled, and their feelings roused and embittered by litigation.'

"Thus these provisions of the existing law have become ineffectual for the only purpose for which the people cared to use them, and for which they might have been beneficially used. While omitting what has been found useless in practice, we have endeavoured to supply the want thus indicated by experience. Section 151 of the draft Bill accordingly allows either landlord or tenant to sue for the determination of any such questions which may arise between them. A copy of the decree passed in the case will have all the effect of a pattá or kabuliyat upon the point which the parties themselves wish to have determined."

CHAPTER XV.—*Sale of transferable Holdings in execution of Decrees for Arrears due on them.*

124. The provisions of this chapter are made applicable to all transferable holdings, including such tenures as are transferable, occupancy-holdings, and bastu holdings under Chapter VII, and involve, in certain other respects, substantive changes in the existing law.

The most important of those changes will be best explained in the words of the Rent Commissioners, with whom it originated :—

"The object," they say, "of making sub-leases and incumbrances voidable upon the sale of a tenure for arrears of rent is, that the superior landlord's security for his rent may not be impaired. If the sub-leases and incumbrances of a tenure have not absorbed so much of the tenure-holder's profits as to render the interest left him insufficient to meet the rent which he pays to the proprietor of whom he holds his tenure; if the tenure, subject to these sub-leases and incumbrances, will sell for a sum sufficient to satisfy any decree that can be passed for arrears of the rent payable by the tenure-holder, it cannot be said that the proprietor-landlord's security for his rent has been impaired so far as to bring the case within the above object. The right of sub-letting and creating incumbrances belongs to every tenure-holder: such is the common law

of the country. So long as the landlord is certain of the rent to which he is entitled, he cannot justly complain of the exercise of this right, or claim to interfere with it. When, however, the exercise of the right extends so far as to endanger the landlord's rent, to impair the security for such rent afforded by the sale of the tenure by public auction, the case is altered, and the landlord may reasonably demand that these sub-leases and incumbrances be avoided, which have rendered the remaining interest of the tenure-holder an insufficient security for the rent payable by him.

"In this view of the matter, we have enacted that a tenure, under-tenure or occupancy-holding, about to be sold in execution of a decree for arrears of its own rent, shall first be put up to auction subject to certain incumbrances, and, if the sum bid is sufficient to liquidate the amount of the decree and costs, shall be sold subject to such incumbrances. If the highest amount bid is not sufficient to liquidate the decree, the decree-holder, that is, the landlord, may then claim to have the tenure, &c., sold free of incumbrances. Such sale is not to be had immediately, but upon a subsequent sale-day not less than fifteen or more than thirty days afterwards; and a notification of such tenure being about to be offered for sale free of incumbrances must be posted upon some conspicuous place upon the land of the tenure. The effect of these provisions will be that persons who hold sub-leases and incumbrances will not be endamaged if the bidding on the first sale-day reaches an amount sufficient to satisfy the decree and the tenure is in consequence sold subject to incumbrances. If, on the other hand, the bidding on the first sale-day does not reach an amount sufficient to satisfy the decree, such persons will have time to protect themselves from injury by paying in the amount of the decree (which they can subsequently recover from the defaulter), and so preventing such a sale of the tenure as will avoid incumbrances."

125. Among the objections to the scheme thus propounded by the Commissioners was one to the effect that it was unsuited to the case of occupancy-holdings. This objection is admitted by Mr. Reynolds and by the Government of Bengal to be as a rule well-founded, inasmuch as an ordinary-occupancy-holding is not likely to be saddled with incumbrances which should be respected at a sale. It appears, however, that there are, in some parts of the country, occupancy-holdings of large extent, the land of which is sub-let on such terms that the interest of the lessee is of considerable value. Under these circumstances, the proper course appears to be that proposed by the Government of Bengal, namely, that occupancy-holdings should as a rule be sold at once with power to annul all incumbrances, but that the Local Government should have power to direct that the occupancy-holdings in any local area should be in the first instance put up subject to incumbrances as if they were tenures; and it is on these lines that the present Bill is drawn.

126. The general outline of the chapter will be clear from what has been said, but there are certain details of sufficient importance to call for further explanation. In the first place, it should be stated that the word "incumbrance" is used throughout in a special sense. When it is said that a holding will be sold "free of incumbrances," or as the Bill puts it, "with power to avoid incumbrances," it is not meant that it will be discharged free of everything that might in the wide sense of the word be termed an "incumbrance."

The following interests, which might be termed incumbrances, will not be affected by any sale under this chapter:—

(*a*) a tenure existing from the time of the permanent settlement;

(*b*) a tenure recognized by the settlement-proceedings of any current temporary settlement as a tenure at a rent fixed for the period of that settlement;

(*c*) a tenure of land whereon dwelling houses, manufactories or other permanent buildings have been erected, or permanent gardens, plantations, tanks, canals, places of worship or burning or burying grounds have been made;

(*d*) a right of occupancy;

(*e*) a right conferred on an occupancy-tenant to hold at a rent which was a fair and reasonable rent at the time the right was conferred; and

(*f*) any right or interest which the landlord has expressly and in writing given the tenant permission to create.

The last three of these are protected in similar sales under the existing law, and the first three have been added, because such interests being protected under a sale for arrears of revenue, would seem to be *à fortiori* entitled to protection under a sale for rent.

127. Again, when the Commissioners propose that the holding shall be put up in the first instance subject to incumbrances, they do not mean that it should be sold subject to all incumbrances, but only to such incumbrances as have been created by a registered instrument of which a copy has been served on the landlord. This limitation they considered necessary to prevent sham incumbrances being fraudulently set up after the sale.

128. The Bill has been drawn in accordance with these views, and accordingly, if it becomes law, the result will be—

(*a*) that the interests referred to in paragraph 126 will be protected in the case of all sales;

(*b*) that, in the case of sales subject to encumbrances, the protection will extend also to incumbrances created by registered instruments of which a copy has been served on the landlord; and

(*c*) that, except as stated in (*a*) and (*b*), the holding will be sold with power to avoid all liens, sub-tenancies, easements and other rights or interests created upon it by the tenant in limitation of his own interest.

129. An incumbrance will not become void *ipso facto* on a sale under this chapter. It must be annulled by a notice served on the incumbrancer through the Collector within one year after the purchaser first has knowledge of the incumbrance. It may be added that it is proposed, by separate legislation, to apply a similar rule to the case of sales for arrears of revenue.

130. When an order for the sale of a holding is passed under this chapter, nothing will stop the sale, unless the amount due is paid into court or the decree-holder acknowledges that his claim has been satisfied.

131. When any person, having in a holding advertized for sale under this chapter an interest which would be voidable upon the sale, pays into court the amount requisite to prevent the sale, he will, with a view to the recovery of his money, be placed by section 218 in the position of a mortgagee of the holding with a first charge and a right to possession. If he is an inferior tenant of the holding, he will have a further remedy under section 219 which entitles him to deduct the amount from his rent.

132. The only other provision of this chapter which need be mentioned is section 220, which permits the decree-holder to bid at the sale without the permission of the Court, and precludes the judgment-debtor from bidding.

### CHAPTER XVI.—*Limitation.*

133. The only provision of this chapter calling for notice is section 225, under which disability will not be recognised as affecting the running of limitation in suits for the recovery of rent. This is in accordance with the recommendation of the Rent Law Commissioners.

"We think," they say, "that a minor ought not to be competent on coming of age to sue a raiyat for rent, which had accumulated during the whole period of his minority; that this kind of debt, which a poor man usually discharges year by year out of the produce of the year, ought not to be allowed to accumulate; and that, if the manager of a minor's estate neglects his duty of realizing rents as they fall due, the minor's remedy ought to be in an action for damages against such manager."

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[Second publication]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th March, 1883, and was referred to a Select Committee :—

## No. 6 OF 1883.

# THE INLAND STEAM-VESSELS BILL, 1883.

### CONTENTS.

PREAMBLE.

CHAPTER I.

PRELIMINARY.

SECTIONS.

1. Short title.
   Extent.
2. Commencement.
3. Repeal of enactments.
4. Definitions.

CHAPTER II.

SURVEY OF INLAND STEAM-VESSELS.

5. Inland steam-vessel not to make a voyage unless furnished with certificate under Act.
6. Appointment of surveyors and places of survey.
7. Powers of surveyors.
8. Grant of certificate by surveyors.
9. Form of certificate of survey.
10. Fees for survey.

SECTIONS.

11. Certificate to be affixed in conspicuous part of vessel.
12. Term of certificate.
13. Cancellation or suspension of certificate by Local Government.
14. Power to require delivery of expired or cancelled certificate.
15. Report to be made of cancellation or suspension of certain certificates.
16. Power to order a second survey.
17. Power for Local Government to make rules as to surveys.
18. Power for Local Government to exempt certain vessels.

CHAPTER III.

MASTERS AND ENGINEERS OF INLAND STEAM-VESSELS.

19. Inland steam-vessels not to make voyage without certificated master and engineer.
    Exception.
20. Examiners to be appointed and rules of examination made.
21. Grant of masters' certificates of competency.
22. Grant of engineers' certificates of competency
23. Grant of engineers' certificates of service.
24. Certificates to be made in duplicate.
25. Copy of certificate to be granted in certain cases.
26. Certificated masters to be deemed pilots under Indian Ports Act.

CHAPTER IV.

INVESTIGATIONS INTO CASUALTIES.

27. Report of casualties to be made to Local Government.
28. Power for Local Government to appoint special Court of Investigation.

SECTIONS.

29. Power for principal Court of ordinary criminal jurisdiction to hold investigations into casualties when so directed.

30. Power for Court of Investigation to enquire into charges against masters and engineers.

31. Power for Local Government to direct investigation into charges of incompetency or misconduct.

32. Person accused to be heard.

33. Assessors.

34. Power of Court as to evidence and regulating proceedings.

35. Power of Court to arrest witnesses and cause entry and detention of vessels.

36. Power to commit for trial and bind over witnesses.

37. Depositions.

38. Report by Court to Local Government.

39 Power to investigate causes of explosions.

CHAPTER V.

SUSPENSION AND CANCELLATION OF MASTERS' AND ENGINEERS' CERTIFICATES.

40. Power for Local Government to suspend or cancel certificates in certain cases.

41. Obligation to deliver up cancelled or suspended certificate.

42. Report to other Local Governments.

43. Power to revoke cancellation or suspension and to grant new certificate.

CHAPTER VI.

PROTECTION OF INLAND STEAM-VESSELS FROM DANGER BY FIRE.

44. Power for Governor General in Council to declare dangerous goods.

45. Carriage of dangerous goods.

46. Power to throw overboard dangerous goods.

SECTIONS.

47. Power for Local Government to make rules for protection of inland steam-vessels from danger by explosion or fire.

CHAPTER VII.

PENALTIES AND LEGAL PROCEEDINGS.

48. Penalty for steam-vessel making a voyage in contravention of section 5.

49. Liability of master or officer, when a licensed pilot, to lose his license.

50. Penalty for neglect to affix certificate of survey.

51. Penalty for neglect or refusal to deliver up certificate as required under section 14.

52. Penalty for serving, or engaging a person to serve, as master or engineer without certificate.

53. Master failing to give notice as required by section 27.

54. Master or engineer failing to deliver up cancelled or suspended certificate.

55. Penalty for taking dangerous goods on board inland steam-vessels without notice.

56. Penalty for misconduct endangering vessel or life or limb.

57. Distress of vessel.

58. Magistrates having jurisdiction.

59. Place of trial.

60. Saving of prosecutions under other Acts.

CHAPTER VIII.

MISCELLANEOUS.

61. Fees recoverable as fines.

62 Rules.

63. Notifications.

FIRST SCHEDULE.—ACTS REPEALED.

SECOND SCHEDULE.—FORM OF SURVEYORS' CERTIFICATE.

THIRD SCHEDULE.—RATES OF FEES.

## *Inland Steam-vessels Bill.*

## *Chapter II.—Survey of Inland Steam-vessels.*

***A Bill to amend the law relating to the Survey, and the Examination and Grant of Certificates to Engineers, of Inland Steam-vessels, and to provide for certain other matters relating to those vessels.***

Preamble.

WHEREAS it is expedient to amend the law relating to the survey of inland steam-vessels and the examination and grant of certificates to engineers of those vessels;

And whereas it is also expedient to provide for the grant of certificates to the masters of inland steam-vessels, and for investigations into casualties affecting, and into charges against masters and engineers of, those vessels, and for the protection of passengers and goods carried thereon from danger by fire; It is hereby enacted as follows:—

### CHAPTER I.

PRELIMINARY.

Short title. Extent.

1. (*1*) This Act may be called the Inland Steam-vessels Act, 1883, and

(*2*) It extends to the whole of British India.

Commencement.

2. (*1*) This Act shall come into force on such day as the Governor General in Council by notification in the official Gazette directs.

(*2*) But any notification, rule or appointment may be made under this Act at any time after the passing thereof, but shall not take effect until the Act comes into force.

(*3*) And nothing in this Act shall apply to any ship belonging to, or in the service of, Her Majesty, or the Government of India, or belonging to any foreign Prince or State.

Repeal of enactments.

3. (*1*) On and from the day on which this Act comes into force, the Acts mentioned in the first column of the first schedule hereto annexed shall be repealed to the extent mentioned in the third column thereof.

(*2*) But all proceedings commenced, investigations held, and certificates granted, cancelled or suspended under any of the said Acts, shall be deemed to have been respectively commenced, held, granted, cancelled or suspended under this Act or under the Indian Steamships Act, 1853, as the case may be.

Definitions.

4. In this Act, unless there is something repugnant in the subject or context,—

(*1*) "vessel" includes anything made for the conveyance by water of human beings or of property:

(*2*) "steam-vessel" means every description of vessel propelled wholly or in part by the agency of steam:

(*3*) "inland water" means any canal, river, navigable lake or water in British India:

(*4*) "inland steam-vessel" means a steam-vessel which ordinarily plies on inland water:

(*5*) "voyage" includes also the plying of a vessel at or about any place: [Ben. Act V of 1879, s. 2.]

(*6*) "owner" includes also an agent: and

(*7*) "master" means any person (except a pilot or harbour-master) having for the time being the charge or control of a vessel.

### CHAPTER II.

SURVEY OF INLAND STEAM-VESSELS

Inland steam-vessel not to make a voyage unless furnished with certificate under Act.

5. An inland steam-vessel shall not make a voyage unless she is furnished under this Act with a certificate of survey then in force. [Cf. Act XVI of 1871, s. 3; Bombay Act II of 1864, s. 1, as amended by Bom. Act IV of 1873, s. 4. Bengal Act V of 1862, s. 1, as amended by Bengal Act I of 1868, s. 1.]

Appointment of surveyors and places of survey.

6. (*1*) The Local Government may, from time to time, appoint so many persons as it thinks fit to be surveyors for the purposes of this Act at such places within the territories under its administration as it may, from time to time, appoint to be places of survey. [Cf. Act XVI of 1871, s. 4; Bom. Act II of 1864, s. 2; Bom. Act IV of 1873, s. 12; Ben. Act V of 1862, s. 2; Ben. Act I of 1868, s. 2.]

(*2*) Every surveyor so appointed may be suspended or removed by the Local Government which appointed him.

(*3*) Every surveyor so appointed shall, for the purposes of the survey, be deemed to be a public servant within the meaning of the Indian Penal Code. XLV of 1860.

Powers of surveyors.

7. (*1*) For the purposes of a survey under this Act, the surveyors appointed under section six may, at any reasonable time, go on board any inland steam-vessel, and may inspect the steam-vessel and every part thereof, and the machinery, equipments or articles on board thereof: [Cf. Act XVI of 1874, s. 5; Bom. Act II of 1864, s. 3; Ben. Act V of 1862, s. 3.]

Provided that they shall not unnecessarily hinder the loading or unloading of the steam-vessel, or unnecessarily detain or delay her from proceeding on any voyage.

(*2*) The owner, master and officers of the steam-vessel shall afford to the surveyors all reasonable facilities for a survey, and all such information respecting the steam-vessel, and her machinery and

## *Inland Steam-vessels Bill.*

### *Chapter II.—Survey of Inland Steam-vessels.*

equipments, or any part thereof, respectively, as they may reasonably require.

[Act XVI of 1871, s. 6. Bom. Act II of 1864, s. 4. Ben. Act V of 1862, s. 4.]

**8.** Every survey under this Act shall be made by not less than two surveyors, and, when the survey is completed, the surveyors making it shall forthwith, if each of them is satisfied that the steam vessel is sufficient, so far as it is his duty to survey her, for service as an inland steam-vessel, grant to the owner or master of the steam-vessel surveyed, on payment by him of the fees hereinafter mentioned, a certificate of survey under this Act.

Grant of certificate by surveyors.

[Cf. Act XVI of 1871, s. 6. Bom. Act II of 1864, s. 4. Ben. Act V of 1862, s. 4.]

**9.** Every certificate of survey granted under this Act shall be signed by each of the surveyors granting it, and shall contain a statement of the particulars specified, and be framed, as nearly as the circumstances of each case will admit, in the form set forth in the second schedule hereto annexed, or shall contain a statement of such other particulars, or be framed in such other form, as the Local Government may by rule prescribe.

Form of certificate of survey.

[Cf. Act XVI of 1871, s. 10. Bom. Act II of 1864, s. 10, as amended by Bom. Act IV of 1873, s. 11. Ben. Act V of 1862, s. 10, as amended by Ben. Act III of 1871, s. 1.]

**10.** For every survey made under this Act, the owner or master of the steam-vessel surveyed shall pay to each of the surveyors making the survey—

Fees for survey.

(*a*) a fee calculated on the tonnage of the vessel according to the rates in the third schedule hereto annexed, or according to such other rates as the Local Government may, by notification, prescribe; and,

[Cf. Bom. Act IV of 1873, s. 13, and Ben. Act I of 1868, s. 5.]

(*b*) when the survey is made in any place of survey other than Calcutta, Madras, Bombay or Rangoon, such additional fee, in respect of the expense (if any) of the journey of the surveyor to the place, as the Local Government may, by notification, prescribe.

[Cf. Act XVI of 1871, s. 11. Bom. Act II of 1864, s. 11. Ben. Act V of 1862, s. 11.]

**11.** The owner or master of every steam-vessel for which a certificate of survey has been granted under this Act shall forthwith, on the receipt of the certificate, cause it to be affixed, and kept affixed so long as it remains in force and the vessel is in use, on some conspicuous part of the vessel where it may be easily read by all persons on board thereof.

Certificate to be affixed in conspicuous part of vessel.

[Act XVI of 1871, s. 12. Bom. Act II of 1864, s. 12. Ben. Act V of 1862, s. 12.]

**12.** A certificate of survey granted under this Act shall not be in force—

Term of certificate.

(*a*) after the expiration of twelve months from the date thereof; or

(*b*) after the expiration of the period, if less than a year, for which the hull, boilers, engines or any of the equipments have been stated in the certificate to be sufficient; or

(*c*) after notice has been given by the Local Government, to the owner or master of the steam-vessel to which the certificate relates, that the Local Government has cancelled or suspended the certificate.

[Act XVI of 1871, s. 13. Bom. Act II of 1864, s. 13. Ben. Act V of 1862, s. 13. 17 & 18 Vict. c. 104, s. 4.]

**13.** Any certificate of survey granted under this Act may be cancelled or suspended by a Local Government if it has reason to believe—

Cancellation or suspension of certificate by Local Government.

(*a*) that the declaration in the certificate of the sufficiency and good condition of the hull, boilers, engines or any of the equipments of the steam-vessel has been fraudulently or erroneously made; or

(*b*) that the certificate has otherwise been granted upon false or erroneous information; or

(*c*) that, since the granting of the certificate, the hull, boilers, engines or any of the equipments of the steam-vessel have sustained any injury, or have otherwise become insufficient.

[Act XVI of 1871, s. 14. Bom. Act II of 1864, s. 14. Ben. Act V of 1862, s. 14.]

**14.** The Local Government may require any certificate of survey which has expired or has been cancelled or suspended to be delivered up to such person as it directs.

Power to require delivery of expired or cancelled certificate.

**15** If the Local Government which cancels or suspends under section thirteen a certificate is not the Local Government of the place where the certificate was granted, the Local Government cancelling or suspending the certificate shall report the fact of cancellation or suspension, together with the reasons therefor, to the Local Government of the place where the certificate was granted.

Report to be made of cancellation or suspension of certain certificates.

[Act XVI of 1871, s. 15. Bombay Act II of 1864, s. 14. Bengal Act V of 1862, s. 14.]

**16.** (*1*) If the surveyors making a survey under this Act refuse to give a certificate, or give a certificate with which the owner or master of the steam-vessel surveyed is dissatisfied, the Local Government may, on the application of the owner or master, direct two other surveyors appointed under section six to survey the steam-vessel.

Power to order a second survey.

(*2*) The surveyors so directed shall forthwith survey the steam-vessel, and may, after the survey, either refuse to give a certificate or give such certificate as under the circumstances seems to them proper, and their decision shall be final.

(*3*) Every survey made under this section shall be made subject to all the provisions and rules both as to the payment of fees and otherwise which are applicable to surveys made in ordinary cases under this Act.

[Cf. Act XVI of 1871, s. 16. Bom. Act II of 1864, s. 16. Ben. Act V of 1862, s. 16.]

**17.** (*1*) The Local Government may make rules to regulate the making of surveys under this Act.

Power for Local Government to make rules as to surveys.

(*2*) Rules under this section may, among other matters,

(*a*) declare the time and places at which, and the manner in which, surveys are to be made;

(*b*) assign and regulate the duties of each of the surveyors making a survey; and

(*c*) declare the form in which certificates of survey granted under this Act are to be framed, and the nature of the particulars which are to be stated therein.

## *Inland Steam-vessels Bill.*

## *Chapter III.—Masters and Engineers of Inland Steam-vessels.*

[Cf. defini... of sur... in Act ... of 1871, ... Act II of 1864, s. 17. ... Act V of 1862, s. 16.]

**18.** The Local Government may, with the previous sanction of the Governor General in Council, by notification, declare that all or any of the provisions of this Act relating to the survey of inland steam-vessels shall not apply in the case of any specified class of inland steam-vessels, or shall apply to them with such modifications as the Local Government may prescribe.

Power for Local Government to exempt certain vessels.

---

## CHAPTER III.

### MASTERS AND ENGINEERS OF INLAND STEAM-VESSELS.

[Cf. Bom. Act VII of 1879, s. 3. See also Act XVI of 1871, s. 20, Bom. Act IV of 1873, s. 18, Ben. Act I of 1868, s. 11, which, however, lay down a different rule.]

**19.** (*1*) An inland steam-vessel shall not make a voyage unless she has as her master a person possessing a master's certificate, and as her first or only engineer a person possessing an engineer's certificate, duly granted under this chapter and then in force.

Inland steam vessels not to make voyage without certificated master and engineer.

[Cf. Act XVI of 1871, s. 21, Bom. Act IV of 1873, s. 20, Ben. Act I of 1868, s. 13.]

(*2*) Nothing in this section shall apply to any steam-vessel which does not ply with passengers or goods, or as a steam-tug, for hire, and which the Local Government may, by notification, exempt from its operation.

Exception.

[Cf. Act XVI of 1871, s. 17, Bom. Act IV of 1873, s. 15, Ben. Act I of 1868, s. 8, Ben. Act VII of 1879, s. 2.]

**20.** The Local Government may, by notification, appoint persons for the purpose of examining the qualifications of persons desirous of obtaining certificates of competency as masters or as engineers of inland steam-vessels, and make rules—

Examiners to be appointed and rules of examination made.

(*a*) for the conduct of these examinations, and as to the qualifications to be respectively required of persons desirous of obtaining either of these certificates, and

(*b*) for the fees to be paid by all applicants for examination.

**21.** (*1*) The Local Government shall grant, to every person who is reported by the examiners to possess the necessary qualifications, a master's certificate of competency to the effect that he is competent to act as master of an inland steam-vessel.

Grant of masters' certificates of competency.

(*2*) Every certificate granted under this section shall be in such form as the Local Government may by rule prescribe.

[Cf. Act XVI of 1871, s. 18, Bom. Act IV of 1873, s. 16, Ben. Act I of 1868, s. 9.]

**22.** (*1*) The Local Government shall grant to every person—

Grant of engineers' certificates of competency.

(*a*) who is reported by the examiners to possess the necessary qualifications, or

(*b*) who possesses an engineer's certificate under the Imperial Merchant Shipping Acts for the time being in force, or to which the provisions of any such Act have been made applicable under the Merchant Shipping (Colonial) Act, 1869,

[Cf. Act XV of 1871, s. 2, Bom. Act IV of 1873, s. 2, Ben. Act I of 1868, s. 15, 32 & 33 Vic., c. 11]

an engineer's certificate of competency to the effect that he is competent to act as engineer of an inland steam-vessel.

(*2*) Every certificate granted under this section shall be in such form as the Local Government may, by rule, prescribe.

(*3*) Before granting a certificate under section twenty-one or this section, the Local Government, if it has reason to believe that the report of the examiners regarding any applicant has been unduly made, may require a re-examination of the applicant or a further inquiry into his testimonials and character.

[Cf. Act XV of 1871, s. 22, Bom. Act IV of 1873, s. 21, Ben. Act I of 1868, s. 10.]

**23.** (*1*) The Local Government shall grant to every person—

Grant of engineers' certificates of service.

(*a*) who, before the passing of this Act, has served for a period of not less than one year as first or second engineer in any foreign-going steam-vessel having engines of one hundred nominal horse-power or upwards, or as first or only engineer in any other steam-vessel, or

(*b*) who has obtained or shall obtain the rank of first class assistant engineer in the service of Her Majesty,

an engineer's certificate of service under this Act:

Provided that a certificate of service shall not be granted to any person until he—

(*c*) has proved himself to have served or obtained such rank as aforesaid, and has given his name and a full and satisfactory account of the length and nature of his previous services, and

(*d*) has paid such fees as the Local Government may, by notification, direct.

(*2*) Every certificate of service shall contain particulars of the name and of the length and nature of the previous service of the person to whom it is granted, and shall be in such form as the Local Government may, by rule, prescribe.

[Cf. Act XVI of 1871, s. 24, Bom. Act IV of 1873, s. 23, Ben. Act I of 1868, s. 16.]

**24.** Every certificate granted under this chapter shall be made in duplicate, and one part shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded as the Local Government may by rule prescribe.

Certificates to be made in duplicate.

[Cf. Act XVI of 1871, s. 25, Bom. Act IV of 1873, s. 23, Ben. Act I of 1868, s. 17.]

**25.** Whenever a master or an engineer proves, to the satisfaction of the Local Government which granted his certificate, that he has, without fault on his part, lost or been deprived of it, a copy of the certificate to which, by the record kept as prescribed under section twenty-four, he appears to be entitled shall be granted to him, and shall have all the effect of the original.

Copy of certificate to be granted in certain cases.

## *Inland Steam-vessels Bill.*

## *Chapter IV.—Investigation into Casualties.*

[Cf. Ben. Act VII of 1879, s. 5.]

**26.** (*1*) Every master of an inland steam-vessel who possesses a master's certificate duly granted under this Act and then in force shall, in ports to which section 38 of the Indian Ports Act, 1875, has been extended, be deemed, for the purposes of that section, to be the pilot of the steam-vessel of which he is in charge.

Certificated masters to be deemed pilots under Indian Ports Act.

XII of 1875.

[Cf. Bom. Act I of 1863, ss. 4 *et seq.*]

(*2*) Nothing in this section shall be deemed to affect the provisions of Bombay Act I of 1863, which require persons in charge of vessels passing through any of the channels or tidal channels at the mouths of the river Indus to pay fees for pilotage.

---

## CHAPTER IV.

### INVESTIGATIONS INTO CASUALTIES.

[See Ben. Act VII of 1879, s. 6, Cf. Act V of 1883, s. 4.]

**27.** (*1*) Whenever—

Report of casualties to be made to Local Government.

(*a*) any inland steam-vessel has been wrecked, abandoned or materially damaged, or

(*b*) by reason of any casualty happening to or on board of any inland steam-vessel, loss of life has ensued, or

(*c*) any inland steam-vessel has caused loss or material damage to any other vessel,

the master shall give immediate notice of the wreck, abandonment, damage, casualty or loss to the nearest Magistrate.

(*2*) The Magistrate receiving the notice shall, without delay, communicate it to the Local Government.

[See Act V of 1883, s. 7, and Ben. Act VII of 1879, s. 7.]

**28.** (*1*) If in any such case a formal investigation into the facts referred to in section twenty-seven, clause (*a*), (*b*) or (*c*), appears to the Local Government to be requisite or expedient, the Local Government (whether the notice is given or not) may appoint a special Court, consisting of not less than two nor more than four persons, and direct the Court to make the investigation, and may fix the place for making the same.

Power for Local Government to appoint special Court of Investigation.

(*2*) One of the members of the Court shall be a Magistrate acting in or near the place where the investigation is made; another shall be some person conversant with maritime affairs or the navigation of inland steam-vessels; and the other or others (if any) shall be conversant with either maritime or mercantile affairs or with the navigation of inland steam-vessels.

[See Act V of 1883, s. 8.]

**29.** Any principal Court of ordinary criminal jurisdiction and the Court of any District Magistrate may, when so directed by the Local Government, make the investigation referred to in section twenty-eight.

Power for principal Court of ordinary criminal jurisdiction to hold investigations into casualties when so directed.

**30.** (*1*) Any Court making an investigation under section twenty-eight or section twenty-nine may inquire into any charge of incompetency or misconduct arising, in the course of the investigation, against any master or engineer, as well as into any charge of a wrongful act or default on his part causing any wreck, abandonment, damage, casualty or loss referred to in section twenty-seven.

[See Act V of 1883, s. [illegible] and Ben. [illegible] VII of 1[illegible] s. 7.]

[Act XIII of 1875, s. [illegible]]

Power for Court of Investigation to inquire into charges against masters and engineers.

(*2*) In every case in which any such charge, whether of incompetency or misconduct, or of a wrongful act or default as aforesaid, arises against any master or engineer in the course of an investigation, the Court shall, before the commencement of the inquiry into the charge, cause to be furnished to him a copy of the report or statement of the case upon which the investigation has been directed.

**31.** (*1*) If the Local Government has reason to believe that there are grounds for charging any master or engineer of an inland steam-vessel with incompetency or misconduct, otherwise than in the course of an investigation under section twenty-eight or section twenty-nine, it may transmit a statement of the case to the principal Court of ordinary criminal jurisdiction, or the Court of the District Magistrate, at or nearest to the place at which it may be convenient for the parties and witnesses to attend, and may direct the Court to make an investigation into the charge.

[See Act V of 1883, s. [illegible] & Ben. Act VII of 1879, s. 7.]

Power for Local Government to direct investigation into charges of incompetency or misconduct.

(*2*) Before commencing the investigation, the Court shall cause the master or engineer so charged to be furnished with a copy of the statement transmitted by the Local Government.

[See Act V of 1883, s. 9 (2), & Ben Act VII of 1879, s. 7.]

**32.** For the purpose of an investigation under this chapter into any charge against a master or engineer, the Court may summon him to appear, and shall give him full opportunity of making a defence, either in person or otherwise.

[See Act V of 1883, ss. 11 & 12, & Ben. Act VII of 1879, s. 7.]

Person accused to be heard.

**33.** (*1*) When any investigation involves, or appears likely to involve, any question as to the cancelling or suspension of the certificate of a master or engineer, the Court making the investigation under section twenty-nine or section thirty-one shall constitute as its assessors, for the purposes of the investigation, two persons having experience in the merchant service or in the navigation of inland steam-vessels; and in every other investigation the Court making it may, if it thinks fit, constitute as its assessor, for the purposes of the investigation, any person conversant with maritime affairs or the navigation of inland steam-vessels and willing to act as assessor.

[See Act V of 1883, s. 1[illegible] & Ben. Act VII of 1879, s. 7.]

Assessors.

(*2*) Every person appointed under this section shall attend during the investigation and deliver his opinion in writing, to be recorded on the proceedings. But the exercise of all powers conferred on the Court by this Act shall rest with the Court.

## *Inland Steam-vessels Bill.*

### *Chapter IV.—Investigations into Casualties. Chapter V.—Suspension and Cancellation of Masters' and Engineers' certificates.*

[Cf. Act V of 1868, s. 12 & Ben. Act VII of 1879, s. 7.]

**34.** For the purpose of any investigation under this chapter, the Court making the investigation, so far as relates to compelling the attendance and examination of witnesses and the production of documents and the regulation of the proceedings, shall have—

Power of Court as to evidence and regulating proceedings.

(*a*) if the Court is a special Court—the same powers as are exercisable by the principal Court of ordinary criminal jurisdiction for the place at which the investigation is made;

(*b*) if the Court is a principal Court of ordinary criminal jurisdiction or the Court of the District Magistrate—the same powers as are exercisable respectively by either Court in the exercise of its criminal jurisdiction.

[See Act V of 1883, s. 15. Cf. Ben. Act VII of 1879.]

**35.** (*1*) If any Court making an investigation under this chapter thinks it necessary for obtaining evidence that any person should be arrested, it may issue a warrant for his arrest, and may, for the purpose of effecting the arrest, authorize any officer (subject, nevertheless, to any general or special instructions from the Local Government) to enter any vessel.

Power to arrest witnesses and cause entry and detention of vessels.

(*2*) Any officer so authorized may, for the purpose of enforcing the entry, call to his aid any officers of Police or Customs, or any other persons, and may seize and detain the vessel for such time as is reasonably necessary to effect the arrest; and every such officer or other person shall be deemed to be a public servant within the meaning of the Indian Penal Code, section 186.

XLV of 1860.

(*3*) No person shall be detained by virtue of this section for more than forty-eight hours.

[See Act V of 1883, s. 15. Cf. Ben. Act VII of 1879, s. 7.]

**36.** (*1*) Whenever, in the course of any investigation, it appears that any person has committed, within the jurisdiction of any Court in British India, an offence punishable under any law in force in British India, the Court making the investigation may (subject to such rules consistent with this Act as the High Court may, from time to time, prescribe) cause him to be arrested, or commit him or hold him to bail to take his trial before the proper Court; and may bind over any person to give evidence at the trial, and may, for the purposes of this section, exercise all the powers of a Magistrate of the first class or of a Presidency Magistrate.

Power to commit for trial and bind over witnesses.

(*2*) For the purposes of this section the Recorder of Rangoon shall, within the local limits of his ordinary civil jurisdiction, be deemed to be the High Court.

[See Act V of 1883, s. 16(1). Cf. Ben. Act VII of 1879, s. 7.]

**37.** (*1*) Whenever, in the course of any such trial, the testimony of any witness is required in relation to the subject-matter, any deposition previously made by him in relation to the same subject-matter before any Court making an investigation under this chapter shall, if authenticated by the signature of the Magistrate or presiding Judge or Magistrate, be admissible in evidence on proof—

Depositions.

(*a*) that the witness cannot be found within the jurisdiction of the Court before which the trial is held; and

(*b*) that it was made in the presence of the person accused, and that he had an opportunity of cross-examining the witness.

(*2*) A certificate by the Magistrate or presiding Judge or Magistrate that the deposition was made in the presence of the accused and that he had that opportunity shall, unless the contrary be proved, be sufficient evidence that it was so made and that he had that opportunity.

[See Act of 1883, s (1) Cf. Ben VII of 18 s. 7.]

**38.** The Court shall, in the case of every investigation under this chapter, transmit to the Local Government a full report of the conclusions at which it has arrived, together with the evidence.

Report by Court to Local Government.

[See Act of 1871, s Bom. Act of 1873, Ben. Act 1868, s 6

**39.** (*1*) Whenever any explosion occurs on board any inland steam-vessel, the Local Government may, if it thinks fit, direct that an investigation into the cause of the explosion be made by such person or persons as it thinks fit.

Power to investigate causes of explosions.

(*2*) The person or persons so directed may enter into and upon the steam-vessel, with all necessary workmen and labourers, and remove any portion of the steam-vessel, or of the machinery thereof, for the purpose of the investigation, and shall report to the Local Government what in their opinion was the cause of the explosion.

(*3*) Every such person shall be deemed to be a public servant within the meaning of the Indian Penal Code, section 186.

XLV of 1860.

---

## CHAPTER V.

### SUSPENSION AND CANCELLATION OF MASTERS' AND ENGINEERS' CERTIFICATES.

[See Ben. VII of 18 s. 8, and Cf. A V of 1883 s. 20.]

**40.** Any certificate granted under this Act to any master or engineer may be suspended or cancelled by the Local Government which granted it, or by any other Local Government, in the following cases, that is to say:—

Power for Local Government to suspend or cancel certificates in certain cases.

(*a*) if, on any investigation made under this Act, the Court reports that the wreck or abandonment of, or loss or damage to, any inland steam-vessel, or loss of life, has been caused by his wrongful act or default, or that he is incompetent, or has been guilty of any gross act of drunkenness, tyranny or other misconduct; or

(*b*) if he is proved to have been convicted of any non-bailable offence:

Provided that, in any case in which an investigation has been made, into a charge against any master or engineer, a certificate shall not be suspended or cancelled under clause (*a*) of this section unless the Local Government is satisfied that the holder of the

## *Inland Steam-vessels Bill.*

### *Chapter VI.—Protection of Inland Steam-vessels from danger by Fire.*

### *Chapter VII.—Penalties and Legal Proceedings.*

certificate has been furnished before the commencement of the investigation with the copy of the report or statement required by section thirty or section thirty-one, as the case may be;

[See Act V of 1883, s. 21.]

Obligation to deliver up cancelled or suspended certificate.

**41.** Every master or engineer whose certificate is cancelled or suspended under section forty shall deliver it to such person as the Local Government which cancelled or suspended it directs.

[See Act V of 1883, s. 22.]

Report to other Local Governments.

**42.** If the Local Government which cancels or suspends, under section forty, a certificate is not the Local Government which granted the certificate, the Local Government so cancelling or suspending the certificate shall report the proceedings, and the fact of cancellation or suspension, to the Local Government which granted the certificate.

[See Act V of 1883, s. 24.]

Power to revoke cancellation or suspension and to grant new certificate.

**43.** (*1*) Any Local Government may at any time revoke any order of cancellation or suspension which it may have made under section forty, or grant, without examination, to any person whose certificate it has so cancelled, a new certificate

(*2*) A certificate so granted shall have the same effect as if it had been granted after examination.

## CHAPTER VI.

### PROTECTION OF INLAND STEAM-VESSELS FROM DANGER BY FIRE.

[New. Cf. Act IV of 1879, s. 8, cl. (d).]

Power for Governor General in Council to declare dangerous goods

**44.** The Governor General in Council may, by notification, declare what shall be deemed to be, for the purposes of this Act, dangerous goods.

[New. Cf. Act IV of 1879, s. 8.]

Carriage of dangerous goods

**45.** (*1*) A person shall not take with him on board an inland steam-vessel, and a person shall not deliver or tender for carriage on an inland steam-vessel, any dangerous goods without giving notice of their nature to the owner or master of the steam-vessel, or, in the case of goods delivered or tendered for carriage, without distinctly marking their nature on the outside of the package containing the goods.

(*2*) The owner or master of an inland steam-vessel may refuse to carry upon an inland steam-vessel any luggage or parcel which he suspects to contain dangerous goods, and may require the luggage or parcel to be opened to ascertain the fact previously to carrying the same; and, in case any such luggage or parcel is received for the purpose of being carried in any inland steam-vessel, the owner or master of the vessel may stop the transit thereof until he is satisfied as to the nature of its contents.

[36 & 37 Vic., c. 85, s. 26.]

Power to throw overboard dangerous goods.

**46.** Where any dangerous goods have been sent or brought on board any inland steam-vessel in contravention of section forty-five, the owner or master of the steam-vessel may cause the goods to be thrown overboard, together with any package or receptacle in which they are contained, and neither the owner nor the master shall, in respect of his having so thrown the goods overboard, be subject to any liability, civil or criminal, in any Court.

Power for Local Government to make rules for protection of inland steam-vessels from danger by explosion or fire.

**47.** (*1*) The Local Government may make rules for the protection of inland steam-vessels from danger by explosion or fire. [New.

(*2*) Rules under this section may provide for the following among other matters, that is to say:—

(*a*) the conditions on, and subject to, which dangerous goods shall be carried on board inland steam-vessels;

(*b*) the precautions to be taken to prevent explosions or fires on board inland steam-vessels; and

(*c*) the apparatus for the purpose of extinguishing fires, which is to be kept on board inland steam-vessels.

(*3*) Any rule under this section may contain a provision that any person committing a breach of it shall be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

## CHAPTER VII.

### PENALTIES AND LEGAL PROCEEDINGS.

Penalty for steam-vessel making a voyage in contravention of section 5

**48.** If any inland steam-vessel makes a voyage in contravention of section five, the owner and master of the steam-vessel, or either of them, shall be punished with fine which may extend to one thousand rupees: [Act XVI of 1871, s. 27. Bom. Act II of 1864, s. 5. Ben. Act I of 1862, s. 5.]

Provided that, if any steam-vessel is not in any place of survey when her certificate expires, no penalty shall be incurred for the want of a certificate in respect of any voyage which the steam-vessel may make from the place where she is when her certificate expires to the nearest place of survey. [Act XVI of 1871, s. 12. Bom. Act I of 1864, s. 12. Ben. Act V of 1862, s. 12 as amended by Ben. Act I of 1868.]

Liability of master or officer, when a licensed pilot, to lose his license

**49.** If the master or any other officer on board of an inland steam-vessel which makes a voyage in contravention of section five is a licensed pilot, he shall be liable to have his license as a pilot taken away from him entirely, or suspended for any period by the Local Government, as the Local Government may see fit to order. [Act XVI of 1871, s. 28. Bom. Act I of 1864, s. 6. Ben. Act V of 1862, s. 6.]

Penalty for neglect to affix certificate of survey.

**50.** The owner and master of any inland steam-vessel, or either of them, on which the certificate of survey granted under this Act is not kept affixed, in manner provided by section eleven, shall be punished with fine which may extend to one hundred rupees. [Act XVI of 1871, s. 30. Bom. Act II of 1864, s. 1[illegible] Ben. Act V of 1862, s. 11.]

Penalty for neglect or refusal to deliver up certificate as required under section 14

**51** If the owner or master of an inland steam-vessel, without reasonable cause, neglects or refuses to deliver up a certificate as required under section [Act XVI of 1871, s. 31. Bom. Act II of 1864, s. 1[illegible] Ben. Act V of 1862, s. 12.]

fourteen, he shall be punished with fine which may extend to one hundred rupees.

[s. 25 & 26 ..., c. 69, ...(b), & Act ... 1859, s.

also Act ... 1 of 1871, ...

...m. Act IV ... 1878, s. 19. ...m. Act I of ...38, s. 12. ...n Act VII 1879, s. 4.]

52. (*a*) Whoever, having been engaged to serve as master or first or only engineer of any inland steam-vessel to which section nineteen applies, proceeds on any voyage in that steam-vessel as master or first or only engineer without being at the time entitled to and possessed of the certificate required by that section, and

Penalty for serving, or engaging a person to serve, as master or engineer without certificate.

(*b*) Whoever employs any person as a master or first or only engineer of any inland steam-vessel to which section nineteen applies without ascertaining that he is at the time entitled to, and possessed of, a master's or an engineer's certificate, as the case may be, under this Act,

shall be punished with fine which may extend to five hundred rupees.

...e Act V 1883, s. 6. ...a. Act VII 1879, s. 6.]

53. If any master wilfully fails to give notice, as required by section twenty-seven, of any wreck, abandonment, damage, casualty or loss, he shall be punished with fine which may extend to five hundred rupees, and, in default of payment, to simple imprisonment for a term which may extend to three months

Master failing to give notice as required by section 27.

...e Act V 1883, s. ...]

54. Every master or engineer whose certificate is cancelled or suspended under section forty, and who fails to deliver the certificate to such person as the Local Government which cancelled or suspended it directs, shall be punished with fine which may extend to five hundred rupees.

Master or engineer failing to deliver up cancelled or suspended certificate.

...t. Act IV 1879, s. ...]

55. Whoever, in contravention of section forty-five, takes with him on board any inland steam-vessel any dangerous goods, or delivers or tenders any such goods for the purpose of being carried on any inland steam-vessel, shall be punished with fine which may extend to two hundred rupees.

Penalty for taking dangerous goods on board inland steam-vessels without notice.

...t. Act I of ...9, s. 79.]

56. Any person employed or engaged in any capacity on board an inland steam-vessel—

Penalty for misconduct endangering vessel or life or limb.

(*a*) who, by wilful breach of duty, or by neglect of duty, or by reason of drunkenness, does any act tending to the immediate wreck, destruction or material damage of the vessel, or tending immediately to endanger the life or limb of any person belonging to or on board the vessel, or

(*b*) who, by wilful breach of duty, or by neglect of duty, or by reason of drunkenness, refuses or omits to do any lawful act proper and requisite to be done by him for preserving the vessel from immediate wreck, destruction or material damage, or for preserving any person belonging to or on board of the vessel from immediate danger to life or limb,

shall be punished with fine which may extend to one thousand rupees, or with imprisonment for a term which may extend to two years, or with both.

57. Where the owner or master of a steam-vessel is convicted of an offence under this Act committed on board of, or in relation to, that steam-vessel, and sentenced to pay a fine, the Magistrate may, in addition to any other power he may have for the purpose of compelling payment of the fine, direct the amount thereof to be levied by distress and sale of the vessel and the tackle, apparel and furniture thereof, or so much thereof as is necessary.

Distress of vessel.

[See Act XVI of 1871, s. 36, Bom. Act II of 1864, s. 16, Ben. Act V of 1862, s. 15.]

58. A Magistrate other than a Presidency Magistrate, or a Magistrate whose powers are not less than those of a Magistrate of the first class, shall not try any offence under this Act, or the rules under it.

Magistrates having jurisdiction.

[See Act XVI of 1871, s. 36, Bom. Act II of 1864, s. 16, Ben. Act V of 1862, s. 15.]

59. Whoever commits an offence against this Act or the rules under it shall be triable for the offence in any place in which he may be found or which the Local Government may, by notification, direct in this behalf, as well as in any other place in which he might be tried under any other law for the time being in force.

Place of trial.

[See Act XVI of 1871, s. 36, Bom. Act II of 1864, s. 16, Ben. Act V of 1862, s. 15.]

60. Nothing in this Act shall prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence against this Act or the rules under it, or from being liable under that other law to any other or higher punishment or penalty than that provided by this Act or the rules under it:

Saving of prosecutions under other Act.

Provided that no person shall be punished twice for the same offence.

## CHAPTER VIII.

### MISCELLANEOUS.

61. All fees payable under this Act may be recovered as fines under this Act.

Fees recoverable as fines.

[Act XVI of 1871, s. 36, Bom. Act II of 1864, s. 16, Bengal Act V of 1862, s. 15.]

62. (*1*) All rules made under this Act by the Local Government shall be subject to the previous sanction of the Governor General in Council; and all powers conferred by this Act on the Local Government to make rules may be exercised from time to time as occasion requires.

Rules

(*2*) Every rule made by a Local Government under this Act shall, before being sanctioned by the Governor General in Council, be published in such manner, and for such time, as the Governor General in Council may from time to time direct, with a notice of the intention of the Local Government to apply for sanction thereto.

[Home Department Resolution No. 19, dated 24th November, 1882.]

## *Chapter VIII.—Miscellaneous.*

(3) The Local Government shall receive and submit for the consideration of the Governor General in Council any objection or suggestion which may be made by any person with respect to any rule published in pursuance of sub-section two, and the Governor General in Council or the Local Government may, if he or it thinks fit, amend the rule with a view to meeting the objection or suggestion without again publishing the rule:

Provided that a failure of the Local Government to submit for the consideration of the Governor General in Council any objection or suggestion made with respect to any rule published in pursuance of sub-section two shall not be deemed to invalidate any rule sanctioned by him under this Act.

(4) A rule sanctioned under this Act by the Governor General in Council shall not take effect until it has been published in the local official Gazette.

(5) Subject to the provisions of section two, sub-section two, every rule when so sanctioned and published shall have the force of law.

Notifications.

**63.** (1) Except in the case of the notification under section two, sub-section one, all powers to issue notifications conferred by this Act on the Governor General in Council or the Local Government may be exercised from time to time as occasion requires.

(2) A notification issued by the Governor General in Council or the Local Government under this Act shall not take effect until it has been published in the *Gazette of India* or the local official Gazette, as the case may be.

(3) Subject to the provisions of section two, sub-section two, every notification shall, when published in the *Gazette of India* or the local official Gazette, as the case may be, have the force of law.

---

## THE FIRST SCHEDULE.

### ACTS REPEALED.

*(See Section 3.)*

*(a) Act of the Governor General in Council.*

| Number and year. | Subject or short title. | Extent of repeal. |
|---|---|---|
| XVI of 1871 | The Burmese Steamer Survey Act. | The whole. |

*(b) Acts of the Governor of Bombay in Council.*

| Number and year. | Subject or short title. | Extent of repeal. |
|---|---|---|
| II of 1864 ... | To provide for the periodical survey of steam-vessels in the ports, harbours, rivers or waters of the presidency of Bombay. | The whole. |
| IV of 1873... | To amend Bombay Act II of 1864, providing for the periodical survey of steam-vessels, and to provide for the examination of engineers of steam-vessels. | The whole. |

*(c) Acts of the Lieutenant-Governor of Bengal in Council.*

| Number and year. | Subject or short title. | Extent of repeal. |
|---|---|---|
| V of 1862 ... | To provide for the periodical survey of steam-vessels in the port of Calcutta. | The whole. |
| I of 1868 ... | The Steam-boat Survey Amendment Act, 1868. | So much as has not been repealed. |
| III of 1871... | To increase the fees for the survey of steam-vessels. | The whole. |
| VII of 1879 | To provide for the proper management of certain inland steam-vessels. | The whole. |

## THE SECOND SCHEDULE.

*(See Section 9.)*

### FORM OF SURVEYORS' CERTIFICATE.

| Name of steam-vessel. | Tonnage | When and where built, and material. | Power | Description of engines and age. | Description of boilers and age. | Ground-tackle. | Condition of hull | General equipment. | Name of master and number of officers and deck-crew and of engineers and engine-room crew. | When and where last coppered, repaired or cleaned. | Time if less than a year for which the hull, boilers, engines or any of the equipments will be sufficient. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | | | |

We, the undersigned, declare that we have examined the above-named inland steam-vessel, and, to the best of our judgment, she and her engines, as shewn in the above statement, are fully sufficient for service for the period stated above.

*A. B.*
*C. D.*

---

## THE THIRD SCHEDULE.

*(See Section 10.)*

### RATES OF FEES.

| | | Tons. | Rs. |
|---|---|---|---|
| For steam-vessels of less than | . | 200 | 20 |
| „ „ | 200 tons and up to . | 350 | 25 |
| „ „ | 350 „ „ „ . | 700 | 30 |
| „ „ | 700 „ „ „ . | 1,000 | 40 |
| „ „ | 1,000 „ „ „ . | 1,500 | 50 |
| „ „ | 1,500 „ and upwards | ... | 60 |

## STATEMENT OF OBJECTS AND REASONS.

IT has been found expedient to legislate in order to bring the law regarding the survey of sea-going steam-vessels into conformity with the law of England and to have one law on that subject applicable to the whole of British India. The present law regulating the survey of these vessels is contained in various local Acts, which also contain provisions relating to inland steam-vessels; and it was thought that it would be better to repeal the whole of these Acts and separately enact the parts relating to sea-going and inland steam-vessels than to repeal only so much as was necessary and leave the Acts in a mutilated and probably obscure form. Moreover, it was thought desirable that there should be one law regarding inland steamers relating to the whole of India. The present law is insufficient. Madras is unprovided for, and there is no law to govern steamers plying in the province of Assam. The present Bill has accordingly been prepared. It is drawn so that it may be brought into force along with the Indian Steamships Bill, and it repeals the seven local Acts, relating to steamships, which are now in force.

2. The Bill is divided into eight chapters. It deals with the survey of inland steam-vessels, the examination and grant of certificates to masters and engineers of those vessels, the investigation into casualties occurring to them, the suspension and cancellation of masters' and engineers' certificates, and the protection of the vessels from fire, and also prescribes the penalties for offences against the provisions of the Act, the jurisdiction of Magistrates and the place of trial.

3. In its main provisions the Bill follows the existing law so far as it goes. The points in which the law is changed and which require notice are as follows. The term for which the certificate of survey is to last is, by section 12 of the Bill, extended to one year, instead of six months as at present; but section 13 enables the Local Government, under certain circumstances, to cancel or suspend a certificate of survey. The power conferred by section 17 of the Bill of making rules to regulate a survey is somewhat larger than that given by the present law. The duties of each of the two surveyors are different, and the Bill therefore enables the Local Government to assign and regulate the duties of each. To meet local requirements, power is given in section 18 of the Bill to Local Governments to exempt any specified class of inland steam-vessels from all or any of the provisions relating to survey. In section 22 the Bill provides for the grant, without examination, of a certificate as engineer to a person who possesses a certificate granted under the Imperial Merchant Shipping Act or a certificate which is by the Merchant Shipping (Colonial) Act, 1869, equivalent thereto. It further provides in section 23 for the grant of certificates of service to engineers who have served for a certain time in certain steamships, or who have obtained the rank of first class assistant engineer in the service of Her Majesty. The provisions of Chapters IV and V of the Bill, regarding investigations into casualties and the cancelling and suspending of the certificates of masters and engineers, are taken, with slight modifications, from the Merchant Shipping Act, 1883, which was recently passed.

4. The whole of Chapter VI is new. At present, there is no way of securing that due precautions are taken against fire and against the carriage of dangerous goods on passenger steamers. Chapter VI follows to a certain extent the provisions of the Indian Railway Act, 1879. It confers on the Governor General in Council power to declare what shall be deemed to be, for the purposes of the Act, dangerous goods, and prohibits persons from taking those goods on board except under certain conditions. Following section 23 of the Imperial Merchant Shipping Act, 1873, it empowers (section 46) the master or owner of a vessel to throw overboard dangerous goods which have been brought on board without notice or without being marked as required by the Act. It also (section 47) enables the Local Government to make rules for the protection of inland steam-vessels from danger by explosion or fire.

5. In Chapter VII a section (56) has been inserted, providing a penalty for misconduct on the part of persons employed on board inland steam-vessels. This section is taken from the Indian Merchant Shipping Act, 1859, section 79, the penalty being modified so as to permit of an offence being punished by fine only.

6. Lastly, with regard to the rules which may be made under the Act, the Bill, section 62, secures that they shall be duly published for general information and criticism before they are sanctioned by the Governor General in Council.

7. A statement is annexed showing how the provisions of the Acts which are repealed by the Bill are dealt with in this Bill and the Indian Steamships Bill.

*The 5th March, 1883.*

C. P. ILBERT.

*Repeal Table showing how the Acts repealed by the Inland Steam-vessels Bill are dealt with.*

ACT XVI OF 1871 (the Burmese Steamer Survey Act).

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steamships Bill. |
| 1 | Short title . . . . . | This is formal . . . . . | Ditto. |
| | Local extent . . . . . | Ditto . . . . . | Ditto. |
| 2 | Interpretation-clause . . . | This is not reproduced, the definition of "Chief Commissioner" being deemed unnecessary, and the object of the definition of "Surveyors" being sufficiently provided for by section 18. | Ditto, see sec. 22. |
| 3 | Certain steam-vessels liable to be surveyed twice a year. | This is not reproduced, the scheme of the Bill being different from that of the Act. Cf. section 5. | Ditto, cf. s. 3. |
| 4 | Government to appoint Surveyors . | This is reproduced, section 6 . . . | Ditto, sec. 9. |
| 5 | Authority to Surveyors to go on board for purpose of surveying. | This is reproduced, section 7 . . . | Ditto, sec. 10. |
| 6 | Surveyor when to grant certificate and declaration. | This is reproduced with modifications, sections 8 and 9. | Ditto, secs. 11 and 12. |
| 7 | No clearance to be given to steamer for voyage for which she has not got certificate. | This is not reproduced, being inapplicable in the case of inland steam-vessels. | This is reproduced, sec. 7. |
| 8 | Special survey may be ordered by Government for any British steamer. | This is not reproduced, being unnecessary as the Bill is drawn. | Ditto. |
| 9 | Power to make rules as to mode and time of conducting survey. | This is reproduced with modifications, section 17. | Ditto, sec. 21. |
| 10 | Fees to be paid for survey . . | This is reproduced, section 10 . . . | Ditto, sec. 13. |
| 11 | Certificate to be hung up in vessel . | This is reproduced, section 11 . . . | Ditto, sec. 14 (1). |
| 12 | Certificate to be in force only six months. | This is reproduced with *twelve* months substituted for *six* months, section 12 (*a*) . | Ditto, sec. 15 (*a*). |
| | Provision for vessels absent when certificate expires. | This is reproduced with modifications, section 48 | This is reproduced, sec. 5. |
| | Power to require delivery of expired certificate. | This is reproduced, section 14 . . | Ditto, sec. 17 (1). |
| 13 | Power to cancel certificate and declaration. | The first paragraph and clauses (1), (2) and (3) are reproduced, section 13. The residue is omitted as unnecessary. | Ditto, sec. 16. Ditto. |
| 14 | Power to order a second survey . | This is reproduced with modifications, section 16. | Ditto, sec. 19. |
| 15 | Power to investigate causes of explosions. | This is reproduced, section 39 . . . | Ditto, sec. 31. |
| 16 | Examinations to be instituted for Engineers. | This is not reproduced, being deemed unnecessary. | Ditto. |
| 17 | Examiners and rules of examination. | This is reproduced, section 20 . . . | Ditto with modifications, sec. 24. |

ACT XVI OF 1871—continued.

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 18 | Certificate of competency to be given | This is reproduced with slight modifications, section 22. | Ditto, sec. 25. |
| 19 | Certificate of service to be given | This is reproduced with modifications, section 23. | Ditto, sec. 26. |
| 20 | No certificate of survey if vessel have not a certificated engineer. | This is not reproduced, being deemed unnecessary as the Bill is drawn. | Ditto, see sec. 29. |
| 21 | Power to exempt private steam-vessels | This is reproduced, section 19(2). | This is not reproduced, being deemed unnecessary as section 29 is drawn. |
| 22 | Withdrawal of certificate | This is not reproduced as the subject is provided for in Chapter IV of the Bill. | Ditto, see Chap. III of the Indian Merchant Shipping Act, 1883. |
| 23 | English certificate to be available | This is not reproduced, but see section 22(4) | This is not reproduced, but see sec. 29. |
| 24 | Certificate to be made in duplicate | Paragraph one is reproduced, section 24. The second paragraph is omitted, as it can be provided for by executive orders. | Ditto, sec. 27. |
| 25 | Copy of certificate to be delivered | This is reproduced, section 25. | Ditto, sec. 28. |
| 26 | Hindering survey or withholding required information | This is not reproduced, being deemed unnecessary, see section 6(3) of Bill, and Penal Code, sections 176, 186 and 187. | Ditto, see sec. 9 (3). |
| 27 | Leaving without certificate and declaration. | This is reproduced with certain modifications, section 48. | Ditto, sec. 5. |
| 28 | Master or officer who is a licensed pilot attempting to take ship out of port without certificate. | This is reproduced with certain modifications, section 49. | Ditto, sec. 6. |
| 29 | Receiving unlawful fees for making survey. | This is not reproduced, see section 6(3) of Bill, and Penal Code, sections 161, *et seq.* | Ditto, see sec. 9 (3). |
| 30 | Neglect to hang up certificate and declaration. | This is reproduced, section 50 | Ditto, sec. 14 (2). |
| 31 | Refusal to comply with requirements of section 12. | This is reproduced, section 51. | Ditto, sec. 17 (2). |
| 32 | Plying without certificated engineer. | This is reproduced with modifications, section 52. | Ditto, sec. 30. |
| 33 | Offences under this Act by whom to be tried. | The first paragraph is reproduced with modifications, sections 58, 59. The second paragraph is reproduced, sections 57 and | Ditto, ss. 32, 33. As to fees see sec. 34. |

BOMBAY ACT II OF 1864 (to provide for the periodical survey of steam-vessels in the ports, harbours, rivers or waters of the Presidency of Bombay).

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steamships Bill. |
| 1 | Certain steam-vessels liable to be surveyed twice a year. | This, which has been amended by section 4 of Bombay Act IV of 1873, is not reproduced, the scheme of the Bill being different from that of the Act. Cf. section 5. | Ditto, Cf. secs. 3 and 4. |
| 2 | Government to appoint one or more surveyors. | This is reproduced, section 6 . . . | Ditto, sec. 9. |
| 3 | Authority to surveyors to board steamers for purpose of surveying. | This is reproduced, section 7 . . . | Ditto, sec. 10. |
| | Penalty for hindering them in making survey or withholding information. | This is not reproduced (see section 26 of Act XVI of 1871 *supra*). | Ditto. |
| 4 | Grant by surveyors of certificate and declaration. | This is reproduced with modifications, sections 8 and 9. | Ditto, secs. 11 and 12. |
| 5 | No clearance to steamer for voyage for which she has no certificate. | This is not reproduced (see section 7 of Act XVI of 1871 *supra*). | This is reproduced, sec. 7. |
| | Penalty for leaving port without a certificate. | This is reproduced with certain modifications, section 48. | Ditto, sec. 5. |
| 6 | Master or officer being licensed pilot attempting to take ship out of port without certificate liable to lose license. | This is reproduced with certain modifications, section 49. | Ditto, sec. 6. |
| 7 | Power to order special survey of British steamers in harbour of Bombay. | This is not reproduced, being unnecessary as Bill is drawn. | Ditto. |
| 8 | Power to make rules as to mode and time of conducting survey. | This is reproduced with modifications, section 17. | Ditto, sec. 21. |
| 9 | Penalty for surveyor receiving fees, &c., not provided by Act. | This is not reproduced (see section 29 of Act XVI of 1871 *supra*). | Ditto. |
| 10 | Fee for survey | This (as amended by Bombay Act IV of 1873, section 11) is reproduced, section 10. | Ditto, sec. 13. |
| 11 | Certificate to be hung up in conspicuous part of vessel. | This is reproduced, section 11 . . . | Ditto, sec. 14 (1). |
| | Penalty for non-compliance . . | This is reproduced, section 50 . . . | Ditto, sec. 14 (2). |
| 12 | Duration of certificate . . . | This is produced with *twelve* months substituted for *six* months, section 12 (*a*). | Ditto, sec. 15 (*a*). |
| | Proviso as to absence when certificate expires. | This is reproduced with modifications, section 48. | This is reproduced, sec. 5. |
| | Power to require surrender of expired certificate. | This is reproduced, section 14 . . | Ditto, sec. 17 (1). |
| | Penalty for non-compliance . . | This is reproduced, section 51 . . . | Ditto, sec. 17 (2). |
| 13 | Power to revoke and cancel certificate and declaration. | The first paragraph and clauses (1), (2) and (3) are reproduced, section 13. | Ditto, sec. 16. |
| | Power to require survey . . . | This is omitted, being deemed unnecessary. | Ditto. |
| 14 | If correctness of survey doubted, Government may order second survey by other surveyors. | This is reproduced with modifications, section 16. | Ditto, sec. 19. |

BOMBAY ACT II OF 1864—continued.

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steamships Bill |
| 15 | Sections of Merchant Shipping Act applied to steam-vessels proceeding to sea from ports in Bombay. | This is not reproduced, being inapplicable to inland steam-vessels. | This is reproduced, sec. 35. |
| 16 | Offences by whom tried . . . | This is reproduced with modifications, sections 58 and 59. | Ditto, secs. 32 and 33. |
| | Penalties and fees how recovered . | This is reproduced, sections 57 and 61. | As to fees see section 34. |
| 17 | Interpretation-clause . . . | As to definition of "surveyors" see section 2 of Act XVI of 1871, *supra*. The definition of "survey" is not reproduced, being deemed unnecessary. | Ditto. |

BOMBAY ACT IV OF 1873 (to amend Bombay Act No. II of 1864, providing for the periodical survey of steam-vessels, and to provide for the examination of engineers of steam-vessels).

| Section. | Marginal Note | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steamships Bill. |
| 1 | Construction of Act . . . | This is not reproduced, being unnecessary. | Ditto. |
| 2 | Commencement of Act . . . | This is formal . . . . . | Ditto. |
| | Exemption from Part III . . | This is not reproduced, but see section 22 (*b*). | This is not reproduced, but see sec. 29. |
| 3 | Short title . . . . . | This is formal. | Ditto. |
| 4 | Certain steam-vessels liable to be surveyed twice a year. | This is not reproduced (see section 1 of Bombay Act II of 1864, *supra*.) | Ditto. |
| 5 | Duty of surveyor on boarding steam-vessels. | This is not reproduced, being deemed unnecessary as the Bill is drawn. | Ditto. |
| 6 | Certificate to be delivered by surveyor. | This is not reproduced for same reason. | Ditto |
| 7 | Penalty for receiving passengers on vessel not intended to carry them. | This is not reproduced for same reason. | Ditto. |
| 8 | Power to investigate cause of explosion or direct special survey. | This, so far as it relates to investigations into explosions, is reproduced, section 39. The rest is not reproduced, as it applies only to sea-going vessels, and is sufficiently provided for by the Indian Merchant Shipping Act, 1880. | Ditto, sec. 31. The rest is not reproduced, being sufficiently provided for by the Indian Merchant Shipping Act, 1880. |
| 9 | Order on receipt of report of investigation or survey. | This is not reproduced for same reason. | Ditto. |
| 10 | Expenses of investigation or survey by whom to be paid. | This is not reproduced for same reason. | Ditto. |
| 11 | Section substituted for section 10, Bombay Act II of 1864. | This is reproduced (see section 10 of Bombay Act II of 1864, *supra*). | Ditto. |
| 12 | Power to appoint ports of survey | This is reproduced, section 6. | Ditto, sec 9. |

BOMBAY ACT IV OF 1873—*continued.*

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 13 | Power to impose additional fees . | This is reproduced, section 10 (*b*). | Ditto, sec. 13 (*b*). |
| 14 | Examinations to be instituted for engineers. | This is not reproduced, being deemed unnecessary. | Ditto. |
| 15 | Examiners and rules of examination to be provided. | This is reproduced, section 20 . . . | Ditto with modifications, section 24. |
| 16 | Certificates of competency to be given. | This is reproduced with slight modifications, section 22. | Ditto, sec. 25. |
| 17 | Certificates of service to be given . | This is reproduced with modifications, section 23. | Ditto, sec. 26. |
| 18 | No clearance if vessel has not certificated engineer. | This is not reproduced, being inapplicable in the case of inland steam-vessels. | This is not reproduced, being deemed unnecessary as the Bill is drawn. |
| 19 | Penalty for plying without certificated engineer. | This is reproduced with modifications, section 52. | Ditto, sec. 30. |
| 20 | Power to exempt steam-vessels . | This is reproduced, section 19 (2) . . | This is not reproduced, being deemed unnecessary as section 29 is drawn. |
| 21 | Withdrawal of certificate . . | This is not reproduced (see section 22 of Act XVI of 1871, *supra*). | Ditto. |
| 22 | Certificate to be made in duplicate . | Paragraph one is reproduced, section 24 . The second paragraph is omitted, as it can be provided for by executive orders. | Ditto, sec. 27. |
| 23 | Copy of certificate to be delivered . | This is reproduced, section 25 . . . | Ditto, sec. 28. |

BENGAL ACT V OF 1862 (to provide for the periodical survey of steam-vessels in the port of Calcutta).

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 1 | Steam-vessels liable to be surveyed . | This is not reproduced, the scheme of the Bill being different from that of the Act. Cf. section 5. | Ditto. Cf. sec. 3. |
| 2 | Government to appoint surveyors . | This is reproduced, section 6 . . . | Ditto, sec. 9. |
| 3 | Authority to surveyors to board steamers for purpose of surveying. | This is reproduced, section 7 . . . | Ditto, sec. 10. |
| | Penalty for hindering surveyor or withholding information. | This is not reproduced (see section 26 of Act XVI of 1871, *supra*). | Ditto. |
| 4 | Grant of certificate and declaration . | This is reproduced with modifications, sections 8 and 9. | Ditto, secs. 11 and 12. |

BENGAL ACT V OF 1862—*continued*.

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 5 | No clearance to steamer for voyage for which she has not got surveyor's certificate. | The first portion of this section is not reproduced, being inapplicable in the case of inland steam-vessels. The second portion is reproduced with certain modifications, section 48. | This is reproduced, ss. 7 and 5. |
| 6 | Master or officer who is licensed pilot attempting to take ship out without certificate liable to lose license. | This is reproduced with certain modifications, section 49. | Ditto, sec. 6. |
| 7 | Power to order special survey of British steamer in survey port. | This is not reproduced, being unnecessary as the Bill is drawn. | Ditto. |
| 8 | Government may make rules as to mode and time of conducting survey. | This is reproduced with modifications, section 17. | Ditto, sec. 21. |
| 9 | Penalty for surveyors receiving unauthorised fee. | This is not reproduced (see section 29 of Act XVI of 1871, *supra*). | Ditto. |
| 10 | Fee for survey . . . . | This, as amended by Bengal Act III of 1871, is reproduced, section 10. | Ditto, sec. 13. |
| 11 | Certificates to be hung up in conspicuous part of vessel. | This is reproduced, section 11. | Ditto, sec. 14(1). |
| | Penalty for non-compliance . . | This is reproduced, section 50. | Ditto, sec. 14(2). |
| 12 | Duration of certificate . . . | This is reproduced with *twelve* months substituted for *six* months, section 12 (*a*). | Ditto, sec. 15 (*a*). |
| | Proviso as to vessel absent when certificate expires. | This, as amended by Bengal Act I of 1868, is reproduced with modifications, section 48. | This is reproduced, sec. 5. |
| | Returning of expired or revoked certificate. | This is reproduced, section 14. | Ditto, sec. 17(1). |
| | Penalty for non-compliance . . | This is reproduced, section 51. | Ditto, sec. 17(2). |
| 13 | Power to cancel certificate and declaration. | The first paragraph and clauses (1), (2) and (3) are reproduced, section 13; the rest is omitted, being deemed unnecessary. | Ditto, sec. 16, ditto. |
| 14 | When Government may order second survey by other surveyors. | This is reproduced with modifications, section 16. | Ditto, sec. 19. |
| 15 | Offences under Act by whom tried . | The first part is reproduced with modifications, sections 58 and 59. The second part, relating to distress of ships and recovery of fees, is reproduced, sections 57 and 61. | Ditto as to first part, ss. 32 and 33. As to fees, see sec. 34. |
| 16 | Surveyor includes surveyor acting alone. | This is not reproduced (see section 2 of Act XVI of 1871, *supra*). | Ditto. |

BENGAL ACT I OF 1868 (to make further provision for the survey of steam-vessels plying within the provinces subject to the Lieutenant-Governor of Bengal).

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 1 | Steam-vessels liable to survey . . | This is not reproduced (see section 1 of Bengal Act V of 1862, *supra*). | Ditto. |
| 2 | Power to appoint ports of survey . | This is reproduced, section 6. | Ditto, sec. 9. |
| 3 | Addition to sections 3, 5, 6 and 7 of Bengal Act V of 1862. | This is not reproduced, being unnecessary in Bill as drawn. | Ditto. |

BENGAL ACT I OF 1868—*continued.*

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 4 | Amendment of section 2 of Act V of 1862. | This is reproduced (see section 12 of Benga Act V of 1862, *supra*.) | Ditto. |
| 5 | Power to impose additional fees . | This is reproduced, section 10 (*b*). | Ditto, sec. 13 (*b*). |
| 6 | Power to investigate causes of explosion. | This is reproduced, section 39. | Ditto, sec. 31. |
| 7 | Examination of engineers . . | This is not reproduced (see section 16 of Act XVI of 1871, *supra*) | Ditto. |
| 8 | Examiners and rules of examination to be provided. | This is reproduced, section 20. | Ditto with modifications, sec. 24. |
| 9 | Certificate of competency to be given | This is reproduced with slight modifications, section 22. | Ditto, sec. 25. |
| 10 | Certificate of service to be given . | This is reproduced with modifications, section 23. | Ditto, sec. 26. |
| 11 | No certificate of survey if vessel has no certificated engineer. | This is not reproduced, being deemed unnecessary as the Bill is drawn. | Ditto. |
| 12 | Penalty for plying without certificated engineer. | This is reproduced with modifications, section 52. | Ditto, sec. 30. |
| 13 | Power to exempt private steam-vessels | This is reproduced, section 19 (2) . . | This is not reproduced, being deemed unnecessary as section 29 is drawn. |
| 14 | Withdrawal of certificate . . | This is not reproduced (see section 22 of Act XVI of 1871, *supra*.) | Ditto. |
| 15 | English certificates to be available . | This is not reproduced, but see section 22 (*b*) | This is not reproduced, but see section 29. |
| 16 | Certificates to be made in duplicate . | Paragraph 1 is reproduced, section 24. The second paragraph 2 is omitted, as it can be provided for by executive orders. | Ditto, sec. 27. |
| 17 | Copy of certificate to be delivered . | This is reproduced, section 25. | Ditto, sec. 28. |
| 18 | Short title . . . . . | This is formal. | Ditto. |
| 19 | Commencement. Repealed by Act XII of 1873. | | |
| 20 | Construction . . . . . | This is not reproduced, being unnecessary. | Ditto. |

BENGAL ACT III OF 1871 (to increase the fees for the survey of steam-vessels).

| Section. | Marginal Note. | How dealt with. | |
|---|---|---|---|
| | | The Inland Steam-vessels Bill. | The Indian Steam-ships Bill. |
| 1 | Increase of fees . . . . . | This is reproduced (see section 10 of Bengal Act V of 1862, *supra*.) | Ditto. |
| 2 | Construction . . . . . | This is not reproduced, being unnecessary. | |

BENGAL ACT VII OF 1879 (to provide for the proper management of certain inland steam-vessels).

| Section | Marginal Note. | How dealt with | |
|---|---|---|---|
| | | The Inland Steam Vessels Bill | The Indian Steamships Bill. |
| 1 | Definition of inland steam-vessels . | This is reproduced with a modification, section 1 (1) | None of the provisions of this Act are reproduced in the Bill, as they are already provided for fully in the Indian Merchant Shipping Act, No 1 of 1859, and the Indian Merchant Shipping Act, 1883 |
| 2 | Local Government may make rules . | This is reproduced with modifications, section 20. | |
| 3 | Commanders to have certificates . | This is not reproduced, but cf. section 19 (1) | |
| 4 | Penalty on owner if vessel is commanded by uncertificated commander | This is reproduced with modifications, section 52. | |
| 5 | Commanders deemed pilots under Indian Ports Act | This is reproduced, section 36. | |
| 6 | Notice of accidents to be given to Local Government | This is reproduced with modifications, sections 27 and 55 | |
| 7 | Investigation of accident . . | The subject-matter of this section is provided for at length in Chapter IV of the Bill. | |
| 8 | Local Government may suspend or cancel certificate | The subject-matter of this section is reproduced at greater length in sections 10 *et seq* | |
| 9 | Proceedings to enforce penalty when to be taken | This is not reproduced, being no longer necessary | |
| 10 | Commencement | This is not reproduced, being unnecessary. | |

R. J. CROSTHWAITE,
*Addl. Secretary to the Govt of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th March, 1883, and was referred to a Select Committee :—

## No. 7 OF 1883.

# THE INDIAN STEAMSHIPS BILL, 1883.

### CONTENTS.

PREAMBLE.

CHAPTER I.

PRELIMINARY.

SECTIONS.

1. Short title.
   Extent.
   Commencement.
2. Definitions.

CHAPTER II.

SURVEY OF STEAMSHIPS.

3. Steamship not to carry passengers unless furnished with certificate under Act.
4. Exception of certain steamships from provisions of section 3.
5. Penalty for carrying passengers in contravention of section 3.
6. If master or officer of ship carrying passengers in contravention of section 3 is a licensed pilot, he is liable to lose his license.
7. Port-clearance not to be granted until certificate of survey produced.
8. Power to detain ship not furnished with certificate.
9. Appointment of surveyors and ports of survey.
10. Powers of surveyors.
11. Grant of certificate by surveyors.
12. Form of certificate of survey.
13. Fees for survey.

SECTIONS.

14. Certificate to be affixed in conspicuous part of ship.
15. Term of certificate.
16. Cancellation or suspension of certificate by Local Government.
17. Power to require delivery of expired or cancelled certificate.
18. Report to be made of cancellation or suspension of certain certificates.
19. Power to order a second survey.
20. Survey of foreign steamships.
21. Local Government to make rules as to survey.
22. Power for Local Government to exempt certain steamships.

CHAPTER III.

EXAMINATION AND CERTIFICATES OF ENGINEERS.

23. Certificates to be of two grades.
24. Examiners to be appointed and rules of examination made.
25. Grant of certificates of competency.
26. Grant of certificates of service.
27. Certificates to be made in duplicate.
28. Copy of certificate to be granted in certain cases.
29. Number of engineers and nature of certificates necessary in case of different steamships.
30. Penalty for serving, or engaging a person to serve, as engineer without a certificate.

*Investigations into Explosions.*

31. Power to investigate causes of explosions.

*Miscellaneous.*

32. Magistrate having jurisdiction.
33. Place of trial.
34. Fees recoverable as fines.
35. Sections of Imperial Merchant Shipping Act applied to steamships going to sea from Presidency of Bombay.

THE FIRST SCHEDULE — FORM OF SURVEYOR'S CERTIFICATE AND DECLARATION.

THE SECOND SCHEDULE.—RATES OF FEES.

## *Indian Steamships Bill.*

## *Chapter II.—Survey of Steamships.*

*A Bill to amend the law relating to the Survey of Steamships and the Grant of Certificates to Engineers of those Ships.*

WHEREAS it is expedient to amend the law relating to the survey of steamships and the grant of certificates to engineers of those ships; It is hereby enacted as follows:—

Preamble.

### CHAPTER I.

PRELIMINARY.

1. (*1*) This Act may be called the Indian Steamships Act, 1883;

Short title.

Extent.

(2) It extends to the whole of British India;

Commencement

(*3*) And it shall come into force on such day as the Governor General in Council by notification in the official Gazette directs.

2. In this Act, unless there is something repugnant in the subject or context,

Definitions.

(*1*) "steamship" means every description of vessel used in navigation and propelled wholly or in part by the agency of steam: and

(2) "passenger" includes any person carried in a steamship other than the master and crew and the owner, his family and servants.

### CHAPTER II.

SURVEY OF STEAMSHIPS.

17 & 18 Vic., c. 104, ss. 291, 318; see also 36 & 40 Vic., c. 80, s. 16. See also Act XVI of 1871, s. 3, Bombay Act II of 1864, s. 1, as amended by Bombay Act IV of 1873, Bengal Act V of 1862, as amended by Bengal Act I of 1868, s. 2.]

3. A steamship shall not carry more than twelve passengers between places in British India, and

Steamship not to carry passengers unless furnished with certificate under Act.

a British steamship shall not carry more than twelve passengers to or from any place in British India from or to any place out of British India,

unless she is furnished with a certificate of survey under this chapter then in force and applicable to the voyage on which she is about to proceed or the service on which she is about to be employed.

[Cf. Bom. Act II of 1864, s. 4, paragraph 3.]

Exception of certain steamships from provisions of section 3.

4. Nothing in section three shall apply to—

(*a*) any steamship furnished with a certificate of survey, granted by the Board of Trade or any British Colonial Government, which is then in force and applicable to the voyage on which that steamship has proceeded or is about to proceed, or the service on which she has been or is about to be employed, unless there is reason to believe that the steamship has, subsequently to the grant of the certificate, sustained injury or damage, or been found unseaworthy or otherwise inefficient; or

(*b*) any inland steam-vessel as defined in the Inland Steam-vessels Act, 1883; or

(*c*) any steamship belonging to, or in the service of, Her Majesty or the Government of India, or belonging to any foreign Prince or State.

Penalty for carrying passengers in contravention of section 3.

5. If any steamship carries or attempts to carry passengers in contravention of section three, the owner and master of the steamship, or either of them, shall be punished with fine which may extend to one thousand rupees:

[Act XVI of 1871, s. 27. Bom. Act II of 1864, s. 5. Bom. Act V of 1862, s. 5.]

Provided that, if any steamship is not in any port of survey when her certificate expires, no penalty shall be incurred for the want of a certificate until she first begins to carry passengers after her next subsequent arrival at some port of survey.

[Act XVI of 1871, s. 12. Bom. Act II of 1864, s. 13. Ben. Act V of 1862, s. 12.]

If master or officer of ship carrying passengers in contravention of section 3 is a licensed pilot, he is liable to loss his license.

6. If the master or any other officer of any steamship which carries or attempts to carry passengers in contravention of section three, is a licensed pilot, he shall be liable to have his license as a pilot cancelled or suspended for any period by the Local Government, as the Local Government may see fit to order.

[Act XVI of 1871, s. 28. Bom. Act II of 1864, s. 6. Ben. Act V of 1862, s. 6.]

Port-clearance not to be granted until certificate of survey produced.

7. No officer of Customs shall grant a port-clearance, nor shall any pilot be assigned to any steamship for which a certificate of survey is required by section three, until after the production by the owner or master thereof of a certificate under this Act then in force and applicable to the voyage on which she is about to proceed or the service on which she is about to be employed.

[Act XVI of 1871, s. 7. Bom. Act II of 1864, s. 5. Ben. Act V of 1862, s. 5. 17 & 18 Vic., c. 104, s. 318.]

Power to detain ship not furnished with certificate

8. If any steamship for which a certificate of survey is required by section three leaves or attempts to leave any port of survey without a certificate, any officer of Customs or any pilot on board the ship may detain her until she is duly furnished with the certificate.

Appointment of surveyors and ports of survey

9. (*1*) The Local Government may, from time to time, appoint so many persons as it thinks fit to be surveyors for the purposes of this Act at such ports within the territories under its administration as it may, from time to time, appoint to be ports of survey.

[Act XVI of 1871, s. 4. Bom. Act II of 1864, s. 2. Bom. Act IV of 1873, s. 13. Ben. Act V of 1862, s. 2. 17 & 18 Vic., c. 104, s. 305.]

(2) Every surveyor so appointed may be suspended or removed by the Local Government which appointed him.

(*3*) Every surveyor so appointed shall, for the purposes of the survey, be deemed to be a public servant within the meaning of the Indian Penal Code.

XLV of 1860.

## *Indian Steamships Bill.*

## *Chapter II.—Survey of Steamships.*

[Act XVI of 1871, s. 5. Bom. Act II of 1864, s. 3. Ben. Act V of 1862, s. 3. 17 & 18 Vic., c. 104, s. 306.]

**10.** (*1*) For the purposes of a survey under this Act, the surveyors appointed under section nine may, at any reasonable time go on board any steamship, and may inspect the steamship and every part thereof, and the machinery, equipments or articles on board thereof:

Powers of surveyors.

Provided that they shall not unnecessarily hinder the loading or unloading of the steamship, or unnecessarily detain or delay her from proceeding on any voyage.

(*2*) The owner, master and officers of the steamship shall afford to the surveyors all reasonable facilities for a survey, and all such information respecting the steamship and her machinery and equipments, or any part thereof, respectively, as they may reasonably require.

[Act XVI of 1871, s. 6 Bom. Act II of 1864, s. 4. Ben. Act V of 1862, s. 4. 17 & 18 Vic., c. 104, ss. 309-13.]

**11.** Every survey under this Act shall be made by not less than two surveyors, and when the survey is completed, the surveyors making it shall forthwith, if each of them is satisfied that the steamship is sufficient, so far as it is his duty to survey her, for the service on which it is intended to employ it, grant to the owner or master of the steamship surveyed, on payment by him of the fees hereinafter mentioned, a certificate of survey under this Act.

Grant of certificate by surveyors.

[Act XVI of 1871, s. 6 Bom. Act II of 1864, s. 4. Ben. Act V of 1862, s. 4.]

**12.** Every certificate of survey granted under this Act shall be signed by each of the surveyors granting it, and shall contain a statement of the particulars specified, and be framed, as nearly as the circumstances of each case will admit, in the form set forth in the first schedule hereto annexed, or shall contain a statement of such other particulars, or be framed in such other form, as the Local Government may, from time to time, by rule, prescribe.

Form of certificate of survey.

[Act XVI of 1871, s. 10. Bom. Act II of 1864, s. 10 as amended by Bom. Act IV of 1873, s. 11. Ben. Act V of 1862, s. 10, as amended by Ben. Act III of 1871, s. 1. 17 & 18 Vic., s. 104, s. 314. Cf. Bom. Act IV of of 1873, s. 13, & Ben. Act I of 1868, s. 5.]

**13.** For every survey made under this Act the owner or master of the steamship surveyed shall pay to each of the surveyors making the survey—

Fees for survey.

(*a*) a fee calculated on the tonnage of the ship according to the rates in the second schedule hereto annexed, or according to such other rates as the Local Government may from time to time by notification prescribe, and

(*b*) when the survey is made in any port of survey other than Calcutta, Madras, Bombay or Rangoon, such additional fee, in respect of the expense, if any, of the journey of the surveyors to the port, as the Local Government may, from time to time, by notification in the official Gazette, prescribe.

[Act XVI of 1871, s. 11. Bom. Act II of 1864, s. 11.]

**14.** (*1*) The owner or master of every steamship for which a certificate of survey has been granted under this Act shall forthwith, on the receipt of the certificate, cause it to be affixed, and kept affixed so long as it remains in force and the ship is in use, on some conspicuous part of the ship where it may be easily read by all persons on board thereof.

Certificate to be affixed in conspicuous part of ship.

[Bom. Act V of 1862, s. 11, 17 & 18 Vic., c. 104, s. 317.]

(*2*) The owner and master of every steamship (or either of them), on which the certificate of survey granted under this Act is not kept affixed in manner provided by this section shall be punished with fine which may extend to one hundred rupees.

[Act XVI of 1871, s. 30 Bom. Act II of 1864, s. 11, Ben. Act V of 1862, s. 11.

Term of certificates.

**15.** A certificate granted under this Act shall not be in force—

[Act XVI of 1871, s 12. Bom. Act II of 1862, s. Ben. Act V of 1862, s. 13. 17 & 18 Vic., c. 104, s. 315.

(*a*) after the expiration of twelve months from the date thereof; or

(*b*) after the expiration of the period, if less than a year, for which the hull, boilers, engines or any of the equipments have been stated in the certificate to be sufficient; or

(*c*) after notice has been given by the Local Government to the owner, agent or master of the steamship to which the certificate relates, that the Local Government has cancelled or suspended it.

Cancellation or suspension of certificate by Local Government.

**16.** Any certificate of survey granted under this Act may be cancelled or suspended by a Local Government if it has reason to believe—

[Bom. Act II of 1864, s. 13. Ben. Act V of 1862, s. 13. Act XVI of 1871, s 13. 17 & 18 Vic., c. 104, s. 316.]

(*a*) that the declaration in the certificate of the sufficiency and good condition of the hull, boilers, engines or any of the equipments of the steamship has been fraudulently or erroneously made; or

(*b*) that the certificate has otherwise been issued upon false or erroneous information; or

(*c*) that, since the granting of the certificate, the hull, boilers, engines or any of the equipments of the steamship have sustained any injury, or have otherwise become insufficient.

Power to require delivery of expired or cancelled certificate.

**17.** (*1*) The Local Government may require any certificate of survey which has expired, or has been cancelled or suspended, to be delivered up to such person as it directs.

[Act XVI of 1871, s. 12, Bom. Act II of 1864, s. 12. Ben. Act V of 1862, s. 12.]

(*2*) If the owner or master, without reasonable cause, neglects or refuses to deliver up a certificate as required under this section, he shall be punished with fine which may extend to one hundred rupees.

[Act XVI of 1871, s. 31. Bom. Act II of 1864, s. 12 Ben. Act V of 1862, s. 12.]

Report to be made of cancellation or suspension of certain certificates.

**18.** If the Local Government which cancels or suspends under section sixteen a certificate is not the Local Government of the place where the certificate was granted, the Local Government cancelling or suspending the certificate shall report the fact of cancellation or suspension, together with the reasons therefor, to the Local Government of the place where the certificate was granted.

## *Indian Steamships Bill.*

### *Chapter II.—Survey of Steamships. Chapter III.—Examination and Certificates of Engineers.*

[Act XVI of 1871, s. 14. Bom. Act II of 1864, s. 14. Ben. Act V of 1862, s. 14. As the appeal given by 39 & 40 Vic., c. 80, s. 14.]

**19.** (*1*) If the surveyors making a survey under this Act refuse to give a certificate, or give a certificate with which the owner or master of the steamship surveyed is dissatisfied, the Local Government may, on the application of the owner or master, direct two other surveyors appointed under section nine to survey the steamship.

Power to order a second survey.

(*2*) The surveyors so directed shall forthwith survey the steamship, and may, after the survey, either refuse to give a certificate or give such certificate as under the circumstances seems to them proper, and their decision shall be final.

(*3*) Every survey made under this section shall be made subject to all the provisions and rules both as to the payment of fees and otherwise which are applicable to surveys made in ordinary cases under this Act.

[See 39 & 40 Vic., c. 80, s. 19.]

**20.** When a foreign steamship requires to be furnished with a certificate of survey under this Act, and the Local Government is satisfied, by the production of a certificate of survey attested by a British Consular Officer at the port of survey, that the ship has been officially surveyed at a foreign port, and that the requirements of this Act are proved by that survey to have been substantially complied with, the Local Government may, if it thinks fit, dispense with any further survey of the ship in respect of the requirements so complied with, and give a certificate which shall have the same effect as a certificate given after survey under this Act:

Survey of foreign steamships.

Provided that this section shall not apply in the case of an official survey at any foreign port with respect to which Her Majesty has by order in Council directed that section 19 of the Imperial Merchant Shipping Act, 1876, shall not apply.

[See 39 & 40 Vic., c. 80, s. 19.]

[Cf. Act XVI of 1871, s. 9. Bom. Act II of 1864, s. 8. Ben. Act V of 1862, s. 8. 17 & 18 Vic., c. 104, ss. 309-13.]

**21.** (*1*) The Local Government may, from time to time, make rules to regulate the making of surveys under this Act.

Local Government to make rules as to survey.

(*2*) Rules under this section may, among other matters,

(*a*) declare the times and places at which, and the manner in which, surveys are to be made;

(*b*) assign and regulate the duties of each of the surveyors making a survey; and

(*c*) declare the form in which certificates of survey granted under this Act are to be framed, and the nature of the particulars which are to be stated therein.

[New. But cf. definition of "Surveyors" in Act XVI of 1871, s. 2. Bom. Act II of 1864, s. 17. Ben. Act V of 1862, s. 16.]

**22.** The Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification, declare that all or any of the provisions of this chapter shall not apply in the case of any specified class of steamships, or shall apply to them with such modifications as the Local Government may prescribe.

Power for Local Government to exempt certain steamships.

## CHAPTER III.

### EXAMINATION AND CERTIFICATES OF ENGINEERS.

[Cf. 25 & 26 Vic., c. 63, s. 5 (1).]

**23.** Engineers' certificates shall be of two grades, namely, "first class engineers' certificates" and "second class engineers' certificates."

Certificates to be of two grades.

[Cf. 25 & 26 Vic., c. 63, ss. 6 & 7. Cf. Act XVI of 1871, s. 17. Bom. Act IV of 1873, s. 15. Ben. Act I of 1868, s. 8.]

**24.** The Local Government may, from time to time, appoint persons for the purpose of examining the qualifications of persons desirous of obtaining certificates of competency as engineers, and, subject to the control of the Governor General in Council, make rules—

Examiners to be appointed and rules of examination made.

(*a*) for the conduct of these examinations, and as to the qualifications to be respectively required of persons desirous of obtaining "first class engineers' certificates" and "second class engineers' certificates"; and

(*b*) for the fees to be paid by all applicants for examination.

[Cf. 25 & 26 Vic., c. 63, s. 8. Cf. Act XVI of 1871, s. 18. Bom. Act IV of 1873, s. 16. Ben. Act I of 1868, s. 9.]

**25.** (*1*) The Local Government shall grant to every person who is reported by the examiners to possess the necessary qualifications a certificate of competency to the effect that he is competent to act as a first class engineer or as a second class engineer, as the case may be:

Grant of certificates of competency.

Provided that the Local Government may, in any case in which it has reason to believe that the report has been unduly made, require, before granting a certificate, a re-examination of the applicant or a further inquiry into his testimonials and character.

(*2*) Every certificate granted under this section shall be in such form as the Local Government may from time to time by rule prescribe.

[Cf. 25 & 26 Vic., c. 13, s. 9. Cf. Act XVI of 1871, s. 19. Bom. Act IV of 1873, s. 17. Ben. Act I of 1868, s. 10.]

**26.** (*1*) The Local Government shall grant certificates of service as engineers, differing in form from certificates of competency, as follows, namely:—

Grant of certificates of service.

(*a*) To every person who, before the passing of this Act, has served for a period of not less than one year as first engineer in any foreign-going steamship having engines of one hundred nominal horse-power or upwards, or who has attained, or shall attain, the rank of engineer in the service of Her Majesty—a "first class engineers' certificate" of service;

(*b*) To every person who, before the passing of this Act, has served for a period of not less than one year as second engineer in any foreign-going steamship having engines of one hundred nominal horse-power or upwards, or as first or only engineer in any other steamship, or who has obtained or shall obtain the rank of first class assistant engineer in the service of Her Majesty—a "second class engineers' certificate" of service:

Provided that a certificate of service shall not be granted to any person until he—

## *Indian Steamships Bill.*

## *Chapter III.—Examination and Certificates of Engineers.*

(*c*) has proved himself to have served or attained such rank as aforesaid, and has given his name and a full and satisfactory account of the length and nature of his previous services, and

(*d*) has paid such fees as the Local Government may, by a notification in the official Gazette, from time to time direct.

(*2*) Each of such certificates of service shall contain particulars of the name and of the length and nature of the previous service of the person to whom it is granted, and shall be in such form as the Local Government may from time to time, by rule, prescribe.

[Cf. Act XVI of 1871, s. 24. Bom. Act IV of 1873, s. 22. Ben. Act I of 1868, s. 16.]

Certificates to be made in duplicate.

**27.** Every certificate granted under this chapter shall be made in duplicate, and one part shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded as the Local Government may from time to time by rule prescribe.

[Act XVI of 1871, s. 25. Bom. Act IV of 1873, s. 23. Ben. Act I of 1868, s. 17.]

Copy of certificate to be granted in certain cases.

**28.** Whenever an engineer proves to the satisfaction of the Local Government which granted his certificate that he has, without fault on his part, lost or been deprived of it, a copy of the certificate to which, by the record kept as provided under section twenty-seven, he appears to be entitled shall be granted to him, and shall have all the effect of the original.

[Cf. 25 & 26 Vic., c. 63, s. 5 (2),(3) & (4), and Act I of 1859, s. 13. Cf Act XVI of 1871, s. 20, Bom. Act IV of 1873, s. 18, Ben. Act I of 1868, s 11, which however lay down a different rule.]

Number of engineers and nature of certificates necessary in case of different steamships.

**29.** (*1*) A foreign-going steamship having engines of one hundred nominal horse-power or upwards shall not go to sea from any port in British India unless she has as her first and second engineers two certificated engineers, the first possessing a "first class engineers' certificate" and the second a "second class engineers' certificate" or a certificate of the higher grade, granted under this Act or the Imperial Merchant Shipping Act, for the time being in force, or to which the provisions of any such Act have been made applicable under the Merchant Shipping (Colonial) Act, 1869.

17 & 18 Vic., c. 104.

32 & 33 Vic., c., 11.

(*2*) A home-trade steamship of a burden exceeding three hundred tons shall not go to sea from any port in British India unless she has as her only or first engineer an engineer possessing a second class engineers' certificate or a certificate of the higher grade, of the nature referred to in sub-section one.

(*3*) Nothing in this section shall apply to any steamship to which section 19 of the Inland Steam-vessels Act is applicable.

[See Act I of 1859, s. 118.]

(*4*) In this section "foreign-going steamship" includes every steamship employed in trading between any port of British India and any port or place not in British India, nor on the continent of India, nor in the island of Ceylon; and

[See Act I of 1859, s. 118.]

"home-trade steamship" includes every steamship employed in trading between any ports of British India, or between any port of British India and any port or place on the continent of British India, or in the island of Ceylon.

[25 & 26 Vic., c. 63, s. 5 (6). Cf. Act XVI of 1871, s. 32 Bom. Act IV of 1873, s. 19 Ben. Act I of 1868, s. 12.]

Penalty for serving, or engaging a person to serve, as engineer without a certificate.

**30.** (*a*) Whoever, having been engaged to serve in any of the capacities referred to in section twenty-nine in any steamship to which that section applies, goes to sea in that capacity without being at the time entitled to, and possessed of, the certificate required by that section, and

(*b*) whoever employs any person in any capacity referred to in section twenty-nine in any steamship to which that section applies, without ascertaining that he is at the time entitled to, and possessed of, the certificate required by that section,

shall be punished with fine which may extend to five hundred rupees.

### *Investigation into Explosions.*

1871, s. 15. Bom. Act IV of 1873, s. 3. Ben. Act I of 1868, s. 6.]

Power to investigate causes of explosions.

**31.** (*1*) Whenever any explosion occurs on board any steamship for which a certificate of survey is required under this Act, the Local Government may, if it thinks fit, direct that an investigation into the cause of the explosion be made by such person or persons as it thinks fit.

(*2*) The person or persons so directed may enter into and upon the steamship with all necessary workmen and labourers, and remove any portion of the steamship, or of the machinery thereof, for the purpose of the investigation, and shall report to the Local Government what, in their opinion, was the cause of the explosion.

(*3*) Every such person shall be deemed to be a public servant within the meaning of the Indian Penal Code, section 186.

XLV of 1860.

### *Miscellaneous.*

[Act XVI of 1871, s. 33. Bom. Act II of 1864, s. 16. Ben. Act V of 1862, s. 15.]

Magistrate having jurisdiction.

**32.** A Magistrate other than a Presidency Magistrate, or a Magistrate whose powers are not less than those of a Magistrate of the first class, shall not try any offence under this Act.

[See Act XVI of 1871, s. 33 Bom. Act II of 1864, s. 16 Ben. Act V of 1862, s. 15.]

Place of trial.

**33.** Whoever commits an offence against this Act shall be triable for the offence in any place in which he may be found, or which the Local Government may from time to time, by notification in the official Gazette, direct in this behalf, as well as in any other place in which he might be tried under any other law for the time being in force.

[Act XVI of 1871, s. 33. Bom. Act II of 1864, s. 16 Ben. Act V of 1862, s. 15.]

Fees recoverable as fines.

**34.** All fees payable, and all fines imposed, under the provisions of this Act may be recovered in like manner as a fine may be recovered under the Indian Merchant Shipping Act, Act I of 1859, section 113.

## *Indian Steamships Bill.*

## *Schedule I.—Form of Surveyor's Certificate and Declaration and Schedule II.—Rates of Fees.*

[See Bom Act II of 1864, s. 15] 17 & 18 Vic., c 104.

**35.** Sections 292, 293 and 294 of the Imperial Merchant Shipping Act, 1854, and the table marked S. in the schedule of that Act shall apply to all steamships going to sea from any port or place in the Presidency of Bombay

Sections of Imperial Merchant Shipping Act applied to steamships going to sea from Presidency of Bombay

17 & 18 Vic., c. 104

In calculating the penalties mentioned in section 293 of the Imperial Merchant Shipping Act, 1854, ten rupees shall be taken as the equivalent of one pound.

### THE FIRST SCHEDULE

*(See section 12.)*

FORM OF SURVEYORS' CERTIFICATE AND DECLARATION

| Name of steamship | Tonnage | Whether built or registered | Date of first registry | Date of last survey | Original | Certificate | Engines | Name from time to time of Surveyor | When last inspected previously to present survey | When next inspection to be made | First time (if any) that she has been docked since last survey | Time fixed by surveyor for next docking and examination of her bottom |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | | | | |

We, the undersigned, declare that we have examined the abovenamed steamship, and, to the best of our judgment, she and her engines, as shown in the above statement, are fully sufficient for the service on which it is intended to employ her, that is to say (*as the case may be*), and that the certificate (*or* certificates *as the case may be*) of the engineer (*or* engineers *as the case may be*) of the said steamship is (*or* are) such or in such condition as is required by this Act.

*A. B.*

*C. D.*

### THE SECOND SCHEDULE.

*(See section 13)*

RATES OF FEES.

| | Tons. | Rs. |
|---|---|---|
| For steamships of less than | 200 | 20 |
| „ „ 200 tons and up to | 350 | 25 |
| „ „ 350 „ „ „ | 700 | 30 |
| „ „ 700 „ „ „ | 1,000 | 40 |
| „ „ 1,000 „ „ „ | 1,500 | 50 |
| „ „ 1,500 „ and upwards | ... | 6 |

## STATEMENT OF OBJECTS AND REASONS.

A CASE having occurred in Bombay which showed that the Bombay law relating to the survey of steamships was not in harmony with the English law on the subject, it was thought desirable to amend the Bombay law. When, however, the question of legislation came to be considered, it appeared that there were no less than seven local Acts relating to steamships. Bombay, Bengal and Burma each had its special law regulating the survey of these ships, while there was no law on the subject in the Presidency of Madras. The multiplicity of laws relating to the survey of steamships, it was thought, could not but be inconvenient to shipowners whose ships traded between different Provinces. For instance, Act XVI of 1871, which is in force in Burma, requires every steam-vessel plying on any of the rivers or waters of British Burma, except steam-vessels plying between a port in British Burma and a port not in British India, to be surveyed twice a year. In the same way, the Bombay Act II of 1864, as amended by Bombay Act IV of 1873, requires every British steam-vessel, not holding a Board of Trade, British Indian or Colonial certificate, carrying passengers between any port of the Presidency of Bombay and any other port, to be surveyed twice a year, and the Bengal Act V of 1862, as amended by Act I of 1868, also requires the survey twice in every year of all steam-vessels plying on any of the rivers or waters within the Province of Bengal, except steam-vessels which may ply between some port within that Province and some port not in British India. Under these laws, a steam-vessel which was surveyed in Bombay might, apparently, be required to undergo a fresh survey on arrival in Calcutta, and another survey on arrival at a port in Burma. As legislation is necessary, it is, therefore, clearly expedient to have one uniform law relating to the survey of steam-vessels applicable to the whole of British India.

2. Besides providing for the survey of steam-vessels, the local Acts provide also for the examination of, and the grant of certificates to, engineers, and for holding investigations into explosions occurring on board steam-vessels. In these matters uniformity in the law is desirable.

3. After consulting the Local Governments concerned, the Government of India has decided to legislate so as to provide one law relating to the survey of sea-going steamships, the examination and grant of certificates to engineers of those ships, and the investigation into explosions occurring thereon. The present Bill has accordingly been prepared. It was, however, found at the same time necessary to legislate in like manner for steam-vessels plying on rivers and inland waters, inasmuch as the provisions of the local Acts related, to a certain extent, to those vessels as well as to sea-going vessels. With this view, a separate Bill—the Inland Steam-vessels Bill—has been prepared, so as to keep the law relating to merchant shipping—a law liable to be affected by legislation in England—entirely separate from the law regulating inland steam-vessels, which is a matter solely within the scope of Indian legislation.

4. The present Bill is divided into three chapters. The first chapter is purely formal. The second deals with the subject of the survey of steamships. It provides that a steamship shall not carry more than twelve passengers between places in British India, and that a British steamship shall not carry more than twelve passengers to or from any place in British India from or to any foreign port, unless she is furnished with a certificate of survey. It exempts steamships furnished with Board of Trade certificates or Colonial certificates, provides for the appointment of surveyors and ports of survey, prescribes the powers of surveyors and the conditions on which they are to grant certificates. It provides for the fees which are to be paid for certificates and the term for which they are to last, and it confers on the Local Government the power, under certain circumstances, of cancelling or suspending a certificate. It further enables the Local Government to make rules to regulate the time, place and manner in which surveys shall be made, and to assign and regulate the duties of each of the surveyors making it. To meet local requirements, a section (22) is also added, enabling the Local Government to exempt any specified class of steamships from all or any of the provisions of the chapter.

5. The principal changes introduced in the law by the provisions contained the second chapter are as follows:—

Section 3 follows the English law (39 & 40 Vic., cap. 80, section 16), and only requires a survey in the case of steamships carrying more than twelve passengers.

The law as at present in force in Bengal and Burma is thus amended in an important point, and cargo steamers are exempted from survey.

Another change in the law is made by section 15 of the Bill, which provides that a certificate of survey shall not remain in force for more than twelve months. At present, the law requires a survey twice a year, but it is thought that the power which the Local Government has under section 16 of the Bill of cancelling or suspending a certificate renders a survey every six months unnecessary.

Section 20 of the Bill enacts the provisions (regarding the grant of certificates of survey to foreign ships) of section 19, 39 & 40 Vic., cap. 80. It is considered that these provisions will be of use in India in the case of foreign ships which have been officially surveyed at a foreign port.

6. The third chapter of the Bill deals with the examination of, and grant of certificates to, engineers. It also contains a provision as to inquiries into cases of explosion, and miscellaneous sections regulating the jurisdiction and place of trial in cases of offences under the Act, and applies to steamships going to sea from a place in the Bombay Presidency, the provisions as to boats for sea-going ships of the Imperial Merchant Shipping Act, 1854.

7. Following the Imperial Merchant Shipping Act Amendment Act, 1862, the chapter provides that there are to be two grades of engineers—first class engineers and second class engineers. The Local Government is empowered to appoint examiners, and to make rules as to the conduct of the examinations, the qualifications to be required from the applicants and the fees to be paid by them. Certificates will be granted to those who, by the result of the examination, show themselves to be possessed of the necessary qualifications.

8. This chapter also provides (section 26) for the grant of certificates of service as engineers. A first class certificate may be granted to a person who has served, before the passing of the Act, for a period of not less than one year as first engineer in any foreign-going steamship carrying engines of one hundred nominal horse-power or upwards, or who has attained, or shall attain, the rank of engineer in Her Majesty's service.

A second class certificate may be granted to a person who has, before the passing of the Act, served as second engineer in such a steamship or as sole engineer in a smaller one, or who obtains the rank of first class assistant engineer in Her Majesty's service. It is doubtful whether it is necessary or expedient to provide for the grant of certificates of service. The attention of the Local Governments concerned will be drawn to the point.

9. It is further provided (section 29), that foreign-going steamships shall not proceed to sea without engineers possessing certain specified certificates. Similar provisions are made for home-trade steamships, the steamships which are inland steam-vessels within the meaning of the Inland Steam-vessels Act being excepted.

10. The provisions of section 31, as to investigations into explosions, require no comment; and the last four sections of the Bill merely re-enact the existing law as to jurisdiction, the place of trial, the recovery of fees and fines, and the application to steamships leaving a port in the Bombay Presidency of certain provisions of the Imperial Merchant Shipping Act, 1854, concerning boats for sea-going ships.

*The 5th March, 1883.*

C. P. ILBERT.

R. J. CROSTHWAITE,
*Addl. Secretary to the Government of India.*

SUPPLEMENT TO

# The Gazette of India.

Nº 11.} CALCUTTA, SATURDAY, MARCH 17, 1883.

## OFFICIAL PAPERS.

*A* SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

*Non-Subscribers to the* GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta or nine Rupees if sent by Post.*

*No Official Orders or Notifications the publication of which in the* GAZETTE OF INDIA *is required by Law or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be inserted in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

## APPENDICES.

### APPENDIX I.

**Accounts and Estimates (new Classification)** 493

General Statement of Accounts and Estimates . 494
Abstract A.—Details of Revenue . . 496
Abstract B.—Details of Expenditure 498
Abstract C.—Details of Receipts and Disbursements other than Revenue and Expenditure 502
Abstract D.—Provincial and Local Balances . . 506
Abstract E.—Statement of Net Revenue and Expenditure . . 507

## APPENDIX II.

PAGE.

**Accounts and Estimates (old Classification)** . . . . . 509
Statement I.—Revenue and Expenditure of the Government of India in India and in England . . . . . 510
Statement II.—Revenue and Expenditure of the Government of India in India and in England (distinguishing Revenue and Charges of Productive Public Works) . 512
Statement III.—Revenue and Expenditure of the Government of India in India and in England in the three divisions, Imperial, Provincial, and Local . . . . . 514
Statement IV.—Receipts and Disbursements at the Treasuries of the Government of India in India and in England . . . . . 516
Statement V.—Revenue and Expenditure of the Government of India in India . . 518
Statement VI.—Revenue and Expenditure of the Home Treasury of the Government of India . . . . . 520
Statement VII.—Receipts and Disbursements at the Treasuries of the Government of India in India . . . . . 522
Statement VIII.—Receipts and Disbursements at the Home Treasury of the Government of India . . . . . 524
Statement IX.—Closing Balances of the Provincial Governments . . . . . 526
Statement X.—Statement showing the net Revenue and Expenditure of India . . 527

## APPENDIX III.

**Accounts of the eleven years, 1871-72 to 1881-82, and Estimates for 1882-83 and 1883-84 (new Classification)** . . . . . 529
General Statement . . . . . 530
Details of Revenue . . . . . 532
Details of Expenditure . . . . . 534

## APPENDIX IV.

**Memorandum on Provincial and Local Surpluses and Deficits** . . . 539

## APPENDIX V.

**Trade** . . . . . 545
Imports and Exports from April 1st, 1882, to December 31st, 1882, compared with the corresponding period of the year 1881 . . . . . 547
Statement showing the Quantities and Values of articles imported into British India (from Foreign Countries), which were exempted from customs duty by the Indian Tariff Act XI of 1882, for the ten months from April 1st, 1882, to January 31st, 1883, compared with the corresponding period of the year 1881-82 . . . . . *ib.*
Memorandum on the import of Government Stores from Europe . . . . 549

## APPENDIX VI.

**The Military Budget Estimates, 1883-84—**
Minute by Lieutenant-General the Hon'ble T. F. Wilson, C.B. . . . . 551

# FINANCIAL STATEMENT.

## I.—Preliminary.

*Preliminary.*

1. No legislation will be undertaken in connection with the financial arrangements for the year 1883-84. Under these circumstances the law does not permit of the Financial Statement being made in the Legislative Council. That Statement must take the form of a written Minute which will be published in the *Gazette of India*.

*Law bearing on Financial Statement.*

2. It may perhaps be as well that, at the risk of repeating what has often been said before, I should explain the precise condition of the law bearing upon the present issue.

3. Section 19 of 24 & 25 Vic. Cap. 67 (the Indian Councils Act, 1861) is conceived in the following terms :—

"No business shall be transacted at any meeting for the purpose of making "Laws and Regulations" (with the exception of the amendments of the Rules for the conduct of Business) "other than the consideration and enactment of "measures introduced into the Council for the purpose of such enactment."

It results, therefore, that as no legislation is proposed in connection with the financial arrangements for the year 1883-84, the Financial Statement cannot be made in the Legislative Council without a contravention of the law which governs the proceedings of that Council. This, as was explained by Lord Northbrook in 1873,* "is not a mere technical or "formal difficulty, for not only are the words of the "Act in themselves explicit, but in order to prevent any possible misconception, "it was explained by the Secretary of State, in the Despatch No. 14 of the 9th "of August 1861, with which the Act was transmitted to India, that one object "of the nineteenth Section of that Act was that this (*i.e.*, the Legislative) "Council should not 'interfere with the functions of the Executive Government, "and occupy its time with matters which are not directly and immediately "connected with the special duties assigned to it'—that is to say, the con-"sideration and enactment of Laws and Regulations."

* Legislative Council Proceedings of March 5th, 1873.

4. I regret that the condition of the law precludes the possibility of any discussion on the existing financial situation in the Legislative Council. The law on the subject is, however, explicit and must of course be obeyed. The Government has no discretionary power in the matter.

*Figures in conventional sterling.*

5. Except in cases where the words "true sterling" are entered in a parenthesis after any figure, all the figures in this Statement are, as usual, given in "conventional sterling," that is to say, £1 = Rs. 10. On the occasion of the last Financial Statement (para. 1) I explained the reasons which render the continuance of this system, for the present at all events, desirable.

6. The explanations in this Statement are given upon the figures as arranged in Appendix I.

## II.—Changes in the forms of the Accounts and Estimates.

**Changes in the forms of the Accounts and Estimates.**

7. Judging from the remarks which are frequently made both in and out of Parliament, it would appear that the Accounts and Estimates of the Government of India are regarded by many people as a financial puzzle, which none but experts can hope to understand. It not unfrequently happens that those who cannot understand them rush to the conclusion that the figures, in the form in which they are presented to the public, are wrong and misleading; that there is something radically unsound in Indian financial affairs; that the surpluses are no surpluses at all, but that they would, were the figures properly presented, be turned into deficits; in fact, that an Indian Financial Statement

is merely a more or less dexterous manipulation of figures, and not an accurate indication of the financial situation of the Government of India.

*Present system is scientifically sound.*

8. I should be the last to wish to under-rate the difficulties connected with the administration of the Indian finances. Our standard of value is unstable. Our Opium revenue is precarious. The tax-paying community is poor and incapable of bearing any heavy burthens. War and famine are constantly recurring evils. The comparative absence of private capital throws upon the State many onerous duties which in other countries can be more advantageously performed through the agency of private enterprise. All this is true enough. But it is wholly erroneous to suppose that the difficulties of Indian financial administration, considerable though they be, are in any way connected with questions of technical finance. The issue is, in fact, a false one. The machinery for the conduct of our technical finance is remarkably good. I believe it may challenge comparison with that of any other Government in the world. The Accounts and Estimates represent truly and accurately the money received and spent by the Government. The surpluses are real surpluses, and the deficits are real deficits. The figures present neither an optimist nor a pessimist view of the financial situation. They give the bald and true facts of the situation as they stand, without exaggeration in one direction or another.

*But is not generally understood.*

9. But however scientifically sound and accurate may be our system of Accounts, nothing is more certain than that the public finds great difficulty in understanding the figures which are published on the occasion of the annual Financial Statement. In proof of this assertion I need only mention that a leading London newspaper, in reviewing the Budget last year, made a mistake of about £2,000,000, owing to a misapprehension of the true meaning of the Estimates as they were presented to the public.

*Some reforms are desirable.*

10. It is manifestly the duty of the Government to do all that it can to ensure a comprehension of its Accounts and Estimates. At the same time it is to be remembered that the financial transactions of the Government of India are very large and complicated. Those of the English Treasury are, relatively speaking, much more simple. No one can hope to gain a thorough insight into the true meaning of the Indian Accounts and Estimates unless he is prepared to devote a certain amount of time and trouble to the task. The most that the Government can do is to facilitate their comprehension to the utmost by arranging the figures in the most simple and concise form of which the circumstances admit.

*And also possible.*

11. The whole of this question has been fully considered within the last few months, and it has been found possible to re-arrange the figures in such a manner as to maintain intact our present system, which, as I have already said, is everything that can be desired from a departmental point of view, whilst at the same time I trust that the Accounts and Estimates in their new form will be more easily comprehensible to the public than appears heretofore to have been the case.

*Description of existing system.*

12. Before proceeding any further, it will be desirable that I should describe the forms in which the Accounts and Estimates have heretofore been presented to the public.

13. Up to the present time the ten following documents have been appended to the Financial Statement :—

*Documents heretofore attached to the Financial Statement.*

*Statement I.—Revenue and Expenditure of the Government of India in India and in England.*—This Statement gives the whole of the Revenue, whether Imperial, Provincial, or Local, under 29 major heads, and the whole of the Expenditure, whether Imperial, Provincial, or Local, under 37 major heads of Account.

*Statement II.—Revenue and Expenditure of the Government of India in India and England.*—The only difference between this Statement and *State-*

*ment I* is that the Revenue from *Productive Public Works* is shown separately, instead of being amalgamated with other Revenue connected with Public Works as is done in *Statement I* A corresponding separation is made on the Expenditure side of the Account It is on the figures, as arranged in this Statement, that the explanations given at the time of the Budget by the Financial Member of Council have heretofore been based

*Statement III—Revenue and Expenditure of the Government of India in India and in England in the three Divisions, Imperial, Provincial, and Local* —This Statement gives the same figures as in *Statements I* and *II*, but arranged so as to show to what extent the Revenue and Expenditure are respectively Imperial, Provincial, and Local

*Statement IV—Receipts and Disbursements of the Government of India in India and England* —This Statement gives the joint cash account of the Home and Indian Treasuries

*Statement V—Revenue and Expenditure of the Government of India in India* —This Statement gives in detail the Revenue and Expenditure exclusive of all transactions in England

*Statement VI—Revenue and Expenditure of the Home Treasury of the Government of India*—This Statement gives the detail of the Revenue and Expenditure in England

*Statement VII—Receipts and Disbursements at the Treasuries of the Government of India in India*—This Statement shows what portion of the total sums given in *Statement IV* are received and disbursed in India

*Statement VIII.—Receipts and Disbursements at the Home Treasury of the Government of India* - This Statement shows what portion of the total sums given in *Statement IV* are received and disbursed in England.

*Statement IX—Closing Balances of the Provincial Governments*—*Statement VIII* gives the closing balance of the Imperial and Provincial Governments collectively *Statement IX* shows how much of this amount is reckoned at the credit of each Provincial Government

*Statement X.—Statement showing the net Revenue and Expenditure of India* —This Statement was published for the first time in March 1882

*Reasons why the Accounts are difficult to understand*

14. The difficulty of understanding the Indian Accounts and Estimates seems to arise mainly from two causes In the first place they are too bulky In the second place, the development of Provincial and Local finance has given rise to the necessity of adjusting entries, which to those who are not fully acquainted with the somewhat complicated detail of the arrangements made between the Imperial and Provincial Governments are, without doubt, rather difficult to understand

*Bulkiness of Accounts and Estimates*

15. As regards the bulkiness of the published Statements it is to be observed that under Mr Wilson's classification in 1861 the Revenue was shown under 15, and the Expenditure under 23 major heads of Account The Commissioners in their report of 1864 somewhat expanded this classification, and in 1866 Mr Massey, adopting generally the proposals of the Commissioners, showed the Revenue under 20, and the Expenditure under 32 heads

16. Since 1866 new administrative wants have sprung up, with the result that, in order to keep pace with those wants, it has from time to time been necessary to open new heads of Account The passing of the Registration Acts led to the opening of a new head, entitled *Registration*, on both sides of the Account. The policy of financial decentralisation and the incorporation into the General Accounts of Local Revenue and Expenditure necessitated a new head of Account under the title of *Provincial Rates* In 1870 the heading *Minor Departments* first made its appearance The expenditure under this head had formerly appeared under *Administration*. With the adoption of the policy of

lending Officers to Native States, the necessity arose of opening a new head of Account, entitled *Civil Furlough Allowances*. The major head of *Famine Relief and Insurance*, which is now divided into three sub-heads, *viz.*, *Relief*, *Protective Works*, and *Reduction of Debt*, was opened as a necessary result of the famine policy of 1877 and 1881. It was also, from time to time, found necessary to add new heads of Revenue under the titles of *Medical, Stationery*, and *Superannuation Contributions*. But it is under Public Works that the greatest development has occurred. The single head *Public Works* on either side of the Account was all that was required in 1861. Exclusive of Capital Expenditure on *Productive Public Works*, which stands outside the Ordinary Account, and exclusive of the grants for *Protective Works* under *Famine Relief and Insurance*, we have now in *Statement II* no less than 9 figures on the Revenue, and 11 figures on the Expenditure side of the Account, representing Public Works transactions.

**17.** In all, Mr. Massey's 20 figures on the Revenue side of the Account had increased in March 1882 to 36, and his 32 figures on the Expenditure side of the Account had increased to 49.

*Requirements of the public.*

**18.** There is not one detail which is at present given in our Statements of Account, which, for departmental purposes, could be spared. On the other hand, it is impossible not to recognise that the Statements give more detail than is generally required by the public. What I conceive is mainly required by Parliament and by the public is to present the Accounts and Estimates in a form sufficiently concise and simple to be easily understood by those who do not make a special study of Indian Finance, but whose general knowledge of financial subjects enables them readily to understand an Account presented in a clear form. Full details should indeed, as at present, be published, but in a separate form.

*How they may be met.*

**19.** The only way in which we can attain the conciseness and simplicity required by the public, and at the same time meet the necessities of administrative and departmental convenience, will be to push the grouping of the heads one stage further than the "major heads" which have heretofore been shown in the documents appended to the Financial Statement. To make any material alteration in our major heads would either render an accurate comparison with the figures of past years impossible, which would be very objectionable, or it would involve the re-compilation of the Accounts of past years, which would be a very laborious process. With one exception, of slight importance, no such alteration is either desirable or necessary.

*Division of one major head only.*

**20.** The exception to which I allude, is in respect to the heading on the Expenditure side of the Account, which has up to the present time been entitled *27. Allowances and Assignments under Treaties and Engagements*. In the classification adopted from 1861 to 1866, the charges under this head were treated along with refunds, and charges for the collection of Revenue, as direct charges against Revenue. This is also where they are placed in the existing General Account (No. 2 of the Finance and Revenue Accounts); and their close connection with this group is shown in two recent instances, namely, the Excise compensations paid in Bombay, and the payments under the Salt Treaties. Both of these are payments on account of Revenue, and are productive of a corresponding increase of Revenue. They are, therefore, not properly accounted for unless they are grouped as direct charges against Revenue. But such a payment as the yearly allowance of the Ex-King of Oudh, which also goes under this head, cannot properly be considered as a charge against Revenue. It may be more properly regarded as a purely political charge. We propose, therefore, in the future to break up the existing major head into two portions. One of these portions, entitled *Assignments and Compensations*, will be grouped under *Direct Demands on the Revenue*. The other, entitled *Territorial*

*and Political Pensions,* will be grouped under *Miscellaneous Civil Charges.* With this exception no change will be made in the existing units of Account.

*New classification.*

**21.** I now invite attention to Appendix I attached to this Minute. This Appendix contains the six following documents:—

(1) General Statement of Accounts and Estimates.
(2) Abstract A, Details of Revenue.
(3) Abstract B, Details of Expenditure.
(4) Abstract C, Details of Receipts and Disbursements other than Revenue and Expenditure.
(5) Abstract D, Provincial and Local Balances.
(6) Abstract E, Net Revenue and Expenditure.

For the future these six Statements will take the place of the ten Statements heretofore published.

*The General Statement.*

**22.** Any one who wishes to see at a glance the nature of the whole of the financial transactions of the Government of India for the years under review need only look at the General Statement. He will there see the total Revenue and Expenditure,—whether Imperial, Provincial, or Local, and whether in India or in England,—grouped under a few main heads. He will also see the whole of the cash transactions, which stand outside the Revenue and Expenditure Account. He will also see the opening and closing balances of the Government, whether in England or in India. Thus, for instance, looking to the Accounts for the year 1881-82, it will be seen that the Revenue amounted to £73,695,806, and the total Expenditure charged against Revenue to £71,113,079, thus leaving a surplus of £2,582,727; that the total Receipts, including not only Revenue, but the net receipts on account of *Debt, Deposits, and Advances*, and the gross receipts of the Secretary of State on account of Bills drawn on India, amounted to £93,516,749; that the total Disbursements, including not only Expenditure charged against Revenue, but also Capital Expenditure on *Productive Public Works* and Disbursements on account of *Debt, Deposits, and Advances* and of Council Bills, amounted to £93,871,777; that the opening cash balance in England on April 1st, 1881, amounted to £4,127,749; that the opening cash balance in India on April 1st, 1881, amounted to £13,371,101; that the Secretary of State drew Bills on the Indian Treasury amounting to £18,412,429 between April 1st, 1881, and March 31st, 1882, and that Bills amounting to £18,336,997 were paid during the same period; that the closing cash balance in England on March 31st, 1882, amounted to £2,620,909; and that the closing cash balance in India on March 31st, 1882, amounted to £14,522,913. These are the leading financial features of the year.

*Details in General Statement.*

**23.** We have carefully considered the extent to which it will be desirable to give details in the General Statement. I may observe that in the main Statement attached to the Finance Accounts of the United Kingdom, the Revenue is shown under ten heads, and the Expenditure, excluding *Interest on Debt*, which for special reasons has eight heads to itself, is shown under fourteen heads. We have roughly taken the Statement issued by the English Treasury, which is an admirable composition of its kind, as a model for our guidance.

*Principal Heads of Revenue.*

**24.** The first entry in the General Statement on the Receipt side of the Account is *Principal Heads of Revenue.* This group contains eleven items (*vide* Abstract A), of which five only are shown separately in the General Statement. These are—

*Land Revenue.*
*Opium.*
*Salt.*
*Stamps.*
*Excise.*

25. These are the main heads of Indian Revenue. They have, following the English system, been arranged in what may approximately be considered the order of their relative importance. The remaining items grouped under *Principal Heads of Revenue* are classed in the General Statement under ***Other Heads***. This entry includes the following heads :—

*Provincial Rates.*
*Customs.*
*Assessed Taxes.*
*Forest.*
*Registration.*
*Tributes from Native States.*

Any one who wishes to see the detail under these heads has only to turn over the page and look at Abstract A, to which he is referred in the first column of the General Statement.

*Post Office, &c.*

26. The next item is *Post Office, Telegraph, and Mint.* These are given in one figure in the General Statement, but are separated in Abstract A.

*Receipts by Civil Departments.*

27. The next entry in the General Statement is *Receipts by Civil Departments*, a term borrowed from the English Finance and Revenue Accounts. On turning to Abstract A it will be seen that this group includes the following heads of Account :—

*Law and Justice.*
*Police.*
*Marine.*
*Education.*
*Medical.*
*Scientific and other Minor Departments.*

*Miscellaneous.*

28. The entry *Miscellaneous* in the General Statement includes—

*Interest.*
*Receipts in aid of Superannuations, &c.*
*Stationery and Printing.*
*Miscellaneous.*

The details of each item are given in Abstract A.

*Productive Public Works.*

29. It will be borne in mind that in *Statement II*, under the old classification which is now to be superseded, the Revenue from Productive Public Works was shown separately from other Public Works Revenue, and that an analogous separation was made on the Expenditure side of the Account. It is very desirable to maintain this distinction. It has, therefore, been maintained in the General Statement. It is, of course, to be borne in mind that the word "Productive" has, for the purposes of the present argument, a technical signification. It is not to be inferred that a work not classed as Productive is entirely unremunerative. What is meant is that only Capital Expenditure on works classed as Productive is allowed to stand outside the Ordinary Account. Borrowing in respect to the construction of these works is permissible. Expenditure on all works not classed as Productive is charged to Revenue.

*Revenue from Productive Public Works.*

30. It will be seen on referring to Abstract A that the entry in the General Statement entitled *Revenue from Productive Public Works,* includes the following items :—

*State Railways* (*Gross Earnings*).
*Guaranteed and Subsidized Railways* (*net Traffic Receipts*).
*East Indian Railway* (*net Traffic Receipts*).
*Irrigation and Navigation* (*Direct Receipts*).
*Madras Irrigation and Canal Company* (*net Traffic Receipts*).
*Portion of Land Revenue due to Irrigation.*

*Receipts on account of Public Works not classed as Productive.*

**31.** The entry in the General Statement entitled *Receipts on account of Public Works not classed as Productive,* includes the following items :—

*State Railways.*
*Subsidized Railways.*
*Irrigation and Navigation.*
*Military Works.*
*Civil Buildings, Roads, and Services.*

*Other Public Works.*

**32.** Up to the present time the receipts and expenditure connected with *Military Works* and *Civil Buildings, Roads, and Services*, have appeared under the head *34. Other Public Works.* This heading was first adopted in February 1880. The entry does not carry its own meaning with it, and on that account appears to be objectionable. As a matter of fact the money is spent partly on *Military Works*, which receive a fixed annual grant of £1,000,000, and partly on *Civil Buildings, Roads, and Services.* Under these circumstances the most simple plan appears to be to adopt a nomenclature in the Accounts which carries its own signification with it.

*Receipts by Military Departments.*

**33.** The next item in the General Statement, namely, *Receipts by Military Departments*, is divided, in Abstract A, into three heads, *viz.* :—

*Army.*
*Military Operations in Afghanistan.*
*Military Operations in Egypt.*

The two last items are, of course, exceptional, and only appear in the Accounts and Estimates of the years when Military Operations were conducted in Afghanistan and Egypt respectively.

*Expenditure.*

**34.** I now turn to the Disbursement side of the Account. Here again the Expenditure has been grouped under a few main heads, the detail being given in Abstract B, to which a reference is made in the first column of the General Statement.

*Interest.*

**35.** The first entry is *Interest.* It is to be borne in mind that this entry only gives the Interest charged to Ordinary Debt, that is to say, it is exclusive of the amount of Interest charged to Productive Public Works. This latter charge appears lower down in the General Statement, being included in the group entitled *Expenditure on Productive Public Works* (*Revenue Account*). The single head of *Interest* in the General Statement is, in Abstract A, divided into two heads, *viz.* :—

*Direct Demands on the Revenue.*

*Interest on Ordinary Debt* (*excluding that charged to Productive Public Works*),
*Interest on Deposits.*

**36.** The next entry is *Direct demands on the Revenues.* This entry, as will be seen by reference to Abstract B, includes the following items :—

*Refunds and Drawbacks.*
*Assignments and Compensations.*
*Charges in respect of Collection, viz.* :—
*Land Revenue.*
*Opium* (*including cost of production*).
*Salt* (*including cost of production*).
*Stamps.*
*Excise.*
*Provincial Rates.*
*Customs.*
*Assessed Taxes.*
*Forest.*
*Registration.*

The whole of these items are payments on account of Revenue, that is to say, they are, to a greater or less degree, productive of a corresponding increase of Revenue. They are, therefore, properly grouped under *Direct demands on the Revenues.*

*Post Office, &c.*

**37.** The next entry is *Post Office, Telegraph, and Mint.* Following the course adopted on the Revenue side of the Account, the Expenditure under these three heads is shown in one figure in the General Statement. The detail is given in Abstract B.

*Salaries and Expenses of Civil Departments.*

**38.** The next entry in the General Statement is *Salaries and Expenses of Civil Departments.* A reference to Abstract B will show that this entry includes the following items:—

*General Administration.*
*Law and Justice.*
*Police.*
*Marine (including River Navigation).*
*Education.*
*Ecclesiastical.*
*Medical.*
*Political.*
*Scientific and other Minor Departments.*

*Miscellaneous Civil Charges.*

**39.** The next entry is *Miscellaneous Civil Charges.* A reference to Abstract B will show that this entry includes the following items:—

*Territorial and Political Compensations.*
*Civil Furlough and Absentee Allowances.*
*Superannuation Allowances and Pensions.*
*Stationery and Printing.*
*Miscellaneous.*

*Famine Relief and Insurance.*

**40.** The next entry is *Famine Relief and Insurance.* Up to the present time the expenditure on *Protective Works*, whether on Railways or Canals, has been shown in one figure. In future it is proposed to show the expenditure on Railways and that on Irrigation separately. The entry *Famine Relief and Insurance* in the General Statement, is, therefore, in Abstract B divided into the following sub-heads:—

*Famine Relief.*
*Protective Works, Railways.*
*Protective Works, Irrigation.*
*Reduction of Debt.*

*Productive Public Works (Revenue Account).*

**41.** The next entry is *Expenditure on Productive Public Works (Revenue Account).* This answers to the entry *Revenue from Productive Public Works* on the Revenue side of the Account. A reference to Abstract B will show that the details are given under the following heads:—

*State Railways (Working and Maintenance).*
*Guaranteed and Subsidized Railways (Interest and Profits).*
*East Indian Railway (Interest and Profits).*
*Irrigation and Navigation (Working and Maintenance).*
*Madras Irrigation and Canal Company (Interest, &c.).*
*Interest on Debt incurred for Productive Public Works:—*
*Railways.*
*Irrigation.*
*Miscellaneous Public Improvements.*

**42.** The next entry is *Expenditure on Public Works not classed as Productive.* This answers to the entry *Receipts on account of Public Works not*

*classed as Productive* on the Revenue side of the Account. A reference to Abstract B will show that the details are given under the following heads:—

*State Railways (Capital Account).*
*State Railways (Working and Maintenance).*
*Subsidized Railways.*
*Southern Mahratta Railway.*
*Frontier Railways.*
*Irrigation and Navigation.*
*Military Works.*
*Civil Buildings, Roads, and Services.*

*Army Services.*

**43.** The next entry, *Army Services*, is divided into three heads in Abstract B, *viz.*:—

*Army.*
*Military Operations in Afghanistan.*
*Military Operations in Egypt.*

The last two items are, of course, exceptional.

*Gain by Exchange.*

**44.** The next entry is *Exchange on Transactions with London.* Up to the present time one item, entitled *Gain by Exchange*, has been entered on the Revenue, and another item, entitled *Loss by Exchange*, has been entered on the Expenditure side of the Account. As regards the item *Gain by Exchange*, I beg to refer those who wish to gain a thorough knowledge of what this entry means to the Report of the Comptroller-General on the Accounts of 1880-81, which was published in the *Gazette of India* of March 4th, 1882. For my present purposes it will perhaps be sufficient to say that every rupee entered under *Gain by Exchange* represents merely the recovery of an amount which has been already charged under *Loss by Exchange*, and which has, therefore, to be written back. There is, I need hardly say, no real gain, using the term in its ordinary signification.

*Loss by Exchange.*

**45.** The true meaning of the entry *Loss by Exchange* has been very frequently explained (see especially para. 80 of the Financial Statement for 1881-82). But so long as we continue to employ the words heretofore used, so long will a large body of the public continue to think that the whole amount of this adjustment is really money lost to the tax-payers. To describe fully what this entry means would involve an amount of writing which would be quite inconsistent with the brevity necessarily required in an item of Account. But if we cannot describe what is meant in the body of the Accounts, we can, at all events, avoid the use of words which are misleading. To speak of the total amount entered under *Loss by Exchange* as money lost, is, of course, wholly erroneous, for under any reasonable hypothesis in respect to the relative value of gold and silver, only a portion of the amount can be considered as a real loss. We propose, therefore, for the future, in so far as the published Accounts are concerned, to get rid of the item *Gain by Exchange* on the Revenue side of the Account altogether, to discontinue the use of the word "Loss," and to insert a net figure on the Expenditure side of the Account, under the head of *Exchange on Transactions with London.*

*Provincial Surpluses and Deficits.*

**46.** Following the order of entries on the Disbursement side of the General Statement, the next items are the two adjusting entries, namely, *Provincial Surpluses, that is, Allotments to Provincial Governments unspent by them*, and *Provincial Deficits, that is, Portion of Provincial Expenditure defrayed from Provincial Balances.* For the moment I postpone my observations in respect to these two entries.

*Total Expenditure charged against Revenue.*

**47.** After these entries the *Total Expenditure charged against Revenue* is given.

*Productive Public Works, Capital Account.*

**48.** Immediately under this item comes the *Expenditure on Productive Public Works (Capital Account)*. This is the same entry which has formerly

figured in *Statement II*, under the head of *37. Productive Public Works.* The detail of this entry is given at the end of Abstract B under the following heads :—

*State Railways.*
*East Indian Railway.*
*Irrigation and Navigation.*
*Madras Irrigation and Canal Company's Undertakings.*
*Miscellaneous Public Improvements.*

*Debt Heads.* **49.** I have, so far, dealt only with the Revenue and Expenditure portions of the General Statement. I now proceed to deal with the Debt heads.

*Receipts.* **50.** The Receipts under *Debt, Deposits, and Advances* are given under the following heads :—

*Permanent Debt* (*net Incurred*).
*Unfunded Debt* (*net Incurred*).
*Deposits and Advances* (*net*).
*Loans to Municipalities, Native States, &c.* (*net Recoveries*).
*Capital of Guaranteed and Subsidized Companies* (*net Receipts*).
*Remittances* (*net*).
*Secretary of State's Bills drawn.*

*Disbursements.* **51.** Analogous entries are given in respect to the Disbursements on the other side of the Account. Full details in respect to the *Debt, Deposit, and Advance* Accounts will be found in Abstract C, which contains, indeed, more detailed information than has heretofore been given in *Statements IV, VII,* and *VIII* of the old classification.

*Opening and closing Balances.* **52.** The General Statement closes, on the Receipt side of the Account, with the balance at the commencement of the year in England and in India, and on the Disbursement side of the Account, with the balance at the close of the year in England and in India.

*Provincial and Local Balances.* **53.** Abstract D gives the *Provincial and Local Balances.* This Account contains, in a somewhat condensed form, the same information as was given in *Statement IX, Closing Balances of the Provincial Governments* under the old classification.

*Net Revenue and Expenditure.* **54.** Abstract E gives the *Net Revenue and Expenditure.* It contains the same information as was given in *Statement X* of the old classification, but arranged in a somewhat more precise form.

*Adjusting entries.* **55.** I have so far stated what it is proposed to do with a view to making the Accounts and Estimates more simple and concise. I now propose to deal with the question of the adjusting entries entitled *Provincial and Local Surpluses and Deficits*, which, as I have already mentioned (para. 14) do not appear to be readily understood.

*Explanation of entries.* **56.** The nature of these entries has frequently been explained before, but it will perhaps be as well that I should endeavour to explain them again. Under the Provincial system of Finance, the Government of India either makes allotments to Provincial Governments, or else hands over to them, in whole or in part, certain branches of the Revenue. If in any one year a Provincial Government spends less than its income, the amount by which it under-spends its income constitutes virtually a debt due by the Government of India, to that Provincial Government. If, on the other hand, a Provincial Government, having a balance at its credit, spends in any one year, in addition to the income of that year, a portion of the accumulated balances of former years, then the debt due by the Government of India to that Provincial Government is by so much reduced. It would, of course, be very easy to present an Account which should show nothing but Imperial Revenue and Expenditure, and such an Account would, no doubt, be much more readily understood by the public than one which

embodies Imperial, Provincial, and Local Revenue and Expenditure. But it has been held, and I venture to think rightly held, that the adoption of this course is open to very great objection. It would not present an accurate picture of the sums received and spent by the Government in India. Thus, to take a single instance, under this system the Stamp Revenue for the year 1881-82 would appear as amounting only to £576,252 (see Appendix I. Abstract A), but, as a matter of fact, the Revenue derived from Stamps amounted to £3,381,372, of which £576,252 was Imperial and £2,805,120 was Provincial and Local. If, therefore, we want to show the total amount received and spent by the Government in India, and if at the same time we want to show in the same Account the net result of the year's finance to the Imperial Government only, it is absolutely necessary to make use of two adjusting entries. The *Provincial Surpluses*, that is to say the amounts by which the Provincial Governments have underspent their income and which, as I have already said, constitute a debt due from the Government of India to the Provincial Governments, must be added to the total expenditure. On the other hand, the *Provincial Deficits*, that is to say the portion of Provincial expenditure which has been defrayed from the accumulated Provincial balances of past years, and which, by so much, diminishes the debt due from the Government of India to the Provincial Governments, must be deducted from the total expenditure. This is done in the two adjusting entries which appear on the Disbursement side of the Account in the General Statement.

57. It is very possible, however, even with this explanation, and in spite of the explanatory language now employed for the first time in the General Statement,—to which I invite a reference,—that the matter will not be very readily understood. I have, therefore, appended to this Minute a memorandum (Appendix IV) which deals with the question at greater length, and which may possibly serve to render it more clear to the few people who are interested in the subject. Further, it will be seen on reference to Abstracts A and B of Appendix I that a separation is made between the Imperial Revenue and Expenditure on the one hand, and the Provincial and Local Revenue and Expenditure on the other hand. It will be seen that the Imperial Revenue and Expenditure in England and in India are shown separately, as was the case in *Statements V* and *VI* heretofore published. The whole of the Provincial and Local Revenue and Expenditure is in India, at least the few English items are brought on the Indian part of the Accounts. No such separation is, therefore, necessary. In *Statement III*, formerly published, the Provincial Revenue and Expenditure was shown separately from the Local Revenue and Expenditure. It has been thought, however, unnecessary to continue this separation so far as the Accounts and Estimates attached to the Financial Statement are concerned. It will be seen that in Abstracts A and B no such separation is made. A reference to the columns showing Imperial Revenue and Expenditure alone in Abstracts A and B will show, that although, of course, the several items are different to those shown in the General Statement—Provincial and Local Revenue and Expenditure being included in the latter,—*the net result is the same as that given in the General Statement after the adjusting entries have been made.* Thus, looking at the Accounts for the year 1881-82, the *Total Revenue* is given in the General Statement as £73,695,806, and the *Total Expenditure charged against Revenue* is given as £71,113,079, leaving a surplus of £2,582,727. In Abstract A the Imperial Revenue only is given as £54,618,853, and in Abstract B the Imperial Expenditure charged against Revenue is given at £52,036,126, thus leaving, as in the General Statement, a surplus of £2,582,727.

58. A further change has been made which will, I trust, help towards the ready comprehension of this subject. If reference be made to *Statement III*, *Adjustments in former Statement III.*

Browne and Mr. Waterfield at the India Office, and by Mr. Westland and Mr. Barbour in India, in dealing with this complicated subject. Should the object we have in view be attained, and the Accounts and Estimates of the future be more readily comprehensible to the public than heretofore, the credit will be mainly due to the labours of these gentlemen.

## III.—Accounts for 1881-82.

*Accounts, 1881-82.*

67. The Accounts of the year 1881-82 show the following result:—

| | £ |
|---|---|
| Revenue . . . . . | 73,695,806 |
| Expenditure . . . . . | 71,113,079 |
| Surplus . | 2,582,727 |

*Remarks on the Accounts.*

68 The year 1881-82 was in every respect one of remarkable prosperity. Almost every branch of Revenue yielded a sum largely in excess of the Estimates The net *Opium* Estimate (£6,500,000) was exceeded by £1,305,000, of which £1,099,400 was due to excess Revenue and £205,600 to relatively low Expenditure consequent on a rather short Opium crop in Behar. *Salt* gave (net) £164,400 in excess of the Budget, and £220,400 in excess of the Revised Estimate *Excise* gave £398,400 (net) in excess of the Budget Estimate. The import duties were abolished on March 10th, and allowance was made in the Revised Estimates for a falling off in *Customs* Revenue during the last three weeks of the year on that account This falling off was, however, more than counterbalanced by the excess receipts from the export duty on rice, which yielded £104,100 more than the Budget Estimate Owing to a large demand for timber, *Forests* gave (net) £117,800 in excess of the Budget Estimate. A large premium (£155,300) was realised on the Government loan of £3,000,000, which was taken up at an exceptionally high figure ($105\frac{3}{4}$) *State Railways* yielded (net) £119,100 in excess of the Budget, and £101,100 in excess of the Revised Estimates. *Guaranteed and Subsidised Railways* (*net Traffic Receipts*, after deduction of *Interest and Profits*) yielded no less than £722,700 in excess of the Budget, and £136,700 in excess of the Revised Estimates. The *East Indian Railway* (*net Traffic Receipts*) gave £461,900 in excess of the Budget, and £151,900 in excess of the Revised Estimates.

*Extraordinary Receipts and Expenditure.*

69 It is true that the surplus of the year was swelled by some extraordinary receipts. The portion, which remained to be brought to account during the year, of the *English Contribution for the Afghan War*, exceeded the net War expenditure of the year by £380,600 (see para. 70 of the Financial Statement for 1882-83 and para 196 of the Appropriation Audit Report for 1881-82). Also the *Salt* Revenue during the last three weeks of the year was exceptionally high. I shall presently allude more specifically to this subject (see paras. 112—115) On the other hand, some very heavy extraordinary payments were made and the Expenditure under *Exchange* was largely in excess of the Estimates. The amount (£670,000) contributed by the Provincial Governments to the Afghan War Expenditure was repaid to those Governments by the Government of India. Special payments, amounting in all to £360,000, were made in connection with the renewal of the Provincial contracts (see paras. 64 and 70 of the Financial Statement for 1882-83). The Expenditure under *Exchange*

exceeded the Estimate by no less than £493,700. This excess was mainly due (1) to the fact that a large demand for bills sprung up at the end of the year, which enabled the Secretary of State to draw £1,212,400 (true sterling) in excess of his requirements for 1881-82, and (2) to the fact that the average rate obtained on the whole of the remittances (£18,412,429, true sterling), was 1*s.* 7·895*d.* against an Estimate of 1*s.* 8*d.*

70. On the whole, it may be said that, if the exceptional expenditure as well as the extraordinary items of Revenue be excluded from the account, the surplus would appear largely in excess even of the high figure (£2,582,727) which it actually attained.

71. For further details in connection with the Accounts of 1881-82, I beg to refer to the Comptroller General's Appropriation Audit Report published in the *Gazette of India* of March 17th, 1883.

## IV.—Effect of abolishing the Import Duties.

*Effect of abolishing the Import Duties.*

72. It is of course too early yet to gauge the full measure of the advantage which India will ultimately derive from the abolition of the import duties, but the figures annexed to this Minute (Appendix V) are of some interest.

73. Exclusive of Government stores the imports of merchandise in the ten months from April 1st, 1882, to January 31st, 1883, amounted to £41,945,202, being £2,775,718 in excess of the imports for the corresponding period of 1881-82 (£39,169,484). The exports amounted to £65,770,066, being £1,324,783 in excess of the corresponding period of the year 1881-82 (£64,445,283).

*Import of articles exempted from duty.*

74. I append also (Appendix V) a Statement showing the quantities and values of those articles imported into British India, which were exempted from Customs duty last March, during the ten months ending January 31st, 1883, compared with the corresponding period of the year 1881-82.

*Increase of Import*

75. The articles in which an increase is shown in both quantity and value are 40 in number, the most important being Twist and Yarn, which have increased 11·59 per cent. in quantity and 7·5 per cent. in value; Grey Piece-goods, which have increased 1·92 per cent. in quantity and 2·0 per cent. in value; Coloured Piece-goods, which have increased 29·43 per cent. in quantity and 29·47 in value; Hardware and Cutlery, which have increased 22·88 in value; Copper, which has increased 32·07 in quantity and 31·01 in value; Iron, which has increased 34·12 in quantity and 37·59 in value; and Raw Silk, which has increased 43·80 per cent. in quantity and 52·28 per cent. in value. The increase in some minor articles of trade, such as Corals, Jewellery, Brass, Paints and Colours, Shells and Cowries, and Umbrellas are satisfactory indications of general prosperity.

*Decrease of Import*

76. The articles of trade in which a decrease is shown are 14 in number, the most important being White Piece-goods, which have decreased 18·35 per cent. in quantity and 10·88 in value; Silk Piece-goods, which have decreased 25·26 in quantity and 24·89 per cent. in value; and Tea, which has decreased 15·30 per cent. in quantity and 12·72 per cent. in value.

77. The total value of the articles of trade in which there has been an increase is £28,517,941, and of those in which there has been a decrease, £5,499,360; so that, of all articles affected by the remission of the duties, those in which the trade has increased represent a value of more than five times as great as that of the articles in which there has been a decrease. If we balance one set against the other, the total increase in the value of merchandise im-

ported during the ten months is 7·26 per cent. It is, of course, impossible to say with accuracy how far this increase is due to the abolition of the duties and how far it would have taken place had the duties been maintained. All that can be said with certainty on this subject is that the abolition of the duties must have contributed to increase the volume of trade.

*General result.*

**78.** Considering the low rate of exchange, which has, of course, operated unfavourably to imports, and considering the Egyptian complications, which not only for some time interrupted trade but, by creating a demand for Government transport, kept freights during part of the year at a higher level than they otherwise would have been, the result may be considered as satisfactory. In a slow-moving country such as India, it was not to be expected that the full advantage to be derived from the abolition of the import duties would be immediately obtained, or that consumption would increase at once in the ratio known to European countries.

**79.** The relief afforded to trade in general owing to the cessation of all the embarrassment and delay consequent on the levy of duties at the custom-house, cannot be represented in any arithmetical form It is, however, a very important factor in the consideration of the question. The complaints on various petty matters, which were so frequently addressed to the Government whilst the duties were levied, have now almost entirely ceased.

*Effect on Indian goods.*

**80.** Independently of the question of the effect of the abolition of the import duties on the volume of the trade, it is desirable to examine whether the abolition has exercised any appreciable effect upon the import trade in those articles which compete with Indian-made goods of similar kinds.

*Cotton goods.*

**81.** Of such articles the most important are Cotton Twist and Cotton Piece-goods. In respect to these articles there has been a general increase, both in the quantity and the value of the imports, except under the head of White Piece-goods.

*Twist.*

**82.** The Twist which is imported from Europe does not compete with Indian Twist. For years past the great bulk of the Twist imported has been of counts much higher than any that can as yet be made in the Indian mills, which limit themselves to the production of Twist of counts not exceeding 32 (Mule) and 20 (Water). All such kinds of English Twist were freed from duty in March 1878.

*Piece-goods.*

**83.** Of the Grey Piece-goods imported, those classes which compete with Indian-made goods were also exempted from duty in March 1879.

**84.** White Piece-goods are hardly produced at all as yet in India, except experimentally in one or two of the Bombay mills. As I have already mentioned, there has been a large decline in the imports of this class of goods

**85.** The Piece-goods classed as "Other sorts" are not made in India.

**86.** The remission of the customs duties last year did not, therefore, in any way affect Indian mills, which have had to work without the protection of $3\frac{1}{2}$ per cent. on Twist since March 1878 and of 5 per cent. on Grey Piece-goods of counts below 30*s*, since March 1879. As was pointed out in the Financial Statement of last year (paras. 210 and 211), the duty which was abolished last March really protected one class of Manchester goods against another, and even to some slight extent protected English goods against those manufactured in India. The duty forced trade into an artificial channel by stimulating the consumption of the coarser kinds of goods and discouraging the use of medium and finer classes to the extent of a differential rate of 5 per cent. I believe I am correct in stating that since the remission of the duty consumers have everywhere shown a tendency to go back to the old styles of cloth.

*Export of Cotton goods.*

**87.** The export of Indian-made Cotton Twist and Piece-goods has increased very largely as compared with the corresponding period of 1881-82. The export of Twist has increased by 44·9 per cent., namely, from 26,346,556 lbs. to 38,179,998 lbs., the increase in the China trade being especially remarkable. Piece-goods have increased to the extent of 31·3 per cent., namely, from 25,484,391 yds. to 33,454,359 yds. I am informed that eight new mills are in course of erection in Bombay, and will commence work during the current year. The prosperity of the mill-owners depends of course to a large extent upon the course of prices. Prices have fallen during the year, with the result that if we look not at the quantities, but at the values, we find that the value of Twist exported has only increased by 29 per cent. and that of Piece-goods by 20 per cent. It is, however, abundantly clear that the Indian cotton trade has in no way been detrimentally affected by the measures taken last March.

*Raw Silk.*

**88.** The import of Raw Silk has very largely increased as compared with the corresponding period of last year, although prices have been fully maintained. It is to a great extent of Chinese origin imported into Bombay for the silk mills and for hand-loom weaving, and into Burma for hand-loom weaving only. Bengal is the only Province of India where the silk-producing industry is conducted on any extensive scale. For many years past it has been in a declining condition. China silk competes with it not only in the European market but in India itself. Bengal has never been able to send any considerable quantity of silk to Bombay, which is supplied almost wholly from sources external to India. But with Madras, Bengal has formerly done a considerable trade, and this trade appears to be declining. On the other hand, the export of raw silk from Bengal to foreign countries has again given some signs of returning vigour, having increased from 281,966 lbs. to 372,072 lbs., which is, however, still below the figure of the corresponding ten months of 1880-81 (398,323 lbs.).

*Sugar.*

**89.** Last year, when the import duties were abolished, some apprehension was expressed lest their abolition should injuriously affect the sugar industry of India, and it was urged that that industry stood in need of protection. Without going into the question of the principle involved in this argument, it will be sufficient for me to say that the experience of ten months has shown that no injury to the sugar industry of India has resulted from the abolition of the duties. For all practical purposes it may be said that all the sugar imported into India is refined or crystallized sugar, which is brought from Mauritius and China to Bombay. Refined sugar is only produced to a very small extent in Bengal, the North-Western Provinces, and Madras. It is almost all used for local consumption by Europeans. In the places where such sugar is consumed no sugar has as yet been imported from abroad. The Indian export trade in sugar is carried on mostly from Madras. By far the greater portion is unrefined sugar, that is to say, molasses, jaggery, etc. The removal of the duty, therefore, did not affect Indian sugar at all, and in fact could not have done so. It appears also from the Trade Returns that, whilst the import of refined sugar has decreased from 666,587 cwt. to 519,367 cwt., that is to say by 22 per cent., the export from India of unrefined sugar has increased from 758,054 cwt. to 1,060,509 cwt., that is to say by 41 per cent. Further, the export of refined sugar, which was only 15,580 cwt. in 1880-81 and 29,008 cwt. in 1881-82, increased in 1882-83 to 98,273 cwt. Again, if we look at the internal trade of India, the exports of refined sugar from Bengal to Bombay have increased from 29,465 cwt. in the whole of the year 1881-82 to 61,682 cwt. in the ten months ending January 31st, 1883.

*Tea.*

**90.** Tea is one of the articles which was relieved from duty last March. The imports, however, have not increased, but have, on the contrary, fallen off from 2,393,413 lbs. to 2,027,119 lbs., a reduction of 15¼ per cent. Much of the tea imported into India is intended for trans-frontier consumption in Central Asia. The import trade has, without doubt, been a good deal checked by the heavy duties which are imposed by the Russian Government.

*Tobacco.*

**91.** The import of Tobacco has increased from 1,146,803 lbs. to 1,316,350 lbs., an increase of 14¾ per cent., which is very possibly due to the reduction of the duty. This increase of imports has not, however, resulted in any reduction in the consumption of Indian tobacco, the demand for Indian cigars being not only undiminished but increasing.

*Importations of silver.*

**92.** A very noticeable feature in the transactions of the year is the large amount of treasure imported (*vide* Appendix V). During the ten months ending January 31st, 1883, the value of the exports of merchandise exceeded that of the imports by £22,153,355. The debt thus due from Europe to India was paid (1) by the net importation of treasure to the extent of £11,193,922, of which £4,394,651 was gold and £6,799,271 silver, and (2) by drafts of the Secretary of State on the Indian Treasury to the extent of £12,804,500, thus leaving a balance of £1,845,067 remitted to India in apparent excess of the trade requirements of the ten months.

93. During the corresponding period of 1881-82 the excess of exports over imports was £23,524,590, the net imports of treasure amounted to only £7,061,635, of which £4,214,855 was gold and £2,846,780 silver, and the amount of Secretary of State's Bills paid was £17,381,100, leaving a balance of £918,145 remitted to India in apparent excess of the trade requirements of the ten months.

**94.** Attached to Appendix V will be found a few observations upon the progress made in the policy of purchasing Government Stores in India instead of in England. As I have before pointed out it will not be possible to make any very serious impression on the amount of stores imported from England until iron work and machinery, equal in quality and not superior in price to that manufactured in England, can be made in India.

## V.—Effect of reducing the Duty on Salt.

**Effect of reducing the Duty on Salt.**

**95.** It will be remembered that prior to March 10th, 1882, the duty levied on Salt in Bengal was R2-14 a maund. Elsewhere, except in Burma and the trans-Indus districts of the Punjab, duty was levied at the rate of R2-8 a maund. On March 10th, 1882, the duty was reduced to an uniform rate of R2 a maund all over India, except in Burma and the trans-Indus districts of the Punjab, where no change was made.

**96.** The main points to be considered in connection with the reduction of the duty are (1) whether the retail price of Salt has fallen, and (2) whether consumption has increased.

*Fall of retailed price.*

**97.** As regards the first point, there can be no doubt whatever that, generally speaking, the reduction has, to a greater or less extent according to the circumstances of each locality, reached the consumer. The following table shows the retail price per maund of Salt (1) in the second half of February 1882, that is to say, immediately before the reduction of the duty; (2) in the first half of June 1882, that is to say, about three months after the reduction; and (3) in the first half of January 1883, that is to say, about 10 months after the reduction.

The figures give the average price struck on the totals for all the districts in each province.

| Provinces. | Second half of February 1882. | First half of June 1882. | Fall in prices per maund in June 1882, as compared with February 1882. | First half of January 1883. | Fall in prices per maund in January 1883, as compared with February 1882. |

*Comparative price lists.*

**98.** It will be seen that, with the single exception of the small province of Coorg, prices fell materially within the first three months after the reduction of duty, and that ten months after the reduction, prices had reached a still lower level. In Coorg only have prices slightly increased since the first fall after the reduction, but they are still about 4 per cent. lower than they were just before the reduction. Mysore also shows, comparatively speaking, only a small fall in price, *viz.*, from R4-2-1 to R3-12-11, or 7·74 per cent. In the other provinces the fall ranges from 12·66 per cent. in Oudh to 23·8 per cent. in Bengal. As the reduction of duty was about 30 per cent. in Bengal as compared to 20 per cent. elsewhere, it was, of course, to be expected that the fall of price would be proportionately great in that Province.

*Average fall of price.*

**99.** The testimony of official reports confirms the conclusion to be drawn from the price lists. Thus, to quote one of many such reports, the Deputy Commissioner of the Sonthal Pergunnahs, writing very shortly after the reduction of duty says—

*Official reports.*

"The most important change is that in the retail price of common eating Salt. The "reduction of duty reached the masses to a certain extent before the close of the year "under report (1881-82). It has since reached them even more perceptibly. This reduc- "tion in cost may have an important effect upon this district, for it may lead to a very "considerable expansion of the fishing industries, and thus provide occupation for the "surplus population and for the agricultural population when work on the land is slack. "One consignment of coarse salt has, I hear, been already sent to Sahibgunge for fish- "curing purposes. * * * * Salt-fish, properly prepared, "would be an important and valuable addition to the food-supply of this district."

"A large future," the Lieutenant Governor of Bengal observes in reviewing this report, "lies before this (the fish-curing) industry."

**100.** It will be remembered that some special measures were adopted with a view to ensuring publicity being given to the reduction of the duty. These

*Publicity.*

measures appear to have been generally attended with success. In Behar, especially, a recent report says "the news that the Salt Tax had been reduced " * * * is said to have spread with unexampled quickness."

*Increased consumption.*

**101.** I now turn to the question of increased consumption. The following table shows the consumption during the eleven months from March 1st, 1882, to January 31st, 1883, compared with the corresponding period of the year 1881-82. The figures for Burma are excluded, as no change was made last March in the rate of duty levied in that province. I may remark, however, that the consumption in Burma has up to the present time been less in 1882-83 than it was in 1881-82.

*Comparison of 1881-82 and 1882-83.*

*In thousands of maunds* (ooos *omitted*).

| Province. | Consumption, March 1st, 1881, to January 31st, 1882 | Consumption, March 1st, 1882, to January 31st, 1883 | Percentage of increase + or of decrease —. |
|---|---|---|---|
| | Maunds. | Maunds. | |
| Bengal . . . . . | 8,207 | 8,723 | + 6·29 |
| Inland Customs . . . . . | 6,178 | 6,112 | — 1·07 |
| Bombay . . . . . | 4,361 | 4,695 | + 7·66 |
| Sindh . . . . . | 148 | 166 | +12·16 |
| Madras . . . . . | 5,604 | 6,405 | +14·29 |
| TOTAL . | 24,498 | 26,101 | + 6·54 |

*Increases and Decreases since 1877.*

**102.** The following figures show the increase or decrease for the eleven corresponding months of each year, from 1874-75, as compared with the previous year:—

| | Maunds. |
|---|---|
| March 1st, 1874, to January 31st, 1875 . . . . | +288,000 |
| „ 1875 „ 1876 . . . . | + 77,000 |
| „ 1876 „ 1877 . . . . | +498,000 |
| „ 1877 „ 1878 . . . . | +491,000 |
| „ 1878 „ 1879 . . . . | +367,000 |
| „ 1879 „ 1880 . . . . | +1,724,000 |
| „ 1880 „ 1881 . . . . | —690,000 |
| „ 1881 „ 1882 . . . . | +1,016,000 |
| „ 1882 „ 1883 . . . . | +1,603,000 |

*Difficulty of making accurate comparisons.*

**103.** So many changes have been made since 1873 that it is difficult, by any comparison with past years, to arrive at a thoroughly accurate conclusion as to the extent to which consumption has been stimulated by the reduction of the duty. Of course, under normal circumstances, as the population grows the consumption of Salt will also increase, if no disturbing elements, such as a change in the rate of duty or a famine, intervene. This normal growth of consumption has generally been taken at rather less than 1 per cent. It is, however, to be observed that the large increase in 1879-80 (1,724,000 maunds) followed on a year of relatively low consumption and was again followed by a year of relatively low consumption. On the other hand, 1881-82 was a year of high consumption, the increase being 1,016,000 maunds over 1880-81. It is, therefore, especially satisfactory to note that, in spite of the high consumption in 1881-82, the year 1882-83 shows an increase of no less than 1,603,000 maunds. There can be no doubt that a very considerable portion of this increase is due to the reduction in the duty.

**104.** If we turn to the details of each province, some remarkable differences in the rate of increase are observable.

*Madras.*

**105.** The largest increase (14·29 per cent.) is shown in Madras. This was to be expected. As I mentioned in the last Financial Statement (para. 199) the people of Southern India require more Salt than the more Northern populations, whose principal food consists of wheat and pulses. Moreover, the people in Madras have, in quite recent times, been accustomed to a lower rate of duty. In view to the abolition of the Customs Line the duty in Southern India was raised in December 1877 from Re. 1-13 to R2-8 a maund. In consequence, consumption was, without doubt, curtailed. It was to be expected that, so soon as the duty was reduced, the people would readily go back to their old rate of consumption.

**106.** The reduction of duty is not, however, the sole reason why the increase is so large in Madras. In the first place a great deal has been done within the last year or so to improve the organisation of the Salt Department in the Madras Presidency, with the result that illicit consumption has probably been to some extent checked. And, in the second place, Madras Salt has been for some years displacing the Salt supplied from Pooree. The figures given in the margin show that the quantity of Salt supplied from the Pooree warehouses has been steadily falling off for the last four years, and that the falling off in 1882 has been especially remarkable.

| | Maunds. |
|---|---|
| 1879-80 . . . | 308,384 |
| 1880-81 . . . | 241,559 |
| 1881-82 . . . | 163,032 |
| 1882-83 (ten months) . | 90,722 |

*Sind.*

**107.** The increase in consumption in Sind has been nearly as great as in Madras, *viz.*, 12·16 per cent. The total consumption in this province is, however, small. A portion of the increase is probably due to Sind Salt having to some extent taken the place of Rock Salt in the Lower Punjab.

*Bombay.*

**108.** The increase in Bombay, though considerable (7·66 per cent.) falls far short of that in Madras and Sind. A portion of this increase is, without doubt, due to Bombay Salt having to some extent displaced Sambhur Lake Salt in Northern and Central India.

*Bengal.*

**109.** Bengal shows an increase of 6·29 per cent. I have already mentioned (para. 106) that the territorial area supplied from Bengal has, in one quarter, been restricted, owing to Madras having, to some extent, taken the place of Pooree Salt. On the other hand, the abolition of the differential rate of duty on sea-borne Salt has, of course, placed that Salt in a better position to compete with Sambhur Lake Salt in the North-West Provinces and Oudh. An indication of the extent to which this displacement has taken place is given in the following figures, which show the quantity of Cheshire Salt imported by rail into the North-West Provinces and Oudh during the last four years :—

| | Maunds. |
|---|---|
| 1879-80 . . . . . | 32,306 |
| 1880-81 . . . . . | 27,405 |
| 1881 82 . . . . . | 31,957 |
| 1882-83 (six months only) . . . . . | 107,589 |

There was also during the year, for the first time, an importation of Cheshire Salt,—to the extent of about 10,000 maunds,—into the Central Provinces.

*Inland Customs.*

**110.** The only quarter where a decrease is shown is under the head of "Inland Customs." This is mainly Sambhur Lake Salt, which supplies Northern India. The territorial area heretofore supplied from this source has been much restricted. As I have already mentioned (paras. 108-109) Bombay Salt from the west, and Cheshire Salt from the east, have both pushed their way into the territory heretofore supplied mainly from the Sambhur Lake. Under these circumstances, the fact that there has only been a decrease of 1·07 per cent. on the Salt sold by the Inland Customs Department shows that the people, within the more limited area now supplied by that Department, have increased their consumption. This was to be expected, for it is certain that the abolition

of the Customs Line in 1878 resulted in a great rise of price in the Native States of Rajputana, and that the people of those States, in consequence of the enhanced price, curtailed both their own personal consumption and that of their cattle. It was, therefore, to be expected that, with a reduction of duty, a tendency would be shown to revert to the old rate of consumption. The Governor-General's Agent reports that "there is no doubt whatever that the "late reduction has reached the consumer and, generally speaking, I may say "that he has benefited exactly to the extent of the reduction made in the duty."

*Financial effect of reduction.*

**111.** Turning to the financial effect of the measure, it is to be observed that an increase of consumption to the extent of 1,603,000 maunds represents, at Rs. 2 a maund, an additional revenue of £320,600. To the extent of this sum, therefore, it may be said that the loss of revenue consequent on the reduction of duty (£1,400,000) has been recouped by the increased consumption of eleven months.

*Comparison with Estimate.*

**112.** Regarding the matter from the point of view of the anticipations framed last March, it is to be observed that, in order to arrive at a proper appreciation of the facts of the case, it is necessary to consider the figures for the years 1881-82 and 1882-83 together. The duty, it will be remembered, was lowered on March 10th, 1882. The immediate effect of the reduction was to give a great stimulus to clearances of Salt in Bengal, and, although to a less degree, to wholesale purchases elsewhere. The market became over-stocked, and consequently during the early months of the current financial year, the revenue suffered. It follows, therefore, that the revenue of 1881-82 was disproportionately increased, and that of 1882-83 disproportionately diminished, by the course of trade during the last three weeks of March 1882.

**113.** The gross revenue for 1881-82, after making what was at the time considered a reasonable allowance for a reduction of the revenue during the last three weeks of the year, was, in framing the Revised Estimates, taken at £7,213,000. The actual receipts were £7,375,620, being £162,620 in excess of the estimate.

**114.** The gross Revenue for 1882-83 was estimated last March at £6,049,000. It is now estimated at £6,128,700, being £79,700 in excess of the Budget Estimate. This figure does not, however, accurately represent the full amount by which the Revised exceeds the Budget Estimate of Revenue. The Expenditure under *Salt* is now taken at £139,600 less than the Budget Estimate. To the extent of £59,000 this large decrease of Expenditure is due to the following cause. At the commencement of the financial year a system prevailed in Northern India under which Salt was conveyed by the Government from the Salt sources to certain depôts. The charges likely to be incurred on account of transport from the sources to the depôts appeared on the Expenditure side of the Estimates of 1882-83, and, inasmuch as the cost of transport was added to the selling price of Salt at the depôts, an analogous amount appeared on the Revenue side of the Estimates. During the year the depôt system was abandoned, with the result that both the Revenue and Expenditure under *Salt* were reduced to the extent of £59,000. The real excess of Revenue over the Budget Estimate is, therefore, not £79,700, but (£79,700+£59,000) £138,700.

**115.** Taking the two years together, therefore, the result is that the Estimate of gross Revenue framed last March stood at £13,262,000, and that the Estimate now stands at £13,504,320, being £242,320 in excess of the Original Estimate. To this figure, however, it is, as I have already explained, necessary to add a sum of £59,000, thus bringing up to £301,320, the true figure by which the Salt Revenue has exceeded the Estimate framed last March.

*Results satisfactory.*

**116.** Very rapid advance in this, or in any other matter, is not to be expected in India. But on the whole it may be said that the results obtained so far in

connection with the reduction in the duty on Salt are satisfactory. The progress in the direction of increased consumption has been greater than was anticipated at the time the Budget Estimate was framed last March. Should the same rate of increase continue the Revenue, at the reduced rate of duty, will in less than three years from the present time stand at the same figure as it did prior to the reduction of the duty.

## VI.—Revised Estimates for 1882-83.

*Revised Estimates for 1882-83.*

**117.** Up to the present time the Estimates for the year about to expire, which are presented at the time the Financial Statement is made, have been termed the Regular Estimates. I have been unable to discover how or why the word "Regular" came to be adopted. It was used by Mr. Laing in 1861. It was not used on the occasion of the Financial Statement of 1862, but it re-appeared in 1863, and its meaning was explained by Sir Charles Trevelyan in a foot-note. Since 1863 the word has always been used.

**118.** There does not appear to be any reason for continuing the use of a word, which can only be understood by those who know the technical meaning attached to it, when another word, which any one can understand, is available. For the future, therefore, the word "Revised" will be used instead of "Regular."

**119.** I proceed to deal with the Revised Estimates for the year 1882-83.

*General Situation in March 1882.*

**120.** The financial year which is about to close has presented many remarkable features. At the commencement of the year the salient points of the financial situation were as follows. The country had at length recovered from the disastrous effects of the famine of 1877-78. The return of peace enabled the Government to turn its attention to those fiscal and domestic reforms, the consideration of which had necessarily been postponed during the continuance of the Afghan war. A large surplus was available. A favourable opportunity presented itself, therefore, for the execution of certain fiscal reforms, the desirability of which had long been recognised. With the exception of the duty on wine, spirits, malt liquor, arms, ammunition, opium, and salt, the whole of the import duties were abolished. A large reduction was effected in the duty on salt. Some substantial relief was afforded to the agricultural classes in the North-Western Provinces and Oudh.

*Dangers peculiar to Indian finance.*

**121.** Hardly had effect been given to these important and beneficial reforms, when it became apparent that three out of the four peculiar dangers to which the finances of India are exposed would, to a greater or less degree, have to be encountered in the immediate future. These dangers are war, a diminution of the Opium revenue, an increase of expenditure on account of charges payable in sterling, and famine. In respect to every one of these dangers,—including, in the particular instance in point, war,—it may be said that their occurrence is governed by causes over which the Government of India can exercise little or no control. On the other hand, the entire brunt of bearing three out of four of these risks falls on the Imperial Government of India.

*The Provincial system.*

**122.** In connection with this last remark I wish for one moment to digress, in order to show the bearing of the Provincial system of finance upon the points immediately under discussion.

*Its many advantages.*

**123.** The policy of financial decentralisation, which was not the least of the numerous benefits conferred by Lord Mayo and Sir John Strachey on India, has been productive of the most beneficial results. In the remarks I am about to make I wish it to be clearly understood that I am very far from wishing to say anything in the slightest degree condemnatory of that policy. On the contrary it is, as is well known, a policy which commands the entire approval of the present Government, and with which, I may perhaps be permitted to say, I heartily sympathise. The advantages of the system far outweigh any

*And one disadvantage.*

of its disadvantages. On the other hand it cannot be denied that this very desirable reform has been unavoidably accompanied with one disadvantage, and it is to this disadvantage that, for reasons which I will presently specify, I now wish to allude.

*Developments of the policy.*

**124.** It will be remembered that the original policy of decentralisation has received further development on the two occasions,—first in 1877, and again in 1882,—when the quinquennial contracts between the Imperial and Provincial Governments terminated.

*Arrangements under contracts of 1882.*

**125.** On the occasion of the last Financial Statement (paras. 38—64) I explained fully the precise terms of the new Provincial contracts. It may, however, be convenient that I should again explain the general nature of the arrangements resulting from those contracts.

**126.** The Provincial Governments now receive the whole of the Revenue under heads which produce about £4,000,000 a year, half of the Revenue under heads which produce about £8,000,000, a larger or smaller percentage on heads (chiefly Land Revenue) which produce about £23,000,000, and an almost nominal share in Revenues which produce about £7,000,000. On the other hand, the Provincial Governments administer the Expenditure wholly under heads for which the grants amount to about £15,000,000, and to a very small extent under heads for which the grants amount to about £4,000,000 a year. In other words, about three-fifths of the Revenue of British India, amounting roughly to £42,000,000, and about one-fourth of the Expenditure, amounting roughly to about £19,000,000 a year, have, under the contract of 1882, been provincialised; that is to say, the Provincial Governments have to a greater or less extent, according to the circumstances of each head, an interest in and responsibility for their administration.

*Stability is essential to the system.*

**127.** It is essential to the proper working of the Provincial system of finance that an element of stability should, to as great an extent as possible, be imported into the arrangements between the Imperial and Provincial Governments. Unless the latter are assured that any increase of revenue consequent on improved management, or any savings which may accrue from economical administration, will remain at their own disposal, but slight inducement will be offered to them to improve the management of their resources or to exercise economy in their administration. Accordingly, in concluding the contracts of 1882, the assurances previously given to the effect that the Imperial Government would not call on the Provincial Governments for any pecuniary assistance, save on occasions of very great and extraordinary emergency, were ratified and to some extent emphasised. The money (£670,000) contributed by the Provincial Government towards the expenses of the Afghan war was at the same time repaid.

*Famine the only danger to which Provincial finance is exposed*

**128.** It thus happens that, of the four dangers to which I have alluded above, one only,—famine,—can, save under very extraordinary circumstances, affect Provincial finances. I am far from condemning this arrangement. On the contrary, I think it is, on the whole, the best of which the circumstances of the case admit. It is the Provincial Governments, and not the Government of India, who are brought in immediate contact with the people. They supervise the whole of the ordinary administrative work of the country. Through their instrumentality, or through agency working in close connection with their officers, most of the smaller, and some of the larger, public works are executed. It is a distinct advantage that, should any sudden emergency arise, such as war, a diminution of the Opium Revenue, or a further depreciation in the value of silver, the Provincial Governments should be able to feel that the progress of any administrative reforms they may have undertaken, or the execution of any public works for which Provincial funds are available, will not be checked. On the other hand, it cannot be denied that, whilst the probability of any such

emergency arising has in no degree diminished since the adoption of the Provincial system of finance, the power of the Government of India to cope with an emergency is to some extent impaired by reason of the pledges taken towards the Provincial Governments.

*No further imperial grants can be made*

**129.** I make these remarks for the following reasons. All the new contracts have now been finally concluded. I mentioned in the last Financial Statement (para. 45) that some questions still remained outstanding with the Madras Government. These have now been settled. Under these circumstances it is very desirable that it should be fully understood that no further changes can be made in the terms of the several contracts. The Government of India, on its side, will adhere strictly to the principles laid down in the Resolution of September 30th, 1881. On the other hand, it must call upon the Provincial Governments to abide with equal strictness to their portion of the contracts. The contracts have not been made in any illiberal spirit. Each Provincial Government starts with a balance at its credit and with a normal revenue in excess of its normal expenditure. Under these circumstances the Provincial Governments must look solely to the gradual development of their own resources, and to economy in their own administration, to provide whatever further funds may be required for services classed as Provincial. The Government of India cannot entertain any further proposals for increased Imperial grants on account of those services. It may be, and probably is, the case that in almost every Province of India the funds available are not commensurate with the work which sooner or later will require to be done. That is the normal condition of a country whose necessities are great, whilst the tax-paying power of its population is small. Under these circumstances, progress in many directions will possibly be comparatively slow, and it is inevitable, under all the conditions of Indian Government, that it should be slow. But what I particularly wish to point out is that the Government of India cannot at present make any further grants from Imperial funds in order to ensure more rapid progress. Indeed, in some respects it may be said that the Provincial Governments are in a better position to provide whatever funds may be required than is the case with the Imperial Government. For the reasons which I have already given an element of stability is imported into Provincial finance which Imperial finance cannot at present possess. Not only do the three points to which I have alluded constitute dangers which are wholly borne by the Imperial Government of India,—not only does the fourth danger (famine) materially affect Imperial as well as Provincial finance,—but if any further fiscal reforms are to be made,—and there are several which it would be very desirable to make,—any loss of money which may accrue from their execution must be borne by the Imperial Treasury.

*Altered situation during the year.*

**130.** To return from this digression. I have said (para. 121) that hardly had the large fiscal reforms of last year been carried out when it became apparent that three out of the four dangers to which the finances of India are specially exposed would have to be encountered in the immediate future

*Egyptian Expedition.*

**131.** In the first place, we have had a war. The cost of the Indian Contingent which was sent to Egypt is now estimated at £1,297,000. Her Majesty's Government has intimated its intention of repaying £500,000 (true sterling) of this amount to the Government of India. This sum of £500,000 will be brought to credit at once. A corresponding reduction will take place in the Secretary of State's drawings for 1883-84. The net cost of the Egyptian Expedition to the Indian Treasury will, therefore, be £797,000 *

* This is the net figure which appears in the Revised Estimates for 1882-83, but in 1883-84 there will be a diminished charge under *Exchange* by reason of the reduction of £500,000 (true sterling) in the amount of the Secretary of State's drawings. The diminution of expenditure under this head may at present rates be calculated at about £115,000. It may be said, therefore, that the ultimate net charge which will fall on the Indian Revenues by reason of the Egyptian Expedition is £682,000 (Rs68,20,000).

*Opium.*

**132.** Turning to Opium, I give below the net Revenue for the last four years:—

| | | £ |
|---|---|---|
| 1878-79 | | 7,701,000 |
| 1879-80 | | 8,252,000 |
| 1880-81 | | 8,451,000 |
| 1881-82 | Revised Estimate | 7,838,000 |
| | Actuals | 7,805,000 |

**133.** The fluctuations in the Opium Revenue from month to month, and indeed, from week to week, are so considerable that it is very difficult to make any very close estimate even for the short period of the present financial year which remains to expire. According to the best estimate that can be framed, however, the net Revenue will probably amount to £7,217,000, being £33,000 less than the Budget Estimate. The deficiency is due to the Expenditure being greater by £95,000 than was anticipated last March. This excess expenditure is partly due to the fact that the Opium crop in Bengal was a good one, and that, therefore, more money than was expected had to be paid for crude Opium, and partly to the fact that 2,000 maunds of Malwa Opium were purchased for the manufacture of Excise Opium. The excess expenditure is partly balanced by an increase of Revenue to the extent of £62,000 over the Budget Estimate.

*ompetition of the Chinese drug.*

**134.** It will be seen, therefore, that the estimated net Revenue from Opium for the current financial year is less by £1,234,000 than the actual receipts of 1880-81, less by £621,000 than the Revised Estimate for 1881-82, and less by £588,000 than the Actuals of 1881-82. There can be little doubt that the main cause of this progressive diminution is to be found in the increased competition of the indigenous Chinese drug, to which I alluded in the last Financial Statement (paras. 143—145). The falling-off in the Opium Revenue has not seriously disturbed the finances of the year. The net Budget Estimate will probably be nearly realised. What, however, I wish to point out is, that in former years Opium has very often yielded a large sum in excess of the Estimate, and has thus enabled the Government to meet any unforeseen demands which might be thrown upon it during the course of the year. Nothing of this kind has occurred during the current year. On the contrary, the Opium Revenue is, as I have already mentioned, likely to fall below the Budget Estimate of £7,250,000 by £33,000. I shall presently revert to this question in dealing with the Budget Estimate for the year 1883-84 (paras. 195—207).

*Exchange.*

**135.** Turning to the question of Exchange, it is to be observed that the Budget Estimate provided for the sum of £15,342,000 (true sterling) being remitted to England, and that the rupee was taken at 1*s.* 8*d.* During the last three weeks of March 1882 bills to the extent of £908,000 (true sterling) in excess of the requirements of the year 1881-82 were placed on the market. This amount was taken in deduction of the drawings for the current year, which were thus, so far as this transaction only is concerned, reduced to £14,434,000 (true sterling).

*ious onvenience due instability in the ue of the rupee.*

**136.** At no period has the inconvenience to India of having to make a large annual payment in sterling been more apparent than during the current year. I will not now attempt to discuss whether it is to the advantage of India that the value of the rupee expressed in sterling should be low, that is to say lower than it used to be when the relative values of gold to silver were as 1 to 15½. That is a subject on which a great deal might be said. But it is not the fact that the value of the rupee is, comparatively speaking, low that causes inconvenience. It would be possible, although it might be exceedingly troublesome, to adjust the Indian fiscal system to a rupee of any value. What causes inconvenience alike to Government and to trade is that the value of the rupee is unstable. It is impossible to state accurately in Indian currency what the annual liabilities of the Government of India are. Those liabilities have

to be calculated afresh every year according to the variations which take place in the relative value of gold and silver, and a calculation which will hold good for even one year is exceedingly difficult to make. In March 1882 the value of the rupee was taken at 1*s.* 8*d.*, and at the time this estimate was made it was a reasonable one, based on the facts of the past and present. The value of silver was then about 52*d.* an ounce, which corresponds with a value of 1*s.* $8\frac{5}{16}$*d.* to the rupee. But since then the value of the rupee has been as high as 1*s.* $8\frac{5}{16}$*d.*, and as low as 1*s.* $7\frac{1}{16}$*d.* The average price obtained for the bills, amounting to £14,184,000 (true sterling), placed on the market up to March 9th, 1883, has been 1-$7\frac{1}{16}$*d.* When the Budget was framed it was thought that a debt of £14,184,000 (true sterling) would be liquidated by a payment of R17,02,03,000. It has actually cost R17,43,81,000 to liquidate that debt. It is sufficient to state these facts in order to show the grave inconvenience to the Government which results from the unstable value of the rupee.

*Southern Mahratta Railway and Famine Insurance.*

**137.** It will be desirable that I should explain in this place two financial transactions of the year which are intimately connected with each other and with the Expenditure under *Exchange*. The first relates to the transactions of the Southern Mahratta Railway Company. The second to the application of the annual grant of £1,500,000 under *Famine Relief and Insurance*.

**138.** The Southern Mahratta Railway was commenced by the Government as a famine work in April 1879, and work was afterwards recommenced by Government in November 1881. Up to the end of 1881-82 £394,000 had been spent on it, of which £291,000 had been charged to the Protective grant. A further sum of £369,800 was provided in the Budget Estimates for 1882-83 from the Protective grant for expenditure on this line.

**139.** In the summer of 1882 the line was handed over to a private Company. Capital to the extent of £1,724,600 (true sterling) has already been raised in London and paid to the Home Treasury of the Government of India. Of this amount about £550,000 is due to the Government for work already done, the remainder being intended to provide funds for the continuation of the works. The amount to be re-credited to the Protective grant during the present year is estimated to be £270,000, besides the expenditure incurred this year, and whatever is repaid will be credited to the head of *Famine Relief and Insurance* and become available for the construction of Protective Works, in addition to the annual grant of £750,000 Further, the original allotment of £369,800 made in the Budget from the Protective grant for expenditure on the Southern Mahratta Railway became available for expenditure on other Protective Works. The Public Works Department was, however, unable to spend the large sum of money which thus became available on Protective Works during the year. Their total net expenditure on these works in 1882-83 is now estimated at only £144,200. It was thought undesirable not to utilise at once the large sum of money belonging to the Famine Insurance grant which was thus available. A transfer of £605,800 will, therefore, be made to the Account of the Commissioners for the Reduction of Debt, thus increasing the amount available during the year for reducing debt to £1,330,200. A demand for money having recently sprung up, and the Secretary of State having already drawn the total sum required for the annual expenditure in England, it is contemplated to remit home an additional sum of about £1,000,000 (true sterling) during 1882-83, to invest this sum, and to apply it, as opportunity may offer, to the reduction of sterling debt in England. The Commissioners have been consulted on the subject, and approve of this arrangement. A separate account of the transaction will be rendered to them. The cost of the bills drawn in order to carry out this transaction will be debited to the Account of the Commissioners for the Reduction of Debt. In 1883-84 a reduction will be made in the amount available for *Reduction of Debt*, and a corresponding increase in the amount available for *Protective Works*, that is to say, the former having, in 1882-83, been increased

*Reduction of Debt.*

to £1,330,200 will, in 1884-85, be reduced to £131,700 and the latter having, in 1882-83, been reduced to £144,200, will, in 1884-85, be increased to £1,355,800. It is estimated that the direct expenditure on *Famine Relief* in 1882-83 and 1883-84 will be £25,600 and £12,500, and consequently the aggregate expenditure on *Famine Relief*, *Protective Works*, and *Reduction of Debt* will be £1,500,000 in each of the years 1882-83 and 1883-84.

**140.** So far I have only dealt with the transactions of the Southern Mahratta Railway Company mainly in so far as they affect the Revenue and Expenditure of the year. I now turn to the consideration of the transactions in so far as they have affected the Ways and Means of 1882-83.

**141.** As the capital of the Company was paid to the Home Treasury of the Government of India, it was necessary, in order to enable the Company to proceed with its works, to provide funds for the Company from the Treasuries of the Government of India. A sum estimated at £480,000 (£400,000, true sterling) had to be so provided. For this, of course, no provision had been made in the Estimate of Ways and Means for the year. The Secretary of State, therefore, undertook to reduce his drawings during 1882-83 by an amount of £400,000 (true sterling), but he did not reduce his drawings by the total amount of the paid up capital of the Company. The balance of the money paid by the Company to the Secretary of State in excess of £400,000 (true sterling) was used to strengthen the Home cash balance, and thus enable the Secretary of State to purchase the Madras Irrigation and Canal Company's undertaking. It results, therefore, that, inasmuch as the Government of India has to supply funds for the Company in India at a rate of exchange of 1*s.* 8*d.*, every £1 paid to the Company in India involves a payment of ₹12, of which ₹2 appears as expenditure under *Exchange*. As a matter of fact the total expenditure under *Exchange* is, on this account, increased by £126,500 in 1883-84.

*Result of these Operations*

**142.** I trust that I have made these operations clear. They are somewhat complicated. The general result, so far as the drawings and the expenditure under *Exchange* of the year 1882-83 are concerned, is as follows: (1) The Secretary of State's drawings for the year 1882-83 are now estimated at £15,042,000 (true sterling), of which £14,184,000 (true sterling) had been drawn up to March 9th; (2) the expenditure under *Exchange on Transactions with London* is now estimated at £3,116,000, being £341,000 in excess of the Budget Estimate; (3) a further sum, estimated at £227,000, representing *Exchange* on the remittance home of the sum of £1,000,000 (true sterling) will be charged against *Appropriation for the Reduction of Debt* (*vide* Abstract C).

| | £ | £ (True Sterling) |
|---|---|---|
| Original Estimate | | 15,342,000 |
| Deduct:— | | |
| (1) Excess drawings in 1881-82 in round figures | 900,000 | |
| (2) Reduction by Secretary of State on account of Southern Mahratta Railway transactions | 400,000 | |
| Total deductions | 1,300,000 | |
| Add:— | | |
| (1) Remittance on account of Debt Commissioners | 1,000,000 | |
| Net deduction | | 300,000 |
| Revised Estimate of drawings | | 15,042,000 |

*Budget Estimates, 1882-83*

**143.** The Budget Estimates for 1882-83 was as follows:—

| | £ |
|---|---|
| Revenue | 66,078,000 |
| Expenditure | 65,793,000 |
| Surplus | 285,000 |

*Revised Estimates, 1882-83.*

**144.** I have already mentioned (para. 131) that net Expenditure to the extent of £797,000, for which no provision was made in the Budget, was incurred during the year on account of the Egyptian Expedition. Also that the Expenditure under *Exchange* is now estimated at £341,000 in excess of the Budget Estimate

(para. 142). In spite, however, of the Egyptian expenditure, of the heavy charge for *Exchange*, and in spite of the fact that the net *Opium* Revenue is expected barely to come up to the Estimate (para. 133), the Revised Estimate shows a small surplus of Revenue over Expenditure. It is as follows:—

| | £ |
|---|---|
| Revenue . . . . . | 67,914,000 |
| Expenditure . . . . . | 67,854,000 |
| Surplus . | 60,000 |

*Reasons of surplus.*

**145.** This satisfactory result is mainly due to two causes. In the first place the harvests were everywhere good, and the country has generally been in a prosperous condition. In the second place, in view of the large fiscal reforms which were carried out last year, it was thought advisable to frame all the Estimates of Revenue and Expenditure with even more than the usual caution. Otherwise it would not have been prudent to have undertaken those reforms.

*Increases of Revenue.*

**146.** Almost every branch of Revenue shows an increase over the Budget Estimate, whilst many branches of Expenditure show a diminution as compared with the Budget.* Thus the net *Land Revenue* (including *Portion of Land Revenue due to Irrigation*) shows an improvement of £172,000, of which £ 60,000 is on account of increased Revenue, and £ 112,000 on account of a diminution in Expenditure. *Forests* (net) show an improvement of £ 107,000; *Excise* (net) of £ 288,000; *Customs* (net) of £ 91,000; *Salt* (net) of £ 219,000, of which £ 80,000 is for excess Revenue, and £ 139,000 for diminished Expenditure; *Stamps* (net) of £ 68,000; *Railways* including those classed as Productive Lines (*State*, *Guaranteed* and *East Indian*) of £ 225,000, net; and *Irrigation and Navigation* (net) of £53,000 on the Ordinary and £17,000 on the Productive Account. The *Marine* Expenditure (net) is £ 104,000, the *Army* Expenditure (net) £ 74,000, and the Expenditure (net) under *Law and Justice* £121,000, less than the Budget Estimate.

*Diminutions of Expenditure.*

*Exceptional receipts.*

**147.** The Revenue of the year has been swelled by two exceptional receipts. In the first place, certain remissions of *Land Revenue* were contemplated in the Bombay Presidency last year, and in order to meet the loss on Imperial account involved in those remissions, a sum of £251,000 was credited to the Bombay Government in the Accounts of 1881-82. The amount remitted has, however, turned out to be less by £101,000 than was anticipated. This amount has, therefore, been again brought to the credit of the Imperial Government.

*Patwari Fund.*

**148.** In the second place, the balance of the Patwari Fund in the North-West Provinces, amounting to £199,000, has been brought to the credit of the Imperial Government. Under the arrangements made last year in connection with the abolition of the Patwari cess (see Financial Statement for 1882-83, paras. 59—

* In considering these figures it is to be borne in mind that the total amount by which the Revised Estimate, whether of an item of Revenue or of Expenditure, differs from the Budget Estimate, does not necessarily go to swell or diminish the Imperial surplus. Thus, to take a single example, an excess in gross Revenue of £284,900 under *Excise* means that the Imperial Government expects to receive £142,450 and the Provincial Governments £142,450, more than was originally estimated. So also, to take an example on the Expenditure side of the Account, almost the whole of the amount by which the Expenditure under *Land Revenue* falls short of the Estimate, benefits the Provincial Governments only. The figures given above, therefore, must only be taken as a general indication of the reasons why the Imperial Revenue has more than balanced the Imperial Expenditure. I have not thought it necessary to state in detail to what extent the excess of Revenue or diminution of Expenditure benefits the Imperial and Provincial Governments respectively.

I may mention in connection with this point that the Increase and Decrease columns, which formerly appeared in *Statements I* and *II* under the old classification of the Accounts and Estimates (see Appendix II, pages 68 to 71) are not given in Abstracts A and B of the new classification (see Appendix I, pages 54 to 59). It will be readily seen that they could not conveniently be given. This is, without doubt, a disadvantage, but the new classification is so superior to the old classification in all other respects as to make its adoption desirable. As both the old and new classifications are published this year (see para. 63 of Financial Statement), the inconvenience will not be felt immediately.

63), the Imperial Government has to bear the charges formerly paid from the Patwari Fund. The balance of the Fund was devoted to meeting charges connected with Surveys and the preparation of a Record of Rights in permanently-settled districts, and the charges on these accounts are being met at the cost of Imperial Revenues, which are recouped by receiving a credit of the balance of the Fund.

**149.** Both of these are extraordinary items of Revenue which will not recur in future years.

*Increases of Expenditure.*

**150.** On the other hand, the Expenditure under a few heads has exceeded the Budget Estimate, and some extraordinary expenditure has been borne which will not recur in future years.

**151.** The Expenditure under *Interest on Debt* is now calculated at an increase in all of £119,000, the increase being partly due to an arrear payment to the Maharaja of Patiala and partly to the charge for temporary loans in England in excess of the Budget Estimate; of this increase £71,000 appear in the Ordinary and £48,000 in the Productive Account. *Stationery and Printing*, owing mainly to unusually heavy purchases of stock, has cost £56,000 (net) more than was anticipated. The cost of *Administration* has exceeded the Estimate by £74,000, and that of *Superannuations* (net) by £79,000.

**152.** It was thought desirable to complete the *Frontier Railways* as soon as possible. An additional grant of £60,000 in excess of the Budget allowance was, therefore, made under this head during the year. The *Southern Mahratta Railway* has cost £33,000 (interest charge),and *Subsidized Railways* have cost £21,000, in excess of the Estimate. *Civil Buildings, Roads, and Services* are now estimated at £51,000 in excess of the Estimates. The excess is mainly due to additional grants having been made during the year for the extension of the Salt works at Uru in the Bombay Presidency, and for the erection of Government offices and clerks quarters at Simla. The construction of these buildings will lead to a diminution in the present annual charge on account of rent for the houses now hired.

## VII.—The Wheat Trade.

**The Wheat Trade.**

**153.** The principal feature of the financial situation of the moment is that during the past year there has been a still further fall in the value of the rupee. The highest price obtained by the Secretary of State during the year 1882-83 for his Bills was 1*s.* $8\frac{3}{16}$*d.* on April 5th. The lowest price was 1*s.* $7\frac{1}{16}$*d.* on December 20th and 27th. The balance of trade between Europe and India was to an unusual extent settled by importations of silver, especially during the early months of the financial year. (See Appendix V.)

*Value of Silver.*

**154.** Some temporary and adventitious causes may possibly have tended to depreciate exchange during the year. But, in the main, the value of the rupee expressed in sterling must, of course, depend on the relative value of gold and silver. The highest price realised for silver in the London market during the year 1882 was $52\frac{7}{16}$*d.* per oz. corresponding to a rupee of 20·289*d.*; the lowest 50*d.* corresponding to a rupee of 19·3467*d.*; the average was $51\frac{5}{8}$*d.* per oz. corresponding to a rupee of 19·9755*d.** On the whole the general tendency has been downwards.

* *The Statist.* Financial and Commercial History of 1882.

*Importance of removing obstacles on trade.*

**155.** The only way in which it is within the power of the Government of India to meet the difficulties attendant on a depreciation in the value of the rupee is to free trade so far as is possible from all obstacles, and especially to do all in its power to develop the export trade.

*The Wheat Trade.*

**156.** A great deal has already been done in this direction. The import duties have been almost entirely abolished. The export duty on rice remains. It

would be most desirable that this duty should be removed. The financial situation does not, however, for the present permit of its abolition. Something, however, may be done in the way of encouraging the export trade in food grains, and especially in wheat. *Its recent development.*

**157.** This trade may, for all practical purposes, be said to date from the year 1873, when the export duty was removed. In 1881-82 nearly a million tons (19,863,520 cwt.) were exported. The export during the current year (1882-83) will probably be about 14,000,000 cwt.,—a figure which, although below the exceptionally large export of 1881-82, is still 100 per cent. in excess of that of 1880-81. The great strides made in this trade during the last few years are to a great extent due to railway extensions in India and, so far as the great exports of 1881-82 are concerned, to deficient crops in the United States.

**158.** For all practical purposes it may be said that the whole of the Indian wheat trade is with Europe. In 1881-82 only 310,000 cwt. out of 19,863,000 cwt. were shipped to other than European markets. The largest market for Indian wheat—as for most of the other staple products of India—is England. Out of the total quantity exported in 1881-82, England took nearly one-half, and has taken about the same proportion during the current year. France took 5,308,000 cwt. last year (1881-82) and has this year (1882-83) taken over 3,000,000 cwt. out of the 11,828,000 cwt. already exported. Indian wheat also goes to Belgium, Holland, Italy, and Egypt. But shipments to Egypt are only nominally for that country. Ships go to Port Said "for orders," and the exports recorded in our trade returns as going to Egypt are mostly intended for some Continental market. *Markets for Indian Wheat.*

**159.** The total production of wheat in the United Kingdom is estimated by Sir James Caird at 12,000,000 quarters, or rather over 53,000,000 cwt. (2,650,000 tons). The yield is said by Sir James Caird to be decreasing. He estimates that from 1873 to 1877 the average yield was 2¼ quarters to the acre, and in 1879 not more than 2 quarters. In former years the yield has reached 3¼ quarters and more to the acre. He thinks that there is a decrease in fertility. The area under wheat is also diminishing and land is being used for more profitable crops, for dairy-farming, for grazing, and for market-gardening. Looking to the increase of population and to the general tendency to devote land to other uses than the growth of wheat, it may be anticipated that the demand for wheat in England from other countries will increase in the future. *Production of wheat in England.*

**160.** During the calendar year 1882, the English market was supplied with wheat from abroad to the extent shown in the following table :— *Imports into England from Foreign countries.*

| | Cwt. |
|---|---|
| Russia | 9,571,021 |
| Germany | 3,083,921 |
| Turkey and Roumania | 721,030 |
| Chili | 1,656,361 |
| Australia | 2,475,127 |
| B. N. America | 2,684,828 |
| United States | 35,059,623 |
| Egypt* | 174,862 |
| India | 8,477,479 |
| Other Countries | 267,370 |
| TOTAL | 64,171,622 |

**161.** In addition to this amount of wheat, wheat-flour to the extent of 13,028,705 cwt. was supplied to the English market from foreign countries during the year 1882, of which the United States furnished 7,777,262 cwt.

**162.** The total imports of wheat and wheat-flour were, therefore, 77,200,327 *The United States.*

* The low imports from Egypt were due to the war. The average imports from that country to England are considerably higher than the figure given above.

cwt., of which the United States supplied nearly 43,000,000 cwt., or about 56 per cent. of the whole. It is clear, therefore, that the United States is the most formidable rival with which India has to compete in the supply of wheat to the English market. Wheat flour has not as yet been exported from India.

*Its advantages*

**163.** In this competition the United States possesses many natural advantages over India, which are, however, to some extent counterbalanced by one important disadvantage.

*Relative production of the two countries.*

**164.** Looking first to the advantages, it is certain that the United States can supply a much larger total quantity of wheat for export than can be supplied by India. Sir James Caird, addressing the Statistical Society on November 15th, 1881, said:—

"In a single year the United States increased their acreage by an extent equal to our (the English) total growth. In the 20 years from 1840 to 1860 their wheat production rose from 10 to 20 million quarters. In the 20 years from 1860 to 1880 it grew from 20 to 60 million quarters, and their extent of good wheat land is practically unlimited. The two great corn products of that country are wheat and Indian corn, in regard to the first of which this country, and Western Europe generally, will become increasingly dependent on America, and the price of wheat here will be chiefly ruled by the production there."

*Acreage under cultivation in India.*

**165.** In the Statistical Abstract of the United States for 1881, it is stated that in 1880 the area under wheat was 37,986,717 acres, the total production amounting to 271,531,624 cwt. or over 62 million quarters (over 13½ million tons).

**166.** It is difficult to state accurately either the acreage under wheat in India or the total outturn of the crop. Our agricultural statistics are still very defective for most provinces, and there are none at all for Bengal. According to the figures given in the Administration Reports of the different Provinces, there were, in 1880-81, 19,474,594 acres under wheat. These figures are, however, inclusive of 1,000,000 acres in Bengal, which is simply a guess, and is probably very wide of the mark. We shall probably not be far wrong if we take 21 millions as the total present acreage. The great wheat fields are in the Punjab, where also the quality is the best, the North-West Provinces, Oudh, and the Central Provinces. Bombay, Berar, and Bengal also grow wheat extensively, though in smaller quantity.

*Outturn per acre.*

**167.** The outturn per acre varies enormously according to the province and soil, and according to whether the field is irrigated or not. It is difficult to attain accuracy on this point, but it would seem that for all India the average yield cannot be taken, on a liberal estimate, at more than 700 lbs. to the acre, which is less than half the produce of English (from 1,500 to 1,600 lbs.) and considerably less than that of the American wheat fields (850 lbs.).* At this rate of yield the total outturn would be about 6½ million tons, of which it may roughly be said that about one million tons are available for export.

*Capability of increased production*

**168.** The question of the extent to which the amount of wheat available for export could be increased without trenching on the food supply of the people or materially enhancing prices is one of great difficulty. Some remarks bearing on the subject will be found in the Report of the Famine Commissioners, Part I, para. 158. Some high authorities are of opinion that, under favourable conditions as regards the prospect of a market, it would be possible within a few years to double the amount of wheat available for export, that is to say, to increase it to about 40,000,000 cwt. There can be no doubt that very large quantities of land are awaiting cultivation, especially in the Punjab, Burma, Assam, and the Central Provinces, but of course a good deal of this land is not suitable for

* In some places in America 25 bushels to the acre and more have been taken off an acre, but this quantity is greatly in excess of the average yield. The average outturn in 1880 for all the United States was 709 lbs. to the acre, but this was a small yield. In 1877 it was 848 lbs. A yield of 850 lbs. to the acre is probably a fair general average.

As regards the figure given above for India (700 lbs.), it is to be borne in mind that it purports to give the *average* yield per acre. In some districts the yield is certainly in excess of this figure, and on all *irrigated* land the yield is largely in excess of 700 lbs.

the cultivation of wheat. In the eastern districts of the Central Provinces the new lines of railway will now open out a very large tract of wheat-producing country, which up to the present time has been unable to find a market for its surplus produce owing to defective means of communication.

**169.** Any opinion on this subject can be little more than conjecture. All that can be said with certainty is that, on the one hand, the Indian outturn is capable of very considerable increase, and that the growth of the population in India is proceeding at a relatively slower rate than that of the United States, with the result that the proportionate amount of any increased production required for home consumption is less in the former than in the latter country. On the other hand, the processes of American are superior to those of Indian agriculture. The land in the North-Western and Western States is unexhausted and is of very great natural fertility. The acreage available for further cultivation is described on high authority as being "practically unlimited." The yield per acre in the United States is larger than in India. Under these circumstances it may be regarded as certain that, although the Indian supply of wheat available for export may be very considerably increased, the American supply may be increased to a still greater extent.

*Ocean freight.*

**170.** A further advantage possessed by the United States over India is in the matter of ocean freight. This advantage is not so great as might be the case under different conditions as regards the fiscal laws of the United States. The heavy duties levied by the United States Government on imported foreign goods naturally check the imports into America from Europe, with the result that, in the comparative absence of a demand for freight from Europe to America, shipowners are obliged to recoup themselves by charging relatively high freights from America to Europe. The disadvantage under which America labours by reason of this condition of things is artificial and not natural. It is imposed by the fiscal law and would be removed were that law changed. In spite, however, of the present condition of the United States Customs Tariff, proximity to the English market, together with the fact that Indian shipping has to pay Canal dues, is sufficient to turn the scale in favour of the United States. The distance from New York to Liverpool is 3,073 miles. The distance from Calcutta to London by sea is 8,083 miles; from Bombay to London 6,274 miles; from Kurrachee to London 6,080 miles. Dues are levied on passing through the Suez Canal at the rate of 10*frs.* 50*c* per registered ton.

*Comparative freights.*

**171.** The charge for steamer freight from New York to Liverpool is very variable. The rates in 1881 and 1882 were, on an average for the year:

| | 1881. | 1882. |
|---|---|---|
| To Liverpool . . . . . | 15*s.* 7*d.* | 12*s.* 2*d.* |
| „ London . . . . . | 16*s.* 11*d.* | 16*s.* 0*d.* |

**172.** In January of the present year the rates were, to Liverpool 21*s.* 9*d.*, and to London 22*s.* 9*d.* per ton. Freights seem generally to rule high in January. Comparing the rates from New York to Liverpool for 1882 with Indian rates, we find that during the year 1882 the average charge from Kurrachee to London was £1-18-9 a ton; from Bombay to London £1-15-2¼; from Calcutta to London £2-2-11.* Taking the average American rates of 1882 as the basis of comparison, New York may be said to possess an advantage over Kurrachee to the extent of about 26*s.* 7*d.* or 22*s.* 9*d.* a ton, over Bombay of 23*s.* 0¼*d.* or 19*s.* 2¼*d.*, and over Calcutta of 30*s.* 9*d.* or 26*s.* 11*d.*, accordingly as the Indian rates are compared with the New York rates to Liverpool or to London. On the other hand, Indian rates compare favourably with freight from San Francisco to the United Kingdom, which in 1881 averaged £3-3-11½ a ton. Last year, of the whole import of wheat into the United Kingdom from the United States, 42 per

* The rates stated here for Bombay and Kurrachee are for the ton of 20 cwt., the rates quoted in commercial circulars being for the ton of 16 and 18 cwt. respectively.

cent. was shipped from the Pacific seaboard; in 1881 it was 31 per cent.; in 1880 only 18 per cent.

*Railway communication.*

**173.** The United States possess a further advantage in facility of inland communication. The American railway system has been very rapidly extended during the last few years. No less than 105,000 miles of railway are now open. This rapid progress is due to the vigorous commercial enterprise of the people of America, and to the large amount of capital seeking investment in American undertakings. It is in this respect more than in any other that India presents a remarkable contrast. Local capital is either not available or seeks, generally speaking, for more profitable investments than Indian Railways afford. English capital has only recently begun to turn its attention to Indian Railways, and can as yet scarcely be persuaded to dispense with Government assistance. The development of the country has up to the present time mainly devolved on Government, and, as a necessary result of this state of things, progress has been relatively slow.

*Railway rates in the United States:*

**174.** In the matter of railway rates also American is at a great advantage as compared to Indian wheat. So far back as 1876 the rate from Chicago to New York, a distance of 960 miles, was on an average 17 cents a bushel, or £1-5-6 per ton for the whole distance. In 1878 and 1879, the published tariff rate was 20 cents per 100 lbs (18*s.* 4*d.* per ton) for the whole distance, but under stress of competition wheat was carried from time to time in 1879 to New York at 18, 15, and even as low as 10 cents per 100 lbs, or 9*s.* 2*d.* per ton for the whole distance. Sir James Caird in his evidence before the Royal Agricultural Commission in December 1881, said that the rate had been reduced as low as ¼*d.* per ton per mile. This rate is equal to £1 per ton for the whole distance. The writer of an interesting pamphlet recently published in India* gives 145 cents a bushel as the latest rate he has seen quoted. This is equal to £1-1-9 per ton for the whole distance. In the official Report on the Foreign Commerce of the United States for the fiscal year ending June 30, 1882, by the Chief of the Bureau of Statistics, the following figures are given as the average through rates in 1881 from Chicago to New York:—

* *Indian Wheat versus American Protection, or, The influence on English Trade and American Protection of the Development of India.*

| | Cents per bushel. | In sterling per ton. |
|---|---|---|
| By lake and canal . . . . | 86 | 12*s.* 11*d.* |
| By lake and rail . . . . | 104 | 15*s* 7*d.* |
| By rail entirely. | | |
| (1) During the season of navigation only . . . . . | 117 | 17*s.* 6*d* |
| (2) During the year . . . | 144 | 21*s.* 7*d.* |

**175.** The competition of water carriage has evidently a marked effect on rail rates in America. In India, although about 20 per cent. of the wheat brought to Calcutta is still brought down the river in boats, this traffic does not in the least regulate the railway rates.

**176.** I have been informed on good authority that wheat is now carried from St. Louis, down the Mississippi, all the way through to Liverpool, for 14 cents a bushel, which is equal to 4*s.* 7¼*d.* per quarter or £1-1-1⅓ per ton. Mr. Leyland, owner of the Leyland line of steamers trading between Boston and Liverpool, told the Royal Commission on Agriculture that the custom is to take the wheat at Chicago (about 1,500 miles from Boston) and deliver it at Liverpool at a through rate, including everything. This rate in 1881 averaged 10*d.* a bushel of 60 lbs. or £1-11-1⅓ per ton, of which two-fifths went to the ship and three-fifths to the railway, the division being made by arrangement.

*and in India.*

**177.** Turning to India, we find that the rate charged in March 1883 by the East Indian Railway from Delhi to Howrah, a distance of 954 miles, is Rs. 71 per 100 maunds, which, at an exchange of 1*s.* 7⅛*d.*, is equal to £1-11-5 per ton.

**178.** From Lahore to Kurrachee, a distance of 821 miles, the rate is 12 annas 3 pie per maund, equal to £1-13-11¾ per ton for the whole distance.

**179.** From Delhi to Bombay, over the Rajputana Railway, a distance of 889 miles, the rate until very recently was 13 annas 6 pie per maund, equal to £1-17-5¼ per ton for the whole distance.

**180.** From Jubbulpore to Bombay, a distance of 616 miles, the rate is 10 annas 5 pie per maund, equal to £1-9-8½ per ton for the whole distance; that is to say, it costs considerably more to carry a ton of wheat 616 miles over the Great Indian Peninsula Railway, than it does to carry the same quantity 960 miles over the American line.

**181.** A comparison of rates from other stations would produce similar results. But it is unnecessary to go further. It is abundantly clear that the Indian are much higher than the American rates.

*Management of the trade.*

**182.** In the detailed management of the trade also America has the advantage over India. There is far less handling of the wheat between the field and the hold of the ship in the former than in the latter country. The wheat is brought from the field into store-houses, and thence shot in bulk into the wagons, which are either brought alongside the ship or to warehouses which lie close to the ship. In India, on the other hand, wheat is brought from the field to a central station, say Cawnpore, is there bought by one trader (perhaps the agent of the shipping firm, perhaps another intermediary) from another trader, who has bought it from the cultivator. It is stored and bagged, then carted to the railway station, unloaded, stacked at the station, and again unstacked to be loaded into the wagons. On arrival at the port of shipment it is unloaded, stored, perhaps bought and sold once more, then carted to the shore and put on board either from a jetty or from a boat.

*Price of Indian wheat.*

**183.** Indian wheat is quoted in the London market at a lower price than American or Australian wheat. The average comparative prices during the year 1882 were as follows:—

| | Per Quarter. | |
|---|---|---|
| | *s.* | *d.* |
| American, best . . . . . | 48 | 9 |
| Calcutta, Club No. 1 . . . . . | 43 | 1 |
| Australian, best . . . . . | 50 | 5 |

*Mixture with dirt and other grains.*

**184.** I am informed that the relatively low price of Indian wheat is not so much due to its quality, which is generally very good, but to its admixture with dirt and other inferior grains. At present shippers pay for the conveyance of about 5 per cent. of dirt to England.

**185.** The admixture of inferior grains with the wheat is, I believe, due to the fact that cultivators often grow other grains in the same field as wheat as a resource in the event of the failure of the wheat crop. This practice tends to keep down the price of Indian wheat.

*Advantages of India over America.*

**186.** Against this long list of disadvantages under which the Indian agriculturist labours as compared with his American competitor, must be balanced one advantage, which is very considerable. India enjoys free trade, whilst America labours under all the disadvantages of a Tariff designed to protect indigenous manufactures.

*American protection.*

**187.** The disadvantage under which America labours by reason of its protective Tariff is very great. The fiscal laws of the United States oblige the American agriculturist to sell in the cheapest and to buy in the dearest market. For all woollen,* cotton, linen and silk manufactures, for iron and steel, for leather, for earthenware and crockery, for tin plates and ware, for hemp and jute fabrics, and for window glass, the American agriculturist has to pay from 20 to 77 per cent. extra—the average being 43 per cent.,—as the cost of protecting indigenous manufactures. An able writer on economic subjects* has estimated that the agriculturists of the United States paid $400,000,000 (£82,192,000) a year as the cost of protection, and ten years ago it was stated on high authority (Mr. D Wells) that the average purchasing power of labour in the United States had been depreciated to the extent of 19½ per cent. between 1860 and 1873.

* *The Western Farmer of America.* Mr. A. Mongredien.

*Free trade in India.*

**188.** India on the other hand labours, for the purposes of the present argument, under no artificial disadvantages imposed by fiscal legislation. The Indian producer of wheat is absolutely free to exchange his exportable produce to the best possible advantage with the products of foreign countries.

*Importance of the subject.*

**189.** I have dwelt at some length on this subject not only on account of its intrinsic importance, but because I shall be glad if I succeed in drawing the attention of those who have a more intimate practical acquaintance both with the trade and the conditions of Indian agriculture than any to which I can pretend, to the necessity of exertion with a view to strengthening by all possible means the position of Indian wheat in the English market. I have not discussed the question of the relative cost of production in India and in the United States, because, independently of the somewhat difficult economic issues involved in this question, it is very difficult to obtain facts of a sufficiently reliable nature to permit of any very accurate general conclusion being drawn from them. I may say, however, that there is reason to suppose that the prime cost of production in India is less than in the United States.

*Reduction of Railway Rates.*

**190.** It remains for me to state the measures which have been adopted by the Government with a view to facilitating the export of wheat to Europe. In the first place the through rate for wheat conveyed from Delhi or Agra to Bombay has, in communication with the Agent of the Bombay, Baroda and Central India Railway, been reduced from 13 annas 6 pie to 11 annas a maund, and for other grains and seeds of the same class to 11½ annas a maund. The reduction in the case of wheat will, therefore, be 18 5 per cent. on the present rates. It will, no doubt, be followed by a corresponding reduction on the East Indian line. For the future it will be possible to lay down wheat coming from about Delhi or Agra to Calcutta or Bombay at a price of Rs. 4-4-3, or, at an exchange of 1*s.* 7½*d.*, £0-6-11¼ per ton less than has heretofore been the case. To state the case in another way, the lowering of the rates is equivalent to a reduction in price of slightly over 1*s.* 6*d.* per quarter of wheat in the London market.

*Minimum loads*

**191.** In the second place, the restriction as regards minimum loads has been abolished on the Rajputana and Bombay, Baroda and Central India Lines.

*Facilities at Stations and Ports.*

**192.** In a letter recently issued from the Public Works Department, giving effect to this decision, the following passage occurs:—

"In conclusion, I am to draw general attention to the fact that every expansion of the "export trade will bring to bear a heavier strain upon the facilities for handling, warehousing, "removing, and shipping produce at the Railway Stations and Ports. These facilities are "believed to be even now in many cases inadequate, and their improvement will, His

* The duty on Wool has within the last few weeks been reduced, and that on Cotton Goods and Metals has been increased.

"Excellency the Governor General in Council trusts, engage the serious attention of the "several local authorities at an early date."

I trust that this very important branch of the subject will receive the serious attention which it deserves.

*Improved communications.*

**193.** Turning to the question of improved communications, it is to be observed that during the last two years the Railway policy of the Government of India has been unsettled. I do not think that is any matter for surprise or for regret. In inaugurating a policy under which Railways were, to some extent at all events, to be constructed through the agency of private enterprise, it was almost inevitable that there should be a period of transition during which it would be exceedingly difficult to adhere to any fixed policy. It was easy to declare beforehand the broad aim which the Government sought to attain, namely, the construction of Railways through the agency of unaided private enterprise, but experience alone could show how far that aim was attainable. We have now had two years' experience of the private enterprise policy. During that time a certain number of facts have been accumulated, which, we think, are sufficient to enable us to lay down a definite policy, at all events for the immediate future, say, for five years. We have, therefore, very recently addressed the Secretary of State on the subject, but I am not as yet in a position to state what the final decision of the Government will be.

*Progress in the construction of Railways.*

**194.** In the meanwhile I may as well state very briefly what have been the main facts as regards Railway construction during the last two years. At the commencement of the year 1881-82 there were 9,619 miles of Railway open to traffic, and 646 miles under construction, making a grand total of work either completed or in hand of 10,265 miles. At the commencement of the year 1882-83 there were 9,961 miles of line open for traffic and 1,302 under construction, making a grand total of 11,263 miles either completed or in hand. During the year 1882-83, 290 miles were opened to traffic, and the commencement of 1,194 miles of new line was authorised. The present position, therefore, is that we have 10,251 miles of line open to traffic, and 2,332 miles either under construction or sanctioned for commencement in 1883-84. It is expected that 719 miles will be opened for public use during the year 1883-84, leaving 1,613 miles for completion in 1884-85 and subsequent years. Comparing, therefore, the commencement of the year 1881-82 with the commencement of 1883-84, it will be found that the amount of line either open or under construction has in two years been increased by 2,318 miles. An immense deal, of course, remains to be done, and I trust it may be possible in the future to push forward the construction of Railways at a more rapid pace than in the past. At the same time it may be held that the progress during the last two years has, on the whole, been fairly satisfactory.

## VIII.—Budget Estimates, 1883-84.

*Budget Estimates, 1883-84.*

*Opium.*

**195.** I have already mentioned (para. 133) that the net Opium Revenue for 1882-83 is now estimated at £7,217,000. I pointed out on the occasion of the last Financial Statement (paras. 139 and 140) that during the four years 1878-79, 1879-80, 1880-81, and 1881-82, the annual sales of Bengal Opium had been in excess of the annual production, and, further, that these large sales had only been possible by reason of the exceptionally good crops of 1875-76 and 1876-77, which had enabled a very strong reserve to be constituted. I alluded to the fact that since 1878 the reserve had been steadily diminishing in quantity. I added—

"This process of depletion cannot continue indefinitely. An exceptionally good crop "may, indeed, again replenish the reserve. But we cannot rely on a fortuitous circum-

"stance of this sort. An average crop, or, at all events, a succession of average crops, "will oblige us to resort to one of two alternatives. We shall be forced either to in- "crease the production, or to diminish the amount offered for sale."

*Notification of June 28th, 1882.*

**196.** The final result of the Opium crop is known about the month of June or July. The outturn of "provision" Opium—that is to say, Opium for export to China—in 1881-82 was 54,039 chests. The number of chests offered for sale in 1881-82 was 56,400. It was, therefore, thought desirable to reduce the number of chests to be offered for sale in 1883-84. Accordingly, on June 28th, 1882, the year's notice required by custom was given to the effect that from August 1883 (inclusive), the number of chests offered for sale would be reduced from 4,700 to 4,450 a month—a reduction at the rate of 3,000 chests in the year. It follows that during the year 1883-84 there will be four monthly sales of 4,700 chests each, and eight monthly sales of 4,450 chests each. In all 54,400 chests will be offered for sale in 1883-84, being 2,000 chests less than in 1882-83.

*Reduction of duty on Malwa Opium.*

**197.** Turning to Malwa Opium, it will be remembered that on June 28th, 1882, the duty was reduced by Rs. 50 a chest.

**198.** It is under these circumstances that we have to consider the Opium Estimate for the coming year.

*Opium Estimate for 1883-84.*

**199.** It is to be remembered that a reduction in the number of chests of Bengal Opium offered for sale should, all other things being equal, enhance the price which is realised on the diminished number of chests which are sold. But the reduction in quantity during 1883-84 (2,000 chests) may not be sufficient to exercise any appreciable effect on prices. It would not, therefore, be prudent to rely on a rise of price.

**200.** Also it is to be remembered that a diminution in the export of Bengal Opium to China will probably lead to a corresponding increase in the export of Malwa Opium. But here again it would not be prudent to rely on any compensating action of this sort in framing the Estimate for the coming year.

*Revenue.*

**201.** After a full consideration of the details of the question it has, therefore, been decided to take the gross Opium Revenue for 1883-84 at £9,200,000, being £362,000 less than the figure shown in the Revised Estimates for 1882-83.

*Expenditure.*

**202.** I turn now to the question of Expenditure. The expenditure under this head depends almost entirely on the yield of the poppy crop in Bengal and the North-West Provinces. As I have already mentioned (para. 133), the expenditure during the current year has been, relatively speaking, somewhat high (£2,345,000), owing partly to the fact that the outturn of both the Patna and Benares Agencies was somewhat above the average of past years, and partly to the fact that 2,000 maunds of Malwa Opium were purchased during the year to be manufactured into Opium for sale in India, thus allowing the reserve of Bengal Opium, which has heretofore been exclusively supplied for sale in India, to be strengthened to a corresponding extent.

*...op of 1882-83.*

**203.** The accounts received up to the present time as regards the crop in the Benares and Patna Agencies, especially in the latter, are unsatisfactory. The total outturn of the two Agencies is at present estimated at not more than 47,000 chests. Much reliance cannot, however, be placed on any estimate formed at this period of the season. All that can be said with certainty is that the total crop will be considerably below the average, and that the final results are more likely to prove worse than they are to prove better than present Estimate.

*...timate of ...penditure.*

**204.** The bad consequences of a short poppy crop do not make themselves felt immediately. The immediate effect of a partial failure of the crop is to strengthen the financial position by diminishing Expenditure. The ultimate effect is, probably, to weaken the financial position by diminishing the Revenue. It is

probable that the Expenditure in 1883-84 will fall short of that in 1882-83 by £270,000, but, in framing the Estimates, it has not been thought prudent to rely on so large a reduction of Expenditure. The Expenditure has, therefore, been taken at £2,165,000, being £180,000 less than that shown in the Revised Estimate for 1882-83.

*Net Revenue.*

| | £ |
|---|---|
| Revenue . . . . . | 9,200,000 |
| Expenditure . . . . . | 2,165,000 |
| Net Revenue | 7,035,000 |

**205.** The net Opium Revenue has, therefore, been taken at £7,035,000, being £182,000 less than the Revised and £215,000 less than the Budget Estimate of 1882-83.

*Number of chests for sale.*

**206.** In recent years it has been the custom to give a full year's notice of any change which is contemplated in the number of chests of Bengal Opium offered for sale. The necessity of giving so long a notice is inconvenient from the point of view of the Government. It will also be possible to abridge the period without causing any inconvenience to the trade. But we are pledged not to make any change in the existing system without giving a full year's notice. The present system will, therefore, remain in force until the end of March 1884. For the future the following plan will be adopted: The yield of the Opium crop is always known accurately about the month of June or July. When it is known, the number of chests to be offered for sale during the next calendar year will be publicly notified. A formal notification giving effect to this change of system will issue immediately.

*Summary of position.*

**207.** It may be convenient to those who are interested in the Bengal Opium trade that I should summarise the main facts of the present situation. They are as follows:—

(1) 4,700 chests of Opium will be offered for sale each month from April to July 1883 (both months inclusive).

(2) 4,450 chests will be offered for sale each month from August 1883, to March 1884 (both months inclusive).

(3) For the future the system of giving a full year's notice of any change in the number of chests to be offered for sale will be abandoned. The quantity to be sold in one calendar year will be publicly notified about the month of June or July of the preceding year.

(4) It is the intention of Government to reduce the number of chests, which will be offered for sale in 1884-85, below the quantity fixed by the notification of June 28th, 1882 (4,450 chests a month), but I am unable at present to state the precise amount of the reduction. A notification giving this information will issue so soon as the final results of the present Opium season are known, that is to say, about the beginning of July 1883.

(5) It is at present estimated that the total outturn of the Patna and Benares Agencies for the current year will be not more than 47,000 chests of "provision" Opium, that is to say, Opium for export to China. But any estimate which can at present be framed must necessarily be very unreliable.

(6) The Opium reserve will, on December 31st, 1883, stand at 13,859 chests.

*Exchange.*

**208.** I now turn to the question of *Exchange*. There is at present every reason to suppose that there will be a considerable demand for money during the early months of 1883-84. The export of wheat will, not improbably, be stimulated by the reduction in the Railway rates to which I have already alluded (Part VII). Under these circumstances it is quite possible that a higher average rate for Bills may be realised in 1883-84 than has been realised in 1882-83 (*1s. 7·52d.*). On the other hand, the Secretary of State's drawings for 1883-84 are now estimated at £16,300,000 (true sterling), being £958,000 (true sterling) in excess of the Budget Estimate for 1882-83 £15,342,000 (true sterling). The future of silver is also uncertain. Under

these circumstances it would not be prudent to take a higher figure than 1*s.* 7½*d.* as the value of the Rupee. Taking the Rupee, therefore, at 1*s.* 7½*d.*, the Expenditure under *Exchange on Transactions with London* for 1883-84 is estimated at £ 3,548,000, being £ 773,000 in excess of the Budget, and £ 432,000 in excess of the Revised Estimates for 1882-83.

*her Estimates of Revenue.*

**209.** The other Estimates have been cautiously framed. *Land Revenue* (net) is taken at £50,000, and *Forests* (net) at £76,000 less than in the Revised Estimates of 1882-83. *Excise* (net) is taken at a figure (£9,000) very slightly in excess of the Revised Estimate for the current year. *Customs* (net) are also taken very slightly (£3,000) in excess of the Revised Estimates, although owing to a reduction of establishment consequent on the abolition of the import duties, the expenditure will be £13,000 less than in 1882-83. *Salt* (net) is taken at £9,000 less than during the current year, an increase of expenditure to the extent of £47,000 being anticipated. This is a very low estimate and will probably be exceeded. *Stamps* (net) are taken at £34,000 more than the Revised Estimate, which allows for less than the normal growth of Revenue. The *Mint* receipts (net) are taken at £37,000 less than the Revised Estimate in order to allow for a probable diminution in the imports of silver, on which the receipts under this head mainly depend. *Railways* (*State*, *Guaranteed* and *East Indian*, net) have been taken at £209,000 over the Revised Estimates. The Estimate is a moderate one. *Railways* (*Ordinary*) have been taken at £40,000 less than the Revised Estimate.

*Expenditure.*

**210.** On the Expenditure side of the Account, full provision has been made for all wants that can now be foreseen. The extension of the Railway system necessitates heavy Expenditure under *Telegraphs*. An increase of £85,000 over the Revised Estimates for the current year is allowed under this head. Allowance is also made for increased Expenditure under *Scientific and other Minor Departments* (£44,000 net), *Law and Justice* (£91,000 net), Police (£78,000 net), *Education* (£61,000 net), *Medical* (£24,000 net), *Territorial and Political Pensions* (£55,000), *Miscellaneous* (£84,000 net), *Subsidized Railways* (£30,000), and *Southern Mahratta Railway* (£52,000).*

**211.** On the other hand, in respect to three large items, the Expenditure of 1883-84 will fall below that of 1882-83. There is a diminution of £188,000 under *Refunds and Drawbacks*. This is due to the cessation of the large remissions of Land Revenue in Bombay and to the fact that the refunds under *Customs* will be much less in 1883-84 than they were in 1882-83. The Expenditure on *Frontier Railways* has now nearly ceased, thus reducing the Expenditure by £214,000 as compared with the Revised Estimates of 1882-83. The Expenditure under *Irrigation and Navigation* (*Ordinary*) is taken at £116,000 less, and that on the *Productive* account at £23,000 more than the Revised Estimate. The reduction under *Irrigation and Navigation* (*Ordinary*) is principally in Provincial Expenditure and but slightly affects the Imperial Surplus or Deficit. Under this head also the charge of £50,000 for payment of interest to the Madras Irrigation and Canal Company, which is shown in the Budget Estimate of 1882-83, disappears now that the works of the Company have become the property of the Government. Under *Civil Buildings, Roads, and Services* there is a reduction of £119,000 below the Revised Estimate for 1882-83. *Marine* also shows a reduction of £30,000; *Stationery and Printing* of £32,000; *Political* of £69,000.

**212.** I append to this Statement (Appendix VI) a minute by my hon'ble colleague, General Wilson, which gives full explanations as regards the Military Expenditure of the year.

* See note to para. 146 of this Statement. It is to be borne in mind that in some cases the increase of Expenditure does not affect Imperial Finance, as the charges are Provincial.

*Opium.*

213. It will be remembered that when, in 1880-81, the net Revenue derived from Opium amounted to £8,451,000—the largest sum ever realised—and when, in spite of this fact, the net Revenue for 1881-82 was taken in the Budget Estimates at only £6,500,000, this latter Estimate was severely criticised, both in and out of Parliament, as being too low. At the time when the Estimate was framed, I freely admit that it was almost certain that the net Revenue for 1881-82 would amount to more than £6,500,000. As a matter of fact, it amounted to £7,805,000. Further, as a matter of technical finance, it may very fairly be said that it is not right to deliberately under-estimate any item of Revenue. But that was not the really important point of issue. It makes little practical difference whether the Estimates are framed on the basis of a surplus of £500,000 and on an estimated net Revenue from Opium of £6,500,000, or whether they are framed on the basis of a surplus of, say, £1,500,000, and a net Revenue from Opium of £7,500,000. The really important question to decide, in March 1882, was this,—to what extent was it safe to take off taxes in reliance on a higher net Revenue than £6,500,000 from Opium?

*Connection between Opium and Salt.*

214. In the Financial Statement of last year (para. 192) I gave the following answer to this question:—

"If we abandon a source of Revenue which involves a permanent and absolute loss "of money, and which, moreover, from whatsoever reason, it would be difficult, in the "event of the Opium Revenue failing, to restore to its former position, then the course "would be open to great objection. If, on the other hand, we reduce a duty with a fair "hope that the reduction will increase consumption, and thus, after a while, recoup us for "any loss, and if, moreover, the duty can, without any great fiscal disturbance, be re-im- "posed in the event of the Opium Revenue falling off, then the reduction of taxation "would be unobjectionable. The Salt Duty falls within the latter of these two categories.

"It has been decided, therefore, to estimate the net Opium Revenue in 1882-83 at "£ 7,250,000, and simultaneously to afford some substantial relief to the tax-payers in the "shape of a reduction of the Salt Duty. * * * * * If any unfore- "seen circumstance, such as a heavy fall in the value of silver, takes place, and if at the "same time the reduction of the Salt Duty does not result in any considerable increase "in the consumption of salt, it would be open to us to return temporarily to a higher rate "of duty."

*Salt a fiscal reserve.*

215. It will be seen, therefore, that the intention, under certain contingencies, of using the Salt Duty as a fiscal reserve was distinctly indicated.

216. The loss of Revenue involved in reducing the Salt Duty (£1,400,000 a year) has, as I have already mentioned (para. 111), been already recouped by increased consumption to the extent of £320,600, a result more satisfactory by £302,000 than that which was anticipated last March. But in view of the facts (1) that the net Opium Revenue of 1883-84 is taken at £215,000 less than that of 1882-83 (Budget Estimate); (2) that the Expenditure under *Exchange* is estimated at £773,000 more than in 1882-83 (Budget Estimate); and (3) that, as is pointed out by General Wilson (see his Minute in Appendix VI), the savings in Military Expenditure in India have been to a great extent swallowed up by an increase of £100,000 (true sterling) on account of non-effective charges in England,—it would have been no matter for surprise if the Government had been obliged to resort to an enhancement of the rate of duty on Salt in order to balance the Revenue and Expenditure of the year 1883-84.

*No increase of taxation necessary.*

217. We are, however, fortunately under no such necessity. Not only are we able to balance our Revenue and Expenditure, but we are able, without any increase of taxation and without in any way starving the public services or checking the progress of Public Works of utility, to provide an adequate surplus in order to meet any of the numerous unforeseen contingencies which so frequently arise in India.

*Budget Estimates, 1883-84.*

**218.** The Budget Estimates for the year 1883-84 are as follows—

| | £ |
|---|---|
| Revenue . . . . . | 67,274,000 |
| Expenditure . . . . . | 66,817,000 |
| Surplus . | 457,000 |

*Reasons of Surplus.*

**219.** This satisfactory result is due (1) to the fact that the Indian Revenue is more elastic than is very generally supposed; (2) to the fact, to which I have already alluded (para. 145), *viz.*, that, in view of the large fiscal reforms undertaken last year, it was thought desirable to frame the Estimate of every item of Revenue and Expenditure with even more than usual caution; and (3) to the fact that, in carrying out those reforms, we were aware that the heavy charge for *Frontier Railways*, for which provision was made in 1882-83, would be greatly diminished in 1883-84 (see para. 249 of the Financial Statement for 1882-83). Allowing for an additional grant of £60,000 made during the year, the estimated Expenditure on these Railways is £282,000 in 1882-83. In 1883-84 it will only be £68,000.

*Postponement of further fiscal reforms.*

**220.** On the other hand, the high Expenditure under *Exchange* and the diminution of the Opium Revenue have rendered it necessary to postpone the execution of those further fiscal reforms which, under more favourable conditions in respect to these two important points, might otherwise have been feasible. We have not thought it desirable to adhere, on grounds of financial necessity, to the high rates hitherto charged on the Rajputana-Malwa Railway for the conveyance of food-grains. We are fortunately in a position to give effect to a very salutary measure of reform in reducing those rates. But the consideration of any further measures of fiscal reform must be postponed. Last year a favourable opportunity presented itself for the execution of some very large and beneficial improvements in the fiscal system. This year the state of the case is different. The financial position is perfectly sound, but the situation is one in which great caution is required. We have to look, not only to the circumstances of the immediate moment, but also to the contingencies which may arise in future years.

*Famine.*

**221.** Against one, and perhaps the most serious, of these contingencies—I mean famine—we are insured to the extent of £1,500,000 a year.

*Exchange.*

**222.** As regards the possibility of any further fall in the value of silver, all that can be said is that financial equilibrium has been more than secured on the basis of an estimated value to the rupee (1*s.* 7½*d*), which cannot be considered as erring on the side of optimism.

*Opium.*

**223.** Opium constitutes the chief danger of the immediate future. I have for a long time past been inclined to take a somewhat desponding view of the future of the Opium Revenue, and recent events have confirmed the views which I had heretofore held. Considering (1) that the crop is singularly precarious, (2) that the indigenous drug of China is daily becoming a more serious competitor to Indian Opium, and (3) that the Indian Revenue depends in no slight degree on the domestic legislation of a foreign country (China),—it can scarcely, in my opinion, be doubted that the yearly Revenue which India derives from Opium will, in all probability, show a tendency to fall off in the future. For reasons which I have already stated (paras. 203-204), it is almost certain that, although the Opium Estimate of 1883-84 has been taken at £215,000 below the Budget and at £182,000 below the Revised Estimate for 1882-83, the Estimate for 1884-85 will have to be taken at a still lower figure.

*Financial situation, 1884-85.*

224. I will not venture to predict what may be the financial situation at the commencement of the year 1884-85. All that can now be said on this subject is that we commence the year 1883-84 with a surplus of £457,000 in hand; that the Estimates for 1883-84 have been very cautiously framed; that the material prosperity of the country is increasing, and, unless famine should intervene, will continue to increase, with the result that the Revenue from *Excise*, *Salt*, *Stamps*, *Railways*, *&c.*, is steadily growing; and, lastly, that by the reduction of the Salt Duty, the financial position has been much strengthened, and a fiscal reserve constituted which, should the occasion unfortunately arise, can be used in case of necessity. So long as the value of the rupee and the Opium Revenue continue liable to such fluctuations as those which we have recently witnessed, the financial situation of India must always contain some special elements of instability; but I see no reasons for taking any desponding view of that situation at present. On the contrary, there is every reason to believe that the country will be well able to cope with whatever financial difficulties the future may have in store.

## IX.—The License Tax.

*The License Tax.*

225. In making the Financial Statement last March, I summed up the attitude of the Government in respect to the License Tax in the following words (para. 251):—

"We recognise the evils of the present tax. We recognise that in its present form "it cannot be incorporated into the permanent fiscal system of the country. Beyond this "we do not at present go. We reserve to ourselves complete liberty of action in the "future, either to propose the abolition of the License Tax, to recast it, or even, should "such a course appear desirable when the financial arrangements for the year 1883-84 "come under consideration, to allow it to continue in existence in its present form for a "while longer."

*Situation of Government.*

226. I quote these words now in order to show that the hands of the Government are perfectly free in dealing with this question. We have recognised that the tax is objectionable, and that it cannot in its present form be incorporated into the permanent fiscal system of the country. But beyond this we have given no pledges whatever, whether in respect to the nature of the changes which will eventually be made in the existing laws regulating this subject, or in respect to the time when they shall be made.

*No present change.*

227. In the Financial Statement last year (para. 245) I alluded to the defects in the existing system under which the License Tax is levied. I need not, therefore, repeat what I then said. I will only say that, after full consideration, the Government has decided not to propose any change in the existing system for the present.

228. Nothing can be more undesirable in India than to introduce frequent changes in the fiscal system. The evils arising from the present system under which the License Tax is levied are emphatically such as it would be preferable to endure, rather than to remedy, unless some remedy can be applied with a reasonable confidence that no further change will in the immediate future be necessary. There are, moreover, some special considerations which point to the desirability of making no changes in the fiscal system at present. The financial year which is about to close has presented features which are altogether abnormal, and, even if this had not been the case, the experience of a year is not sufficient to enable any very correct judgment to be formed as to the ultimate effect of the large fiscal reforms which were carried out in March

1882. The future of Silver and of Opium is also very uncertain. On every ground, therefore, the present moment is a time when great caution should be exercised. Under these circumstances the Government, after full consideration, is of opinion that the wisest course to adopt will be to make no changes in the existing fiscal system, but to allow more time to elapse with a view to watching the effect of those reforms which have been already effected.

*ernment oes its dom of action.*

229. It will, of course, be clearly understood that, in dealing with the License Tax, the Government reserves to itself complete liberty of action in the future, and that I can give no definite pledge as to the course which will be eventually pursued.

## X.—Stock Notes and Post Office Savings Banks.

**ck Notes f Post Office ings Banks.**

230. It will be remembered that about a year ago two schemes were introduced with a view to affording safe investments to the poorer classes. The first was the issue of Stock Notes. The second the establishment of Post Office Savings Banks.

*Stock Notes.*

231. Projects analogous to that of the Stock Note scheme had frequently been discussed in previous years, and various opinions, both official and unofficial, had been expressed on the subject. It was thought that the experiment was worth trying. In one District of the Central Provinces, in a portion of the North-West Provinces and Oudh, and in the whole of the Punjab, the right of selling Stock Notes was in the first instance temporarily reserved to monopolists. In the remaining provinces sales were effected only through the Civil Treasuries. More recently, in addition to the Civil Treasuries, the agency of the Post Office has been employed in the sale of the Notes. The result has been that Stock Notes to the value of £162,900 have been sold during the year. It is no matter for surprise that sales to a larger amount should not have been effected. The idea was a novel one, and it was not to be expected that, in a country like India, it would readily take root. Although more than 20 years have elapsed since Currency Notes were introduced into India, a very large part of the population still fails to appreciate their utility. Moreover, although the original plan was very carefully elaborated, experience alone could show whether all the details of the scheme were suitable to the circumstances of the country. Shortly after the issue of the Notes, many useful criticisms were made in connection with the scheme. It was, however, not thought desirable to effect any immediate changes in the plan which was originally adopted. A year has now nearly elapsed since the first issue of the Notes. The various suggestions and criticisms which have been made will, therefore, shortly be considered with a view to deciding whether any modifications in the details of the existing scheme are necessary or desirable.

232. Prolonged experience can alone show whether the scheme will ultimately take root in the country. In the meanwhile all that can be said is that it is worth while to continue the experiment.

*Office Savings Banks.*

233. Post Office Savings Banks were opened over a portion of India on April 1st, 1882. Owing to the vested rights of the Bank of Bombay, it was not possible to introduce the scheme in the Bombay Presidency, and in the Madras Presidency it was only introduced in the rural districts, to the exclusion of the large towns. Nor was the scheme introduced in the Presidency town of Calcutta. Arrangements have now been made with the Bank of Bengal and with the Bank of Bombay, which will allow of the introduction of the scheme into Calcutta and into the Bombay Presidency.

234. The results attained over the limited area in which Post Office Savings Banks have been opened are as follows. In the nine months ending December

31st, 1882, 31,698 accounts were opened, of which 2,928 were by Europeans and Eurasians and 28,770 by Natives of India. The balance in deposit on December 31st was £207,876.* It is worthy of observation that 91 per cent. of the depositors were Natives and only 9 per cent. Europeans and Eurasians. In the case of District and Presidency Savings Banks the proportion, taking the figures of the year 1881-82, was 62 per cent. of Native, and 38 per cent. of European and Eurasian depositors.

**235.** It is satisfactory to note that the establishment of Post Office Savings Banks has not led to any diminution in the deposits heretofore made in the District and Presidency Banks. The net operations of those Banks during the nine months ending with December 31st, 1882, show an increase of the balance in deposit of £60,500 over the balance on April 1st, 1882.

**236.** If we add together the amount of Stock Notes issued during the first nine months of the current financial year and the amount deposited in the Savings Banks, we arrive at a total of £431,300. From the point of view of comparison with some European countries, this amount is no doubt small in proportion to the population. But I do not think that any one acquainted with the condition of society in India would have expected more rapid progress.

| | £ |
|---|---|
| Stock Notes . . . . . | 162,900 |
| Post Office Saving Banks . . | 207,900 |
| District and Presidency Saving Banks | 60,500 |
| TOTAL . | 431,300 |

## XI.—Ways and Means.

**237.** In the Financial Statement of last year (para. 267) I stated that if no loan for Productive Public Works were raised during the year, the balance on March 31st, 1883, would probably be £10,848,000. **Ways and Means.**

**238.** This estimate was based on the assumption that the Secretary of State would draw Bills to the extent of £15,342,000 (true sterling) on the Indian Treasury in the course of the year 1882-83. *Drawings of 1882-83.*

**239.** I have already explained (para. 142) that, on the one hand, the Secretary of State's drawings were diminished by £1,300,000 (true sterling), owing to the large drawings in March 1882, and owing to the transactions connected with the Southern Mahratta Railway Company, and that, on the other hand, it is proposed to draw an additional £1,000,000 (true sterling), in order to reduce sterling debt in England. Thus the total amount of Secretary of State's drawings during the year 1882-83 will, it is estimated, be £15,042,000 (true sterling).

**240.** The balances have been increased during the year by the excess of revenue over expenditure beyond the amount for which credit was taken in the Budget, and also by a loan of £2,500,000 (nominal) which, as it was taken up at an average price of Rs. 98-14·7, yielded £2,472,979.

**241.** On the other hand, the balances have been diminished by the abnormal expenditure on account of the Egyptian expedition amounting, in India, to £1,179,200 and by the high expenditure under *Exchange* due to the fall in the value of the rupee.

**242.** The net result of all these operations is that the balance on March 31st, 1883, is now estimated at £13,840,000. *Balance on March 31st, 1883.*

**243.** I now turn to the question of the Ways and Means for the year 1883-84. *Ways and Means, 1883-84.*

* On March 3rd, 1883, the balance in deposit in the Post Office Savings Banks amounted to £248,000. Information as regards the classification of depositors is not at present available for any date later than December 31st, 1882.

*Publicity as regards Loan operations.*

244. Complaints are occasionally made in India on the ground that the Government does not keep the public sufficiently informed in respect to its intentions in the matter of loan operations. I beg to assure those who are interested in this subject that the Government is fully alive to the desirability on every ground of announcing its intentions on this subject at as early a date as possible. We have no wish whatever to keep the public in suspense in this matter a day longer than is necessary. On the other hand, I must again draw attention to the remarks I made on the occasion of the last Financial Statement (para. 271). The operations of the Government of India are so large and varied, and so many unforeseen circumstances are liable to arise during the year, that to estimate in advance the cash requirements of the Government for twelve months must always be a matter of very great difficulty. Indeed, I may go further and say that, even under normal circumstances, it is quite impossible for the best-informed person to say how far the Estimates of the Revenue and Expenditure of the year are likely to be realised until about the end of the month of September, by which time it may be said that the general result of the harvest, which depends mainly on the south-west monsoon, can be stated with some sort of accuracy. I conceive that nothing would be more calculated to exercise a disturbing influence on the market than that any premature announcement should be made of the intentions of the Government, and that subsequently there should be a change in those intentions I may add that the uncertainty in connection with the probable cost of the Egyptian Expedition, which, of course, depended largely on the course of events in Egypt, rendered any early announcement of the final intentions of the Government last year especially difficult.

*Statements published in the Gazette.*

245. In connection with this subject I should wish to draw attention to the Statements published in the *Gazette of India* about the 10th of each month, and which give, under a few main heads, the latest information in the possession of the Government as to the Revenue and Expenditure up to the last day of the month immediately preceding. An examination of those Statements will give an approximate idea of the extent to which, as the year goes on, the Estimates of Revenue and Expenditure are being realised. It is possible that the form in which these Statements are published might be improved. So far as I am aware they have not up to the present time attracted much attention, but if the result of these remarks should be to attract greater attention to them in the future, and if it be found that, in its present form, the monthly Statement is not readily comprehensible, the possibility of improving the form will be considered.

*Loan in 1883-84.*

246. It will be necessary to raise the usual loan for Productive Public Works in the course of the year. The present intention of the Government is to borrow £2,500,000 in India. The rate of interest will, as usual, be 4 per cent. Full particulars as regards the date on which tenders will be accepted, &c., &c., will be issued on or about July 16th.

247. In dealing with the amount of the Secretary of State's drawings (para. 208) and with the loan operations, which are contemplated during 1883-84 (para. 246) I speak subject to the usual reserve, that is to say, that the announcements I now make—

"are subject to modification as the year goes on; the Government must not be understood to pledge itself that the Secretary of State will raise by Bills the exact amount stated; or that the amount stated will be borrowed during the year; or that it will be borrowed in India or England, as the case may be."

248. Whilst making this reserve, I may add that it is absolutely certain that the loan of £2,500,000, to which I have already alluded, will be contracted.

The only possible modification is, that in the event of any unforeseen contingency arising, such as war or famine, it might be necessary to borrow more. I have at present no reason whatever to believe that it will be necessary to borrow more than £2,500,000. But it must be clearly understood that the Government reserves complete liberty of action to itself in the event of any contingency arising which cannot now be foreseen.

*Balance on March 31st, 1884.*

**249.** The balance on March 31st, 1884, is estimated at £11,697,000, but this is a very low Estimate and, unless anything unforeseen occurs, it will probably be exceeded.

## XII.—Conclusion.

**Summary of Financial Statement**

**250.** It may be convenient that I should summarize the main features of the present Financial Statement. They are as follows:—

*Forms of Account.*

(1) The forms in which the Accounts and Estimates are now presented to the public have been revised and simplified (paras. 7—66).

*Accounts of 1881-82.*

(2) The Accounts of 1881-82 show a surplus of £2,582,727 (paras. 67—71).

*Trade of 1882-83.*

(3) The volume of the import trade in those articles relieved from duty in March 1882 has in the ten months, from April 1st, 1882, to January 31st, 1883, increased by about 7¼ per cent. (paras. 72—94).

*Price of Salt.*

(4) There has been a general fall in the retail price of Salt since the duty was reduced. The amount of the fall in the different provinces ranges generally from about 13 to 23 per cent. (paras. 95—100).

*Consumption of Salt.*

(5) The consumption of Salt since the reduction of the duty has increased by about 6½ per cent., representing a revenue of about £320,000 (paras. 95—116).

*Egyptian Expedition.*

(6) The net cost of the Egyptian Expedition during the year 1882-83, after deducting the £500,000 (true sterling) contributed by the English Government, is estimated at £797,000 (para. 131).

*Opium, 1882-83.*

(7) The net Opium Revenue of 1882-83 is now estimated at £7,217,000, being £33,000 less than the Budget Estimate (para. 133).

*Exchange, 1882-83.*

(8) The Expenditure under *Exchange* during 1882-83 is now estimated at £341,000 in excess of the Budget Estimate (para. 142).

*Reduction of Debt.*

(9) A sum of £1,000,000 (true sterling) will be remitted home during the year 1882-83 and will be applied to the reduction of Sterling debt in England (para. 139).

*Surplus, 1882-83.*

(10) The Revised Estimates for 1882-83 show a surplus of £60,000 (para. 144).

*Railway rates.*

(11) With a view to stimulating the export trade, the through railway rates on wheat and other grains and seeds from Delhi and Agra and Bombay have been reduced by 18½ per cent., equivalent, so far as wheat is concerned, to a reduction of 1*s.* 6*d.* per quarter in the London market. This step will no doubt be followed by corresponding reduction of rates on the East Indian Line (paras. 153—194).

*License Tax.*

(12) No further fiscal changes are proposed in connection with the financial arrangements of the year 1883-84. The License Tax remains unchanged (paras. 225—229).

*Opium, 1883-84.*

(13) The net Opium Revenue for 1883-84 has been taken at £7,035,000, being £215,000 less than the Budget Estimate of 1882-83 (para. 205).

*Bengal Opium.*

(14) The amount of Bengal Opium which will be offered for sale up to the end of March 1884 will be regulated by the terms of the Notification of June 28th, 1882. The amount which will be offered for sale from April to December 1884, both months inclusive, will be notified about the beginning of July 1883 (paras. 206—207).

*Exchange, 1883-84.* (15) In the Estimates for 1883-84 the value of the rupee has been taken at 1*s.* 7⅛*d.*, and the Expenditure under *Exchange* at £773,000 in excess of the Budget Estimate for 1882-83 (para. 208).

*Surplus, 1883-84.* (16) The Budget Estimates for 1883-84, which have been very cautiously framed, show a surplus of £457,000 (para. 218).

*Drawings, 1882-83.* (17) The Secretary of State's drawings during 1882-83 are now estimated at £15,042,000 (true sterling) (paras. 142 and 239), of which £14,184,000 (true sterling) had been drawn up to March 9th, 1883.

*Drawings, 1883-84.* (18) The Secretary of State's drawings during 1883-84 are estimated at £16,300,000 (true sterling) (see para. 208)

*Loan of 1883-84.* (19) The usual loan for Productive Public Works will be contracted in India during the year 1883-84. The amount, unless any unforeseen contingency should arise, will be £2,500,000. The rate of interest will be 4 per cent. Further particulars in connection with the loan will be issued on or about July 16th, 1883 (paras. 246—248).

*Cash Balance, March 31st, 1883.* (20) The cash balance on March 31st, 1883, is estimated at £13,840,000 (para. 242).

*Cash Balance, March 31st, 1884.* (21) The cash balance on March 31st, 1884, is estimated at £11,697,000 (para. 249), but this is a very moderate Estimate, and it will probably be exceeded.

*Opium prospects, 1884-85.* (22) The accounts of the Opium crop in Bengal and North-West Provinces are unsatisfactory, and it is probable that in 1884-85 the Opium Estimate will have to be taken at a lower figure than that shown in the Budget Estimates for 1883-84 (para. 223).

E. BARING.

*Calcutta, March 15, 1883.*

*Secretary to the Government of India.*

# APPENDIX IV.

## MEMORANDUM ON PROVINCIAL AND LOCAL SURPLUSES AND DEFICITS.

# APPENDIX IV.

## Memorandum on Provincial and Local Surpluses and Deficits.

I observe, both from the debate in the House of Commons on the Indian Financial Statement, and from the comments in the English and Indian Press, that some difficulty is experienced in fully understanding the adjusting entries which appear in the Indian Accounts and Estimates of Revenue and Expenditure under the head of "Provincial and Local Surpluses and Deficits." This is no matter for surprise, for the entries represent, in fact, transactions which are somewhat complicated, and which it is, not unnaturally, difficult for any one not thoroughly conversant with all the details of the Indian financial system to understand fully.

The following illustration may perhaps serve to place the matter in a clear and intelligible light:—

A has three sons, B, C, and D. A, B, C, and D keep their balances at one banker, and the whole are merged in one account standing in A's name. On January 1st, 1882, the total balance standing to A's credit was £200,000, which was divided thus:—

| | £ |
|---|---|
| Belonging to A | 100,000 |
| „ B | 50,000 |
| „ C | 30,000 |
| „ D | 20,000 |
| TOTAL | 200,000 |

A estimates his total income for 1882 at £120,000. His expenditure he estimates as follows:—

| | £ |
|---|---|
| A's personal expenditure | 50,000 |
| Allowance granted by A to B | 25,000 |
| Ditto A to C | 15,000 |
| Ditto A to D | 10,000 |
| Leaving a surplus belonging to A of | 20,000 |
| TOTAL | 120,000 |

On January 1st, 1882, B gives A notice that, besides spending his allowance for the year (£25,000), he wishes to draw on his balance of £50,000 to the extent of £10,000.

C at the same times gives notice that during the year he will spend exactly the amount of his allowance, and will neither draw on his balance of £30,000, nor increase it during the year.

D at the same time gives notice that during the year he will only spend £9,000, out of his allowance of £10,000, thus increasing his balance, which stood on January 1st, 1882, at £20,000, by £1,000.

The joint Revenue and Expenditure Account of A, B, C, and D for the year will, therefore, stand thus:—

| REVENUE. | £ | EXPENDITURE. | £ | £ |
|---|---|---|---|---|
| A's income | 120,000 | A's personal expenditure | | 50,000 |
| | | B's expenditure— | | |
| | | Allowance for the year | 25,000 | |
| | | Add drawn from balance | 10,000 | |
| | | | | 35,000 |
| | | C's expenditure | | 15,000 |
| | | D's expenditure— | | |
| | | Allowance for the year | 10,000 | |
| | | Deduct saving during the year | 1,000 | |
| | | | | 9,000 |
| | | Surplus | | 11,000 |
| | | | | 120,000 |

And the joint Cash Account of A, B, C, and D will stand thus :—

| *Cr.* | £ | *Dr.* | £ | £ |
|---|---|---|---|---|
| Balance on January 1st, 1882 | 200,000 | Expenditure during 1882— | | |
| A's income for 1882 | 120,000 | A | 50,000 | |
| | 320,000 | B | 35,000 | |
| | | C | 15,000 | |
| | | D | 9,000 | |
| | | | | 109,000 |
| | | Balance on December 31st, 1882 | | 211,000 |
| | | | | 320,000 |

It is clear that the Revenue and Expenditure Account given above does not accurately represent the result of the year's finance to A considered by himself. A is to receive altogether £120,000 during the year, of which he has alienated £50,000 to B, C, and D, leaving £70,000 for his own expenditure. As a matter of fact, he only intends to spend £50,000 during the year, thus leaving himself a surplus of £20,000, and not of £11,000, as shown above. The difference of £9,000 arises from the following facts :—(1) That on the Expenditure side of the Account a sum of £10,000 appears, being the amount in excess of his allowance (£25,000), which B proposes to expend in the year; and (2) that on the Revenue side of the Account full provision is made for the annual grant of £10,000 to D, whereas on the Expenditure side of the Account provision is only made for an expenditure of £9,000 on the part of D. If, therefore, we wish to arrive at a knowledge of A's surplus for the year, we must add to the £11,000 given above the amount of £10,000 by which B has drawn on his balance, and we must deduct £1,000, being the amount by which D's expenditure (£9,000) for the year is less than his annual income (£10,000). This sum of £1,000 really constitutes a debt due by A to D. When these adjustments have been made, we arrive at A's true surplus, thus :—

| | £ | £ |
|---|---|---|
| Surplus as shown above | | 11,000 |
| *Add* expenditure of B in excess of annual grant | 10,000 | |
| *Deduct* amount by which D's revenue is in excess of his annual income | 1,000 | |
| Total *addition* | | 9,000 |
| A's surplus | | 20,000 |

Turning to the Cash Account given above, it is clear that, regarding the joint accounts of A, B, C, and D together, the balance during the year has been increased by £11,000, *viz.*, from £200,000 to £211,000. But the distribution of the balance at the close of the year between A, B, C, and D will be different to what it was at the commencement. A's and D's balances will have increased, as they will have spent, the former £20,000 and the latter £1,000 less than their income for the year. B's balance will be reduced, as he will have spent £10,000 more than his annual income. C's balance will have remained unchanged, as he will have spent the exact amount of his annual income. I will presently show how the balance of each will stand.

Now, A is under an obligation to produce a Revenue and Expenditure Account for the year, which shall show (1) the total amount he receives, including the grants made, or, which is the same thing, the revenues alienated, to B, C, and D; and (2) the total amount of expenditure incurred by A, B, C, and D. It is also necessary to show in this Account the net result of the year's finance to A only, who is the most important partner in the concern, leaving the net results of the year's finance to B, C, and D to be shown in separate accounts.

This object is effected by compiling the account in the following manner :—

| *Revenue.* | £ | £ | *Expenditure.* | £ | £ |
|---|---|---|---|---|---|
| A . . | 70,000 | | A . . | 50,000 | |
| B . . | 25,000 | | B . . | 35,000 | |
| C . . | 15,000 | | C . . | 15,000 | |
| D . . | 10,000 | | D . . | 9,000 | |
| | | 120,000 | | | 109,000 |
| *Deduct* the amount by which B has exceeded his income for the year, *i.e.*, B's *deficit* . . . . . | | | | 10,000 | |
| *Add* the amount by which D's income for the year has exceeded his expenditure, *i.e.*, D's *surplus* . . . . . | | | | 1,000 | |
| Total *deduction* . . . | | | | | 9,000 |
| Leaving A's expenditure, inclusive of the grants made during the year to B, C, and D . . . . . | | | | | 100,000 |
| A's surplus is, therefore, . . . . . | | | | | 20,000 |
| | | | | | 120,000 |

Turning to the Cash Account, the joint balance will, as I have already shown, be increased during the year from £200,000 to £211,000. The separate Accounts will stand thus :—

*A's Cash Account.*

| Cr. | £ | | Dr. £ |
|---|---|---|---|
| Balance, January 1st, 1882 . | 100,000 | Expenditure, 1882 . . . | 50,000 |
| Revenue, 1882 . . . . | 70,000 | Balance, December 31st, 1882 . | 120,000 |
| | 170,000 | | 170,000 |

*B's Cash Account.*

| Cr. | £ | | Dr. £ |
|---|---|---|---|
| Balance, January 1st, 1882 . | 50,000 | Expenditure, 1882 . . . . | 35,000 |
| Revenue, 1882 . . . . | 25,000 | Balance, December 31st, 1882 . | 40,000 |
| | 75,000 | | 75,000 |

*C's Cash Account.*

| Cr. | £ | | Dr. £ |
|---|---|---|---|
| Balance, January 1st, 1882 . | 30,000 | Expenditure, 1882 . . . | 15,000 |
| Revenue, 1882 . . . . | 15,000 | Balance, December 31st, 1882 . | 30,000 |
| | 45,000 | | 45,000 |

*D's Cash Account.*

| Cr. | £ | | Dr. £ |
|---|---|---|---|
| Balance, January 1st, 1882 . | 20,000 | Expenditure, 1882 . . . | 9,000 |
| Revenue, 1882 . . . . | 10,000 | Balance, December 31st, 1882 . | 21,000 |
| | 30,000 | | 30,000 |

If A be regarded as the Government of India, B, C, and D as the Provincial Governments, B's deficit of £10,000 as the entry "Provincial and Local Deficits," and D's surplus of £1,000 as the entry "Provincial and Local Surpluses," a correct idea will be gained of the precise nature of the adjusting entries which appear in the Accounts and Estimates of the Government of India under the head of "Provincial and Local Surpluses and Deficits."

E. BARING.

*Memorandum on the Import of Government Stores from Europe.**

1. As regards Government stores, the returns for the ten months ending January 31st, 1883, compared with the corresponding period of the year 1881-82, show reductions, to a greater or less extent, in the following articles :—

Apparel.
Carriages and carts.
Drugs and medicines.
Hardware and cutlery.
Instruments and apparatus.
Leather and leather-goods (boots, shoes, &c.)
Malt liquor.
Machinery and mill-work.
Railway plant and rolling-stock.
Parts of ships.
Woollen piece-goods.

In malt liquor and leather and woollen-goods the reductions are particularly noticeable. In these cases and of all the others above mentioned, except machinery and railway material, the reductions are certainly due to the substitution of Indian goods of similar kinds for articles heretofore imported from Europe.

2. On the other hand, there have been increases, more or less large, in the following articles :—

Arms and Ammunition and Military Stores.
Chemical products.
Coal.
Cotton piece-goods.
Flax goods (canvas, &c.)
Spirits and wines.
Metals of all kinds.
Paper and stationery.
Telegraph materials.

With the exception of paper and stationery these are either goods of a class not now made in the country, or they are required at places where Indian goods cannot be laid down as cheaply as imported goods. For instance, English coal is cheaper at Kurrachee than Indian coal. The cotton piece-goods imported are generally of a kind not yet made in India.

3. The increase in paper and stationery is more apparent than real. The Superintendent of Stationery for two or three years bought his paper and stationery in the market under orders from the Government of India, and his purchases appeared during that time under the head of General Trade, not under Government Stores. This practice having been stopped and, paper and stationery now coming from the Store Department of the India Office, the European supplies of the Stationery Office now appear under Government Stores. Some progress is being made in the manufacture of paper in India, but it has as yet unfortunately been only found possible to make the coarser kinds of paper used by the Government.

4. The total of the whole imports of Government Stores for the ten months compared with the corresponding period of 1881-82 show a reduction of from £1,806,552 to £1,744,747, or £61,805. Some gradual progress is thus being made in the direction of substituting Indian-made articles for those of English manufacture; but it will not be possible to make any very sensible impression upon the total amount of stores imported from England until iron work and machinery, equal in quality and not superior in price to the English articles, can be manufactured in India.

*March 1st, 1883.* E. BARING.

* On this subject see also General Wilson's Minute Appendix VI., p. 110).

# APPENDIX VI.

# THE MILITARY BUDGET ESTIMATES, 1883-84.

## MINUTE

BY

LIEUTENANT-GENERAL THE HON'BLE F. T. WILSON, C.B.

# APPENDIX VI.

## The Military Budget Estimates, 1883-84.

*Minute by Lieutenant-General the Hon'ble T. F. Wilson, C.B.*

The estimated net cost of the army in India for the financial year 1883-84 is £11,194,000, being £95,700 less than what it was for the current year.

In the face of the reductions carried out in the native army last year, this result may at first appear disappointing, but examination of the different items will remove this idea, and show that there is no cause for other feeling than that of satisfaction with the accounts generally.

In considering the subject, it must be kept prominently in view that, although a large reduction in the number of regiments was made during the past year, still no reduction in the total number of fighting men was effected. On the contrary, the reverse is the case; for, while the number of corps was reduced, the strength of those to be maintained was increased:—infantry from 712 to 832 of all ranks in each of the corps, other than the five Goorkha regiments, which, with the sanction of the Secretary of State, are maintained at an extra strength of 912 of all ranks:—and cavalry from 457 to 550, with the exception of the Madras Cavalry, which remains unchanged.

Thus the total establishment of the three native armies in India is 111,411, or 436 men *in excess* of what it was before the reduction of the regiments took place.

The previously existing total number of British officers has been maintained much as before by the addition of one to each regiment of cavalry and infantry, whereby only ten regimental officers, excluding medical officers, have been reduced.

Thus the changes have resulted in a very small reduction in the strength of officers, and a material increase in the aggregate numbers of the rank and file of the regiments retained, while a large saving, estimated altogether at £103,183, has been effected. As foretold last year, however, a considerable portion of these savings has been absorbed by the payment of gratuities, compensation, and pensions to officers and men of the corps reduced. The compensation and gratuities have been paid, and there will be no further claims to meet on this account; but the pensionary charges have been largely increased. This abnormal charge will gradually be reduced as the pensioners decrease; still for some years to come there will undoubtedly be a large sum needed to meet the item No. 18, "Military Pensions."

The economical effects of the reforms carried out would have been more apparent but for two accidental and not to be foreseen circumstances.

The first refers to the settlement between the India Office and the War Office for non-effective charges which have gradually fallen into large arrears, with the result that the Secretary of State has now decided to pay off the amount due by spreading the payment of it over a number of years, commencing with an instalment of £100,000 as a first annual payment.

Secondly, a large increase has been required to Grant No. 10, consequent upon the unpleasant discovery that for some time past the ammunition factory at Kirkee has been turning out imperfect ammunition, large quantities of which have been condemned, and to meet the loss we have had to materially increase the outturn of the ammunition factories in order to complete the reserves.

Thus, had it not been for the arrears due to the War Office, and the defects discovered in the ammunition manufactured at Kirkee, a much larger saving would have been exhibited,—a saving which has been effected in conjunction with changes resulting in increased efficiency and strength.

There has been no change in the number of regiments and batteries on the establishment of the British troops in India, but there is a trifling increase in the total strength of men.

Going further into detail, I would observe that in Grant No. 5, "Remount and cattle supplies and service," there is an increase of £59,196. This is due to the unusually large number of horses required to meet annual waste and complete the reserve, an exceptionally small number of remounts having been purchased during the current financial year. We were too sanguine last year, and should have bought more horses, but it was a fault on the right side, and the keep of these extra horses for the better part of a year has been saved.

There is also an increase in Grant No. 6, "Clothing." This is caused by the provision of a large sum (£16,300) which will become due to Messrs. Cooper and Allen, local contractors, for their first supply of country-made boots for the army. This payment will, however, cause a corresponding decrease in the home charges.

Grants 3 and 9, "Regimental pay, allowances and charges" and "Medical establishment, service and supplies," must be considered together, because, while the former shows a decrease of very nearly £255,000 lakhs, the latter records an increase of £70,467, the saving on both Grants combined being £184,519,— a result mainly due to the reduction of regiments and establishments and the Army Medical Department. The complete introduction of the station hospitals in place of the regimental hospitals has also contributed to this very large decrease in military expenditure.

Under the head of Grant 10, "Ordnance establishment, stores and camp equipage," there is an increase which is accounted for by the necessity for replacing the faulty ammunition manufactured at Kirkee, and to which reference has already been made. There is also an increase of £11,000 for camp equipage in Bengal and Madras. In Madras, however, the increased charges for camp equipage are counterbalanced by the abolition of the depot at Nagpore, and reductions in the Gunpowder Factory at Madras and the depot at the Mount. The increase includes £5,800 provided for the purchase, in the local market, of canvas for the Ordnance Department, Bombay. There will be a corresponding decrease in the home indent.

The excess over last year's budget estimate in Grant 13, "Sea transport charges," is chiefly due to an increase of £5,800 in the charges for the Indian trooping service, the estimate for 1882-83 having proved too low.

The saving in Grant 4, "Miscellaneous Services," would have been larger but for the necessity which has arisen for providing for a camp of exercise at Bangalore,—a measure which has been strongly urged upon the Government of India by the local Commander-in-Chief and the Commander-in-Chief in India, it being considered very desirable to give the Madras army the advantage of instruction in field duties and some of the more important operations which would devolve upon officers, soldiers, and departments under the conditions of war.

In Grant No. 15, "Volunteers," provision is made for the additional sum of £3,362. This increase is a welcome one, being rendered necessary by the considerable increase to the number of volunteers in India which has taken place during the past year.

Under the head of Grant 17, "Retired Officers," there is a small increase made in order to provide for the possible payment to officers in India of com-

muted pensions. But it must be remembered that, whilst this increases expenditure in India, it proportionably decreases home charges.

Grant No. 18, "Military Pensions," exhibits increased expenditure. This is on account of pensions due to the Afghan war, and the recent large reductions in the native army.

Such briefly are the principal variations in the items of military expenditure in India, the net decrease on the whole being, as compared with the estimates of last year, £95,700.

Efforts to reduce military expenditure in India have not been confined to the native army. The number of siege guns to be maintained has been reduced by 45 pieces, with a corresponding reduction of 179 bullocks required for their transport. The ordnance depots at Peshawar, Belgaum and Nagpore have been abolished, while large reductions have been effected in the depot at St. Thomas' Mount, Madras.

In the explanation relative to military expenditure in India, which I gave last year, I referred to the intention to immediately extend to the other presidencies the station hospital system, by means of which one British hospital takes the place of several in a cantonment. This measure, which has been found to work admirably, has, during the past year, been further developed, with the result that the Army Medical Department has been further reduced, the strength in officers being now 300 as compared with the old establishment of 373 officers exclusive, in both cases, of the administrative grades.

The Subordinate Medical Department has also been reduced by ten assistant apothecaries, and there are other contemplated changes which are calculated to further reduce expenditure; but their financial effects cannot, at present, be estimated. Reductions in the same direction will follow in the Bombay and Madras establishments.

The married establishment of British soldiers has been fixed at—

| | |
|---|---|
| Warrant officers | All. |
| Non-commissioned officers | All. |
| Royal Artillery | 8 per cent for 5 years, then 6 per cent. |
| Infantry | 4 per cent. |

A considerable portion of the reduction on this account has already taken place.

The estimate provides for the following sanctioned changes:—

(*a.*)—Increase in the establishment of non-commissioned officers in heavy and field batteries.

(*b.*)—Grant to quartermasters and riding-masters of British troops of the increased allowance due to the changes in their relative rank.

(*c.*)—Improvement in the position of the native non-commissioned officers by the grant to them of good-conduct pay.

(*d.*)—Formation of two army hospital corps for Madras and Bombay, similar to the one adopted in Bengal; and the appointment of an apothecary to supervise the detailed administration of the Bengal army hospital corps.

(*e.*)—A considerable increase in the amount of practice ammunition for all the troops, European and native.

In addition to the above, the new transport scheme, which has been fairly started in all three presidencies, has been provided for.

The late war in Afghanistan forcibly brought to light many imperfections in our old system of transport, with its attendant enormous expenditure consequent on the want of a proper organisation during a period of peace, and

incapability of rapid expansion when war took place. For some time past this subject has been under the consideration of the Government, and during the past summer the Secretary of State has sanctioned proposals which provide for the equipment of the troops protecting the various frontiers with half transport on service scale, also for certain forces which will be held ready for local service or despatch to a distinct point, the approximate numbers of which are in all 46,000 men.

Under this scheme the country is divided into circles, each with a depot centre, where a certain amount of transport is to be kept on a peace footing, capable of expansion in time of war. Training depots are provided for at the largest stations in India, where detachments will be sent, so that officers and men may go through a course of transport training.

Power is given to mobilise forces as follows within the provincial areas :—

| | Men. |
|---|---|
| Punjab | 10,000 |
| Bengal | 10,000 |
| Bombay | 8,000 |
| Madras | 5,000 |

Arrangements are being made by which the resources of the country in transport will be known, so that it will be easy, at short notice, to supplement the transport in time of need to meet the requirements of war.

The total approximate amount of transport to be maintained in India will be as follows :—

| | |
|---|---|
| Elephants | 600 |
| Camels, Government | 396 |
| ,, hired | 2,500 |
| Mules, Government | 8,100 |
| Pack bullocks | 1,000 |
| Army transport carts | 1,300 |

Equivalent to a maundage of 51,000 maunds.

A permanent staff for the supervision of the above is provided as follows :—

*Bengal.*

1 Deputy Commissary-General, Transport.
1 Assistant Commissary-General, Transport.
2 Deputy Assistant Commissaries-General, Transport.
2 Deputy Assistant Commissaries-General, Transport, 2nd class.
5 Sub-Assistant Commissaries-General.

11 Commissioned officers.

*Madras.*

1 Assistant Commissary-General.
2 Deputy Assistant Commissaries-General.
2 Sub-Assistant Commissaries-General.

5 Commissioned officers.

*Bombay.*

1 Assistant Commissary-General.
1 Deputy Assistant Commissary-General
2 Sub-Assistant Commissaries-General.

4 Commissioned officers.

The following subordinate establishment has also been provided :—

*Bengal.*

1 Deputy Assistant Commissary.
5 Conductors.
7 Sub-Conductors.
10 Sergeants.

23 Total.

*Madras.*

2 Conductors.
3 Sub-Conductors.
5 Sergeants.

10 Total.

*Bombay.*

1 Conductor.
1 Sub-Conductor.
3 Sergeants.

5 Total

Provision has been made for the cost of this establishment, for equipment, repairs to buildings, allowances to regimental transport staff, pension to inferior servants, &c. The total cost will be about £280,000 per annum.

The old movable column system has been abolished, as it was found an expensive and comparatively useless arrangement. The carriage kept up under that system could not be readily mobilised, and the new transport service will be much more efficient and less expensive.

Consequent on there having been a surplus of mules over requirements, the transport service has been started (since the conclusion of the Egypt war) with selected animals throughout, and both they and their equipment are in first rate order.

An efficient ambulance service in connection with the transport service is being organised in each of the presidencies, which will, it is hoped, provide the army with a percentage of sick transport and equipment on a sounder footing than hitherto and at no additional cost to the State.

The introduction of the new transport service into the Madras and Bombay presidencies has been rendered an easy matter owing to the cordial co-operation of the local authorities in meeting the wishes of the Government of India.

The new scheme, though not at the time nearly completed, has had full trial during the late war in Egypt, for while only in course of formation, it was called upon suddenly to supply carriage for 13,201 fighting men and followers and 5,915 animals, with officers and drivers complete. These proceeded to Suez at the worst period of the monsoon weather, in August and September of last year; and whilst in Egypt the entire success of the new pattern saddle, the completeness of the supervision provided, the advantage of trained attendants, and of regiments being instructed in loading and packing were fully exemplified.

For some time past the Government of India has recognised the need of applying a remedy to the stagnation in promotion which existed in the cavalry cadres of the three presidencies, and the consequent supersession in substantive rank of the local cavalry officers by the staff corps and general lists. To this end the Secretary of State has recently sanctioned measures for ameliorating the position of the cadre officers of the local cavalry lists suffering from

retarded promotion, especially in the junior grades, by allowing all the option of receiving staff corps rates of promotion with staff corps rates of pay on their waiving their claims to the higher cavalry pay when unemployed; those who accepted the above condition being also allowed to attain to colonel's allowances after 38 years' service. These measures have been recently introduced, and have removed all legitimate grounds of complaint, but the additional cost will hardly fall short of £7,000 yearly.

For this change, and all other changes enumerated above, full provision has been made in the estimate.

The fact that next year is leap year calls for a passing remark. The increase on this account for the extra day's pay and rations for British troops, and for the extra forage for horses, &c., is estimated roughly at about £6,000.

Turning to the home charges—

The estimate provides for £195,800 on account of changes which have been made under the orders of the home authorities. This sum is in excess of the budget estimate for 1882-83; the increase, however, being largely met by reductions aggregating £175,600, leaves a net increase of £20,200 as compared with the budget estimate of 1882-83.

The large decrease in the home charges which it was anticipated would result from the policy of substituting, as far as possible, local stores and supplies for articles hitherto imported, has been fully realised. The saving on this account is £124,100. In this direction of late years much has been done. The expenditure for home stores, including freight, which was in 1877-78 £1,154,460, is now estimated for the coming financial year at £504,800. Within the past five years reduction has been effected in this one account to the extent of £649,660.

The economy effected in the above item is, however, nearly all absorbed by the arrangement made at home to commence to liquidate the large arrears due to the War Office for non-effective charges, and £100,000 has this year been set aside as a first annual instalment of the debt.

Last year I pointed out that the charges for retired pay for officers of the Indian army would annually increase until the year 1897 is reached, and this year's estimate makes increased provision on this account. Indeed, these non-effective home charges and their annually increasing cost forcibly remind us of what was said by the Secretary of State for War in the House of Commons on the 24th June 1881, that it would not be before 1893 that the heavy dead weight which was due to that service would begin to diminish, and that meanwhile it would increase, and the automatic increase of pensions would continue whatever economies might be effected.

Such briefly are the remarks I desire to make on the Military Budget Estimate for the year 1883-84. Fully recognizing my responsibility for military expenditure, I have not accepted them without much criticism and examination, and they have caused me anxiety. But on the whole I am satisfied with them, because they maintain the British army at its normal strength in batteries and regiments, and they provide for an addition to the aggregate strength of the army, have provided each regiment with an additional British officer, and have effected a change in organisation which has brought about the elimination from the ranks of the Bengal army of the non-fighting classes, while adding to the establishment of the regiments retained men of the warlike classes. This has been done, and improvement in establishments has been gained at a considerable reduction of expenditure, while, consequent on the liberal concessions sanctioned by the Secretary of State to the men discharged, and the care exhibited by the military authorities, the changes have been carried into effect

without difficulty, and have been accepted by the army without a murmur, and without any of the disquieting effects which were by some anticipated.

Finally, I would say that, if Government are asked what proof they have that the efficiency of the army has been improved, and that the reduction of cadres has not gone too far, and too much reduced our military establishment, I reply, that, while we have reduced the number of our regiments, selecting in Bengal some of those which were almost wholly recruited from the least warlike of the classes in India, we have materially added to the strength of those maintained, have increased the European element in each, and made them capable of proceeding on service without extraneous aid from transfers to them; and that although the demand for Native troops for Egypt came to us at quite the most inconvenient moment it could have done, in July last, just as the reductions sanctioned by the Secretary of State had been carried out and the Government were some 7,000 men short of establishment, no difficulty was found in furnishing the required number of troops, and within eleven days of the receipt of the order directing sea transport to be engaged, the first detachment had sailed from Bombay, and was quickly followed by forty-six transports with troops, horses, followers, and land transport fully complete; and if another 5,000 men had been needed, the Government of India could without difficulty have provided them. This, I think, furnishes a satisfactory reply to those who have asserted that the reductions carried out last year went too far, and dangerously weakened our military strength in India.

(Sd.) T. F WILSON.

GOVERNMENT OF INDIA.

DEPARTMENT OF FINANCE AND COMMERCE.

APPROPRIATION REPORT ON THE ACCOUNTS OF 1881-82.

# GENERAL VIEW.

THE following abstract exhibits in a condensed form the results which are the subject of this report, the figures being pounds (£ 1 = Rs. 10) with the last two figures cut off for shortness' sake; thus 727,8 reads seven hundred and twenty-seven *thousand*, eight hundred pounds.

| Receipts. Budget. | Receipts. Accounts. | Revenue and Expenditure Account. | Outgoings. Budget. | Outgoings. Accounts. |
|---|---|---|---|---|
| | | A Interest . . . . | 4,247,0 | 4,558,1 |
| 51,570,0 | 53,654,4 | B Principal Heads of Revenue | 8,519,1 | 8,220,1 |
| 1,537,0 | 1,489,7 | C Post Office, Telegraph and Mint. | 1,765,0 | 1,771,7 |
| 1,396,0 | 1,513,1 | D Civil Administration . | 11,111,0 | 11,038,5 |
| 1,325,0 | 1,707,2 | E Miscellaneous . . | 3,816,9 | 4,044,6 |
| | | F Famine . . . | 1,500,0 | 1,500,0 |
| 9,380,0 | 10,782,1 | G Productive Public Works . | 9,680,0 | 9,649,0 |
| 665,0 | 727,8 | H Public Works not classed as Productive. | 7,168,0 | 6,393,5 |
| 3,875,0 | 3,821,5 | K Military . . . | 18,730,0 | 18,861,1 |
| | | L Exchange . . . | 3,063,0 | 3,556,7 |
| | | M Provincial Surplus + or Deficit — . . | —707,0 | +1,519,8 |
| | | Imperial Surplus . . | 855,0 | 2,582,7 |
| 69,748,0 | 73,695,8 | TOTAL . | 69,748,0 | 73,695,8 |

| Receipts. Budget. | Receipts. Accounts. | Other Transactions. | Outgoings. Budget. | Outgoings. Accounts. |
|---|---|---|---|---|
| 855,0 | 2,582,7 | Imperial Surplus as above. | | |
| ... | ... | N Productive Public Works Capital Expenditure. | 4,873,0 | 3,311,4 |
| 522,0 | ... | O Permanent Debt . . | ... | 466,9 |
| 1,836,0 | 335,9 | P Unfunded Debt . . | ... | ... |
| | | Q Deposits and Advances not bearing interest. | 3,296,0 | 141,0 |
| 102,0 | 195,2 | R Loans by Government | ... | ... |
| ... | ... | S Guaranteed and Subsidized Companies, Capital Accounts. | 516,0 | 502,4 |
| 850,0 | 877,5 | T Remittances . . | ... | ... |
| 17,200,0 | 18,412,4 | U Secretary of State's Bills . | 17,200,0 | 18,337,0 |
| 16,510,0 | 17,498,8 | V Cash Balance, April 1st | | |
| | | Do. March 31st | 11,990,0 | 17,143,8 |
| 37,875,0 | 39,902,5 | GRAND TOTAL . | 37,875,0 | 39,902,5 |

2. The details of all these figures will be found in the four statements attached to this Report, namely:—

1. General Statement of Estimates and Accounts.
2. Abstract A, shewing details of Revenue.
3. Abstract B, shewing details of Expenditure.
4. Abstract C, shewing details of Other Transactions.

3. I have first a few general remarks to make under the two heads "Comparson with the year 1880-81," and "Comparison of Accounts with Budget Estimates," and I shall then take up the figures, according to the sections lettered A, B, C, &c., in the above abstract.

## Comparison with the year 1880-81.

4. A comparison of the accounts of 1881-82 with those of 1880-81 shows the following figures in the Revenue side:—

| | 1880-81. | 1881-82. | Difference. + or — |
|---|---|---|---|
| Principal Heads of Revenue . | 52,702,3 | 53,654,4 | + 952,1 |
| Post Office, Telegraph and Mint | 1,647,3 | 1,489,7 | — 157,6 |
| Civil Administration . . | 1,468,2 | 1,513,1 | + 44,9 |
| Miscellaneous . . . | 1,985,9 | 1,707,2 | — 278,7 |
| Productive Public Works . . | 9,381,8 | 10,782,1 | +1,400,3 |
| Public Works not classed as Productive. | 745,2 | 727,8 | — 17,4 |
| Military— | | | |
| Ordinary Account . . | 924,1 | 814,0* | — 110,1 |
| War Account . . . | 3,297,6 | 3,007,5 | — 290,1 |
| | 72,152,4 | 73,695,8 | + 1,543,4 |

(* Assuming for reasons afterwards to be explained that all in excess of Budget estimate belongs to war account.)

5. The increase under Ordinary Revenue is mostly under Land Revenue and Excise, due in the latter case to a real increase of revenue, and in the former rather to collections of 1880-81 coming into 1881-82. Post Office, Telegraph and Mint all give worse revenue. The difference under Miscellaneous is chiefly an exceptional item that came into 1880-81. Under Productive Public Works a great increase of Railway receipts (see comparison with Budget) is the cause of the difference. In the war account the difference is chiefly that between the two portions of the English contribution brought to account in each year, *viz.*, 2,695,0 in 1880-81 and 2,305,0 in 1881-82.

6. The comparison on the expenditure side is as follows:—

| | 1880-81. | 1881-82. | Difference. + or — |
|---|---|---|---|
| Interest . . . . | 4,083,2 | 4,558,1 | + 474,9 |
| Principal Heads of Revenue . | 8,169,0 | 8,220,1 | + 51,1 |
| Post Office, Telegraph and Mint | 1,766,0 | 1,771,7 | + 5,7 |
| Civil Administration . . | 10,567,6 | 11,038,5 | + 470,9 |
| Miscellaneous . . . | 3,823,2 | 4,044,5 | + 221,3 |
| Famine . . . . | 34,5 | 1,500,0 | +1,465,5 |
| Carried forward . | 28,443,5 | 31,132,9 | +2,689,4 |

| | 1880-81. | 1881-82. | Difference. + or — |
|---|---|---|---|
| Brought forward . | 28,443,5 | 31,132,9 | +2,689,4 |
| Productive Public Works . . | 9,259,4 | 9,649,0 | + 389,6 |
| Public Works not classed as Productive— | | | |
| Ordinary Account . . | 5,099,1 | 6,168,9 | +1,069,8 |
| War Account . . . | 2,293,6 | 224,7 | —2,068,9 |
| Military— | | | |
| Ordinary Account . . | 16,717,7 | 16,459,0* | —258,7 |
| War Account . . . | 11,368,5 | 2,402,1 | —8,966,4 |
| Exchange . . . . | 2,716,8 | 3,556,7 | + 839,9 |
| | 75,898,6 | 69,593,2 | —6,305,4 |

(* Taking all excess over Budget as due to War.)

7. The expenditure under every head is more than in 1880-81. Under Interest we have a real increase in interest charges of about 130,0, debt, funded and unfunded being increased in 1880-81 by nearly three millions more than were spent in Productive Public Works, and a casual increase of 86,0 by our including two years' charges for interest on Savings Banks. The rest of the increase (about 220,0) comes against this head mostly by transfer from "Productive Public Works." The increase against "Ordinary Revenue" is under "Salt" and "Forests" and is in both cases more than covered by the corresponding receipts. Under "Civil Administration" we have heavy charges for Census (158,6), and there have been heavy political charges which, it may be hoped, will not recur. Of the increase under "Miscellaneous" half is against the item of Stationery and half is due to the transfer to this head of Miscellaneous Refunds, hitherto charged as Refunds of Revenue. The increase under Famine represents the new policy of Famine Insurance. Under "Productive Works" the diminution in the rate of charge for interest meets the normal growth of that item, but the progress of State Railways brings a larger amount of charges, and the great increase of revenue on lines already open has entailed increase of maintenance charges, and still more of the amount of profits returnable to the Guaranteed Companies. Under "Non-Productive Works," the increase is wholly ascribable to the Local Governments being encouraged to expend, instead of accumulating, their balances, and does not affect the Imperial account. The increase in "Exchange" is due to the increase of drawings from £15,239,7 in 1880-81 to 18,412,4 in 1881-82.

## Comparison of Accounts with Budget Estimates, 1881-82.

8. Compared with the Budget estimate we find the following differences in the various sections of the account :—

| | Better. | Worse. |
|---|---|---|
| A Interest . . . . . | ... | 311,1 |
| B Principal heads of Revenue . . | 2,383,4 | ... |
| C Post Office, Telegraph and Mint . | ... | 54,0 |
| D Civil Administration . . . | 189,6 | ... |
| E Miscellaneous . . . . | 154,5 | ... |
| F Famine . . . . . | ... | ... |
| G Productive Public Works . . . | 1,433,1 | ... |
| H Public Works not classed as Productive | 837,3 | ... |
| K Military . . . . . | ... | 184,6 |
| L Exchange . . . . . | ... | 493,7 |
| TOTAL . | 4,997,9 | 1,043,4 |
| Combined Surplus . | 3,954,5 | |

9. Of these C, and D are a number of details which do not require special remark. E contains one big item on the receipt side, 155,3 premium on issue of a four per cent. loan, a charge of 99,1 for refunds taken in the Estimates under head B, and a number of smaller details.

10. Of A 86,0 is due to the additional year's charge for Savings Bank interest, and the rest may be taken against G as due to the fact of the interest charge against Productive Public Works being taken at 4 per cent. instead of $4\frac{1}{2}$; in other words half per cent. interest on £$48\frac{1}{2}$ millions was taken in the Budget against "Productive Public Works," but carried on the accounts under "Interest on Ordinary Debt." Under B, Principal heads of Revenue, the opium account which, according to the then practice, was taken at net receipts 6,500,0, gave us 1,305,0 better, and Excise Revenue, estimated at about the same as 1880-81, produced 396,3 better; Land Revenue was 160,0 better, and Forests 104,4 better; the other increases are spread over nearly all the heads, and the account also profits by the transfer to other heads of 147,6 of Refunds.

11. Productive Public Works give 1,433,1 better than estimate. A somewhat larger difference than this (1,483,8) occurs under Railway receipts alone, but the other heads of receipt and all the heads of charge are a little worse than estimate, and the loss is only met by the saving of 220,0 under interest charge, just alluded to as due to the alteration in the rate of interest debited against Productive Works. Of the great increase in the revenue of the Railways, the Great Indian Peninsula Railway has the largest share.

12. The next two figures give Non-Productive Works better by 837,3 and Military worse by 184,6, but these figures include a transfer, not contemplated in the estimates, of 559,7, deducted from the expenditure under the former and added to that under the latter. Neglecting this we get 277,6 better under Non-Productive Works and 375,1 better under Military. Of the 277,6 one-half may be put down as mostly due to increased receipts under Rents and under Tolls and Ferries, and the other half as mostly due to savings in expenditure upon Irrigation Works.

13. The 375,1 better in Military is only part of the real improvement over the estimates, for the prospects of war expenditure, as judged in March 1882, were so much better than the estimates framed in March 1881, that 695,0 of receipts on account of the war contribution from England, which had come into the Budget of 1881-82 to balance the war expenditure, was transferred into the accounts of 1880-81.

14. The comparison may be stated in detail as follows :—

| | Better. | Worse. | |
|---|---|---|---|
| Ordinary account of the Army . | ... | 409,5 | |
| Military operations in Afghanistan— | | | |
| *a*—Expenditure as originally estimated . . | 1,479,6 | | Net 224,9 better. |
| *b*—By inclusion of Frontier Railway expenditure of former years . . | ... | 559,7 | |
| *c*.—By exclusion of English contribution . . | ... | 695,0 | |

There is no doubt that the 409,5 excess in Ordinary Military expenditure is really War expenditure not separable from the ordinary account, and assuming this to be the case, we find the War expenditure, apart from Frontier Railways, to be 1,479,6—409,5, or 1,070,1 better than estimate. As we lost 695,0 of this improvement by the transfer of this amount of receipts to 1880-81, there remains net improvement 375,1 as above given; the 559,7 being a mere transfer, which,

as it is not reckoned on the better side under "Frontier Railways," so is not reckoned on the worse side here.

15. The difference in Exchange is due to the heavy drawings of the Secretary of State. The extremely favourable state of the market enabled him to issue Bills for an amount far in excess of the requirements of the year; for besides the ordinary transactions of the year he repaid debt to the extent of over three millions, while reducing his cash balance only by one and a half.

16. The summary therefore of the whole account is—

| | Compared with Budget. Better. | Worse. |
|---|---|---|
| Opium (net revenue) . . . . | 1,305,0 | |
| *Excise Revenue* . . . . . | 396,3 | |
| Land Revenue . . . . . | 160,0 | |
| Forest Revenue . . . . . | 104,4 | |
| *Other Principal Revenue Heads* . . | 270,1(*a*) | |
| *Civil Administration, Receipts and Expenditure* . . . . . | 238,1(*a*) | |
| Premium on issue of Loan . . . | 155,3 | |
| Railway Receipts (Productive Works) . | 1,483,8 | |
| Military Expenditure on Account of the Kabul War (net) . . . . | 375,1 | |
| Exchange . . . . . | ... | 493,7 |
| Other smaller differences (net) . . | ... | 39,9(*a*) |
| | 4,488,1 | 533,6 |
| Combined Surplus . . . . | 3,954,5 | |

(*a*) These figures are shewn as they would stand if there had been no difference between Accounts and Estimates in the manner of charging refunds.

The distribution of this 3,954,5 between Imperial and Provincial belongs to a future section of the report. It is sufficient here to say that in the three cases shewn in italics the figures chiefly affect the Provincial Account, and in the other cases it is chiefly the Imperial Surplus that is bettered.

17. I now proceed to take up the accounts in detail section by section.

## SECTION A—INTEREST.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 4,083,2 | EXPENDITURE . . | 4,247,0 | 4,532,0 | 4,558,1 |

18. Compared with 1880-81, there are the following increases: 120,0 being the interest on about 3,000,0 of new debt, 85,0 owing to the inclusion of two years' interest on a large part of the Savings Bank Deposits, 200,0 owing to the smaller charge placed against the Productive Public Works Account. The increase over the Budget is 311,1 and is practically the two items last noticed:—

### 1.—Interest on Ordinary Debt.

| 1880-81 Accounts | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | INDIA— | | | |
| 3,365,9 | Total Interest . . . . . | 3,576,7 | 3,553,8 | 3,497,9 |
| 2,037,9 | DEDUCT—charged to Productive Public Works | 2,209,4 | 1,973,1 | 1,986,2 |
| 1,328,0 | Charge under Ordinary . . . | 1,367,3 | 1,580,7 | 1,511,7 |
| 2,341,2 | ENGLAND . . . . . | 2,469,7 | 2,506,3 | 2,512,4 |
| 3,669,2 | Total . . . . . | 3,837,0 | 4,087 0 | 4,024,1 |

19. The first line contains the total charge for interest paid in India, and the Budget estimate was thus calculated—

| | |
|---|---|
| Interest on Total Debt in India on 31st March 1881 . . . | 3,559.3 |
| ADD—for probable new Loan in 1881-82 . . . . . | 60,0 |
| DEDUCT—Interest paid in England on Rupee Loan of 22nd April 1854 | 44.7 |
| TOTAL . | 3,574,6 |

The difference of 2,1 between this and the figure above stated arises from the figures for March 31st, 1881, being here taken from the actual account, whereas at the time of the estimate they were not precisely ascertainable.

The payments made against this estimate amount to 3,512,7.

The principal disturbing element in the interest payments is the amount of payments due on March 15th, which are not demanded till April. The following comparison is made of these payments:—

| | 1881 | 1882. |
|---|---|---|
| Coupons paid in April and May . . . . . | 53,6 | 59,0 |
| Interest drafts of which advices received in April . . . | 204,3 | 229.3 |
| TOTAL . | 257,9 | 288,3 |

These figures shew that under this head 30,4 more have been postponed from 1881-2 to 1882-3 than were postponed from 1880-1 to 1881-2.

But the actuals fall behind the Budget chiefly in respect of the provision made for interest upon the new Loan. The loan issued during the year was taken as part of the loan of 1st May 1865, of which the interest-payment dates are 1st November and 1st May, and the only interest charge upon it, payable within the year, was the abatement allowed for the interval between the date of payment, chiefly in August, and 1st November, the charge involved being only a small part of the Budget allowance of 60,0.

These two circumstances account in the gross for the difference between the actual interest charge, and that appropriate to a whole year, though there are of course minor variations between the annual amount of interest and that actually paid on each loan. (See Financial and Revenue Accounts, No. 28.)

The 3,512,7 which is thus explained as the amount of interest paid during the year is reduced to 3,497,9 (*the charge which actually appears under this head*) by a recovery of

## SECTION A—INTEREST.

14,8, being the interest upon about 440,0 of securities held by Government on its own account. About half of this was received in repayment of a debt due by the Calcutta Municipality and about half in the lapse of the assets by the Nizamat Fund. While they are thus held by Government the interest received on them is taken by deduction from the charges.

20. The explanation appropriate to the figures taken in the next line—the interest charge under Productive Public Works—will be given under its proper head.

21. The *English* debt on March 31, 1881 was £71,334,7 bearing interest 2,846,5 (Finance and Revenue Accounts, 1880-1, No. 28). But out of this part belongs to the Account of Productive Public Works, being loans issued in redemption of East India Railway Annuity (interest 204,6) and East India Railway debentures (interest 145,5).

This leaves interest 2,496,4 to be provided in the ordinary account; and so far as we can follow the English estimate it was made up of the following:—

| | |
|---|---|
| Annual interest charge on English Debt, as on March 1881 . . . | 2,496,4 |
| ADD—Charge on Rupee Loan of 22nd April 1854, above mentioned . | 44,7 |
| DEDUCT—Savings due to the anticipated discharge during 1881-82 of nearly 4½ millions, chiefly East India Bonds . . . . . | 70,4 |
| TOTAL ESTIMATE . | 2,470,7 |

The charges exceeded this by 41,7, of which 35,0 was due to interest on a new 3½ per cent. Loan which was provided for under Productive Public Works, but was by a different treatment charged under Ordinary. The rest consists of interest on a Temporary Loan (which is more than covered by receipts on account of investment of cash balance) and of some arrear payments.

## 2.—Interest on Deposits.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts |
|---|---|---|---|---|
| | INDIA— | | | |
| 889 | On Special Loans . . . . | 88,0 | 89,9 | 83,2 |
| 30 | On Treasury Notes . . . . | 4,8 | 5,1 | 3,0 |
| 2,007 | On Service Funds . . . . | 209,8 | 211,6 | 212,9 |
| 969 | On Savings Banks Deposits . . | 83,1 | 112,2 | 212,7 |
| 239 | On Miscellaneous Accounts . | 21,6 | 23,5 | 21,5 |
| 6 | ENGLAND . . . . . | 1,7 | 2,7 | 7 |
| 4,140 | TOTAL . | 409,0 | 445,0 | 534,0 |

In the above statement the interest payments are classified in the same way as we classify the obligations on which the interest is paid

22. The first Indian item shews a considerable saving The mass of the payments under it are allowances to the dependents of the Oudh Royal family, paid by way of interest on loans received from the King of Oudh in 1820 to 1830. The payments made on this account were 72,8 this year against 78,5 in 1880-81.

23. The Treasury note item is a small one and appears to have been over-estimated.

24. The payments on *Service funds* were highly in excess of estimate; in fact part of the estimate made under the last head should have been taken under this.

25. Under *Savings Bank* interest, we had in the first place an extra charge of a year's interest on Presidency Savings Banks deposits which was provided for neither in the Budget nor in the Regular Estimates. Hitherto the practice has obtained of charging this interest in the year succeeding that for which it was due, while in the District Savings Bank the more correct course was followed of charging the interest and adding it to Savings Bank Deposits in the same year in which the credit was given in the detailed Banking accounts. To correct the procedure in this respect the interest for 1881-82 was ordered to be charged off and credited to Savings Bank Deposits, as on 31st March, and this brought on a debit of 85,9 in addition to the payments provided for in the estimates.

26. In the English amount one of the two items included in the estimate remained unclaimed during the year.

## SECTION A—INTEREST.

Even this, however, leaves a charge of 126,8 to be taken against an estimate of 83,1, and this excess is due chiefly to the recent rapid development of the Savings Banks. The balances in these Banks were :—

| | 31st March 1880. | 31st March 1881. | 31st March 1882. |
|---|---|---|---|
| Presidency Savings Bank . . . | 1,598,6 | 2,225,6 | 2,312,1 |
| District Savings Bank . . . | 436,3 | 703,4 | 726,2 |

This sudden expansion was the effect of new rules issued in December 1879, increasing the rate of interest and giving greater facilities, in many ways, to depositors. Part of these facilities were withdrawn by a resolution of 20th October 1880, and the rate of interest was reduced in May 1881, but these steps did not produce the anticipated effect of lessening deposits; and the balance has been maintained at the high figure reached before the reduction of interest.

The estimates failed to take sufficient account of this increase of the deposits and provided 83,1 only, while the payments reached 126,8. The short estimate was chiefly in respect of the Bombay Banks, where the balance on which the interest was paid amounted in one year from 1,067,0 to 1,551,1.

## SECTION B.—PRINCIPAL HEADS OF REVENUE.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 52,702,3 | RECEIPTS . . . | 51,570,0 | 53,156,0 | 53,654,5 |

27. The improvement compared with last year is due chiefly to Land Revenue collections of 1880-81 postponed to 1881-82; but there is also a large improvement in the Excise Revenue. Compared with Budget estimates, Opium produced about 1,100,0 more, Excise nearly 400,0 more, and Forests 100,0 more.

### I.—Land Revenue.

| 1880-81. Accounts. | Gross Revenue— | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 89,2 | India . . . . . | 77,4 | 95,0 | 95,0 |
| 609,3 | Central Provinces . . . . | 607,0 | 607,3 | 613,7 |
| 899,1 | Burmah . . . . . | 1,120,0 | 1,140,0 | 1,052,3 |
| 374.8 | Assam . . . . . | 387,0 | 387,6 | 379,4 |
| 3,751.8 | Bengal . . . . . | 3,754,4 | 3,765,0 | 3,794,4 |
| 5,658,8 | North-West Provinces . | 5,909,0 | 5,800,0 | 5,838,3 |
| 2,090,1 | Punjab . . . . | 2,048,7 | 2,100,0 | 2,095,3 |
| 4,673.4 | Madras . . . . . | 4,791.5 | 4,739,1 | 4,688,9 |
| 3,763,8 | Bombay . . . . . | 3,800,0 | 3,815,0 | 3,881,9 |
| 21,910,3 | TOTAL . . | 22,495,0 | 22,419,0 | 22,439,2 |
| | Deduct transferred to Productive Public Works Account— | | | |
| 65,1 | North-West Provinces . . . | 66,9 | 87,0 | 87,2 |
| 161,2 | Punjab . . . . . | 16,8 | 31,6 | 33,3 |
| 552,1 | Madras . . . . . | 600,0 | 539,0 | 334,5 |
| 18,9 | Bombay . . . . . | 23,3 | 21,4 | 36,2 |
| 797.3 | TOTAL . | 707,0 | 679,0 | 491,2 |
| 21,113,0 | LAND REVENUE "ORDINARY" . | 21,788,0 | 21,770,0 | 21,948,0 |

28. The following explanation is given with reference to the first or gross total, as the deductions, which are not specifically separate from the rest of the Land Revenue are explained under the account of Productive Public Works.

The accounts of 1880-81 shew 21,910,3, the collections having been short of the normal amount, partly on account of remissions in the North-West, and partly owing to partial postponement of collections in the months February and March 1881, during which the subordinate revenue officers were engaged on the Census. Both of these causes would operate towards increasing the figures of 1881-82 at the expense of those of 1880-81, but the facts shewed that there was less postponement than was estimated, and that accordingly the year 1880-81 produced more, and 1881-82 less, than was anticipated when the estimates were made in March 1881.

This explanation particularly accounts for the falling-off in Madras, and partly also for that in the North-West, though the original estimate in this last appears to have been too high, the normal Land Revenue of the province being only about 5,750,0.

A similar explanation accounts in a small degree for the falling-off in Burmah, but the loss here was chiefly owing to the cultivators being unable, in the face of very low prices, to realize their crops at the usual time.

An improvement of four lakhs in Bengal is attributed to enhanced collections from Government estates. Bombay shews eight lakhs better than Budget, chiefly due to instalments due in Gujerat in April 1882 being received in March.

In the Punjab the estimates shew an excess of 46,6. The greater part of this is due to "Water Advantage Rate," the estimate of which (21,9) was made under "XXVIII—Irrigation." The rest of the increase is under "Miscellaneous Collections."

The improvement under "India" is due to the revenue of the ceded districts in Southern Afghanistan, namely Pishin and Sibi.

## SECTION B.—PRINCIPAL HEADS OF REVENUE.

### II.—Opium Revenue.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 7,683,6 | Bengal . . . . . | 5,640,0 | 7,476,0 | 7,465,3 |
| 2,526,2 | Bombay . . . . . | 2,891,4 | 2,218,2 | 2,184,7 |
| 201,2 | Excise . . . . . | 216,4 | 191,5 | 192,0 |
| 69,0 | Miscellaneous . . . . . | 15,2 | 14,3 | 20,4 |
| 10,480,0 | TOTAL . | 8,763,0 | 9,900,0 | 9,862,4 |

29. The Budget estimate was made at a time when the orders of the Secretary of State directed that the net figure should be taken at 6,500,0. The estimated expenditure being 2,263,0, the revenue was taken at 8,763,0, which, after the detailed estimates for other provinces, left 5,640,0 for Bengal.

The Bengal Estimate was therefore stated as 56,400 chests at Rs. 1,000 bringing in 5,640,0; the real expectation being at least Rs. 1,200 and the estimate being short stated with reference to the policy of Opium-estimate then prescribed by the Secretary of State, as above explained.

The following figures compare the successive years :—

| | Chests sold. | Average price. | Produce, Rs. | Added to Stock,* chests. | Balance in Stock,* March 31, chests |
|---|---|---|---|---|---|
| 1876-77 . . . . . | 47,240 | 1,270 | 6,000,0 | 68,051 | 71,315 |
| 1877-78 . . . . . | 49,500 | 1,266 | 6,269.3 | 67,167 | 88,982 |
| 1878-79 . . . . . | 55,500 | 1,225 | 6,798,6 | 43,140 | 76,622 |
| 1879-80 . . . . . | 59,100 | 1,170 | 6,914,2 | 49,961 | 67,483 |
| 1880-81 . . . . . | 56,400 | 1,362 | 7,683,6 | 52,969 | 64,052 |
| 1881-82 Budget . . . . | 56,400 | 1,000 | 5,640,0 | .. | ... |
| 1881-82 Actual . . . . | 56,400 | 1,324 | 7,465,3 | 49,732 | 57,384 |

* The last two columns refer to Stock for export only, and exclude three or four thousand chests produced annually for consumption in India.

The price fell off a little in the beginning of the year, being Rs 1 330, 1,282, and 1,264 in the first quarter, against an average of about 1,400 in the next preceding three months. In July and August it rose to 1,405 and 1,389, from September to January it was between 1,344 and 1,323, and in the last two months it was only 1,288 and 1,257, so that it was the last months of the year chiefly that fell short of the high figures of 1880-81. The Revised estimate was 7,476,0, and, being framed when most of the circumstances affecting the actuals were ascertainable, was closely followed by the final accounts.

It will be seen that to the extent of 6,668 chests, the opium sales were fed by drawing upon accumulated stock.

30. For Bombay an average crop was expected, and the following figures compare the facts :—

| | Chests. | Rate † | Amount. |
|---|---|---|---|
| 1876-77 . . . . . | 49,136 | 600 | 2,948,2 |
| 1877-78 . . . . . | 45,830 | 600 | 2,749,8 |
| 1878-79 . . . . . | 36,807 | 650 | 2,393,0 |
| 1879-80 . . . . . | 46,211½ | 650 & 700 | 3,141,1 |
| 1880-81 . . . . . | 36,069½ | 700 | 2,526,2 |
| 1881-82 Estimate . . . | 41,292 | 700 | 2,891,4 |
| 1881-82 Actuals . . . | 31,196 | 700 | 2,184,7 |

† Opium which passes the scales at Ajmere pays Rs. 25 more.

Up till December the estimate was justified by the rate at which chests were brought for export, but from that month a heavy falling-off commenced. The figures of the various months compare as follow :—

| | 1879-80. | 1880-81. | 1881-82. | |
|---|---|---|---|---|
| Till November inclusive, eight months | 2,052,1 | 1,425,4 | 1,591,0 | These figures include 1 or 2 of Miscellaneous Revenue. |
| December . . . . . | 368,3 | 275,2 | 164,6 | |
| January . . . . . | 438,0 | 277,2 | 201,4 | |
| February . . . . . | 200,4 | 290,7 | 130,0 | |
| March . . . . . | 149,7 | 257,9 | 101,7 | |
| TOTAL . | ‡ | 2,526,4 | 2,188,7 | |

‡ Total not shewn as there was a write-back after March.

And the Regular estimate which was made in March, reduced the estimated revenue to 2,218,2, which it will be seen was nearly but not quite realized; the falling-off in March

## SECTION B.—PRINCIPAL HEADS OF REVENUE.

1882, being, it will be seen from the figures just given, more marked than that in earlier months.

31. The revenue on Excise opium—(that is the credit of Rs 7¼ per seer as the cost price of opium supplied for local consumption, the cost by the sale proceeds being taken as excise revenue), fell short of estimate by almost exactly the amount included in the estimate on account of sales in the Punjab (25,0). The plan of selling Government opium in that province was discontinued and no sales were made.

32. The *Miscellaneous Revenue* was a little better than estimate.

## III.—Salt Revenue.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 1,629.7 | NORTHERN INDIA SALT DEPARTMENT . | 1,665,5 | 1,894,2 | 1,898,1 |
| | SEA-BORNE SALT. | | | |
| 19,4 | Burmah . . . . . | 18.1 | 18,5 | 14,8 |
| 2,275.0 | Bengal . . . . . | 2,272,7 | 2,284,0 | 2,371,6 |
| 18,3 | Madras . . . . . | 20,0 | 9,1 | 5,7 |
| 2 | Bombay . . . . . | 2 | 3 | 5 |
| | GOVERNMENT SALT. | | | |
| 1,541,1 | Madras . . . . . | 1,550,0 | 1,446,0 | 1,452,6 |
| 26,5 | Bombay . . . . . | 25,2 | 30,0 | 33,6 |
| | EXCISE ON LOCAL MANUFACTURE. | | | |
| 4,1 | Burmah . . . . . | 4,4 | 5,0 | 4,9 |
| 109,7 | Bengal . . . . . | 110,0 | 109,0 | 97,3 |
| 2,5 | Madras . . . . . | 15,2 | 15,0 | 12,3 |
| 1,469,1 | Bombay . . . . . | 1,451,0 | 1,387,0 | 1,458,8 |
| 20.4 | MISCELLANEOUS . | 20,7 | 23,9 | 25,4 |
| 7,116,0 | TOTAL . | 7,153,0 | 7,213,0 | 7,375,6 |

33 Under the first head the estimates were made at a time when the salt revenue was temporarily failing, as explained in last year's appropriation report. The estimates then made were for an improvement of ten lakhs over the expected returns of 1880-81. The revenue, however, very speedily recovered, and the original estimate of 1,665,5 was in March 1882 raised to 1,879,0, or, adding a new item of 51,0 on account of recoveries of freight charges, 1,930,0. But before the year closed the duty was reduced, and the effect of the reduction, for three weeks of March, was estimated at about 3½ lakhs, leaving the final estimate 1,894,2. This estimate, it will be seen, was very accurately realized.

34. The estimate made for *Sea-borne Salt* in Bengal was a repetition of the expected receipts of 1880-81; throughout the year the importations were slightly better, and promised an improvement of about 80,0. In the last month the reduction of duty was completely counteracted by the stimulus which the reduction gave to clearances, and thus both the Budget and the revised estimates were more than covered.

The importations of salt in Burmah and Madras fell somewhat below expectation, but the amounts in any case are small.

35. Madras deals chiefly in *Government Salt*, that is, in purchasing and re-selling salt locally manufactured. The Budget estimate was based, as is usual in such cases, upon the actual outturn of the previous year 1880-81. The consumption is, however, somewhat falling off owing to the substitution in the western districts of salt which pays duty in Bombay, and in March 1882 the revised estimate shewed 1,474,0, which in view of the reduction of duty to be made in that month (March 8) was reduced to 1,446,0. It will be seen that the realizations were somewhat short of this.

36. Under *Local Manufacture*, the chief figure is that of Bombay which very closely followed estimate; in fact the whole difference from last year's figure is somewhat less than the loss accruing in March from the reduction of duty. The falling-off under this head in Bengal is a continuance of a decrease, which has shewn itself of late years in the manufacture of salt in Orissa.

37. The *Miscellaneous* figures are chiefly warehouse rents, fines and forfeitures.

## SECTION B.—PRINCIPAL HEADS OF REVENUE.

### IV.—Stamps.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 2,186,1 | Court Fees . . . . . | 2,214,7 | 2,262,1 | 2,301,5 |
| 1,048,4 | Other Stamp Duties . . . . . | 1,063,9 | 1,052,0 | 1,064,9 |
| 16,1 | Miscellaneous . . . . . | 11,4 | 13,9 | 15,0 |
| 3,250,6 | TOTAL . | 3,290,0 | 3,328,0 | 3,381,4 |

38. The improvement under this head is general, both from the actuals of 1880-81 to the Budget of 1881-82, and from the latter to the Actuals of 1881-82. Each province shews a slowly progressing revenue.

### V.—Excise.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 2,493,4 | Liquors and Drugs . . . . . | 2,395,4 | 2,720,7 | 2,745,7 |
| 628,4 | Opium . . . . . | 622,5 | 663,8 | 665,6 |
| 13,4 | Other Receipts . . . . . | 13,1 | 26,5 | 16,0 |
| 3,135,2 | TOTAL . | 3,031,0 | 3,411,0 | 3,427,3 |

39 The Budget estimate was for the most part a reproduction of the expected figures of 1880-81, save that a slight falling-off was anticipated in Burmah, owing to the restriction of opium vend in that province. But in the first place the actuals of 1880-81 slightly exceeded in every province the anticipations framed in March 1881, and the improvement in the excise revenue, alluded to in last year's report, has continued through the year. In nearly every province this improvement is manifest, and is attributed either to general prosperity and good harvests, or to increased competition at auction sales of excise monopolies, which is only another form of increased public demand.

### VI.—Provincial Rates.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts |
|---|---|---|---|---|
| | GENERAL RATE ON LANDS. | | | |
| 4 ,9 | Central Provinces . . . . . | 40,4 | 41,2 | 40,0 |
| 51,2 | Burmah . . . . . | 78.4 | 83,4 | 74,9 |
| 29.2 | Assam . . . . . | 34,5 | 34,5 | 32,2 |
| 684,8 | Bengal . . . . . | 682,6 | 676,6 | 681,8 |
| 535,2 | North-West . . . . . | 541,4 | 545.0 | 554,3 |
| 255,0 | Punjab . . . . . | 250,6 | 257,5 | 256,3 |
| 384,1 | Madras . . . . . | 403,4 | 419,6 | 401,8 |
| 222,8 | Bombay . . . . . | 224,6 | 222,8 | 229,7 |
| 2,203,2 | TOTAL . | 2.255,9 | 2,280,6 | 2,271,0 |
| | OTHER RATES. | | | |
| 6,5 | India . . . . . | 6,2 | 5,5 | 5,6 |
| 14,6 | Central Provinces . . . . . | 14,3 | 14,3 | 16,4 |
| 2,2 | Burmah . . . . . | 2,3 | 2,3 | 3,2 |
| 38,6 | Bengal . . . . . | 38,2 | 37,4 | 42,6 |
| 340,0 | North-West . . . . . | 343,1 | 350,0 | 337,4 |
| 169,0 | Madras . . . . . | 201,6 | 192,4 | 217,0 |
| 2,3 | Bombay . . . . . | 1,4 | 2,5 | 2,3 |
| 573,2 | TOTAL . | 607,1 | 604,4 | 624,5 |
| 2,776,4 | TOTAL BOTH . | 2,863,0 | 2,885,0 | 2,895,5 |

40. The first set of these figures shews the general rate levied, mostly for Public Works, but in some cases also for primary education. These rates are all of a "local" character, that is, intended for expenditure within the area whence they are obtained. The second set of figures contains several small items; the large figure in the North-West being the Putwari cess, since abolished, and that in Madras being the Village Service cess.

The actuals for the most part closely follow the estimates. A slight falling-off in Burmah and Assam is explained by the similar reduction in the figures of Land Revenue, as the collections of Land Revenue and Land Rates are made together. In Madras the Village Service cess produced more than expected, as in some districts the demand, temporarily suspended, was re-imposed; and in Bombay an enhancement of rates came

## SECTION B.—PRINCIPAL HEADS OF REVENUE.

into operation in some of the districts and increased the revenue over the Budget estimate.

### VII.—Customs.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| | IMPORTS. | | | |
| 141,4 | Burmah . . . . . | 156,7 | 153.6 | 152.7 |
| 727,3 | Bengal . . . . . | 682.6 | 644,6 | 617,3 |
| 159,9 | Madras . . . . . | 149.0 | 145,7 | 143,8 |
| 751,2 | Bombay . . . . . | 674.0 | 578,0 | 648.5 |
| 1,779,8 | TOTAL . | 1,662,3 | 1,521,9 | 1,562,3 |
| | EXPORTS. | | | |
| 436,4 | Burmah . . . . . | 415,3 | 446,6 | 487,4 |
| 179,9 | Bengal . . . . . | 160,0 | 200,0 | 204,9 |
| 84,5 | Madras . . . . . | 70,0 | 60,0 | 49.9 |
| 30,7 | Bombay . . . . . | 18,1 | 22,7 | 25,8 |
| 731,5 | TOTAL . | 663,9 | 729,3 | 768,0 |
| 28,3 | MISCELLANEOUS . | 40,8 | 38,8 | 31,1 |
| 2,539,6 | TOTAL . | 2,367,0 | 2,290,0 | 2,361,4 |

41. The Budget estimate allowed for a falling-off, in Bengal and Bombay, below the figures of 1880-81. Till the end of November the revenue, on the whole, was equal to that of 1880-81, but the import duties began to fall off towards the end of the year, both by the continued substitution of duty-free for duty-paying cotton goods, and because there was an expectation of reduction of duty, and a consequent postponement as far as possible clearances at the Customs House. The general abolition of import duties, which came into effect on 10th March, necessarily added to the loss.

42. There was, however, an abundant rice harvest and the low prices favored export; and the increase of revenue under this head fully made up for the loss on imports.

43. The following figures continue the classification of net revenue presented in last year's report. It will be seen that three-quarters of the reduction of revenue occurs under the head of Cotton Goods, arising, as just explained, from the fact that a continually increasing proportion of the imports under this head has been of the kinds exempted from duty:—

| | 1880-81. | 1881-82. |
|---|---|---|
| IMPORTS. | | |
| Cotton Goods . . . . . | 717,2 | 559.5 |
| Liquors . . . . . | 378,9 | 405,7 |
| Metals . . . . . | 133,6 | 109,2 |
| Provisions . . . . . | 25,5 | 23,9 |
| Silk . . . . . | 103,0 | 78,6 |
| Woollen Manufactures . . . . . | 59,5 | 51,6 |
| Apparel . . . . . | 32,1 | 29,5 |
| Sugar . . . . . | 75,3 | 54.3 |
| Other Goods . . . . . | 209,7 | 198,2 |
| TOTAL . | 1,734,8 | 1,510,5 |
| EXPORTS. | | |
| Rice . . . . . | 715.5 | 747,8 |
| Indigo (abolished) . . . . . | —2 | 0 |
| Other Goods . . . . . | 2 | 5 |
| TOTAL . | 715.5 | 748,3 |
| MISCELLANEOUS . . | 28,3 | 31,1 |
| TOTAL NET REVENUE . | 2,478,6 | 2,289,9 |

### VIII.—Assessed Taxes.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 558,7 | TOTAL. . . . | 550,0 | 538,0 | 536,8 |

44. The figures appear to call for no remark.

## SECTION B.—PRINCIPAL HEADS OF REVENUE.

### IX.—Forests.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 85,0 | Central Provinces . . . . | 116,1 | 98,0 | 117,3 |
| 151,7 | Burmah . . . . . | 142,0 | 215,3 | 223,2 |
| 94,2 | North-West Provinces . . . . | 118,0 | 99,4 | 106,6 |
| 152,3 | Bombay . . . . . | 165,0 | 161,8 | 182,8 |
| 224,5 | Other Provinces . . . . | 227,0 | 243,5 | 242,3 |
| 1,6 | England . . . . . | 1,9 | 2,0 | 2,2 |
| 709,3 | TOTAL . . | 770,0 | 820,0 | 874,4 |

45. The revenue in the Central Provinces came up to Budget estimate, although at the time of the Regular estimate it was thought that there would be very considerable unrealized outstandings. The improvement, as compared with 1880-81, is in timber removed by Government Agency the revenue from which increased from 6,2 to 29,7.

In Burmah, the operations of the department greatly extended towards the end of the year, and special expenditure was sanctioned to meet the high demand for timber. High prices ruled in the market, and there were also higher realizations in sale of drift and waif wood. A reduction of duty from 7 per cent. to 1 per cent. on foreign timber brought down the Salween did not produce a loss of revenue, as the estimated revenue had been realized before it was brought into operation.

The falling-off in revenue in the North-West is chiefly owing to failure to dispose of a large stock of timber in the School Circle. The demand for Public Works, in the Oudh Circle, has also fallen off, but on the other hand there has been an increase both of Revenue and of Expenditure in the Oudh Circle.

In Bombay there was at the end of the year an unusual demand, at very high prices, for timber and sandal-wood. This demand came too late even for inclusion in the Revised estimate and produced a considerable excess over the estimated revenue.

In the other provinces the operations are of a more regular character and are less affected by market fluctuations. They do not therefore shew, in the actual figure, any great variation from the estimates, but there is a general improvement in Bengal and in Madras owing to increased sales of smaller produce.

### X.—Registration.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 281,2 | TOTAL . . . | 290,0 | 280,0 | 284,7 |

46. The figures in every respect closely follow those of last year.

### XI.—Tributes from Native States.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised | 1881-82. Accounts. |
|---|---|---|---|---|
| 742,2 | TOTAL . . . | 705,0 | 721,0 | 706,9 |

47. The figures under this head have little variation, except as some State falls into arrear or makes up an arrear. The final figures follow the Budget very accurately Under "India General" there is a reduction of 5,0 owing to a new arrangement by which that amount of Land Revenue, hitherto accounted for to Oodeypore, is now taken (under its proper head) in lieu of a tribute due from Oodeypore. Bombay however shews nearly the same amount of excess, owing to arrear collections from Kathiawar Chiefs.

The figures of last year were unduly swollen by a capitalized payment of 30,0 received from the Maharaja of Dhar.

## SECTION B.—DIRECT DEMANDS ON THE REVENUE.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts |
|---|---|---|---|---|
| 8,169,0 | EXPENDITURE . | 8,519,0 | 8,554,7 | 8,220,1 |

48. But for a change of accounting by which 147,6 of Refunds passed in the accounts to other heads, the expenditure would be 8,367,7, and this figure should be used in the general comparison. Compared with last year the bulk 120,0 of the increase is under "Salt," where the introduction of a new depôt system involved considerable expenditure in construction of depôts, and large advances for carriage and freight of salt conveyed to them. Forests also shew an increase of 100,0 mostly covered by enhanced revenue. The expenditure was within Budget estimate, except under Salt, where most of the expenditure on depôts, just referred to, was not provided for.

## SECTION B.—DIRECT DEMANDS ON THE REVENUE.

### 3.—Refunds and Drawbacks.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 46,8 | Land Revenue | 47,5 | 59,0 | 48,0 |
| 140,6 | Salt | 34,2 | 46,8 | 45,3 |
| 34,2 | Stamps | 35,2 | 36,9 | 37.7 |
| 62,4 | Customs | 20,8 | 37,3 | 73,2 |
| 30,6 | Assessed Taxes | 22,8 | 25,7 | 28.9 |
| 31,7 | Other Revenue Refunds | 63,9 | 102,0 | 39,3 |
| 46,1 | Law and Justice | 44,0 | 40,8 | ... |
| 76,8 | Miscellaneous Refunds | 81,6 | 68,5 | ... |
| 469,2 | TOTAL | 350,0 | 423,0 | 272.4 |

49. Refunds is an item so liable to be affected by unexpected large payments, arising from administrative measures, that the Budget estimate has for some years been fixed by a definite rule based upon the experience of past years, but having no precise appropriation to the various kinds of charges. It is assumed that any special excess over this is not unlikely to be met by the special *per contra* credit arising from the same circumstances, and it is only towards the end of the year that it can be stated with any degree of accuracy whether any such special claims have fallen upon Government.

Special claims of this nature arose in Madras where 2,2 of water-rates improperly collected had to be refunded, and in Bombay a repayment had to be made under the treaty made with Portuguese India. These Goa refunds are responsible for the divergence under "Customs" and "Other Revenue Refunds," as part of what had been provided for in the revised estimates under "Other Revenue Refunds" was more specifically charged under "Customs Refunds."

The charges under the last two heads have been transferred to the heads 19—Law and Justice, and 31—Miscellaneous, as the Secretary of State has directed that only Revenue Refunds be charged against the major head 3—Refunds and Drawbacks.

### 4.—Assignments and Compensations.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 284,0 | India | 306,2 | 305,4 | 268,6 |
| 8,0 | Central Provinces | 7,5 | 7,4 | 7.7 |
| ... | Burmah | ... | ... | ... |
| 3,4 | Assam | 3,0 | 2,8 | 3.3 |
| 5,8 | Bengal | 11,3 | 16,0 | 16,4 |
| 7,5 | North-West Provinces | 7,5 | 7,5 | 7.2 |
| 22,2 | Punjab | 22,7 | 22,0 | 22,1 |
| 143,6 | Madras | 114.2 | 119,0 | 121,3 |
| 740,5 | Bombay | 734,7 | 763,6 | 747,8 |
| 1,215.0 | TOTAL | 1,207,1 | 1,243.7 | 1,194.4 |

50. Under India the payment is all but entirely the salt compensations to Native States. These fell short of estimate by 6,2, an amount due to Maharaja Holkar not charged within the year, and by 10,4, over-estimate of the Royalty payable to Jeypur and Jodhpur. Two miscellaneous compensations, aggregating 3,9, were also not paid within the year.

The inequality of the figures against Bengal is due to the fact that no payment was made in 1880-81, and two payments were made in 1881-82, of the yearly compensation, 5,0, for the resumption of the Bhootan Dooars.

### 5.—Land Revenue.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised | 1881-82. Accounts |
|---|---|---|---|---|
| 74.8 | India | 96,4 | 89.7 | 73.5 |
| 73,9 | Central Provinces | 75,6 | 74 0 | 74,1 |
| 173,1 | Burmah | 189,0 | 207,5 | 191,1 |
| 89.1 | Assam | 88,3 | 88,9 | 8[illegible].4 |
| 322,7 | Bengal | 310.0 | 311 6 | 310,2 |
| 658,2 | North-West Provinces | 650,0 | 652.5 | 647,1 |
| 231.4 | Punjab | 228,7 | 227,3 | 231,6 |
| 712,8 | Madras | 728,1 | 722,7 | 723,8 |
| 647,0 | Bombay | 665,0 | 662,2 | 665,4 |
| 2,983,0 | TOTAL INDIA | 3,031,1 | 3,036,4 | 3,003,2 |
| 7 | Add England | 9 | 6 | 6 |
| 2,983,7 | TOTAL | 3,032,0 | 3,037,0 | 3,003,8 |

## SECTION B.—DIRECT DEMANDS ON THE REVENUE.

51. Under India, the Budget estimate for Revenue Surveys included charges 22,4 for survey parties working in Burmah, which in the accounts were taken under British Burmah Allowing for this the actuals closely followed the estimates.

Under Central Provinces the estimates were also closely followed.

Under Burmah we must first, for the comparison with Budget, deduct the survey charges just alluded to, leaving 171,7, expenditure against 189,0 estimate, or a saving of 17,3. Of this amount 7,2 is under the head of "Commission on Revenue Collections," and is in part owing to the short collections explained on the Revenue side; it was necessarily followed by increase of charges in 1882-83. Further, an item of 7,1 was provided in the Budget as a "Reserve" and was not expended.

In Assam there is a saving of 4,9, of which 2,5 is on Commission and is explained in the same way as under Burmah, and 1,2 was a provision for anticipated survey charges which was not eventually required.

In Bengal the Actuals very closely follow Budget, but the coincidence is the result of a balance of differences. 6,4 was short spent, being malikana (proprietory allowance) not claimed within the year, while on the other hand Collectors and their establishments cost 4,9 more than Budget, in which a deduction for "Probable Savings" was made but found to be excessive. Another increase of 1,6 under "Management of Government estates" is covered by the enhanced collections reported on the revenue side.

In the North-West the Actuals follow, and are slightly within the Budget.

In the Punjab there is a slight excess in the expenditure, of which nearly half is in an item recoverable in the form of fees.

The Madras accounts show expenditure slightly less than estimates. The difference is mainly under two heads, first a saving of 6,0 in allowances to village officers, where the Budget appears to have presumed too rapid an extension of the operations under the Village Service Act, and secondly, an excess expenditure of 3,2 for Revenue Surveys, only partly met by a supplemental grant of 1,5 over the Budget.

The Bombay expenditure closely follows the estimates, a small saving in balances in the Collector's establishments being counterbalanced by increase of allowances given to Revenue Survey Officers in Sindh.

### 6.—Opium.

| 1880-81, Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 1,909.2 | BENGAL— Payments to cultivators and manufacturing charges | 2,124,7 | 1,939.1 | 1,931.4 |
| 117,4 | Other charges | 135,6 | 119,8 | 123,0 |
| 2,2 | PUNJAB, BOMBAY AND ENGLAND | 2,7 | 3.1 | 3,0 |
| 2,028,8 | TOTAL | 2,263,0 | 2,062,0 | 2,057,4 |

52 The first of these charges necessarily depends upon the amount of opium produced, but as each year includes payments on account of two seasons, no very accurate correspondence can be found between the produce of each season, and the amount of each year's expenditure. Part of the increase in 1881-82 over the previous year is due to the raising of the price paid to cultivators in the Benares Agency from Rs. 4-8 to Rs. 5, with effect from the crop of 1881-82, the similar measure having been taken in Behar Agency in September 1880.

The charges were well within the Budget estimate, which, being fixed at a time when the profits of the crop are absolutely unknown, is taken at an amount sufficient to provide for a moderately good crop.

53. The saving of 12,5 under other charges is chiefly under the head of "Commission," estimated at 23,4 but only 16,0 spent. There were also other savings in salaries and establishment charges.

### 7.—Salt.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 125,9 | Northern India Salt Department | 154,3 | 277,0 | 240,0 |
| 6,2 | Burmah and Bengal | 5,6 | 5,2 | 4,1 |
| 140,6 | Madras | 142,5 | 140,0 | 132,8 |
| 90,8 | Bombay | 125,6 | 121,8 | 109,3 |
| 363,5 | TOTAL | 428,0 | 544,0 | 486,2 |

## SECTION B.—DIRECT DEMANDS ON THE REVENUE.

54. Compared with the rate of expenditure in 1880-81, the estimates of the Northern India Salt Department provided nearly 30,0 additional for manufacture of salt at Sambhur, Didwana, and Pachbadra. This arose from the development of the depôt system by which the salt is manufactured and conveyed at Government expense to sale-depôts in the consuming districts, instead of this work being done by the wholesale merchants. It was only during the course of the year that the system was fully developed, and it was necessary to add to the original estimates, first a moderate amount for construction of depôts, and secondly, a very large amount for charges of carriage and freight from the salt sources to the depôts. These charges are ultimately recovered as part of the sale price of the salt, but necessarily, in the first year, the recoveries are far short of the outlay.

In the revised estimate 122,3 was added on this account to the original estimate of 154,3, giving total of 276,6 (taken as 277,0). However, the expenditure against this 122,3 was only 56,2 in Sambhur, 8,2 for the Punjab mines, and 10,7 for Pachbadra; total 75,1.

Against the original 154,3 the expenditure was 164,9, and the excess is almost exactly accounted for by the following principal items :—

(1) Excess expenditure almost entirely in connexion with the introduction of the depôt system. Sambhur 4,2 against estimate 1, for construction, and 11,2 against 7,2 for Miscellaneous; Punjab mines 11,4 against 2,4 for construction; Neemuch, a new depôt, 1,5 unprovided for in estimates; total excess 18,6.

(2) On the other hand, manufacture at Pachbudra cost only 1,7 against an estimate of 8,5.

In other respects the estimates were fairly followed.

55. In Madras there is short expenditure of 97. The main part of this, 88, was on the charge for purchase and freight of salt (726 against estimate 814), a charge which necessarily varies according to the favorableness of the season for manufacture. In other charges, on the one hand there was saving of 73 on the provision for petty construction which was taken rather high at 186; on the other hand there was an excess expenditure of 55 in reorganizing the preventive establishments.

56. The *Bombay* estimates provided 45,0 new charges, in connexion with the Goa Treaty, more than half of which was for purchase of salt. The expenditure on this account was only 17,5.

On the other hand, heavy purchases of salt, at the end of the year, caused an excess expenditure under other heads of 6,2, which was of course met by increased revenue from sales. A preventive line on the Kathiawar frontier, not provided for in the Budget estimates, and sanctioned by the Government of India, only at the end of the year, cost 2,3.

## 8.—Stamps.

| 1880-81. Accounts. | | Budget | 1881-82 Revised. | Accounts. |
|---|---|---|---|---|
| | INDIA— | | | |
| 56,8 | Charges for sales (chiefly Discount) . . | 59,9 | 58,6 | 59,0 |
| 19,1 | Other expenditure . . . . . | 14,1 | 18,8 | 18,8 |
| 31,6 | ENGLAND . . . . . | 40,0 | 31,6 | 32,8 |
| 107,5 | TOTAL . | 114,0 | 109,0 | 110,6 |

57. The excess in "Other expenditure" is due to an error in the estimates; 6,5 were taken as a deduction from expenditure under "India" on account of value of stamped paper supplied to Madras, without being brought upon the Madras estimates.

The English charge is for stamped paper, and the supply was somewhat curtailed owing to the preparation of new patterns: the prices paid were also somewhat lower.

## 9.—Excise.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 95,4 | TOTAL . | 99,0 | 99,0 | 96,9 |

58. Except in two respects, the charges, which are mostly for establishments, closely follow the figures of last year and the estimates. In the North-West there were heavy contingent charges arising from the system of direct management there adopted, and an increase in the discount on opium sales, which necessarily corresponds to increased sales. These

## SECTION B.—DIRECT DEMANDS ON THE REVENUE.

charges were met by an increased grant of 20 by the Local Government. In Madras also the charge for purchase of arrack for sale in the town of Madras exceeded the Budget provision.

### 10.—Provincial Rates.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts |
|---|---|---|---|---|
| 46.4 | TOTAL . | 48.0 | 49,0 | 53,2 |

59. The increase over last year's figures and over the Budget estimate occurs almost entirely in Bengal, and is due to the payments of local cesses on Government estates, which are largely recoverable from tenants, having greatly exceeded the recoveries effected.

### 11.—Customs.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 25,6 | Burmah . . . . . | 27,6 | 26,2 | 25.9 |
| 69,8 | Bengal . . . . . | 70,0 | 69,5 | 68,6 |
| 22,2 | Madras . . . . . | 24.0 | 23,1 | 23,3 |
| 81 3 | Bombay . . . . . | 84,4 | 77,2 | 77.3 |
| 0 | England . . . . . | 0 | 0 | 0 |
| 198,9 | TOTAL . | 206,0 | 196,0 | 195,1 |

60. In Burmah the Budget provided for some new establishments which were not entertained, and in Bengal there was a small saving in the charges for the preventive establishments.

The chief part (5,9) of the saving in Bombay is owing to the withdrawal of the preventive lines on the frontier of Portuguese India, after the conclusion of the Goa Treaty.

### 12.—Assessed Taxes.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised | 1881-82. Accounts |
|---|---|---|---|---|
| 21.2 | TOTAL . | 15,0 | 14,0 | 13,1 |

61. The charges incurred were everywhere within estimate The decrease in expenditure, as compared with last year, arises from the reduction of establishments after the revisions of assessment made in 1880-81

### 13.—Forests.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts |
|---|---|---|---|---|
| 49,5 | Central Provinces . . . . . | 70,1 | 59,3 | 49,6 |
| 71,2 | Burmah . . . . . | 101,0 | 129,9 | 115,0 |
| 67,9 | North-West Provinces . . . . | 85,5 | 94.5 | 91,5 |
| 111,9 | Bombay . . . . . | 120,0 | 117,8 | 115,0 |
| 161,4 | Other Provinces . . . . . | 189,2 | 193,3 | 181,2 |
| 1,1 | England . . . . . | 5,2 | 5,2 | 5.3 |
| 466.0 | TOTAL . | 571,0 | 600,0 | 557,6 |

62. The Central Provinces Budget provided for charges connected with the supply of fuel to the Holkar State Railway, a scheme which was afterwards abandoned, as also a special purchase of machinery which was not made.

In Burmah the increase of expenditure arises from extended operations referred to on the revenue side.

In the North-West a considerable increase over Budget estimates was sanctioned for settlement of claims of certain contractors, which however was not all spent.

In Bombay the original estimate appears to have been too high, and though there was unanticipated expenditure at the end of the year in meeting the high demand for timber, the whole expenditure fell considerably within the estimate.

Under other provinces the saving occurred chiefly in the Punjab, and is stated to arise from economical working of the Department. Bengal and Madras are chiefly responsible for the excess as compared with 1880-81, which in both cases is attributed to extension of sales, the revenue having also increased by 12,4 and 7,0.

## SECTION B.—DIRECT DEMANDS ON THE REVENUE.

### 14.—Registration.

| 1880-81. Accounts | | 1881-82 Budget | 1881-82 Revised. | Accounts |
|---|---|---|---|---|
| 173,3 | TOTAL . . | 186,0 | 178,0 | 179,4 |

63. On the Burmah estimates there was a saving (11 against 20) owing to the Budget providing for certain re-arrangements of expenditure that were not fully carried out A similar considerable saving (234 against 290) occurred in Bombay, where provision was made for new charges in connexion with the Deccan Agricultural Relief Act, which turned out to be in excess of requirements In the North-West Provinces, on the other hand, there was an excess expenditure of 30 (315 against 285), which occurred entirely under Record Fund, it was met by and is due to increased receipts and better working of the system it represents.

## SECTION C.—POST OFFICE, TELEGRAPH AND MINT.

| 1880 81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 1,647,3 | RECEIPTS . . . | 1,537,0 | 1,510,0 | 1,489,7 |

64. In all three departments there has been less revenue in 1881-82 than in 1880-81. The falling-off in Actuals, as compared with Budget, is chiefly under Mint, the importation and coinage of silver being less than usual.

### XII.—Post Office.

| 1880-81. Accounts. | IMPERIAL POST OFFICE. | Budget. | 1881-82. Revised. | Accounts |
|---|---|---|---|---|
| 638,0 | Sale of Postage Stamps . . . | 639,4 | 590,0 | 592,2 |
| 199,6 | Parcel and other Postage collected in Cash . . . . . | 237,6 | 252,0 | 242,0 |
| 51,6 | Money Order Fees . . . . | 54,0 | 89,6 | 71,7 |
| 151,5 | Other Receipts . . . . . | 58,2 | 68,4 | 70,7 |
| 1,040,7 | TOTAL . | 989,2 | 1,000,0 | 976,6 |
| 25,9 | DEDUCT—Accounted for to other Governments . . . . | 257 | 28,2 | 313 |
| 1,014,8 | NET RECEIPTS . | 963,5 | 971,8 | 945,3 |
| 3,8 | ADD—District Post . . . . | 35 | 4,2 | 4,6 |
| 1,018,6 | TOTAL . | 967,0 | 976,0 | 949,9 |

65. The falling-off in Stamp Sale Receipts is partly accounted for by certain small items formerly paid in Stamps, coming during 1881-82 under the class of Cash Realizations; but there has been a real falling-off in revenue. Under Money Order Fees it is sufficient to say that the amount remitted rose from 4,570.9 in 1880-81 to 5,733.5 in 1881-82. Under "Other Receipts" a large falling-off was estimated in Bullock Train Collections, as it was intended to abolish the Calcutta Agency. This step, however, was not carried out.

### XIII.—Telegraph.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 452,9 | Indian . . . . . | 391.9 | 378,0 | 376,6 |
| 86,2 | Indo-European . . . . . | 89,1 | 98,0 | 92,6 |
| 539,1 | TOTAL . | 481,0 | 476,0 | 469,2 |

66. Under Indian the Budget anticipated a decrease of message revenue owing to the cessation of the Afghan War, and the estimate would have been fully realized or nearly so but for certain recoveries from Railways not made within the year.

67. The difference between Budget and Actuals in Indo-European is due to larger receipts in England, while the competing line *vid* Suez was interrupted (July and August 1881), and also to earlier settlement of accounts with the Indo-European Company.

### XIV.—Mint.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 76,1 | Seignorage on Silver . . . . | 72,6 | 34,1 | 43,4 |
| | Gain on Copper Coinage . . . . | 6,0 | 15,0 | 14.0 |
| 13,4 | Other Receipts . . . . . | 10.4 | 8,9 | 13,2 |
| 89,5 | TOTAL . | 89,0 | 58,0 | 70,6 |

68. The first two items here are extremely irregular, the first depending upon the importation of silver, and the second upon the absorption of copper coin. The estimate was made for an average importation, but as a matter of fact the imports were very short indeed Some importations into Calcutta, at the very end of the year, brought an unexpected increase over the revised estimate.

The importations of silver have been in recent years—

| | Net Importation. | Silver Coinage. |
|---|---|---|
| 1878-79 . . . | 3,970.7 | 7,210,8 |
| 1879-80 . . . | 7,869,7 | 10,257,0 |
| 1880-81 . . . | 3,892,6 | 4,249,7 |
| 1881-82 . . . | 5,379,0 | 2,186,3 |

## SECTION C.—POST OFFICE, TELEGRAPH AND MINT.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 1,766,0 | EXPENDITURE . | 1,765,0 | 1,811,0 | 1,771,7 |

69. Compared with last year there is more expenditure on Telegraph, but less in Post Office. On the other hand, Post Office has exceeded its estimates, but the other two departments shew a saving.

## 15.—Post Office.

| 1880-81. Accounts. | IMPERIAL POST OFFICE. | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 27,9 | Chief Post Office . . . . . | 29,6 | 30,1 | 30,7 |
| 523,9 | Presidency and District Offices . . . | 548,2 | 571,8 | 577,6 |
| 392,0 | Conveyance of Mails . . . . | 296,0 | 308,9 | 308,6 |
| 34,3 | Other Charges . . . . . | 33,2 | 35,5 | 26,7 |
| 978,1 | TOTAL . | 907,0 | 946,3 | 943,6 |
| 91,0 | ADD—District Post Office . | 90,9 | 105,0 | 107,5 |
| 1,069,1 | TOTAL INDIA . | 997,9 | 1,051,3 | 1,051,1 |
| 106,4 | ENGLAND . | 100,1 | 98,7 | 96,8 |
| 1,175,5 | TOTAL . | 1,098,0 | 1,150,0 | 1,147,9 |

70. There is an excess of expenditure under all the Indian heads. In the first two it was owing to additional establishments entertained during the year which were not sufficiently provided for in the estimates. The excess on charges for conveyance is connected with the increase in Bullock Train receipts, and like it is due to the non-abolition of the Calcutta Agency. The other charges contain some items which were taken in the estimate as chargeable to the War in Afghanistan.

Under District Post Office the chief increase is 11,1, new charges in connection with local postal service at Quetta.

71. In England there was a saving of 8,3 in the cost of stamps, against an additional payment of 5,0 under the postal arrangement with the English Treasury.

## 16.—Telegraph.

| 1880-81. Accounts. | INDIAN TELEGRAPH. | Budget | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | Capital Account. | | | |
| 44,1 | India . . . . . | 72,4 | 59,2 | 57,0 |
| 53,3 | England . . . . . | 67,0 | 67,3 | 49,1 |
| | Revenue Account. | | | |
| 304,4 | India . . . . . | 321,0 | 330,7 | 317,8 |
| 6,0 | England . . . . . | 6,0 | 6,0 | 6,9 |
| | INDO-EUROPEAN TELEGRAPH | | | |
| 60,4 | India . . . . . | 66,2 | 66,0 | 67,3 |
| 29,6 | England . . . . . | 29,4 | 37,8 | 38,1 |
| 497,8 | TOTAL . | 562,0 | 567,0 | 539,2 |

72. Under Indian Telegraph Capital Account the Revised Estimate was less than the Budget owing to recoveries expected from the Ceylon Government on transfer to them of the Ceylon Lines. The recovery in the accounts was 6,9. The English figure, chiefly purchase of stores, was reduced by postponement of certain payments.

In the Revenue Account the Revised Estimate provided for increases of pay due to the introduction of a revised scale of salaries; but the accounts shewed savings under other heads.

73. Under Indo-European the Indian figure was in excess of Budget owing to an arrear charge of the Marine Department on account of repairs of the Telegraph Vessel *Patrick Stewart*. The English figure was increased by a payment to be made to the Eastern Telegraph Company under the "*Common Purse*" arrangement—practically a refund of the excess receipts on the Revenue side.

## SECTION C.—POST OFFICE, TELEGRAPH AND MINT.

### 17.—Mint.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 43.9 | Calcutta Mint . . . . . | 44.7 | 39.9 | 40.6 |
| 44.7 | Bombay Mint* . . . . . | 40.5 | 31.3 | 27.9 |
| 3.4 | Stores from England . . . . . | 19.8 | 22.8 | 19.0 |
| 92.0 | TOTAL . | 105.0 | 94.0 | 87.5 |

* Includes 5 or 6 at Madras.

74. The saving in both the Mints is due to slackness of work. As mentioned on the Revenue side, the estimates were framed for a larger importation of silver than actually occurred, and the provision made for the engagement of temporary or extra establishments and for consumption of stores was greater than required.

## SECTION D.—RECEIPTS BY CIVIL DEPARTMENTS.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 1,468,2 | RECEIPTS . . . | 1,396,0 | 1,426,0 | 1,513,1 |

75. The principal improvement over 1880-81 under receipts is about 40,0 under Minor Departments, which is made up of several details. The receipts under all the heads were better than estimate.

| 1880-81. Accounts. | XV.—Law and Justice. | Budget. | 1881-82. Revised. | Accounts |
|---|---|---|---|---|
| 268,2 | Fees, Fines and Forfeitures . . . | 268,2 | 269,0 | 271,6 |
| 246,6 | Jail Manufactures . . . . . | 265,8 | 235,1 | 262,3 |
| 173,0 | Other receipts . . . . . | 130,0 | 138,9 | 143,6 |
| 687,8 | TOTAL . | 664,0 | 643,0 | 677,5 |

76. The figures of the year fairly followed the Budget estimates. Bengal and North-West both showed short realizations arising from too sanguine estimates of jail receipts, but in the other provinces the realizations more than covered the estimate.

Compared with last year the chief difference in "other receipts" is under the head "Unclaimed property," under which there were, in 1880-81, extraordinary receipts both in Madras and in Bombay.

| 1880-81. Accounts. | XVI.—Police. | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 130,5 | Fees, Fines and Forfeitures . . . | 129,8 | 134,3 | 136,7 |
| 111,3 | Other receipts . . . . . | 106,2 | 107,7 | 111,3 |
| 241,8 | TOTAL . | 236,0 | 242,0 | 248,0 |

77. Half the receipts (130,5 last year and 136,7 this year) are under the head of "Fees and Fines," which for the most part means Cattle Pounds. The realizations in almost every detail differ only slightly from those of last year and from those of the estimate. The only difference worthy of note is a realization of 5,0 from the Berars, being half of the amount due on a settlement of account in connection with the charges of the Thuggi and Dacoity Department.

| 1880-81. Accounts. | XVII.—Marine. | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | MARINE DEPARTMENT. | | | |
| 94,5 | Dockyards and Seagoing Vessels . . | 65,6 | 77,4 | 106,6 |
| | CIVIL DEPARTMENT. | | | |
| | (Ports, Light Houses and River Navigation.) | | | |
| 17,6 | Burmah . . . . . | 20,0 | 18,3 | 17,7 |
| 127,6 | Bengal (chiefly Hooghly Pilotage) . . | 117,5 | 104,4 | 108,2 |
| 1,7 | Madras . . . . . | 1,9 | 2,4 | 1,1 |
| 5,1 | Bombay . . . . . | 5,0 | 3,5 | 4,3 |
| 246,5 | TOTAL . . | 210,0 | 206,0 | 237,9 |

78. Under the first head, it is in the Dockyard chiefly that the increase occurs. It is due to large demands on the dockyards by other Departments, and is partly counterbalanced by increased expenditure.

In Burmah the failure was chiefly in the estimate of the earnings of a new steamer supplied to the Arracan Division.

In Bengal the receipts of Pilotage dues fell short, owing to the reduction of the rates by 15 per cent. in August 1881. Port dues at Calcutta were made over to the Port Commissioners in November, 1881, causing a further falling-off in the revenues and also in the corresponding expenditure.

## SECTION D.—RECEIPTS BY CIVIL DEPARTMENTS.

### XVIII.—Education.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 107,6 | Fees | 102,7 | 109,3 | 116,9 |
| 62,6 | Other Receipts | 40,3 | 69,7 | 72,4 |
| 170,2 | TOTAL | 143,0 | 179,0 | 189,3 |

79. A great part of the increase over Budget under "Other Receipts" is due to the inclusion within the accounts of the transactions of the Government Book Depôts at Madras and Bombay, whose accouuts have hitherto been kept outside. The increase was 8,0 in Madras and 15,6 in Bombay, counterbalanced by expenditure of 8,8 and 9,7. There is also a special recovery of 3,0 in Bengal, on account of lands occupied by a scientific institution.

Fees generally showed considerable increase, and especially in Bombay there has been great activity in establishing new schools and in contributing towards them.

The revenue through these causes somewhat exceeded that of last year, notwithstanding that the latter contained some exceptional items.

### XIX.—Medical.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| | INDIA— | | | |
| 16,5 | Hospital Fees | 18,3 | 15,9 | 15.6 |
| 24,8 | Other Receipts | 19.4 | 23,1 | 19,9 |
| 2,1 | ENGLAND | 4,3 | 4,0 | 4.0 |
| 43,4 | | 42,0 | 43.0 | 39,5 |

80. The falling-off in Budget, as compared with last year's figures, is chiefly ascribable to a special arrear recovery in Madras, which occurred in 1880-81. The Actuals of 1881-82 have very closely followed the estimates but for a falling-off under Hospital Receipts in Calcutta, arising from a reduction of the rate of recovery from the Port Funds on acccount of Sick seamen in hospital.

The English item under this head appertained to the Royal India Lunatic Asylum. The Budget included a special item of 2,5, sale proceeds of land required by a Railway Company, but, the claim going to arbitration, only 1,8 were received

### XX.—Scientific and other Minor Departments.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| | CINCHONA PLANTATIONS— | | | |
| 14,9 | England | 38,0 | 43,7 | 43,7 |
| 17,6 | India | 16,9 | 18,9 | 20,9 |
| | INLAND LABOUR TRANSPORT— | | | |
| 9,5 | Fees | 12,7 | 9,0 | 8,8 |
| 6,3 | MATHEMATICAL INSTRUMENT DEPARTMENT | 4,0 | 8,8 | 10,6 |
| 30,2 | OTHER ITEMS | 29.4 | 32,6 | 36,9 |
| 78,5 | TOTAL | 101,0 | 113,0 | 120,9 |

81. The increase in the first item is owing partly to Cinchona sales held over from last year, and partly to a larger supply than was expected being sent to England for sale. In India the supply of Cinchona febrifuge to the public and other Departments is increasing, so that the accounts produced 20.9 against an estimate of 16,9.

The Inland Labour Transport fees arise in connection with the supply of coolie labour to the Assam Tea Districts. The estimate was based upon realizations in 1879-80, but the emigration appears to be falling off.

The Mathematical Instrument Department had to meet unusual demands from other Departments, and especially one at the end of the year for 3,5 from the Public Works Department.

The "other items" are very miscellaneous and call for no remark.

## SECTION D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

| 1880-81, Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 10,567,6 | EXPENDITURE | 11,111,0 | 10,959,0 | 11,038,5 |

82. The increase over last year's expenditure is under Marine 70,0, Education 80,0, Political 120,0 (representing certain expenditure which in 1880-81 was classed as War expenditure), and Minor Departments 160,0 (chiefly the compilation of the Census).

## SECTION D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

The last two increases were not sufficiently provided for in the estimates, but under the other heads there were savings sufficient to cover this excess.

### 18.—General Administration.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | GOVERNMENTS AND SECRETARIATS. | | | |
| 357,3 | India | 340,6 | 328,5 | 320,0 |
| 14,8 | Central Provinces | 14,9 | 15,0 | 14,2 |
| 16,5 | Burmah | 17,3 | 16,2 | 15,8 |
| 13,2 | Assam | 13,3 | 13,3 | 11,9 |
| 60,8 | Bengal | 60,7 | 60,9 | 60,3 |
| 44,4 | North-West | 46,7 | 44,7 | 44,4 |
| 40,9 | Punjab | 42,3 | 44,2 | 42,9 |
| 71,2 | Madras | 69,8 | 70,8 | 71,8 |
| 97,4 | Bombay | 97,4 | 99,8 | 97,1 |
| 716,5 | TOTAL | 703,0 | 698,4 | 678,4 |
| | REVENUE CONTROL AND FINANCIAL OFFICES. | | | |
| 82,5 | India | 84,3 | 81,0 | 82,3 |
| 26,8 | Central Provinces | 26,7 | 26,9 | 26,3 |
| 24,7 | Burmah | 28,4 | 25,3 | 26,2 |
| 9,1 | Assam | 14,4 | 10,1 | 9,8 |
| 122,3 | Bengal | 124,3 | 124,5 | 122,4 |
| 103,2 | North-West | 103,3 | 103,2 | 104,1 |
| 79,0 | Punjab | 80,2 | 80,1 | 81,1 |
| 62,1 | Madras | 65,7 | 65,0 | 64,9 |
| 65,3 | Bombay | 68,6 | 65,8 | 67,4 |
| 575,0 | TOTAL | 595,9 | 581,9 | 584,5 |
| 240,6 | ENGLAND | 224,1 | 226,7 | 231,4 |
| 1,532,1 | TOTAL OF ALL | 1,519,0 | 1,502,0 | 1,494,3 |

83. Under the first head, Governments and Secretariats, there is a saving, first in the Household charges of the Governor-General, which were 15,2 in 1880-81 and 9,6, against an estimate of 16,0, in 1881-82 Tour expenses, that is, charges connected with the removal to and from Simla, were 71,7 against an estimate of 76,3. Again under "Legislative Council," the expenditure was 15,9 against a grant of 21,1, the expenditure under this head varying according to the number of official Additional Members. The saving in Assam is nominal only and is due to salaries not drawn within the year.

None of the other Indian figures seem to call for any remark.

84. The English charges exceed estimate, first, by outfit allowances of a Member of Council and by a payment to the Admiralty of 5, for the vessel in which Earl Lytton returned to England, and secondly, by the cost of Currency Notes, 8,7, which were budgetted for under the head of "Stationery and Printing."

### 19.—Law and Justice.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | COURTS OF JUSTICE AND LAW OFFICERS. | | | |
| 15,1 | India | 16,5 | 14,3 | 13,9 |
| 68,0 | Central Provinces | 69,9 | 67,6 | 68,0 |
| 83,5 | Burmah | 87,7 | 84,6 | 84,4 |
| 49,5 | Assam | 44,8 | 49,5 | 47,8 |
| 693,9 | Bengal | 699,7 | 698,9 | 722,8 |
| 391,9 | North-West | 394,4 | 389,7 | 392,2 |
| 207,1 | Punjab | 215,0 | 213,7 | 217,0 |
| 368,0 | Madras | 373,1 | 369,8 | 368,0 |
| 426,2 | Bombay | 431,9 | 424,9 | 426,5 |
| 2,303,2 | TOTAL COURTS OF JUSTICE | 2,333,0 | 2,313,0 | 2,340,6 |
| 145,5 | Port Blair Settlement | 161,4 | 150,4 | 139,3 |
| 515,3 | Jail Charges | 555,8 | 475,1 | 469,1 |
| 230,4 | Jail Manufactures | 282,0 | 227,5 | 225,9 |
| ... | Refunds | ... | ... | 48,5 |
| 8,9 | Other Charges | 17,4 | 14,7 | 9,1 |
| 3,203,3 | TOTAL | 3,349,6 | 3,180,7 | 3,232,5 |

## SECTION D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

85. Under "Courts of Justice" the payments are mostly salaries and establishments, and the estimates are usually closely followed in the accounts.

"India" shows a figure small enough to be affected, as in this case it is, by the reduced salaries drawn when officers of lower military rank are appointed to the offices. The apparent increase over estimate in Assam is due to an arithmetical error in the estimate. In Bengal the explanation is the same as in the case of Land Revenue, an over-estimate of the deductions accruing in consequence of absentees. In the other provinces the expenditure was within the estimates.

86. The cost of the Port Blair Settlement depends very largely upon the supplies made to it by the Commissariat Department, which for various reasons were unusually small in 1881-82.

A diminution in the number of new convicts diminished also the charges for passage money.

The saving under Jails was very general, and is in every province attributed to the low prices of food-grains; and in some also, in part, to a reduction in the number of prisoners.

Under Jail Manufactures the saving is in Burmah, which estimated 18,0 for new machinery which it did not get, and Bengal, which estimated highly both for machinery and for raw material, but on the whole spent only 71,0 against an estimate of 110,6.

87. The Estimate for "Refunds" was made under Head 3 but the charge in the accounts has been brought over to this head as explained in para. 49.

### 20.—Police.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 34,9 | India | 33,7 | 33,4 | 35,4 |
| 117,9 | Central Provinces | 121,0 | 118,7 | 118,7 |
| 174,8 | British Burmah | 205,9 | 190,9 | 191,7 |
| 80,2 | Bengal | 84,2 | 82,1 | 89,1 |
| 401,8 | Assam | 410,0 | 413,2 | 408,7 |
| 591,0 | North-West Provinces | 609,0 | 600,0 | 597,4 |
| 282,9 | Punjab | 280,0 | 281,8 | 283,6 |
| 424,4 | Madras | 415,5 | 416,0 | 413,1 |
| 416,3 | Bombay | 411,7 | 414,9 | 416,2 |
| 2,524,2 | | 2,571,0 | 2,551,0 | 2,553,9 |

88. These charges are almost entirely establishment charges, and are therefore easily within control of estimates. There appears a small excess in "India General," owing to an arrear payment on account of Kandahar Railway Police, and in Assam owing to a debit for accoutrements supplied by the Military Department, which had not been sufficiently provided for in the estimate. Bombay shews expenditure 416,2 against estimate 411,7, the excess being caused chiefly by a contribution for Railway Police sanctioned for the first time in 1881-82.

### 21.—Marine.

MARINE DEPARTMENT.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| 249,4 | Dockyards and Sea-going Vessels | 245,4 | 243,4 | 269,1 |

CIVIL DEPARTMENT.

Ports, Light-houses, and River Navigation.

| | | | | |
|---|---|---|---|---|
| 1 | Central Provinces | ... | 1 | ... |
| 24,3 | Burmah | 50,7 | 30,7 | 40,2 |
| 108,6 | Bengal | 121,7 | 109,7 | 105,5 |
| 9,4 | Madras and Punjab | 9,9 | 6,1 | 6,2 |
| 7,1 | Bombay | 4,4 | 4,0 | 4,6 |
| 152,7 | ENGLAND | 302,9 | 226,0 | 197,8 |
| 551,6 | TOTAL | 735,0 | 620,0 | 623,4 |

## SECTION D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

89. The excess under the first head is greater than the figures shew, as charges on account of Marine pensions, 12,7, though included in the estimates, were in the accounts, under orders from the Secretary of State, removed to the head of "Pensions." The increase of charges is mostly on account of Dockyard work, building and repair of ships, the total of which is 82,5 against an estimate of 64,8. This expenditure is met by increased receipts from other Departments on account of the work done. Under "Miscellaneous" there is also a large increase of expenditure, 48,9 against 10,5, of which the chief items are 14,0, an Abyssinian Expedition charge written off under orders of the India Office, and 4,0 on account of a steamer transferred from the Indian Troop transport service. Other heads shew a saving in consequence of several ships being unemployed during the year.

90. In *Burmah*, the saving of 10,5 arose from provision being made in the estimates for the expense of a steamer which was not ready in time.

In Bengal there were savings of about two lakhs, one the provision for a new Pilot brig which was not turned out, the other the consequence of the transfer to the Calcutta Port Commissioners of the charges and receipts on account of Port approaches, *i.e.* Hooghly river. The increase of shipping caused an extra charge of 5,8 for Pilotage, which of course was met by increased receipts.

In Madras, also, a saving occurred by the transfer of Port charges to a Port Fund.

91. Of the saving in England 40,0 is due to "Pensions" transferred to another head in the accounts, and 65,1 to charges, chiefly part of the cost of a new troopship, remaining unpaid at the end of the year.

### 22.—Education.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 13,7 | India | 14.5 | 14,3 | 14,8 |
| 53.7 | Central Provinces | 55,4 | 55,0 | 56,8 |
| 27,0 | Burmah | 39.5 | 31,0 | 32,4 |
| 21,3 | Assam | 26,6 | 22,8 | 22,5 |
| 256,9 | Bengal | 272,0 | 269.7 | 279,6 |
| 161,8 | North-West Provinces | 165,0 | 164.5 | 163.7 |
| 104,6 | Punjab | 111,4 | 108,1 | 110,1 |
| 146,4 | Madras | 152.5 | 163,7 | 170,4 |
| 212.7 | Bombay | 220,7 | 227,5 | 227,9 |
| 4 | England | 4 | 4 | 3 |
| 998.5 | TOTAL | 1,058,0 | 1,057,0 | 1,078.5 |

92. The increase in the Central Provinces is caused by the writes-off of old outstandings on account of Government Book Depôt. In Burmah the estimates appear to have been generally too high and were not worked up to, and the same remark applies to Assam.

In Bengal the Budget was exceeded chiefly owing to the omission from the Budget estimates of new expenditure arranged for in the Public Works Department on account of pupils in the Howrah Engineering College. The estimates for Government Colleges and Schools were also slightly exceeded.

A good deal of the increased expenditure in Madras and Bombay (8.8 in Madras and 9,7 in Bombay) is the expenditure of the Book Depôts newly brought with the corresponding receipts into the accounts In Madras, also, the "local" charges for education were generally insufficiently provided for.

### 23.—Ecclesiastical.

| 1880-81. Accounts. | | 1881-82 Budget. | 1881-82 Revised. | Accounts. |
|---|---|---|---|---|
| 158,6 | | 159,0 | 162.5 | 162.1 |

93. The increased expenditure is in small amounts in different provinces, and is due to an over-estimate in the Budget of the "Savings" arising from absentees.

### 24.—Medical.

| | | | | |
|---|---|---|---|---|
| 234,8 | Medical Establishments | 243,8 | 240,5 | 242.4 |
| 208,7 | Government Hospitals | 214,8 | 208.1 | 205,8 |
| 216,0 | Other Charges | 231,9 | 221,9 | 227,5 |
| 659,5 | | 690,5 | 670,5 | 675,7 |
| 7,2 | England | 7,5 | 7,5 | 7,5 |
| 666,7 | TOTAL | 698,0 | 678,0 | 683,2 |

94. In all the details above stated the actuals very closely follow the estimates. There was a saving in Bengal and in the North-West, which was, however, compensated by excess

## SECTION D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

expenditure in Madras and Bombay. The excesses were due in the case of Madras to grants made to Municipalities, and in the case of Bombay to short estimating.

### 25.—Political.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 254,3 | Political Agents and Establishments . . | 276,7 | 291,7 | 279,5 |
| 10,0 | Political Subsidies . . . . . | 132.1 | 212,1 | 180,5 |
| 20,6 | Charges on account of Khyber Tribes . | 22,8 | 25,1 | 13,0 |
| 7,1 | Ex-Amir of Kabul and Kabul Refugees . | 20,9 | 19,2 | 24,1 |
| 41,4 | Durbar presents . . . . . | 20,2 | 24,8 | 31,5 |
| 81,5 | Other Charges . . . . . | 63,0 | 63,3 | 94,9 |
| 444,9 | TOTAL INDIA . | 535,7 | 636,2 | 623,5 |
| 86,3 | ENGLAND . . | 26,3 | 26,8 | 25,8 |
| 531,2 | TOTAL . . | 562,0 | 663,0 | 649,3 |

95 Under the first head there was a saving in "India" of over 20,0, of which half occurred in the provision made for charges of Political officers, and half in the non-payment of a charge for the protection of communications in Biluchistan.

Against this there was, however, an additional charge of over 10,0 in Madras owing to the creation of the new appointment of Resident at Mysore, and Bombay shows extra charges of about 5,0 in connection with the administration of two villages acquired near Aden.

96. The succeeding heads represent charges arising out of the War in Afghanistan, and were not sufficiently known at the time of framing the estimates.

Under Durbar presents, both the Governments of India and of Bombay found unexpected demands and had to spend 19,4 and 6,1 against estimates of 11,0 and 2,6.

Under "Other Charges," part of the increase is in charges for entertainment of Chiefs, in which the Government of India spent 0,8 against a Budget provision of 6,0, and the Government of Bombay spent 2,2, and part of it is due to charges taken against this head which had been estimated under "Political Agents."

### 26.—Scientific and other Minor Departments.

| 1880-81. Accounts. | | Budget | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 119,7 | Survey of India . . . . . | 129,5 | 133,5 | 135,0 |
| 19,2 | Geological Survey . . . . . | 20,0 | 19,9 | 19,9 |
| 37,7 | Other Scientific Departments . . . | 45,0 | 46,3 | 46,5 |
| 54,1 | Cinchona and Botanical Gardens . . | 57,7 | 58,0 | 59,8 |
| 52,5 | Other Agricultural Departments . . | 56,8 | 59,0 | 61,0 |
| 30,2 | Census . . . . . | 71,6 | 150,5 | 158,6 |
| 23,2 | Other Statistical Charges . . . . | 24,8 | 23,6 | 24,8 |
| 34,7 | Emigration and Miscellaneous . . . | 33,8 | 34 7 | 34,8 |
| 371,3 | TOTAL INDIA . . | 438,7 | 525,5 | 540,4 |
| 29,8 | ENGLAND . . | 19,3 | 21,5 | 20,6 |
| 401,1 | TOTAL . . | 458,0 | 547,0 | 561,0 |

97. The charges under Survey of India exceeded the estimate by 6,0, of which amount 1,4 is due to excess work coming upon the Mathematical Instrument Department at the end of the year and is made up for by receipts. As regards the rest there has hitherto been some difficulty in apportioning the estimates and expenditure correctly between the Revenue and the Topographical Branches of the Survey and between the Government of India and other Governments A better system is now being adopted under which the expenditure will be capable of a more close comparison, without confusion between the various heads under which it comes. In the present case some of the charges entered in the estimates as belonging to the Revenue Branch appear to have been taken against the Topographical.

Under Other Scientific Departments there was an excess of 1,4 under "Repairs of Monuments of Antiquity," a department which was practically organised during the year.

Under Other Agricultural Departments the Industrial Exhibition held in Calcutta caused a slight excess of expenditure.

The Census expenditure was altogether under-estimated, and in every province it was found necessary to continue, for a much longer time than originally anticipated, the charges incurred in the compilation. Bengal was worst, having spent 61,5 against an estimate of 18,5.

## SECTION E.—MISCELLANEOUS.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 1,985,9 | RECEIPTS . . . . | 1,325,0 | 1,643,0 | 1,707,2 |

98. The accounts differ from those of 1880-81, chiefly by the abnormal receipt, in 1880-81, of 294,2 on account of Nizamat Stipend Fund. Compared with Budget we have 220,0 better under "Interest," of which three quarters is the premium on the loan of three crores raised in India, an unexpected receipt of 40,0 for contributions to pensions, and an exceptional receipt of 70,0 by realization of Local Fund investments under Miscellaneous.

### XXI.—Interest.

| 1880-81. Accounts. | INDIA :— | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 250,6 | Currency Investment . . . . | 249,9 | 249 9 | 249,9 |
| 354,8 | Loans to Municipalities, &c. . . . | 370,1 | 368,8 | 358,0 |
| | Premium on issue of Loan . . . | ... | 153,4 | 155,3 |
| 72,7 | Other Receipts . . . . . | 48,0 | 65,9 | 77,3 |
| | ENGLAND :— | | | |
| 23,9 | Investment of Cash Balance . . . | 10,0 | 54,0 | 54,3 |
| 171,9 | Premium on Loans . . . . . | ... | ... | ... |
| 1,8 | Other Receipts . . . . . | ... | ... | 2,1 |
| 875,7 | TOTAL . | 678,0 | 892,0 | 896,9 |

99. The interest on the currency investment is accurately calculable.

100. On Loans to Municipalities and Native States the following are the chief differences, as compared with Budget estimate: India —3,6, owing to the Jodhpore Durbar making large repayments of its loan out of the royalty due to it under the Salt Treaties.

Punjab —54, owing to the half-yearly payment from the Lahore Municipality not being recovered till April.

Madras —52, owing to the gradual repayment of outstandings due on account of the famine.

Bombay +45, owing to better recoveries from the Sindh landholders.

101. The high premuim realized on the issue of the four per cent. Loan of 1881-82 was certainly not expected at the time of the Budget, and no estimate of it was made.

102. Under "Other Receipts" there is a considerable increase in Madras, on arrears of revenue, and both in Madras and in other provinces the receipts of interest on investments of Local Fund balances were greater than estimated.

103. Unusually large remittances were made during 1881-82 from India to England, partly in order to meet the discharge of East India Bonds on 30th November and partly because the state of trade was such as to create a large demand for Council Bills. Thus the Home Balances stood at an unusually high figure, and the result is shewn in the high revenue from interest received on it.

### XXII.—Receipts in aid of Superannuation, &c.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 149,5 | Subscriptions to Military Funds, India . | 153.2 | 143,2 | 136,1 |
| 25,2 | Appropriation from old Military Funds . | 25,5 | 24,7 | 28,2 |
| 37,9 | Other items . . . . . | 36,9 | 40,2 | 86,0 |
| 103,4 | Subscription to Widows, and Military Funds, England . . . . . | 99,4 | 103,9 | 106,0 |
| 316,0 | TOTAL . | 315,0 | 312,0 | 356,3 |

104. The Fund subscriptions in England are increasing and in India they are falling off. The excess in the actuals, under the head "Other Receipts," is due to an exceptional receipt, at the end of the year, of 41,7 from the Puttiala State on account of Public Works officers employed on the Sirhind Canal Works.

## SECTION E.—MISCELLANEOUS.

### XXIII.—Stationery and Printing.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 62,5 | TOTAL . | 61,0 | 60,0 | 57,8 |

105. These are mainly sale-proceeds and press receipts. It was almost entirely in the Punjab that the receipts fell short of the estimate (8,1 against 18,4). 2,2 of this is due to a misclassification in the estimate of an item which belongs to "Stamps," but the mass of it (5,9) is a falling-off in Jail Press receipts, owing to the withdrawal during the year of business connected with the Post Office. In other provinces the receipts more than covered the estimate.

### XXIV.—Miscellaneous.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| | INDIA. | | | |
| 63,1 | Unclaimed Deposits and Bills . . | 50,8 | 56,5 | 67,1 |
| 54,5 | Rents . . . . . | 63,0 | 62,9 | 60,3 |
| 12,1 | Premium on Bills . . . . | 10,8 | 13,2 | 12,8 |
| 294,2 | Nizamat Deposit Fund . . . | ... | ... | ... |
| 212,4 | Other Items . . . . . | 140,4 | 233,2 | 240,5 |
| | ENGLAND. | | | |
| 68,6 | Sale of Land . . . . . | ... | ... | ... |
| 26,8 | Other Items . . . . . | 6,0 | 13,2 | 15,5 |
| 731,7 | TOTAL . | 271,0 | 379,0 | 396,2 |

106. Under the Indian heads above specified the receipts follow the estimate as closely as can be expected in items of a somewhat fluctuating nature. The bulk of the excess of 100,6 in the residual item arises from sales of investments of Local Funds, 61,2 in the Punjab and 8,4 in Madras. As the investments when made had been charged off on expenditure, the sales had to be brought in as receipts; but such transactions are now taken to advance heads.

The excess over Budget in England is mostly met by a corresponding excess in the payments, being prices levied from contractors but afterwards remitted.

## SECTION E.—MISCELLANEOUS CIVIL CHARGES.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 3,823,2 | . . EXPENDITURE . | 3,816,9 | 3,839,3 | 4,044,5 |

107. The excess over Budget estimate under this head is chargeable chiefly to an item of 90,4 paid in winding up claims on the Bengal Medical Retiring Fund, but not provided for in the estimates. The expenditure, however, exceeded estimate in other respects both under "Superannuation Allowances," and also considerably under "Stationery."

### 27.—Territorial and Political Pensions.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 155,2 | India . . . . . | 162,6 | 167,5 | 156,9 |
| 47,0 | Central Provinces . . . . . | 43,2 | 40,2 | 39,5 |
| ... | Burmah . . . . . | .. | ... | ... |
| 3,8 | Assam . . . . . | 3,9 | 3,6 | 3,1 |
| 106,2 | Bengal . . . . . | 106,8 | 96,7 | 100,7 |
| 107,7 | North-West Provinces . . . . | 112,5 | 107,5 | 105,2 |
| 47,9 | Punjab . . . . . | 48,3 | 46,0 | 46,1 |
| 108,0 | Madras . . . . . | 110,6 | 107,7 | 105,5 |
| 83,1 | Bombay . . . . . | 86,9 | 98,0 | 94,0 |
| 658,9 | TOTAL India . . . . . | 674,8 | 667,2 | 651,0 |
| 24,9 | England . . . . . | 61,1 | 21,1 | 31,3 |
| 683,8 | TOTAL . | 735,9 | 688,3 | 682,3 |

108. In India an item of 7,8, on account of Kabul Refugees, was included in the estimate, the payment of which has been alluded to under "22, Political." In Central Provinces, the payments fell short of estimate owing to the death of Raja Janoji of Bhonsla, the principal local pensioner. The amounts saved in the North-West Provinces are for the

most part merely awaiting claim, and those in the Punjab are lapses. In Madras there were savings, chiefly arising from lapses. In Bombay there were similar lapses, but there was on the whole an excess charge, owing to the grant of an allowance of 6,0 to the Ex-Wali of Kandahar, and to the re-grant, with arrears, of a lapsed pension of Ameer Sing, deceased in 1879.

109. The charges included in the English estimate were 21,1, allowance of Maharaja Dhuleep Singh, which was paid, and 40,0, an intended advance to him which was not made. Besides this, 10,2 was charged for allowances connected with the settlement of the Nizamat Stipend Fund, which in the Budget estimate were entered as chargeable against India.

## 28.—Civil Furlough and Absentee Allowances.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 217,5 | England . . . . . | 230,0 | 218,0 | 217,7 |
| 6,2 | India . . . . . | 4,0 | 5,0 | 4,9 |
| 223,7 | TOTAL . | 234,0 | 223,0 | 222,6 |

110. The saving in England was on account of Military officers in Civil employ. In India absentee allowances are charged to the head to which the officer's salary, when on duty, is charged, so that the figures under this head represent only the absentee charges for officers who have been lent to Native States.

## 29.—Superannuation Allowances and Pensions.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | CIVIL, INCLUDING MARINE. | | | |
| 48,2 | India . . . . . | 44,8 | 42.1 | 51,2 |
| 14,2 | Central Provinces . . . . . | 15,4 | 14,1 | 15,0 |
| 12,1 | Burmah . . . . . | 12,6 | 14,5 | 14,2 |
| 4,5 | Assam . . . . . | 5,5 | 5,5 | 4,8 |
| 119.3 | Bengal . . . . . | 97,4 | 95,0 | 95,1 |
| 110,1 | North West Provinces . . . . | 107,9 | 103,0 | 104,4 |
| 61,7 | Punjab . . . . . | 46.7 | 52,4 | 53,8 |
| 92,1 | Madras . . . . . | 78,5 | 87,0 | 85,4 |
| 134,2 | Bombay . . . . . | 105,6 | 106,1 | 114,1 |
| 596,4 | TOTAL CIVIL . | 514,4 | 519,7 | 538,0 |
| | DONATIONS TO CIVIL FUNDS. | | | |
| 41,1 | Bengal Civil Fund . . . . | 40,5 | 40,5 | 42,8 |
| 71,9 | Madras Civil Fund . . . . | 74.9 | 75,1 | 75,1 |
| 30,9 | Bombay Civil Fund . . . . | 31,8 | 31,9 | 32,1 |
| | MILITARY AND MEDICAL FUNDS. | | | |
| 15,4 | India . . . . . | 17.3 | 15,1 | 106,6 |
| 14,4 | Madras . . . . . | 16,3 | 15,2 | 15,2 |
| 9.4 | Bombay . . . . . | 12,6 | 8 5 | 5,4 |
| 779.5 | TOTAL INDIA . | 707,8 | 706,0 | 815,2 |
| 1,371,0 | England . . . . . | 1,356,0 | 1,367,0 | 1,367,1 |
| 2,150,5 | TOTAL . | 2,063,8 | 2,073,0 | 2,182,3 |

111. The estimates for Civil pensions are made by the rule of reckoning up the actually existing pensions, but the comparison of the above figures shews that lapses and deaths in 1881-82 did not provide for the new grants during that year. Most of the provinces shew an insufficient estimate, but as the pensions are transferred from one province to another, at the wish of the pensioner, the cases of over-estimate and under-estimate must in some measure be taken against each other. On the whole account, however, the provision was short by about four per cent., 514,4 against 538,0.

112. The donations to Civil Funds are mostly the additional grant of 4 per cent. interest on their balances. The calculation for the Bengal Civil Fund was short.

113. Under Military and Medical Funds there is a great excess charge, arising from steps being taken at the end of the year to meet the claims of subscribers to the Bengal Medical Retiring Fund by returning to them their subscriptions. The amount thus returned was 90,4, which was not provided for in the estimates. The saving in Bombay arose chiefly from short claims for passage allowances.

114. The excess of 11,1 in England is almost entirely one of arrangement of account Marine pensions, 35,2, being brought under this head from "Marine" and Military pensions, 21,4, being taken from it to "Army."

## SECTION E.—MISCELLANEOUS CIVIL CHARGES.

### 30.—Stationery and Printing.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| | PRINTING ESTABLISHMENTS. | | | |
| 84,1 | India | 72,4 | 83,0 | 82,3 |
| 5,7 | Central Provinces | 5,3 | 5,7 | 6,0 |
| 8,4 | Burmah | 13,1 | 11,3 | 11,7 |
| 2,1 | Assam | 2,4 | 2,1 | 2,2 |
| 29,2 | Bengal | 25,4 | 30,9 | 28,7 |
| 27,9 | North-West Provinces | 32,2 | 32,0 | 34,7 |
| 21,4 | Punjab | 23,5 | 24,2 | 25,0 |
| 24,4 | Madras | 25,9 | 23,8 | 24,2 |
| 24,5 | Bombay | 24,7 | 25,9 | 25,3 |
| 227,7 | TOTAL PRINTING | 224,9 | 238,9 | 240,1 |
| | STATIONERY. | | | |
| 142,0 | Bengal | 148,1 | 146,4 | 146,5 |
| 14,5 | Madras | 14,1 | 36,1 | 37,6 |
| 26,2 | Other Provinces | 37,3 | 26,9 | 23,0 |
| ... | Store adjustment | ... | —13,9 | ... |
| 74,6 | England | 87,6 | 127,6 | 118,7 |
| 257,3 | TOTAL STATIONERY | 287,1 | 323,1 | 325,8 |
| 485,0 | | 512,0 | 562,0 | 565,9 |

115. The printing charges in more than one province exceeded the estimates. In India the excess is greatest, and was due to failure to provide adequately for the extra establishments which the pressure of work caused to be retained during the year. But Bengal, North-West and Punjab all shew excesses of the same kind. To some extent the excess is connected with the Census work.

116. Stationery for general use is purchased in Bengal and in Madras, and is imported from England; in Bengal the purchases were within estimate. In Madras they considerably exceeded owing to the system of local purchase being made to supplant in part that of indent on the India Office. Notwithstanding the falling-off in the demand from Madras, the indents on the India Office so far exceeded anticipation as to produce an excess over estimate of 31,1.

The "Store adjustment" figure in the revised estimate was an error; the adjustment ought necessarily to have been as much on one side as on the other.

### 31.—Miscellaneous.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 16,4 | India | 17,3 | 17,5 | 22,0 + 27,9 |
| 5,7 | Central Provinces | 5,9 | 5,8 | 5,6 + 3,7 |
| 10,9 | Burmah | 11,9 | 15,5 | 14,4 + 1,3 |
| 7,7 | Assam | 7,3 | 7,8 | 7,2 + 1,2 |
| 43,6 | Bengal | 36,3 | 40,4 | 39,6 + 39,4 |
| 16,9 | North-West Provinces | 21,0 | 20,0 | 18,3 + 0,9 |
| 21,2 | Punjab | 25,3 | 20,0 | 15,1 + 4,4 |
| 87,7 | Madras | 88,0 | 109,8 | 95,5 + 6,8 |
| 39,2 | Bombay | 38,0 | 34,2 | 30,4 + 7,5 |
| 249,3 | TOTAL INDIA | 251,0 | 271,0 | 248,1 + 99,1 |
| 30,8 | England | 20,0 | 22,0 | |
| | | | | 44,2 |
| 280,1 | TOTAL | 271,0 | 293,0 | 391,4 |

117. The charges taken under this head are Petty Local Fund establishments (under which Madras shews a large charge of 58,5), Rents, Rates and Taxes, Remittance of Treasure, Donations for charitable purposes, and a number of other items.

The second figure stated in the accounts column is the amount of "Miscellaneous Refunds" which has been brought over from Head 3 (vide para. 49), and of which the corresponding estimate will be found under that head; consideration of these is excluded in the following remarks.

Under India an abnormal charge of 5,4, connected with the occupation of Kandahar, accounts for the excess of actuals over the estimate.

## SECTION E.—MISCELLANEOUS CIVIL CHARGES.

The excess in Burmah is accounted for by increase of Treasury remittances and by a revision of the scale of rewards for destruction of wild animals.

In Bengal an unexpected charge, in connexion with the Port Canning Estate, is chiefly accountable for the excess.

In Madras 6,7 were spent upon special enquiries, one regarding land tenures, and one regarding Rumpa affairs, for which no provision had been made, and 2,6 in writing-off a famine loan granted to a zemindar.

Half the saving in the Punjab is due to the corresponding charges being more accurately taken under more definite heads.

118. In the English accounts there is an expenditure of 44,2 against an estimate of 20,0. 6,0 of the difference is a *per contra* entry, in remission of fines noticed on the receipt side; but the chief difference lies in the adoption of a system of insurance on stores shipped for India, of which the receipts and charges are both to be taken under this head

## SECTION F.—FAMINE RELIEF AND INSURANCE.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 34,5 | EXPENDITURE . . | 1,500,0 | 1,500,0 | 1,500,0 |

119. This head represents a policy introduced for the first time in the estimates of 1881-82.

The grants under it are necessarily exactly worked up to, if by reason of actual famine they are not exceeded. Half is devoted to famine relief and reduction of debt. The charges under the first were fortunately very small, and under the second the money was duly transferred to the account of the Commissioners for the Reduction of Debt, and partly used by them. The other half, reserved for Public Works of a protective character, was somewhat underspent, but the charge was brought up to the estimate by an adjustment which has the practical effect of enabling the estimated expenditure to be carried forward into next year.

### 32.—Famine Relief.

| 1880-81. Accounts. | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|
| 34,5 . . . . . | *Nil* . | 23,0 | 34,8 |

120. The expenditure classified as famine relief is in the following provinces: Bengal —12,3, North-West Provinces 2, Punjab 3, and Madras 46,4, England 2; total 34,8.

The smaller figures we may dispose of at once. The North-West item and the English item are both arrear payments of allowances earned by officers in connexion with the Madras famine, and the Punjab item is the excess cost of certain Public Works in the Hazara district in 1878-79, which should have then been charged off.

The Bengal item is the difference between certain recoveries of Famine advances of the 1874 famine 16,2, and an expenditure of 3,9 in the relief of Hill tribes suffering from distress on the eastern frontier of Bengal. The Government of India sanctioned 5,0 for the purchase of rice for distribution among them.

The Madras expenditure is in connection with the famine of 1877-78, and is for the most part the write-off of payments then treated as advances but now pronounced irrecoverable. These writes-off amount to—weavers' advances, 14,2, seed-grain advances, 3,6; loans for "land improvement," 4,9; irrecoverable excess of value of famine cloths, 23,7; total 46,4. There are a number of smaller items but they balance each other, being 12,8 on each side of the account.

### 33.—Protective Works, Railways.

| 1880-81. Accounts. | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|
| *Nil.* . . . . . | 574,0 | 574,0 | 614,6 |

121. The Budget grant for Protective Works was only a guess and expressed the policy of Government in setting apart 750,0 for Protective Works each year. The appropriation of the grant to special works was accomplished only at a later date, and was as follows for Protective Railways:—

| | Estimate. | Actuals. |
|---|---|---|
| Southern Mahratta Railway . . . . . | 315,0 | 290,1 |
| Rewari-Hissar Railway . . . . . | 207,7 | 162,2 |
| Stores . . . . . | 51,3 | 162,3 |
| TOTAL . . . | 574,0 | 614,6 |

122. The savings on the first head are due to the supplies of stores from England falling short of the estimate. A similar explanation applies in part to the Rewari-Hissar Railway, the work preparatory to which was not accomplished so quickly as expected.

## SECTION F.—FAMINE RELIEF AND INSURANCE.

123. The charge for stores is an adjustment made under Financial Department No. 4876, dated 11th November 1882, and No. 612, dated 1st February 1883, in order to bring up the expenditure on the whole to the allotted amount of 750,0, that is, the Government, which actually possesses railway stores, and has charged for them under the account of Productive Public Works Capital, transfers them to Protective Works, and deducts the expenditure from Productive Public Works Capital. The effect of this transfer is that expenditure can go on next year to the amount of the stores thus set apart without trenching upon the new year's grant of 750,0, and that short expenditure of one year can be made up by excess expenditure the next year without going beyond the money limit of 750,0. The value of stores transferred in excess of calculated requirements for 1881-82 was 111,0, and those stores will be brought into use in 1882-83 without further demands on the Treasury.

The expenditure for Railways 614,6 and Irrigation 135,4 thus together make up the total allotment of 750,0.

## 34.—Protective Works—Irrigation.

| | | | |
|---|---|---|---|
| *Nil* . . . . . | 153,0 | 153,0 | 135,4 |

124. The following is the expenditure on Protective Works—Irrigation.

| | | Outlay before 1881-82. | Outlay during 1881-82, Budget. | Outlay during 1881-82, Actual. | Remaining to be spent. |
|---|---|---|---|---|---|
| | N. W.-Provinces. | | | | |
| 1 | Betwa Canal . . . . . | 17,9 | 25,0 | 16,6 | 266,8 |
| | Punjab. | | | | |
| 2 | Swat River Canal . . . . . | 133,9 | 40,0 | 40,7 | 180,0 |
| | Bombay. | | | | |
| 3 | Nira Canal . . . . . | 80,8 | 62,0 | 53,8 | 263,1 |
| 4 | Mhasnad Tank . . . . . | 37,6 | 17,5 | 15,9 | 128,0 |
| 5 | Gokak Canal . . . . . | 24,8 | 2,5 | 2,4 | 10,7 |
| | Madras. | | | | |
| 6 | Survey, &c., for Canal Irrigation to Gopalpur . . | | 6,0 | 6,0 | |
| | | | 153,0 | 135,4 | |

125. There was a failure to work up to the estimate in the case of No 1 owing to alteration in the site of the head works and to difficulty in obtaining land. In No. 3, it is due to delay in the settlement of claims to compensation for the land required for the project.

## 35.—Reduction of Debt.

| | | | |
|---|---|---|---|
| *Nil* . . . . . | 750,0 | 750,0 | 715,2 |

126. The operation of the remaining account "Reduction of Debt" is that the balance of 750,0, after providing for actual famine relief, is placed in a separate account at the credit of the Commissioners for the Reduction of Debt. This balance in the year amounted to 715,2. The Government had already directed the following reductions of debt:—

| | | | Paid off. |
|---|---|---|---|
| 4 per cent. Loan of 1871 . . . | 203,1 | payable on 13th February 1882. | 171,6 |
| 5 per cent. Debenture of 1867 . . | 600,3 | „ 1st June 1882. | ... |
| 4 per cent. Sicca Loan, 1824-25 . | 31,6 | „ 27th March 1882. | 2,1 |
| „ „ 1828-29 . | 6,3 | „ „ | 4 |
| | 841,3 | | 174,1 |

and to the extent to which the debt is actually paid off it reclaims the money from the Commissioners' account. The actual payments made up to March 31st were 174,1 as above detailed, and thus at the closing of the accounts 541,1 of the expenditure taken under this head remained at the credit of the Commissioners.

## SECTION G.—REVENUE FROM PRODUCTIVE PUBLIC WORKS.

127. As the charges taken under interest belong to more than one of the heads of this account, we may shew the results of the Productive Public Works policy by a slight rearrangement of the figures, thus—

| | State Railways. | Guaranteed Railways. | East India Railway. | Irrigation. | Madras Irrigation Company and Harbour. | TOTAL. |
|---|---|---|---|---|---|---|
| Specific Revenue . | 2,556,5 | 3,615,6 | 3,261,7 | 865,8 | —88 | 10,290,8 |
| Land Revenue . | ... | ... | ... | 491,2 | ... | 491,2 |
| TOTAL REV. . | 2,556,5 | 3,615,6 | 3,261,7 | 1,357,0 | —88 | 10,782,0 |
| Specific Expenditure | 1,686,4 | 3,679,9 | 1,437,6 | 455,6 | 50,5 | 7,310,0 |
| Interest on Capital . | 1,160,5 | ... | 434,2 | 726,4 | 17,9 | 2,339,0 |
| TOTAL EXPTRE. . | 2,846,9 | 3,679,9 | 1,871,8 | 1,182,0 | 68,4 | 9,649,0 |
| Net Gain or Loss according to accounts | —290,4 | —64,3 | +1,389,9 | +175,0 | —77,2 | +1,133,0 |
| DEDUCT—Exchange | ... | —736,0 | —374,4 | ... | ... | —1,110,4 |
| Net Gain or Loss including Exchange | —290,4 | —800,3 | +1,015,5 | +175,0 | —77,2 | +22,6 |

The Exchange is reckoned on the Guaranteed and East India Railways on the whole expenditure, in these cases in sterling. Properly speaking, we should on the same account reckon a charge against all the heads for current expenditure on stores, and against State Railways and Irrigation for so much of the interest as represents capital expenditure on stores; but I have not ventured upon this refinement.

---

## SECTION G.—REVENUE FROM PRODUCTIVE PUBLIC WORKS.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 9,381,8 | RECEIPTS. . | 9,380,0 | 10,558,0 | 10,782,0 |

128. Railway receipts were under every head much better than estimate, namely, State Railways, 136.0; Guaranteed, 885,0; and East India, 462,0 The principal increase under Guaranteed was on the Great Indian Peninsula Railway, net 775,0; the increases on other lines were mostly swallowed up by the increase of expenditure on the Sindh, Punjab and Delhi Railway. Under Irrigation, direct receipts were better, but indirect (Land Revenue) worse.

### XXV.—State Railways—Gross earnings.

129. In the following statement the particulars are given both of revenue and of expenditure of State Railways, because it is most convenient to consider them together, and because the figures thus better compare with those of the next head, Guaranteed Railways. The amount stated in the Capital column includes the whole Capital expenditure upon the line concerned, whether wholly open or not; but it so happens that the Nagpur and

## SECTION G.—REVENUE FROM PRODUCTIVE PUBLIC WORKS.

Chattisgarh Railway is the only case in which the Capital represents any considerable expenditure beyond that on line already opened.

| Accounts, 1880-81 | | | Capital, 31st March 1882 | | Budget, 1881-82. | | | Revised, 1881-82. | | | Accounts, 1881-82. | | | Percentage of charges |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Gross. | Maintenance | Net. | | | Gross. | Maintenance. | Net | Gross | Maintenance. | Net | Gross | Maintenance. | Net. | |
| 611,9 | 410,1 | 181,8 | 9,018,2 | Rajputana and Malwa | 805,0 | 535,0 | 270,0 | 984,0 | 605,0 | 379,0 | 1,01 ,3 | 581,5 | 430,8 | 57 4 |
| 22,9 | 19,9 | 3,0 | 869,0 | Sindia | 45,0 | 30,0 | 15,0 | 32,5 | 23,0 | 9,5 | 32,9 | 23,8 | 9,2 | 72 3 |

130. *Rajputana-Malwa Railway.*—The opening of the Neemuch-Nasirabad section of the line on December 1, 1881, completed the through communication between the North-West and Bombay, and the lines hitherto known as the Holkar, Sindia-Neemuch and Neemuch-Nasirabad were amalgamated into one system with the Rajputana line. The increase of line and development of traffic caused an addition of 180,0 in the revised estimate, and this was more than realized.

The increased traffic necessitated increased expenditure, but besides this heavy expenditure was called for to repair serious damage caused by the rains, and to strengthen a portion of the Holkar Railway.

131. *Sindia Railway.*—At the time of the estimates the line had not been opened throughout and the estimate was framed for a proportional increase of traffic. This, however, was not realized, but the decrease in traffic was accompanied by a considerable decrease also in expenditure

132. *Wardha Coal Railway.*—There was an increased output of coal, consequently increased revenue, as also increased expenditure. The chief increase in the expenditure is, however, due to new pumping engines recently obtained.

133. *Punjab Northern Railway.*—The only experience of this line being that of a period of high war traffic, it was very difficult to say what the normal traffic of the line would be. The estimates no doubt were too highly framed, but then the traffic was greatly affected by a sickly season in the Punjab, and by the want of confidence engendered by the Railway having at the beginning of the year to refuse considerable amounts of traffic for want of rolling-stock. The Budget estimate of 450,0 was accordingly reduced in the Revised to 317,5, and a little more than this was realized.

The saving in expenditure, 286,8, against estimate, 340,0, is due to the diminished traffic, and to endeavours to economize the working.

134. *Indus Valley Railway.*—The traffic was somewhat less than estimated, but the recovery of some outstandings brought up the receipts. The increase of 15,0 in expenditure is owing to extra mileage run.

135. *Dhond and Manmad.*—There is no gross account in this line, the net earnings being received from the Great Indian Peninsula Railway who work the line They were not quite so much as anticipated.

136. *Nagpur and Chattisgarh* —Heavy grain traffic in the last quarter of the year brought in increased receipts The expenditure had been somewhat over-estimated, and it was found possible to work the increased traffic with fewer trains.

137. *Rangoon and Irrawaddy.*—There was a steady improvement of traffic which it was found possible to meet without increase of expenditure.

138. *Calcutta and South-Eastern.*—The receipts are better than estimate, but are not yet enough to cover the maintenance charges.

139. *Nalhati.*—The line only just pays its way, and it was a little better than estimate.

140. *Tirhoot.*—The Budget estimates were very accurately followed.

## SECTION G.—REVENUE FROM PRODUCTIVE PUBLIC WORKS.

141. *Northern Bengal Railway.*—There was a considerable increase over the estimates in the goods traffic, and there was a small decrease in the expenditure.

142. *Patna-Gya Railway.*—There was a small improvement in traffic, but the expenditure exceeded estimate by 5.1, owing chiefly to heavy charges for hire of rolling-stock from other lines.

143. *Muttra-Hattras Railway.*—The estimate of traffic was not quite realized. The charges were somewhat exceeded owing first to repairs to rolling-stock, and second to the debitting against this line of part of the charges for general administration.

144. *Cawnpore-Furrakhabad Railway.*—The traffic on this line, of which this was the first complete year, rapidly developed and increased by 50 per cent on estimate. Nevertheless the charges only slightly exceeded estimate.

145 *Ghazipur-Dildarnagar and Achneyra-Muttra Railway.*—In these cases the estimates were only tentative, and in the first case they were not realized.

## XXVI.—Guaranteed and Subsidized Railways, Net Traffic Receipts.

| Accounts, 1880-81. | | | Guaranteed Interest, 1881-82. | Guaranteed Railways | Budget, 1881-82 | | | Revised, 1881-82 | | | Accounts, 1881-82. | | | Percentage of maintenance. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Gross. | Maintenance | Net | | | Gross | Maintenance | Net | Gross | Maintenance | Net. | Gross | Maintenance | Net. | |
| 888,8 | 511,8 | 377,0 | 400,5 | Bombay, Baroda and Central India | 1,030,0 | 530,0 | 500,0 | 1,030,0 | 450,0 | 580,0 | 1,070,9 | 513,5 | 557,4 | 47·9 |
| 564,2 | 295,7 | 268,5 | 154,3 | Eastern Bengal | 480,0 | 310,0 | 170,0 | 645,0 | 315,0 | 330,0 | 673,9 | 326,3 | 347,6 | 48·4 |

| 514,8 | 307,0 | 207,2 | 280,3 | Oudh and Rohilkund | 515,0 | 355,0 | 160,0 | 550,0 | 355,0 | 195,0 | 549,2 | 341,7 | 205,5 | 62·5 |
| 2,013,5 | 1,510,2 | 503,3 | 553,9 | Sind, Punjab and Delhi | 1,130,0 | 1,030,0 | 100,0 | 1,500,0 | 1,205,0 | 295,0 | 1,515,2 | 1,197,1 | 317,9 | 79·0 |
| 377,3 | 240,1 | 137,2 | 204,2 | South-Indian | 185,0 | 245,0 | 140,0 | 377,5 | 257,5 | 120,0 | 404,4 | 278,8 | 125,6 | 64·9 |
| 7,882,3 | 4,987,6 | 2,894,7 | 2,951,8 | Total | 7,490,0 | 4,760,0 | 2,730,0 | 8,262,5 | 4,772,5 | 3,490,0 | 8,425,7 | 4,810,2 | 3,615,5 | 57·2 |

146. *Bombay-Baroda and Central India Railway* —The traffic receipts were estimated at 1,030,0 against 888.8 in 1880-81, as an improvement was expected in consequence of the opening of the Rajputana Railway. The increase was still greater than expected. The Budget expenditure of 530,0 included 50.0 for the completion of the Nerbudda bridge. When this was found not to be required the Revised estimate was reduced, but heavy renewals at the end of the year brought the expenditure to 513.5.

147. *Eastern Bengal Railway.*—The traffic was exceptionally heavy and gave a large increase over estimate. The Revised estimate of expenditure included a large amount set aside for heavy repairs and renewals, which were not fully utilized

148. *Great Indian Peninsula Railway.*—There was an extraordinary increase of traffic on this line, due in a large measure to the development of the wheat export trade in 1881, a trade which was largely encouraged by short crops in Europe and America. The expenditure was less than estimate, but the reduction is more nominal than real, and occurs chiefly in the Suspense transactions.

149. *Madras Railway.*—The revenue is steadly increasing. The expenditure fell short of estimate chiefly in consequence of delay in arrangements for the construction of 100 new wagons.

150. *Oudh and Rohilkund Railway.*—Both revenue and expenditure slightly better than estimate. Increase of expenditure, compared with 1880-81, due to heavy repairs.

151. *Sind, Punjab and Delhi Railway.*—The high figures of 1880-81 were due to the War traffic, and for 1881-82 only ordinary rate of revenue was estimated, which has been more than covered. The expenditure has exceeded estimate partly owing to heavy renewals and repairs, but chiefly, as the Accountant General, Public Works Department, reports, owing to inefficient and extravagant management.

152. *South India Railway.*—For proper comparison of accounts with Budget, 13.0 should be added on both sides being cost of carriage of Revenue stores. With this addition the revenue and expenditure are both a little worse than estimate.

## XXVII.—East India Railway, Net Traffic Receipts.

| 1880-81. Accounts | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 4,252,8 + 18,7 | Traffic Receipts . . | 4,250,0 | 4,600,0 | 4,710,5 + 29,6* |
| 1,482,3 ... | Deduct Expenditure . . | 1,450,0 | 1,490,0 | 1,448,8 + 29,5 |
| 2,770,5 + 18,7 | Net Earnings . . . | 2,800,0 | 3,110,0 | 3,261,7 + 1 |

* Including [illegible] in England.

## SECTION G.—REVENUE FROM PRODUCTIVE PUBLIC WORKS

The figures separately stated with a + are arrear adjustments belonging to the account of the line as a Guaranteed Railway.

153. The Budget estimate of receipts was placed at 4,250,0, the same as the expected receipts of 1880-81, because there was a slight downward tendency in the revenue, and it was not possible to say whether it would not be still more marked by the opening of the Rajputana Railway towards Bombay. The traffic till the end of December showed so much increase that the revised estimate was taken at 4,600,0, and would have been taken higher but for fears, which proved unfounded, that a reduction of third-class fares, made on 1st January 1882, would prejudice the receipts. That month itself, however, showed an immense increase, owing to a special fair held at Allahabad, and the year terminated with 4,710,3.

The expenditure was first estimated at 1,450,0, and in the revised at 1,490,0. The increase anticipated in the Revised was not, however, actually spent, a result partly owing to materials required for repairs not being available.

### XXVIII.—Irrigation and Navigation, Direct Receipts.

| 1880-81. Accounts | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | IMPERIAL— | | | |
| 36,8 | North-West Provinces | 35,0 | 52,2 | 49,1 |
| 198,5 | Punjab | 246,9 | 208,0 | 233,0 |
| 14,7 | Madras | 13,0 | 12,7 | 15,2 |
| 15,6 | Bombay | 20,3 | 21,6 | 24,5 |
| 265,6 | TOTAL IMPERIAL | 315,2 | 294,5 | 321,8 |
| | PROVINCIAL— | | | |
| 101,5 | Bengal | 120,0 | 107,2 | 125,5 |
| 271,6 | North-West Provinces | 303,3 | 401,8 | 418,3 |
| 373,1 | TOTAL PROVINCIAL | 423,3 | 509,0 | 543,8 |
| 5 | ENGLAND | 5 | 2 | 2 |
| 639,2 | TOTAL | 739,0 | 803,7 | 865,8 |

154. The falling-off in the Punjab is only apparent and is due to the transfer of Water-advantage rates to the head of Land Revenue, under Productive Public Works.

The revised estimate in Bengal anticipated short collections owing to prevalence of low prices. In the case of the North-West the two figures, Imperial and Provincial, form a single account, and the combined increase was owing to the transfer from Ordinary to Productive of the Eastern Jumna Canal, and also to arrear collections and increased demands.

### XXIX.—Madras Irrigation and Canal Company, Net Traffic Receipts.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 8,9 | Earnings | 9,4 | 7,2 | 7,6 |
| 16,5 | Working Expenses | 25,7 | 17,6 | 16,5 |
| —7,6 | Net Earnings | —16,3 | —10,4 | —8,9 |

### XXX.—Portion of Land Revenue due to Irrigation.

| 1880-81. Accounts. | | 1881-82 Budget. | 1881-82 Revised | Accounts |
|---|---|---|---|---|
| 65,1 | North-West Provinces | 66,9 | 87,0 | 87,2 |
| 161,2 | Punjab | 16,8 | 31,6 | 33·3 |
| 552,1 | Madras | 600,0 | 539,0 | 334,5 |
| 18,9 | Bombay | 23,3 | 21,4 | 36,2 |
| 797,3 | TOTAL | 707,0 | 679,0 | 491,2 |

155 The increase in the North-West is due to the transfer of the Eastern Jumna Canal from Ordinary to Productive; that in the Punjab to the transfer to this head of Water-advantage rates hitherto taken as direct receipts.

The very great decrease in the Madras figures is due to the fact of the Board of Revenue, on whose report the deduction is taken, having this year excluded the receipts which are due to old works not included in the list of Productive Works.

## SECTION G.—EXPENDITURE ON PRODUCTIVE PUBLIC WORKS (REVENUE ACCOUNT.)

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 9,259,4 | EXPENDITURE . | 9,680,0 | 9,673,0 | 9,649,0 |

156. Under this head we have first a payment of Guaranteed Railways profits, exceeding the estimate by 160,0, the direct consequence for the most part of better revenue. Both State Railways and Irrigation cost for maintenance and working a little more than estimated; due in the first case to increase in receipts. These increases were compensated for, so far as the account of Protective Public Works is concerned, by a reduction, in the rate of interest charged against the account, from 4½ to 4, the amount of the reduction being 220,0.

### 36.—State Railways, Working and Maintenance.

157. The figures and explanations under this head have already been given in connexion with the expenditure.

### 37.—Guaranteed and Subsidized Railways, Interest and Profits, &c.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised | Accounts. |
|---|---|---|---|---|
| 7,4 | GUARANTEED INTEREST— India . . . . . | 4,8 | 6,2 | 7,0 |
| 3,254·5 | England . . . . . | 3,267,0 | 3,265,0 | 3,264,8 |
| | MOIETY SURPLUS PROFITS— | | | |
| ... | Bombay, Baroda and Central India . . | 45,0 | 86,4 | 86,4 |
| 35,7 | Eastern Bengal Railway . . . | 55,4 | 57,9 | 57,9 |
| 55,9 | Great Indian Peninsula Railway . . | 65,0 | 186,9 | 186,9 |
| ... | Sind, Punjab and Delhi Railway . . | 0 | 2,1 | 2,1 |
| 57,6 | LAND AND CONTROL . . . | 78.8 | 85.5 | 74.7 |
| 3,411,1 | TOTAL . . | 3,516,0 | 3,690,0 | 3,679,8 |

158. The Guaranteed interest payments exactly agree with Budget 2,2 being transferred from England to India. The details of Railways may be seen in the figures shewn on the Revenue side.

In the surplus profit figures, the Bombay, Baroda and Central India figures exceeded estimate chiefly in consequence of the appropriation of 50,0 from profits to the Nerbudda Bridge not being required The estimate for the Great Indian Peninsula Railway was made at a time (February 1881) when there had been a sudden collapse in the revenue by the line, which immediately thereafter recovered itself, and appeared in the large profits —payment made in December 1881 for the half-year ending June 1881.

The increase in the charges for Land and Control are due to land required in Bombay for the new Byculla Station, and to land required for the extension of the Oudh and Rohilkund Railway. For both of these additional grants were made during the course of the year.

### 38.—East India Railway, Interest and Profits.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | ENGLAND — | | | |
| 262,0 | 4 per cent. on the deferred annuity . . | 262,0 | 262,0 | 262,0 |
| 711,2 | Annuity of 1,179 2, unredeemed portion . | 974,9 | . . | 949,8 |
| 19,3 | One-ninth of the redeemed portion paid to Sinking Fund . . . . . | | 975,4 | 26,6 |
| 8 | Contribution to Management . . . | | ... | 1,0 |
| | Interest on Debentures of East India Railway . | 145,5 | ... | ... |
| 993,3 | TOTAL ENGLAND . | 1,382,4 | 1,237,4 | 1,239,4 |
| | INDIA— | | | |
| 107,7 | One-fifth surplus profits paid to Company . | ... | ... | 184,7 |
| 15,3 | Contribution to Provident Fund of 1 per cent. on net traffic earnings . . . . | ... | ... | 13,5 |
| | Payment for Land . . . . . | . | .. | 1,1 |
| 123,0 | . . . . . | 204,6 | 199,6 | 199,3 |
| 1,116,3 | . . . . . | 1,587,0 | 1,437,0 | 1,438,7 |

## SECTION G.—EXPENDITURE ON PRODUCTIVE PUBLIC WORKS (REVENUE ACCOUNT.)

159. There is a saving in the contribution to Provident Fund in 1881-82, because on alteration from half-yearly to yearly payments only one half-year's payments comes into the year's accounts.

The payments against the estimate of 145,5, for interest on Debenture Stock, will be found under the head of 41—Interest.

The payment for Land is an arrear charge belonging to the East India Railway as a Guaranteed Railway.

### 39.—Irrigation and Navigation (Working and Maintenance).

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | IMPERIAL— | | | |
| 76,2 | Punjab | 90,9 | 90,9 | 85,3 |
| 87,0 | Madras | 69,7 | 76,4 | 73,0 |
| 19,8 | Bombay | 30,0 | 23,7 | 22,2 |
| 183,0 | TOTAL | 190,6 | 191,0 | 180,5 |
| | PROVINCIAL— | | | |
| 99,2 | Bengal | 90,5 | 94,5 | 104,1 |
| 143,2 | North-West Provinces | 144,9 | 167,5 | 170,9 |
| 242,4 | TOTAL | 235,4 | 262,0 | 275,0 |
| 1 | ENGLAND | 0 | 0 | 2 |
| 425,5 | TOTAL | 426,0 | 453,0 | 455,7 |

160. In the Imperial portion the revised estimate provided a considerable sum for repairs in Madras of damage caused by the cyclone of November 1880, and the increased charge was just met by savings in Bombay.

The short outlay, as compared with the Revised estimate, is on the Bari Doab and Western Jumna Canals in the Punjab, and in the Godaveri Delta system in Madras and is ascribed to lateness of sanction of estimates.

161 Under Provincial, there is on the whole an excess of expenditure over estimate of 39,4. Of this amount 17,3 represents the Eastern Jumna Canal, transferred to the category of Productive Public Works only after the Budget estimates were framed, and the rest is explained as the cost of repairs not foreseen at the time of the estimates, and only partly allowed for in the Revised estimates.

### 40.—Madras Irrigation and Canal Company (Interest, &c.)

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 50,0 | Interest | 33,2 | 50,2 | 50,0 |
| 5 | Land and Control | —2 | —2 | 5 |
| 50,5 | | 33,0 | 50,0 | 50,5 |

162. At the time of the estimates the purchase of the undertaking by the Secretary of State was in contemplation, and interest was therefore provided for only part of the year. The purchase was not, however, effected.

### 41.—Interest on Debt incurred for Productive Public Works.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts |

## SECTION G.—EXPENDITURE ON PRODUCTIVE PUBLIC WORKS (REVENUE ACCOUNT.)

163. The charges placed against State Railways, Irrigation and Public Improvements are reckoned as follows :—

| | State Railways. | Irrigation. | Public Improvements. | Total. | Interest. Rate per cent. | Interest. Amount. |
|---|---|---|---|---|---|---|
| Capital Expenditure during 1880-81 . | 2,553,6 | 614,5 | 70,0 | 3,238,1 | 4½ | 145,7 |
| Capital Account at end of 1880-81 . | 28,047,0 | 17,257,7 | 414,3 | 45,719,0 | 4½ | 2,057,3 |
| Capital transferred from Ordinary, 1881-82 . . . . . | 21,5 | 619,1 | ... | 640,6 | ... | ... |
| Capital Expenditure during 1881-82 . | 1,635,2 | 565,8 | 68,9 | 2,269.9 | 4 | 90,8 |
| Capital Account at end of 1881-82, being the sum of the last three lines . . . . . | 29,703.7 | 18,442,6 | 483,2 | 48,629,5 | 4 | 1,945,2 |

(All the above figures will be found in Finance and Revenue Accounts, No. 4.)

Now, the charge for interest is reckoned upon the amount of the Capital account at the end of the year, less half the amount spent during the year (which is a little more convenient than saying interest upon Capital account at beginning of year, *plus* half interest upon amount spent during year.) We thus get for 1880-81, 2,057,3—72,8=1,984,5, and for 1881-82, 1,945,2—45,4=1,899,8 ; composed, if the reckoning be made in detail upon the figures above given, as follows :

| | State Railway. | Irrigation. | Public Improvements. | Total. |
|---|---|---|---|---|
| 1880-81 . . . . . | 1,204,7 | 762,7 | 17,1 | 1,984,5 |
| 1881-82 . . . . . | 1,155.5 | 726,4 | 17.9 | 1,899,8 |

These figures do not represent any particular part of the interest charges paid by Government, but only the portion of the general interest charge which may be reckoned as paid on debt incurred for Productive Public Works. Till 1880-81 this was reckoned at 4½ per cent., but from 1881-82 the reckoning has been changed to 4 per cent. on the ground that the mass of the Indian debt now bears that rate of interest. But there is one loan, specially reserved for Railway construction, on which Government has still to bear 4½ per cent. interest, namely the Indore State Railway loan of £1,000,0, and the extra half per cent., or 5,0. must be charged on this account even after the general rate is reduced to 4. Accordingly it will be seen that the 1,155,5 above stated, when it passes into the account, becomes by this addition 1,160,5.

164. The figures against the East India Railway in the first section of the account are the calculation at contract rates (4½ per cent. interest) on the amount advanced by Government under the heads Capital, Capital Advance, Stores, and Stores Advance.

The difference between the Budget estimate and the actual result in this first part of the account is simply the reduction of the rate of charge from 4½ to 4 per cent, carried out under the orders of 10th February 1882. But for this the charge would have almost exactly tallied with the estimate.

165. The figures in the lower portion of the account differ from estimate chiefly in consequence of some changes of accounting. The interest on East Indian Railway debentures was provided under the head, 38-East India Railway, but it has been determined that the proper place for it in the accounts is 41,-Interest. On the other hand the 3½ per cent. stock, raised in England to meet the discharge of the debentures, is to be treated as ordinary debt; the interest will be treated as that on ordinary debt, but as the payment on discharge is taken as an advance on Capital account (Head 53), it is practically removed to the Protective Public Works Account of interest by being carried into the East India Railway figure, 81,0, shewn in the first part of the account. The 3½ per cent. redemption stock was *not provided for in Budget, as it was sanctioned by Act of Parliament only in* August 1881. It involves a reduction of the annuity charge under East India Railway.

## SECTION H.—RECEIPTS ON PUBLIC WORKS NOT CLASSED AS PRODUCTIVE.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 745,2 | RECEIPTS . . . . | 665,0 | 688,0 | 727,8 |

166. Of the amount on the Budget estimates about 50,0 was, in the accounts transferred with the Eastern Jumna Canal to the Productive head. But this 50,0 and as much more was made up by better receipts of rents, and especially Tolls and Ferries, under the heads of Military Works and Buildings and Roads.

## XXXI.—State Railways.

167. This head is blank in the accounts of 1881-82, as the revenue from the two lines charged under "Frontier Railways" have been compiled with the Indus Valley and the Punjab Northern lines respectively; and no lines had yet been opened which had been charged either as Protective or as "Ordinary" Railways. The head will be opened in the accounts of 1882-83.

## XXXII.—Subsidized Railways.

| | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|
| BENGAL CENTRAL RAILWAY . . . . . | 0,0 | 2,3 | 2.3 |

168. This is a small receipt of interest on the money deposited by the Company in England and is taken against the charge of interest on advances to them.

## XXXIII.—Irrigation and Navigation.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 5+ 0 | India . . . | 4+ 0 | 4+ 0 | 3+ 0 |
| 0+ 1,8 | Burma . . . | 0+ 3,6 | 0+ 2,8 | 0+ 3,2 |
| ... | Assam . . . | ... | 0+ 2 | 0+ 2 |
| 1,4+ 66,9 | Bengal . . . | 1,0+ 68,3 | 1,5+ 70,2 | 1,3+ 71,3 |
| 3+ 90,4 | N. W. P. . . | 0+ 67,7 | 0+ 11,7 | 1+ 11,8 |
| 10,4+ 1,3 | Punjab . . . | 10,2+ 2,3 | 11,0+ 2,0 | 13,6+ 2,9 |
| 1,6+ 12,2 | Madras . . . | 1,6+ 11,5 | 2,6+ 11,5 | 3,1+ 12,6 |
| 11,1+ 0 | Bombay . . | 13,4+ 0 | 15,1+ 0 | 10,8+ 0 |
| 25,3+172,6 | TOTAL . | 26,6+153,4 | 30,6+ 98,4 | 29,2+102,0 |
| 197,9 | | 180,0 | 129.0 | 131,2 |

169. In the above sets of figures the first is Imperial and the second Provincial with a very small item, in Bengal, of Local. In all these cases the accounts have fairly followed and are a little better than the estimates. The decrease in the North-Western Provinces is not real, being due to the transfer of the Eastern Jumna Canal to the Productive Account, where its revenue, 73,9, will be found to have given a corresponding increase over estimate.

## XXXIV.—Military Works.

| 1880-81. Accounts. | | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|---|
| 20,2 | India . . . . . | 22,1 | 22,5 | 27,2 |
| 2,1 | Madras . . . . . | 2,1 | 2,8 | 4,7 |
| 11,1 | Bombay . . . . . | 8,9 | 11,7 | 12,1 |
| 2,7 | Other Provinces . . . . . | 2,2 | 2,3 | 6,3 |
| 36,1 | TOTAL . | 35,6 | 39.3 | 50,3 |

170. The increase under India is ascribed to the value of sheet iron received from the Field Engineer Park, Thull Brigade, and to increases in rents of buildings and in sale of old materials. Rents and sales also account for the increase in Madras. Under other Provinces, Burmah, where Military works are provincial, gave an increase, in the accounts, of 1,8, chiefly by the sale of dismantled Military buildings in the Rangoon district.

## SECTION H.—RECEIPTS ON PUBLIC WORKS NOT CLASSED AS PRODUCTIVE.

### XXXV.—Civil Buildings, Roads, and Services.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | IMPERIAL— | | | |
| 16,8 | India . . | 16,7 | 19,2 | 23,3 |
| 13,8 | England . . | 12,5 | 13,7 | 13,6 |
| 30,6 | TOTAL . | 29,2 | 32,9 | 36,9 |
| | PROVINCIAL AND LOCAL— | | | |
| 0+ 1,8 | India . . . | 0+ 1,7 | 0+ 1,7 | 0+ 1,8 |
| 2,2+ 9,3 | Central Provinces . | 2,5+ 7,6 | 2,5+ 8,7 | 2,9+ 12,9 |
| 5,0+ 4,2 | Burmah . . | 10,5+ 4,2 | 11,5+ 4,3 | 10,9+ 4,1 |
| 7+ 9,5 | Assam . . | 5+ 8,0 | 6+ 9,3 | 8+ 10,5 |
| 16,0+ 52,9 | Bengal . . | 17,0+ 51,0 | 17,0+ 52,0 | 24,0+ 53,6 |
| 44,6+ 104,3 | N.-W. P. . . | 10,0+ 99,2 | 13,1+108,2 | 20,9+105,8 |
| 2,3+ 60,0 | Punjab . . | 2,1+ 53,9 | 2,4+ 62,5 | 2,6+ 62,4 |
| 19,8+ 54,2 | Madras . . | 13,0+ 47,6 | 17,0+ 56,6 | 26,4+ 59,9 |
| 63,7+ 30,1 | Bombay . . | 61,6+ 29,8 | 65,6+ 51,8 | 65,0+ 42,6 |
| 154,3+ 326,3 | TOTAL . | 117,2+ 303,0 | 129,7+355,1 | 153,5+353,6 |
| 511,2 | TOTAL ALL . | 449,4 | 517,7 | 544,0 |

171. Under Imperial the chief items of difference are +10,9 in Bengal, largely due to receipts by sale of old materials in dismantling the Financial Offices and the buildings on the site of the new Military Account Offices in Calcutta, and the Chandmari Building at Howrah, and to large recoveries of deferred College Fees; +2,5 in Madras, rents of buildings, sale of old materials and deferred College Fees; —5,0 in Bombay, owing to the transfer to the Civil Department of realizations by sale of Esplanade Lands.

The English Receipts of fees at the Royal Engineering College were increased by new regulations which disallowed deferred payments.

172. The Provincial and Local Receipts have been shewn in two figures, of which the first represents the share of the Public Works Department and the second that of Civil Officers.

Under the first the differences are +7,0 in Bengal, chiefly by the receipt from the Northern Bengal Railway of 7,8, the traffic receipts of the service between Kawnia and Doobree; +10,9 in North-Western Provinces, chiefly by receipts of the Roorkee workshops which brought in 1882 more than the revised estimate; +13,4 in Madras, chiefly by the disposal of stock at the Presidency workshops.

173. The receipts "in charge of Civil Officers" are almost all "Tolls and Ferries." Indeed if we except those of the "Bhabar Improvement Fund" in the North-Western Provinces (about 2,0 a year); some miscellaneous receipts of Local Funds in Madras; and an exceptional receipt in Bombay by the sale of a road to the Bombay-Baroda Railway; everything else may be called "Tolls and Ferries." These, it will be seen, were somewhat more productive this year than last year (the actual figure, *i. e.*, 287,5 against 276,6), but the estimates were too safely made, especially in the North-Western Provinces, the Punjab and Madras.

## SECTION H.—EXPENDITURE ON PUBLIC WORKS NOT CLASSED AS PRODUCTIVE.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 7,392,7 | EXPENDITURE . . | 7,168,0 | 6,730,0 | 6,393,5 |

174. The mass of the saving under this head is due to a transfer from Frontier Railways to "War Operations" of 560,0 of expenditure incurred upon the abandoned portion of the Kandahar Railway. Besides this there was a saving of about 140,0 in the expenditure on irrigation. Under Buildings and Roads excess expenditure in Public Works Department was made up for by the inability of the Bengal Civil officers to work up to their sanctions.

## SECTION H.—EXPENDITURE ON PUBLIC WORKS NOT CLASSED AS PRODUCTIVE.

### 42.—State Railways Capital Account.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| | IMPERIAL— | | | |
| 0 | Punjab Northern Railway | 118,1 | 0 | 0 |
| 0 | Bhopal Railway | 70,0 | 70,0 | 70,0 |
| 22,1 | Director General's and Store-keeper | 23,2 | 23,9 | 22,8 |
| 29,6 | Other Establishments | 35,0 | 8,5 | 8,4 |
| ... | Calcutta Docking Company | 12,0 | ... | 0 |
| 4,9 | Other Charges | 33,7 | 30,7 | 20,2 |
| 56,6 | TOTAL | 292,0 | 133,1 | 121,4 |
| | PROVINCIAL— | | | |
| 12,2 | Diamond Harbour Railway | 75,0 | 100,0 | 91,8 |
| 0 | Dinagepur Railway | 44,4 | 25,0 | 20,3 |
| 4,7 | Various Railway Surveys | 5,6 | 20,2 | 11,0 |
| 3,5 | Other Charges | 0 | 2,7 | 3,2 |
| 20,4 | TOTAL | 125,0 | 147,9 | 126,3 |
| 77.0 | TOTAL BOTH | 417,0 | 281,0 | 247,7 |

175 The saving in the revised estimates for Imperial, as compared with the Budget, was due (1) to the transfer of part of the Punjab Northern Railway works (118,1) to the Productive Account, (2) to savings in establishment, 26,5, and to a contemplated purchase of the Calcutta Docking Company's estate (12,0) not being carried out. The Budget included a Reserve of 20,0, which was during the year appropriated to surveys for new lines. On the other hand, the Provincial estimate was raised from 125,0 to 147,9, chiefly to provide for additional works on the Sunapur-Diamond-Harbour Railway.

Neither the Imperial nor the Provincial estimate thus altered was worked up to. The saving arose from short expenditure of the grant for the Railway just mentioned and for the Dinagepur Railway Also, under Provincial, a refund to this head was made, first of the charges for survey of the Bengal Central Railway by the Company which took over the works, and second of the similar charge of the Southern Mahratta Railway, which was passed over to Protective Works.

### 43.—State Railways Working and Maintenance.

176. This head is as yet blank for the reason stated upon the Revenue side.

### 44.—Subsidized Railways.

| 1880-81 Accounts | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts |
|---|---|---|---|---|
| 0 | BENGAL CENTRAL RAILWAY | 0 | 39 0 | 17,5 |

177. The transactions of this Company were not arranged for at the time of the Budget estimates. The revised provided 4,3 for interest on advances, and 34,7 for outlay on taking up land Of this last amount only 13,2 were spent by the end of the year.

### 45.—Frontier Railways.

| 1880-81 Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts |
|---|---|---|---|---|
| 786,0 | Kandahar Railway | 386,0 | 428,7 | 420,9 |
| 1,021,5 | Punjab Railway, Northern Section | | | |
| —208,6 | Stores, India | | | |
| 694,7 | Stores, England | 404,0 | 340,0 | 363,5 |
| 2,293,6 | TOTAL | 790,0 | 768,7 | 784,4 |
| | Deduct transferred to War Account | .. | 560,0 | 559,7 |
| | NET | 790,0 | 208,7 | 224 7 |

178. The last item must for the present be left out of the account.

179. Taking up the others, the Budget provision was made for the Kandahar Railway and for the Punjab Northern beyond Pindi, and the estimate was increased by 160,0 in the course of the year, chiefly with a view to early completion of the works. The expenditure on the whole was somewhat more than the originally intended 790,0, but in making up the

**SECTION H.—EXPENDITURE ON PUBLIC WORKS NOT CLASSED AS PRODUCTIVE.**

account it comes out less 784,4 because of considerable transfers of stores, originally charged against this head, for use on Protective Railways. This transfer gives a credit to this head by debit to Protective Works.

180. The last entry represents a transaction not contemplated at the time of the Budget, namely, the abandonment of the upper section of the Kandahar Railway and the charging off as War losses the whole of the final expenditure incurred upon it as well as losses and depreciation of stores. A minus entry is therefore brought into this Account, which removes from the Public Works Accounts all expenditure incurred upon this section of the Railway as well as some similar losses on the Punjab Northern.

## 46.—Irrigation and Navigation.

| 1880-81. Accounts. | | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|---|
| 5,5+ 0 | India | . . . | 12,2+ 0 | 8,9+ 0 | 7,3+ 0 |
| 0+ 42,7 | Burmah | . . | 0+ 42,7 | 0+ 37,1 | 0+ 49,8 |
| 0+ 2,8 | Assam | . . | 0+ 15,9 | 0+ 3,1 | 0+ 3,6 |
| 40,8+144,4 | Bengal | . . | 85,0+309,7 | 85,0+281,8 | 77,7+262,1 |
| 1,0+ 44,2 | N.-W. Provinces | . | 1,8+ 48,4 | 6+ 21,5 | 6+ 21,6 |
| 59,5+ 1,1 | Punjab | . . | 40,0+ 1,7 | 49,0+ 1,6 | 35,5+ 1,7 |
| 145,3+ 30,7 | Madras | . . | 169,7+ 32,8 | 174,0+ 32,8 | 154,1+ 25,2 |
| 185,8+ 0 | Bombay | . . | 157,0+ 0 | 183,4+ 0 | 150,7+ 0 |
| 5,3+ 0 | England | . . | 1+ 0 | 0+ 0 | ... ... |
| 443,2+265,9 | TOTAL | . | 474,8+451,2 | 500,9+377,9 | 425,9+364,0 |
| 709,1 | | | 926,0 | 878,8 | 789,9 |

181. In the above table the first set of figures is the Imperial expenditure and the second is the Provincial with a very small addition of Local.

In the Imperial column the revised estimate anticipated excess expenditure of 4,3 in Madras, due to repairs required after the Cyclone of November 1880, and of 26,4 in Bombay owing to additional grants for works in Sind.

The expenditure in all provinces fell short of the grants made, but in Bombay the saving is due chiefly to reduction in the proportion of Establishment charges debited to "Imperial."

In the Provincial Expenditure there is, in Burmah, a considerable increase, due to charges for clearing creeks and improving water communication, provided for under Buildings and Roads having been taken in the accounts under this more appropriate head In Bengal the saving is chiefly in the non-utilization of grants for the Calcutta Canals; and in the North-Western Provinces, it is owing to the transfer of the Eastern Jumna Canal (Expenditure 17,3) to the Productive class.

## 47.—Military Works.

| 1880-81 Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 639,9 | India . . . . . | 720,7 | 733,4 | 714,7 |
| 27,8 | Central Provinces . . . . | 35,0 | 35,0 | 30,9 |
| 49,4 | Burmah (Provincial) . . . | 50,2 | 50,1 | 50,5 |
| 9,3 | Assam . . . . . | 15,0 | 30,2 | 22,0 |
| 4,4 | Bengal . . . . . | 6,0 | 19,2 | 14,4 |
| 6,1 | North-West Provinces . . . . | 2,0 | 3,2 | 2,8 |
| 36,2 | Punjab . . . . . | 55,0 | 63,5 | 63,7 |
| 52,6 | Madras . . . . . | 47,0 | 48,7 | 49,0 |
| 143,5 | Bombay . . . . . | 130,0 | 145,2 | 122,5 |
| 969,2 | TOTAL . | 1,060,9 | 1,128,5 | 1,070,5 |

182. The original grants for the year, 1,060,9, were increased by the balance out of the yearly allowance of one crore, imperial, which had come over unspent from 1880-81. The permitted expenditure is therefore measured rather by the revised than by the

original estimates. They include in Assam additional grants for Military buildings at Kohima, and in Bombay additional grants for the barracks at Colaba and Wanowri

There was generally a saving, ascribed to failure to work up to the estimates in the following particulars :—

India, saving of 31,7 on grants for original works; Central Provinces, Sitabuldi Fort, and Kamptee Barrack, No. 8; Assam, Military communications and frontier outposts; Bombay, hospital for British Infantry at Ahmedabad.

## 48.—Civil Buildings, Roads, and Services.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts |
|---|---|---|---|---|
| 103,4 | India . . . | 160,4 | 208.4 | 204,1 |
| 65,7 | Bengal . . . | 77,7 | 147.8 | 138,0 |
| 175,5 | Other Provinces . | 121,3 | 141,8 | 124,5 |
| 88,2 | England . . | 95,6 | 101,0 | 96,0 |
| 437,8 | | 455,0 | 599,0 | 562,6 |
| | PROVINCIAL AND LOCAL— | | | |
| 3,8+ 2,9 | India . . . | 3,4 + 2,4 | 5,2 + 2,7 | 4,3 + 1,6 |
| 86,8+ 26,8 | Central Provinces . | 84,7 + 32,0 | 93,1 + 32 0 | 93,3 + 34,2 |
| 185,4+ 6,2 | Burmah . . | 412,5 + 25,1 | 408,0 + 18,1 | 317,8 + 10,1 |
| 87,1+ 21,2 | Assam . . . | 125,1 + 33,7 | 104,8 + 29,1 | 99,4 + 28,5 |
| 407 1+ 380,5 | Bengal . . . | 530,0 + 477,4 | 661,9 + 400,1 | 668,7 + 397,0 |
| 401,0+ 42,0 | North-West Provinces . . | 431,1 + 41,4 | 432,4 + 50,7 | 414,2 + 42,4 |
| 261,0+ 3,6 | Punjab . . | 305,5 + 3,8 | 303,3 + 3,9 | 303,0 + 4,2 |
| 181,8+ 305 1 | Madras . . | 158,7 + 382,3 | 182,9 + 358,2 | 140,6 + 373,9 |
| 427,1+ 4,3 | Bombay . . | 465,0 + 5,0 | 488,9 + 19.2 | 481,9 + 17,5 |
| 2,101,4+ 804,6 | TOTAL . . | 2,516,0+ 1,003,1 | 2,670,5 + 914.0 | 2,562,2 + 918.4 |
| 2,906,0 | | 3,519,1 | 3,594,5 | 3,480,6 |
| 3,343,8 | TOTAL . . | 3,974,1 | 4,193,5 | 4,043,2 |

183. Under Imperial the revised estimate for India included the new buildings at Simla transferred from Punjab, while additional grants for the Koshalgarh-Thull road, and for grants towards the Simla Water Works, prevented a reduction in the total Punjab grant. The Bengal estimate was nearly doubled by additional grants made for the new Treasury Buildings, the new Central Press, and the new Military Account Offices; and there were smaller additional grants elsewhere. The additional grants in Bengal were not fully worked up to, and of the rest of the saving it is necessary to refer only to one item of 4,9 in the Punjab, which it was found had been provided already in the Home estimates.

184. The Provincial and Local figures I have separated into two parts, the first representing works in charge of the Public Works Department and the second those under the charge of Civil Officers.

In the first of these there is a large saving in Burmah, of which no explanation is given except that the officers could not work up to their estimates.

In Bengal, Madras, and Bombay very large sanctions were added by the Government after the Budget estimates were passed, but in Madras they were not worked up to

Under Works in charge of Civil Officers, the difference is almost entirely in Bengal, where only 397.0 was spent aginst 477,4 estimated. The estimates, which are chiefly those of District Road Fund, seem to have provided for more expenditure than the Committees could really overtake.

## MILITARY SERVICES.

| 1880-81, Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 4,221,7 | Receipts . | 3,875,0 | 3,541,0 | 3,821,5 |
| 28,086,2 | Expenditure . | 18,730,0 | 18,730,0 | 18,861,1 |
| 23,864,5 | Net Expenditure | 14,855,0 | 15,189,0 | 15,039,6 |

185. It will be found when we come to consideration of the detail that it is not possible to separate the receipts from the expenditure, because, especially in the War part of the account, the receipts are repeatedly merely *per contra* entries of the expenditure.

186. Taking them thus in the gross, the estimates have been fairly followed. The revised estimate and the actual figures, however, differ from the Budget estimates in two essential matters. First, they include 559,7 of expenditure which was not provided for in the Budget, and comes into the revised estimate and the accounts by a deduction under another head, so that instead of being respectively 324,0 and 174,6 worse than the Budget estimates, they are really 235,7 and 385,1 better. Moreover, there is still further a saving in the expenditure, as compared with the estimates, of 695,0, although this saving is prevented from appearing in the net figures, because it has been thrown back from the receipts of 1881-82 into those of 1880-81. There is therefore, on the whole, a real saving on the anticipated Military net expenditure of 1,080,1, which may be described as arising chiefly from the ampleness of the provision of 1,940,0 *plus* 270,0 made for winding up the War accounts (see Financial Statement of 25th March 1881, para. 15). In the accounts as actually made up, this real saving is thus shewn:—

| | |
|---|---|
| (1). By increased receipts in 1880-81 . . . | 695,0 |
| (2). By saving on the grant for Frontier Railways, 1881-82 . . . . . | 559,7 |
| TOTAL . | 1,254,7 |
| (3). By apparent excess against the Military estimates . . . . . | 174,6 |
| NET . | 1,080,1 |

## SECTION K.—RECEIPTS BY MILITARY DEPARTMENTS.

### XXXVI.—Army.

| 1880-81. Accounts | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 525,1 | INDIA— Commissariat . . . . . | 519,3 | 567,8 | 657,7 |
| 80,9 | Clothing . . . . . | 71,7 | 83,7 | 90,7 |
| 51,6 | Ordnance . . . . . | 66,5 | 72,3 | 102,9 |
| 179,5 | Other Receipts . . . . . | 128,5 | 178,7 | 242,1 |
| 837,1 | TOTAL INDIA . . . . | 777,0 | 902,5 | 1,093,4 |
| 87,0 | ENGLAND . . . . . | 37,0 | 66,5 | 68,3 |
| 924,1 | | 814,0 | 969,0 | 1,161,7 |

187. The increase in Commissariat recoveries is due to the recovery of the value of stores supplied to officers and others during the Kabul War, and to the sale of elephants and cattle on the reorganization of the Transport Department.

Under Clothing there were larger issues on payment, and there were special recoveries, first from Her Majesty's Government for clothing supplied to troops proceeding to South Africa, and secondly, from Native Governments supplied from the Madras stores.

The Ordnance recoveries were increased by sales to Native States and local authorities and by sales of condemned stores.

## SECTION K.—RECEIPTS BY MILITARY DEPARTMENTS.

Under "Other Receipts" the increase is chiefly due to the item of 89,1 under Miscellaneous in the "India" portion of the accounts which represents recoveries of amounts entered as expenditure in the former year's accounts, but which would appear to have been rather of the nature of advances. There were also some arrear adjustments under "Transport Service" giving accounts 20,0 against estimate 13,4.

188. Of the excess receipts in England, 17,0 is only nominal and appears also in the expenditure side. Of the rest 7,5 are for value of clothing brought with troops from India, and 5,9 on account of the Indian Troop Service.

## XXXVII.—Military Operations in Afghanistan.

| 1880-81. Accounts. | India— | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 319,1 | Commissariat . . . . . | ... | ... | 75,5 |
| 283,5 | Other Receipts . . . . . | ... | ... | 279,3 |
| 602,6 | | 61,0 | 267,0 | 354,8 |

| 3,297,6 | Total . | 3,061,0 | 2,572,0 | 2,659,8 |

189. The consideration of these figures is best taken up in connection with the war expenditure.

## SECTION K.—ARMY SERVICES.

### Expenditure.

### 49.—Army.

| 1880-81. Accounts. | India— | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 489,6 | Army and Garrison Staff . . . | 494,4 | 490,3 | 500,6 |
| 6,569,0 | Regimental Pay, &c. . . . . | 6,656,7 | 6,593,6 | 6,470,1 |
| 2,677,5 | Commissariat . . . . . | 2,384,4 | 3,009,0 | 3,178,8 |
| 420,3 | Medical . . . . . | 388.9 | 374,0 | 389,1 |
| 578,5 | Ordnance . . . . . | 533,2 | 557,8 | 576,9 |
| 1,210,2 | Other Effective Charges . . . | 1,230,5 | 1,289,6 | 1,336,0 |
| 620,0 | Pensions . . . . . | 628,9 | 635,2 | 641,1 |
| 82,2 | Other Non-Effective Charges . . . | 75,0 | 92,4 | 92,3 |
| 12,647,3 | Total India . | 12,392,0 | 13,041,9 | 13,184,9 |
| | England— | | | |
| 936,6 | Regimental Pay . . . . . | 850,0 | ... | 831,7 |
| 352,6 | Transport Charges . . . . | 328,1 | ... | 344,2 |
| 737,7 | Stores . . . . . | 620,4 | ... | 575,2 |
| 12,4 | Other Effective Services . . . | 73,0 | ... | 14,5 |
| 2,064,9 | Retired officers' pensions and other Non-effective Services . . . . | 2,195,5 | ... | 2,231,9 |
| 4,104,2 | Total England . | 4,067,0 | 4,084,2 | 3,997,5 |
| —33,8 | Unaudited Expenditure . . . | ... | —7,1 | +33,8 |
| 16,717,7 | Total . | 16,459,0 | 17,119,0 | 17,216,2 |

190. The small increase under Staff is due to excess expenditure in telegrams and to the staff of the Quetta district not provided for in the estimates.

In Regimental pay there was a saving owing to the reduction of the number of Royal Artillery from 86 to 77 batteries, and to the absence of the 14th Hussars in South Africa. The number of officers on leave was also unusually great during the year. On the other hand, part of the saving was spent in the increase of pay to officers and non-commissioned officers under the Royal Warrant of 25th June 1881.

## SECTION K.—ARMY SERVICES.

Under Commissariat there is a very large increase, which must be attributed, in a general way, to War expenditure, as will be more fully explained in the remarks made under that head.

The increase under Ordnance is due to a large quantity of copper supplied to the Dumdum factory by the Calcutta Mint, and there were also heavy charges for stores and arms supplied to the Indian troops at Malta and Cyprus.

Under other non-effective charges the increase over estimate is chiefly under Sea Transport (expenditure 125,9 against estimate 47,2). It was partly due to the employment of hired transports in the Burmah and other reliefs, and in withdrawing the troops *vid* Kurrachee from Afghanistan; and to arrear adjustments in connection with the Indian Troop service, which, as mentioned on the receipt side, have also brought in unexpected receipts.

The increase in Pensions and other non-effective charges is due to the new admissions to the pension lists not provided for in the estimates.

191. As regards the English accounts the saving in Regimental pay is the balance between a saving of 35,0 under Home charges and an increase of 16,0 in furlough allowances due to the large number of officers going to England on furlough after the Afghan War. Both of these are made up for in other parts of the account, for the first is due merely to the transfer of certain charges to the non-effective list, and the second, as already explained, has caused a saving in India.

The increase in Transport charges is the same as has been referred to on the receipt side as occurring on both sides of the account. The decrease in stores and in miscellaneous represents chiefly postponed payments.

Under non-effective charges there is the increase of 35,0 by transfer, as just mentioned from the effective charges, but there is an equal decrease owing to the Retirement Scheme not being taken advantage of to the extent anticipated.

## 50.—Military Operations in Afghanistan.

| 1880-81. Accounts. | | 1881-82. Budget. | 1881-82. Revised. | 1881-82. Accounts. |
|---|---|---|---|---|
| | INDIA— | | | |
| | Commissariat | 2,271,0 | 1,895,1 | 1,366,0 |
| | Other Military Charges | | | 281,5 |
| | Civil and Telegraph Charges | | | 258,1 |
| | Public Works Charges | ... | 560,0 | 571,5 |
| 10,452,8 | TOTAL AUDITED | 2,271,0 | 2,455,1 | 2,477,1 |
| 845,1 | ADD—Unaudited expenditure | | | |
| | DEDUCT—Expenditure already brought to account | ... | —845,1 | —845,1 |
| 11,297,9 | TOTAL INDIA | 2,271,0 | 1,610,0 | 1,632,0 |
| 70,6 | ADD—England | ... | 1,0 | 13,0 |
| 11,368,5 | TOTAL | 2,271,0 | 1,611,0 | 1,645,0 |

This and the corresponding head upon the receipt side shew the winding up of the accounts of the Afghan War. The Budget estimates anticipated the following:—

| | |
|---|---|
| (1). An estimate, considered to be liberal but having no pretensions to accuracy, of actual net expenditure in the last month or two of military occupation and till the troops were finally withdrawn | 1,940,0 |
| (2). Compensation to be paid to camel-owners | 270,0 |
| (3). Expenditure upon Frontier Railways | 790,0 |
| TOTAL | 3,000,0 |

The last item was in the Budget estimates taken under the Public Works heads, and the first two were taken as Receipts 61,0, and Expenditure 2,001,0 giving for the Indian account, total receipts 61,0, total expenditure 2,271,0, net expenditure 2,210,0.

## SECTION K.—ARMY SERVICES.

192. The expenditure on War account fell off much more rapidly than was expected and the accounts, made up for nine or ten months, gave the following revised estimate as against the 2,210,0 just mentioned:—

| | | |
|---|---|---|
| Receipts | | 267,0 |
| Expenditure audited and brought to account in 1881-82 | 1,895,1 | |
| Deduct portion of this which had been incurred before 1881-82, and had been charged off in the accounts, before audit, in 1880-81 | 845,1 | 1,050,0 |
| Actual Net War Expenditure | | 783,0 |
| Less than Estimate (2,210,0) | | 1,427,0 |

193. This apparent falling-off must be taken against the excess in the Ordinary Expenditure where the greater part of the following differences is specifically ascribable to the War accounts:—

| | Estimate. | Revised Estimate. |
|---|---|---|
| Commissariat Expenditure | 2,384,4 | 3,009,0 |
| Deduct Receipts | 510,3 | 567,8 |
| Nett | 1,874,1 | 2,441,2 |
| More than estimate | | 567,1 |

and the same may be said of other heads.

The Financial Statement of 8th March 1882, para. 85, states as follows:—

"It has, in fact, been found impossible to distinguish accurately between Ordinary and War Expenditure. Orders were issued in the course of last autumn that from January 1st, 1882, the charges on account of the troops beyond the frontier should be treated as Ordinary, only special charges, such as compensation for loss of camels, &c., being classified as War Expenditure. It cannot be doubted that a great deal of the expenditure debited to the Ordinary account really belongs to the War. The Military estimate must, in fact, be treated as a whole. The division into Ordinary and War Expenditure does not pretend to any great accuracy."

We obtain therefore a more correct view of the Revised Estimate of War expenditure by assuming as War expenditure the whole excess over Budget under the ordinary head of Army, that is 660,0 expenditure less 155,0 receipts, or 505,0 in the net expenditure.

The figures as finally made up do not differ materially from the Revised Estimates, if we exclude the special recovery of about 89,1 referred to in para. 187 and are—

| | Revised Estimate. | Account. |
|---|---|---|
| In *War Account*, excluding 560,0 (actual 559,7) of Public Works charge which belongs to a separate account | 1,895,1 | 1,917,4 |
| Deduct, as before, amount already brought to account | 845,1 | 845,1 |
| War expenditure of 1881-82 | 1,050,0 | 1,072,3 |
| Deduct War receipts | 267,0 | 354,8 |
| Net War Account | 783,0 | 717,5 |
| *In Ordinary Account*— | | |
| Excess of ordinary expenditure over estimates | 660,0 | 757,2 |
| Excess of ordinary receipts over estimates | 155,0 | 347,7 |
| Net | 505,0 | 409,5 |
| Total net War expenditure against the War estimate of 2,210,0 | 1,288,0 | 1,127,0 |

Difference 161,0 or 71,9 besides the 89,1 already alluded to.

194. We have now to note the remaining part of the War estimate of 790,0 on account of Frontier Railways.

The estimate was first of all raised to 950,0 by an addition of 160,0, of which the object was to enable the works on the Punjab Northern Railway to be carried out as speedily as possible. And the actual expenditure incurred against the estimate was about 784,4 as detailed under the head "Frontier Railways," the saving on the estimate of 950,0 being

due to large transfers of stores bought for these works to other Railways, and chiefly to the two now reckoned as "Protective Works."

The 790,0 originally provided was therefore nearly spent; but meantime another determination was come to, with reference to these Frontier Railways, namely, that as the upper section of the Kandahar Railway had been abandoned, the capital expended upon it and some other charges should no longer be regarded as expended upon "Frontier Railways," but be treated as a War loss and passed over to the accounts of the War. The amount thus passed over to be charged off as a War loss was 559,7. This expenditure had already come into the accounts under "Frontier Railways," chiefly in 1880-81, and it was accordingly now deducted from "Frontier Railways" and added to "Military Operations in Afghanistan;" it accounts for the "Public Works Charges" item in the above summary of the War expenditure.

105. As explained in last year's report, the English contribution of five millions sterling to the War was so taken in the Budget estimates of 1881-82 that the three millions credited in the estimates would exactly meet the provision for War expenditure above noted in paragraph . The revised estimates, based on the same principle, reduced to 2,305,0 the portion of the contribution to be credited in 1881-82, and as the actual credits of 1880-81 were fixed, upon this estimate, at 2,695,0, we must necessarily in the accounts of 1881-82 adhere to the credit of 2,305,0. But it will be seen that the real extent to which War items have affected the actuals of 1881-82 is as follows:—

| | | |
|---|---|---|
| Under "Frontier Railways," actual charges of the year . . | 784,4 | |
| DEDUCT—transfer of former years' expenditure to "Military Operations" . . . . . | 559,7 | |
| NET CHARGE . . | | 224,7 |
| Under "Army Ordinary" estimated excess above taken at . | | 409,5 |
| Under "Military Operations" Expenditure, including the above transfer of 559,7 . . . . . | 1,645,0 | |
| DEDUCT—receipts . . . . . | 354,8 | |
| | | 1,290.2 |
| Total expenditure for comparison with the credit, on account of English contribution, of 2,300,0 . . . . | | 1,924,4 |

196. So that, in the result, the War account has contributed 380,6 (namely 375,0 under Military operations proper, and 5,6 under Frontier Railways) towards the surplus of the year.

## SECTION L.—EXCHANGE ON TRANSACTIONS WITH LONDON.

### XXXVIII & 51.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 3,088,0 | On Secretary of State's Bills . . . | 3,439,8 | 3,645,2 | 3,798,5 |
| 36,3 | On other Transactions . . . . | 35,2 | 39,8 | 56,0 |
| 3,124,3 | TOTAL . | 3,475,0 | 3,685,0 | 3,854,5 |
| | DEDUCT— | | | |
| | On Guaranteed and Subsidized Companies' Transactions— | | | |
| 57,4 | Capital Transactions . . . | 57,5 | 42,2 | 38,5 |
| 103,1 | Revenue Stores . . . . | 96,2 | 85,1 | 67,7 |
| 68,0 | On Capital Transactions, East India Railway . . . . . | 150,0 | 102,2 | 46,7 |
| 179,0 | On Miscellaneous Transactions . . | 108,3 | 161,5 | 144.9 |
| 407,5 | | 412,0 | 391,0 | 297,8 |
| 2,716,8 | NET EXCHANGE . | 3,063,0 | 3,294,0 | 3,556,7 |

197. The loss on Secretary of State's Bills was calculated for £17,200,0 of Bills raised at 1*s.* 8*d.* The great demand for Bills at the end of the year raised the issues to £18,412,4, and the average rate being 19·895 pence the gross charge became 3,798,5.

Under "Other Transactions" an excess charge is attributable chiefly to an arrangement by which the Indian Treasuries were made to supply the Treasure Chest at Hongkong, the Secretary of State being reimbursed by the English Government. This has the effect of transferring to "Other Transactions" what would otherwise be dealt with as "Secretary of State s Bills."

198. The Exchange on Capital transactions of Guaranteed Railways is the difference between the £100 shewn on our accounts as the effect of a transaction of Rs. 1000, and the £91⅞ at which the same transaction is to pass on the Companies' accounts, when their contract rate is 1*s.* 10*d.* A reference to the net transactions in India, under Section S will shew that the Railways estimated net receipts (excluding the Oudh and Rohilkhund Railway on which there is no Exchange transaction) of 638,2, whereas the actuals amounted only to 433,6. There was necessarily a corresponding diminution in the portion taken to Exchange.

The Revenue Stores adjustment is the further amount which the Railway Companies have to pay when they take over stores held on Capital account at 22 pence (mostly) and use them for Revenue purposes on which they are not entitled to better than the current Exchange. As the falling-off in receipts in Capital account is due mostly to the smaller demand for these stores-transfers, we find here also a smaller receipt under Exchange.

199. The Capital transactions in England by the East India Railway are brought on the Indian Books at 20 pence the rupee, so that the Capital outlay in England estimated in the Budget at 750,0 brought "Gain by Exchange" of 150,0 as a recovery of the "loss" charged on the Council Bills with which that 750,0 would be supplied. The revised estimate reduced these Capital transactions to 515.0 with a proportionate reduction of Exchange, and as they really amounted to 475.7 (net) the exchange came to only 95,1. We had, however, to write back an excess credit in last year's accounts of 48,4 and thus reduced the figure to 46,7.

200. Under "Miscellaneous Transactions" there was an increase both in Bombay and in Madras owing to realization from Native States of the price of Railway stores supplied to them.

## SECTION M.—PROVINCIAL ADJUSTMENT.

201. I have already shewn, para. 16, by what detailed improvements the original combined Imperial and Provincial Surplus, 148,0 of the Budget was increased by 3,954,5. It remains to show how these results were distributed between the Imperial and the Provincial shares of the accounts. Reverting for a moment to the details of the 3,954,5, we can construct the following table :—

| | Imperial. | Provincial. |
|---|---|---|
| Surplus or deficit, according to Budget . . . | 85,0 | —707,0 |
| Sum of the three figures printed in Italics in para. 16 | ... | 904,5 |
| Sum of the other figures, excluding the 39,9 "smaller differences" . . . . . | +3,583,6<br>—493,7 | |
| The smaller differences, 39,9, are shewn by the detailed accounts to be thus distributed . . . | 332,2 | +292,3 |
| Total, being surplus on the Revenues of 1881-82 . | 3,612,7 | 489,8 |

202. But the surplus as thus brought out was still further altered by grants made to Provincial Governments ; first, of 670,0 which had been resumed from them in 1879-80 and 1880-81, under the strain of the Afghan war, and of 360,0 with reference to the revision of provincial contracts. See para. 64 of the Financial Statement, March 8, 1882. Both these special grants and the original Provincial Allotment, in the present form of the accounts, take the shape of a transfer to the provincial account of what would otherwise be Imperial Land Revenue, and the sum of the two grants, 1,030,0, being a deduction from the Imperial and an addition to the Provincial share of revenue, alters the surpluses just stated from 3,612,7 Imperial and 489,8 Provincial to 2,582,7 Imperial and 1,519,8 Provincial. The former appears as surplus in the revenue account, the latter is charged off the revenue account and credited to the account of deposits.

## SECTION N.—EXPENDITURE ON PRODUCTIVE PUBLIC WORKS (CAPITAL ACCOUNT).

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 3,656,5 | EXPENDITURE . | 4,873,0 | 3,691,0 | 3,311,4 |

203. In addition to the usual 2½ crores for State Railways and Irrigation Works we had on the Budget estimates 860,0 of expenditure on East India Railway and 1,405,0 for purchase of the Madras Irrigation Company's undertaking. The last arrangement dropped for the time and disappears from the revised estimates.

204. The State Railway portion of the 2½ crores was duly spent, but a saving of 20 lakhs came on by the necessity of transferring this amount of stores against the grant for Protective Works. The irrigation portion was underspent, so that in all only 2,201,0 went against the annual 2,500,0. Of the East India Railway estimate of 860,0 only 456,0 were required, but a further charge of 586,0 in continuation of the purchase of the line comes against this head.

### 52.—State Railways.

| 280,3 | Indus Valley . . . . . | 190,2 | 322,0 | 317,8 |
| 617,8 | Punjab Northern . . . . . | ... | 120,6 | 79,2 |
| ... | Amritsar-Patankot . . . . . | ... | 20,0 | 20,2 |
| —33,9 | BOMBAY . . . . . | 20,0 | 3,3 | 2,5 |
| 2,630,4 | TOTAL . | 1,714,1 | 2,003,1 | 1,897,8 |
| ... | ADD—Reserve . . . . . | 85,9 | ... | ... |
| 76,8 | DEDUCT—Excess Credits Store Account . | ... | 66,2 | 262,6 |
| 2,553,6 | TOTAL . | 1,800,0 | 1,936,9 | 1,635,2 |
| 570,7 | Out of which in England . . . . | 458,0 | 445,0 | 439,3 |

205. When the accounts for 1880-81 were closed it was found that there had been short expenditure, chiefly in England, of 92,7, and this amount therefore became available for addition to the original estimates. Moreover, under orders by the Secretary of State the Jhelum-Pindi, and Lala-Musa-Miani sections of the Punjab Northern Railway were transferred, with their grant of 111,9, from the Ordinary to the Productive category. With these additions a total grant of 2,004,6 was admissible for Railways. The revised estimates showed additions to the expenditure on the Rajputana, Chattisgarh, Tirhoot Extension, and Indus Valley lines, but on the other hand estimated for only 20 out of 30 lakhs expenditure on Rangoon-Sittang line, the saving being caused both by delay in supply of sleepers from the Forest Department and by difficulty in finding labour. The estimates on the whole were short of the 2,004,6, chiefly because of the necessity for transferring stores to "Protective Railways" in order to fully utilize the grant under that head. This trans-

## SECTION N.—EXPENDITURE ON PRODUCTIVE PUBLIC WORKS (CAPITAL ACCOUNT).

fer in the end was even more than anticipated, and the deduction made from Capital expenditure was thus increased from 66,2 to 262,6.

206. Of the expenditure provided for in the Revised estimates, there were considerable savings on the Punjab Northern line (41,4), due chiefly to transfer of stores to other sections, and on the Tirhoot extension (16,8), due to delay in supply of stores, and to an amount reserved for payment to the Marine Department for steamers under construction not having been transferred. These amounts and some smaller savings, added to the credit received from Protective Works, made up the total short expenditure of 301,7 as compared with revised, or 164,8 as compared with original estimate.

### 53.—East Indian Railway.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| ... | Redemption of Annuity . . . | ... | 500,0 | 586,3 |
| 418,4 | Other Capital transactions . . | 860,0 | 535,0 | 455,2 |
| 418,4 | TOTAL . | 860,0 | 1,035,0 | 1,041,5 |

207. The first of these transactions is explained under the head of Interest on Debt for Productive Public Works, para. 165.

The second represents the capital expenditure, chiefly purchase of stores in England; it was very much over-estimated by the Company.

### 54.—Irrigation and Navigation.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| | BENGAL— | | | |
| 82,1 | Soane Project . . . . | 67,5 | 67,5 | 71,2 |
| 45,1 | Orissa Project . . . . | 37,5 | 52,5 | 33,3 |
| 23,0 | Midnapur Series . . . . | 10,0 | 20,0 | 11,1 |
| | N.-W. PROVINCES— | | | |
| 172,9 | Lower Ganges Canal . . | 162,6 | 129.0 | 108,4 |
| 23,5 | Other Works . . . | 37,4 | 31,0 | 23,8 |
| | PUNJAB— | | | |
| 286,2 | Sirhind Canal . . . | 330,0 | 332,2 | 315,1 |
| —85,9 | Less Contributions . . . | —105,4 | —110,3 | —129,4 |
| 50,3 | Other Works . . . . | 105,4 | 59,2 | 42,1 |
| 11,1 | MADRAS . . . . | 5,0 | 35,9 | 39,5 |
| | BOMBAY— | | | |
| 1,8 | Deccan . . . . | 22,0 | 22,0 | 14,4 |
| 4,4 | Sind . . . . | 8,0 | 8,0 | 36,3 |
| ... | RESERVE . . . . . | 78,0 | ... | ... |
| 614,5 | TOTAL . | 758,0 | 647,0 | 565,8 |
| 0 | Purchase of Madras Irrigation Company's undertaking . . . . . | 1,405,0 | 0 | 0 |
| 614,5 | TOTAL . | 2,163,0 | 647,0 | 565,8 |

208. The revised estimates show, as compared with Budget—(1) The transfer of the Swat River Canal Works, in Punjab, out of this head to Protective; (2) Additional works in Madras, (3) Anticipations of short expenditure in other respects. The expenditure was for the most part even less than anticipated in the Revised estimates, which is attributed chiefly to delay and alterations in designs, or delay in taking up land, and in Bengal to fever keeping back the works on the Soane Canal.

The last item anticipated an arrangement with the Madras Irrigation and Canal Company for the purchase of their undertaking, which, however, was not accepted by the Company within the year. The item, therefore, dropped out of the revised estimates.

### 55.—Miscellaneous Public Improvements.

| 1880-81. Accounts. | | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|---|
| 70,0 | Madras Harbour . . . . . | 70,0 | 72,0 | 68,9 |

209. This is the whole expenditure on the Madras Harbour Works for 1881-82, no part being charged to Ordinary.

## SECTION O.—PERMANENT DEBT.

| | 1881-82 Budget. | 1881-82 Revised. | Accounts. |
|---|---|---|---|
| INDIA— | | | |
| Incurred | 3,000,0 | 3,000,7 | 3,000,2 |
| Discharged | 30,8 | 230.3 | 205.4 |
| Net incurred | 2,969,2 | 2,770.4 | 2,794,8 |
| ENGLAND— | | | |
| Incurred | 2,105,0 | 1,110.3 | 1,205,6 |
| Discharged | 4,552,2 | 4,462,7 | 4,467.3 |
| Net discharged | 2,447,2 | 3,343.4 | 3,261,7 |
| NET INCURRED | 522,0 | —573,0 | —466 9 |

210. In India the Budget provided for raising a new loan of three crores, which was duly notified on 27th June and tendered for on 25th July. It was issued as part of the four per cent. loan of 1865, and was taken up at an average rate of Rs. 105-2·8 annas, giving a premium of 155,3. The price was a purely speculative one, based on anticipations that tenders would be made, as in the 1880-81 case, from Europe. When it was found that the whole burden of the loan would fall on the Indian market, the price went below par within a month of its issue, it then slightly recovered, and was quoted about 101 till the end of the year.

No discharge of loans was anticipated in the Budget, but when it was found that the provision of 750,0 for Famine Relief and Reduction of debt was not required for the former, notifications were issued for the discharge of the reduced four per cent. loan of 1881 (203,1) on 13th February, and of the first two Sicca Rupee loans (37.5) on 27th March The payments made before the end of the year amounted to 171,6 and 2,5 respectively.

211. The Home estimates provided for the discharge of East India Bonds, 4,487,2, falling due on 30th November 1881, and 65,0 India five per cent. stock, and these payments were duly made as far as they were claimed by the holders.

The loans to be raised were estimated at 700,0, balance of the 3½ per cent. loan of December 1880, and 1,405,0, required for the purchase of the Madras Irrigation Company's undertaking The receipts against the former were only 618,2, as 81,8 came in before March 31st, and the arrangement by which the second was required did not come off. On the other hand, by an arrangement not included in the estimates and sanctioned by Act of Parliament in August 1881, 586,3 was received by the issue of 3½ per cent. stock, and spent on the redemption of East India Railway annuities The receipt of 1,205,6 accordingly represents this 586,3 plus the receipts against the estimate of 700,0.

## SECTION P.—UNFUNDED DEBT.

| | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|
| INDIA— | | | |
| Incurred | 1,795,2 | 2,575,0 | 2,723,3 |
| Discharged | 1,962,4 | 2,237,5 | 2,390,9 |
| NET INCURRED | —167,2 | 337,5 | 332,4 |
| ENGLAND— | | | |
| Incurred | 2,003,8 | 1,504,0 | 1,254,0 |
| Discharged | 6 | 5 | 1,250,6 |
| NET INCURRED | 2,003,2 | 1,503,5 | 3,4 |
| NET INCURRED | 1,836,0 | 1,841,0 | 335,8 |

212. The change in the Indian figures was entirely in Savings Bank Deposits. The Budget anticipated thatthe reduction in the rate of interest from $4\frac{1}{6}$ to $3\frac{3}{4}$, and the withdrawal of some of the favorable conditions recently granted to depositors, would result in a net reduction of Deposit Balances by 377,0. The event shewed, however, that the high figures reached in 1880-81 were not only maintained but added to by 99,0.

213. The English estimates provided for a temporary loan of £2,000,0 for the discharge of the four millions of Bonds falling due on 30th November. However, the high Council Bill drawings reduced the necessity to £1,250,0, and even this was paid off before the year was out.

## SECTION Q.—DEPOSITS AND ADVANCES NOT BEARING INTEREST.

| | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|
| INDIA— | | | |
| Receipts . . . . . | 24,968,0 | 18,970,9 | 20,994,8 |
| Payments . . . . . | 25,764,0 | 17,092,6 | 19,337,7 |
| NET . | —796,0 | + 1,878,3 | + 1,657,1 |
| ENGLAND— | | | |
| Receipts . . . . . | 3,0 | 16,5 | 22,5 |
| Payments . . . . . | 2,503,0 | 1,818 8 | 1,820,6 |
| NET . | —2,500,0 | —1,802,3 | —1,798,1 |
| NET OF BOTH . | —3,296.0 | +76,0 | —141,0 |

214. In India the difference in the accounts as compared with Budget is +2,453,1 and is composed chiefly of two items -(1) An increase of provincial Balances by 1,519,8, against an estimated decrease by 707,0; (2) The 715,2 received by the Famine Commissioners for reduction of debt, according to a procedure not settled at the time of the estimates. The first of these is explained under the head of "Provincial Surplus" (Section M above) The second necessarily comes as a gross receipt under this head, because the charges taken against it being discharge of permanent debt are shewn under that section.

215. In the English accounts the difference +701,9 lies chiefly in the treatment of the English contribution for the Afghan War. In the Budget we expected to bring to credit 3,000,0 made up of the actual receipts of 500,0 from the English Exchequer and 2,500,0 charged *per contra* to a suspense account, as explained in last year's report. But as 695,0 of this last were taken into the accounts of 1880-81, the net charge under this section fell short by that amount.

216. There have been during the year vast credits to advances in the Military Department, namely, about 1,000,0, being the amount originally debited under that head but really representing unaudited expenditure. These are prevented from appearing in this final account as a net credit because of the *per contra* entry we make in debiting advances and crediting expenditure for the adjustment of the unaudited expenditure under "Army."

## SECTION R.—LOANS TO MUNICIPALITIES, NATIVE STATES, &c.

| | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|
| Net India Figure . . . | 102,0 | 170,0 | 195,2 |

217. The recoveries were better than anticipated, owing to more speedy repayments by some Native States under "India."

## SECTION S.—CAPITAL OF GUARANTEED AND SUBSIDIZED COMPANIES.

### Guaranteed Companies.

| | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|
| INDIA— | | | |
| Bombay Baroda and Central India . . | 100,8 | —9,2 | —4,4 |
| Eastern Bengal . . . . . | —1,8 | 30,2 | 33,1 |
| East India Railway . . . . | 0 | 0 | —17,1 |
| Great Indian Peninsula . . . . | 357,6 | 238,2 | 248,0 |
| Madras . . . . . | 82,6 | 73,3 | 82,3 |
| Oudh and Rohilkund . . . . | —150,0 | —110,0 | —82,1 |
| Sind, Punjab and Delhi . . . | 89,4 | 127,7 | 76 8 |
| South Indian . . . . | 9,6 | 4,8 | 14,9 |
| TOTAL . | 488,2 | 355,0 | 351,5 |
| Madras Irrigation, &c. . . . . | 0 | 0 | — 1,4 |
| | 488,2 | 355,0 | 350,1 |
| ENGLAND . . . . . | —1,004,2 | —796,0 | —852,5 |
| | —516,0 | —441,0 | —502,4 |

218. Most of the Railways shew smaller receipts in India than estimated, which, as the receipts mostly mean transfers to credit of Capital for stores held on Capital account, and issued for Revenue consumption, indicate less expenditure than anticipated in Budget.

The English figures are the difference between receipts of capital from the Companies concerned, and issues for expenditure, chiefly in procuring stores, paying establishment and occasionally paying off debentures The final figures differed from the estimate chiefly by an extra receipt of 200,0 on account of the Oudh and Rohilkund Railway.

## SECTION T.—REMITTANCES.

| | Budget. | 1881-82. Revised. | Accounts. |
|---|---|---|---|
| Money Orders (net) . . . . . | 0 | 18,0 | 19,4 |
| Other Local Remittances (net) . . . . | —15,0 | 3·3 | —129,5 |
| Other Departmental Accounts (net) . . . | 74,1 | —2,8 | 73,1 |
| Accounts between Civil and other Departments (net)— | | | |
| Post Office . . . . . | 0 | 0 | —64,5 |
| Telegraph . . . . . | 0 | 0 | — 3,5 |
| Marine . . . . . | 0 | 0 | 39,6 |
| Military . . . . . | 0 | 0 | 202,1 |
| Public Works . . . . . | 0 | 841,5 | 769,5 |
| Remittances in India . . . . . | 872,9 | 0 | 0 |
| Remittance account between England and India (net) . | —82,0 | —66,9 | —28,7 |
| TOTAL (NET) . | 850,0 | 793,1 | 877,5 |

219. These figures all practically shew the outstandings in account. None of them are of any importance, except the figures against Post Office, Military and Public Works. The first of these is the result of a write-back of 65,0, wrongly credited in 1880-81. The figure against Military means that the Military accounts have during the year brought up their account of receipts from the Civil Department, by 202,1, but the amount by which they were in arrear was already taken into account in 1880-81, by charging off a certain amount as unaudited expenditure.

220. The Public Works figure is thus explained. The cheques of the Public Works Department, which were outstanding on March 31st, 1881, amounted to 384,8, but they were then kept under a special Suspense account, in the section of Advances and Deposits. The account was however, in the course of the year, transferred to the account between Civil and Public Works Department, and thus we have in that account the excess credits representing cheques, outstanding on March 31st, 1882, without having the debits on account of cheques outstanding on March 31st, 1881, and paid in 1881-82. Public Works expenditure was very active in March, and the outstanding cheques have been ascertained to be at least 581,7. The rest of the credit was expected as the net transactions between the departments in 1880-81 was a debit of 139,1; but the account is being investigated in detail, and in fact the change of procedure regarding cheques, above alluded to, is one of the preparations for that investigation.

## SECTION U.—SECRETARY OF STATE'S BILLS.

221. The amount estimated for in the Budget was £17,200,0, being Rs. 20,640,000 at Exchange 20*d*. The actual drawings exceeded this by £1,212,4, the excess being due chiefly to the strong demand for Bills at the end of the year, which the flourishing state of the Indian Treasuries rendered it advisable to meet as far as possible.

The Bills drawn during the year are thus arranged by month of allotment:—

| | £ | Rs. | Rate in pence. |
|---|---|---|---|
| March 1881 | 205,8 | 2,47,8 | 19·94 |
| April ,, | 1,491,7 | 18,00,0 | 19·89 |
| May ,, | 1,357.4 | 16,50.0 | 19·74 |
| June ,, | 1,352,1 | 16,55,0 | 19·61 |
| July ,, | 868.8 | 10,61,4 | 19 64 |
| August ,, | 1,648,1 | 19,94,3 | 19·83 |
| September,, | 971,4 | 11,76.5 | 19·82 |
| October ,, | 1,087.5 | 13,12.3 | 19·89 |
| November,, | 1,686,1 | 20,35,0 | 19·88 |
| December,, | 1,415,3 | 17,04.0 | 19·93 |
| January 1882 | 2,358,2 | 28,27,5 | 20·02 |
| February ,, | 1,278,1 | 15,29,3 | 20·06 |
| March ,, | 2,691.9 | 32,17.8 | 20·08 |
| TOTAL | 18,412,4 | 2,22,10,9 | 19·89 |

And the payment account is as follows:—

| | £ | Rs. |
|---|---|---|
| Bills outstanding, March 31st, 1881 | 1,396,1 | 16,78,8 |
| Drawn in 1881-82 | 18,412,4 | 2,22,10,9 |
| TOTAL FOR PAYMENT | 19,808,5 | 2,38,89,7 |
| Paid in 1881-82 | 18,337.0 | 2,21,28,0 |
| Outstanding, March 31st, 1882 | 1,471.5 | 1,761,7 |

## SECTION V.—CASH BALANCE.

| | 1881-82. Budget. | Revised. | Accounts. |
|---|---|---|---|
| Opening Balance . . . . | 16,510,0 | 17,498,8 | 17,498,8 |
| Closing Balance . . . | 11,990,0 | 17,251,0 | 17,143,8 |
| Net Decrease . . . | 4,520,0 | 247,8 | 355,0 |

222. The result, in the accounts, better on the whole than the Budget by over four millions (4,165,0), is attributable chiefly to—

| | Balance, Better. | Balance, Worse |
|---|---|---|
| Imperial surplus of the year increased from 855,0 to 2,582 7 . | 1,727,7 | |
| Temporary Loan in England not raised . . . . | ... | 2,000,0 |
| Savings Banks deposits not reduced . . . . . | 476,0 | |
| Provincial balances increased instead of diminished . . | 2,226,8 | |
| Charge to Suspense, on account of English contribution to Afghan war, reduced . . . . . | 695,0 | |
| Amount set apart for reduction of debt, not utilized . . | 541,1 | |
| Total . . . . . | 5,666,6 | 2,000,0 |
| Net increase explained out of 4,165,0 . | 3,666,6 | |

So that a number of smaller differences explain the remaining increase of half a million

GOVERNMENT OF INDIA.

## HOME DEPARTMENT.

### EXAMINATION FOR CLERKSHIPS IN THE ESTABLISHMENTS OF THE SECRETARIATS OF THE GOVERNMENT OF INDIA.

No. $\frac{10}{380-390}$.

*Extract from the Proceedings of the Government of India, in the Home Department (Public),—under date Fort William, the 12th March 1883.*

READ the undermentioned papers on the subject of the examination in the clerical establishments of the Secretariat Offices of the Government of India and the Departments directly attached thereto :—

Home Department Resolution No. 31—1298-1308, dated 31st August 1882.

Home Department Notification No. 1836, dated 24th November 1882.

Letter from the Officiating Secretary to the Board of Examiners, No. 28, dated 21st February 1883, and enclosed list of candidates who appeared at the examination held in January 1883 and the number of marks gained by them.

Reports by the Examiners and by the Registrar to the Calcutta University on the Papers set and the results of the Examination.

### RESOLUTION.

THE Governor General in Council regrets to learn that, although 43 candidates presented themselves for Examination for Clerkships in the Upper Division and 157 for Clerkships in the Lower Division, no candidate has succeeded in passing for the Upper and only two for the Lower Division.

2. The Registrar of the University, to whom the selection of Examiners and supervision of the Examination papers was entrusted, reports that, in his opinion, the standard set for the Upper Division was not higher than that of the ordinary B. A. Examination, while the standard for the Lower Division was about equal to that of the F. A. Examination. The character of the papers was, however, designedly different from those usually set at the University Examinations, being shaped to test intelligence rather than acquirements.

3. It appears to be the general opinion of the Examiners that the class of candidates which came forward was not, taken as a whole, equal to that which presents itself at the University Examinations. It may be hoped that as the intention of Government to adhere to the system of filling up vacancies in its offices by competitive examination becomes better known, well educated young men will be more ready to avail themselves of the door thus opened for them into the public service.

4. The most discouraging feature in the Examination was the inability of the great majority of the candidates to draft a proper letter, or make anything like an intelligent précis of official correspondence. These are subjects that no doubt are only to be thoroughly mastered by daily practice, but more might be done in schools to impart at least the elements of letter-drafting and précis-writing.

5. While accepting the opinion of the Examiners as to the character of the papers set, the Governor General in Council is of opinion that the style and scope of the Examination may in some respects be open to re-consideration. This is a matter to which early attention will be given. Any revised rules that may be adopted will be published so as to give ample time for their study by all intending candidates.

6. The list of candidates with their marks will now be printed and circulated to the Heads of the Offices interested in the examinations, in order that appointments may be found without delay for the two candidates who have passed for the Lower Division. No appointment should be made to that Division in any office until it has been ascertained that these candidates are provided for. For the rest it is considered desirable that Heads of Offices should be at liberty to fill up existing vacancies by selecting from the list those candidates who have done well in several subjects, though they failed to pass the tests completely. This will, however, be a matter entirely within the discretion of the Heads of Offices. Meantime the orders in the Home Department Resolution No. 31—1298-1308, dated the 31st August 1882, restricting the power of appointing outsiders without examination and of promoting clerks from the Lower to the Upper Division, must for the current year remain temporarily in abeyance. But no clerk should be admitted or promoted without some sort of departmental examination as a test of efficiency.

---

ORDER.—Ordered, that a copy of this Resolution (with a copy of the list referred to) be forwarded for information and guidance to the several Departments of the Government of India and to the Heads of Offices under the Home Department noted on the margin, and that the Resolution be published in the Supplement to the *Gazette of India*.

Surgeon General with the Government of India
Sanitary Commissioner ditto
Secretary Board of Examiners
Registrar Calcutta University

(True Extract)

A. MACKENZIE,
*Secretary to the Government of India.*
